Strong growth momentum

- Continuing to deliver strong revenue growth and good progress on strategic priorities
- Customers are increasingly using Xero to run their business and meet critical compliance needs
- Xero's high value proposition is needed more than ever in the current complex macroeconomic backdrop
- Free cash flow growth from emerging efficiencies reflects investment. Focused on continuing to invest for long term growth while remaining disciplined

Strong revenue growth demonstrates value of proposition

Positioned for the long term opportunity across our international segments

- Well positioned delivering strong revenue growth and solid ARPU growth¹
- Continuing to progress our product roadmap announcing Xero Go in the UK and our partnership with Avalara for US sales tax
- Subdued H1 FY23 net additions in the UK due to slower than expected uptake of the final stage of MTD for VAT, a less than buoyant macro backdrop and changes that we have implemented to our partner sales approach
- North America net additions impacted by seasonality related to the timing of the tax year end
- We expect Xero’s momentum in subscriber additions in both the UK and North America to improve over the remainder of FY23, with performance in H2 FY23 expected to be similar or better than the prior comparable period

¹ Estimated TAM across English speaking cloud accounting markets that Xero has a presence in, based on publicly available data of number of small businesses.

Grow the small business platform: an open platform and ecosystem to address small businesses needs

No single vendor is likely to meet all the needs of a small business

Xero is committed to being an open platform and encouraging third party innovation through our ecosystem

