Raiz Invest announces changes to its senior leadership team

Raiz Invest made key changes to both its senior executive team and Board of Directors in the September 2022 quarter.

Effective 26 September 2022, Brendan Malone, previously Joint Group CEO (Australia), took on the role of Managing Director and CEO, assuming responsibility for all Raiz offices. Brendan, who has worked with the Company since 2015, replaces Managing Director and Joint Group CEO (International) George Lucas, who will leave the Company at the end of calendar 2022.

In another significant leadership change, the Raiz Chair, Harvey Kalman, has stepped down from that role. Harvey has been replaced by Stuart Grimshaw, an existing Raiz Director and Chair of the Audit and Risk Committee.

Raiz paid \$399k in relation to CEOs remuneration and Directors' fees this quarter.

Raiz reports growth in both customer base and active customer metrics

Raiz's active customer base increased on both a YOY and QOQ basis in Q1 FY23. This satisfactory outcome was achieved in the face of increased competition and ongoing volatility in both domestic and overseas financial markets, equity markets included.

With the launch of Raiz Kids in the previous quarter, the momentum achieved has been very positive with over 16,700 Raiz Kids accounts being opened, adding over \$8m to the Australian FUM. This indicates a clear market demand for innovative products that offer retail investors a way to give their children an early start to their investment life cycles.

Expense base and strategic review

The change in leadership has supported a full review of the strategic plan. This review provided the opportunity to reposition the Company to leverage on its sound strategic foundations and to identify new value-creating opportunities across all geographies.

Management understands the importance of reducing the cost base to improve the sustainability of the business. Raiz has reviewed its cost structure and has eliminated annualised costs of over \$2.3m from its expense line to date.

Cash used for operating activities for the quarter was \$2.3m; after adding back one-off costs associated with advertising production and initial restructure costs, the normalised cash utilised in operating activities was \$1.7m. Costs remain higher than desired, and further changes are expected in the December quarter in line with the ongoing strategic review. Importantly, the Australian business remained operationally cash flow positive on this normalised basis.

We are prioritising innovative product developments that will assist in customer retention whilst also increasing the share of wallet. Management now has focus on delivering core prioritised projects, focusing on four developments for the quarter down from the previous 27 projects in the pipeline. These key developments represent the greatest value for both the Raiz business and our customers.

Product pipeline targeting core Australian business

Raiz is developing new products that will specifically target the Company's core Australian business. These offerings will leverage Raiz's intimate knowledge of what matters most to everyday Australians along their wealth creation journey (and include features our customers have been requesting).

One of these new products will be the soon-to-be-released Raiz Property Fund. Other new offerings will incorporate enhanced customised portfolios investment options that will markedly enhance user experience, financial education, and inclusion.

Raiz is sharpening the focus of its Southeast Asia market product offerings

Raiz is evaluating ways to bring onboard new strategic partnerships that will help accelerate market penetration of the Company's target Southeast Asian markets. This will assist in reducing the current cash requirements being experienced in these geographies.

With renewed focus, Raiz is moving to create products that will help it better engage the Company's large customer bases in both Indonesia and Malaysia. This strategy will ensure Raiz unlocks more of the revenue potential within its large (and growing) Southeast Asian market presence.

This strategy is already being actioned, with the Company continuing to roll out our Australian products in its Southeast Asian markets in the expectations they will also resonate in these markets. These include the successful Raiz Kids and Raiz Rewards products, which are already delivering improved customer retention and higher engagement metrics.

Brendan Malone, Raiz Invest Managing Director and CEO said: “In the context of ongoing market volatility brought on by a mix of global geopolitical events and economic uncertainties, it was pleasing

to see modest increases in our funds under management metrics over the September 2022 quarter. Reflective of this broad-based market nervousness, the S&P/ASX declined by 1.4% in the quarter.

Looking beyond the negative sentiment created by current market volatility, Raiz remains fully focused on the things it can control. The Company's unique micro-investing and fintech platform has multiple competitive advantages over rival investment groups. We are now actioning a plan that will see Raiz further enhance these advantages. Central to this growth strategy is a continually evolving product pipeline that will target unmet investor demand we have identified via customer centric requests and feedback. Some products already in this pipeline will soon launch into our core Australian market. With renewed focus, we are also pursuing initiatives that boost the revenue contribution of our Southeast Asian client base, including new product offerings and, potentially, new strategic partnerships. Successful delivery of this growth strategy will go a long way to improving the sustainability of the Raiz business model.

I look forward to providing more detail on our strategy to grow the Raiz Invest business at the upcoming FY22 AGM, to be held on 25 November 2022."
