LISTING RULE 4.2A

COMPANY	PLATINUM ASIA INVESTMENTS LIMITED
ASX Code	PAI
Period Ended	31 December 2022
Previous corresponding period ended	31 December 2021
ABN	13 606 647 358

RESULTS FOR ANNOUNCEMENT TO THE MARKET

This announcement to the market should be read in conjunction with the 30 June 2022 Annual Financial Report and the attached 31 December 2022 Interim Financial Report.

	% MOVEMENT	\$A'000
Total revenue and other income	87.0%	(3,929)
Profit from ordinary activities after income tax	76.1%	(5,599)
Net profit attributable to members	76.1%	(5,599)

The Directors consider that the pre-tax net tangible asset backing per share, after the deduction of fees and expenses, adjusted for corporate taxes paid and any capital flows, and assuming the reinvestment of dividends ("pre-tax NTA"), is a better measure of performance of the Company than the reported profits or losses. This is because the pre-tax NTA per share is the most accurate way to assess the investment performance of the Company's investment portfolio. For the 6 months to 31 December 2022, the Company's pre-tax NTA per share decreased from \$1.06 per share to \$1.01 per share. The decrease includes the payment of 2.5 cents per share in dividends paid during the half-year.

The Company's compound annualised investment returns to 31 December 2022 (measured by its pre-tax NTA) compared to the benchmark are shown in the table below:

INVESTMENT PERFORMANCE	6 MONTHS %	1 YEAR %	3 YEARS (% P.A.)	5 YEARS (% P.A.)	SINCE INCEPTION (% P.A.)
PAI's performance	(1.8)	(9.7)	4.1	3.7	7.1
MSCI AC Asia ex Japan Net Index in A\$ ⁱ	(2.7)	(13.9)	(0.3)	2.2	6.2
Outperformance	0.9	4.2	4.4	1.5	0.9

Source: Platinum Investment Management Limited (PAI returns) and FactSet Research Systems (MSCI returns). Note: Returns are calculated after the deduction of fees and expenses, adjusted for taxes paid and any capital flows and assume the reinvestment of dividends. Returns have not been calculated using the Company's share price. **Past performance is not a reliable indicator of future performance.**

The Directors continue to monitor the Company's share price relative to pre-tax NTA, which is currently at a discount, consistent with the global equities closed end listed investment market. However, the discount narrowed during the period, resulting in a total shareholder return of 2.3% including grossed up dividends for the 6 months ended 31 December 2022, exceeding the pre-tax NTA return for the same period.

With regards to the outlook, the Investment Manager commented in the December 2022 quarterly report: "While inflation is normalising from its elevated levels and interest rates are getting closer to the end of their tightening cycle, the risk of a US recession is gaining wider acceptance, with possible contagion to some Asian economies. That said, there are seeds of optimism for Asian markets, particularly as most economies appear more resilient versus prior downturns, given more stable political settings, proactive monetary policy combined with sound structural reforms, and China emerging from COVID. We continue to find attractive investment opportunities, with valuations across many markets remaining reasonable."

DIVIDENDS

INTERIM DIVIDEND DETERMINED	2.5 CENTS PER SHARE FULLY-FRANKED
Interim dividend fully-franked at a tax rate of	25%
Ex-dividend date	23 February 2023
Record date	24 February 2023
Last date for receipt of election notices for the dividend reinvestment plan	27 February 2023
Payment date	17 March 2023

The interim dividend for the previous corresponding period was 2.5 cents per share fully-franked.

The Company's ability to pay franked dividends is dependent on the Company paying income tax. At 31 December 2022, after providing for the 2023 fully-franked interim dividend of 2.5 cents per share, the Company had an ability to pay fully-franked dividends of up to 5.5 cents per share.

The Board has a policy to smooth dividends over time and, where possible, retain a reasonable level of franking credits to enable payment of fully-franked dividends in the future. The Company does not believe it is in the Company's or Shareholders interests to pay unfranked dividends, resulting in a tax liability in the shareholders hands and reduced investment capacity for the Company to generate future returns.

DIVIDEND REINVESTMENT PLAN

The Dividend Reinvestment Plan ("DRP") is in operation and the interim dividend qualifies. Participating shareholders will be entitled to be allotted the number of shares (rounded down to the nearest whole number) which the cash dividend would otherwise purchase at the relevant issue price.

