

21 February 2023

Calix H1 FY23 Appendix 4D

1. Company details:

- Name of entity Calix Limited
- ACN 117 372 540
- Reporting period For the half-year ended 31 December 2022
- Previous period For the half-year ended 31 December 2021

2. Results for announcement to the market:

				\$000's
Total revenue and other income	up	20.3%	to	\$12,667
(Loss) for the period attributable to the owners of Calix Limited	up	22.7%	to	(\$9,137)

3. Net tangible assets:

	Current reporting	Previous reporting
	period	period
Net tangible assets per ordinary security	\$0.57	\$0.27

4. Dividends:

No dividends have been provided for or paid during the current or previous reporting periods.

5. Audit qualification or review:

The financial statements were subject to a review by the auditors and the review report is attached to the Interim Report.

-ENDS-

This announcement has been authorised for release to the ASX by:

Phil Hodgson Managing Director and CEO **Calix Limited** 9-11 Bridge Street Pymble NSW 2073 Ph +61 2 8199 7400

About Calix

Calix Limited (ASX: CXL) is an environmental technology company solving global challenges in industrial decarbonisation and sustainability, including CO2 mitigation, sustainable processing, advanced batteries, biotechnology and water treatment.

Calix's patented core technology platform delivers efficient indirect heating of raw materials to enable electrification of industries, efficient capture of unavoidable emissions, and green industrial processing solutions. Its flash heating approach can also produce unique nanoporous materials with enhanced chemical and/or bio-activity.

Leveraging its core technology platform and a global network of research and development collaborations, Calix is urgently developing multiple environmental businesses that deliver positive global impact. Because there's only one Earth, and it's already ours.

Mars is for Quitters.

Calix Limited and its controlled entities
ABN 36 117 372 540
Interim financial report for the period ended
31 December 2022

DIRECTORS REPORT

The directors present their report on Calix Limited and its controlled entities ("the Group" or "Calix") consisting of Calix Limited ("the Company") and entities under its control for the half-year ended 31 December 2022.

DIRECTORS

The following persons were directors of the Company during the period ended 31 December 2022 and up to the date of the report, unless otherwise stated:

P J Turnbull H Fisher J A Hamilton P H Hodgson M G Sceats

PRINCIPAL ACTIVITIES

Calix is an environmental technology company. It has developed a patent-protected, platform technology that produces new materials and processes to solve global challenges in industrial decarbonisation and sustainability, including CO₂ mitigation, sustainable processing, advanced batteries, biotechnology and water treatment. As a member of the UN Global Compact, it aims to align its activity and operations with the UN Sustainable Development Goals

The core technology platform – the Calix Flash Calciner ("CFC") – is a reinvention of the kiln process that has three core benefits:

1) Enabling electrification and green industrial processing:

Calix's patented core technology platform is ideally suited to help mineral and chemical processing enter the electric age. Its indirect heating approach is compatible with renewable sources of energy and alternative fuels. Separating the heat source from the chemical reaction can also enable the most efficient use of green hydrogen in place of conventional, carbon intensive reducing agents.

Additionally, Calix is developing innovative refining solutions that enhance recovery of ore and create near zero-waste products. Renewably powered at-mine processing has the potential to enable significant value creation and capture through refined, low carbon mineral products.

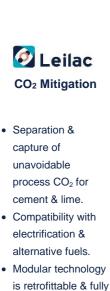

2) Enabling efficient capture of unavoidable emissions:

For industries that process carbon containing minerals, like cement and lime, most of the CO₂ emissions are process emissions, produced as a direct and unavoidable result of the chemical reaction. With no additional chemicals or processes, Calix's technology is being developed to efficiently separate process CO₂ for use or storage to deliver low-cost abatement of unavoidable emissions.

3) Production of highly-active materials:

Calix's flash heating approach can produce unique nanoporous materials with enhanced chemical and/or bio-activity. These highly-active materials can be made into safe, sustainable and effective products for water and wastewater treatment applications, aquaculture, and agricultural pest control, and are also being developed for advanced lithium ion batteries.

