The Company's focus on risk management is primarily conducted through the Audit & Risk Committee, with a number of identified areas of specific risks as follows:

#### **Contract Risk**

The Company has established a Contract Approval Process that reviews all proposed new contracts with non-standard terms prior to signing to ensure the contracts can be fulfilled, the risks are known and can be managed, and that the contract can be completed profitably without exposing the Company to ongoing liabilities.

#### **Financial Risk**

The Chief Financial Officer, in conjunction with the Chief Executive Officer / Managing Director, review the Company's financial exposure with a particular focus in the area of Outstanding Debtors, with oversight by the Board.

#### **Software Risk**

The Company has a rigorous product development process that reviews Software Release management, including resourcing and development issues.

### **Insurance Risk**

The Audit & Risk Committee reviews the Company's insurance requirements on an annual basis and compares this to the level of cover provided to ensure it is adequately covered. A recommendation is then provided to the Board for the placement of the Company's insurance policies.

### **Project Risk**

The Board requires the Chief Executive Officer / Managing Director to report on any customer implementation project that may be at significant risk of either incurring substantial penalties or incurring substantial over-runs. In addition, the Company has established a Customer Experience Team that reviews current projects and consulting activities to provide an early detection mechanism to ensure that any activities that pose a significant risk to the Company are identified and resolved before exposing the Company to potential liabilities.

### **Sustainability Risk**

The Company believes that it does not have material exposure to specific economic, environmental, or social sustainability risks due to controls implemented. However, the company recognises the importance of these to its stakeholders and has developed a Sustainability Report to outline the Company's position and initiatives across several sustainability risks.

The Sustainability Report provides the Company's initiatives and targets on items including:

- Diversity
- Customer satisfaction
- Employee satisfaction
- Corporate culture
- Ethical business practices
- Supply chain
- Community support
- Environmental sustainability practices

The Company has engaged external subject matter experts to assist in the preparation of environmental risk reporting aligned with the Taskforce for Climate-related Financial Disclosure (TCFD) recommendations. The Board acknowledges that climate change is both an environmental and economic issue. TCFD disclosures are now provided in the Financial Statements and in the annually published Sustainability Report.

Suppliers to TechnologyOne are expected to comply with all applicable local, national and international laws and regulations, including in relation to bribery and corruption, modern slavery and ethical conduct. TechnologyOne undertakes due diligence of all new suppliers and has initiated an annual supplier attestation process to ensure our suppliers continue to comply.

The Sustainability Report is available on the Company's website.

## **7.5 Accounting Standards and Company Policies**

Adhering to Accounting Standards and Company Policies, and the appropriate interpretation of such policies/standards, is seen as critical to managing the financial risk of Technology One. Accounting Standards and Company policies are reviewed on a regular basis by the Audit & Risk Committee working in conjunction with the Auditors, and recommendations for adoption/change are made to the Board. Compliance with Accounting Standards and Company policies are included as part of the Auditors annual review.

### **Internal Controls and Compliance**

The Company has an internal control framework that consists of:

- Written policies and procedures.
- Division of responsibilities to ensure appropriate segregation of duties.

- Careful selection of high calibre well qualified staff.

TechnologyOne undertakes Internal Audits in accordance with the Internal Audit schedule as approved by the Audit & Risk Committee. These audits are undertaken by the Governance, Risk & Compliance Team and reported directly through to the Audit & Risk Committee. The scope of the Internal Audits includes evidencing the responses to the semi-annual Management Attestations, ensuring the controls listed in the Enterprise Risk Register are operational, confirming findings from the previous audit are complete and to ensure that company-wide processes are being complied with.

Independent auditors are engaged to review the Company's internal controls and compliance and to provide a report to the Audit & Risk Committee. The Audit & Risk Committee oversees the Company's compliance program with relevant international standards (including ISO 9001, 27001, 27017 and 27018, SOC 1, 2 & 3. IRAP and UK Cyber Essentials).

