

A large group of runners, including men, women, and children, are participating in a parkrun event. They are running along a paved path in a park with many trees. Most runners are wearing red tank tops with the 'medibank parkrun' logo. In the foreground, a young boy in a green tank top is running towards the camera. In the background, there are red and white banners with the 'medibank parkrun' logo and the text 'humanly incredible'. A banner on the right side of the path reads 'Albury Wodonga parkrun'.

General & Summary Information

The information contained in this presentation is general information about Medibank Private Limited ("MPL") and / or its related bodies corporate (together, "MPL Group") and their activities current as at the date of the presentation. The information is given in summary form and does not purport to be complete. It is intended to be read in conjunction with the verbal presentation delivered on the date of the presentation and MPL's other periodic and continuous disclosure announcements lodged with the ASX or released on MPL's website, including without limitation its Appendix 4E and Financial Report for the full year ended 30 June 2023, which are available at www.medibank.com.au.

Not advice

The information contained in this presentation is not investment, legal, tax or other advice and has been prepared without taking into account the investment objectives, financial situation or particular needs of any particular person. You should make your own assessment and seek independent professional advice in connection with any investment decision. Past performance information in this presentation is given for illustrative purposes only. It is not, and should not be relied upon as, an indication of future performance.

To the extent permitted by law, no responsibility for any loss arising in any way from anyone acting or refraining from acting as a result of this information is accepted by MPL or any of its related bodies corporate. No representation or warranty, express or implied, is made by any person, including MPL, and its related bodies corporate, their respective directors, officers, employees, professional advisors and agents ("Related Parties") as to the fairness, accuracy, completeness, reliability or correctness of the information, opinions and conclusions contained in this presentation, including any forward-looking statements.

Forward-looking statements

This presentation contains certain forward-looking statements with respect to the financial condition, results of operations and business of the MPL Group and certain plans and objectives of the management of MPL. Forward-looking statements can be identified by the use of forward-looking terminology, including without limitation the terms "believes", "estimates", "anticipates", "expects", "predicts", "intends", "plans", "goals", "targets", "aims", "outlook", "aspiration", "guidance", "forecasts", "continue", "may", "will", "would", "could" or "should" or, in each case, their negative or other variations or comparable terminology. Statements about market and industry trends are also forward-looking statements.

These forward-looking statements are provided as a general guide only and are not guarantees or predictions of future performance. They are based on information, expectations and assumptions known to MPL as at the date of this presentation regarding MPL's present and future business strategies and the future political, regulatory and economic environment in which MPL will operate.

MPL believes the expectations reflected in these forward-looking statements are reasonable as at the date of this presentation, but acknowledge they involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of MPL, which may cause the actual results or performance of MPL to be materially different from the results or performance expressed or implied by such forward-looking statements. These factors include general economic conditions in Australia, exchange rates, the market environment in which MPL operates and inherent regulatory risks in MPL's business, and those set out on slides 16, 17, 18 and 26.

You are therefore cautioned not to place undue reliance on any forward-looking statements regarding our belief, intent or expectations with respect to the MPL Group's businesses, market conditions and/or results of operations.

No representation or warranty is made by any legal or natural person in relation to the accuracy, likelihood of achievement or reasonableness of any of these forward-looking statements, forecasts, prospects or results (express or implied). MPL and its Related Parties assume no obligation to update any forward-looking statement and to the full extent permitted by law, MPL and its Related Parties disclaim any obligation or undertaking to release any updates or revisions to information to reflect any change in any of the information contained in this presentation (including but not limited to any assumptions or expectations set out in the presentation).

Claims recovery post COVID-19

Claims growth continues to be below expectations – slower recovery in non-surgical

Hospital cash claims per policy unit

6 months to May claims per policy unit vs pre-COVID-19 period^{1,2}

Private hospital non-surgical cash claims per policy unit

6 months to May claims per policy unit vs pre-COVID-19 period^{1,2}

Variance to expected underlying hospital & extras cash claims (\$m/month)

\$138m or 5% below expected underlying claims growth of 2.4% for the 6 months to May 23

Hospital claims 5% below underlying expectations (6 months to May 23)

- Recovery in non-surgical claims continues to lag surgical claims
- Expect favourable permanent shift in rehab claims relative to pre-COVID expectation
- Prosthesis reform continues to favourably impact hospital claims growth
- Public hospital claims increased in line with improved bed availability, but growth remains below private hospital claims growth

Extras claims 4% below underlying expectations (6 months to May 23)

