(d) Management comments on historical results

Over the past 3 years FirstWave has been focussed on diversification through international growth and an expanding product portfolio to build on FirstWave's foundational customer, Telstra. This has involved investment in international resources and the expansion of development capabilities. Revenue has been flat in the period due to a Cisco product that was a significant component of the offering to Telstra being retired by Cisco without a suitable replacement being available. International revenue has grown through this period from \$14,000 in FY19, \$386,000 in FY20 to \$1.25 million in FY21.

2.4. FirstWave's dividend history

There were no dividends paid, recommended or declared during the current or previous financial year.

2.5. Rights and liabilities attaching to FirstWave Shares

The rights and liabilities attaching to the Consideration Shares are:

- detailed in the FirstWave Constitution which may be inspected during normal business hours at the registered office of FirstWave; and
- in certain circumstances, regulated by the Corporations Act, the ASX Listing Rules, the ASX Settlement Operating Rules and the general law,

and will be subject to voluntary escrow during the Escrow Period.

The Consideration Shares are fully paid ordinary shares in the capital of FirstWave and from the date of their issue will rank equally with existing FirstWave ordinary shares and will have the same rights and liabilities attaching to them

The main rights and liabilities attaching to the FirstWave Shares are summarised below. This summary is not exhaustive nor does it constitute a definitive statement of the rights and liabilities attaching to FirstWave Shares. Full details of the rights and liabilities attaching to FirstWave Shares are set out in the constitution of FirstWave, a copy of which is available on FirstWave's website at <https://www.firstwavecloud.com/shareholder-centre>.

(a) Meetings of Shareholders and notices

Each Shareholder is entitled to receive notice of, attend and vote at general meetings of the Company and receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution, the Corporations Act or the ASX Listing Rules.

(b) Voting

At a general meeting, every Shareholder present in person or by proxy, attorney or representative has one vote on a show of hands (irrespective of the number of Shares they hold) and one vote for each Share held on a poll. Where there are two or more joint holders of a Share and more than one joint holder tenders a vote, the vote of the holder named first in the register who tenders the vote will be accepted to the exclusion of the votes of the other joint holders.

Voting at any meeting of Shareholders is by a show of hands unless a poll is demanded. A poll may be demanded by:

- (i) at least five Shareholders entitled to vote on the resolution;
- (ii) Shareholders with at least 5% of the votes that may be cast on the resolution; or
- (iii) the Chairman.

If the votes are equal on a proposed resolution, the Chairman has a casting vote on a show of hands.

(c) Dividends

The Directors may from time to time pay dividends to Shareholders out of the profits of the Company. The Directors may pay any interim and final dividends which, in their judgement, the financial position of the Company permits.

The Board may fix the amount and the method of payment of the dividends. The payment of a dividend does not require any confirmation by a general meeting.

Subject to any special rights or restrictions attaching to any shares, dividends must be paid equally on all shares and in proportion to the number of, and the amounts paid on, the shares held.

(d) Issues of Shares

Subject to the restrictions on the issue of shares imposed by the Constitution, the ASX Listing Rules and the Corporations Act, the Directors may issue, grant options in respect of, or otherwise dispose of further shares to any person on such terms and conditions (including preferential, deferred or special rights, privileges or conditions, or restrictions) as they see fit.

(e) Variation of class rights

Subject to the Corporations Act and their terms of issue, the rights attached to a class of shares may be varied with the consent in writing of the holders of at least three quarters of the issued shares in the particular class, or by a special resolution passed at a separate meeting of the holders of shares in that class. In either case, the holders of not less than 10% of the votes in the class of shares whose rights have been varied or cancelled may apply to a court of competent jurisdiction to exercise its discretion to set aside such variation or cancellation.

The creation or issue of further shares ranking equally with a class of shares already on issue is not a variation of class rights.

(f) Transfer of Shares

Shareholders may transfer Shares by a written transfer instrument in the usual form or any form approved by the Directors or, while the Company is listed on ASX, Shares can be transferred electronically in accordance with the ASX Settlement Operating Rules and ASX requirements. All transfers must comply with the Constitution, the Corporations Act, the ASX Listing Rules and the ASX Settlement Operating Rules. The Directors may refuse to register a transfer of Shares, including in circumstances where the transfer is not in registrable form, or the refusal to register the transfer is permitted by the ASX Listing Rules or the Corporations Act. The Directors must refuse to register a transfer of Shares where required to do so by the ASX Listing Rules. The Directors may suspend the registration of a transfer at any time, and for any period, as permitted by the ASX Settlement Operating Rules.

Subject to the ASX Listing Rules, Shares are freely transferable.

(g) Sale of non-marketable parcels

The Directors may cause the Company to sell a Shareholder's Shares if that Shareholder holds less than a marketable parcel of Shares, provided that the procedures set out in the Constitution are followed. A non-marketable parcel of Shares is defined in the Listing Rules and is, generally, a holding of Shares with a market value of less than \$500.

(h) Winding up

Subject to the Constitution and any special resolution or rights or restrictions attaching to any class or classes of Shares, Shareholders will be entitled on a winding up to a share in any surplus assets of the Company in proportion to the Shares held by them.

(i) Directors – appointment and removal

The minimum number of Directors is three and the maximum is fixed by the Directors but must not be more than 11, unless the Shareholders pass a resolution varying that number. Directors are elected at annual general meetings of the Company.

The Directors may also appoint a Director to fill a casual vacancy on the Board or in addition to the existing Directors, who will then hold office until the next annual general meeting of the Company.

Retirement will occur on a rotational basis so that no Director (excluding the Managing Director) may hold office beyond the third annual general meeting following the meeting at which they were last elected or re-elected (whichever is later) without Shareholders approving their reappointment.

(j) Directors – voting

Questions arising at a meeting of Director will be decided by a majority of votes of the Directors present at the meeting and entitled to vote on the matter. In the case of a tied vote, the Chairman has a second or casting vote, unless there are only two Directors present or qualified to vote, in which case the proposed resolution is taken as having been lost.

(k) Directors' and officers' indemnities

The Company, on a full indemnity basis and to the full extent permitted by law, indemnifies each person who is or has been an executive officer of the Company or a Director, and such other officers or former officers of the Company or its related bodies corporate as the Directors in each case determine (each an "Officer"), against any liability (including costs and expenses) incurred by that person as an Officer of the Company or a related body corporate of the Company to the extent permitted by law.

The Company, to the extent permitted by law, may insure an Officer against a liability incurred by the Officer as an officer of the Company or any of its related bodies corporate including, but not limited to, a liability or negligence or for reasonable costs or expenses incurred in defending proceedings whether civil or criminal and whatever the outcome.

The Company has entered into deeds of access and indemnity with each Director which

confirm the Directors' right of access to Board papers and require the Company to indemnify the Director for a liability incurred as an officer of the Company or any of its related bodies corporate, subject to the restrictions imposed by the Corporations Act and the Constitution.

