HORIZON 2021 ANNUAL GENERAL MEETING POLL RESULTS AND PRESENTATION

In accordance with Listing Rule 3.13.2 and section 251AA of the Corporations Act, we advise details of the resolutions and the proxies received in respect of each resolution as set out in the attached proxy summary.

Also attached is the AGM Presentation made by the CEO during the meeting.

Authorisation

This ASX announcement is approved and authorised for release by the Company Secretary.

HORIZON OIL LIMITED
Annual General Meeting
Friday, 19 November 2021
Results of Meeting

The following information is provided in accordance with section 251AA(2) of the Corporations Act 2001 (Cth) and ASX Listing Rule 3.13.2.

Resolution details		Instructions given to validly appointed proxies (as at proxy close)				Number of votes cast on the poll (where applicable)			Resolution Result
Resolution	Resolution Type	For	Against	Proxy's Discretion	Abstain	For	Against	Abstain*	Carried / Not Carried
2 Remuneration Report	Ordinary	651,839,767 95.82%	24,255,852 3.57%	4,149,912 0.61%	320,888,302	659,951,000 96.51%	23,893,883 3.49%	321,268,302	Carried
3a To elect Mr Nigel Burgess as Non-executive Director	Ordinary	991,640,392 99.07%	4,186,513 0.42%	5,120,153 0.51%	3,178,598	1,002,132,470 99.72%	2,813,940 0.28%	3,178,598	Carried
3b To re-elect Ms Sandra Birkensleigh as Non-executive Director	Ordinary	953,746,288 95.31%	43,098,817 4.31%	3,820,153 0.38%	3,460,398	960,800,335 95.64%	43,846,244 4.36%	3,478,429	Carried
4 Approval of 2021 grant of long term incentives ("LTIs") to Mr Christopher Hodge, Managing Director and Chief Executive	Ordinary	922,687,272 92.13%	74,723,054 7.46%	4,063,557 0.41%	2,651,773	928,232,150 92.32%	77,241,085 7.68%	2,651,773	Carried

* Votes cast by a person who abstains on an item are not counted in calculating the required majority on a poll.

HORIZON

2021 AGM PRESENTATION

ANNUAL GENERAL MEETING PRESENTATION

Disclaimer

- Statements contained in this material, particularly those regarding the possible or assumed future performance, costs, dividends, returns, production levels or rates, prices, reserves, potential growth of Horizon Oil Limited, industry growth or other trend projections and any estimated company earnings are or may be forward looking statements. Such statements relate to future events and expectations and as such involve known and unknown risks and uncertainties. Actual results, actions and developments may differ materially from those expressed or implied by these forward looking statements depending on a variety of factors.
- While every effort is made to provide accurate and complete information, Horizon accepts no responsibility for any loss, damage, cost or expense incurred by you as a result of any error, omission or misrepresentation in information in this presentation.
- In this presentation, references are made to EBITDAX, Underlying Profit and Free Cashflow, which are financial measures which are not prescribed by Australian Accounting Standards:
 - EBITDAX represents the profit adjusted for interest expense, taxation expense, depreciation, amortisation, and exploration expenditure (including non-cash impairments)
 - Underlying profit represents the profit adjusted for the unrealised movement in the value of options issued under the subordinated loan facility, and non-cash impairments
- Free Cash Flow represents Cashflow from Operating Activities less Investing cashflows
- All references to dollars in the presentation are United States dollars unless otherwise noted.

Reserves Disclosure

- Unless otherwise stated, all petroleum reserves and resource estimates refer to those estimates as set out in Horizon's Reserves and Resources Statement as at the balance date (i.e. 30 June) as most recently released to ASX. Horizon is not aware of any new information or data that materially affects the information included in this presentation. All the material assumptions and technical parameters underpinning these estimates continue to apply and have not materially changed.
- For the purposes of this presentation, 6 bcf of raw gas equals 1 mmboe.
- The estimates of petroleum reserves and resources contained in this statement are based on, and fairly represent, information and supporting documentation prepared by staff and independent consultants under the supervision of Mr Gavin Douglas, the GM-Production and Exploration of Horizon Oil Limited. Mr Douglas is a full-time employee of Horizon Oil Limited and is a member of the American Association of Petroleum Geologists and the Society of Petroleum Engineers. Mr Douglas' qualifications include a Master of Reservoir Evaluation and Management from Heriot Watt University, UK and more than 24 years of relevant experience. Mr Douglas consents to the use of the petroleum reserves and resources estimates in the form and context in which it appears.
- This presentation should be read in conjunction with the 2021 Reserves and Resources Statement, the Annual Financial Report for the year ended 30 June 2021 and ASX Announcements.