The Company has established Practice Management teams in each business area to undertake reviews of compliance with certain operational policies and procedures. Each Practice Management Team provides quarterly reporting of their findings to the Audit & Risk Committee. An independent audit of the Practice Management reviews is undertaken by the Internal Audit team annually.

## 7.6 Remuneration Principles

TechnologyOne believes in the full disclosure of remuneration of its Directors and Key Management Personnel to the market, on at least an annual basis. Disclosure includes all monetary and non-monetary remuneration including salary, fees, non-cash benefits, bonuses or profit share accruing each year irrespective of payment, superannuation contributions, entitlements at termination or retirement, value of shares or options issued and sign-on payments.

As a matter of principle, TechnologyOne has adopted the following guidelines to motivate Directors and Senior Executives to pursue long-term growth, and ensure their interests and those of the shareholders are closely aligned:

- Remuneration packages should be set in the context of what is reasonable and fair, considering the Company's legal and industrial obligations, labour market conditions, the scale of the business and competitive forces.
- Non-Executive Directors should be remunerated solely on the basis of a cash payment, plus superannuation contributions as required by law. Non-Executive Directors should not be provided with bonuses, options, performance rights or loans. They should not participate in schemes designed for the remuneration of Senior Executives. The Company does not provide a Director's Retirement Plan.
- Non-Executive Directors will not be provided termination or retirement payments other than statutory superannuation.
- Company Senior Executives (including Executive Directors) should be provided with a significant component of their expected salary on "an at-risk basis", tied to the Company's profit target. Shares, Options or Performance Rights may also be provided as part of the "at risk component", but these must be tied to performance hurdles. The performance hurdles are to be reasonable, objective and measurable. Vesting of securities is also subject to malus and clawback provisions.
- Termination payments should be agreed in writing and in advance if any are to be provided.

## 7.7 Performance Evaluation

### Board

The Board meets annually for the purpose of reviewing and evaluating the performance of the Board as a whole, each Committee, key Executives and each Director individually in meeting key responsibilities and achieving its objectives.

The following areas were considered by the Board in its 2023 annual review:

- Performance evaluation of Directors and Senior Executives.

- Review of skills and experience of the Board for current operations of the Company and identification of any shortfalls.
- Board Chair, Director and CEO succession planning.
- Review of each Director's independence status.
- Review of skills matrix to ensure relevance of required skills.

To assist the Board in maximising its effectiveness, the Board and Nomination & Governance Committee have a skills matrix to provide objective information about each Director and the Board during the past year.

Each Director is encouraged to discuss any issue concerning Board performance with the Board Chair at any time.

Directors are encouraged to maintain and improve their knowledge, skills and expertise through briefings, seminars and attending professional development programs.

Remuneration of the Board is assessed every three (3) years against comparative data for Australian publicly listed companies supplied by an independent consultant and reported to the Remuneration Committee. The relative risk, time, effort, complexity of the underlying business, competency of the management team, financial performance and track record, clarity of strategy as well as the number of Board meeting required to oversee the business are used as benchmarks to determine the appropriate level of Director's fees. For years where a formal assessment of remuneration is not conducted, the Director's fees are increased by the Australian Consumer Price Index (CPI).

### **Senior Executives**

The performance of Senior Executives is reviewed and evaluated annually by a combination of the Company's internal performance management program and as part of the formal remuneration review that is conducted annually by the Remuneration Committee.

## **7.8 Trading in Company Securities**

The Directors have resolved to adopt the following policy in relation to trading by Directors and Officers in the Company's shares.

- The Directors and Senior Executives will not engage in short term trading of the Company's shares.
- The Directors and Senior Executives will not buy or sell shares at a time when they possess information which, if disclosed publicly, would be likely to materially affect the market price of the Company's shares. Information is not considered to be generally available until a reasonable time has elapsed to allow the market to absorb these announcements.

