FY23 outlook

- → Home Ioan AUM Prime AUM growth subdued driven by fierce competition and lower system growth. We expect continued growth in Specialist AUM as we pursue higher margin segments.
- Rolled out new core banking platform delivering further business automation and superior banking functionality to customers.
- Customer / Broker Experience the next wave of transformation will leverage our new technology platform by focussing on digitalising the customer and broker experience.

Asset finance AUM - remain on track for targeted \$1b of annual settlements by FY24 supported by a new digital originations platform and funding line to support organic growth.

→ 1H23 NIM impacted by lag between backbook reprice and higher BBSW. 2H23 NIM expected to stabilise as backbook repricing and new business NIM offset funding headwinds.
