#### **About Xero**

<u>Xero</u> is a global small business platform with 3.5 million subscribers which includes a core accounting solution, payroll, workforce management, expenses and projects. Xero also has an extensive ecosystem of connected apps and connections to banks and other financial institutions helping small businesses access a range of solutions from within Xero's open platform to help them run their business and manage their finances. For three consecutive years (2020-2022) Xero was included in the Bloomberg Gender-Equality Index. In 2021, Xero was included in the Dow Jones Sustainability Index (DJSI), powered by the S&P Global Corporate Sustainability Assessment. Xero is a FIFA Women's Football partner under FIFA's new commercial structure.

# Investor briefing

Half year results to 30 September 2022

10 NOVEMBER 2022

# Important notice

This presentation is given on behalf of Xero Limited (Xero) (ASX:XRO) (Company number NZ 183 0488, AU ARBN 160 661 183)

Information in this presentation:

- is for general information purposes only, and is not an offer or invitation for subscription, or purchase of, or a recommendation to invest in, Xero securities
- should be read in conjunction with, and is subject to, Xero's latest and prior interim and annual reports, including Xero's interim report for the period ended 30 September 2022, and Xero's market releases on the ASX
- includes forward-looking statements about Xero and the environment in which Xero operates, which are subject to uncertainties and contingencies outside of Xero's control Xero's actual results or performance may differ materially from these statements

- includes statements relating to past performance, which should not be regarded as a reliable indicator of future performance
- may contain information from third parties believed to be reliable, but no representations or warranties are made as to the accuracy or completeness of such information
- includes Non-GAAP measures as we believe they provide useful information for readers to assist in understanding Xero's financial performance. Non-GAAP financial measures do not have a standardised meaning and should not be viewed in isolation or considered as substitutes for measures reported in accordance with NZ IFRS. These measures have not been independently audited or reviewed

All information in this presentation is current at 30 September 2022, unless otherwise stated.

All currency amounts are in NZ dollars, unless otherwise stated.

Due to rounding, numbers in this presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

See page 34 for a glossary of the key terms used in this presentation.

\$84m	<b>+16</b> %	+16% YOY constant currency
536k	+12%	+24K net additions in H1 FY23

**New Zealand** 

# International highlights

**\$281M REVENUE** (+34%YOY, 32% constant currency)

1.49M SUBSCRIBERS (+15% YOY), 75K NET ADDITIONS

\$35.0 ARPU (+12% YOY, 6% YOY constant currency)