(I) Variation of the Constitution

The Constitution may be amended only by a special resolution passed by at least 75% of the votes cast by Shareholders present and entitled to vote on the resolution. At least 28 days' written notice specifying the intention to propose the resolution must be given to Shareholders.

2.6. FirstWave equity plans

Executives and directors have salary sacrificed their salaries and fees for service rights and restricted rights.

In respect of the service rights, these rights vest on a quarterly basis at the end of each financial quarter. The service rights are subject to service conditions and there are no performance conditions. The exercise price of the service rights is \$nil as these rights have been granted in lieu of cash salary or fees.

Restricted rights granted to Non-Executive Directors vest on grant date and are not forfeited on resignation. The sale of the rights is restricted to the earlier of the expiration of three years from the date of grant or the date at which the Non-Executive Director ceases to be a Director.

As the Service Rights and Restricted Rights were acquired by Executives and Directors agreeing to forgo their salaries and fees, the maximum allowable life of 15 years was adopted. The Service Rights and Restricted Rights issued during the FY20 and FY21 years will not expire until June 2035.

(d) Commentary in respect of Opmantek's financial information

Over the years that are covered by these financial statements, Opmantek has made a significant transition to recurring revenues for its software. The shift away from perpetual (upfront/one-off) licences to subscription licences creates a sustainable and predictable business. The financial results of individual years are however impacted by lowering cash flows and deferring revenues while this transition takes place. Opmantek's management accounts report a growth in annual recurring revenues of 59% for FY21.

FirstWave's cybersecurity as-a-service protects and remediates vulnerabilities identified by Opmantek's network management platform. This includes enterprise-grade email, web, firewall virtual appliances and endpoint protection services

Opmantek's network management platform will further enhance FirstWave's offering through providing end-to-end visibility of the network and IT environment, enabling IT teams to detect faults, review current and historical network performance and predict future failures

4.1. Overview of the Combined Group

Following completion of the Offer, the Combined Group will result in the combination of complementary assets that will provide a business with a more diversified asset and service base. The FirstWave directors believe that a better capitalised company with a strengthened financial position to better fund the growth of the Combined Group's assets. The Combined Group will have access to additional management depth and expertise.

The acquisition of Opmantek will be transformative for FirstWave, bringing substantial operational, financial and strategic benefits including:

- **Product Expansion** - FirstWave's product portfolio expands to provide an end-to-end solution for network discovery, network management and cybersecurity
- **New Channels** - New global managed service provider channel and a direct sales force serving mid-market and enterprise customers that include Microsoft, Telmex, NASA and Singtel

The FirstWave directors believe that the two companies bring highly complementary business models, product offerings and geographic footprints. The combination significantly expands the growth potential of both companies by providing truly global reach, an expanded product portfolio and material operational, strategic and financial benefits.

FirstWave will gain access to Opmantek's channel partners and strong sales force in the US, the world's most lucrative market for cybersecurity, as well as Canada and Latin America, both large markets where FirstWave does not currently have a foothold.

The acquisition by FirstWave will enable the integration of Opmantek's software onto FirstWave's CyberCision Open Security Management Platform and create an end-to-end solution for network discovery, management and cybersecurity that is globally unique.

4.2. Capital structure of the Combined Group

2. Assumes no new securities are issued by FirstWave, except for as contemplated under the Offer contained in this Bidder's Statement.
3. A diluted calculation has not been provided as the majority of FirstWave unlisted options have high exercise prices and are not considered likely to convert.

Based on information known to FirstWave at the date of this Bidder's Statement and the information provided by Opmantek, the table below summarises the five largest shareholders of the Combined Group assuming that FirstWave acquires 100% of Opmantek Shares and no FirstWave options are exercised.

Name	Number of FirstWave Shares held post completion of the Takeover Bid	Current Relevant Interest in FirstWave (%)	Relevant Interest following completion of the Takeover Bid (%)

Mr Gregory Vytas Maren + Mrs Geraldine Margaret Maclean Maren	17,218,056	2.2%	1.0%

Note: The Offer would dilute Perennial Value Management to 6.8% assuming they do not take up their entitlement in the rights issue and bid into the placement. It is believed that Perennial will take up their rights and bid into the placement and retain a holding between 10 and 15% of the enlarged entity.

4.3. Offer Consideration

The consideration for the acquisition of the Opmantek Shares will be satisfied by the issue of FirstWave Shares (**Consideration Shares**) other than to Foreign Shareholders. Based on the number of Opmantek Shares and Options on issue on the day before the date of this Bidder's Statement, the maximum number of FirstWave Shares which would be required to be issued under the Offer if every Opmantek Shareholder accepted the Offer is 691,221,883 FirstWave Shares.

FirstWave believes that the majority of Opmantek Option holders will exercise their Opmantek Options and accept the Offer for their resulting Opmantek Shares.

FirstWave has the capacity to issue the maximum number of FirstWave Shares which it may be required to issue under the Offer.

FirstWave intends to apply for the quotation of FirstWave Shares issued under the Offer on the ASX within 7 days of the date of the Offer in accordance with the Corporations Act (refer to **section 8.14**).

(c) Pro-forma adjustments and assumptions

The following significant adjustments and assumptions have been made in the preparation of the pro-forma unaudited consolidated statement of financial position of the Combined Group under the scenario set out in **section 4.4(b)**:

(i) 30 June 2021 significant pro-forma adjustments and assumptions:

- Other Income adjustment of circa \$250,000 relates to the elimination of the one-off Covid-19 job keeper and cash boost income support received by Opmantek.
- FirstWave records its Research & Development (R&D) income in Other Income for statutory accounting purposes while Opmantek records it as a credit tax expense. The circa \$360,000 adjustment relates to reclassification of Opmantek's R&D income from tax expense to Other Income to align the accounting treatment in the combined group.
- FirstWave capitalises its salaries and wages costs in relation to development work performed for its software and platform as per its accounting policy. Opmantek currently expenses all development work. The circa \$371,000 adjustment reduces expenses and increases intangible assets in order to align the accounting treatment in the combined group.

