Life360's CDIs are issued in reliance on the exemption from registration contained in Regulation S of the US Securities Act of 1933 (Securities Act) for offers of securities which are made outside the US. Accordingly, the CDIs have not been, and will not be, registered under the Securities Act or the laws of any state or other jurisdiction in the US. As a result of relying on the Regulation S exemption, the CDIs are 'restricted securities' under Rule 144 of the Securities Act. This means that you are unable to sell the CDIs into the US or to a US person who is not a QIB for the foreseeable future except in very limited circumstances until after the end of the restricted period, unless the re-sale of the CDIs is registered under the Securities Act or an exemption is available. To enforce the above transfer restrictions, all CDIs issued bear a FOR Financial Product designation on the ASX. This designation restricts any CDIs from being sold on ASX to US persons excluding QIBs. However, you are still able to freely transfer your CDIs on ASX to any person other than a US person who is not a QIB. In addition, hedging transactions with regard to the CDIs may only be conducted in accordance with the Securities Act.

FINANCIAL OVERVIEW

Net subscription revenue retention above 100% even as absolute growth in subscribers accelerates

Net Revenue Retention - Subscription (vs Previous Half)*

Net revenue retention is measured based on the revenue in the final month of the previous period compared to the revenue from the same set of users earned over the next six months (e.g. for 1H19, revenue retention is calculated as the average monthly revenue over the period vs. the revenue earned in December 2018).

Commentary

- The strength of Life360's freemium model is reflected in net subscription revenue retention maintaining at 100% or greater. This is supported by success in driving free users to paid subscriptions, and paid subscribers into higher price plans
- In each half year period (excluding 1H20), net revenue retention is at or above 100% across the cohort of users who had signed up by the end of the previous period
- Retention remains strong even as absolute subscriber growth accelerates, indicating that subscriber quality is being maintained

ACCELERATING SUBSCRIPTION REVENUE GROWTH

AMR has more than tripled since our IPO in May 2019

Quarterly Recurring Revenue (\$M)*

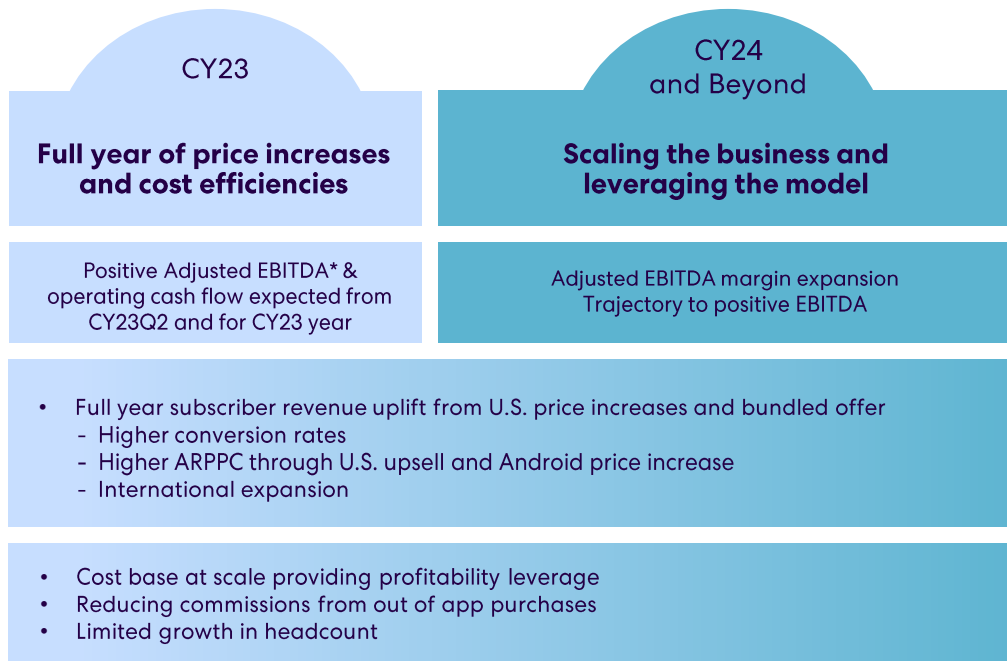

Quarterly Annualized Monthly Revenue (\$M)*

*Recurring Revenue and Annualized Monthly Revenue are unaudited and exclude hardware. Annualized Monthly Revenue (AMR) is a financial measure used by the Company to identify the annualized monthly value of active customer agreements at the end of a reporting period.

We collect and analyze operating and financial data to evaluate the health of our business, allocate our resources and assess our performance.

EBITDA and Adjusted EBITDA

In addition to total revenue, net loss and other results under GAAP, we utilize non-GAAP calculations of earnings before interest, taxes, depreciation and amortization ("EBITDA") and adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"). EBITDA is defined as net loss, excluding (i) convertible notes and derivative liability fair value adjustments, (ii) provision (benefit) for income taxes, (iii) depreciation and amortization and (iv) other income (expense). Adjusted EBITDA is defined as net loss, excluding (i) convertible notes and derivative liability fair value adjustments, (ii) provision (benefit) for income taxes, (iii) depreciation and amortization, (iv) other income (expense), (v) stock-based compensation, (vi) acquisition and integration costs, (vii) non-recurring workplace restructuring costs, (viii) prototype inventory write-off, and (ix) (gain)/loss on revaluation of contingent consideration. ⁽¹⁾⁽²⁾⁽³⁾⁽⁴⁾ The above items are excluded from EBITDA and Adjusted EBITDA because these items are non-cash in nature, or because the amount and timing of these items are unpredictable, are not driven by core results of operations and render comparisons with prior periods and competitors less meaningful. We believe EBITDA and Adjusted EBITDA provide useful information to investors and others in understanding and evaluating our results of operations, as well as providing useful measures for period-to-period comparisons of our business performance. Moreover, we have included EBITDA and Adjusted EBITDA in this media release because they are key measurements used by our management team internally to make operating decisions, including those related to operating expenses, evaluate performance, and perform strategic planning and annual budgeting. However, these non-GAAP financial measures are presented for supplemental informational purposes only, should not be considered a substitute for or superior to financial information presented in accordance with GAAP, and may be different from similarly titled non-GAAP financial measures used by other companies. As such, you should consider these non-GAAP financial measures in addition to other financial performance measures presented in accordance with GAAP, including various cash flow metrics, net loss and our other GAAP results.