**Maximise Free
Cashflow**

**Further Distributions to
Shareholders
when prudent to do so**

**Invest in New Business
if exceptional**

FINANCIAL AND COMMERCIAL HIGHLIGHTS – FY21

Production and financial metrics were within or exceeded FY21 guidance range (USD unless specified)

Production 1.33 MMbbls
Sales 1.27 MMbbls

Much improved oil price
\$63.6 million revenue
\$20 million free cashflow*

Corporate costs reduced
EBITDAX \$36.4 million
PAT \$7.8 million

Total distributions to
shareholders A\$49.4 million

- AUD 3cps capital return
- On-and off-market buybacks

Exercise of 300 million warrants
injected A\$18.3 million cash

Net cash \$31.7 million at Y/E prior
to AUD 3cps capital return
(A\$47.4 million)

** Free Cashflow represents cash flows from operating activities less investing cash flows*

The priority has been to increase production, reduce costs and maximise returns from the producing assets

No loss of containment, strong safety record
Greenhouse Gas reductions

10 workovers restored production across both assets

WZ12-8E project sanctioned at time of low oil price

Maintenance of low cash operating costs below \$20/bbl

Clean exit from PNG for cash and no residual liability

2x infill wells [China] added 2,200 bopd (initial rate)

Right sized for Horizon, and meaningful to our stakeholders and the wider community

HSE

- Work closely with Operators - targeting zero fatalities, minimal injury frequency rates and Zero spills to the environment

Governance

- Zero tolerance policy on bribery and other forms of corruption
- Highest standards of integrity and ethical business conduct

People – employees and communities

- We support our team to achieve excellence
- Strive to make a positive impact in the communities where we operate

Climate Change

- Our priority is to minimise absolute Scope 1 emissions
- Currently 59% of Scope 1 and 2 emissions offset

SHARE PRICE PERFORMANCE – JULY 2020 TO PRESENT

THE PRODUCING ASSETS

China, Beibu Gulf, 26.95% production / 55% exploration

- CNOOC [51% - Operator]
- Roc Oil [19.6%]
- Majuko Corp. [2.45%]

New Zealand, Maari, 26%

- OMV [69% - Operator]*
 - Cue Energy [5%]
- * Sale to Jadestone Energy pending NZ Regulatory approvals