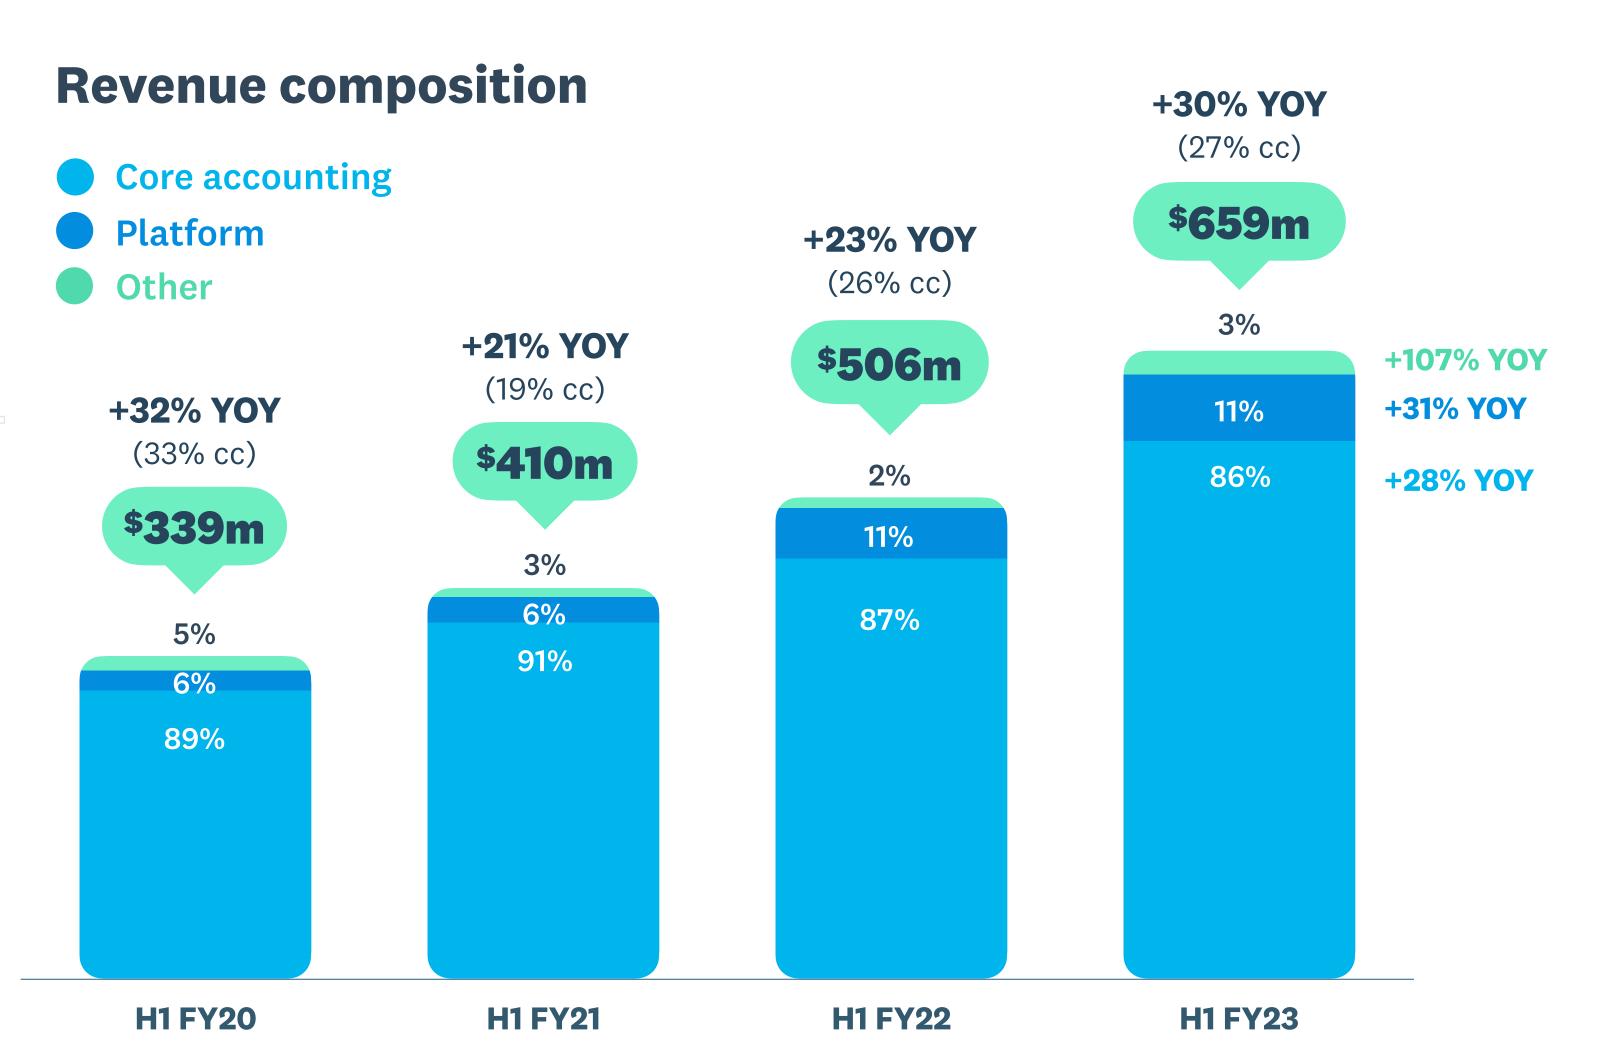

#### Positioned for the long term opportunity across our international segments

- Well positioned delivering strong revenue growth and solid ARPU growth<sup>1</sup>
- Continuing to progress our product roadmap announcing Xero Go in the UK and our partnership with Avalara for US sales tax
- Subdued H1 FY23 net additions in the UK due to slower than expected uptake of the final stage of MTD for VAT, a less than buoyant macro backdrop and changes that we have implemented to our partner sales approach
- North America net additions impacted by seasonality related to the timing of the tax year end
- We expect Xero's momentum in subscriber additions in both the UK and North America to improve over the remainder of FY23, with performance in H2 FY23 expected to be similar or better than the prior comparable period

	United Kingdom		No	North America			Rest of World

# Grow the small business platform: an open platform and ecosystem to address small businesses needs

No single vendor is likely to meet all the needs of a small business

Xero is committed to being an open platform and encouraging third party innovation through our ecosystem

