Strategic Objectives

Sales-led culture

Grow faster

Be capital efficient

Grow Faster

- Renewal of Australian Government client through a partner (CyberCision)
- New US Government client through a partner (NMIS)
- Continuing negotiation with a significant US based organisation (NMIS related) has progressed to procurement
- Focusing of sales efforts continues with targeting Service Providers and large organisations in our strongest markets (US, LATAM and Australia)
- Focusing on highest margin products, in particular NMIS
- New (additional) account manager in Mexico

Be Capital Efficient

- Continue to prioritise cash management while making strategic investments with a bias towards strong growth potential in network management
- CyberCision platform consolidation saw the decommissioning of two platforms and successful migration of all clients to a single platform in Sydney
- Renegotiation of third-party supplier agreements that will generate further efficiencies and improve margins for the company moving forward

In Closing

- Pipeline of new opportunities remains healthy, despite protracted purchasing cycles
- Business has the flexibility and levers to deal with a range of eventualities
- Full year results to be released end of August