- Dental claims increased during 2H23 however claims trend continues to be variable particularly in more discretionary modalities

Continue to monitor claims for further signs of other permanent shifts

- Further rehab savings
- Ongoing softness in psychiatric and respiratory claims
- Proportion of surgical procedures occurring on same day or short stay basis

Closing balance	4,758.9	4,786.5	0.6%
Average balance	4,687.1	4,774.5	1.9%
Hospital lives (thousand)			
Total	2,921.0	2,947.8	0.9%
Under 30	920.1	931.8	1.3%

Industry growth remained buoyant at 1.9% for 12 months to June 23 (FY22: 2.7%)³

Adult Dependant Reform (ADR) increasing the number of 25 – 30 year olds remaining on family policies

- Reduces policyholders but increases hospital lives insured
- Increases revenue and claims per policy unit – however largely offsetting
- Growing % of insured lives ≤ 30 years of age which improves quality of insurance pool

Policyholder growth up 0.6% (+10.9k) – Medibank brand down 0.4%; ahm up 3.4%

- Improved performance as business operations normalised in Q3 (post cybercrime event) with growth in the seasonally stronger Q4
- Improved retention rates despite premium increase during 2H23 (whereas many competitors have deferred into 1H24)
- Acquisition improved with the recommencement of marketing activity
- ahm aggregator sales improved however we continue to target more profitable direct sales channels which accounted for 55% of total ahm sales

Growth in hospital lives of 0.9% is 30bps above policyholder growth

- Further benefits from ADR expected over next 5 years
- Strong position in family segment expected to increase the % of lives insured under 30 years
- Younger cohort mix likely to positively impact the quality of insurance pool

Focused on growing market share as we progress in FY24

- Further capitalise on our dual brand strategy
- Increase focus on growing corporate market
- Invest further where this makes commercial sense

(1) Transfers of policyholders between ahm and Medibank are excluded in consolidated lapse and acquisition rates but included at brand levels. Lapse and acquisition rates are based on the average of the opening and closing balances for the period. (2) Based on an average of the month-end balances over the reporting period. (3) Industry average, resident policyholders, APRA quarterly private health insurance statistics (Jun-23)

Health Insurance – underlying resident claims

Underlying claims growth of 2.4% per policy unit - includes impact of ADR

Financial year ended 30 June (\$m) ¹	2022	2023	Change

Resident hospital utilisation growth	0.4%	0.5%	10bps
Resident extras utilisation growth	1.8%	2.2%	40bps

Underlying resident gross claims up 4.3%

- Risk equalisation had no impact on net claims growth with the return to more normal age claiming patterns

Average underlying claims growth per policy unit up 10bps to 2.4%

- Increase largely reflects the impact from adopting ADR
- Healthcare cost inflation had modest impact on claims this period

Hospital claims growth per policy unit down to 2.3%

- Savings from prosthesis reform
- Improved risk equalisation outcome
- Modest cost inflation impact

Extras claims per policy unit up 60bps to 3.1%

- Investment in additional product benefits
- Utilisation growth 40bps higher than FY22 due to sales mix

Expect FY24 underlying claims per policy unit growth of 2.6%

- ADR to have further impact on claims per policy unit
- Major headwind is higher public and private hospital claims inflation
- Major tailwinds are lower rehab claims (relative to pre-COVID expectation), benefit from claims management initiatives and lower extras claims growth

Closely monitoring whether the economic environment is impacting demand for services

- Mix of hospital admissions (including same day versus overnight)
- Spend in more discretionary extras modalities

Indicative composition & movement in underlying claims expense per policy unit¹ vs. FY22

Underlying resident performance

Stable revenue growth per policy unit of 2.6%

- Lower premium increase offset by improved downgrading
- Average premium increase of 2.96% from 1 April 2023

Downgrading improved 10bps to 50bps despite economic conditions

- Includes benefit of Adult Dependent Reform
- Expect downgrading of around 40bps in FY24
- Further favourable impact of ADR and benefit of increased product value, portfolio management and sales mix activities

Gross profit (underlying) up 5.9% to \$1,156.7m

- Revenue growth per policy unit remains above claims growth per policy unit
- Gross margin expansion of 20bps

Underlying non-resident performance

Continued strong revenue growth

- Closing and average policy units increased 39.9% and 31.6% respectively
- Strong customer growth has continued since 30 June 2023

Gross profit up 77.1% to \$66.4m (1H23: \$31.0m)