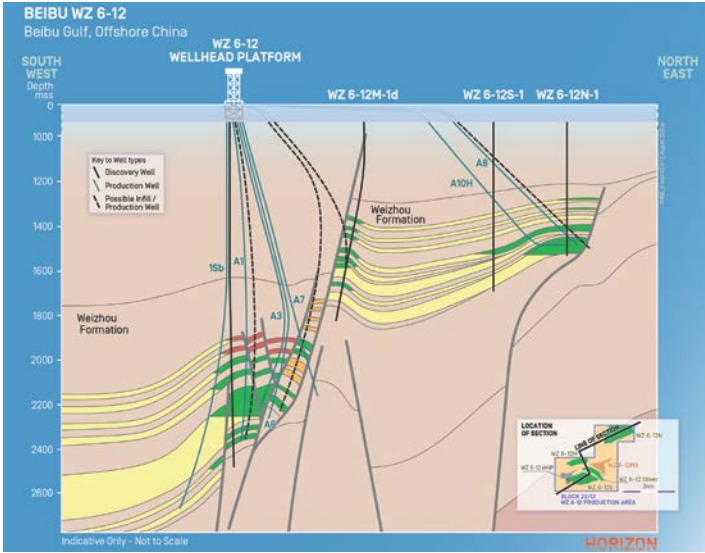

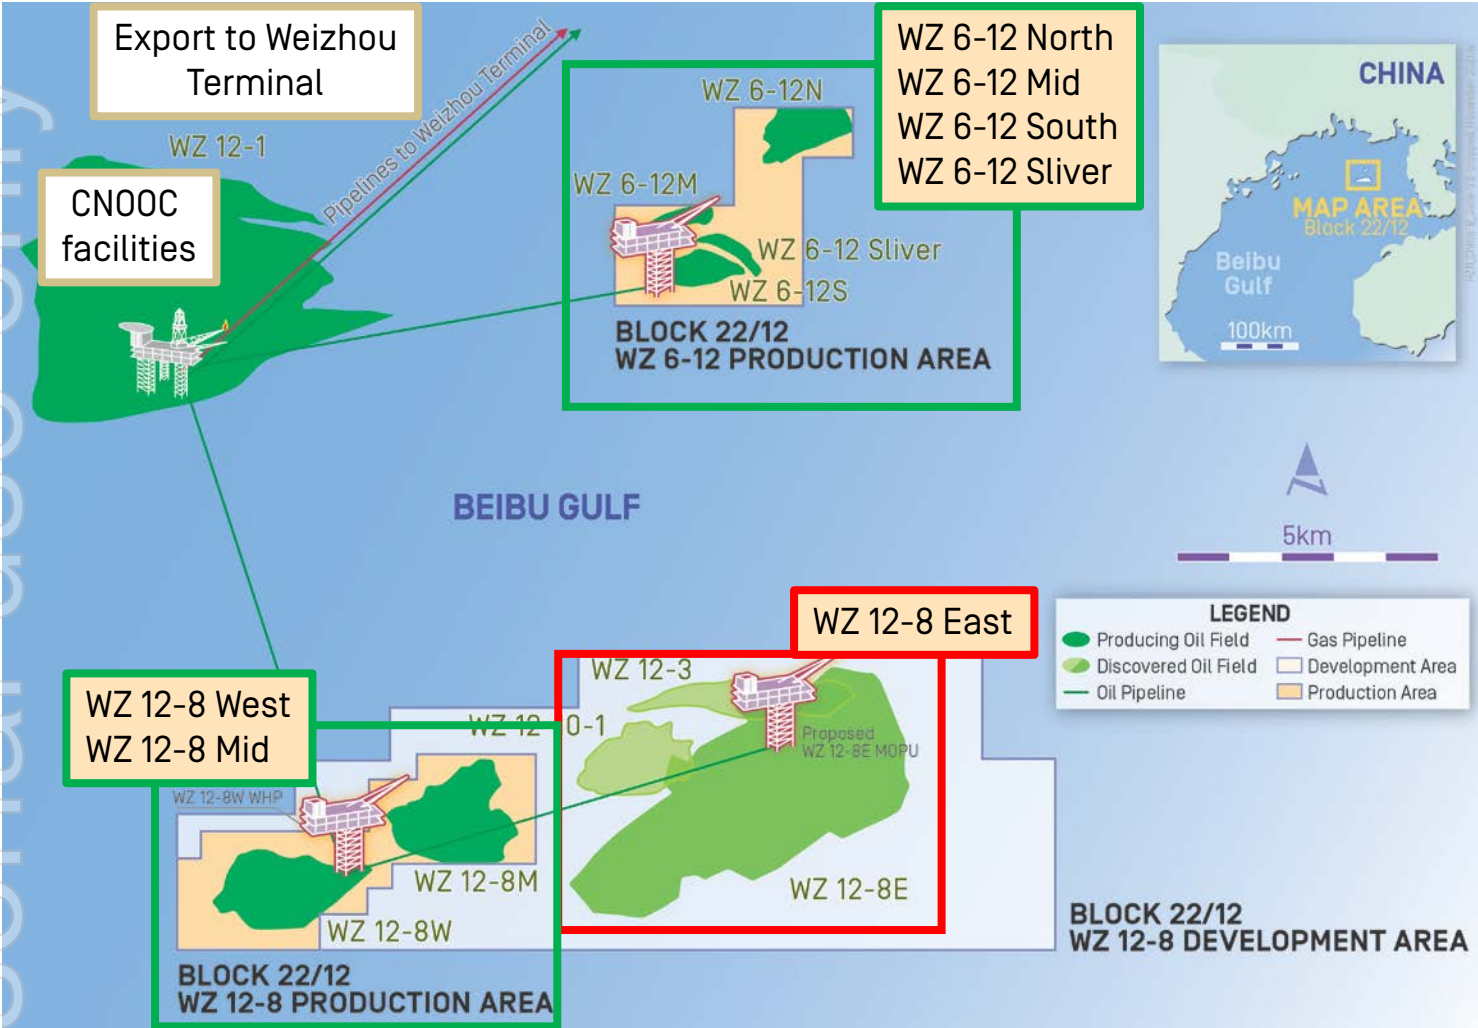

- Production is currently ~9,900 bopd [gross] from 19 wells across 5 discrete fields
- Production rates are maintained through a combination of near-field drilling, increased water handling and production optimisation via well workovers and continually improving operating practices
- JV is continuously identifying and evaluating infill well and near-field exploration opportunities which will support current production in the longer term
- New WZ12-8E field development. Anticipated first production early Q2 CY2022