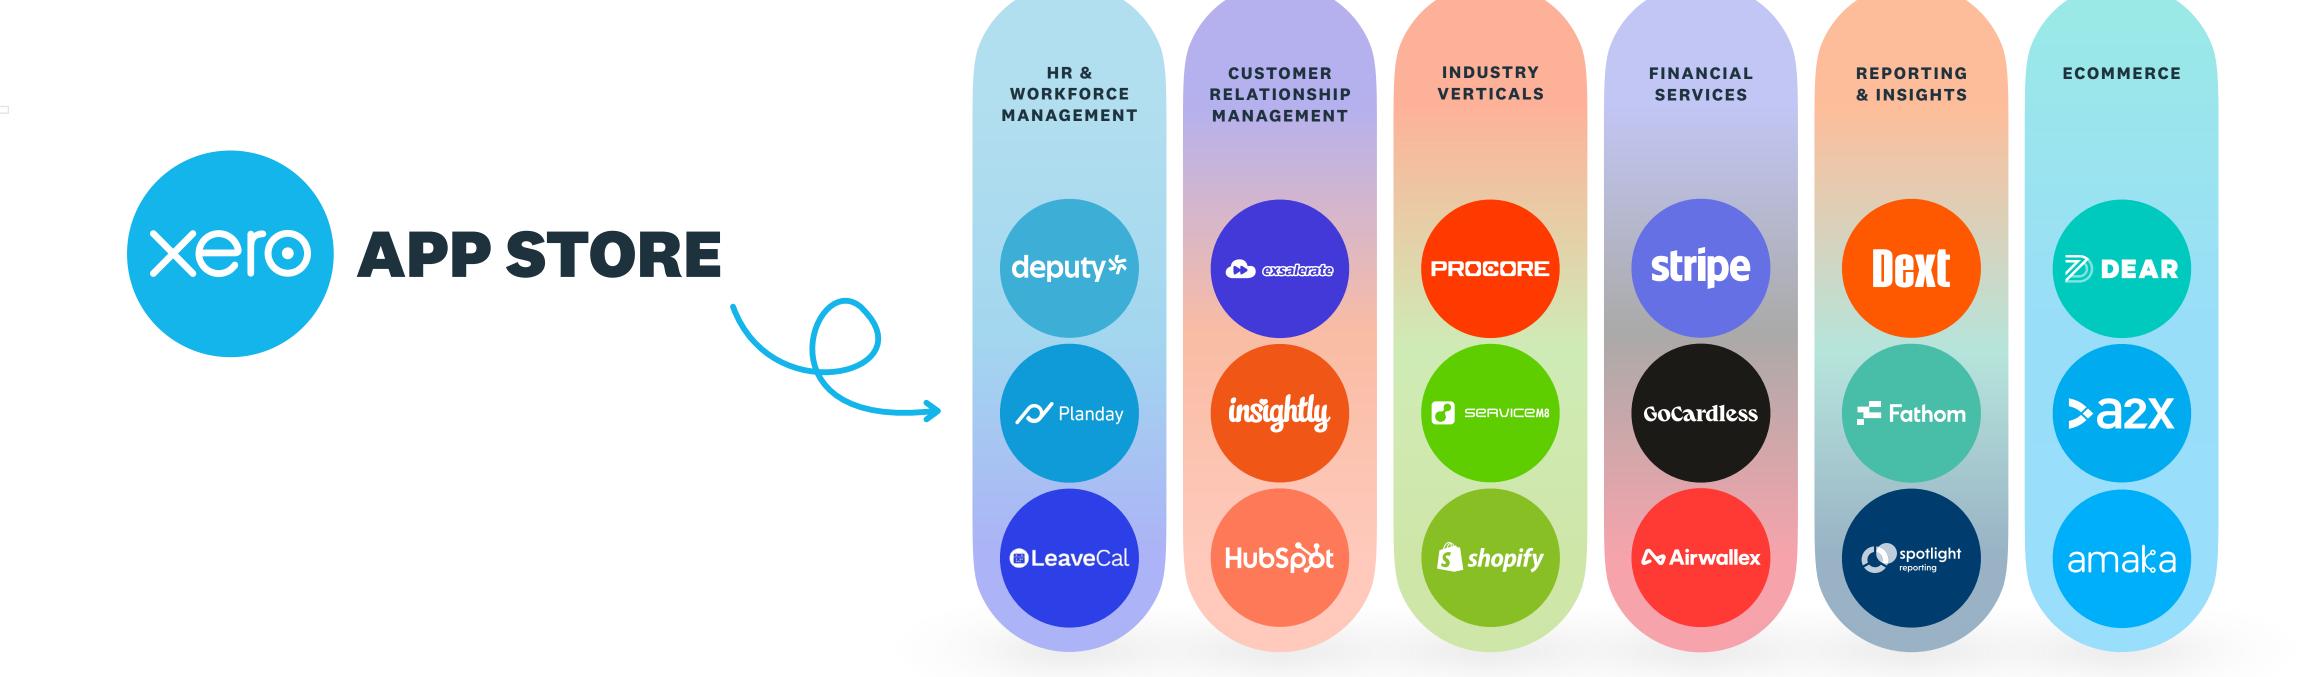

# Grow the small business platform: an open platform and ecosystem to address small businesses needs

No single vendor is likely to meet all the needs of a small business

Xero is committed to being an open platform and encouraging third party innovation through our ecosystem

We facilitate this in a number of ways including through the Xero App Store

# Bu te

# Build for global scale and innovation: technology investment

The next evolution of our technology investment is continuing our focus on:

# EFFICIENCY AND SCALABILITY

Further enabling our technical environment and data environments for global scale. Supporting greater change capacity as we localise our core product to different markets

# SPEED TO MARKET

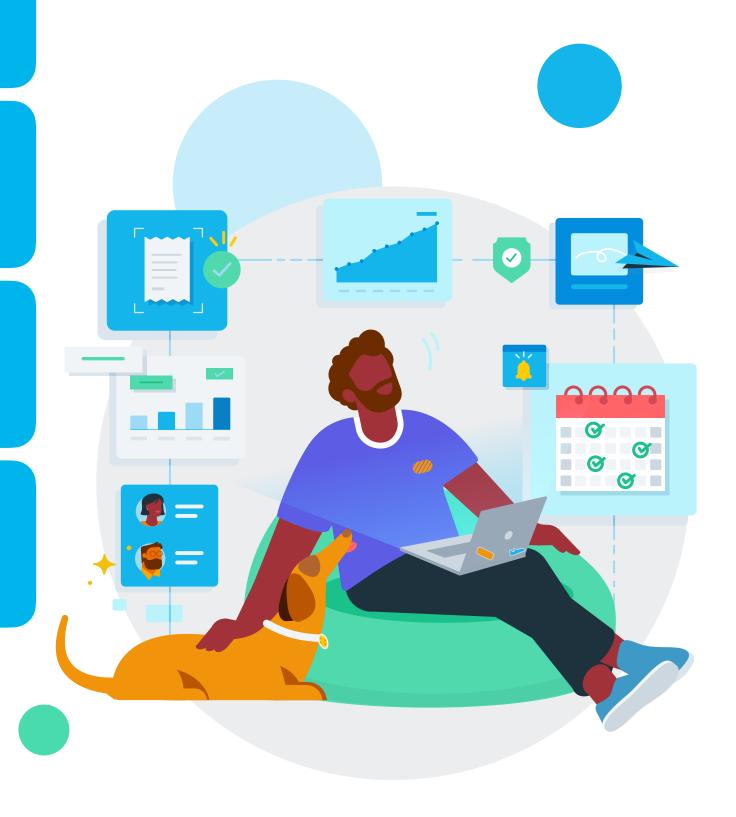

Increase the speed we can deliver products to market and allowing us to be more agile in our product development

#### **TALENT**

Delivering a best practice environment for productivity and enablement of our engineers to drive innovation

#### **INSIGHTS**

Implementation supports Xero's long term goal to become the most insightful and trusted small business platform by increasing our ability to support data-led innovation by Xero and 3rd parties