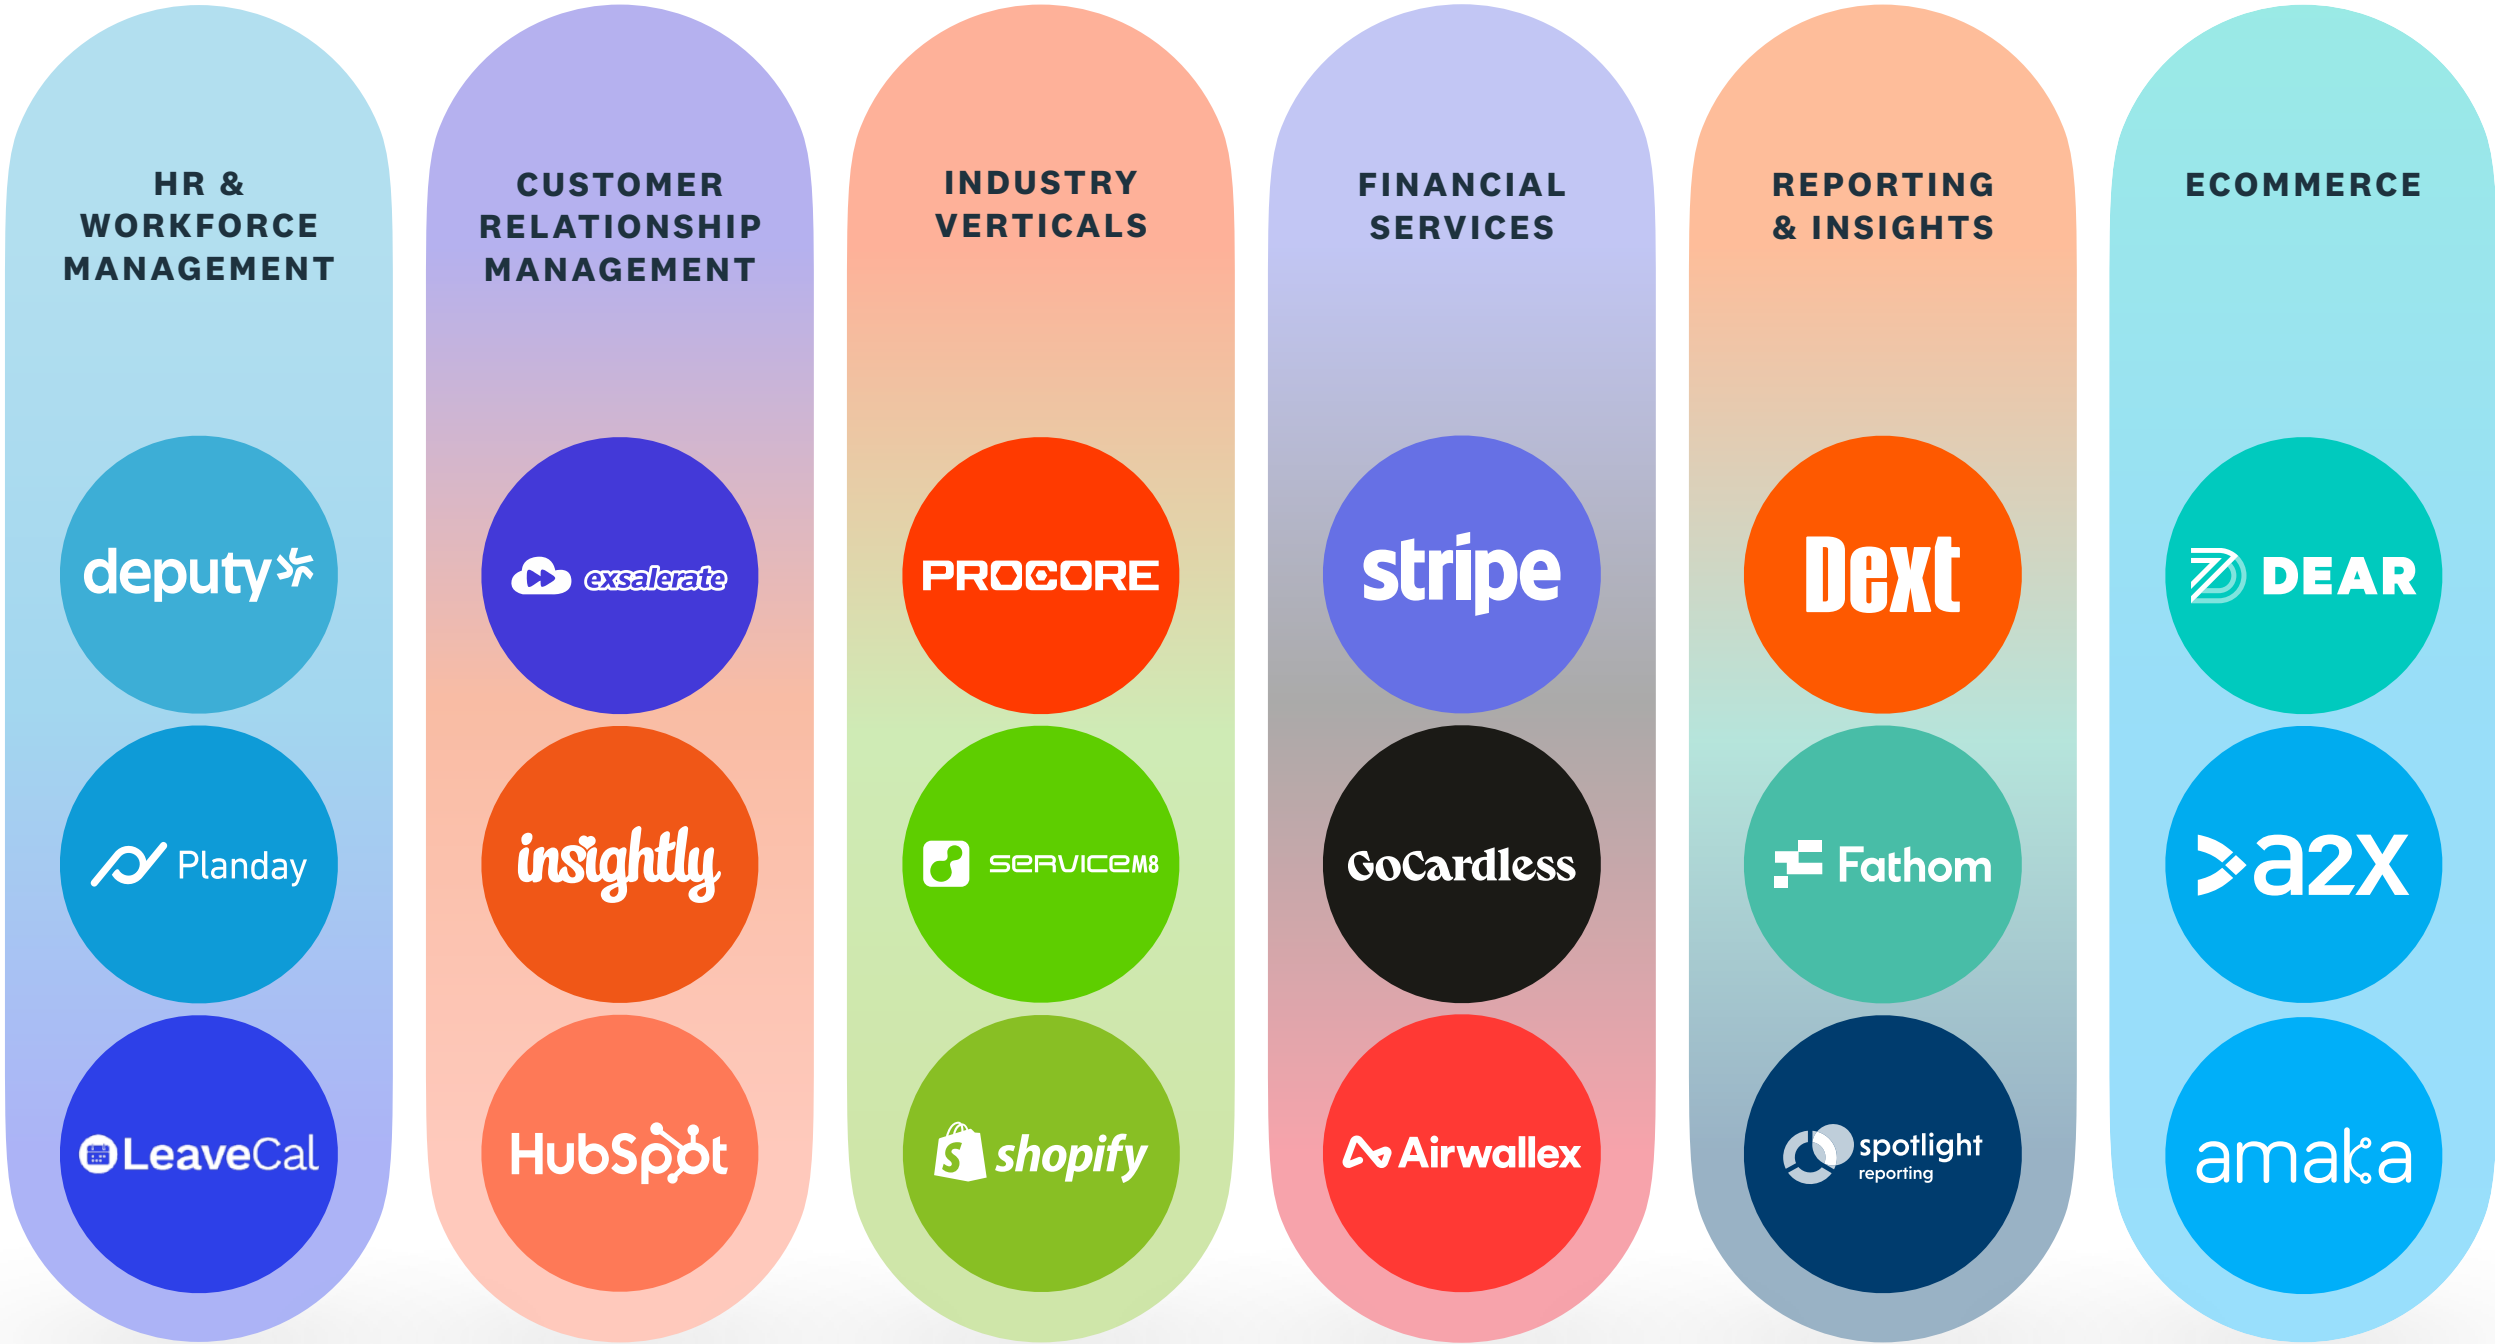

Grow the small business platform: an open platform and ecosystem to address small businesses needs

No single vendor is likely to meet all the needs of a small business

Xero is committed to being an open platform and encouraging third party innovation through our ecosystem

We facilitate this in a number of ways including through the Xero App Store

Build for global scale and innovation: technology investment

The next evolution of our technology investment is continuing our focus on:

EFFICIENCY AND SCALABILITY

Further enabling our technical environment and data environments for global scale. Supporting greater change capacity as we localise our core product to different markets

SPEED TO MARKET

Increase the speed we can deliver products to market and allowing us to be more agile in our product development

TALENT

Delivering a best practice environment for productivity and enablement of our engineers to drive innovation

INSIGHTS

Implementation supports Xero's long term goal to become the most insightful and trusted small business platform by increasing our ability to support data-led innovation by Xero and 3rd parties

Financial results

Kirsty Godfrey-Billy
CHIEF FINANCIAL OFFICER

Robust financial performance with continued disciplined investment for the long term

AMRR

Growth in AMRR of \$348.4m or 31% YOY (23% in constant currency) reflects subscriber growth of 16%, and ARPU increase of 13% YOY (6% YOY in constant currency)