(ii) 30 September 2021 significant pro-forma adjustments and assumptions:

- Deferred revenue (Contract liabilities) adjustment of \$200,000 in Opmantek relates to the reclassification of amounts greater than 12 months to non-current.
- Opmantek has a convertible note borrowing balance of circa \$211,000 as at 30 June 2021 and 30 September 2021. It was identified in the convertible note agreement that the convertible note has an option to be converted into equity. Opmantek has currently not performed any accounting for this option in its 30 June 2021 audited financials or in the 30 September 2021 management accounts. As part of the acquisition due diligence process, it has currently been assessed that the circa \$211,000 convertible note liability will be converted into circa \$1.8 million in equity if the Offer is completed. Hence, FirstWave has accounted for the convertible "option" as a pro forma adjustment in 30 September 2021 combined entity pro forma results. Essentially the convertible note liability balance will be increased from circa \$211,000 to circa \$1.8 million by a circa \$1.6 million accelerated non-cash interest expense.
- As part of the acquisition, there is an adjustment made for cash consideration payments of circa \$1.3 million in relation to the payment of Opmantek's warrants (from Leap Capital) and advisor fees. This cash payment reduces the final settlement share capital issued to the Opmantek shareholders and also reduces the final cash balance available to the combined entity after the acquisition as at 30 September 2021.
- Opmantek has a loan balance of circa \$1.5 million to Leap Capital as at 30 September 2021. There is an adjustment to reflect the repayment of this circa \$1.5 million loan. This cash payment reduces the final cash balance available to the combined entity after the acquisition as at 30 September 2021.
- As part of the acquisition process, the combined entity will incur circa \$2.7 million in transaction costs (including brokerage) in relation to the capital raise and acquisition process. There is an adjustment to reflect these transaction costs as a significant cost in the statement of profit and loss of circa \$1.7 million, circa \$1.0 million as issued costs in equity and a \$2.7 million reduction in cash.

- There is an adjustment in cash and equity to reflect the total \$14 million capital raise for the placement and rights issue.
- As part of the accounting for the acquisition of Opmantek by FirstWave, there is an adjustment in the combined entity to eliminate Opmantek's original issued capital balance of circa \$1.4 million and eliminate the convertible note balance of circa \$1.8 million, recognise circa \$63 million in net new issued capital, and also recognise circa \$49 million in goodwill.

4.5. Financial outlook for the Combined Group

The business plan for the Combined Group involves an integration plan over first 6 months post acquisition that is costed at \$1.2 million. This involves minimal retrenchment of staff, alignment of employment agreements and company processes and potentially the establishment of operating entities in the US.

There will be synergies across the Combined Group and FirstWave will continue its existing cost out program.

It is assumed that both entities maintain their existing revenue forecasts while working through the integration process.

The result of the assumptions above is that the Combined Group will reduce the monthly cash burn to under \$500,000 a month by 30 June 2022.

4.6. Voluntary Escrow by Danny Maher and Craig Nelson

In addition to the offer term described in **section 8.9** Danny Maher and Craig Nelson have each entered into additional voluntary escrow arrangement for the Consideration Shares to be issued to them. Danny Maher and Craig Nelson have agreed that in addition to the Escrow Period restrictions they will not dispose of their Consideration Shares (257,869,456 and 19,509,360 FirstWave Shares respectively) until the date of release by FirstWave of the Appendix 4E for the period ended 30 June 2023 in respect of 50% of the Consideration Shares; and Appendix 4D for the period ended 31 December 2023 in respect of the balance of the Consideration Shares.

4.7. Operation of the Share Sale Facility

The Share Sale Facility will be used to sell FirstWave Shares that would have otherwise been received by Foreign Shareholders. Such FirstWave Shares will be issued to the Sale Nominee and sold on behalf of the relevant Opmantek Shareholders under the Share Sale Facility.

Under the Share Sale Facility, following the Closing Date, the Sale Nominee will sell the FirstWave Shares on ASX. The Share Sale Facility Proceeds will be remitted to Foreign Shareholders. To ensure that the sales of FirstWave Shares take place in an orderly market and that the Share Sale Facility does not unduly destabilise that market, it is anticipated that the completion of the sales of FirstWave Shares through the Share Sale Facility and the distribution of the Share Sale Facility Proceeds may require several months. Interest will not be paid on any Share Sale Facility Proceeds.

The Sale Nominee will sell those FirstWave Shares at such price and on such other terms as the Sale Nominee determines in good faith (and at the risk of the Foreign Shareholders) having due regard for the desire to achieve the best price reasonably available at the time of the sale.

Opmantek, FirstWave and the Sale Nominee give no assurance as to the price that will be achieved for the sale of FirstWave Shares described above. The proceeds that Ineligible Foreign Shareholders will receive may be more or less than the market value of Opmantek Shares. Sale of the FirstWave Shares by the Sale Nominee may result in a significant number of FirstWave Shares being offered for sale at the same time, which may have the effect of reducing the sale price of those shares.

The payment of the Share Sale Facility Proceeds from the sale of FirstWave Shares will be in full satisfaction of the rights of Foreign Shareholders under the Offer.

4.8. Dividends

Any future determination to declare cash dividends will be made at the discretion of the FirstWave Board, subject to compliance with applicable laws and covenants under current or future credit

facilities, which may restrict or limit FirstWave's ability to pay dividends, and will depend on its financial condition, operating results, capital requirements, general business conditions and other factors that the FirstWave Board may deem relevant. FirstWave does not anticipate paying any cash dividends on FirstWave Shares in the foreseeable future. As a result, a return on your investment will only occur if FirstWave's Share price appreciates.

For personal use only

5. Intentions of FirstWave

5.1. Approach and intentions of FirstWave

Sections 5.2 to 5.4 set out the intentions of FirstWave on the basis of facts and public information concerning Opmantek which are known to FirstWave at date of this Bidder's Statement in relation to the following:

- (a) the continued operation of Opmantek;
- (b) any major changes to be made to the operation of Opmantek, including any redeployment of the fixed assets of Opmantek;
- (c) the future employment of Opmantek employees; and
- (d) the compulsory acquisition of Opmantek Shares.

While FirstWave has conducted due diligence on Opmantek, that due diligence was limited to reviewing information provided by Opmantek and customary searches of public registers. FirstWave does not have knowledge of all material information necessary to reach final decisions as to its intentions and FirstWave will only reach final decisions in light of material facts and circumstances at the relevant time and following completion of the review of Opmantek's operations referred to below.

Accordingly, the statements set out in these sections are statements of current intentions only and may vary as new information becomes available or circumstances change.

5.2. Intentions for Opmantek as a wholly owned controlled entity

This section describes FirstWave's intentions if FirstWave acquires a Relevant Interest in 90% or more of the Opmantek Shares so as to become entitled to proceed to compulsory acquisition of the outstanding Opmantek Shares in accordance with Part 6A.1 of the Corporations Act. FirstWave intends to proceed with the compulsory acquisition of any Opmantek Shares not acquired under the Offer, if and when it is entitled to do so.

FirstWave intends (based on the information currently available to it) to implement its strategy for the Combined Group as set out below:

- Appoint Danny Maher as Managing Director and CEO
- Appoint Craig Nelson as the Head of Global Sales
- Keith Sinclair will move from his current CTO role into a Pre-Sales position and Simon Ryan, FirstWave's CTO will assume the broader responsibilities of CTO for the enlarged entity.
- Invite Ray Kiley to join the FirstWave board.

Subject to the below, it is the present intention of FirstWave, on the basis of the information concerning Opmantek known to FirstWave and the existing circumstances affecting the business of Opmantek, that:

- Opmantek's status will be changed from a limited liability public company to limited liability proprietary company in order to reduce administrative costs associated with its current status as a public company;
- the business of Opmantek will otherwise be continued in substantially the same manner as it is presently being conducted;
- no other major changes will be made to the business of Opmantek; and
- there will be a period of review and where there is duplications in assets or synergy in commodities a plan will be developed for the value accretive action concerning these businesses.