The Group has operations, customers and distribution partners across Australia, New Zealand, Asia, Europe and the United States of America (US). Its activities are focused across five business segments, being: CO₂ Mitigation, Sustainable Processing, Advanced Batteries, Biotech and Water. These "Lines of Business" are supported by Research & Development ("R&D"), engineering, operations, marketing, and finance and administration teams.

scalable.

Developing with

cement & lime

companies.

Sustainable **Processing**

- · Electrification of calcination for renewably powered mineral & chemical processing.
- Targeting minimum use of green hydrogen as a reductant.
- Developing at mine processing for value-added low €28m of EU funding waste & low carbon & in partnership with products some of the largest Developing
 - applications in iron & steel, lithium & other critical minerals.

Advanced **Batteries**

- · Targeting safe. environmentally friendly, more recyclable, better performing batteries
- · Highly prospective early results show suitability for highpower applications.
- Significantly reduced energy requirements for production.
- · Substantial global battery development network.

Biotech

- · Novel, bio-active materials for multiple global applications
- Crop protection safe, low-cost & sustainable alternative to hard chemicals.
- Advanced coatings sustainable & non-toxic marinefouling & corrosion control.
- Antimicrobials combatting antimicrobial resistance.

Water

- · Safe, effective, economical & sustainable solutions for the treatment of water & wastewater
- Environmentally friendly alternative to existing products, such as caustic soda.
- In-market since 2014
- · Growing revenue streams & gross margins.
- Successful US acquisition in 2019.

Calix's R&D function manages a pipeline of opportunities that leverage the core technology, with each: addressing a specific global environmental challenge consistent with our purpose and company ethos; presenting significant opportunities to create economic growth; and possessing sustainable competitive advantages. The key current development areas are: demonstration and commercialisation of the technology for the cement and lime industries; application of the technology in sustainable processing, including green iron and steel, and for critical minerals such as lithium; and application of the technology for advanced batteries. These activities are supported by the Group's R&D facilities in Australia, as well as engineering groups in Australia and Europe.

Our business activities are underpinned by: a commercial-scale operations facility at Bacchus Marsh in Victoria, with a name-plate capacity of 25,000 tonnes per year of raw (magnesium oxide) product; a raw material (magnesium carbonate) mine near Leigh Creek in South Australia; a pilot demonstration facility for CO2 capture from lime and cement ("Leilac-1" facility) in Lixhe, Belgium; and an electric calciner for sustainable processing development and the production of advanced materials, including battery materials ("BATMn" facility) at Bacchus Marsh. In the US, the Group has four manufacturing facilities to produce water treatment products to serve North American customers.

OPERATING RESULTS

The Group recorded growth in sales revenues during the first half of the year, with continuing revenue and margin contribution in the US and Asia Pacific from the Water line of business.

Total revenue and other income increased by 21% to \$12.7m (1H22: \$10.5m), with a gross margin of 30% (1H22: 28%). The Water line of business contributed \$8.5m revenue, a 9% increase (1H22: \$7.8m) when excluding historical revenues from a coal fired power station customer that were driven by the now ceased coal emissions reduction tax credit in the USA. Gross margins in the US water business remained steady at 35% (1H22: 36%).

Operating expenses increased to \$13.1m (1H21: \$8.7m) as the Group invested in capability and capacity to commercialise its technology in the CO₂ Mitigation and Sustainable Processing lines of business. Investment of \$2.9m in additional research and engineering accounted for 66% of the total increase in operational expenditure. The group invested a further \$0.6m in expanding its sales and marketing capability and \$0.9m in administrative and legal support for technology commercialisation.

During the half year, the Group grew the number of full-time employees with the addition of 11 new engineers to support R&D and customer project development, 4 new team members in support of sales and business development activities, and 1 additional administration resource. At the end of 2022, our team had grown to 100 people from 72 at the end of 2021.

