Non-Executive Chairman

Uniqueness of Altium Driving Value Creation

- Altium is a rare company and a genuine global corporation with users that operate in virtually all countries
- Expansiveness of our business extends to our strategic vision
 - We seek to transform the electronics industry through our cloud platform Altium 365
 - Altium 365 is the platform for all software engineering disciplines to collaborate to design and build electronics for manufactured products
- We are beginning a program of Board renewal and expansion

To achieve this vision, we are transforming ourselves in much the same way as we did in 2012 when we focused the Company exclusively on PCB design software

Internal use only

- FY21 was *a year like no other* at Altium as we undertook business model and organizational changes at the height of the global pandemic to set ourselves for our next phase of growth -
 - We pivoted to the cloud
 - We introduced term-based licenses
 - We separated our sales into high-volume and high-value
- Despite all this, and being an acquisition target, we returned to strong growth of 16% revenue in the second half
 - Annual recurring revenue grew by 29% and our recurring revenue to 65%
 - Adoption of Altium 365 accelerated
 - Our China and Octopart businesses delivered record performances

A strong finish to FY21 laid the foundation for a winning performance in FY22

Altium Commands Industry Leading Multiples

- Altium sits at the heart of the digital engineering ecosystem as the increasingly dominant provider of electronic design tools
- Altium Designer is the most widespread professional PCB design tool used by over 100,000 engineers worldwide
- Altium 365 is the world's first digital platform for the design and the realization of electronics hardware
 - Altium 365 now has 17,300 active users and 7,300 active accounts
 - 15% of seats are on cloud subscription and 40% in transition and 13% of accounts have moved to the cloud with a further 34% of accounts in transition

Altium's strong performance and long-term potential to disrupt the global electronics industry is recognized by the global engineering industry and is delivering industry leading multiples

- Accelerate adoption of Altium 365 and Nexar ecosystem
- Scale enterprise sales through strategic partnerships to expand TAM within the PCB market
- Roll-out our Digital Sales Platform with the first US Digital Hub and take our transactional sales global for expanded reach
- Expand Octopart TAM with its integration into Nexar
- Grow licence compliance in China and, in time, recurring revenue through *Altium 365 China*
- Launch Altimade and lay the foundation for smart manufacturing with high-profit margin

Altium's two engines of growth of CAD software and a Cloud platform are picking up a gear and powering performance

Director Fee Pool

- For the past six years we have not increased Directors' Fees or the Director Fee Pool
- Over the next two years, we intend to increase the size of the Altium Board to seven
- We will seek next generation, mainly US-based, directors who have experience and capability to assist Altium to create the global platform for electronics manufacturing
- Compensation for these new Directors will be benchmarked against US standards, rather than Australian ones

Altium intends to bring next generation Directors with renowned industry experience to support its ambition to create a global platform for electronics manufacturing

only

- A strong first four months of the fiscal 2022 year across the entire Altium Group
 - Term-based licenses, subscription revenue, renewal rates all growing well for core PCB
 - Octopart is out-performing with favorable industry tailwinds
 - China and Nexus are performing well
 - Altium 365 cloud adoption is accelerating

• Altium is on-track to achieve its guided range for the full year fiscal 2022:

- **Revenue** of US\$209 million to US\$217million (16-20% growth)
- Underlying **EBITDA margin** of 34-36%
- **ARR growth** of 23-27%

Altium will review its market guidance in February, and based on business momentum, is confident that it is not likely to be at the low end of the guided range

The Trends That Are Driving Altium's Growth

- It's estimated that the number of active IoT devices will surpass 25.4 billion in 2030.
- Every second, 127 devices hook up to the internet for the first time.
- IoT solutions have the potential to generate \$4-11 trillion in economic value by 2025.
- It's estimated that global IoT spending will total \$15 trillion in the six-year period between 2019 and 2025.
- COVID-19 drives further investments in the IoT enterprise sector
- At present, only 0.06% of devices that could be connected to the Internet actually are.

