ASX: MGV

2021 ANNUAL GENERAL
MEETING
PRESENTATION

DISCLAIMER

This Presentation (**Presentation**) has been prepared by Musgrave Minerals Ltd (**MGV**) and is authorised for release by its Managing Director, Mr Robert Waugh. The information contained in this presentation is a professional opinion only and is given in good faith. Certain information in this document has been derived from third parties and though MGV has no reason to believe that it is not accurate, reliable or complete, it has not been independently audited or verified by MGV.

This Presentation contains general and background information about MGV's current activities as at the date of the Presentation and should not be considered to be comprehensive or to comprise of all the information that an investor should consider when making an investment decision. MGV is not responsible for providing updated information and assumes no responsibility to do so. Recipients should conduct their own investigations and perform their own analysis of the information, statements and opinions contained and this Presentation should be read in conjunction with MGV's other periodic and continuous disclosure announcements lodged with the ASX.

This Presentation is for information purposes only. Neither this nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of MGV shares in any jurisdiction. This Presentation is not investment advice or a recommendation to acquire MGV securities and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs. Recipients should seek professional advice before deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.

To the fullest extent permitted by law, MGV, its officers, employees, related bodies corporate, agents and advisers expressly disclaim, to the maximum extent permitted by law, all liabilities (however caused, including negligence) in respect of, make no representations regarding, and take no responsibility for, any part of this Presentation and make no representation or warranty as to the currency, accuracy, reliability or completeness of any information, statements, opinions, conclusions or representations contained in this Presentation. No responsibility for any errors or omissions from this arising out of negligence or otherwise is accepted.

This Presentation is not a prospectus, product disclosure statement or other offer document under Australian law or any other law (and will not be lodged with the Australian Securities and Investments Commission or any foreign regulator) and is not, and does not constitute, an invitation or offer of securities for subscription, purchase or sale in any jurisdiction. In particular, this Presentation does not constitute an invitation or offer of securities for subscription, purchase or sale in the United States or any other jurisdiction in which such an offer would be illegal. The securities referred to in this presentation have not been, and will not be, registered under the U.S. Securities Act of 1933 as amended or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold, directly or indirectly in the United States.

Any forward-looking statements and forward-looking information included in this Presentation involve subjective judgment and analysis and are subject to uncertainties, risks and contingencies, many of which are outside the control of, and may be unknown to, MGV. In particular, they speak only as of the date of this document, they assume the success of MGV's strategies, and they are subject to significant regulatory, business, competitive and economic uncertainties and risks. Actual future events may vary materially from the forward-looking statements and forward-looking information and the assumptions on which they are based. Recipients of this Presentation are cautioned to not place undue reliance on such forward-looking statements and forward-looking information.

The information in this Presentation is strictly confidential. It may not be disclosed, reproduced, disseminated, quoted or referred to, in whole or in part, without the express consent of MGV.

FY21 ACHIEVEMENTS

Corporate

- Low corporate overheads – \$\$ in ground
- Strong open register – more international exposure

Cue Gold Project

- New near-surface gold discoveries with White Heat and Big Sky – expected to lead to resource growth in Q2 2022
- New geological interpretation has led to
 - new regional targets – assays pending for multiple targets
- PFS level studies commenced
- Large regolith mineralised gold position identified under transported lake cover at West Island with basement mineralisation intersected – EVN JV

Total FY21 Annual Spend
\$9.6M

MGV 100% Tenure = 74%
EVN JV = 26%

2022 OBJECTIVES

Targeting Major High-Grade Systems and Stand-alone Gold Production

Cue Gold Project

Systematically test targets to deliver new discoveries & grow the gold resource base

Basement drill testing of Lake Austin gold targets on EVN JV with the aim of defining a large economic gold system

