

ASX ANNOUNCEMENT

23 NOVEMBER 2021

Bid personnel changes

Bill Identity Limited (ASX: BID) (“Bid” or “the Company”) advises that Marco Miranda, current Interim Joint CEO, has resigned from the Company to accept an executive leadership position with a leading global media and education technology business. Marco’s final day will be Friday, 3 December 2021.

Peter Tonagh, Bid’s Chairman said:

“I would like to first thank Marco for his exceptional contribution to Bid. Marco has held a range of important positions at the Company, including Head of APAC, COO, and most recently as Interim Joint CEO. His strategic input, effort and counsel have been invaluable throughout this time, noting that Marco has always been a well-respected, well-liked and integral member of the team. We wish him well in his new role.

I would also like to thank both Darren and Marco for their contributions as Interim Joint CEOs over recent months. We look forward to Michele’s commencement as CEO on Monday, 29 November.”

Darren Knihnicky, current Interim Joint CEO will transition back to his role as Chief Commercial and Revenue Officer upon Michele Garra’s commencement as CEO.

Authority: This announcement has been approved by the Chairman of Bid.

About

Bid is an Australian-founded technology company with offices in Australia, the USA and the UK. Bid’s cloud-based platform simplifies the complex energy spend management process by using automation, enabling organisations to have complete control over their energy spend. Unlike manual consulting and business services, the platform automates the management of almost every component of the process for multi-site companies. By automatically capturing and validating invoices and meter data, Bid clients can streamline their accounting and payments processes, go to market at short notice to optimise their supply contracts, and reduce billing charges using sophisticated analytics and reporting. Bid’s innovative Robotic Process Automation (“RPA”) platform gives small to large enterprises greater control over the full energy spend lifecycle, particularly where there is a national multi-site configuration. Further, under these agreements, Bid’s RPA platform is utilised to automatically capture and validate invoices, automating the payable function, discovering cost reduction opportunities and providing real-time energy information and accurate financial capabilities at the touch of a button, as and when they need it.