Source: Bloomberg 26 October 2021, Susquehanna Financial Group

Electronics hardware currently accounts for around 30% of the IoT total market value

Altium Delivering Strong Performance

- The adoption of Altium 365 has exceeded expectations with over 17,300 active users (up from 12,800 active users as reported in August) and over 7,300 active accounts (up from 6,000 active accounts as reported in August).
- Altium has 15% of its seats on cloud subscription and 40% are in transition. 13% of accounts have moved to the cloud with a further 34% of accounts in transition.
- Octopart grew by a record 42% in fiscal 2021 and has continued to grow strongly in the first four months of fiscal 2022.
- Demand for our PCB design software has returned and is growing.

Our confidence in our first half performance and our full year performance is very high

Four Flywheels for Dominance and Transformation

- *Cloud Adoption* - rapid development and adoption of Altium to further increase the gap with competitors and to lay the foundation for industry transformation.
- *Design Tools Adoption* - reinvention of transactional sales on a digital platform to take our transactional sales global.
- *Design Platform Adoption* - productization of solution selling to large scale adoption to grow a significant footprint in the high end of the PCB market.
- *Ecosystem Adoption* - building a network effect through industry partners and communities to unify and to bring transformation.

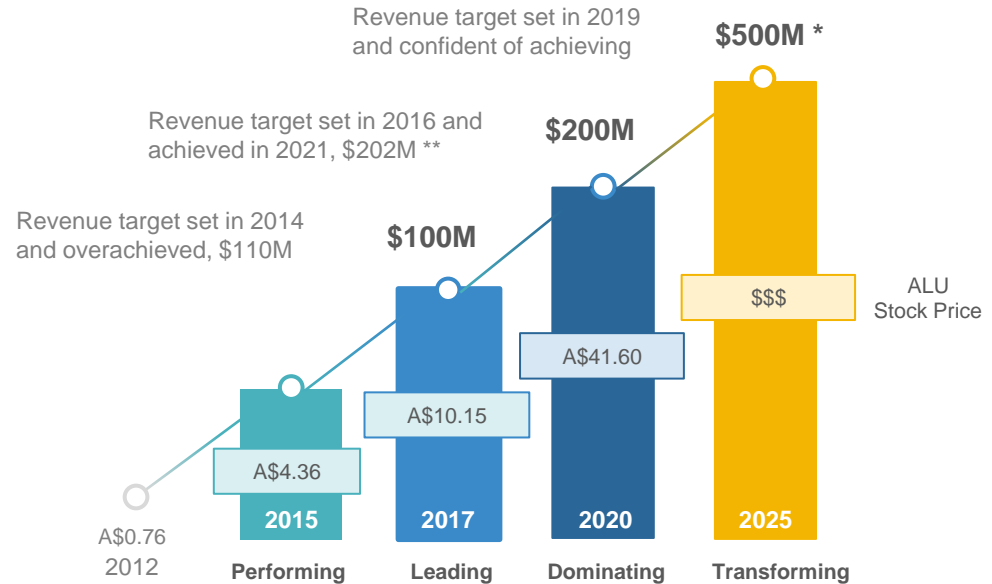

During the last twelve months Altium spun up four flywheels to power our next phase of growth and widen the gap with our competition

* The target revenue of \$500M may include 10-20% from future acquisitions.

Outstanding Value-Creation Track-Record

- A history of setting and achieving aggressive long-term financial targets.
- Eight consecutive years of double-digit revenue growth and expanding margin.
- Focused execution delivering strong operating leverage.
- Transparency for stakeholders and all-in reporting (no capitalization of R&D expenses).
- Value creation at every stage from leadership to dominance to industry transformation.