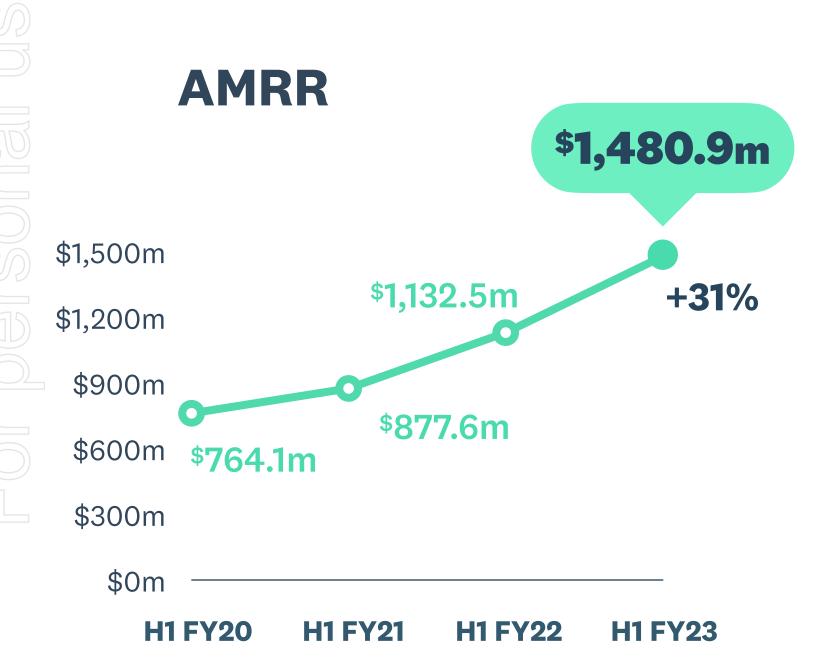

# Financial results

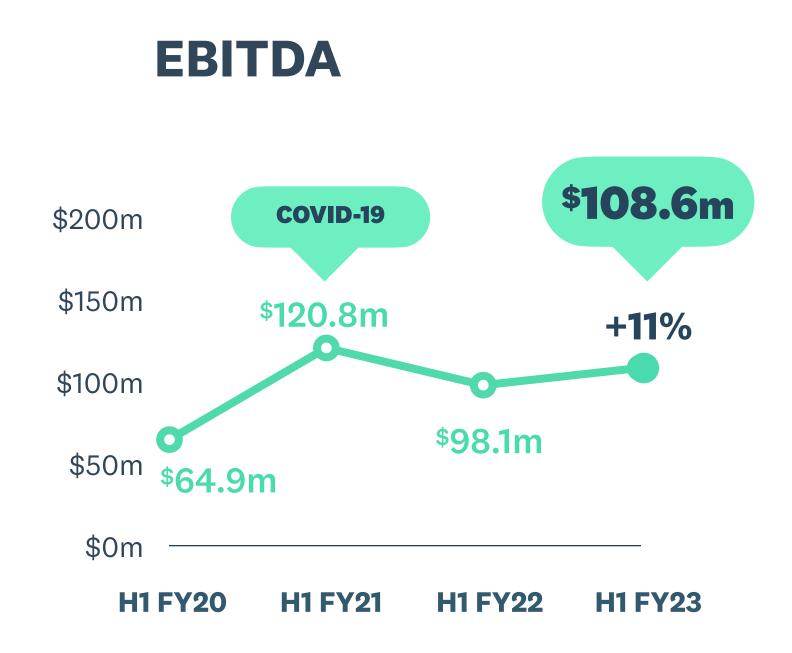

# Robust financial performance with continued disciplined investment for the long term

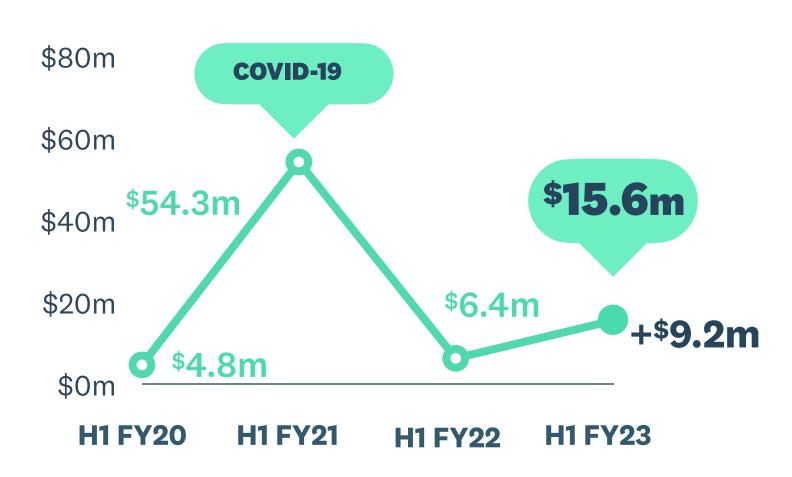

Growth in AMRR of \$348.4m or 31% YOY (23% in constant currency) reflects subscriber growth of 16%, and ARPU increase of 13% YOY (6% YOY in constant currency)

EBITDA increased by \$10.5m or 11% YOY, reflecting 30% revenue growth and controlled operating expenditure growth. EBITDA includes a \$25.9m impairment of the Waddle business, partly offset by \$10.8m of non-cash revaluation gains (discussed on slide 24)

