

## Clarification to Appendix 4C

The Board of Directors of PainChek Ltd (ASX:PCK or Company) advise that the Appendix 4C for the quarter ended 30 September 2021 released to the ASX on 22 October 2021, incorrectly used the 2019 ASX template form instead of the updated version.

An updated version of the Appendix 4C has been provided to the ASX using the correct template ASX form. The Company confirms no numbers have changed in this version.

This announcement has been authorised for release by the Board of PainChek.

### About PainChek®

PainChek® Ltd is an Australian based company that develops pain assessment technologies. PainChek® is a smart phone based medical device using artificial intelligence and smart automation to identify and quantify pain and update medical records in the cloud in real-time. Firstly, PainChek® analyses in real-time images from a three second video capture for the presence of facial expressions indicative of pain and records those that are present. Next, the caregiver uses PainChek® to record their observations of other pain related behaviours that complete the assessment. Finally, PainChek® calculates an overall pain score and stores the result allowing the caregiver to monitor the effect of medication and treatment over time. PainChek® is being rolled out globally in two phases: first, PainChek® for adults who are unable to effectively verbalise their pain such as people with dementia, and second, PainChek® for Children who have not yet learnt to speak.

The PainChek® Shared Care Program is a PainChek® licensing model which enables a professional carer to share their resident or patient data securely with other healthcare professionals or designated homebased family carers for ongoing pain assessments or clinical data review.