Block 22/12 continues to generate approximately 70% of Horizon cashflow

Permits continue - WZ6-12 and WZ12-8W until 2028; WZ12-8E field until 2030

Low cash operating costs – approximately US\$12/bbl produced over FY2021

WZ6-12 and WZ12-8W field abandonment costs prepaid into a sinking fund

HORIZON

- Only use these

* Well subject to JV approval

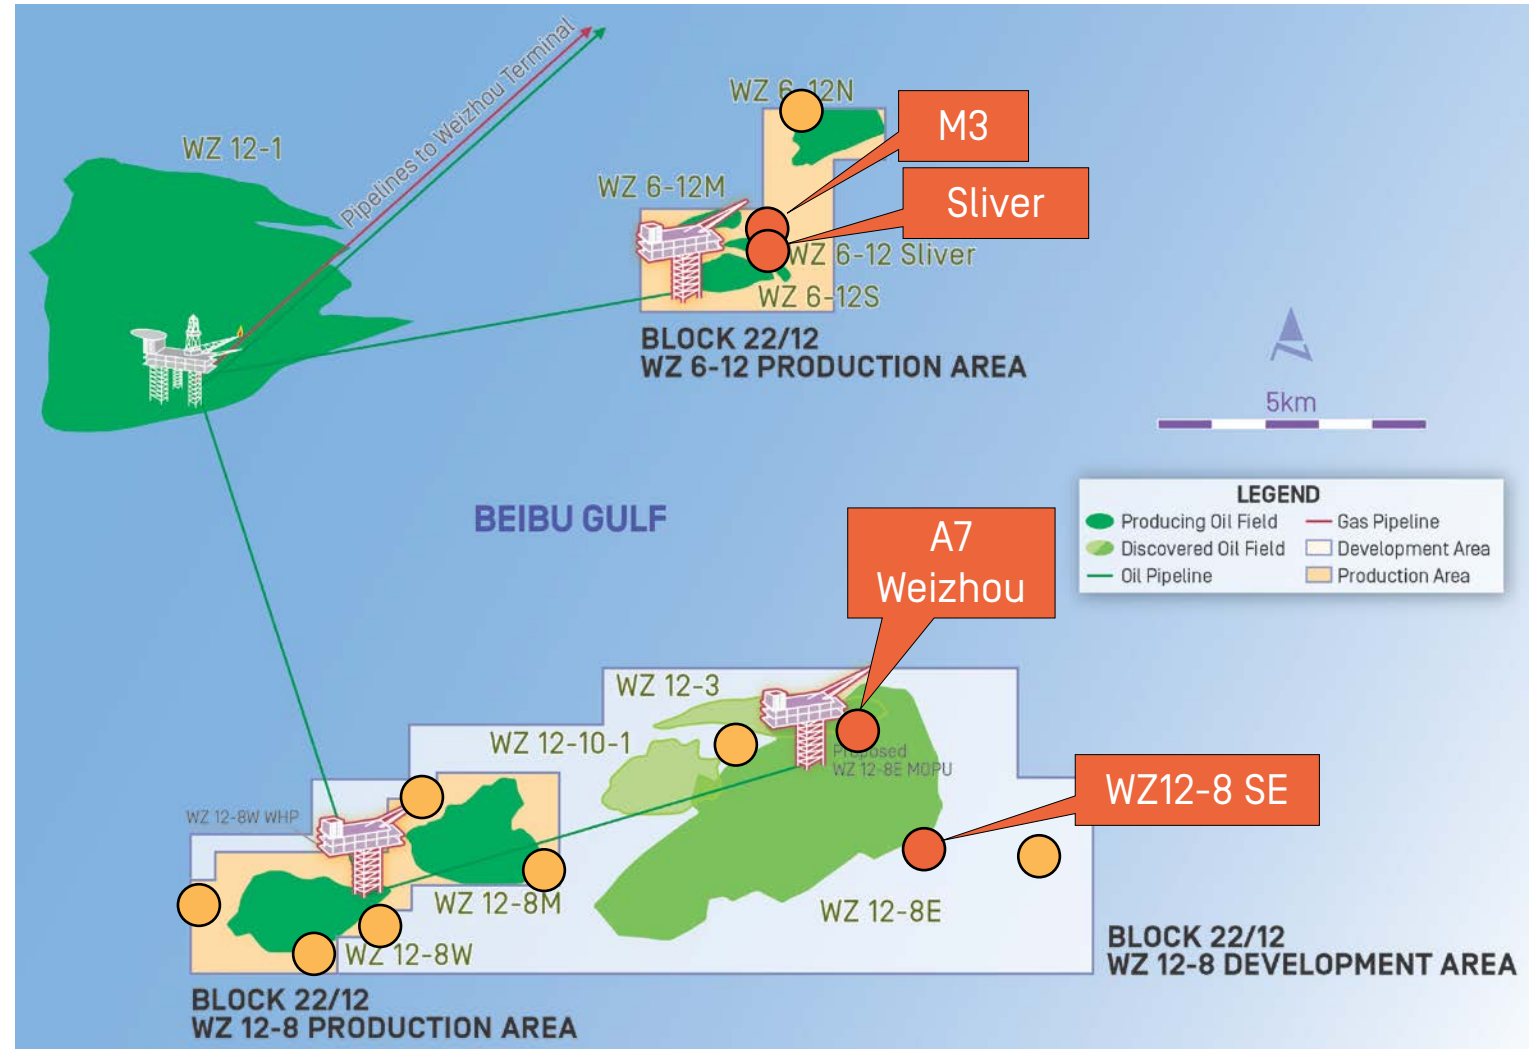

CHINA: APPRAISAL & EXPLORATION OPPORTUNITIES

- The JV has a strong portfolio of infill, appraisal and near-field exploration opportunities, four of which are proposed for drilling in 2022*
- Success in these opportunities will help to extend plateau production into the longer term