The current intentions of FirstWave may change in light of material facts and circumstances at the relevant time.

5.3. Intentions for Opmantek as a part owned controlled entity

FirstWave reserves the right to declare the Offer free from the 90% minimum acceptance condition or any other condition (refer to **section 8.15**). However, it has made no decision as to whether it will do so.

This **section 5.3**, describes FirstWave's intentions if FirstWave were to declare the Offer free from the 90% minimum acceptance condition and, on completion of the Offer, FirstWave may hold a sufficient number of Opmantek Shares to exercise control over the management and operations of Opmantek, but may not be entitled to compulsorily acquire all outstanding Opmantek Shares.

Even if FirstWave is not entitled to proceed to the compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act. This could occur, for example, if FirstWave acquired further Opmantek Shares in reliance on the 3% creep exception provided in item 9 of section 611 of the Corporations Act. If any such rights of compulsory acquisition arise, FirstWave intends to exercise those rights.

If, following the close of the Offer, FirstWave becomes a controlled entity, but not a wholly owned subsidiary of FirstWave, FirstWave presently intends, subject to the following, and to the extent possible, and appropriate, to implement the objectives and goals mentioned in **section 5.2**.

The extent to which FirstWave is able to implement these intentions will be subject to:

- (a) the Corporations Act and the ASX Listing Rules, in particular in relation to related party transactions and conflicts of interests; and
- (b) the legal obligation of the directors of Opmantek to act for proper purposes and in the best interests of Opmantek shareholders as a whole.

Having regard to this and in particular the possible requirements of minority shareholder approval, it is possible that FirstWave may not be able to implement some of these intentions.

5.4. Intentions for Opmantek if not controlled by FirstWave

This **section 5.4** describes FirstWave's intentions if FirstWave were to declare the Offer free from the 90% minimum acceptance condition and if Opmantek was not controlled by FirstWave.

FirstWave's intentions under this situation are as follows:

- (a) FirstWave does not expect to be in a position to give effect to the intentions set out in **sections 5.2 to 5.4** of this Bidder's Statement other than FirstWave's intention to request appointment of the FirstWave nominees as Opmantek Directors that at least corresponds to FirstWave's voting power in Opmantek; and
- (b) FirstWave's current intention is to continue to hold any Opmantek Shares acquired with a view to maximising returns for FirstWave Shareholders (this may result in FirstWave or its Associates acquiring additional Opmantek Shares, to the extent permitted by law).

6. Australian tax implications

The following is intended only as a general guide to the income tax position under current Australian income tax law and administrative practice as at the date of this Bidder's Statement. Income tax is a complex area of law and the income tax implications for you may differ from those detailed below, depending on your particular circumstances. As these statements are of a general nature only it is highly recommended that you obtain your own independent professional advice in respect of the Australian income tax implications of the Offer.

The following is an overview of the likely Australian income tax implications as a consequence of the Takeover Bid for an Australian tax resident or non-Australian tax resident Opmantek Shareholders who hold their Opmantek Shares on capital account.

The following may not apply to certain Opmantek Shareholders, such as if you are a dealer in securities, you hold Opmantek Shares on revenue account or as trading stock, if you are an insurance company or a collective investment scheme, or if Division 230 of the *Income Tax Assessment Act 1997 (ITAA 1997)* applies to you and you have made an election to apply certain methods to calculating gains and losses.

In addition, the following may not apply to you if you acquired your Opmantek Shares or Opmantek Options as a result of an employment or services arrangement. Such persons may be subject to special rules, or any gain on the exchange of their Opmantek Shares for FirstWave Shares may be assessed as ordinary income.

The following may also not apply to non-Australian tax resident Opmantek Shareholders. The Australian income tax implications for non-Australian resident Opmantek Shareholders are complex and will depend upon their own specific circumstances. Non-Australian tax resident Opmantek Shareholders may also have tax implications in their country of residence.

6.1. Australian tax resident Opmantek Shareholders

Capital gains tax

The transfer of Opmantek Shares to FirstWave pursuant to the Offer will trigger a capital gains tax (CGT) event for you. The income tax implications for you will depend on whether you receive FirstWave Shares and, if eligible, choose to obtain scrip-for-scrip roll-over relief under Subdivision 124-M of the ITAA 1997 in relation to the disposal of your Opmantek Shares.

Broadly, you may choose to obtain scrip-for-scrip roll-over relief where FirstWave acquires the number of Opmantek Shares sufficient to bring its total interest in Opmantek to at least 80% of the voting shares in Opmantek and you:

- (a) receive FirstWave Shares in exchange for your Opmantek Shares;
- (b) acquired your Opmantek Shares on or after 20 September 1985; and
- (c) would, apart from the application of the roll-over, make a capital gain from the disposal of your Opmantek Shares (which requires, among other things, that the relevant Opmantek Shares were held on capital account).

Where scrip-for-scrip roll-over relief is chosen

Where the above conditions are met, Opmantek Shareholders who wish to obtain scrip-for-scrip rollover relief must choose to obtain the roll-over relief.

Where scrip-for-scrip roll-over relief is chosen, any capital gain arising from the disposal of your Opmantek Shares will be disregarded and deferred until a CGT event occurs in respect of the FirstWave Shares acquired by you under the Offer.

As the FirstWave Shares issued as Consideration Shares are subject to the voluntary escrow, a capital gain is not capable of being realised with respect of the disposal of the relevant FirstWave Shares until the end of the Escrow Period. The CGT cost base and

reduced cost base of each FirstWave Share received will be determined by apportioning, on a reasonable basis, the cost base and reduced cost base of your Opmantek Share.

If you can apply the discount capital gains tax rules in Division 115 of the ITAA 1997 and you choose scrip-for-scrip roll-over relief your FirstWave Shares will be taken to have been acquired at the time your Opmantek Shares were originally acquired for the purposes of applying the CGT discount rules.

Where a capital loss arises, you will not be eligible to obtain scrip-for-scrip roll-over relief.

Where scrip-for-scrip roll-over is not chosen

Where scrip-for-scrip roll-over relief is not chosen, you will make a capital gain equal to the market value of your FirstWave Shares you are entitled to less the CGT cost base of your Opmantek Shares.

In determining your capital gain, the market value of your FirstWave Shares should be determined using the market value of those relevant FirstWave Shares on the date you cease to have ownership of your Opmantek Shares.

If you are an individual, trustee of a trust or superannuation fund, or a life insurance company, you may be entitled to concessional discount CGT treatment under Division 115 of the ITAA 1997 in respect of a capital gain. This will depend upon your individual circumstances.

If your reduced cost base of your Opmantek Shares is greater than the market value of your FirstWave Shares you are entitled to, you may realise a capital loss. A capital loss may be applied to reduce a capital gain in the same or a future tax year.