Continue prefeasibility level studies over existing gold deposits

Define a path to first gold production

CORPORATE OVERVIEW

BREAK OF DAY / LENA 3D MODEL

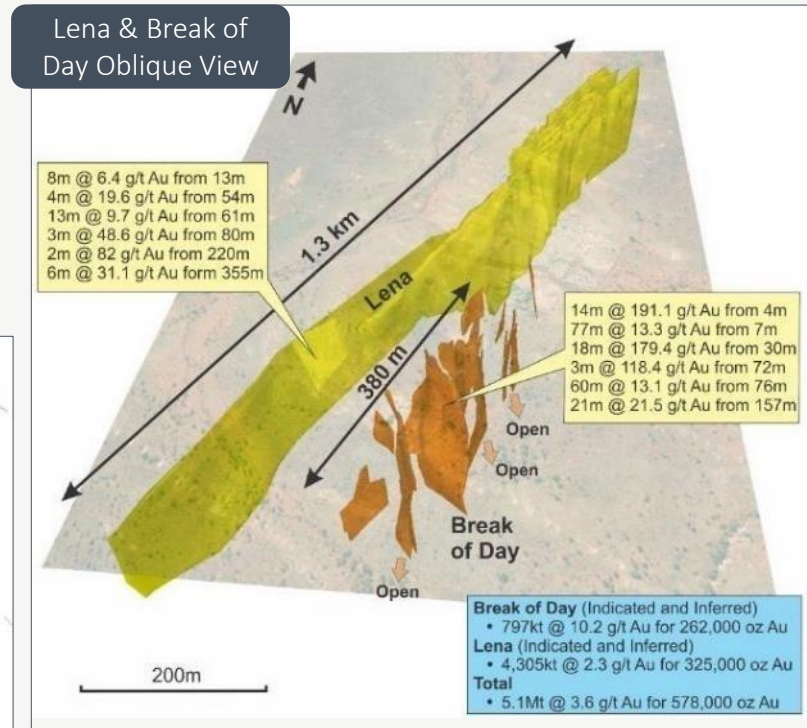

- Total Mineral Resources
 - 6.4mt @ 3.2g/t Au for 659koz Au

Near-surface, high-grade deposit – only 3m of hardpan cover - Break of Day

- 797kt @ 10.2g/t Au for 262koz Au – Break of Day
- 85% of gold in 5 main lodes in top 200m
- >1,100oz per vm gold in resources in top 175m
- Includes Starlight & White Light lodes hosting 360kt @ 13.9g/t Au for 161koz Au*

Intercepts include:

- 14m @ 191g/t Au (from 4m)

20MORC068, RC chip,
6-7m, 2,518g/t AU

* Mineral Resource details and CP statements on Slides 21, 22, 23, 24 & 25

STARLIGHT ANALOGUES – NEW TARGETS

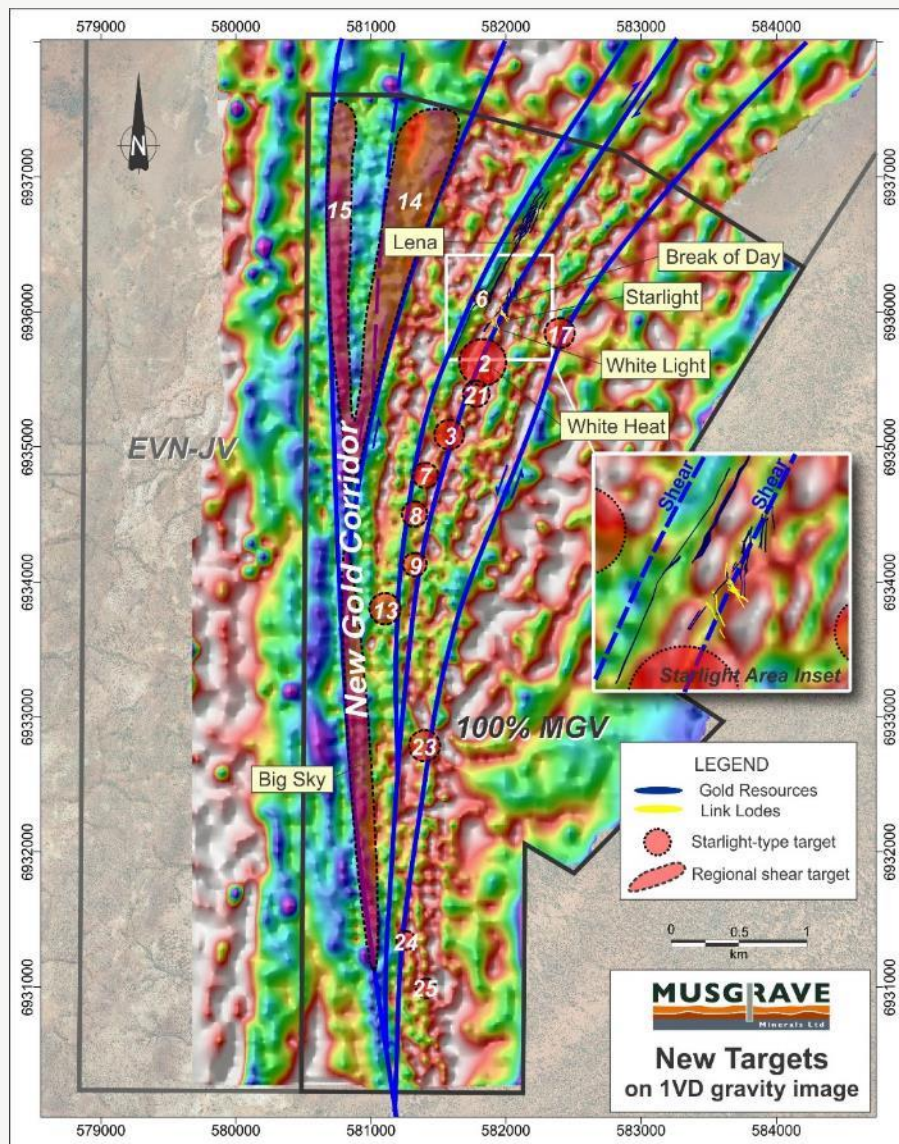

New discoveries have changed the paradigm – increased the search space

Upside with multiple regional targets with anomalous gold in first pass aircore drilling