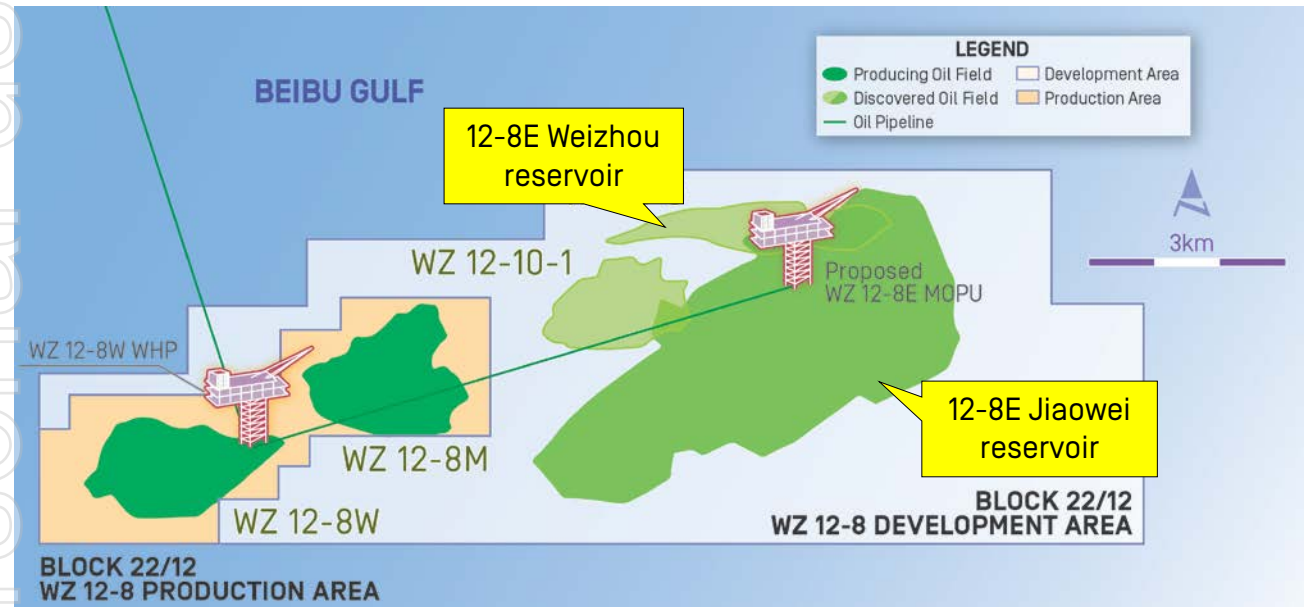

- 2022 proposed drilling*
- Possible future drilling

* Wells subject to JV approval

CHINA: WZ12-8E DEVELOPMENT PROJECT – SUMMARY

- Construction well advanced
- Horizon's share of total capital expenditure ~US\$20 million at current oil prices
- Development costs are phased through 2021 and 2022 and are to be funded from Horizon's existing cash reserves and field production revenue
- Oil production forecast to average ~4,000bopd in the first year
- HZN net 2P reserves estimate 0.6mmbbls [gross ~2.3 mmbbls]
- Success in this first phase may lead to future additional infill wells
- **Platform within tie-back distance of attractive appraisal and exploration targets**

Self-installing WZ12-8E platform during construction

CHINA: HISTORY AND INDICATIVE FORECAST

*ODP = Original Development Plan
Forecasts remain subject to JV and regulatory approvals
All data on this slide [production and recovery] is gross unless otherwise stated

- Production decline rate arrested through continued water injection and well optimisation
- Workovers of MR7 and MR9 in Q4 CY2020 successfully restored production, workover of MR8A recently completed and cleaning up
- MR6A workover completed however currently off-line pending installation of a de-sanding unit planned for Q1 CY2022
- Continue to optimise production and extend field life