Operational highlights for each line of business included:

Leilac

- Executed a world-first perpetual non-exclusive licence with Heidelberg Materials (FWB: HEI).
- Announced three full-scale decarbonisation projects with CEMEX S.A.B. de C.V. (NYSE: CX) in Germany, Poland and the US. Progress was also made towards a global licence agreement with CEMEX.
- Grew its pipeline of projects from 54 to 71.

Sustainable Processing

- Executed final joint venture agreements with Pilbara Minerals (ASX: PLS) to develop novel mid-stream lithium processing to produce low carbon, low waste and high value concentrated lithium salt.
- Secured ~\$1m in funding from Australian Renewable Energy Agency (ARENA) to progress a Basis of Design (BOD) and Front-End Engineering and Design (FEED) study for a renewably powered 30,000 tpa demonstration plant for Calix's Zero Emissions Steel Technology (ZESTY).

Advanced Batteries

- Commenced commercial-scale trial production of its proprietary lithium battery cathode material with AMTE in the UK.
- Progressed R&D on new cathode and anode chemistries under the <u>FBI CRC</u>, <u>StorEnergy ARC</u> and <u>EU Polystorage network</u>.

Biotech

- Continued successful marine coating trials overseas with two marine coating manufacturers, and one significant local potential end-user.
- Commenced project planning for next phase anti-microbial studies under the CRC SAAFE (https://www.crcsaafe.com.au/about) program.

Water

- Grew revenues from \$7.8m to \$8.5m and margin from 28% to 30%.
- Commenced permitting, engineering and procurement for two new US-based production facilities to support growth into new territories.

GOING CONCERN

The financial report has been prepared on a going concern basis.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes in the state of affairs of the Group during the period.

AUDITOR INDEPENDENCE

A copy of the auditor's independence declaration as required under section 307c of the *Corporations Act 2001* is set out on page 4.

This report is signed in accordance with a resolution of the board of directors.

DECLARATION OF INDEPENDENCE BY ELYSIA ROTHWELL TO THE DIRECTORS OF CALIX LIMITED

As lead auditor for the review of Calix Limited for the half-year ended 31 December 2022, I declare that, to the best of my knowledge and belief, there have been:

- 1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- 2. No contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Calix Limited and the entities it controlled during the period.

Elysia Rothwell Director

The consolidated statement of changes in equity should be read in conjunction with the accompanying notes.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The half-year consolidated financial report was approved by the Board of Directors on 21 February 2023. This half-year consolidated financial report has been prepared in accordance with Australian Accounting Standard AASB134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

The half-year consolidated financial report is intended to provide users with an update on the latest annual financial statements of Calix Limited ("the Company") and its controlled entities ("the Group"). As such, the half-year report does not include full disclosures of the type normally included in an annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial report. Accordingly, it is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2022.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

These financial statements have been prepared on the going concern basis, which contemplates the consolidated entity's ability to pay its debts as and when they become due and payable for a period of at least 12 months from the date of authorising the financial report for issue.

2. SEGMENT REPORTING

The Group identifies its operating segments based on the internal reports that are reviewed and used by the Group's chief operating decision makers (CODM). The CODM consists of the Executive Key Management Personnel. For the period ended 31 December 2022, the Group has identified three segments based on the geographical regions in which it operates.

The aggregation criteria under AASB 8 – Operating Segments has been applied to include the results of each region within the segment in which it operates.

4. EXPENSES

The Group has identified several expense items which are material due to the significance of their nature and/or amount. These are listed separately here to provide a better understanding the financial performance of the group:

	31-Dec-22	31-Dec-21
	\$	\$
Employee benefit expenses	8,195,553	5,550,086
Depreciation and amortisation expense	2,252,920	1,807,526
Depreciation of right of use assets	163,147	136,840
Impairment expense	-	31,506
	10,611,620	7,525,958

Impairment expense

Pilot plant equipment relating to the SOCRATCES projects were found to require impairment under the Group's accounting policy, in the prior year, on the basis that their value in use had dropped below their carrying value.