### Free cash flow

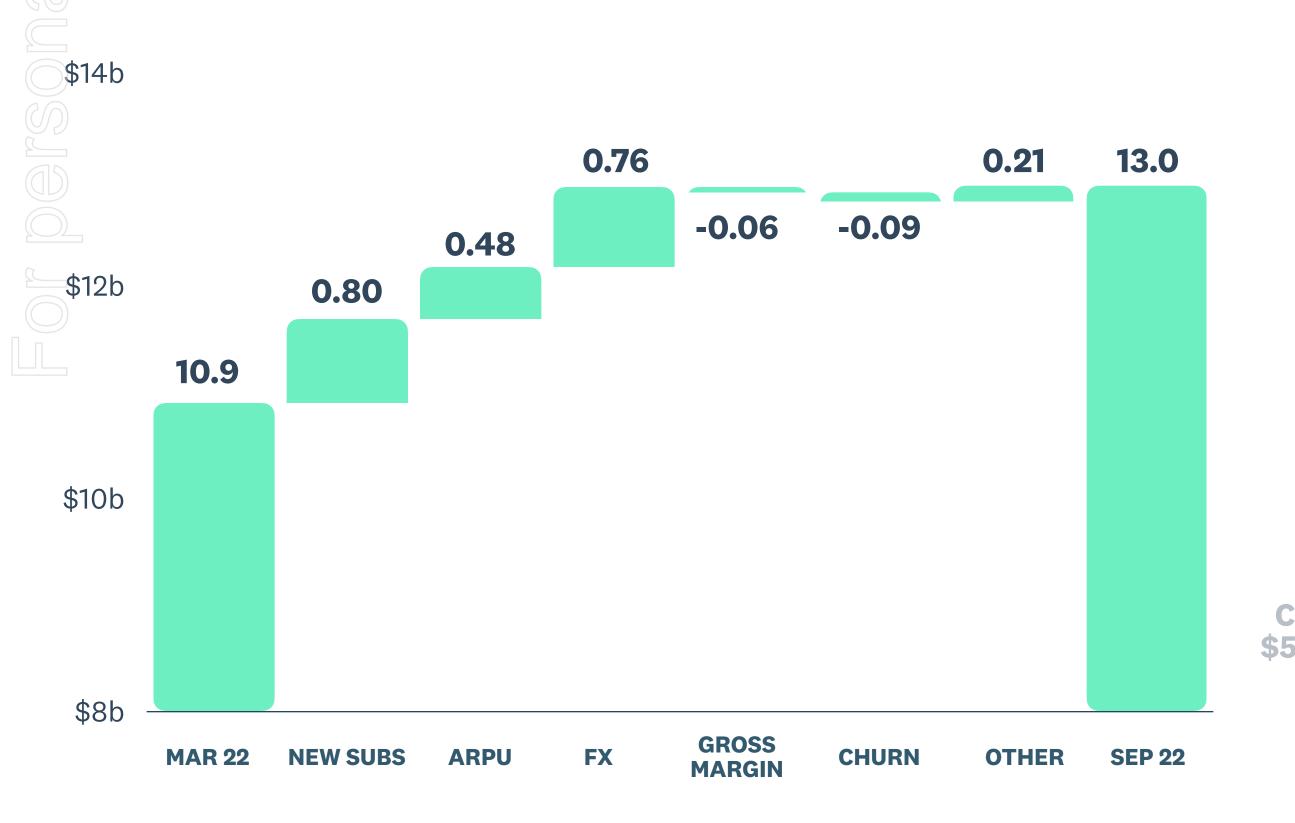

Free cash flow increased by \$9.2m to \$15.6m. Free cash flow as a percentage of revenue increased 1.1pp from 1.3% to 2.4% YOY