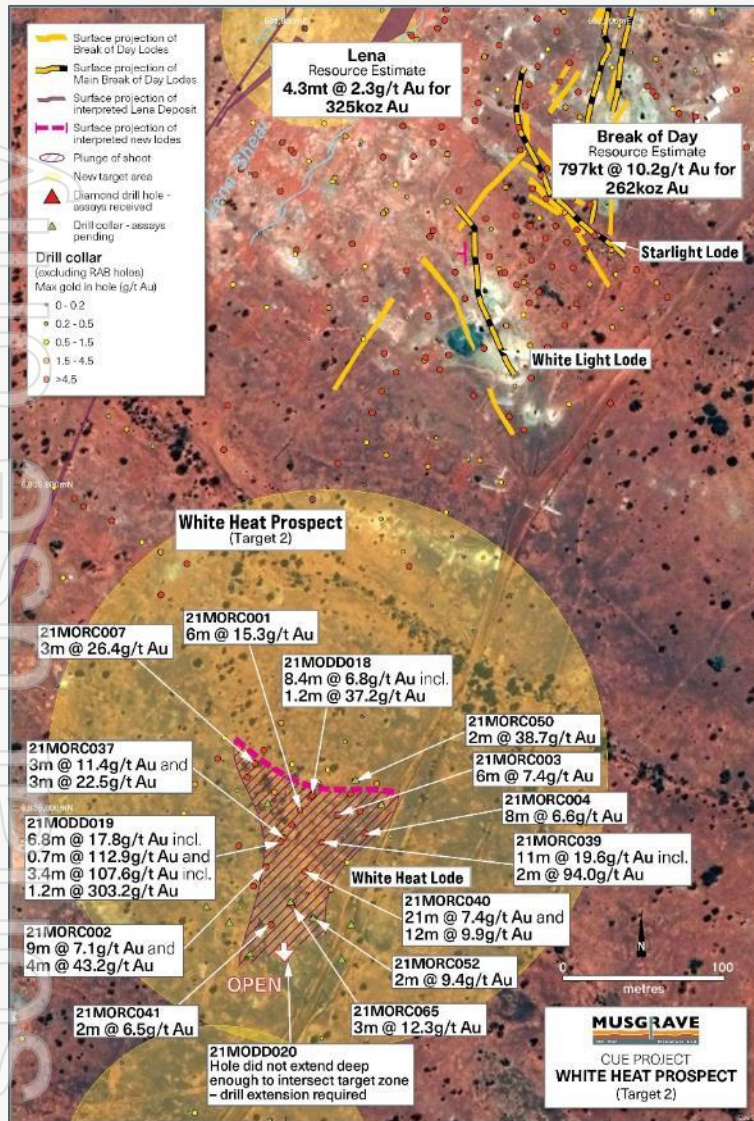

High-grade gold identified at six regional targets - further drilling underway

>20,000m follow-up RC drilling program commenced on new targets

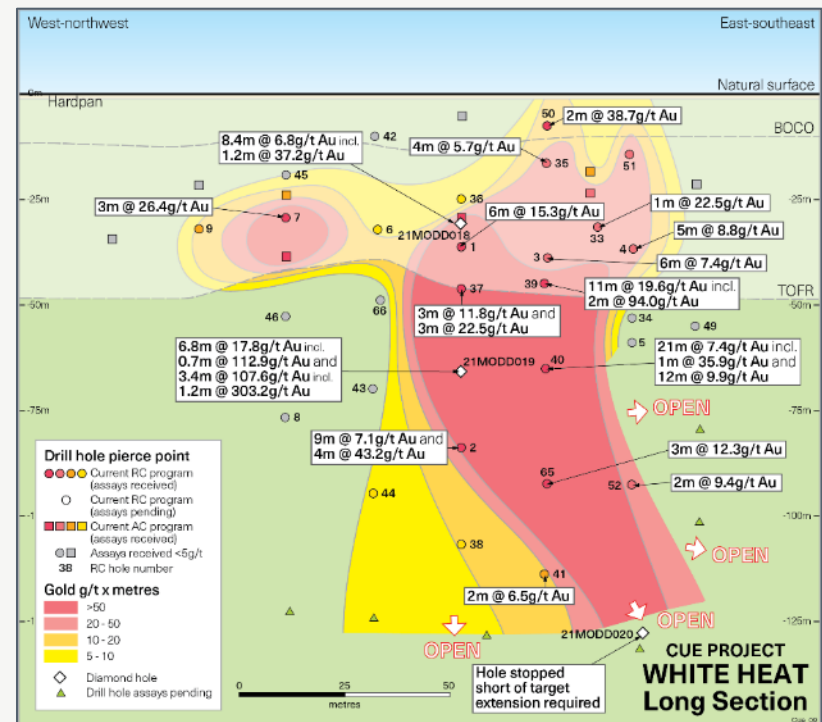

Further aircore and diamond drilling planned for Q4 21, Q1 22

WHITE HEAT DISCOVERY (TARGET 2) – 300M SOUTH OF WHITE LIGHT

- New high-grade intercepts under 2-3m of hardpan cover
 - 4m @ 43.2g/t Au from 98m (RC)
 - 11m @ 19.6g/t Au from 48m (RC)
 - 3.4m @ 107.6g/t Au from 74.6m (Diamond)