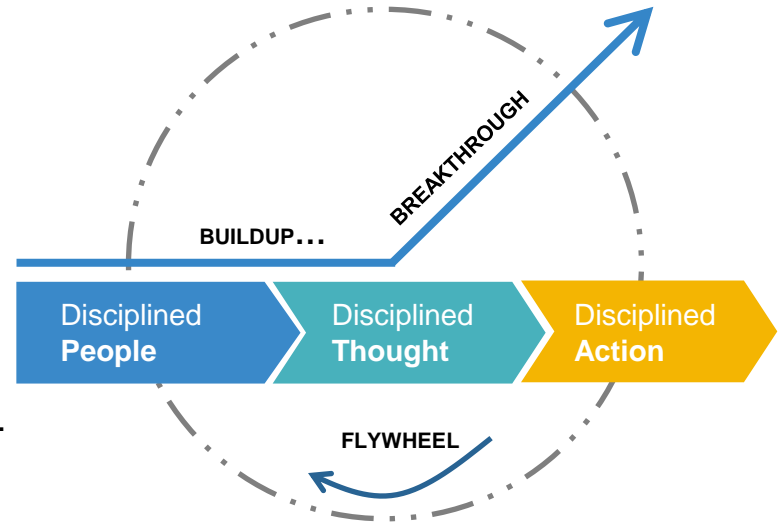

Delivering value to shareholders is a hallmark of Altium

* The target revenue of \$500M may include 10-20% from future acquisitions.

** \$202M includes the annualized revenue of TASKING in FY21 based on the achievement of earnout.

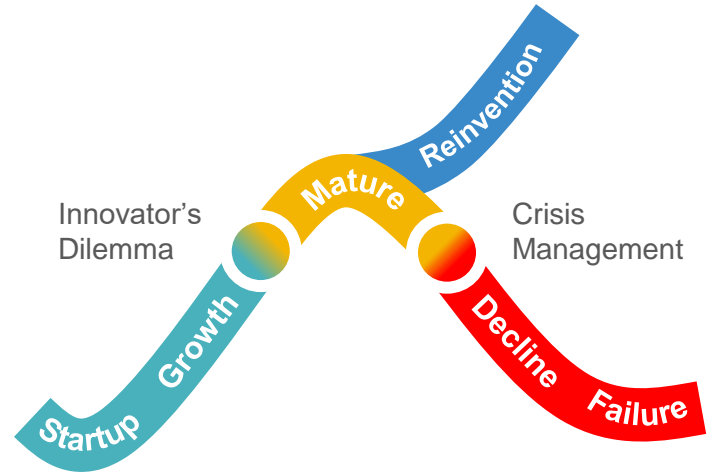

- Focus on the hard part first to deal with potential impediments then go full speed.
 - Eg: Altium 365 - attractiveness for customers, partners (performant, reliable, scalable) for a flywheel effect.
 - Eg: Bringing enterprise sales capability - perfect the recipe first then scale.
- Avoid the tyranny of "Or" and find a way to execute seemingly incompatible requirements at the same time.
 - Eg: regular Altium Designer software releases while undertaking a major overhaul with a 64-bit engine.

Altium innovates and disrupts aggressively while consistently delivering a strong financial performance more typical of a blue-chip company

- Agile execution while staying true to strategy.
- Value creation at every step to go after long-term goals without sacrificing short-term performance.
- Ability to grow and change without putting on unnecessary weight.
- Operational fluidity in resource deployment.
- Eg: Nexar introduction from concept to becoming a business unit at Altium.

Altium's unique ability to explore and innovate in a nimble way brings together its deep entrepreneurial roots with its demonstrated disciplined execution

- Spectrum of Customer Base - Altium supports everyone from small to large customers.
- Singular Focus - Altium has a relentless focus and commitment to PCB design.
- Competitors are Walled Gardens.
- Future is Cloud - The Cloud is enabling best of breed tools.

