GEOGRAPHY (LOTS¹)**

**SETTLEMENTS
COMPOSITION BY
GEOGRAPHY (LOTS¹)**

- Group sales for FY23 of 1,399 lots¹
 - Sales activity impacted by rising interest rates, fewer stock releases and lower first home buyer activity
 - Sales pricing and demand remains more resilient in areas benefiting from affordability advantages and shorter timeframes to issuance of titles
 - Slight improvement in sales momentum in Q423
- Group settlements of 2,594 lots¹
 - Settlement activity in line with expectations despite extended construction timeframes

Enquiry Levels Remain Solid

- Enquiry levels throughout FY23 have been impacted by rising interest rates and lower consumer confidence in response to media commentary on inflation, construction timeframes and house values
 - Buyers remain cautious waiting for interest rates to stabilise and the outlook for builders to improve
- Enquiries are trending above pre-COVID levels and the 10-year average
 - Limited stock releases as a result of matching production levels with buyer demand has also contributed to lower enquiries and pre-sales (compared to FY22)
 - Pick up in enquiry levels throughout 2H23 resulting in slight improvement in sales momentum in Q423

FY24 Focus

Portfolio well-positioned for positive growth and value creation

INVEST in high quality land in strategic locations across country

- Balance portfolio between land and built form projects
- Continue to increase weighting to undersupplied east coast markets
- Significant value creation to be unlocked through
 - Flagstone Town Centre
 - University of Canberra project
- Consider selective acquisitions to restock pipeline where appropriate
 - Anticipating opportunities to emerge as markets moderate
 - Focus on small to mid-size land projects in the short to medium term

EXPAND product offering and geographic presence to appeal to wider variety of customers

- Accelerate the realisation of embedded margins within land bank
- Focus on increasing the Group's townhouse pipeline
 - Targeting infill projects of major capital cities
- Look to build on apartment pipeline as opportunities emerge
- Plan and create communities and homes with a range of product appealing to all buyer segments

MAINTAIN strong capital management

- Focus on improving operating cash flows and reduce gearing
 - In the short-term continue to match production levels with underlying qualified buyer demand
- Position Group to consider capital management initiatives to improve shareholder returns
 - Dividend payout ratio 50-60%
 - On-market share buy back extended
- Leverage funds management capability for pipeline expansion
- Continue to assess opportunities to maximise market cycles to unlock value where appropriate

Group Outlook

Flexible delivery program in place to take advantage of shortage of market supply

- Residential markets continue to adjust from their peak as a result of interest rate increases, inflationary pressures and consumer confidence
- Despite markets being at or close to bottoming and along with an improvement in enquiry levels, we expect the market to wait for stabilisation in interest rates before buyer confidence begins to return
- Markets remain undersupplied, with underlying fundamentals remaining positive including low unemployment, above-average wage growth, and increasing overseas migration
- The Group remains well positioned to navigate the current environment and is well placed to respond strongly to a recovery in activity
- Focus remains on executing our strategic objectives and maintaining a disciplined approach to capital management

Focused on positioning the Group for growth through a prudent approach to project delivery and identifying growth opportunities

- The Group achieved an operating profit after tax for FY23 of \$70.1 million
- Given the current economic backdrop, which Peet expects to persist throughout 1H24, Peet will continue to adopt a cautious approach as it enters FY24 with earnings expected to be strongly weighted to 2H24
