DIRECTORS' REPORT

DIRECTORS' REPORT

RESIMAC GROUP LTD AND ITS CONTROLLED ENTITIES

Review of operations

Net interest income decreased 6% to \$117,240,000 on the previous corresponding period (PCP) driven by lower home loan assets under management and BBSW increasing in advance of RBA cash rate increases.

Operating expenses increased 32% to \$51,140,000 on PCP driven by higher Australian based employees, and fair value losses on unlisted equity investment and derivatives.

Total home loan settlements across the Group's direct and third party distribution channels were \$2.4 billion.

The Group's total assets under management of \$16.1 billion at 31 December 2022 comprise:

- On balance sheet home loans and advances to customers of \$14.7 billion, down 4% compared to 30 June 2022;
- On balance sheet asset finance loans of \$0.5 billion; and
- White label off-balance sheet portfolio of \$0.9 billion, down 17% compared to 30 June 2022 in line with the Group's strategy to cease originating white label loans.

Macroeconomic environment

Financial markets face an uncertain economic outlook driven by supply chain disruptions and skilled labour shortages driving up inflationary pressure both on a local and global scale. As at 31 December 2022, the RBA and RBNZ have sought to contain inflation by increasing cash rates consecutively over the last 6 months taking rates to 3.10% and 4.25% in Australia and New Zealand respectively, with forecasted further increases in the next 6 months.

Rising cost of living pressures from higher interest rates and inflationary pressures could lead to mortgage stress and financial hardship on some customers. Resimac's robust credit risk framework continues to insulate the impacts of the macroeconomic environment, albeit we will work with customers who require assistance where required. The number of customers under a hardship arrangement at 31 December 2022 was 123 (31 December 2021:174).

Funding programmes

During the period ended 31 December 2022, the following new Residential Mortgage Backed Securities (RMBS) and Asset Backed Securities (ABS) were issued to facilitate assets under management, optimise term duration and funding costs:

- The RESIMAC Asset Finance Trust Warehouse Series No.1 was settled on 31 August 2022 and is a domestic asset financing warehouse with an initial facility limit of \$516 million.
- The RESIMAC Triomphe Trust Premier Series 2022-2 transaction was settled on 28 September 2022 and is a domestic prime issue with a total issuance size of \$500 million.
- The RESIMAC Bastille Series 2022-2NC transaction was settled on 15 December 2022 and is a domestic non-conforming issue with a total issuance of \$500 million.
- The RESIMAC Versailles Series 2022-1 transaction was settled on 22 December 2022 and is a New Zealand prime issue with a total issuance size of NZD\$200 million.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS | ABOUT THIS REPORT FOR THE HALF-YEAR ENDED 31 DECEMBER 2022

Statement of compliance

The half-year financial report is a general purpose condensed financial report which:

- has been prepared in accordance with the requirements of the *Corporations Act 2001*, and AASB 134 *Interim Financial Reporting*;
- compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 Interim
 Financial Reporting; and
- does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost, except for certain financial instruments which have been measured at fair value. All amounts are presented in Australian dollars unless otherwise noted.

The Company is an entity of the kind referred to in *ASIC Corporations* (Rounding in Financial/Directors' Reports) Instrument 2016/191, and in accordance with that amounts in the Directors' Report and the financial statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Group's 2022 annual financial report for the financial year ended 30 June 2022, except for the impact of the Standards and Interpretations described below. The changes in accounting policies will also be reflected in the Group's consolidated financial statements as at and for the year ending 30 June 2022. These accounting policies are consistent with Australian Accounting Standards (AAS) and with International Financial Reporting Standards (IFRS).

Amendments to Accounting Standards that are mandatorily effective for the current reporting period

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to the Group's operations and mandatorily effective on or after 1 July 2022.

The new and revised Standards and Interpretations adopted during the period do not materially affect the Group's accounting policies or any of the amounts recognised in the condensed consolidated financial statements.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS | ABOUT THIS REPORT FOR THE HALF-YEAR ENDED 31 DECEMBER 2022

Standards and Interpretations in issue not yet adopted

Standard/amendment

Certain new accounting standards and interpretations have been published that are not effective for the 31 December 2022 reporting period and have not been early adopted by the Group.