Where scrip-for-scrip roll-over relief is not chosen, the cost base of the FirstWave Shares will be equal to their respective market values, as determined on the date the relevant FirstWave Shares are allotted or issued.

Where scrip-for-scrip roll-over relief is not chosen, the acquisition date of the FirstWave Shares for CGT purposes will be the date on which the FirstWave Shares are allotted or issued to you.

Holders of Opmantek Options

Holders of Opmantek Shares issued during the period from the Record Date to the end of the Offer Period (inclusive) as a result of the exercise or conversion of Opmantek Options are eligible to participate in the Offer.

A capital gain or capital loss the grantee makes from exercising an Opmantek Option is disregarded. The acquisition date of the Opmantek Shares, as is relevant to the availability of the 50% CGT discount, will be the point of exercise or conversion of the Opmantek Options (however this may vary if the Opmantek Options were issued as a result of participation in an employment incentive scheme).

The issuance of FirstWave Shares pursuant to the Offer that relate to underlying Opmantek Shares which were previously issued as a result of the exercise or conversion of Opmantek Options will otherwise be subject to the CGT treatment as set out above, including in terms of eligibility to opt-in for scrip-for-scrip roll-over relief.

Holders of Opmantek Options should seek tax advice specific to their circumstances before accepting the Offer.

6.2. Non-Australian resident Opmantek Shareholders

Non-Australian resident Opmantek Shareholders that hold Opmantek Shares on capital account would only be subject to Australian capital gains tax upon disposal of their Opmantek Shares where the following conditions are met:

- (a) the non-Australian resident Opmantek Shareholder, together with its associates, holds 10% or more of Opmantek's issued securities at the time of disposal or for

any 12-month period in the 24 months prior to disposal; and

- (b) more than 50 per cent of the market value of the assets of Opmantek is represented (directly or indirectly) by real property interests or mining rights in respect of certain resources in Australia.

If CGT applies, concessional CGT discount treatment is not available to non-Australian residents in relation to the disposal of Opmantek securities acquired after 8 May 2012.

Non-Australian resident Opmantek Shareholders should also seek advice on the tax consequence in the shareholder's country of residence before accepting the Offer.

6.3. Stamp Duty

Opmantek Shareholders who accept the Offer will not be required to pay any stamp duty on the disposal of their Opmantek Shares under the Offer, on the acquisition of FirstWave Shares under the Offer, or on a subsequent disposal of FirstWave Shares.

6.4. Goods and Services Tax

None of the following transactions is subject to Australian goods and services tax:

- (a) the transfer of Opmantek Shares pursuant to the Offer (except brokerage, if any);
- (b) the payment of dividends on FirstWave Shares (if any); and
- (c) a disposal of FirstWave Shares (except brokerage, if any).

7. Risk factors

7.1. Overview

If the Offer becomes unconditional, Opmantek Shareholders who accept the Offer (other than Foreign Shareholders) will become shareholders in FirstWave and FirstWave will acquire an interest in Opmantek.

A number of risks and uncertainties, which are both specific to FirstWave and the Combined Group and of a more general nature, may affect the future operating and financial performance of the Combined Group and the value of FirstWave Shares. There are also additional risks relating to the Offer and the Combined Group, to which Opmantek Shareholders may be exposed through their holding Opmantek Shares. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, while others can be covered by insurance, but some are outside the control of FirstWave and the Combined Group and cannot be mitigated or insured against. Many of these risks also affect the businesses of other companies operating in the same industry.

The risks set out in this **section 7** are not exhaustive of all the risks faced or that may be faced by FirstWave Shareholders. The risks are general only and do not take into account your individual objectives, financial situation or needs. You should carefully consider the following risk factors, as well as other information provided by FirstWave, and consult your professional advisers before deciding whether to accept the Offer.

7.2. Specific risks relating to FirstWave and the Combined Group

Dependence on key personnel

FirstWave depends on the talent and experience of its personnel, and, as such, any departure of key personnel may be materially adverse to FirstWave's prospects. It may be difficult to replace key personnel or to do so in a timely manner or at a comparable expense. Additionally, if any key personnel were to leave to work for or establish a competitor, this could further impact FirstWave's prospects. FirstWave has sought to mitigate this risk with equity incentives, but these incentives cannot remove the risk altogether.

Intellectual property

The intellectual property in the FirstWave platform is critical to its commercialisation. There may be circumstances where FirstWave's intellectual property cannot be protected or is subject to unauthorized infringement. Notwithstanding that FirstWave may have legal rights in respect of any infringement, those rights may be costly and time consuming to enforce.

FirstWave has source code and other intellectual property which are important assets. It is therefore reliant on a combination of confidentiality agreements with its consultants and third parties with whom it operates, in addition to trademark and domain name intellectual property right protections, in order to protect the FirstWave brand. Given the nature of the product, FirstWave does not have complete copyright and patent protection of its intellectual property.

If FirstWave is unable to protect its intellectual property, competitors may gain access to its technology which may adversely impact the business. In addition, third parties may make claims against FirstWave for infringement of their intellectual property rights. Defending such actions may be costly to FirstWave and divert the time and resources of Board and key management personnel, resulting in detriment to FirstWave. The intellectual property rights of a third party may also prevent FirstWave from utilising its own intellectual property rights, requiring FirstWave to rebrand at significant cost to FirstWave.

Competition

Markets in which FirstWave competes may be subject to disruptive change from new technologies and competition may arise from a number of sources both in Australia and abroad. It may include companies that have greater capital resources and closer customer relationships than FirstWave. Competition may also arise from companies with developed processes, systems, and technology or customers may seek to develop their own equivalent analytical platforms.

Any significant competition or failure to keep pace with technological change may adversely affect FirstWave's ability to attract customers or meet its business objectives.

Reliance on third parties

As the FirstWave platform is cloud-based, FirstWave relies upon data centres and other third-party service providers for the ongoing availability of its platform. FirstWave's influence over these third-parties is limited. Any system failure that causes an interruption to the platform could materially affect FirstWave's business. System failures, if prolonged, could reduce the attractiveness of the platform to existing and potential customers and could damage FirstWave's business reputation and brand name, and consequently, its financial performance, position and prospects.

Reliance on continual platform development

FirstWave's ability to grow its customer base and generate revenue will be dependent in part upon its ability to continually develop and innovate the FirstWave platform to ensure it is a market leader in the industry. This may involve introducing significant changes to the existing FirstWave platform, including technologies with which there is little or no prior development or operating experience. If the modified platform does not attract customers, FirstWave may fail to generate sufficient revenue or operating profit to justify the investment.

Hacking and breaches

FirstWave may be adversely affected by malicious third-party actions that seek to breach security of the platform. Any such 'hacking' of the platform could, among other things, jeopardise the security of customer information stored on the FirstWave platform. If FirstWave's efforts to combat such malicious actions are unsuccessful, or if the platform has actual or perceived vulnerabilities, FirstWave's business reputation and brand name may be harmed, which may result in a loss of customers from the platform (and reduced prospects of securing new customers).