# Continued uplift in lifetime value of subscribers

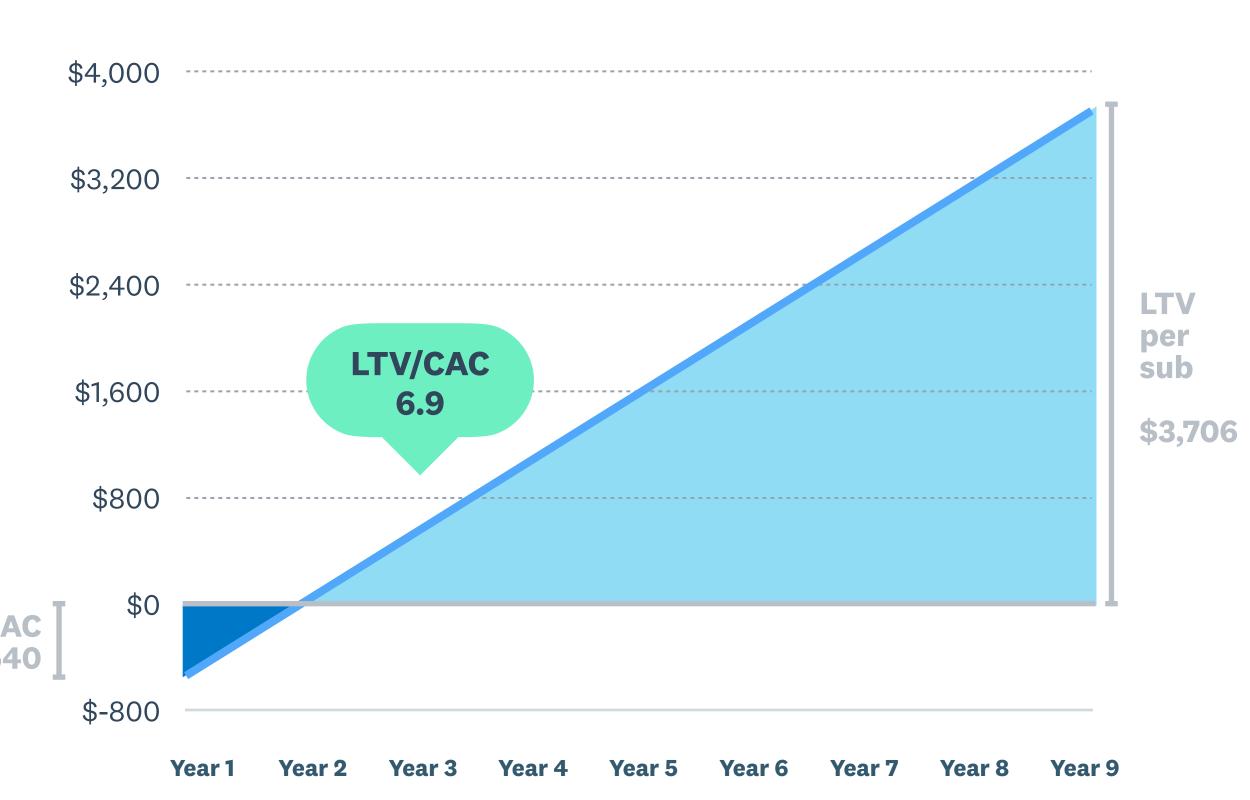

### LTV movements by driver

From 31 March to 30 September 2022

### Value of a Xero subscriber

At 30 September 2022

# Higher ARPU, continued low churn

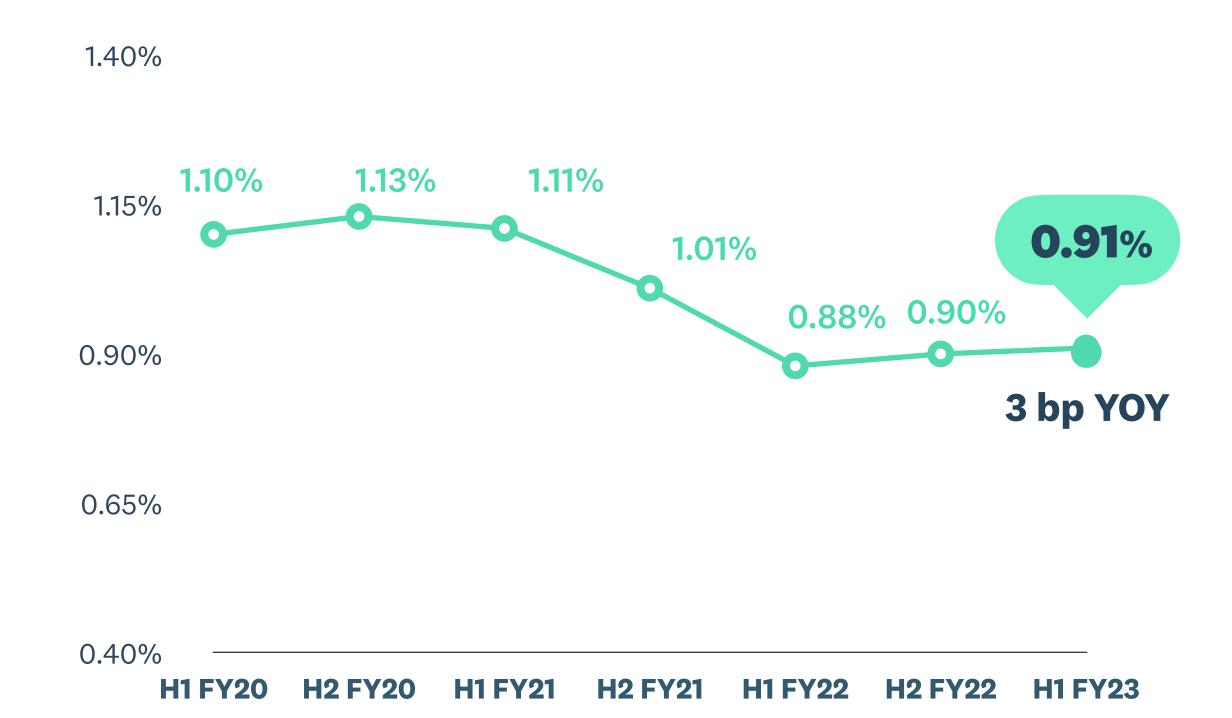

### **ARPU** movement contributors

ARPU has increased by just over \$3.90 since 31 March 2022

ARPU at 31 March 2022	\$31.4
Price changes	
Product mix and other <sup>1</sup>	<b>4</b>
FX movements	
ARPU at 30 September 2022	\$35.3