- Open down plunge – Further assays pending

NEW GOLD CORRIDOR – REGIONAL TARGETS

>7km new gold corridor

- New gold corridor – extensive regolith mineralisation
- Assays pending ~50 basement RC holes

Target 14 Area

- 11m @ 8.4g/t Au from 66m (21MUAC103)
- 24m @ 3.0g/t Au from 40m (21MORC019)

Big Sky

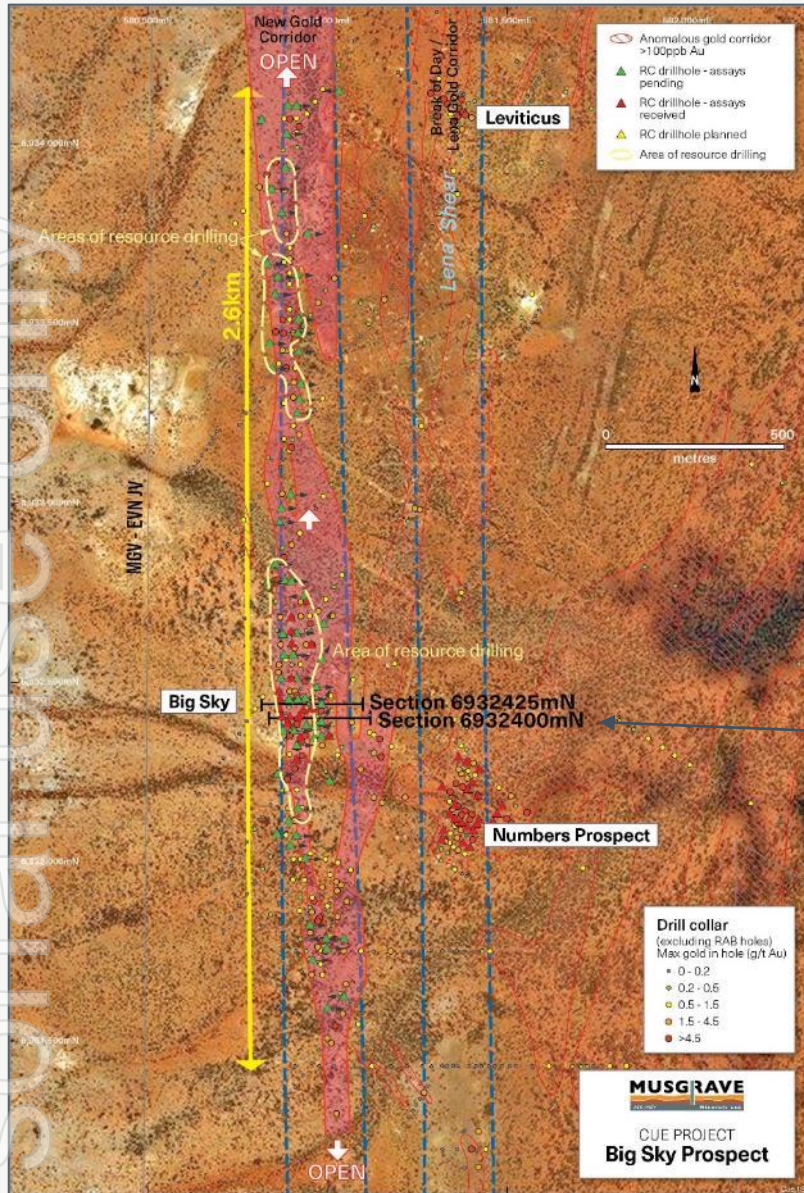

- >2.6km strike and open east & down dip
- Resource drilling underway

Gold nuggets and gold in quartz from RC sample 49-50m down hole in 21MORC277. Interval assayed 1m @ 898g/t Au from 49-50m.