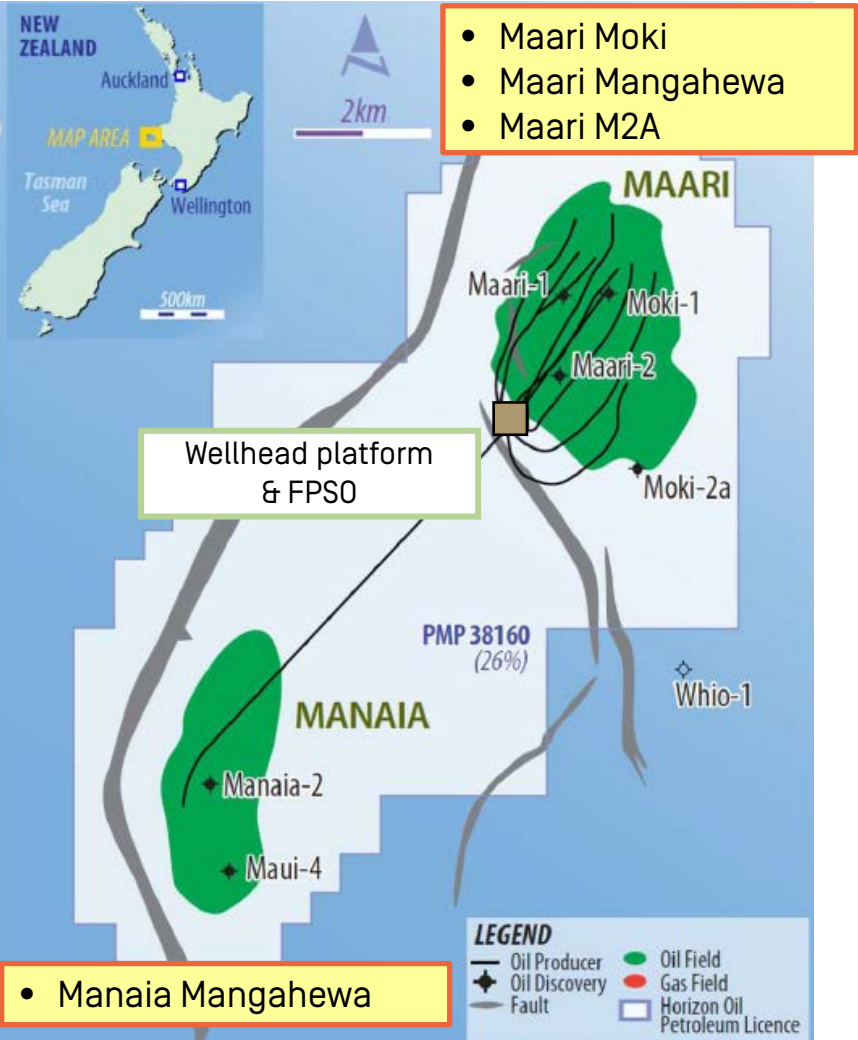

Maari/Manaia
generates
approximately 30% of
Horizon cashflow

FY2021 production
impacted by COVID led
deferrals of workovers
of three producing
wells

Production licence and
2P reserves forecast to
end of 2027 with potential
to extend

Cash operating costs
reduced by 20% during
FY2021 to less than
US\$25/bbl

MAARI / MANAIA SUMMARY MAP AND CROSS-SECTION

OMV sale to Jadestone delayed – but in the meantime, OMV continues to operate the field effectively

Opportunities

- “There are significant near-term production-adds beyond the 2P reserves case” [Jadestone acquisition doc, Nov 2019]
- Additional laterals and behind pipe opportunities

Jadestone

- Sale announcement November 2019
- Awaiting NZ Government approval
- Longstop date per the SPA extended to 31 December 2021

Field Life Extension

- Work streams initiated to ensure that the facilities can produce safely to 2027 and beyond

Decommissioning

- NZ Government propose to strengthen the rules
- New legislation pending
- HZN provision currently US\$31 million with funds likely to be set aside from cashflow over the next 3 to 5 years

MAARI HISTORY AND INDICATIVE FORECAST

* Likely requires permit extension to be commercially viable

2022 OPERATIONS ACTIVITY*

* The above schedule is indicative only and remains subject to JV and regulatory approvals, and drilling rig availability

Capitalising on higher oil prices to maximise value

China: Delivery of WZ12-8E project, safe and successful drilling operations

- The first 6 months of CY2022 is very busy. A successful outcome will be to increase production significantly by mid-year

New Zealand: work with OMV, Jadestone and NZ Gov't to plan for the future

- Reinstate production from MR6A if technically possible
- Expect NZ decommissioning legislation to be finalized and the OMV sale to Jadestone to be completed

Maintain ESG commitments, costs, shareholder value

- Pay down debt by July 2022
- Continue to reduce own costs
- Capital management options
- Keep abreast of new business opportunities
- Maintain a prudent hedging position*

***Current hedge position**

160,000bbls to 31 Dec 2021 – mix of swaps and collars weighted av. floor price US\$69/bbl. Plus 30,000bbls hedged (swaps) for Jan 2022 at US\$81.95 to secure scheduled Maari lifting >110,000bbls (net to HZN)

Maximise Free Cashflow* Targeting US\$25-35 million FY22

- WZ12-8E commencement, infill wells, production efficiencies, nearfield exploration
- Ongoing cost focus to minimise Horizon internal and JV costs

Further Distributions to Shareholders when prudent to do so

- A\$49.4 million already distributed
- Potential for further capital management initiatives under constant review

Invest in New Business if exceptional

- Strong investment metrics, low risk, ability to add scale and portfolio resilience
- With potential for continued capital management initiatives

** Free Cashflow represents cash flows from operating activities less investing cash flows*