Lead time delay

There is a risk that the lead time from the identification of new customers/partners to the execution of the contract to product delivery and billing and actual payment for the services may be longer than anticipated. While FirstWave will use its best endeavours to reduce the lead times on its revenue generation activities, any delays which may be beyond the control of FirstWave have the potential to materially impact the financial position, performance and prospects of FirstWave.

COVID-19

The COVID 19 pandemic has had and continues to have an impact on FirstWave's business. In particular the inability for our people to travel internationally has delayed a number of product installations in offshore jurisdictions. Even after the travel restrictions are lifted, there is substantial uncertainty as to the economic outlook internationally.

There are also other changes in the domestic and global macroeconomic environment associated with the events relating to COVID-19 that are beyond the control of FirstWave and may be exacerbated in an economic recession or downturn. These include but are not limited to:

- changes in inflation, interest rates and foreign currency exchange rates;
- changes in employment levels and labour costs;
- changes in aggregate investment and economic output; and
- other changes in economic conditions which may affect the revenue or costs of FirstWave.

Sufficiency of funding

The funds raised under the Placement and Entitlement Offer will be applied primarily for working capital purposes to help FirstWave pursue its growth strategy. However there is no certainty that these expenditures will deliver sufficient sales growth to obviate the need for further capital. For example, even if FirstWave becomes cash flow positive, the Directors

may consider it appropriate to increase expenditure on the development of FirstWave's platform.

As a result, FirstWave may require further funding in the medium term. Any equity funding sought may be highly dilutive to Shareholders, depending on the price at which FirstWave seeks to issue new securities and the level of participation under the Entitlement Offer. While debt funding may be available to FirstWave in the future, the availability of such funding, will be dependent on FirstWave's financial performance. In addition to dilution, if FirstWave is unsuccessful in obtaining funds when required, it may need to delay planned business activities, and potentially forgo growth opportunities, which in turn may adversely affect FirstWave's financial performance or position.

Information technology risks

The platforms offered by FirstWave may contain defects and bugs when first introduced to a particular customer or as new versions are released. These defects or bugs could interrupt or delay the provision of services to customers and could ultimately damage FirstWave's business reputation or financial performance.

FirstWave's platform is also subject to risks associated with computer viruses, physical or electronic break-ins, loss of data from physical damage or from failures by third party service providers or operating systems and similar disruptions, as well as to damage from the inadvertent introduction onto its systems of incorrect programming language by its employees. Any failures, faults, interruption, loss or corruption of data or other compromise to FirstWave's platform as a result of these risks may have a longer-term impact on client satisfaction and could adversely affect the financial performance of FirstWave's business as well as its business reputation

Regulatory risks.

Changes in the structure and regulation of the industries in which FirstWave operates in Australia and elsewhere could materially affect FirstWave and its business. Changes to government policy, law or regulations, or the introduction of new regulatory regimes may lead to an increase in operational costs and may have a materially adverse effect on the operations, financial performance and prospects of FirstWave.

General risks

Contractual risks

The Combined Group will rely significantly on strategic relationships with other entities and also on good relationships with regulatory and government departments and other interest holders. The Combined Group will also rely on third parties to provide essential contracting services. There can be no assurance that its existing relationships will continue to be maintained or that new ones will be successfully formed. The Combined Group could be adversely affected by changes to such relationships or difficulties in forming new ones.

Labour market and key personnel risks

FirstWave is dependent upon a number of key management personnel and executives to manage the day-to-day requirements of its businesses. Although FirstWave enters into employment and incentive arrangements with such personnel to secure their services, it cannot guarantee the retention of their services. The loss of the services of one or more key management personnel could have an adverse effect on the Combined Group.

FirstWave needs to be able to recruit appropriately skilled and qualified individuals. There can be no guarantee that personnel with the appropriate skills will be available.

Changes in Australian government policy and legislation

Any material adverse changes in relevant government policies or legislation of Australia may affect the viability and profitability of the Combined Group, and consequent returns to investors. The activities of the Combined Group will be subject to various federal, state and local laws governing prospecting, development, production, taxes, labour standards, occupational health and safety and other matters.

Economic conditions

The operating and financial performance of the Combined Group is influenced by a variety of general economic and business conditions, including levels of consumer spending, oil prices, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets, and government fiscal, monetary and regulatory policies. Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war, natural disasters or outbreaks of disease or pandemics. A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have an adverse impact on the Combined Group's operating and financial performance and financial position.

The Combined Group's future possible revenues and share prices can be affected by these facts, which are beyond FirstWave's control.

Market conditions

Share market conditions may affect the value of the FirstWave's quoted securities regardless of FirstWave's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- introduction of tax reform or other new legislation;
- interest rates and inflation rates;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital;
- terrorism or other hostilities;
- natural disasters; and
- outbreaks of disease or pandemics.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and cybersecurity stocks in particular.

The past performance of FirstWave is not necessarily an indication as to the future performance of FirstWave or the Combined Group as the trading price of shares can go up or down. Neither FirstWave nor the FirstWave Directors warrant the future performance of FirstWave or the Combined Group, or any return on an investment in FirstWave.

Insurance and uninsurable risks

Although FirstWave maintains insurance to protect against certain risks in such amounts as it considers reasonable, its insurance will not cover all potential risks associated with its operations, and insurance coverage may not continue to be available or may not be adequate to cover any resulting liability. Should such liabilities arise, they could reduce or eliminate any further profitability and result in increasing costs and a decline in the value of FirstWave Shares.

Dividends

Any future determination as to the payment of dividends by the Combined Group will be at the discretion of the FirstWave Directors and will depend on the financial condition of the Combined Group, future capital requirements and general business and other factors considered relevant by the FirstWave Directors at the time. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Combined Group.

Taxation risks

Future changes in Australian and international taxation laws in jurisdictions that FirstWave operates may affect taxation treatment of an investment in FirstWave shares, or the holding and disposal of those shares. Additionally, changes in tax law in the various jurisdictions in which FirstWave operates, may impact the future tax liabilities of FirstWave.

Litigation risk

Disputes or litigation may arise from time to time in the course of the business activities of FirstWave. There is a risk that any material or costly dispute or litigation could adversely affect FirstWave's reputation, financial position, performance or prospects.

7.3. Risks specifically relating to the Offer and the Combined Group**Issue of FirstWave Shares as consideration**

The consideration offered to Opmantek Shareholders under the Offer consists of a specified number of FirstWave Shares, rather than a number of FirstWave Shares with a specified market value. As a result, the value of the consideration will fluctuate depending upon the market value of the FirstWave Shares.

Furthermore, although the Consideration Shares will be subject to the Escrow Period, under the Offer, FirstWave will issue a significant number of FirstWave Shares. Some Opmantek Shareholders may not intend to continue to hold FirstWave Shares and may wish to sell them on the ASX. There is a risk that if a significant number of Opmantek Shareholders seek to sell their FirstWave Shares, this may adversely impact the price of FirstWave Shares.

