

Appendix 4C and Activities Update – Q4FY23

Cash flow break-even clearly in sight as free cash flow up 73% on Q3

Whispir Limited (ASX:WSP, Whispir or the Company) provides its Appendix 4C cash flow and activity report for the quarter ended 30 June 2023 (Q4 FY23, the Quarter). The prior corresponding period is Q4 FY22 (PCP), and the prior quarter is Q4 FY23 (PQ).

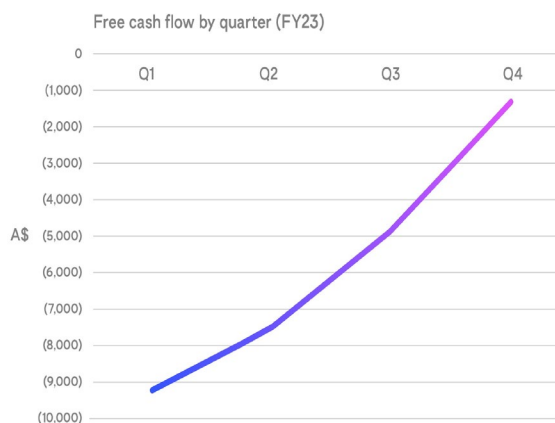

Quarterly Summary

- Free cash outflow for the Quarter of \$1.33 million is a 72.7% (\$3.54 million) improvement on the PQ of \$4.87 million
- Expenditure from operating and investing activities has reduced by 21% (\$3.89 million) on the PQ evidencing successfully completed cost reduction programs
- Receipts are down slightly by 2.6% (\$0.35 million) on the PQ to \$13.36 million (PQ \$13.71 million)
- Funds received (net of costs) of \$0.94 million from RiverFort Capital for working capital following execution of \$7.50 million debt facility during the Quarter
- Cash at bank \$4.32 million, providing cover for seven quarters (1.75 years) of free cash outflows based on the Quarter
- Positive cash flows expected to be generated during FY24 - supported by current revenue trajectory and sales pipeline, improving gross margins, and current cost base.

Quarterly performance

Free cash flow¹

This Quarter is the first quarter to show the full impact of earlier restructures, with free cash outflow improving 72.7% (\$3.54 million) over the PQ to \$1.33 million. The significant reduction in outflows during the year, as illustrated in the chart, has improved the Company's financial resilience, positioning it well to achieve positive free cash flow during FY24 as revenue growth and margins continue to improve.

¹ Cash flow from operating and investing activities, excluding transfers from restricted cash

whispir

Cash receipts

Receipts from customers for the Quarter were \$13.36 million, a 2.6% decrease on the PQ. This small decline reflects timing of collections only as underlying revenue was up 1% for the Quarter compared to the PQ. Whilst Q4 FY23 revenue was not as strong a quarter as expected, recent contract wins suggest both revenue and receipts will improve next quarter.

Cash payments

Cash payments from operating and investing activities have reduced by 21% (\$3.89 million) on the PQ following the successful execution of cost reduction programs, and continued improvement in margins. More specifically:

- Staffing costs (including capitalised development labour) were down 23% on the PQ, at \$6.90 million reflecting the down-sizing of the US operations;
- Corporate administration costs were down 28% on the PQ to \$1.14 million;
- Sales & marketing payments saw a similar sized reduction of 21% on the PQ to \$1.01 million for the Quarter; and
- Product-related cash payments were \$4.89 million, down 16% on the PQ, in part due to timing, but more importantly continued improvement in gross margins.

The Quarter includes payments to related parties of \$271k for directors' fees and CEO remuneration. Following the recent rightsizing of Whispir's board, non-executive Director remuneration will be significantly lower going forward.

Cash reserves and financing

During the quarter, the Company entered into a funding agreement with RiverFort Capital, which provided the Company with an immediate cash injection (loan) of \$0.94 million (net of costs) and access to a further \$6.50 million upon approval by RiverFort. Further information on this facility is contained in the ASX announcement dated 23 June 2023.

At the end of the Quarter the Company had \$4.32 million cash at bank, \$1.01 million of restricted cash, and a further \$6.51 million in unused credit facilities (which includes the RiverFort facility), providing cover for seven quarters of free cash flows (based on Q4 FY23).

Business news

Australia/New Zealand (ANZ)

The ANZ region has experienced positive momentum during the Quarter, including further gains in the health sector. Namely, the Company has signed a new contract via its Channel Partner to deliver electronic prescription messaging, an initiative which forms part of Australia's National Digital Health Strategy. E-prescription messaging is where a unique electronic token (in the form of a QR code) is created and sent to the patient as an SMS or email. The token is a key that unlocks the electronic prescription. Patients can provide the token to the pharmacist to enable dispense and supply of the medicines. E-prescriptions are likely to become an increasingly popular way for patients to access medications, and this contract is expected to deliver at least \$1 million revenue in FY24, starting in August.

Whispir continues to have a positive impact in the community. Since the Victorian Police launched its text-notification service "STOPIT" to help combat sexual offending on public

transport – more than 1500 notifications have been received by the police leading to 13 arrests. This initiative is the first of its kind in Australia and is powered by the Whispir platform.

Whispir has recently renegotiated a 13% discount to its SMS delivery rates with one of its largest messaging carriers effective from 1 July 2023 which will serve to improve gross margins even further in this region.

Asia

During the Quarter the region signed several new blue-chip customers, all contributing valuable entry point sales which are expected to grow significantly over time.

Recently, a large insurance company has signed a 3-year renewal and will be integrating Whispir with another large software provider to further digitize their customer engagement. Another new customer win in the region will see Whispir powering their big data marketing campaign, uplifting capability from plain SMS to rich message content. In addition, a large bank in the region will be using Whispir to automate workflow with SMS and voice.

The chart below demonstrates the growth trajectory occurring in the region via Channel Partners over the last five months (up more than 7x), showing a noticeable acceleration in the last month of the Quarter.

Channel Partner Revenue - last 5 months

FY24 outlook

Whispir CEO and founder Jeromy Wells said: “Recent contract wins, improving gross margins, and a reducing cost-base provide us with a clear line of sight to delivering a cash flow positive FY24. Whilst the initial \$1 million drawdown from our debt facility provided us with greater flexibility to manage intra-month working capital requirements, we do not intend to make any further drawdowns as the business verges on being self-sustainable.”

“We continue to see demand for digital communications from existing and new customers in ANZ, while the significant growth we are seeing in our Asian business shows no sign of slowing. We have a solid sales pipeline for the year ahead and will continue to innovate our platform to create and seize additional opportunities in our key markets. The e-Prescription support is an example of the crucial role digital communications can play in everyday life, and this is true across all the sectors we work in. With our costs now reined in, and our sales efforts focused on markets offering immediate growth, we are confident about Whispir’s prospects in FY24.”

The Company expects to release its results for the financial year ended 30 June 2023 on 24 August 2023.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