See ASX release dated 27 October 2021

BIG SKY PROSPECT

- >2.6km strike
- Basement RC drilling continuing
- Resource infill drilling commenced

Large gold system (thick mineralisation)

- 28m @ 35.9g/t Au from 49m (21MORC277), incl.
- 1m @ 898g/t Au from 49m
- 73m @ 1.4g/t Au from 41m (21MORC101), incl.
- 5m @ 10.1g/t Au from 72m
- 60m @ 1.0g/t Au from 42m (21MORC196)
- Assays for >50 RC drill holes pending

BIG SKY....FOOTWALL

- New footwall gold zone identified at Big Sky
- Dolerite host may extend for >5km of strike
- Mineralisation open along strike and down dip
- New intersections include:
 - 7m @ 8.6g/t Au from 43m (21MORC212), incl;
 - 1m @ 55.2g/t Au from 44m
 - 3m @ 13.3g/t Au from 3m (21MORC213)
 - 10m @ 3.3g/t Au from 106m (21MORC279), incl;
 - 2m @ 12.0g/t Au from 110m
- Further assays pending
- Large regional aircore program to test extension of dolerite - early December

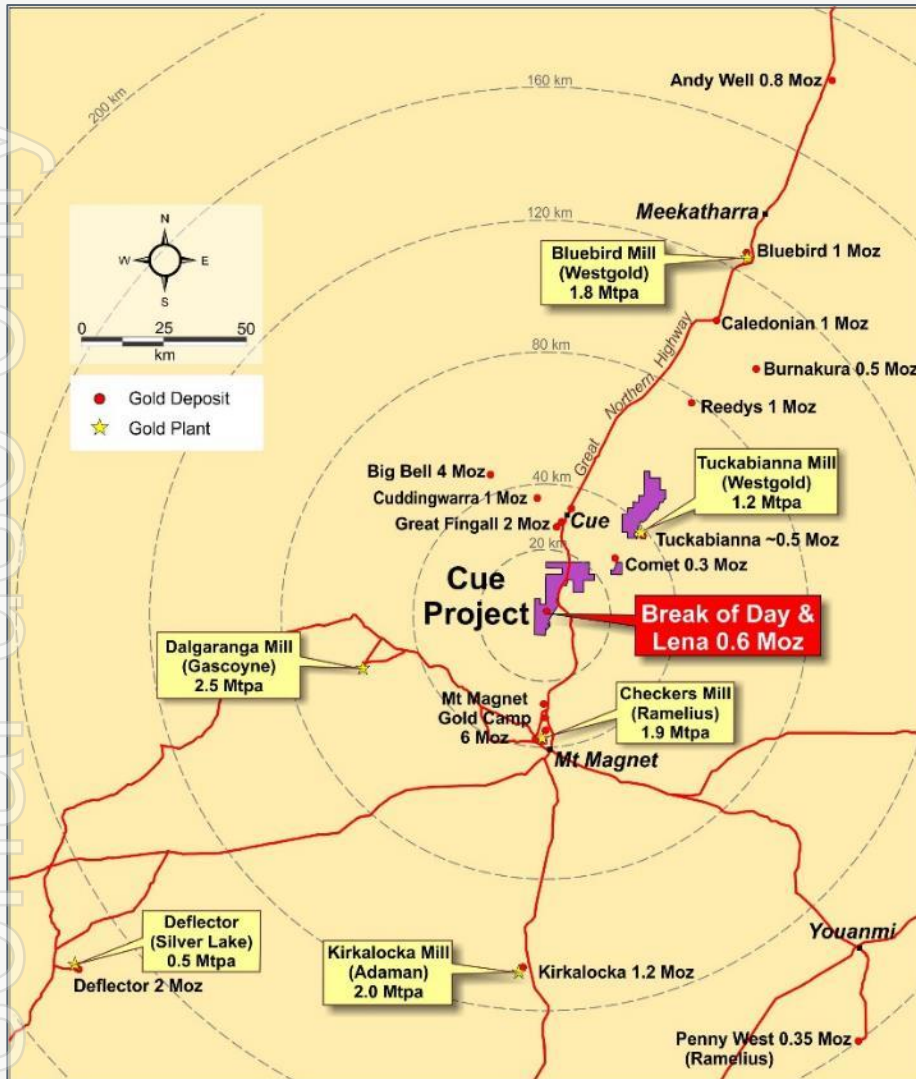

EXCEPTIONAL GOLD RECOVERIES

Break of Day & Lena

- Excellent gold recoveries achieved from metallurgical test work at Break of Day and Lena:
 - **Total 96-99% recoverable gold** from conventional gravity and CIL processing
 - **High gravity recoveries (>70-80%) - fresh rock**
 - Good in comparison to typical Yilgarn gold ores
- Suggests low reagent use and reduced processing costs
- No deleterious elements
- Preliminary test work at Starlight indicates 98-99% total CIL recovery (50 to >80% gravity recovery)
- Further met work underway