During the Escrow Period these Consideration Shares are prohibited from being transferred, trading in FirstWave Shares may be less liquid which may impact on the ability of a Shareholder to dispose of his or her FirstWave Shares in a timely manner.

Accordingly, the market value of the Consideration Shares at the time you receive them may vary significantly from their market value on the date of your acceptance of the Offer and again on the date that the escrow applicable to the relevant Consideration Shares has expired. This may result in the value of the consideration to Opmantek Shareholders increasing as well as decreasing.

Rollover relief

A condition of the Offer is that the level of acceptance must result in FirstWave obtaining a Relevant Interest in at least 90% of all Opmantek Shares. However, FirstWave reserves the right to free the Takeover Offer from the 90% minimum acceptance condition.

If FirstWave does not acquire a Relevant Interest in at least 80% of Opmantek Shares, scrip-for-scrip CGT rollover relief will not be available to Opmantek Shareholders. Refer to **section 7** for further details.

Change of control risk

The acquisition of Opmantek may trigger change of control clauses in some material contracts to which Opmantek is a party.

Where triggered, the change of control clause will, in most cases, require FirstWave to seek the counterparty's consent in relation to the acquisition of Opmantek.

There is a risk that a counterparty may not provide their consent to the acquisition, which may trigger a termination right in favour of that counterparty, or that the counterparty may require a payment from FirstWave or renegotiation of terms to obtain such consent.

If any of the material contracts containing a change of control clause are terminated by the counterparty or renegotiated on less favourable terms, it may have a material adverse effect on FirstWave's post-acquisition (assuming this occurs) financial performance and prospects. There can be no assurance that FirstWave will be able to negotiate such contracts on commercially reasonable terms, if at all.

Additionally, as a result of the acquisition, clients of Opmantek that are not bound by a contract or that have rights to terminate for convenience, may elect to terminate their relationship with Opmantek. If any material clients terminate their relationship with Opmantek, FirstWave's financial performance and prospects post-acquisition (assuming this occurs) may be materially adversely affected.

Reliance on information provided by Opmantek

A material unidentified misstatement of the recent financial performance of Opmantek's business could potentially have a material adverse impact on Opmantek into the future.

FirstWave undertook a due diligence process in respect of Opmantek, which relied in part on the review of financial, legal and other information provided by Opmantek. While FirstWave considers the due diligence process undertaken to be appropriate,

FirstWave has not been able to verify the accuracy, reliability or completeness of all the information which was provided to it against independent data. Similarly, FirstWave has prepared (and made assumptions in the preparation of) the financial information relating to Opmantek on a stand-alone basis, and also to FirstWave as part of the Combined Group should FirstWave become Opmantek's ultimate parent company.

If any of the data or information provided to and relied upon by FirstWave in its due diligence process and its preparation of this Bidder's Statement proves to be incomplete, incorrect, inaccurate or misleading, there is a risk that the actual financial position and performance of FirstWave may be materially different to the financial position and performance expected by FirstWave and reflected in this Bidder's Statement.

Further, the information reviewed by FirstWave includes forward-looking information. Forward-looking information is inherently unreliable and based on assumptions that may not be achieved or satisfied in future.

Analysis of acquisition

FirstWave has undertaken financial, business and other analyses of Opmantek to determine its attractiveness to FirstWave, and whether to pursue its acquisition. It is possible that such analyses, and the best-estimate assumptions made by FirstWave, draw conclusions and make forecasts that are inaccurate or which may not be realised.

To the extent that the actual results achieved by Opmantek are different to those indicated by FirstWave's analysis, there is a risk that the profitability and future earnings of the operations of FirstWave may be materially different from the profitability and earnings expected as reflected in this Bidder's Statement.

Integration risk

There are risks that any integration between the businesses of FirstWave and Opmantek may be more complex than anticipated, take longer than expected, encounter unexpected challenges or issues and take longer than expected, divert management attention or not deliver the expected benefits and this may affect FirstWave's operating and financial performance. Further, the integration of Opmantek's accounting functions may lead to revisions, which may impact on FirstWave's reported financial results.

Historical liability

If FirstWave becomes Opmantek's ultimate parent company, FirstWave may become directly or indirectly liable for any liabilities that Opmantek has incurred in the past as a result of prior acts or omissions, including liabilities which were not identified during FirstWave's due diligence or which are greater than expected, and for which the various forms of protections negotiated by FirstWave in its agreement to acquire Opmantek turn out to be inadequate in the circumstances. Such liabilities may adversely affect the financial performance or position of FirstWave post-acquisition.

Loss of Opmantek personnel

FirstWave is committed to providing attractive employment conditions and prospects, and an attractive employee environment to assist in the retention of Opmantek's key management personnel throughout the acquisition process.

However, there can be no assurance that there will be no loss of key staff leading up to and following Opmantek's acquisition by FirstWave, assuming this occurs.

Dilution risk

The consideration for the Takeover Offer is the consideration set out on the front page of this Bidder's Statement. If the Takeover Offer is completed, there will be a dilution for current FirstWave Shareholders as a result of the Consideration Shares being issued.

7.4. FirstWave's Due diligence

There is no assurance that the due diligence conducted in respect of the acquisition of Opmantek was conclusive and that all material issues and risks have been identified and avoided or managed appropriately.

There is a risk that unforeseen issues may arise, that may also have a material impact on the Combined Group (for example, FirstWave may later discover liabilities or defects which were not identified through due diligence or for which there is no protection for FirstWave). This could adversely affect the operations, financial performance or position of the Combined Group.

7.11. No material litigation

FirstWave is not party to any material litigation and is not involved in any material disputes.

7.12. Foreign Shareholders

For the purposes of the Offer, an Opmantek Shareholder is considered to be a Foreign Shareholder if their address in the register of members is a place outside of Australia or New Zealand, unless FirstWave determines (in its absolute discretion) that it is lawful, not unduly onerous and not unduly impracticable to make the Offer to that Opmantek Shareholder in the relevant jurisdiction and to issue to that Opmantek Shareholder with FirstWave Shares, on the completion of the Offer and that it is lawful for that Opmantek Shareholder to participate in the Offer by the law of the relevant jurisdiction (**Foreign Shareholder**).

If you are a Foreign Shareholder and you accept the Offer, the FirstWave Shares which would otherwise have been issued to Foreign Shareholder will instead be issued to a Sale Agent approved by ASIC, who will then sell these securities. The net proceeds of the sale of such securities will then be remitted to the relevant Foreign Shareholder. See **section 8.11** of the Offer.

The Offer is not registered in any jurisdiction outside Australia. It is your sole responsibility to satisfy yourself that you are permitted by any law of a country other than Australia applicable to you to accept these Offer and to comply with any other necessary formality and to obtain any necessary governmental or other consents.

7.13. Other material information

- other than as is contained elsewhere in this Bidder's Statement.