- Gross margin up 810bps to 33.6% (1H23: 34.1%)
- Benefit of favourable tenure and mix impacts since borders have reopened
- Expect continued solid gross profit growth in FY24

Strong medium term growth opportunities

- Continued growth in visitor and worker market segments expected
- Market share growth opportunities through increasing product value and expanding our health offering

Health Insurance – management expenses

Benefits of scale and productivity continue to mitigate inflation

Financial year ended 30 June (\$m)	2022	2023	Change
Premium revenue	6,859.8	7,148.7	4.2%
Management expenses	(536.1)	(572.4)	6.8%
- Depreciation and amortisation	(40.4)	(41.5)	2.7%
- DAC amortisation	(37.8)	(38.9)	2.9%
- Non-resident sales commissions	(13.9)	(32.7)	135.3%
- Operating expenses ¹	(444.0)	(459.3)	3.4%
MER	7.8%	8.0%	20bps
Underlying MER	7.4%	7.5%	10bps

Non-resident sales commissions increased \$18.8m

- Very strong policy unit growth
- 2H23 sales commissions almost doubled versus 1H23

Non-cash costs increased by \$2.2m

- Modest growth in D&A reflecting higher spend on digital assets
- DAC increased but remains below the level of new acquisition costs
- Under AASB17 all acquisition costs will be expensed from 1 July 2023

Operating expenses increased 3.4%

- Continued cost discipline
- Underlying cost inflation of approximately 4.0%
- Modest volume impacts and \$0.9m increase in statutory charges
- Partially offset by productivity savings

c.\$7m of further productivity benefits delivered

- Cybercrime event impacted the delivery of FY23 productivity initiatives
- Savings from increasing the number of customer interactions through digital channels, process improvements and business efficiency
- Targeting \$20m productivity savings over next two years
- Increasing focus on property savings with Melbourne office relocation in early FY25

Underlying Management Expense Ratio (MER) up 10bps to 7.5%

- Largely the result of growth in non-resident sales commissions
- Continue our productivity program and gain further benefits of scale
- Target a stable to modestly improving ratio whilst balancing the need to invest for growth

Major FY24 cost drivers

- Expect cost inflation modestly higher at 4.5%
- \$3m increase in statutory charges (including Victorian payroll tax)
- Additional \$5m IT security investment
- Expect non-resident sales commission to be broadly in line with FY23

[1] Includes right-of-use depreciation of \$22.9m (FY22: \$23.4m).

Transitioned out of Beyond Blue and 1800RESPECT contracts in 2H22

Segment profit from continuing business up 4.2% to \$44.2m

- Majority of COVID impacts have unwound
- Operating profit up 17.2%
- Lower contribution from JVs including non-recurring COVID income in FY22 and costs associated with new hospitals this period

Business is positioned for further growth in FY24 and beyond

- Targeting on average organic profit growth ≥15% per annum over the next three years
 - Further volume and performance uplift in health services
 - Continue to reposition business to meet the emerging needs of Medibank customers
 - Deliver synergies between our health businesses
- Potential further growth from M&A

Continuing business revenue decline of 1.0%

- Strong growth in health and wellbeing and diversified insurances (particularly in travel insurance sales following borders re-opening)
- Lower telehealth revenue due to COVID related services in prior year
- Subdued hospital volumes in 1H23 impacting homecare revenue growth

Continuing business gross margin up 450bps to 47.6%

- Business mix benefit with growth biased towards higher gross margin businesses
- Improved utilisation and business efficiency partially offset by higher labour costs and other inflation

Continuing business MER increased 190bps to 31.6%

- Expenses increased due to inflation and future growth investment
- High fixed cost nature of expense base means business is highly scalable

(1) Includes telehealth, in-home care, preventative health, diversified insurance, health and wellbeing, and equity accounted investments. (2) Includes interest income from loan to associates FY23: \$0.2m (FY22: \$0.2m). (3) Beyond Blue and 1800RESPECT ceased during February and June 2022 respectively.

