SUSTAINABILITY MARKET UPDATE

30 November 2023

PETER KING

Chief Executive Officer

OUR COMMITMENT TO SUSTAINABILITY

2023 sustainability strategy^{1,2}

OUR PURPOSE

Creating better futures together

PILLAR

Customer

Easy

Expert

Advocate

THEMES

Support in
good times
and bad

Simpler,
safer bank

Action on climate and nature

Equitable and inclusive
society

OBJECTIVES

Enhance
financial
inclusion and
equality

Strengthen
data security
and protection

Become a
net-zero,
climate
resilient bank

Become a
nature positive
bank

Respect and
advance
human rights

Enable
diversity and
inclusion

FOUNDATIONS

Robust environment and
social risk management

Reliable data and reporting

Integration and
organisational capability build

¹ This presentation contains 'forward-looking statements' and statements of expectation reflecting Westpac's current views on future events. They are subject to change without notice and certain risks, uncertainties and assumptions which are, in many instances, beyond its control. Please refer to the disclaimer at the back of this presentation. Further details on our commitments, targets and other supporting information is contained in our 2023 Annual Report, Climate Report and Sustainability Index and Datasheet.² See our website for more information on our sustainability strategy: www.westpac.com.au/about-westpac/sustainability/our-strategy/

BECOMING A NET-ZERO, CLIMATE RESILIENT BANK

Delivering on the three elements of our Climate Action Plan

OUR ACTION AREAS

NET-ZERO, CLIMATE RESILIENT OPERATIONS

SUPPORTING CUSTOMERS' TRANSITION TO NET-ZERO AND TO BUILD THEIR CLIMATE RESILIENCE

COLLABORATE FOR IMPACT ON INITIATIVES TOWARDS NET-ZERO AND CLIMATE RESILIENCE

ANTHONY MILLER

**Chief Executive,
Business & Wealth**

INTEGRATING SUSTAINABILITY ACROSS THE BANK

1 REDUCING OPERATIONAL EMISSIONS

2 SUPPORTING CUSTOMERS AS THEY TRANSITION TO NET-ZERO

3 HELPING CUSTOMERS FEELING THE PRESSURE OF COST-OF-LIVING CHALLENGES

Case studies

100% RENEWABLE ELECTRICITY, DIRECT OPERATIONS NATIONALLY¹

Cornerstone contracts supported over 125MW of new generation capacity

Spark Renewables' Bomen Solar Farm, near Wagga Wagga, NSW

Multi-technology approach for national renewables outcome

Flow Power's Berri Energy Project, SA

Community and nature impact

Multi-use, tree planting under Westpac contracts

1. Sourcing equivalent of 100% of Australian direct electricity demand from renewables from April 2023

REDUCING WESTPAC GROUP SCOPE 1 AND 2 EMISSIONS¹

(tCO₂-e)

TARGET TO REDUCE OPERATIONAL SCOPE 1 AND 2 EMISSIONS BY 64% BY 2025 AND 76% BY 2030 FROM OUR 2021 BASELINE²

Scope 1: Direct impact i.e. fleet fuels, refrigerants, gas, diesel and LPG

Scope 2: Indirect impact (purchased electricity)