The relevant issue price will be the volume-weighted average share price of the Company's shares sold on the ASX over the five business days subsequent to the date on which the Company's shares cease to trade cum-dividend. No DRP discount will apply to this dividend.

The terms and conditions of the DRP rules can be accessed at the Company's website at:

https://www.platinum.com.au/PlatinumSite/media/ASX-Releases/pai_drp_1.pdf

The Directors present their report, together with the financial statements of Platinum Asia Investments Limited (the “Company”) for the half-year ended 31 December 2022.

DIRECTORS

The following persons were Directors of the Company during the whole of the half-year and up to the date of this report, unless otherwise stated:

Margaret Towers	Chairperson and Independent Non-Executive Director
Ian Hunter	Independent Non-Executive Director
Richard Morath	Independent Non-Executive Director

PRINCIPAL ACTIVITIES

The Company is a listed investment company established to provide capital growth over the long term by investing in companies in the Asian Region ex Japan which the Investment Manager perceives to be undervalued by the market.

OPERATING AND FINANCIAL REVIEW

For the 6 months to 31 December 2022, the loss before income tax was \$7,078,000 (31 December 2021: loss of \$33,421,000) and loss after income tax was \$5,599,000 (31 December 2021: loss of \$23,395,000).

For the 6 months to 31 December 2022, the Company delivered a return of negative 1.8%¹ (measured by its pre-tax NTA) which outperformed the return of negative 2.7% for the benchmark, the MSCI All Country Asia ex Japan Net Index (“MSCI”) in A\$ terms². This return was achieved with an average net invested position of 89%. The main contributor to the overall return was a negative 2.3% return on Chinese holdings which reflected continued investor scepticism in respect to China. However, the Company continued to generate good returns from China, for example Trip.com was the best performing security in the long portfolio during the half-year. Positive returns were generated in other markets including India and Hong Kong. The Investment Manager remains focused on identifying businesses that have better long-term growth prospects than the opportunity set but are at attractive valuations. This differentiates the Company from the index.

The Directors consider that the pre-tax net tangible asset backing per share, after the deduction of fees and expenses, adjusted for corporate taxes paid and any capital flows, and assuming the reinvestment of dividends (“pre-tax NTA”), is a better measure of performance of the Company than its reported profits or losses. This is because the pre-tax NTA per share is the most accurate way to assess the investment performance of the Company’s investment portfolio. For the 6 months to 31 December 2022, the Company’s pre-tax NTA per share decreased from \$1.06 to \$1.01. The decrease includes the payment of 2.5 cents per share in dividends paid during the half-year.

Total Shareholder Return (TSR) for the half-year, based on share price movement and grossed up dividends, between 1 July 2022 and 31 December 2022 was 2.3%. The TSR is higher than the pre-tax NTA return of negative 1.8% primarily due to a decrease in the discount of the share price to pre-tax NTA since 30 June 2022.

For the five years to 31 December 2022, the Company delivered an annualised compound return of 3.7% per annum, measured by the Company’s pre-tax NTA, versus the MSCI return of 2.2%. The company’s long-term (since inception) return of 7.1% per annum was approximately 0.9% greater than the MSCI return of 6.2% over the same period.

With regards to the outlook, the Investment Manager commented in the December 2022 quarterly report: *“While inflation is normalising from its elevated levels and interest rates are getting closer to the end of their tightening cycle, the risk of a US recession is gaining wider acceptance, with possible contagion to some Asian economies. That said, there are seeds of optimism for Asian markets, particularly as most economies appear more resilient versus prior downturns, given more stable political settings, proactive monetary policy combined with sound structural reforms, and China emerging from COVID. CAPITAL MANAGEMENT

The Directors continue to monitor the Company's share price relative to pre-tax NTA, which is currently at a discount, consistent with the global equities closed end listed investment market. As part of capital management strategy, the directors are actively monitoring the share price discount. On 8 April 2022 the Company announced an on-market share buy-back for up to 10 percent of the Company's issued share capital to be implemented over a period of up to 12 months. No shares have been bought-back to date. On 25 October 2022, the Board announced an amendment to the buy-back policy and a proposal to issue bonus options. The Board is progressing the proposed course of action and continues to monitor the situation.