EXCELLENT INFRASTRUCTURE – MULTIPLE DEVELOPMENT OPTIONS

- Surrounded by significant gold producers (Ramelius, Westgold, Silver Lake)
- High-grade gold ore can be trucked a long distance using existing road infrastructure
 - E.g., RMS trucking ore 300km @ ~6.5g/t Au from Vivien mine

Strategic and Corporate Appeal

- Striving for standalone operation... multiple processing facilities in district
- EVN JV funding lake exploration
- Strong AUD gold price

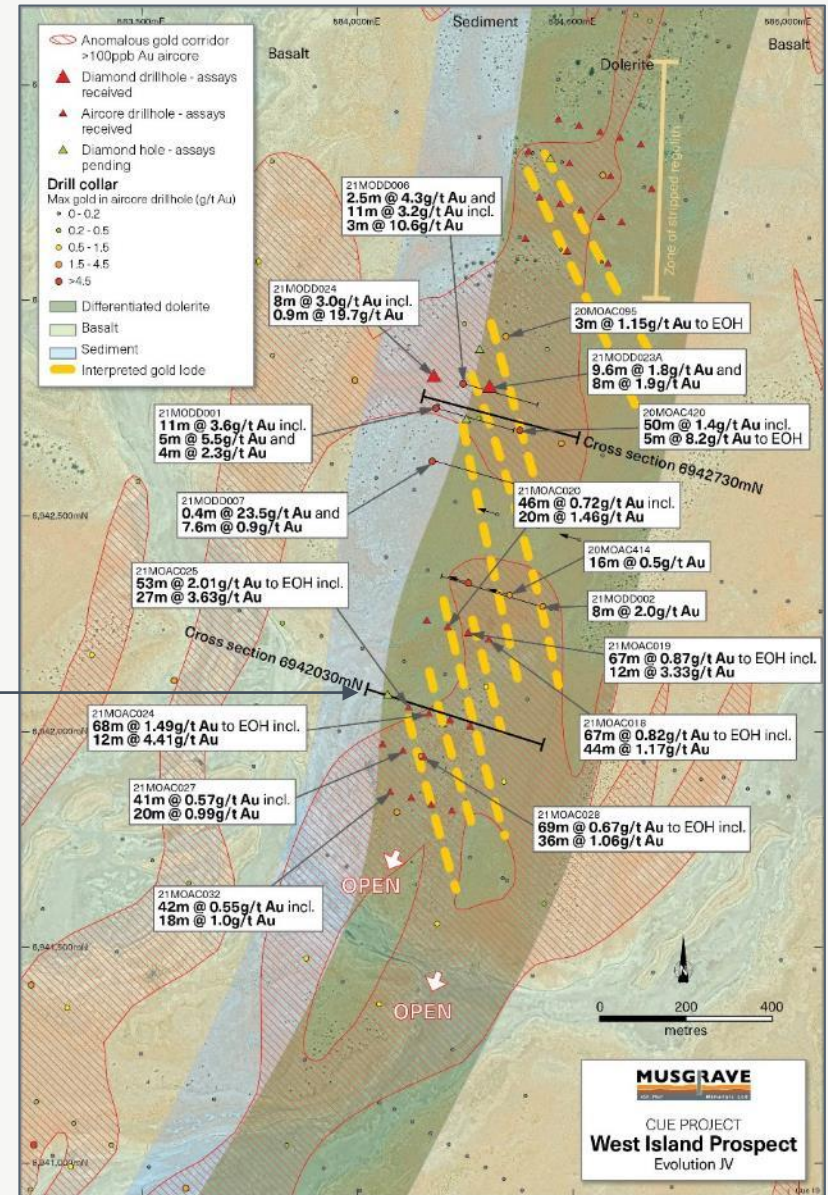

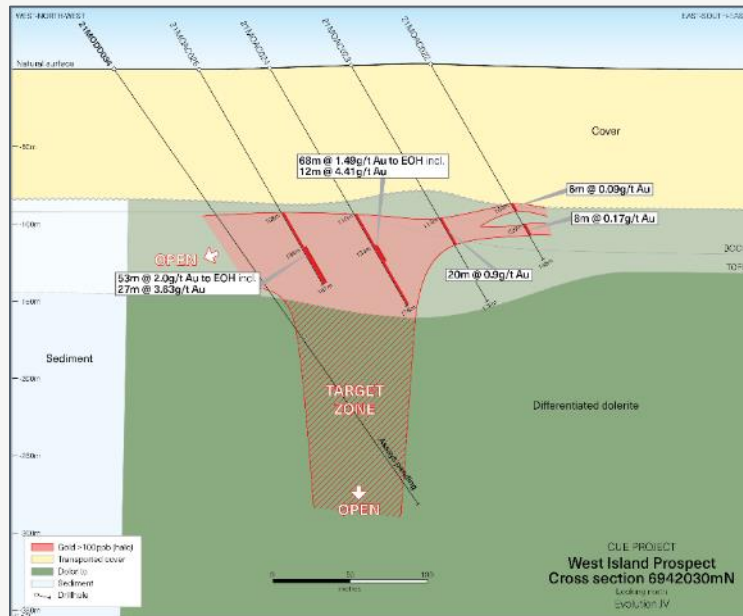

GOLD TARGETS – LAKE AUSTIN (EVN JV)