The Directors and Senior Executives are not permitted to use the Company's shares as security for margin loans. To assist Directors and Senior Executives in abiding by these principles Trading Windows have been established, relating to when Directors and Senior Executives can buy and sell the Company's shares. These Trading Windows are open for 50 days following the full and half year result releases.

At all times, the Director or Senior Executive must notify the Board (as a minimum the Board Chair) in advance of any intended transactions involving the Company's shares. It is recognised that there may be circumstances where it may not be appropriate for Directors and Senior Executives to buy and sell within the above Trading Window in the event the Company is involved in strategic initiatives (such as acquisitions), which could materially affect the market price of the Company's shares.

The Directors and Senior Executives must advise the Company Secretary of any completed trades immediately once each transaction is done. This will allow the Company Secretary sufficient time to notify the ASX of the change in shareholding within the required period.

A register of Director's holdings is made available for inspection at every Board meeting.

This policy applies to Directors and Senior Executives (including their nominee companies) and the entities which they control.

For the purpose of this Policy, Senior Executive is deemed to include the following parties:

- For personal use only
- a) persons named by the Chief Executive Officer / Managing Director from time to time who may be involved in strategic issues
  - b) persons named by the Chief Executive Officer / Managing Director from time to time who are involved in financial reporting
  - c) Senior Executives of the Company as defined as Officers in section 9 of the Corporations Act being: 'any person by whatever name called who is concerned or takes part in the management of the Company'.

In addition to the policy for Directors and Senior Executives, all employees are reminded of the Insider Trading provisions of the Corporations Act. Staff are reminded of their obligations during the Trading Windows.

## 7.9 Shareholders' Rights and Communication

The Board of Directors aim to ensure that shareholders are informed of all major developments affecting the Company's state of affairs. The information is communicated to shareholders, and forms part of the Company's two-way investor relations program:

- By ensuring that all shareholders can elect to receive information and communications from the Company's share registry either physically or electronically and can update their preferences through the share registry.
- By the Annual Report being distributed to all shareholders. The Board ensures the Annual Report contains all relevant information about the operations of the Company during the financial year, together with details of future developments and other disclosures required under the *Corporations Act 2001*.
- By publishing its Notice of Meeting and Explanatory Memorandum for each Annual General Meeting (AGM) or other such meetings as required from time to time.
- By encouraging shareholders to attend and participate in the Company's Annual General Meeting.
- By encouraging shareholders to participate in proxy voting should they be unable to attend the Company's AGM.
- By enabling shareholders to pose questions to the Company in the lead up to the AGM for responding during the meeting.
- By facilitating polls for each resolution voted during an AGM.
- By the Half Year results released to the market;
- By disclosures forwarded to the ASX under the Company's continuous disclosure obligations.
- Through the Company's website, under a special area called Investor Relations.
- By the Company's participation in scheduled briefings with institutional shareholders and security analysts.
- By the participation of the Company's Auditors and Solicitors at the AGM.

TechnologyOne held its inaugural hybrid technology AGM in February 2023 with favourable feedback from its shareholders. TechnologyOne informed its shareholders at that meeting that it will continue to utilise this hybrid technology whenever possible for future AGMs, to encourage shareholder participation for those unable to attend in person. TechnologyOne does value the opportunity to meet with our shareholders face-to-face so will continue to offer that also for AGMs.

All information communicated by the Company is in accordance with its continuous disclosure requirements under ASX Listing Rule 3.1.

Legislative changes to the *Corporations Act 2001* (Cth) effective from 1 April 2022, means that companies are no longer required to send shareholder communications by mail unless specifically requested.

For personal use only

TechnologyOne aims to continually reduce our carbon emissions and to maintain carbon-neutrality, while continuing to provide effective communications to shareholders. By no longer sending shareholder communications by mail as the default position, we save time and cost, and it helps reduce our carbon footprint. Shareholders can still elect to receive some, or all, communications by mail if they choose.

Shareholders are encouraged to review or update their communication preferences through the Company's share registry provider. Contact details are available on the Company's website through the Investor Relations area.