The condensed notes to the condensed consolidated financial statements

The notes include information required to understand the financial statements and is material and relevant to the operations, financial position and performance of the Group. Information is considered material and relevant if, for example:

- the amount in question is significant because of its size or nature;
- it is important for understanding the results of the Group;
- it helps to explain the impact of significant changes in the Group's business for example, acquisitions and impairment write-downs; or
- it relates to an aspect of the Group's operations that is important to its future performance.

The notes are organised into the following sections:

Key numbers: provides a breakdown of individual line items in the financial statements that the Group consider most relevant and summarises the accounting policies, judgements and estimates relevant to understanding these line items;

Capital: provides information about the capital management practices of the Group and shareholder returns for the year;

Risk: details the Group's exposure to various financial risks, explains how these affect the Group's financial position and performance and what the Group does to manage these risks;

Group structure: explains aspects of the Group structure and how changes have affected the financial position and performance of the Group;

Unrecognised items: provides information regarding items not recognised in the financial statements but could potentially have an impact on the Group's financial position and performance; and

Other: provides information on items which require disclosure to comply with AAS and other regulatory pronouncements, however, are not considered critical in understanding the financial performance or position of the Group.

Effective for annual reporting periods

beginning on or after

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS | ABOUT THIS REPORT FOR THE HALF-YEAR ENDED 31 DECEMBER 2022

Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, the Group is required to make judgements, estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements. Actual results may differ from these estimates.

a) Critical judgements in applying the entity's accounting policies

The following are the critical judgements and estimates that the Group has made in the process of applying the Group's accounting policies and have the most significant effect on the amounts recognised in the financial statements. The critical judgements and estimates adopted in the preparation of the half-year financial report are consistent with those adopted in the Group's 2022 annual financial report for the financial year ended 30 June 2022.

- Impairment of financial assets;
- Impairment of other financial assets;
- Goodwill impairment; and
- Net present value (NPV) of future trail commission: recognition of future commission receivable and payable.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a risk of causing a material adjustment to the carrying amounts of the assets and liabilities within the next financial year.

Impairment of financial assets

The calculation of the impairment provision on financial assets is based on:

- objective evidence of impairment for a portfolio of financial assets using the Group's future expected credit loss model; and
- observable changes in economic conditions that correlate with default on receivables.

Judgements are required on key concepts such as whether there has been a significant increase in credit risk, measurement of lifetime expected credit loss and forward-looking assumptions. Difference in key judgements and estimates may impact the amount of provision on financial assets recognised in the statement of financial position and impairment expense recognised in the statement of profit and loss.

Impairment of other financial assets

Investments that are not traded in an active market, however classified as fair value through profit or loss (FVTPL) are disclosed at fair value at the end of each reporting period. Judgement are involved in fair value assessment conducted on the unlisted shares, including assessing the impact of market conditions on the current and future operating models.

Goodwill impairment

The Group has performed an assessment of the indicators of impairment of goodwill at the reporting date. Refer to note 7.

NPV of future trail commission

The recognition of the future trailing commission receivable and payable in the statement of financial position is an area of judgement due to the valuation techniques applied in line with the accounting standards. The key assumptions underlying the estimation of present value of future cash flows are the annualised run-off and prepayment rates.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS SEGMENT INFORMATION FOR THE HALF-YEAR ENDED 31 DECEMBER 2022

The Group has identified two reportable segments based on the nature of the products and services provided, the type of customers for those products and services, the geographies where the business operates and the existence of discrete and separate reporting and management teams. The internal reports about reportable segments are regularly reviewed by the Board and executive management team (Key Management Personnel or KMP).

The Group's reportable segments under AASB 8 Operating Segments are:

1. Australian Lending business

Represents the distribution and lending business currently captured under the Resimac, Resimac Asset Finance and homeloans.com.au brands.

The segment contains the bulk of the Australian based income and expense. It incorporates the new business settled through the various distribution channels, the margin net of funding costs of the on balance sheet loans and advances, and the upfront and trail commission on the non-principally funded loans (white label portfolio).

The Group's fully owned subsidiary Resimac Asset Finance (RAF) specialises in both Australian based secured commercial and consumer lending. Management have assessed the impact of the RAF business on its Group results as not material, and therefore does not represent a reportable segment for the period ended 31 December 2022, notwithstanding RAF is considered a separate operating segment by Management.

2. New Zealand Lending business

Whilst the nature of the customers and products are similar to the Australian Lending segment, given the different jurisdiction and market conditions, management believe it is appropriate to distinguish the result of New Zealand from Australia.