### Churn<sup>2</sup>

Churn has remained consistently below pre-COVID-19 pandemic levels

2 See glossary on page 33 for definition of churn

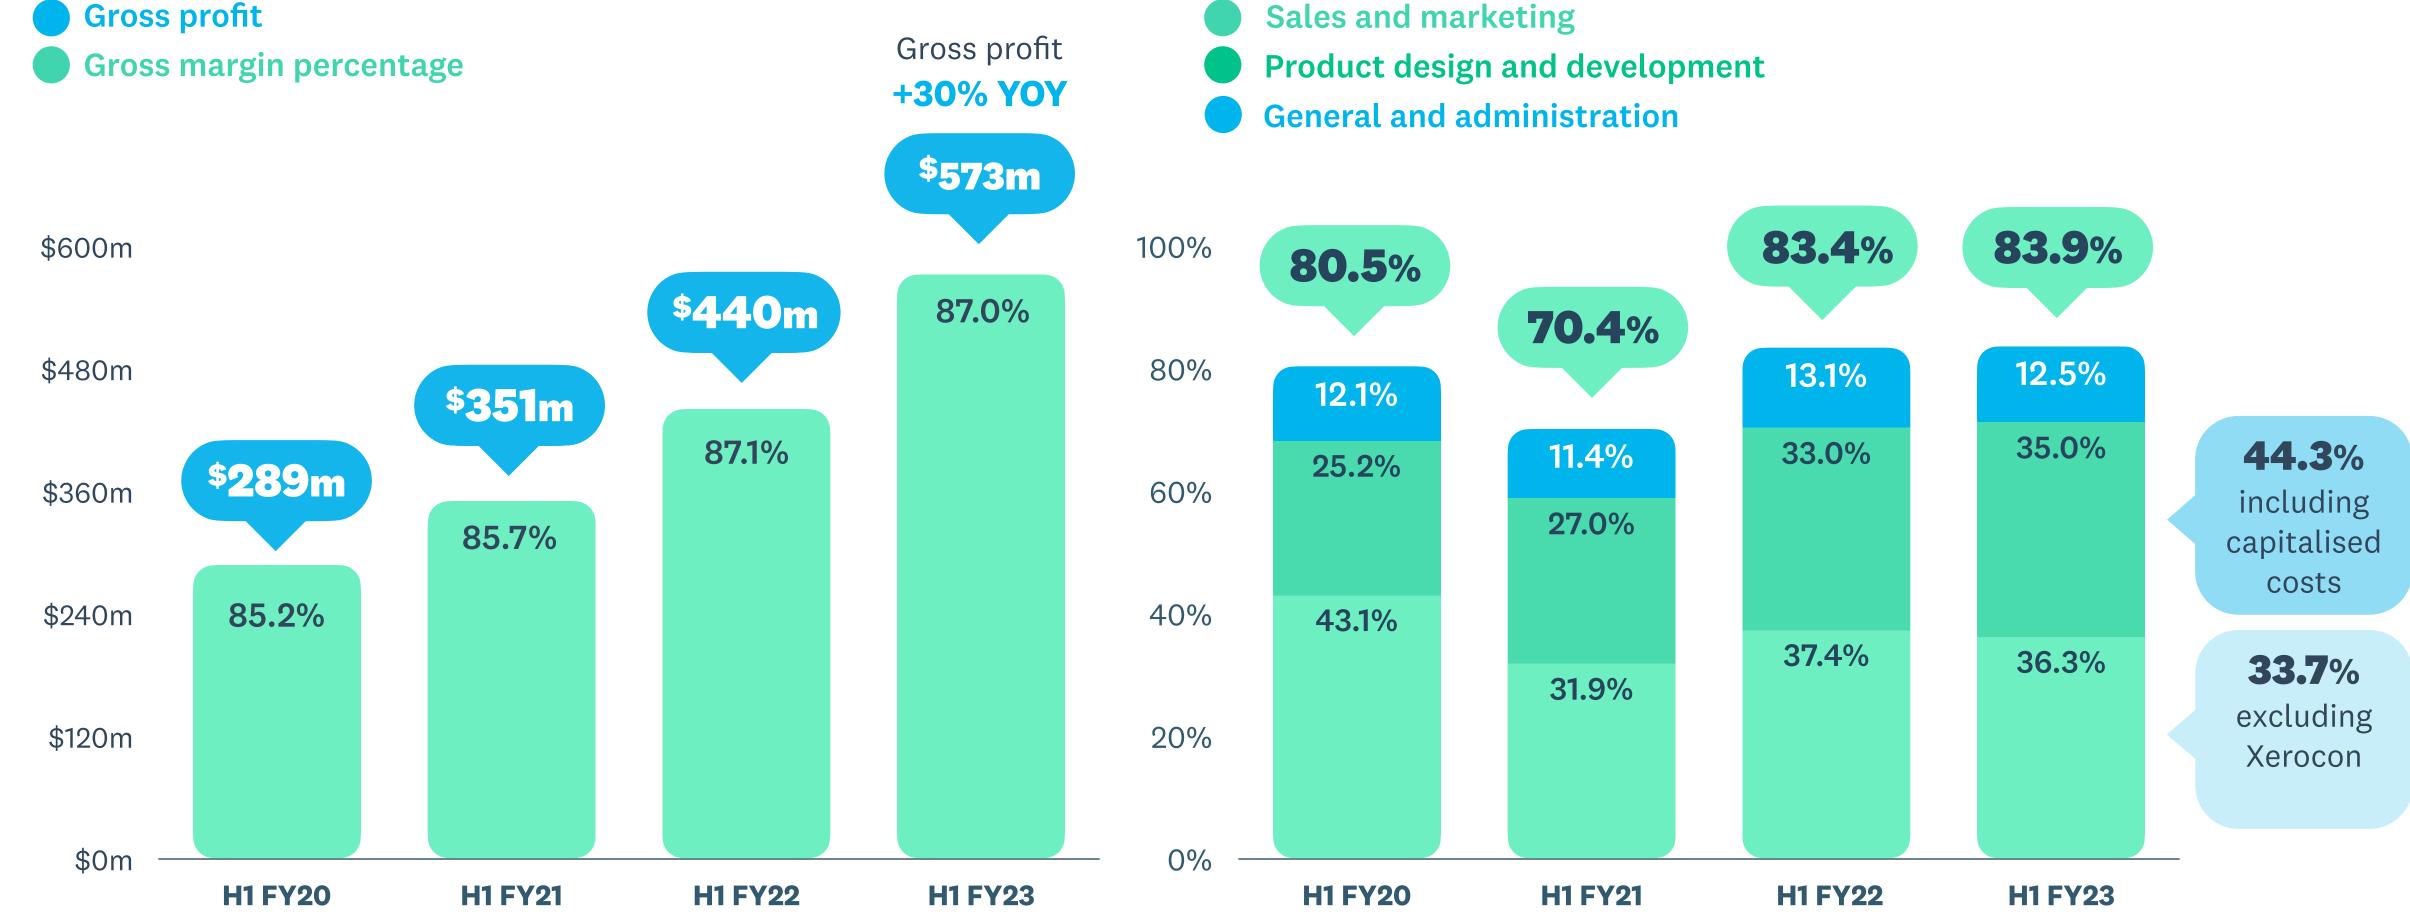

<sup>1</sup> Other includes platform revenues

# Continued investment delivers gross profit growth

## Operating expenses as a % of revenue

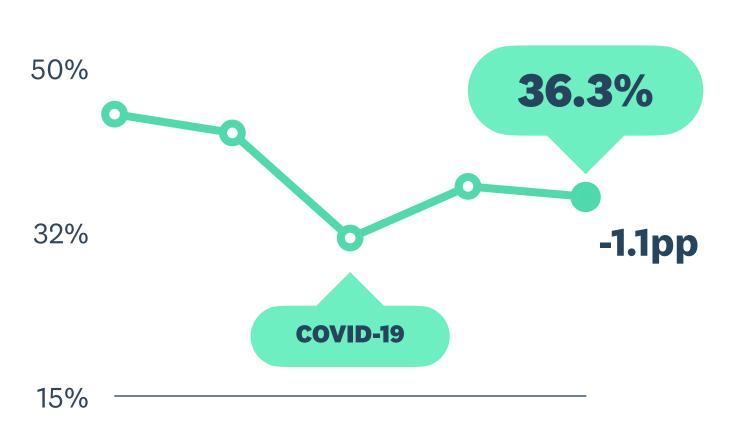

# Balancing cost discipline with long term investment

# Sales & marketing as a % of revenue

# General & administration as a % of revenue

#### H1 FY19 H1 FY20 H1 FY21 H1 FY22 H1 FY23

Sales and marketing costs increased by 26% YOY which was lower than the growth in operating revenue in H1 FY23. This resulted in a 1.1pp improvement in sales and marketing costs as a percentage of revenue. Excluding Xerocon, this ratio falls to 33.7% of revenue