- EVN JV – Evolution can spend \$18M in 5yrs to earn 75%
 - EVN committed to further \$5M in FY22
 - If entire \$18M not spent MGV retains 100%
- Multiple new high priority gold targets under variable thickness dune and lake cover
- Basement gold mineralisation intersected at West Island and Lake Austin North targets
- **Gold intercepts include:**
 - **West Island**
 - **3m @ 10.6g/t Au** (21MODD006)
 - **68m @ 1.5g/t Au** (21MOAC024)
 - **Lake Austin North**
 - **84m @ 1.7g/t Au** (18MORC039) incl.
 - **20m @ 6.1g/t Au**
 - **94m @ 2.2g/t Au** (18MORC057) incl.
 - **29m @ 5.1g/t Au**
 - **7,000m diamond drilling and >17,000m aircore drilling underway**

WEST ISLAND – LAKE AUSTIN (EVN JV)

- Target >1.6km long with extensive gold in regolith below lake cover – Dolerite host
- Oxide gold mineralisation up to 150m wide over an extensive area – Best oxide intercepts include:
 - 68m @ 1.5g/t Au from 110m (21MOAC024)
 - 53m @ 2.0g/t Au from 108m (21MOAC025)
- Basement gold intercepts include:
 - 3m @ 10.6g/t Au from 247.5m (21MODD006)
 - 5m @ 5.5g/t Au from 276m (21MODD001)
- Drilling is continuing

SCHEDULED WORK PLAN

Cue Gold Project

Q4 2021

Q1 2022

Resource drilling and assays at Big Sky and White Heat

RC drilling and assays – Target 14 & new regional targets

Aircore drilling and assays – new regional targets

Resource definition and conversion drilling – BoD & Lena

EVN JV – Diamond & aircore drilling follow-up of high priority targets

Prefeasibility level studies

ESG (ENVIRONMENT, SOCIAL & GOVERNANCE)

- **Corporate Governance**

- Sustainability and goals

- **Community & Social**

- Positive contribution to the local community
 - Working relationships
 - Education and sponsorships
 - Employment (direct and indirect)

- **Indigenous Stakeholders**

- Commitment to form and maintain long term relationships and provide opportunities

- **Our People**

- Our people are a priority - to keep them safe, healthy and engaged

- **The environment**

- Minimize our impact on the environment
- Potential to Reduce future emissions through alternate power models

RESOURCES + GRADE + RECOVERY + INFRASTRUCTURE + EXPLORATION UPSIDE

- Total Mineral Resources
 - 6.4mt @ 3.2g/t Au for 659koz Au
- **High-grade gold project**
 - High value near surface resource at BoD
 - 797kt @ 10.2g/t Au for 262koz Au
- Opportunity for further discoveries and resource growth through successful regional drilling programs
- Exploration joint venture with Evolution Mining
- **Activity and news flow:**
 - **RC drilling at Big Sky, White Heat & Target 14**
 - Assays pending
 - **EVN JV Diamond & aircore drilling**
 - Assays pending
- Well funded & strong AUD gold price environment

ADDITIONAL INFORMATION

GOLD RESOURCES

JORC Mineral Resources (Indicated and Inferred)

Southern Area* (Moyagee)	Tonnes (000's)	Au (g/t)	Oz Au
Break of Day	797	10.2	262,000
Lena	4,305	2.3	325,000
Leviticus	42	6.0	8,000
Numbers	278	2.5	22,000
Total	5,422	3.5	617,000

Northern Area *	Tonnes (000's)	Au (g/t)	Oz Au
Hollandaire** + Rapier South	728	0.6	17,000
Jasper Queen + Gilt Edge	271	2.8	24,000
Total	999	1.3	42,000

Total Cue Project 6,421 3.2 659,000

* As at 11 November 2020, Copper and gold Mineral Resources reported by Musgrave Minerals Ltd (MGV) in ASX announcements dated 11 November 2020, 17 February 2020, and 14 July 2017 Cyprium Metals Limited (CYM) in its ASX Announcement dated 29 September 2020 and Silver Lake Resources Limited (SLR) in its ASX Announcement "Mineral Resources and Ore Reserves Update", 26 August 2016. CP statements on Slide 22.

Due to the effects of rounding, the totals may not reflect the sum of all components.