Separating the Australian and New Zealand trading business is supported by the operation of a dedicated NZ board, NZ segment monthly management reporting, separate regulatory requirements/oversight, and staff solely accountable for the NZ business including a locally based Head of New Zealand.

1. Revenue

1.1 Revenue streams

The Group generates revenue primarily from interest income, annuity trail income on white label loans and other fee income. White label loans are those loans funded through the historic Homeloans white-label channel and do not sit on the Group's balance sheet.

1.3 Assets related to contract with customers

The Group has recognised the following assets related to contracts with customers.

| | HY23 | FY22 |
|---|--------|--------|
| | \$'000 | \$'000 |
| Contract assets – present value of future trail commission receivable | | |
| Current | 5,904 | 7,763 |
| Non-current | 12,423 | 16,314 |
| | 18,327 | 24,077 |

Key estimates and assumptions

The key estimates and assumptions underlying the remeasurement of the estimated future cash flows include the:

| | HY23 | FY22 |
|----------------------------------|-------|-------|
| Annualised run-off | 21.8% | 22.9% |
| Prepayment rate (run-off buffer) | 25% | 25% |

Annualised run-off

Run-off is a combination of discharges, prepayments and scheduled loan repayments. A three year rolling average is used in the valuation as the Group's best estimate of future run-off to avoid potential year-on-year volatility in run-off.

Prepayment rate

In order to manage both volatility of rates over time and the uncertainty associated with this modelling, a conservative run-off buffer of 25% is included in the valuation by management, and remains unchanged compared with FY22.

4. Loans and advances (continuation)

Impairment and provisioning

AASB 9 requires an Expected Credit Loss model (ECL) at each reporting date to reflect changes in credit risk since initial recognition of the loans and advances. The ECL model forecasts expected credit loss incorporating macroeconomic forecasts and portfolio performance over the previous 48 months. The Group provisioning policy and methodology is referenced in Note 22 and 23 of the FY22 annual report. As at 31 December 2022, the Group held the Collective Provision balance consistent with the provision at 30 June 2022. This represents a 28bps (FY22: 27bps) collective provision coverage of home loans assets under management.

Whilst we remain cautious of the current economic environment with a small portion of our loan portfolio experiencing stress, our overall portfolio quality remains strong and our credit risk management continues to limit the economic losses. At 31 December 2022, 123 home loan customers were in active hardship arrangements (113 at 30 June 2022), Prime 90 days arrears were 25 bps (14 bps at 30 June 2022), and Specialist 90 days arrears were 64 bps (38 bps at 30 June 2022). Despite this increase, home loan specific provision at 31 December 2022 remain low at \$2.5 million (30 June 2022: \$4.2 million).

The following table summarises the loans and advances and the expected credit loss by stage and risk category:

The majority of the Group's exposure to loans and advances is limited, as they are legally owned by special purpose vehicles (trusts) with limited recourse to the Group. Losses on mortgage loans in these entities are therefore limited to the Group's investment in notes in these trusts and the residual income rights of trusts. The trust structures are designed such that losses are covered by the income generated from the assets within the trust before the investment notes are impaired.

The Group lease offices with lease terms between 3 to 8 years. The Group recognises a right-of-use asset and a lease liability at the lease commencement date in the consolidated statement of financial position. The right-of-use asset is initially measured at cost, and subsequently at cost less accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability. Depreciation of right-of-use asset is recognised in the consolidated statement of profit and loss. Under AASB 16 *Leases*, right-of-use assets are tested for impairment in accordance with AASB 136 *Impairment of Assets*.

Impairment of goodwill

At 31 December 2022, the Group has performed an assessment of the indicators of impairment of goodwill, which included consideration of the impact of COVID-19 and macroeconomic environment. Goodwill of \$21.7 million has been allocated for impairment assessment purposes to the Australian Lending Business segment. This segment is considered to be the group of cash-generating units (CGU) that are expected to benefit from the synergies of the business combination to which that goodwill relates. RAF goodwill of \$6.7 million, including the goodwill recognised from RAF's interest in 23 Degrees Capital Partners Pty Ltd, is considered a separate CGU (refer to note 18.2) and has been separately assessed for impairment testing.