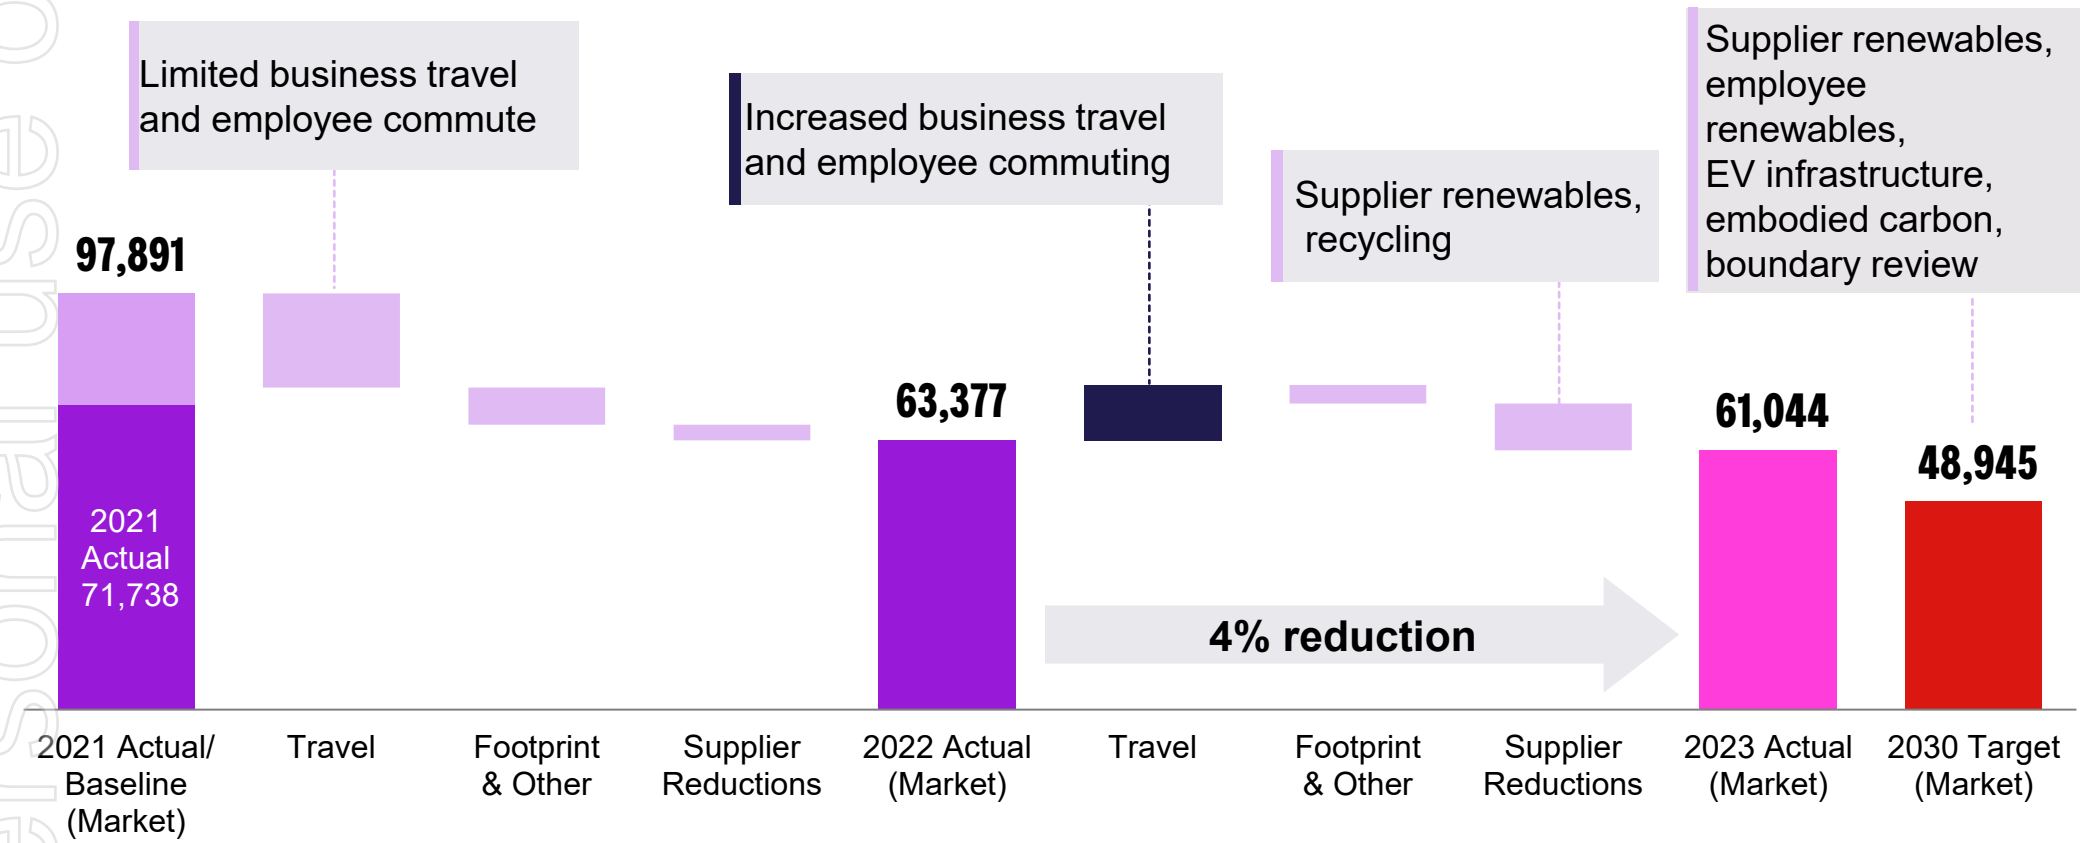

¹ Refer to page 19 of the 2023 Climate Report and the Environment tab of the 2023 Sustainability Index and Datasheet for details of our operational targets. ² 2021 baseline adjusted for COVID-19 pandemic and other impacts. ³ Renewable numbers reflect global percentages. Westpac sourcing equivalent of 100% of Australian direct electricity demand from renewables from April 2023, this equates to 70% of our global consumption for FY23.

UPSTREAM SCOPE 3 EMISSIONS¹

(tCO₂-e)

