### About Splitit

Splitit powers the next generation of Buy Now, Pay Later (BNPL) through its merchant-branded Instalments-as-a-Service platform. Splitit is solving the challenges businesses face with legacy BNPL while unlocking BNPL at the point of sale for card networks, issuers and acquirers all through a single network API. Splitit's Instalments-as-a-Service platform mitigates issues with legacy BNPL like the declining conversion funnel, clutter at the checkout and a lack of control of the merchant's customer experience while putting the power back in the hands of merchants to nurture and retain customers, drive conversion and increase average order value. Splitit's white-label BNPL is the easiest instalment option for merchants to adopt, integrate and operate while delivering an uncluttered, simplified experience embedded into their existing purchase flow. Headquartered in Atlanta, Splitit has an R&D centre in Israel and offices in London and Australia. Splitit is listed on the Australian Securities Exchange (ASX) under ticker code SPT and also trades on the US OTCQB under ticker SPTTY (ADRs) and STTTF (ordinary shares).