Indicators of impairment

The indicators of impairment have been considered by management. These include both internal and external sources of information such as:

- significant changes (historical and future) in the market, economic, legal or technological environment which would have an adverse impact on the Group;
- interest rate changes which impact the discount rate used in modelling;
- evidence of a worsening financial position;
- plans to discontinue operations; and
- macro economic conditions including the impact of COVID-19 pandemic.

At 31 December 2022, based on the factors listed above, management have not identified any indicators of impairment and there has been no further developments which would change or impair the goodwill balance as at 31 December 2022.

Debt securities on issue

Debt securities on issue consist of RMBS bonds issued and warehouse facilities. All of the drawn interest-bearing liabilities are secured on cashflows derived from the underlying loan receivable portfolio.

Corporate debt facilities

Corporate debt facilities consists of \$50 million of Secured Capital Note with a 3 year tenor. Additionally at 31 December 2022, the Group had drawn \$30 million from its Corporate Debt facility (FY22: \$20 million).

Issuance facilities

The Group maintains a series of subsidiary SPV's for the purpose of raising financing for its RMBS-related credit risk retention ("CRR") obligations. CRR is a mandatory requirement for the Group's RMBS issuance activities in the U.S., European, Japanese and U.K. jurisdictions where, in general, the Group is required to hold an economic interest of at least 5% in value of an RMBS issuance. The subsidiary SPV's hold a 5% vertical strip of bonds of an individual RMBS issuance and raises secured financing from banks and credit investors.

16. Fair value of financial instruments

This note provides information about how the Group determines the fair value of various financial assets and liabilities.

16.1 Fair value of financial assets and liabilities that are measured at fair value on a recurring basis

Financial assets and liabilities are disclosed in accordance with AASB 9 Financial Instruments.

A number of the Group's financial assets and liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of those financial assets and liabilities are determined (in particular, the valuation technique(s) and inputs used).

The following assets and liabilities are measured at fair value by the Group for financial reporting purposes:

| | Fair value hierarchy | Valuation technique(s) and key inputs (s) | HY23 \$'000 | FY22 \$'000 |
|------------------------|-------------------------|--|----------------|----------------|
| <u>as</u> | inclutoriy | valuation teelinique(e) and key inpute (e) | \$ 000 | \$ 000 |

| | | | | |
| Financial liabilities | | | | |
| | | Discounted cash flow | | |
| Overnight index swaps | Level 2 | Forward interest rates, contract interest rates | 720 | 235 |

An assessment of the fair value of the Group's investments at 31 December 2022 resolved to reduce the Group's investment in unlisted entities by \$3.6 million. The movement was recognised as a loss in the statement of profit and loss at 31 December 2022 (see note 2).

FOR THE HALF-YEAR ENDED 31 DECEMBER 2022

17. Derivative financial assets and liabilities

The carrying values are as follows:

| | HY23 | FY22 |
|----------------------------------|--------|--------|
| | \$'000 | \$'000 |
| Derivative financial assets | | |
| Cross currency swaps | 32,547 | 11,400 |
| Interest rate swaps | 25,402 | 27,252 |
| Overnight index swaps | - | 568 |
| | 57,949 | 39,220 |
| | | |
| Derivative financial liabilities | | |
| Overnight index swaps | 720 | 235 |
| $(\mathcal{O}/\mathcal{O})$ | 720 | 235 |

The Group seeks to minimise the effects of foreign currency and some interest rate exposures by using derivative instruments to hedge these positions. Derivatives are initially recognised at fair value at the date derivative contracts are entered into, and subsequently measured at their fair value at each reporting period.

Hedge accounting

The Group designates certain hedging instruments, which includes derivatives in respect of foreign currency and interest rate risks, as cash flow hedges.

At the inception of the hedge relationship the Group documents the relationship between the hedging instrument and hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions.

Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument that is used in a hedging relationship is effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationships meet all of the following hedge effectiveness requirements:

- there is an economic relationship between the hedged item and the hedging instrument;
- the effect of credit risk does not dominate the value changes that result from that economic relationship; and
- the hedge value is largely reflective of the hedged item.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss and is included in the other expenses or other income line item.

The majority of the Group's interest rate swaps are not designated as hedging instruments for accounting purposes, the changes in the fair value are recognised immediately in profit or loss for these interest rate swaps.

