There were several new client wins in the period including L3Harris and Viaero Wireless in North America which both licensed FirstWave's network monitoring products in multiyear deals of 2 and 3 years respectively.

A number of existing network monitoring clients increased the number of devices under their licence agreements including NASA in North America, which agreed to an extension and expansion of their network monitoring licence to support the Artemis (<a href="https://www.nasa.gov/specials/artemis/">www.nasa.gov/specials/artemis/</a>) missions.

Claro Dominican Republic (Telco) committed to licencing the recently released NMIS 9.4 suite of products with the agreement including US\$300,000 in up-front fees.

Telmex (Telco) extended their agreement with FirstWave for a further 12 months, in a renewal worth approximately US\$300,000 in annual revenues.

FirstWave's security team was commissioned by a client to build a sovereign email platform in Australia to comply with Australian Cyber Security Centre's Information Security Manual ('ISM'). The build has commenced, and it is anticipated the platform will be launched to the Australian government and large enterprise market in Q3 FY23.

FirstWave launched a refreshed marketing strategy together with a new brand following the integration of Opmantek (acquired in January 2022). The Opmantek brand began being phased out from 15 September 2022. All products and services previously offered under the Opmantek brand are now consolidated under the FirstWave brand.

Implementation of the one brand strategy aligns to the company's new strategic focus on providing integrated solutions for network discovery, monitoring and security for enterprises, managed service providers (MSPs), and telecommunications carriers globally.

#### Note 1. Significant accounting policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2022 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2022 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

#### New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity during the financial half-year ended 31 December 2022 and are not expected to have a significant impact for the full financial year ending 30 June 2023.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

#### Going Concern

During the half-year ended 31 December 2022, the consolidated entity incurred a net loss after tax of \$3,257,728 (31 December 2021: \$7,657,581) and generated net cash outflows from operating activities of \$2,126,807 (31 December 2021: net cash outflows of \$4,802,949). The directors have prepared the financial statements on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The directors determined that the use of the going concern basis of accounting is appropriate in preparing the financial statements. The assessment of going concern is based on cash flow projections. The preparation of these projections incorporates a number of key assumptions and judgements including anticipated revenue growth from the existing pipeline of opportunities and the level of investment required to support this growth.

The consolidated entity's management has advised the directors that if it becomes clear that the above assumptions are not being realised, the consolidated entity has the ability to significantly reduce its operating costs and adjust its investments and has sufficient time to make these adjustments to realise a cash flow neutral business within the existing funding reserves.

#### Note 2. Operating segments

#### Identification of reportable operating segments

The consolidated entity's operating segments are based on the internal reports that are reviewed and used by the Chief Executive Officer (being the Chief Operating Decision Maker ('CODM')) in assessing performance and in determining the allocation of resources.

Following the acquisition of Opmantek Ltd during the financial year ended 30 June 2022, the consolidated entity only has one reportable segment being the development and sale of internet security and network monitoring software. For information on the reportable segment refer to the statement of profit or loss and other income (for segment revenues and profit/loss) and statement of financial position (for total segment assets and liabilities) and notes to the financial statements.

# Note 13. Share-based payments

The consolidated entity has a share option plan and a share rights plan to incentivise certain employees and key management personnel ('KMP'). Shareholders approved the Rights Plan at an Extraordinary General Meeting held on 29 July 2020. The Board has the discretion to invite employees to apply for share rights, which have been designed to deliver long term variable remuneration opportunities. Such rights have a service based vesting condition and act to align the interests of the employees with shareholders of the company.

The share-based payment expense for the period was \$345,499 (31 December 2021: \$235,464), of which \$nil (31 December 2021: \$125,050) was off-set by the employees having agreed to salary sacrifice in lieu of service rights and hence saving the entity cash costs.

### Movements in share awards during the year

The following table illustrates the number of awards and weighted average exercise prices ('WAEP') of, and movements in, share awards during the current half-year. For the purposes of disclosure, rights and options are combined on the basis that rights carry an exercise price and therefore operate effectively as options:

	Number of options/rights	Weighted average exercise price
Outstanding at 1 July 2022 Share rights granted during the financial half-year Exercised Expired	59,552,717 55,800,000 (492,962) (9,277,165)	\$0.24 \$0.05 \$0.11 \$0.05
Outstanding at 31 December 2022	105,582,590	

#### Note 13. Share-based payments (continued)

For the service rights and the restricted service rights granted during the current financial half-year, the valuation model pinputs used to determine the fair value at the grant date, are as follows:

	Vesting		Share price at		Expected	Dividend	Risk-firee	Fair value at

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the *Corporations Regulations 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and its performance for the half year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Accordingly, we do not express an audit opinion.
