# Home loan portfolio performance

- Specific provisions reduced further to **\$2.5m** driven by lower defaults.
- Early stage arrears increased in December and January as the impact of rising interest rates and cost of living began to materialise.
- Collective provisions \$40.6m remained flat with higher arrears offset by the large macroeconomic overlay taken at 30 June 2022, and lower AUM.
- ✓ Industry arrears will initially impact variable rate books, moving through the system as fixed rate portfolios roll to variable.

Home loan settlements (\$b)

1H23 home loan settlements

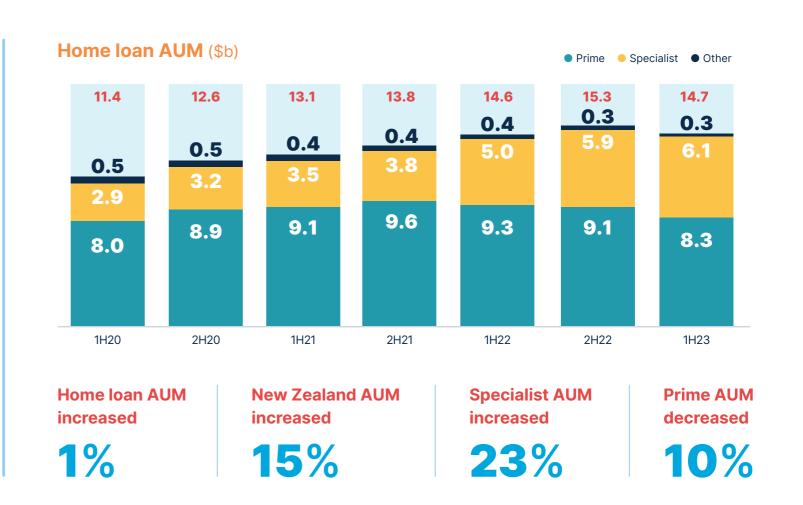

\$2.4b

- √ 1H23 settlements \$2.4b (-32% vs 1H22) reflecting a 30%¹ decrease in system purchase activity.
- Ompetition for Prime owner-occupied settlements remain fierce, with low interest rates fuelled by the RBA funding for ADIs (TFF), unusually high household savings, and cashbacks providing large banks a competitive advantage.
- ✓ Resimac maintains a diversified offering of home loans and asset finance products, where our tailored solutions meet customer needs.

<sup>1</sup> ABS Lending Indicators December 2022, value of new borrower accepted loan commitments.

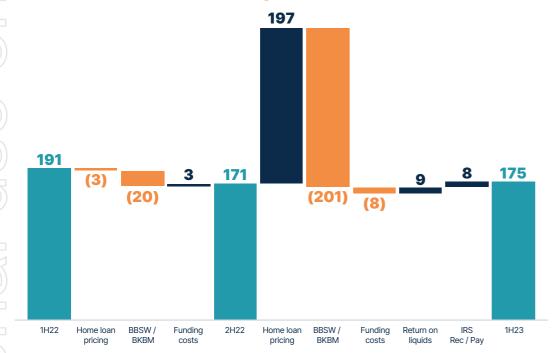

### Home loan AUM

- Total home loan assets under management of \$14.7b increased 1%, driven by Specialist increasing 23% to \$6.1b, partly offset by Prime decreasing 10% to \$8.3b.
- New Zealand increased 15% to \$0.9b (AU\$0.8b), where Resimac continues to pursue Specialist segment opportunities.
- Prime cashback offers and aggressive customer interest rates targeting refinancers continues to drive higher run off.

### **Funding**

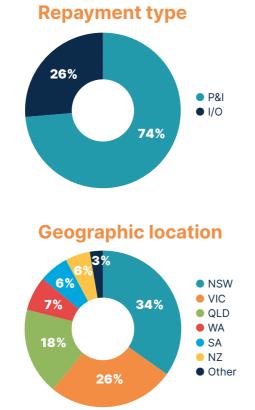

- The Group issued **\$1.2b** of Australian and New Zealand Prime and Specialist RMBS in 1H23, reflecting utilisation of lower margin warehouses as settlements reduced.
- ✓ RMBS pricing increased in 1H23, albeit appear to have peaked. 2H23 non-bank deals have upsized and priced tighter than 1H23.

- Prime home loan AUM expected to decrease in 2H23, driven by lower system purchase activity and big four targeting refinances with aggressive interest rates and cashbacks.
- Specialist home loan segment continues to provide origination opportunities. We expect 2H23 Specialist AUM to remain broadly flat.
- Asset finance AUM remains on track for targeted \$1b of annualised settlements by FY24, supported by a new digital originations platform and new funding platform.
- > 2H23 NIM expected to be lower than 1H23 driven by back book run off and higher BBSW.
- > 2H23 productivity and optimisation strategy to rightsize cost base to reflect macro environment.

# Environmental, social & governance

As an Australian ASX-listed entity with several licences providing funding for a number of Australian and New Zealand communities, Resimac is focused on integrating sustainability into all aspects of our business.

Resimac acknowledges that its approach to ESG is a key factor for many customers, investors, shareholders, employees and suppliers. As a business, we are incorporating ESG into our strategy and way of thinking, and aim to optimise stakeholder value creation.

The ESG Committee considered the United Nations Sustainable Development Goals and have determined that our initial focus is on **Good Health and Wellbeing**; **Quality Education** and **Climate Action**. In addition, the business is ensuring that gender equality and reducing inequalities is embedded into our day to day activities and operations.

In conducting our business, we consider environmental factors such as climate change, energy efficiency, water preservation, reduction of carbon footprint, waste treatment practices and natural resource conservation. **Under our Carbon Conscious** initiative, Resimac plants one tree for every loan settled. We have planted over 46,000 trees, which will offset nearly five million kilograms of carbon from the Earth's atmosphere over their lifetime.

# Social

The social factors we consider as a business include human capital (remuneration practices, diversity, equity and inclusion), human rights, workplace health, safety and security, community and stakeholder relations (volunteering, community funding and customer advocacy). The Group continues to ensure adherence to responsible lending. Resimac launched its green product in addition to establishing social funding during the last reporting period. We are proud to partner with Run Rocket Run, which is an initiative on mental and physical resilience.

# Jovernance

Resimac's governance structure incorporates compliance and risk framework and a three lines of defence model. This ensures we continue to adhere to our compliance obligations, and have appropriate controls in place to mitigate risks that may impact our people, customers and shareholders.

## **About** our business units

Resimac has expanded its operations across Australia and New Zealand by completing acquisitions and making investments into complementary businesses. These acquisitions and investments provide for a broader and more diversified distribution model, which assists with delivering vertical integration - a key driver of our success.