Growth portfolio up \$40.3m

- Significantly improved performance in domestic and international equities
- Partially offset by a lower return in property investments

Defensive portfolio up \$92.9m

- \$55.0m benefit from higher RBA cash rate
- Narrowing credit spread benefit of \$9.7m (FY22: \$26.5m cost)
- Improvement in international fixed interest holdings but still below expectations

Net other investment income and expenses up \$30.2m

- \$23.6m benefit from higher RBA cash rate
- Increase from additional allocation to higher yielding fixed income investments

\$88.1m increase in underlying net investment income

- Includes \$78.6m benefit from the higher RBA cash rate
- Based on current RBA rate of 410bps, expect further \$20.0m benefit in FY24

Underlying spread to RBA cash rate of 91bps (target of 150 – 200bps)

- Property fund manager performance below benchmark
- International fixed interest performance c.\$10m below expectations

Asset allocation

- Maintain fund portfolio allocation – 20% Growth, 80% Defensive target
- \$167m benefit from new APRA capital and AASB17 standards will be excluded from the asset allocation and invested in cash and fixed interest (refer to slide 28)

4) Dividend payout ratio is based on Underlying NPAT.

Proforma capital position includes a \$167.0m benefit from new APRA capital and AASB17 standards (refer to slide 28)

- Eligible capital benefit of \$87.0m¹
- Reduction of target health insurance required capital ratio to 10%-12%² (2022: 11%-13%)
- Under new AASB17 standard:
 - DCL net of tax of \$177.7m will transfer to COVID-19 equity reserve, but will be excluded from Eligible Capital
 - Removal of DAC will impact total equity, but have no capital impact

Health Insurance required capital increased by \$184.3m

- Increase to support revenue growth
- Additional capital to offset temporary \$250m APRA supervisory adjustment
- Fund remains well capitalised with a 1.8x coverage of PCA³

Other required capital increased by \$4.5m

- Investment in Integrated Mental Health (iMH) hospital JV with Aurora
- Expect to increase contribution of capital to this JV over next 12 months

Well placed to fund further growth and support M&A aspirations

- Strong capital generation
- Unallocated capital of \$175.4m¹
- Ability to raise Tier 2 debt

Final dividend of 8.3cps, fully franked

- FY23 dividend of 14.6cps, up 9.0%
- 80.5% payout ratio of Underlying NPAT

Financial priorities for FY24

Well positioned to navigate the changing economic environment

Maintain Health Insurance revenue growth

- Focus on increasing resident market share in a sustainable way
- Manage downgrading
- Maintain strong growth in non-resident policyholders, particularly in the worker and visitors segments
- Increased focus on customer life cycle management

Mitigate inflationary claims pressure

- Maintain focus on prosthesis reform and expand payment integrity activities
- Broaden our partnership approach to hospital contracting
- Provide more Amplar Health services to Medibank customers through:
 - prevention management
 - chronic condition management
 - supporting the shift to new care settings at scale
- Seek to maintain low premium increases for customers while balancing any change in the claims environment

Deliver on Medibank Health's growth potential

- Strong growth prospects in target health markets
- Targeting on average organic profit growth of $\geq 15\%$ per annum over the next 3 years
- Providing more services to our customers and delivering synergies between our health businesses
- Supplement organic growth through M&A to add scale, capability and expand geographic coverage. Target a further \$150m–\$250m over the next 3 years

Maintain our sources of difference

- Economies of scale
- Capital advantage from new insurance accounting and capital standards
- Our two brands and direct distribution strength
- Aim to increasingly leverage these benefits

Conclusion

We enter FY24 with good momentum

Medibank remains well positioned to grow in health

We will always put our customers first

- **Strengthen customer trust** and execute on our IT security uplift program
 - **Digitise and integrate our health experiences** to improve customer value
 - **Continue to advocate** for changes to support a more sustainable and affordable health system
 - **Our people remain dedicated to progressing our vision** of the best health and wellbeing for Australia
-

We have good momentum leading into FY24

- **Fundamentals of the PHI business have recovered** with a return to resident policyholder growth in Q4
 - **We remain well placed to support cost of living pressures** by delivering increased value to customers – including growing adoption of our health offerings
 - **We are a resilient business**, and our people have a track record of managing our business well in challenging circumstances
-

We remain focused on growing as a health company

- **Insurance:** Focus on growing market share in our PHI business supported by our unique dual brand proposition
 - **Medibank Health:** Scale and connect our health businesses, with an increasing focus on virtual health
 - **Delivering synergies:** Continuing to prioritise growth in Medibank Health including directly supporting Medibank customers
 - **Financial strength:** Our strong capital position provides flexibility to invest and partner in our target markets
-

FY24 outlook

Customer relief

We continue to assess claims activity. Any permanent net claims savings due to COVID-19 will be given back to customers through additional support in the future.

Resident policyholder growth

We anticipate further moderation in resident industry growth in FY24 relative to FY23. Aiming to achieve 1.5% - 2.0% resident policyholder growth in FY24.