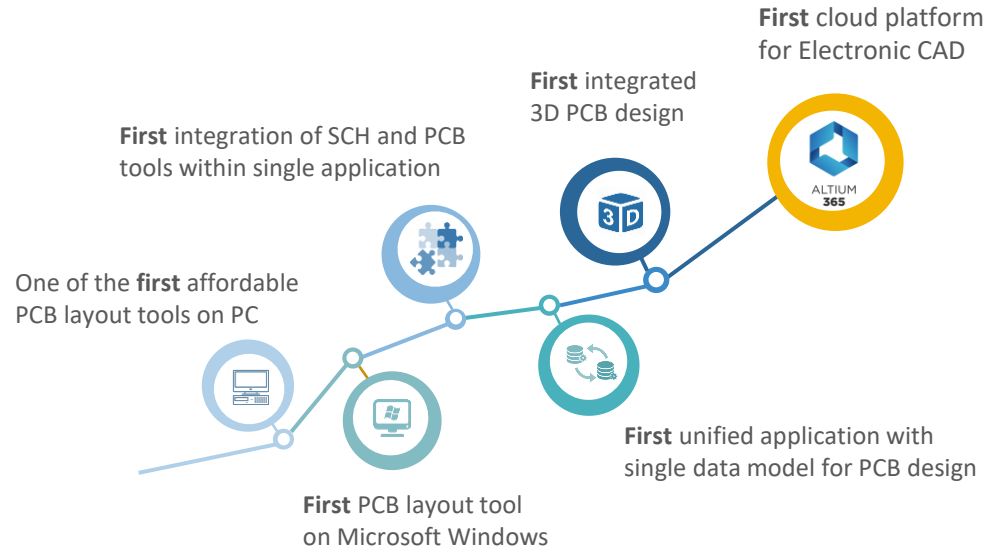

Customers come to us because we do PCB and nothing else - day in, day out, it is an all-consuming affair for us

World's Most Popular PCB Design Software

- Altium Designer is the most widespread professional PCB design tool used by over 100,000 engineers worldwide.
- The user experience differentiates Altium.
- Altium the only truly open platform in professional PCB design software industry.
- Altium 365 and Nexar work together to help PCB designers connect to the wider engineering ecosystem.

Over 35 years of innovation and development focused on a truly unified design environment makes Altium software the most widely used PCB design solution

Altium 365 Leveraging the Network Effect

- Growing and diverse customer base with multiple personas coming onto the Altium 365 platform.
- Deep engineering collaboration on Altium 365 platform is the key to create the network effect.
- Broadening personas, extending value proposition to all stakeholders in the value chain.
- 35% user growth on Altium 365 in the last three months.

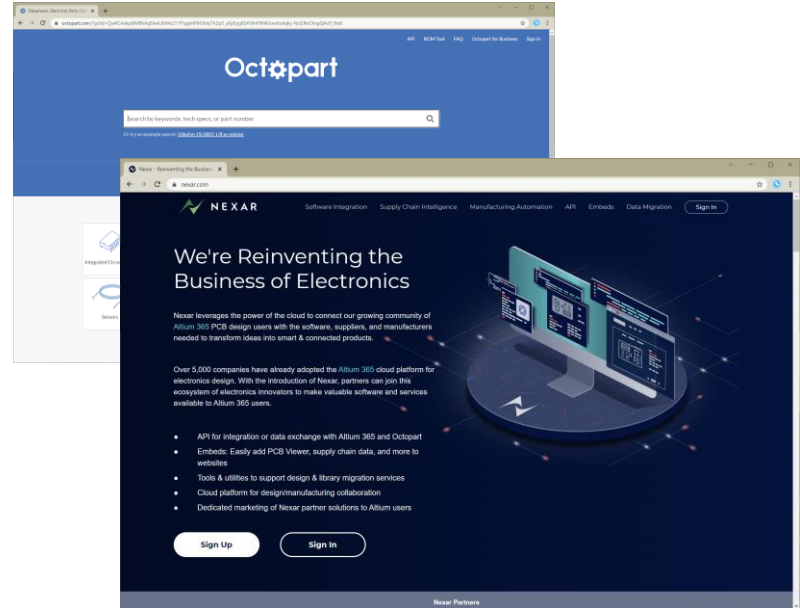

Altium 365 is the key platform for Altium to unify and to transform the global electronics industry

Growing Octopart Reach Through Nexar

- Nexar API unifies our API technologies and offers unrivalled capability for the industry.
- 600 million API calls were made in the last 12 months.
- For this calendar year, API call growth is up 121%.
- API revenue growth up 71% for first quarter of FY22.
- Altimade to be launched in second half of fiscal 2022 to bring cloud-based manufacturing onto Altium 365 and deliver an experience that has never been seen before in electronics.

Nexar combines Octopart and Altium 365 to deliver the most advanced digital platform for electronics hardware design

- Introduction of enterprise wide strategic and execution planning.
- 10 strategic campaigns for spinning up four flywheels to dominate and transform the electronics industry.
- Bringing digital transformation to our business systems with a deep connection with Altium 365 and Nexar ecosystem.
- Bringing next-level capabilities to enhance senior management.

Netflix organizational changes undertaken during the last twelve months have prepared Altium for the next phase of growth to dominate and transform the global electronics industry
