September Qtr Update

Education sales

Driving new and net new ARR growth

ARR growth was on plan with \$3.5 million net added in the quarter. US added \$3.7 million with a remarkable 135% NRR.

US ARR is ~\$30 million (90% YoY growth). UK ARR is on target however a rapid fall in GBP at the end of September offset ARR growth in AUD. UK ARR is ~\$31 million (15% YoY growth). The UK forex fall has largely reversed in October. ANZ ARR fell by \$400K due to the depreciation of the Family Zone parental controls and restructure of ANZ sales models.

Huge volumes of renewals (120% of target) in the quarter shows customer satisfaction is strong. Churn remains well under 4%.

Continuing footprint expansion

The scale and strength of the US market was on display in the quarter. We now support in excess of 5 million US students and 17% of US districts. Our US operations are expected to surpass our UK business in terms of ARR and student licenses within the next few months.

Students in POC fell as is typical as we move out of the busy sales cycle however pipeline is strong and bottom of the pipeline gives us confidence of a solid December quarter.

Looking ahead

We currently have in excess of \$10.5 million of qualified leads with a weighted value of ~\$4.5 million. This represents 141% and 46% YoY pipeline growth.

In addition to the pipe, we are delighted to be bidding into a number of million dollar deals across all of our markets.

Whilst strong sales are expected, the December quarter is about pipeline creation ahead of the key UK and US sales quarters of March and June respectively.

Looking further ahead we are excited to welcome EI Pulse to our portfolio and will be launching a range of paid online leading products in the new year.

Global growth

Strong growth across multiple vectors

Group ARR grew by ~\$5 million with strong contributions from both Qustodio (\$1.7 million) and Education (\$3.2 million). This represents 25% organic growth which is pleasing given September is a low point in UK EDU sales. **Importantly group revenue is exceptionally diversified across currencies, regions and products.**

Global operating leverage

Growing margins and ARPUs

Continued focus on cross and upsells with our expanding product lines is delivering consistent growth in average revenue per student which is now \$5.7 pa (\$7.3 accounting for all group revenue).

With the Qustodio merger complete we're now reporting consolidated Service Margins (after data, hosting, hardware & IT) and now include marketing costs in Gross Margin (previously Service Margin less channel costs).

Pleasingly Service Margins passed through 85%. We target 90% in the next 12-18 months. It is worth highlighting that investments in cloud capacity are made in the September quarter to prepare for the US back-to-school and UK deployment seasons. This temporarily reduces margins.

School community & B2B2C

Momentum building to pre-xmas ANZUS launch

During the September quarter our Community team’s focus was on delivering the “sharing” feature sets, running customer trials and working with our sales teams to drive growth in active community programs in the US. Pleasingly trials are proceeding as planned and district interest is exploding with 600 US districts signed-up to Community.

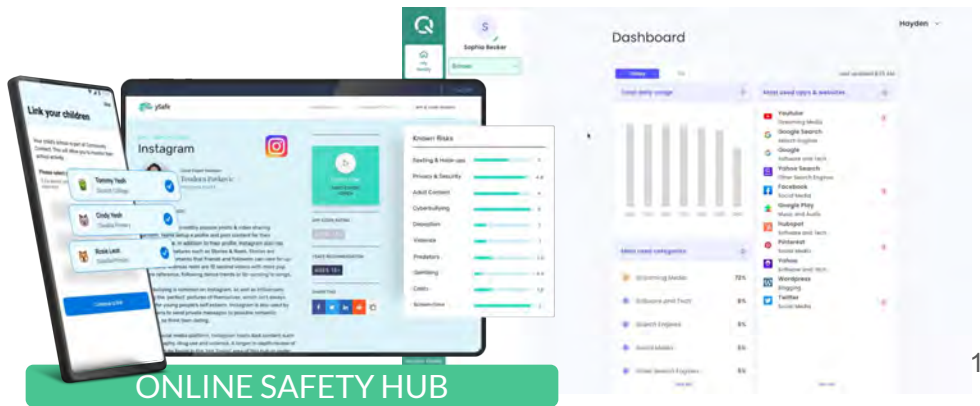

Full launch of Qustodio to ANZ and US schools is on track and scheduled for November. The launch into UK schools is now scheduled for January.

NOTE: US school take-up calculations has been adjusted this quarter to reflect former NetRef and CIPA filter clients whom can now participate in Community.

Qustodio

Above plan with strong back-to-school sales

Qustodio joined the family in August 2022 and has made an immediate impact. Buoyed by US back-to-school, Qustodio thoroughly beat internal sales targets. Importantly Qustodio is diversifying our revenue streams and smoothing cash flow.

Qustodio added ~ 9,000 paid accounts and \$1.7 million of ARR in the quarter.

We are confident in the short and longer term outlook for Qustodio. We have an imminent launch of B2B2C; ongoing advancement in Qustodio's operations and products and favourable market and regulatory conditions.

Sustainability

Executing on our plan to break even

Pleasingly the Company is enjoying strong ARR growth and strengthening margins. Furthermore, accounting for the additional fixed costs from the August Qustodio merger the group is on target for a \$3-4 million reduction in fixed costs this financial year.

The chart right shows our run rate margin (ARR x Gross Margin) compared to our cash staff and other costs. It shows:

- ✓ Margin is growing materially faster than costs; and
- ✓ Clear progress to operational cash flow breakeven.

Note: Qustodio was merged on 1 August 2022. Accordingly for comparison purposes this chart includes a pro-rata full quarter of Qustodio 's fixed costs.

Capital Management

Strong ARR conversion and well funded

Pleasingly our strong ARR growth is converting into cash inflows. This quarter we collected a record \$23.5 million and generated an inaugural quarterly operating cash surplus of circa \$1 million.

The Company finished the quarter with circa \$25 million of available funding including an undrawn \$10 million convertible funding facility.

Cash Collections (nett) Group | AUD Millions

Group Outlook

As indicated in previous quarters the Company is executing on a deliberate plan to grow, expand our product portfolio and and construct a sustainable cost base. These efforts are delivering results with costs well managed and a clear pathway to breakeven.

Importantly corporate activity has brought together all of the ingredients we need to fulfill our medium term product vision and mission to protect and support every child's digital journey.

The remainder of FY2023 is about continued execution, taking advantage of growing awareness, our growing pipeline and massive K-12 funding plus honing our product portfolio and cost structure.

Quarterly Cash flow commentary

Commentary

Receipts from customers for the quarter were a record \$23.5m, delivering our first positive operating cash flow quarter.

Direct costs: \$4.2 million (from \$2.3m) includes \$800k of Qustodio costs and is reflective of the growth in the business and a higher activity period.

Staff costs: \$14.6 million (from \$12.5m) includes \$1.2 million for Qustodio staff, end of year bonus payments and annual salaries increases.

Fixed other: \$3.15 million (from \$2.8m) includes \$300k relating to Qustodio, meaning fixed costs have been well controlled notwithstanding the high inflationary environment.

Once again growth in overall cash costs tracked materially lower than margin growth showing the accelerating contribution of % margin improvements and cost efficiencies from recent mergers.