Resident claims

Underlying claims per policy unit growth of 2.6% for FY24 among resident policyholders.

PHI management expenses

Targeting \$20m of productivity savings across FY24 and FY25.

Cybercrime costs

Expect costs of between \$30m – \$35m in FY24 for further IT security uplift and legal and other costs related to regulatory investigations and litigation.

- Excludes the impacts of any potential findings or outcomes from regulatory investigations or litigation

Growth

Targeted organic and inorganic growth for Medibank Health and Health Insurance remain areas of focus.

Appendix

No impact on underlying business or dividend approach under new standards

Outcomes under AASB17¹

- **Medibank will report under AASB17** from 1 July 2023
- **Measurement:** All insurance contracts will be measured using the Premium Allocation Approach which is similar in nature to AASB 1023 approach
- **Premium Recognition:** Straight line basis over the contract boundary of 1 April to 31 March (being the date which approved price increases traditionally come into effect)
- **Resident acquisition costs:** Will be expensed when incurred with 30 June DAC balance of \$55.4m⁴ removed from the balance sheet
- **Statutory Income Statement and Balance Sheet disclosures** will change
- **Underlying economics of business unchanged:** Immaterial impact to underlying profit
- **No change to investor presentation disclosures:** Our core metrics remain unchanged and we will continue to report statutory and underlying profit

Equity Reserve

- Total Equity Reserve of \$205.6m² created on AASB17 transition (refer table below) for two amounts:
 - DCL of \$177.7m (\$253.8m pre tax)
 - Unearned premium liability (UPL) of \$27.9m (\$39.9m pre tax)
- Equity reserve will continue to provide transparency on our commitment to return any permanent net claims savings due to COVID to customers
- Movements in this equity reserve will reconcile differences between statutory and underlying operating profit:
 - FY24 Statutory Operating Profit will be reduced by \$39.9m due to timing of Premium Recognition under AASB17 for UPL but added back for calculating underlying profit
 - Future actual claims above (or below) expected claims of up to \$253.8m, or any future customer givebacks will similarly impact statutory profit but not underlying profit
 - No impact on dividend determination expected

Net Asset and Eligible Capital Reconciliation

- Proforma capital position at 1 July 2023 reflects a net \$87.0m eligible capital benefit due to AASB17 and APRA capital standard changes (refer table below)
- Deferred Acquisition Costs (DAC) removal reduces equity, but no impact on capital as currently treated as an inadmissible asset
- Provision for product bonus entitlements removal improves equity and capital positions, with product bonuses expensed as incurred from 1 July 2023
- The DCL equity reserve of \$177.7m will be excluded from eligible capital given this reflects a customer commitment
- Residual Deferred Tax Assets (DTA) of \$54.7m⁵ excluded from Eligible Capital inline with requirements of the new standard
- Insurance Liability Regulatory Adjustments relate to a required APRA adjustment to value the insurance liabilities at a 75% level of sufficiency (Medibank's capital framework previously took a more conservative approach)

1) Target asset allocation comprises floating rate notes and asset-backed investments (33.0%) and other fixed income (27.0%). The Fund's average credit duration is approximately 2.4 years, average interest rate duration is approximately 0.8 years, and the average credit rating is 'A'.

2) For investment portfolio purposes, fixed income comprises fixed income securities (\$2,323.2m), less reclassified cash with maturities between 3-12 months (\$342.0m), less non health fund fixed income securities (\$209.7m), less short-term operational cash fixed income securities (\$234.2m), plus cash allocated to the Fixed income portfolio (\$4.8m).

3) For investment portfolio purposes, cash comprises cash and cash equivalents (\$420.6m) plus cash with maturities between 3-12 months (\$342.0m), less non health fund investments (\$1.5m), less short-term operational cash (\$159.6m), less operational cash (\$9.6m) less cash allocated to the Fixed income portfolio (\$4.8m).

4) Short-term operational cash ("STOC") sub-portfolio of the fund's investment portfolio consists of short dated defensive assets with the purpose of funding the COVID-19 claims liability and customer givebacks. Given the short-term nature of this portfolio, it is not subject to the existing SAA, TAA framework.

5) The fund's SAA does not apply to the non health fund investment portfolio.

6) \$167m to be allocated to into the STOC portfolio to support the amount held for APRA supervisory adjustment. Given the short-term nature of this portfolio, it will not be subject to the existing SAA, TAA framework.