Another objective of the Company's capital management policy is to smooth dividends over time and, where possible, retain a reasonable level of franking credits to enable payment of fully-franked dividends in the future. The Company does not believe that it is in the Company's or shareholders' interests to pay unfranked dividends, resulting in a tax liability in the shareholders' hands and reduced investment capacity for the Company to generate future returns.

DIVIDENDS

The Directors determined to pay a 2023 fully-franked interim dividend of 2.5 cents per share (\$9,225,000), with a record date of 24 February 2023 and payable to shareholders on 17 March 2023, out of the dividend profit reserve. The dividend will be fully-franked at a tax rate of 25%. Together with the 2022 final dividend of 2.5 cents per share, this represents a grossed up dividend yield of 7.9% based on the 31 December 2022 closing share price. At 31 December 2022, the available franking credit balance after providing for the 2023 interim dividend would enable the payment of a dividend up to 5.5 cents per share, fully-franked at a tax rate of 25%.

The Dividend Reinvestment Plan (“DRP”) is in operation. Participating shareholders will be entitled to be allotted the number of shares (rounded down to the nearest whole number) which the cash dividend would purchase at the relevant issue price. The relevant issue price will be the volume-weighted average share price of the Company's shares sold on the ASX over the five business days subsequent to the date on which the Company's shares cease to trade cum-dividend. No DRP discount will apply to the dividend.

ROUNDING OF AMOUNTS

The Company is of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, issued by the Australian Securities and Investments Commission, relating to “rounding-off”. Amounts in this report have been rounded off in accordance with this Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

NOTE 10. INVESTMENT MANAGER FEES

The Investment Manager receives a monthly management fee for investment services provided in accordance with the Investment Management Agreement (the "Agreement"). The Agreement provides for a management fee payable monthly and calculated at 1.1% (June 2022: 1.1%) per annum of the adjusted portfolio value (which includes cash and deposits).

A performance fee is payable at 15%, at 30 June, of the amount by which the portfolio's annual performance exceeds the return achieved by the MSCI (MSCI is the Morgan Stanley Capital International All Country Asia ex Japan Net Index in \$A). Where the portfolio's annual performance is less than the MSCI, the amount of the underperformance is aggregated, carried forward and deducted from the annual performance in the subsequent year before calculating any performance fee for that year. The aggregate underperformance is carried forward until a performance fee becomes payable.

For the 6 months to 31 December 2022, pre-tax performance of the portfolio was negative 2%¹ and the corresponding MSCI was negative 2.7%. This represents an outperformance of 0.7% against the MSCI for the current half-year. There is no aggregate underperformance for the prior periods. A performance fee of \$431,807 is accrued for the current half-year. A performance fee of \$910,621 in respect to the year ended 30 June 2022 was accrued at 30 June 2022 and paid in July 2022.

Management fees and performance fees paid and payable for the half-year ended 31 December 2022 is shown below:

	HALF-YEAR ENDED 31 DEC 2022 \$	HALF-YEAR ENDED 31 DEC 2021 \$
Management fees expense	1,979,041	2,514,231
Management fees paid	1,994,854	2,573,354
Management fees payable	342,011	397,979
Performance fee expense	431,807	-
Performance fee paid	910,621	-
Performance fee accrued	431,807	-

In the event of termination of the Agreement by the Company for convenience, the Investment Manager will be eligible to receive a termination fee equivalent to the management fee of 1.1% of the portfolio value (adjusted for any taxes paid/refunded, dividends paid and capital flows) and the performance fee (calculated as set forth above) if any, for the period from the first business day of the month in which termination is effective to the date which is the first anniversary of that date.

Each party is required to provide three months' notice to terminate the Agreement. However, the Company may terminate the Agreement for cause at any time by written notice to the Investment Manager in certain instances.

NOTE 11. EVENTS AFTER THE REPORTING PERIOD

Apart from the dividend declared on 16 February 2023, as set out in Note 5 and the Directors' report, no other significant matter or circumstance has arisen since 31 December 2022 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

¹ The figure represents the 6 month return of the "Portfolio Value" (as defined in of the Investment Management Agreement), which is defined as the aggregate value of each asset or investment of the Company's portfolio. This differs from the Company's 6 month pre-tax NTA return of negative 1.8% referred to in the Directors' Report, which also includes non-portfolio and non-investment related assets and liabilities.

In the Directors' opinion:

- the attached financial statements and notes, set out on pages 7 to 16, comply with the *Corporations Act 2001*, Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the Company's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2022 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