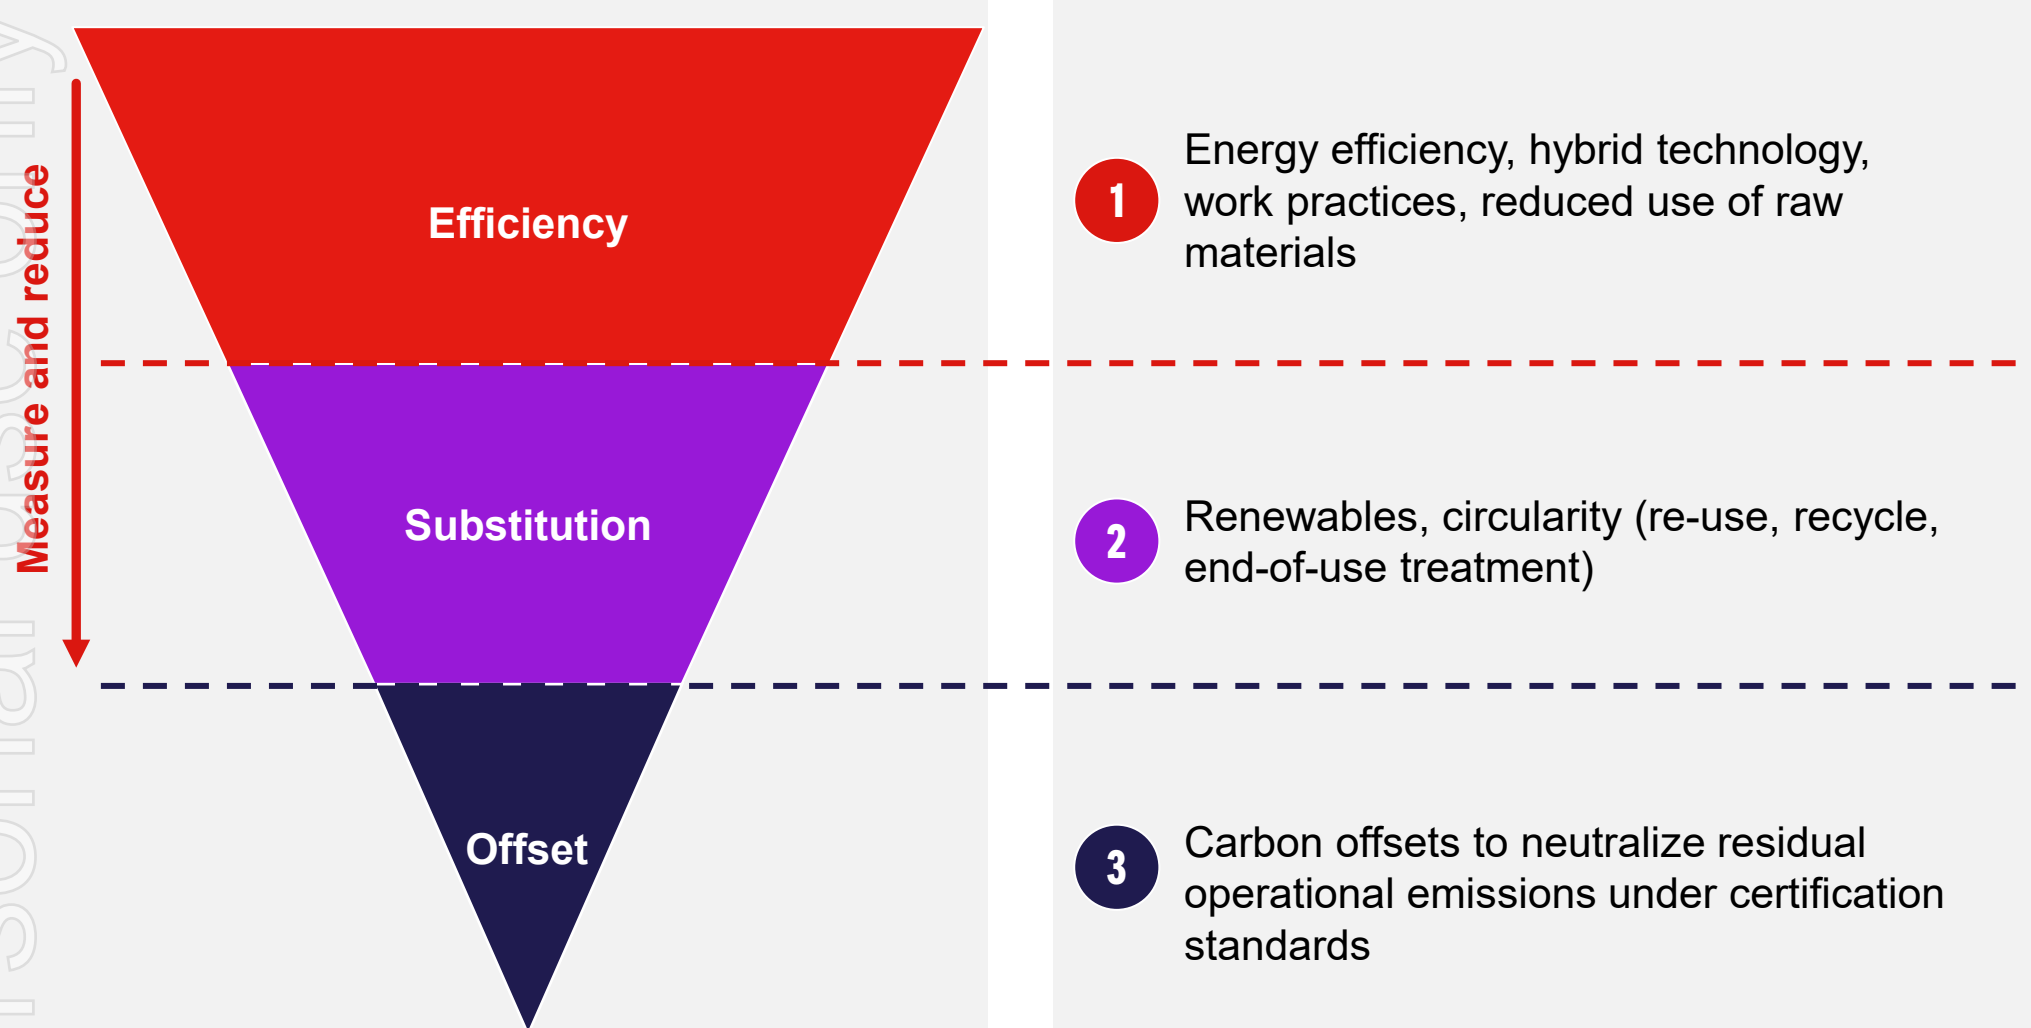

TARGET TO REDUCE OUR SCOPE 3 UPSTREAM EMISSIONS BY 50% BY 2030 FROM OUR 2021 BASELINE²

Upstream scope 3 emissions: Indirect impact from sources not owned or controlled by Westpac

¹ Refer to page 19 of the 2023 Climate Report and the Environment tab of the 2023 Sustainability Index and Datasheet for details of our operational targets. ² 2021 baseline adjusted for COVID-19 pandemic and other impacts.