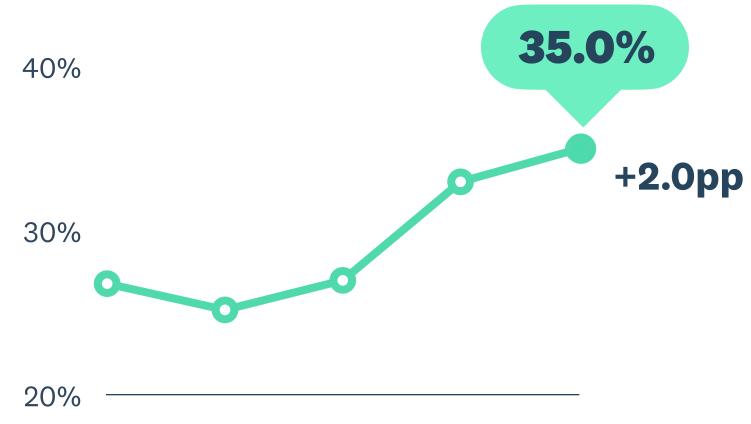

# 15% 12.5% -0.6pp

#### H1 FY19 H1 FY20 H1 FY21 H1 FY22 H1 FY23

10%

General and administration costs increased by 25% YOY which was lower than the growth in operating revenue in H1 FY23. This resulted in 0.6pp improvement in G&A as a percentage of revenue YOY

# Product design & development as a % of revenue

#### H1 FY19 H1 FY20 H1 FY21 H1 FY22 H1 FY23

Product design and development costs increased 38% YOY, higher than the growth in operating revenue in H1 FY23. This reflected continued investment in global product innovation and platform delivery while managing inflationary cost pressures. This resulted in a 2.0pp increase in these costs as a percentage of revenue YOY

# Robust financial performance

Operating revenue growth of 30% YOY (27% constant currency), driven primarily by subscriber growth and ARPU

Operating expenses increased 31% YOY and represented 83.9% of operating revenue

63.9% of operating revenue

		<b>1,125,562</b> (1,101,523)	<b>117,511</b> (218,520)

# Outlook

Xero will continue to focus on growing its global small business platform and maintain a preference for reinvesting cash generated, subject to investment criteria and market conditions, to drive long-term shareholder value.

Total operating expenses (including acquisition integration costs) as a percentage of operating revenue for FY23 are expected to be towards the lower end of a range 80-85%.

# Exchange rates

The table below outlines the principal exchange rates used in the current and prior period

# Glossary

#### **AMRR**

Annualised monthly recurring revenue (AMRR) represents monthly recurring revenue at 30 September, multiplied by 12. It provides a 12 month forward view of revenue, assuming any promotions have ended and other factors such as subscriber numbers, transaction volumes, pricing and foreign exchange remain unchanged during the year

#### **ARPU**

Average revenue per user (ARPU) is calculated as AMRR at 30 September divided by subscribers at that time (and divided by 12 to get a monthly view)

#### **CAC** months

Customer Acquisition Cost (CAC) months are months of ARPU to recover the cost of acquiring each new subscriber. The calculation is sales and marketing costs for the year excluding the capitalisation and amortisation of contract acquisition costs, less conference revenue (such as Xerocon), divided by gross new subscribers added during the same period, divided by ARPU

#### **CAGR**

Compound annual growth rate

#### Churn

Churn is the value of monthly recurring revenue (MRR) from subscribers who leave Xero in a month as a percentage of the total MRR at the start of that month. The percentage provided is the average of the monthly churn for the previous 12 months. Average subscriber lifetime is calculated as one divided by churn

### **Constant currency (cc)**

Constant currency comparisons for revenue are based on average exchange rates for the 6 months ended 30 September 2021. Comparisons for ARPU, AMRR and LTV are based on exchange rates at 30 September 2021

#### **Core accounting revenue**

Core accounting revenue comprises subscription based revenue to Xero's cloud-based platform, including any revenue for products that are bundled into subscription plans (such as Hubdoc and Payroll in some regions)

#### Free cash flow

Free cash flow is defined as cash flows from operating activities less cash flows used for investing activities excluding cash used for acquisitions of, and investments into, businesses and strategic assets

#### **GAAP**

Generally accepted accounting principles

### Lifetime value (LTV)

LTV is the gross margin expected from a subscriber over the lifetime of that subscriber. This is calculated by taking the average subscriber lifetime (1 divided by churn) multiplied by ARPU, multiplied by the gross margin percentage. Group LTV is calculated as the sum of the individual segment LTVs, multiplied by their respective segment subscribers, divided by total Group subscribers

### **Liquid resources**

Liquid resources comprises cash and cash equivalents, shortterm deposits including proceeds from convertible notes, and undrawn committed debt facilities

#### Other revenue

Other revenues comprises non-recurring revenues and WorkflowMax. Non-recurring revenues include revenue from events (such as Xerocons and roadshows), and other non-subscription or platform services. WorkflowMax is online workflow and job management software

#### **Platform revenue**

Platform revenues include revenue derived from related services, including adjacent products (such as Hubdoc subscriptions on other accounting platforms) and add-ons with incremental revenue (such as Payroll, Projects and Expenses modules), and payments and revenue share agreements with partners

#### **Subscribers**

Subscriber means each unique subscription to a Xero-offered product that is purchased by a user (eg a small business or accounting partner) and which is, or is available to be, deployed. Subscribers that have multiple subscriptions to integrated products on the Xero platform are counted as a single subscriber

#### **TAM**

Total addressable market