EBITDA

EBITDA increased by \$10.5m or 11% YOY, reflecting 30% revenue growth and controlled operating expenditure growth. EBITDA includes a \$25.9m impairment of the Waddle business, partly offset by \$10.8m of non-cash revaluation gains (discussed on slide 24)

Free cash flow

Free cash flow increased by \$9.2m to \$15.6m. Free cash flow as a percentage of revenue increased 1.1pp from 1.3% to 2.4% YOY

Continued uplift in lifetime value of subscribers

LTV movements by driver

Balancing cost discipline with long term investment

Sales & marketing as a % of revenue

Sales and marketing costs increased by 26% YOY which was lower than the growth in operating revenue in H1 FY23. This resulted in a 1.1pp improvement in sales and marketing costs as a percentage of revenue. Excluding Xerocon, this ratio falls to 33.7% of revenue

General & administration as a % of revenue

General and administration costs increased by 25% YOY which was lower than the growth in operating revenue in H1 FY23. This resulted in 0.6pp improvement in G&A as a percentage of revenue YOY

Product design & development as a % of revenue

Product design and development costs increased 38% YOY, higher than the growth in operating revenue in H1 FY23. This reflected continued investment in global product innovation and platform delivery while managing inflationary cost pressures. This resulted in a 2.0pp increase in these costs as a percentage of revenue YOY

Robust financial performance

Operating revenue growth of 30% YOY (27% constant currency), driven primarily by subscriber growth and ARPU

Operating expenses increased 31% YOY and represented 83.9% of operating revenue

Glossary

AMRR

Annualised monthly recurring revenue (AMRR) represents monthly recurring revenue at 30 September, multiplied by 12. It provides a 12 month forward view of revenue, assuming any promotions have ended and other factors such as subscriber numbers, transaction volumes, pricing and foreign exchange remain unchanged during the year

ARPU

Average revenue per user (ARPU) is calculated as AMRR at 30 September divided by subscribers at that time (and divided by 12 to get a monthly view)

CAC months

Customer Acquisition Cost (CAC) months are months of ARPU to recover the cost of acquiring each new subscriber. The calculation is sales and marketing costs for the year excluding the capitalisation and amortisation of contract acquisition costs, less conference revenue (such as Xerocon), divided by gross new subscribers added during the same period, divided by ARPU

CAGR

Compound annual growth rate

Churn

Churn is the value of monthly recurring revenue (MRR) from subscribers who leave Xero in a month as a percentage of the total MRR at the start of that month. The percentage provided is the average of the monthly churn for the previous 12 months. Average subscriber lifetime is calculated as one divided by churn

Constant currency (cc)

Constant currency comparisons for revenue are based on average exchange rates for the 6 months ended 30 September 2021. Comparisons for ARPU, AMRR and LTV are based on exchange rates at 30 September 2021

Core accounting revenue

Core accounting revenue comprises subscription based revenue to Xero's cloud-based platform, including any revenue for products that are bundled into subscription plans (such as Hubdoc and Payroll in some regions)

Free cash flow

Free cash flow is defined as cash flows from operating activities less cash flows used for investing activities excluding cash used for acquisitions of, and investments into, businesses and strategic assets

GAAP

Generally accepted accounting principles

Lifetime value (LTV)

LTV is the gross margin expected from a subscriber over the lifetime of that subscriber. This is calculated by taking the average subscriber lifetime (1 divided by churn) multiplied by ARPU, multiplied by the gross margin percentage. Group LTV is calculated as the sum of the individual segment LTVs, multiplied by their respective segment subscribers, divided by total Group subscribers

Liquid resources

Liquid resources comprises cash and cash equivalents, short-term deposits including proceeds from convertible notes, and undrawn committed debt facilities

Other revenue

Other revenues comprises non-recurring revenues and WorkflowMax. Non-recurring revenues include revenue from events (such as Xerocons and roadshows), and other non-subscription or platform services. WorkflowMax is online workflow and job management software

Platform revenue

Platform revenues include revenue derived from related services, including adjacent products (such as Hubdoc subscriptions on other accounting platforms) and add-ons with incremental revenue (such as Payroll, Projects and Expenses modules), and payments and revenue share agreements with partners

Subscribers

Subscriber means each unique subscription to a Xero-offered product that is purchased by a user (eg a small business or accounting partner) and which is, or is available to be, deployed. Subscribers that have multiple subscriptions to integrated products on the Xero platform are counted as a single subscriber
