Chairman's Address

Duxton Broadacre Farms ("DBF")

The Company actively manages an aggregation of broadacre farms in Australia. Risk is mitigated and returns are optimised through ownership of water entitlements (securing water supply), through geographic and commodity diversification, and through a mix of both dryland and irrigated cropping. DBF seeks to provide investors with direct exposure to agriculture, to act as an inflationary hedge, and with a low correlation to traditional assets.

- DBF experienced excellent growing conditions, with high rainfall and mild temperatures.
- Operations Team harvested 60,470 tonnes of winter crop, up 301% from the previous season.
- Agricultural commodities performed very well over the season, which translated directly into top-line growth.
- DBF redeployed capital from the Boorala sale to expand the NSW portfolio, but remains committed to diversifying its exposure to different geographies and commodities in the medium-term.
- The Company ended the 2020/21 season with a larger physical footprint and expanded irrigatable capacity.
- The team were able to overcome a number of operational challenges to finish the year well.

Chairman's Address

Company Outlook

- The current season has been exceptionally wet, which has created issues around flooding and waterlogging.
- The Operations Team have done a fantastic job of floodproofing the properties to the maximum extent possible, and the DBF aggregation has avoided the worst of the flooding so far.
- The Company planted over 15,000 hectares of winter crop, which it will look to harvest over the coming months.
- Due to uncertainty around the size of the crop, the Board has decided not to pay a second dividend at this time.
- Farmland values have continued to appreciate rapidly throughout FY2022, which the Company views as a vindication of its original thesis.
- The Company is working to increase its ESG performance across the board, but has a particular focus on environmental sustainability.
- DBF is actively exploring opportunities to diversify its geographic footprint and commodity mix.

DBF Hectares Planted of Major Crops				
Crop		2021/22	2020/21	2019/20
Wheat	Ha	8,547	9,590	1,513

Operational Update

- Major flooding has occurred in the Lachlan Valley, all staff and livestock are safe and DBF's farms have not been impacted in any significant manner to date.
- Harvest has been mostly delayed due to wet conditions, although indicatively yields look comparable with last year.
- The Company planted less cotton than initially budgeted due to wet conditions, although any land not planted this year can be planted next year.
- The wetter-than-average year has resulted in lower water usage across all irrigated crops, and the Company's water position is extremely secure.
- Price and quality of livestock produced has been exceptional, DBF has approximately 10,000 head of sheep and 1,600 head of cattle, and plenty of high biomass feed.
- The staff have done an excellent job, and are to be commended for their efforts.
- Despite ongoing challenges, the Operations Team is very excited for the coming season.