7.14. Supplementary disclosure

- a significant change affecting a matter included in this Bidder's Statement; or
- a significant new matter arising which would have been required to be included in this Bidder's Statement.

The form which the supplementary document may take, and whether a copy will be sent to each Opmantek Shareholder, will depend on the nature and timing of the new or changed circumstances. Any such supplementary document will be made available on FirstWave's website and released to the ASX (and accordingly, available from the ASX's website at www.asx.com.au).

7.15. Date for determining holders

For the purposes of section 633(2) of the Corporations Act, the date for determining the people to whom information is to be sent under items 6 and 12 of section 633(1) of the Corporations Act is 5.00pm (Sydney time) on 1 December 2021.

7.16. ASIC modifications and exemptions, ASX waivers

ASIC has published various "Class Order" instruments providing for modifications and exemptions that apply generally to all persons, including FirstWave, in relation to the

operation of Chapter 6 of the Corporations Act. FirstWave may rely on this "Class Order" relief.

FirstWave has applied for a modification under section 655A of the Corporations Act to enable FirstWave to apply voluntary escrow to the Consideration Shares to be issued to the identified Opmantek Shareholders under the Takeover Offer without FirstWave acquiring a relevant interest in its own securities under section 608 of the Corporations Act. FirstWave has not yet received confirmation from ASIC that they will grant the necessary relief and, in the event that the relief is not granted, FirstWave will vary the terms of the bid to remove the voluntary escrow condition applicable to the Takeover Offer.

- (iii) you will cease to be entitled to any dividends, distributions or voting rights while the breach continues.

The Consideration Shares are to be subject to the voluntary escrow requirements discussed above, subject to receipt of an ASIC modification of Chapter 6 of the Act so that FirstWave does not obtain a relevant interest in its own securities (**Modification**). If ASIC does not grant the Modification, FirstWave will vary the terms of the Takeover Offer so as to remove the voluntary escrow requirement.

8.10. Provision of consideration

- (a) Subject to the terms of this Offer and the Corporations Act, FirstWave must provide the Consideration Shares not later than one month after this Offer is accepted or this Offer (or the contract resulting from its acceptance) becomes unconditional, whichever is the later, but in any event (assuming the Offer becomes or is declared unconditional) not later than 21 days after the end of the Offer Period.
- (b) Under no circumstances will interest be paid on the consideration to which you are entitled to under the Offer, regardless of any delay in providing the consideration or any extension of the Offer.
- (c) If you are a Foreign Shareholder and you have accepted the Offer, you will receive your share of the proceeds from the sale of Consideration Shares in accordance with **section 7.12**.
- (d) Subject to **sections 7.12** and **8.12**, the obligations of FirstWave to allot and issue any Consideration Shares to which you are entitled under the Offer is to be satisfied:
 - (i) by entering your name on the register of members of FirstWave;
 - (ii) dispatching or procuring the dispatch to you by prepaid post to your address recorded in Opmantek's register of members at the Record Date, an uncertificated holding statement in your name. If your Opmantek Shares to which the Offer relates are held in a joint name, an uncertificated holding statement must be issued in the name of, and forwarded to, the holder whose name appears first in Opmantek's register of members on the Record Date.
- (e) Where the Acceptance Form requires an additional document to be given with your acceptance (such as a power of attorney):
 - (i) if that document is given with your Acceptance Form, FirstWave must provide the consideration in accordance with **section 8.10(a)**;
 - (ii) if that document is given after your Acceptance Form and before the end of the Offer Period while this Offer is subject to a defeating condition, FirstWave must provide the Consideration Shares by the end of whichever of the following periods ends earlier:
 - (A) within one month after this Offer becomes unconditional; or
 - (B) 21 days after the end of the Offer Period;
 - (iii) if that document is given after your Acceptance Form and before the end of the Offer Period while this Offer is not subject to a defeating condition, FirstWave must provide the Consideration Shares by the end of whichever of the following periods ends earlier:
 - (A) within one month after that document is given; or
 - (B) 21 days after the end of the Offer Period; and

- (iv) if that document is given after the end of the Offer Period and the Offer is not subject to a defeating condition, FirstWave must provide the Consideration Shares within 21 days after that document is given.
- (f) If you accept this Offer, FirstWave is entitled to all Rights in respect of your Opmantek Shares. FirstWave may require you to provide all documents necessary to vest title to those Rights in FirstWave, or otherwise to give it the benefit or value of those Rights. If you do not give those documents to FirstWave, or if you have received the benefit of those Rights, FirstWave may deduct from the consideration otherwise due to you the amount (or value, as reasonably assessed by FirstWave) of those Rights, together with the value (as reasonably assessed by FirstWave) of the franking credits, if any, attached to the Rights. Any such deduction will be made from any FirstWave Shares on the basis that one FirstWave Share is worth \$0.07.
- (g) If, at the time you accept the Offer, any of the following:
- (i) *Banking (Foreign Exchange) Regulations 1959* (Cth);
 - (ii) Part 4 of the *Charter of the United Nations Act 1945* (Cth);

 - (iv) any other regulations made under Part 4 of the *Charter of the United Nations Act 1945* (Cth);

 - (vi) any other law of Australia,

8.11. Foreign Shareholders

- (a) If you have accepted the Offer and you are a Foreign Shareholder, you are not entitled to receive FirstWave Shares as consideration for your Opmantek Shares. Instead FirstWave must:
- (i) arrange for the issue to a nominee approved by ASIC (**Sale Nominee**) of the number of FirstWave Shares to which you and all other Foreign Shareholder would have been entitled but for this section of the Offer;
 - (ii) cause those FirstWave Shares to be offered for sale on ASX as soon as practicable after the end of the Offer Period, in such manner, at such price and on such other terms as are determined by the Sale Nominee; and
 - (iii) promptly pay, or procure that the Sale Nominee pays, to you the amount ascertained in accordance with the following formula (calculated on an average basis so that all Foreign Shareholders who accept the Offer receive the same value per Opmantek Share, subject to rounding):

$$\text{Net Proceeds of Sale} \times \frac{A}{B}$$

Where:

Net Proceeds of Sale is the amount remaining after deducting the expenses of the sale and of appointing the Sale Nominee (including brokerage, stamp duty (applied at standard market rates) and other selling costs, taxes and charges) from the proceeds of sale;

A is the number of FirstWave Shares which would, but for **section 8.11**, have been allotted and issued to you; and

B is the total number of FirstWave Shares allotted and issued to the Sale Nominee under this section in respect of the Opmantek Shares held by all Foreign Shareholders.

- (b) You are to be paid your share of the net proceeds of the sale of the FirstWave Shares by the Sale Nominee in Australian currency.
- (c) Payment is to be made by cheque posted to you at your risk by pre-paid mail as soon as practicable and in any event within the period required by the Corporations Act to your address in the most up to date copy of the Opmantek register provided to FirstWave before your consideration cheque is produced.