5. TRADE & OTHER RECEIVABLES

	31-Dec-22	30-Jun-22
	\$	\$
Current		
Trade receivables	1,927,958	1,454,366

Total intangibles	7,562,293	6,441,630

Movement in the carrying amounts (dollars) for intellectual property between the beginning and the end of the period:

	Intangible Assets \$
Balance as at 30 June 2022	6,441,630
Additions during the period	
Capitalised development costs	1,178,563
Patents and trademarks	214,759
Less amortisation during the period	(272,659)
Balance as at 31 December 2022	7.562.293

Intangibles

Intangible assets are measured at cost less any accumulated amortisation and any impairment losses. Amortisation is systematically allocated over the useful life of each identifiable asset with a finite life.

Customer contracts

Customer contracts are recognised at their fair value at the date of acquisition and are subsequently amortised on a straight-line basis over their estimated useful lives. Customer contracts have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. In calculating amortisation costs, customer contracts are taken to have a useful life of 10 years.

Intellectual property

Intellectual property is recognised at fair value at the date of acquisition and is subsequently amortised on a straight-line basis over its estimated useful life. Intellectual property has a finite life and is carried at cost less any accumulated amortisation and any impairment losses. In calculating amortisation costs, intellectual property is taken to have a useful life of 10 years.

6. NON-CURRENT ASSETS – INTANGIBLES (CONTINUTED)

Brand names

Brand names are recognised at fair value at the date of acquisition and are subsequently amortised on a straight-line basis over their estimated useful lives. Brand names have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. In calculating amortisation costs, brand names are taken to have a useful life of 10 years.

Capitalised development costs

The capitalised development costs intangible asset relates to expenditure incurred on the development, design and construction of cement and lime manufacturing and BOOSTER-Mag technologies. The costs were recognised on the basis that they were incurred in the development phase, in accordance with AASB 138, through the demonstration of technical feasibility of completion, the intention to complete and use or sell the assets, as well as the clear path to economic benefits, the availability of technical and financial resources, and reliable measurement of expenditure. The capitalised development costs are not amortised until the associated product and service are demonstrated to be available for commercial use and an appropriate amortisation period set.

Patent and trademarks

Patents and trademarks are recognised at cost of acquisition. Patents and trademarks have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Amortisation is systematically allocated over the useful life of each patent and trademark. In calculating amortisation costs, patents are taken to have a useful life of 20 years, trademarks are taken to have a useful life of 10 years.

7. GOODWILL

	31-Dec-22	30-Jun-22
	\$	\$
Goodwill	3,638,392	3,638,392
Total goodwill	3,638,392	3,638,392
At the beginning of the period	3,638,392	3,638,392
Balance at the end of the period	3,638,392	3,638,392

Goodwill arose on the acquisition of the US subsidiary, Inland Environmental Resources Inc, in 2019 as a result of the excess of consideration above identifiable net assets.

Accounting for goodwill

Goodwill arises on the acquisition of a business where the fair value of the consideration exceeds the fair value of the net assets acquired. Goodwill is not amortised, instead it is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried as cost less accumulated impairment losses. Impairment losses on goodwill are taken to the profit or loss and not subsequently reversed.

8. PROPERTY, PLANT AND EQUIPMENT

	31-Dec-22	30-Jun-22
	\$	\$
Office furniture, fittings and equipment	1,708,487	1,637,393
Less: accumulated depreciation	(1,408,471)	(1,346,190)

Less: accumulated amortisation	(40,250)	(38,147)
	1,133,414	1,135,517
LEILAC project calciner	21,292,157	19,238,099
Less: accumulated impairment	(14,883,713)	(14,276,686)
	6,408,444	4,961,413
SOCRATCES project	447,948	447,060
Less: accumulated impairment	(447,948)	(447,060)
	-	-
Land	838,499	838,499
Total property, plant and equipment	20,738,576	18,698,327