FOR THE HALF-YEAR ENDED 31 DECEMBER 2022

18. Acquisition of subsidiary

18.1 Accounting for Business combinations

The Group accounts for business combinations using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Transaction costs incurred in connection with a business combination are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

18.2 Details of acquisition

On 1 August 2022 Resimac exercised the option to acquire a controlling stake in 23 Degrees Capital Partners Pty Ltd (operating as Sonder) for a purchase consideration of \$0.9 million, increasing Resimac's interest in 23 Degrees Capital Partners Pty Ltd from 15% to 51%.

The total fair value of the purchase consideration for the 51% ownership in 23 Degrees Capital Partners Pty Ltd consists of the following:

- \$150,000 paid for the acquisition of 15% on 10 August 2021; and
- \$900,000 paid for the acquisition of an additional 36% on 1 August 2022.

The assets and liabilities recognised as a result of the acquisition are as follows:

| | Fair value |
|-------------------------------------|------------|
| | \$'000 |
| | |
| Assets | |
| Cash and cash equivalents | 220 |
| Other assets | 8 |
| Total assets | 228 |
| | |
| Liabilities | |
| Other liabilities | (29) |
| Total liabilities | (29) |
| | |
| Fair value of identified net assets | 199 |
| Less: Non-controlling interest | (98) |
| Add: goodwill (Refer to note 7) | 949 |
| Purchase consideration | 1,050 |

Subsequent to the acquisition accounting, goodwill becomes subject to impairment tests which are undertaken at least annually, or if and when there are indicators that goodwill maybe impaired.

Accounting policy choice for non-controlling interests

The Group recognises non-controlling interests in an acquired entity either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. This decision is made on an acquisition-by-acquisition basis. For the non-controlling interests in IA Group, the Group elected to recognise the non-controlling interests at its proportionate share of the acquired net identifiable assets.

FOR THE HALF-YEAR ENDED 31 DECEMBER 2022

19. Share based payments

19.1 Employee share option plan of the Company

The Company has a share option scheme (pursuant to the Resimac Group Employee Share Option and Rights Plan) for senior employees of the Company. In accordance with the terms of the Plan, as approved by shareholders at the 2017 Annual General Meeting, senior employees may be granted options to purchase ordinary shares.

Each employee share option converts into one ordinary share of the Company on exercise. No amounts are paid or payable by the recipient on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry.

Long-Term Incentive (LTI#1) Share Options - CEO

Resimac offered the CEO Scott McWilliam the opportunity to purchase 1,800,000 share options vesting in three equal tranches on each anniversary of the grant date. The options were granted on 18 August 2017 and all options vest within 12 months, 24 months and 36 months of respective grant date associated with each tranche. The options expire within 36 months of their vesting, or one month after resignation, whichever is the earlier. The sole vesting condition of the options is to remain employed with the Company to the respective vesting date associated with each tranche.

Long-Term Incentive (LTI#2) Share Options – CEO and General Managers (GMs)

Under the Group's LTI share options and rights plan, the CEO and members of the senior management team receive options over ordinary shares and a potential cash component of \$2.4 million. The options were granted on 15 August 2019 and the vesting date for all options is 31 August 2022, subject to the Group achieving Net Profit After Tax (NPAT) growth hurdles, digital transformation hurdles, compliance hurdles and remaining employed with the Group until the vesting date.

A cash component LTI of \$1.7 million was paid to the CEO and senior management in September 2022. Furthermore 785,000 share options were exercised in September 2022.

Employee Share Plan (ESP)

The Group commenced the Resimac Group Employee Share Scheme (ESS) in March 2021 whereby each financial year eligible employees are offered up to \$1,000 worth of fully paid Resimac ordinary shares for no cash consideration.

Shares allocated under the ESS cannot be sold until the earlier of three years after allocation or the time when the participant is no longer employed by the Group.

Dear Board Members,

Auditor's Independence Declaration to Resimac Group Limited

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Resimac Group Limited and its controlled entities.

As lead audit partner for the review of the financial report of Resimac for the half year ended 31 December 2022, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Yours faithfully

Independent Auditor's Review Report to the Members of Resimac Group Limited

Conclusion

We have reviewed the half-year financial report of Resimac Group Limited (the "Company") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2022, and the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors declaration as set out on pages 13 to 40.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001*, including:

- (a) Giving a true and fair view of the Group's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- (b) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Half-year Financial Report section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Deloitte.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