** The Hollandaire Resource Estimate is on 100% basis (MGV has a 20% attributable interest in the Hollandaire deposit, free carried to completion of DFS). **Totals** are on an attributable interest basis. Complete resource tables are detailed on slide 20.

JORC GOLD RESOURCES

Gold Mineral Resources as at 30 June 2021

Deposit	Indicated Resources			Inferred Resources			Total Resources

Total Cue Project	3,140	3.0	301	3,282	3.4	358	6,422	3.2	659

Notes to Tables:

The Break of Day, Lena and Hollandaire Mineral Resources are produced in accordance with the 2012 Edition of the Australasian Code of Reporting of Mineral Resources and Ore Reserves (JORC 2012). The remaining Mineral Resources were first prepared and disclosed in accordance with the 2004 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and ore Reserves.

The JORC 2004 Resources in this presentation have not been updated since to comply with JORC 2012 on the basis that the information has not materially changed since it was last reported.

For further details refer to *Musgrave Minerals Ltd (MGV) ASX announcements 21 September 2021, Cyprium Metals Limited (CYM) announcement dated 29 September 2020 and Silver Lake Resources Limited (SLR) in its ASX Announcement "Mineral Resources and Ore Reserves Update", 26 August 2016.*

* Note 1: The Hollandaire Resource Estimate is on 100% basis (MGV has a 20% attributable interest in the Hollandaire deposit, free carried to completion of DFS). **Totals** are on an attributable interest basis. Gold dominant mineralisation not associated with the copper resource at Hollandaire, that is 100% attributable to MGV, is yet to be modelled and reported in compliance with JORC 2012.

Note 2: Due to the effects of rounding, the total may not reflect the sum of all components

COPPER RESOURCES

JV agreement with Cyprium Metals Ltd Copper resources at Hollandaire

Hollandaire Copper*	Tonnes (Mt)	Cu (%)	Cu (Tonnes)
Indicated Resources	2.179	2.0	42,200
Inferred Resources	0.605	1.6	9,300
Total	2.784	1.9	51,500

Opportunity to seek to discover new copper-zinc resources:

- Mt Eelya:
 - 8m @ 1.6% Cu, 0.8g/t Au, 4.5g/t Ag
- Colonel:
 - 6m @ 1.0% Cu, 1.7g/t Au, 11g/t Ag

* Copper and gold Mineral Resources reported by Cyprium Metals Limited (CYM) in its ASX Announcement "Hollandaire Copper-Gold Mineral Resource Estimate", 29 September 2020. CP statements on slide 22. The Hollandaire Resource Estimate is reported on a 100% basis (MGV has a 20% attributable interest in the Hollandaire deposit, free carried to completion of DFS).

COMPETENT PERSON'S STATEMENT

Mineral Resources

The Information in this report that relates to Mineral Resources at Break of Day and Lena is based on information compiled by Mr Paul Payne, a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Payne is a full-time employee of Payne Geological Services. Mr Payne has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Payne consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The Company confirms that it is not aware of any further new information or data that materially affects the information included in the original market announcements by Musgrave Minerals Ltd (MGV) entitled "Lena Mineral Resource more than doubles and gold grade increases" released on 17 February 2020 and "Break of Day High-Grade Mineral Resource Estimate" released on 11 November 2020 and in the case of estimates of Minerals Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. To the extent disclosed above, the Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this report that relates to the Rapier South, Jasper Queen, Gilt Edge, Leviticus and Numbers Mineral Resource is extracted from the report created by Silver Lake Resources Limited entitled "Mineral Resources and Ore Reserves Update", 26 August 2016 and is available to view on the ASX (www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially effects the information included in the original market announcement and, in the case of estimates of Minerals Resources that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented, have not been materially modified from the original market announcement.

The information in this report that relates to Mineral Resources for the Hollandaire deposit is an accurate representation of the available data and is based on information compiled by external consultants and Mr Peter van Luyt a competent person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" who is a member of the Australian Institute of Geoscientists (2582). Mr van Luyt is the Chief Geologist of Cyprium Metals Limited. Mr van Luyt has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and the activity which he is undertaking to qualify as a Competent Person (CP). Mr van Luyt consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The Company confirms that it is not aware of any further new information or data that materially affects the information included in the original market announcement by Cyprium Metals Limited (CYM) entitled "Hollandaire Copper-Gold Mineral Resource Estimate" released on 29 September 2020 and in the case of estimates of Minerals Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. To the extent disclosed above, the Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Exploration Results

The information in this report that relates to Exploration Targets and Exploration Results is based on information compiled and/or thoroughly reviewed by Mr Robert Waugh, a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM) and a Member of the Australian Institute of Geoscientists (AIG). Mr Waugh is Managing Director and a full-time employee of Musgrave Minerals Ltd. Mr Waugh has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Waugh consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

ADDITIONAL JORC INFORMATION