9. TRADE AND OTHER PAYABLES

	31-Dec-22	30-Jun-22
	\$	\$
Trade payables	2,297,179	2,476,129
Sundry payables and accrued expenses	711,337	779,880
Total trade and other payables	3,008,516	3,256,009

10. BORROWINGS

	31-Dec-22	30-Jun-22
	\$	\$
Current		
Loan facility	189,469	715,633
Asset financing facilities	26,584	33,194
Insurance premium funding	284,187	114,662
Total current borrowings	500,240	863,489
Non-current		
Asset financing facilities	11,427	15,261
Total non-current borrowings	11,427	15,261
Total borrowings	511,667	878,750

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds and the redemption amount is recognised as profit or loss over the period of the borrowings using the effective interest rate method.

Where there is an unconditional right to defer the settlement of the liability for at least 12 months after the reporting date, the loans or borrowings are classified as non-current.

Loan facility

Inland Environmental Resources, Inc. (IER) secured a working capital facility for up to USD \$500,000 with Umpqua Bank to assist with funding capital expenditures at an interest rate of 8.5%.

Other borrowings

The other borrowings balance comprises of asset financing facilities totalling \$38,011 with interest rates ranging from 3.75% to 4.75%, and insurance premium funding facilities totalling \$284,187 with an interest rate of 2.66%.

11. DEFERRED REVENUE

	31-Dec-22 \$	30-Jun-22 \$
Current deferred revenue	8,301,053	9,349,670
Total deferred revenue	8.301.053	9.349.670

Associated Projects

The deferred revenue balances at reporting date are associated with the LEILAC EU Horizons 2020 project, and the CRC-P Department of Industry, Innovation and Science project.

15. CONTINGENT LIABILITIES

There are no contingent liabilities as at 31 December 2022.

16. NON-CONTROLLING INTERESTS

(a) Disposals to non-controlling interests

On 15 September 2021 global decarbonisation investor Carbon Direct Capital Management LLC ("Carbon Direct") invested €15m for a 6.98% equity stake in Calix (Europe) Limited, a subsidiary of Calix Limited. This investment was made to aid the acceleration of the development and deployment of the Group's LEILAC technology for the decarbonisation of lime and cement industries. Carbon Direct will advise on areas including capital markets, regulations, commercial and technical development and help to scale this business line.

The Group applies a policy of treating transactions with non-controlling interests as transactions with equity owners of the Group. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is deducted from equity. For disposals to non-controlling interests, differences between any proceeds received and the relevant share of non-controlling interests are recorded in equity. As a result, the difference between \$22,845,374 AUD received (net of \$1,042,697 AUD transaction costs) and \$1,669,052 AUD related to the share of Carbon Direct is accounted for as equity reserves, amounting to \$21,176,322 AUD as at 31 December 2021 in the statement of changes in equity.

(b) Equity - non-controlling interests

	\$1-Dec-22	31-Dec-21 \$
Non-controlling interest retained earnings opening		
balance	1,395,743	1,653,090
Non-controlling interest share in loss for the period	(212,827)	(70,174)
	1,182,916	1,582,916

Non-controlling interests in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of financial position respectively. Carbon Direct's share of the loss since disposal, \$365,584 (2022: \$86,970), is disclosed as part of non-controlling interest in the income statements.

17. AFTER BALANCE DATE EVENTS

No matters or circumstances have arisen since the end of the half-year ended 31 December 2022 which significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in future years.

DIRECTORS' DECLARATION

In the directors' opinion:

- the financial statements and notes set out on page 5 to 20 are in accordance with the Corporations Act 2001, including:
 - a. complying with Accounting Standards Interim Financial Reporting, the *Corporations Regulations* 2001 and other mandatory professional reporting requirements, and
 - b. giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and of its performance for the half year ended on that date, and
- 2. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Calix Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Calix Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2022 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