USING OFFSETS FOR RESIDUAL EMISSIONS

AL WELSH

**MD, Corporate & Institutional
Banking**

TRANSITION PLANS

Engaging with customers on their transition plans

Pilot Assessment Framework (FY23)

TARGETS 	Short and long-term emission reduction commitments across scope 1, 2 and 3. Commitment to net-zero by 2050	<ul style="list-style-type: none">— Leveraged global frameworks (e.g. CA100+, GFANZ)— Piloted with 20 emissions intensive customers in FY23— Customers appreciated the guidance in this fast-evolving area— Customers looking for consistency on temperature alignment from government, banks and investors
STRATEGY 	Details on initiatives to achieve the targets and the timing of implementation	
CAPITAL ALLOCATION 	How capital is being allocated to emission reduction or zero carbon projects	
REPORTING 	Detail provided on emission reporting, including baselines and progress on key projects	
GOVERNANCE 	Board experience on climate change/net-zero. How does Board assess climate issues. Linking of remuneration to emission reduction targets	

ENERGY TRANSITION – UPSTREAM OIL AND GAS

A key part of the energy transition

Energy value chain needs to balance the increase in renewables with the reduction in oil and gas

Our upstream portfolio comprises 82% gas and 18% oil

2030 target

23% reduction in scope 1, 2 and 3 absolute financed emissions by 2030 from a 2021 baseline

Positions, subject to national energy security

We will not provide project finance or bond facilitation for the development of new (greenfield) or expansionary oil and gas fields, including new associated dedicated infrastructure, unless in accordance with the International Energy Agency Net-Zero by 2050 scenario (2021)

We will continue to provide corporate lending and bond facilitation where the customer has a credible transition plan¹ in place by 30 September 2025

Engaging with upstream oil and gas customers on their transition plans:

- Sector-wide progress in developing emissions reduction plans and achieving reductions to scope 1 and 2 emissions
- Developing 1.5°C-aligned transition plans covering scope 1, 2 and 3 by 30 September 2025 will be challenging for sector
- In FY24 we will engage further to understand our customers’ evolving decarbonisation strategies

¹ A credible transition plan should be developed by reference to the best available science and should include scope 1, 2 and 3 emissions and actions the company will take to achieve greenhouse gas reductions aligned with pathways to net-zero by 2050, or sooner, consistent with a maximum temperature rise of 1.5°C above pre-industrial levels by 2100.

PETA WARD

**National General Manager,
Regional & Agribusiness**

AGRICULTURE

Represents 2% of TCE¹ and 26% of emissions

Westpac's exposure (%)

Estimated FY23 financed emissions

¹ Total Committed Exposure.

AGRICULTURE

Targets to reduce operational emissions and improve productivity

Australian Dairy

Target: 10% reduction in scope 1 land management emissions intensity

Baseline & Target (tCO₂-e / t of FPCM)

Australian Beef & Sheep

Target: 9% reduction in scope 1 land management emissions intensity

Baseline & Target (tCO₂-e / t of FW)

Deforestation

No further conversion of natural forest to agricultural land use within farm systems from 31 December 2025 for customers in scope of the targets

SBTi – Science Based Targets Initiative
 FLAG – Forest, Land and Agriculture (target setting guidance and pathway)
 FPCM – Fat and Protein Corrected Milk (production unit)
 FW – Fresh Weight (production unit)

AGRICULTURE

Supporting customers in their transition to net-zero

↔ **Decarbonisation pathway for Beef and Sheep is different to Dairy**

⚙️ **Progressive and well-organised industry groups in Australia**

🤝 **Emissions reduction and productivity go hand-in-hand**

🧩 **No one single initiative – many that in aggregate will support transition**

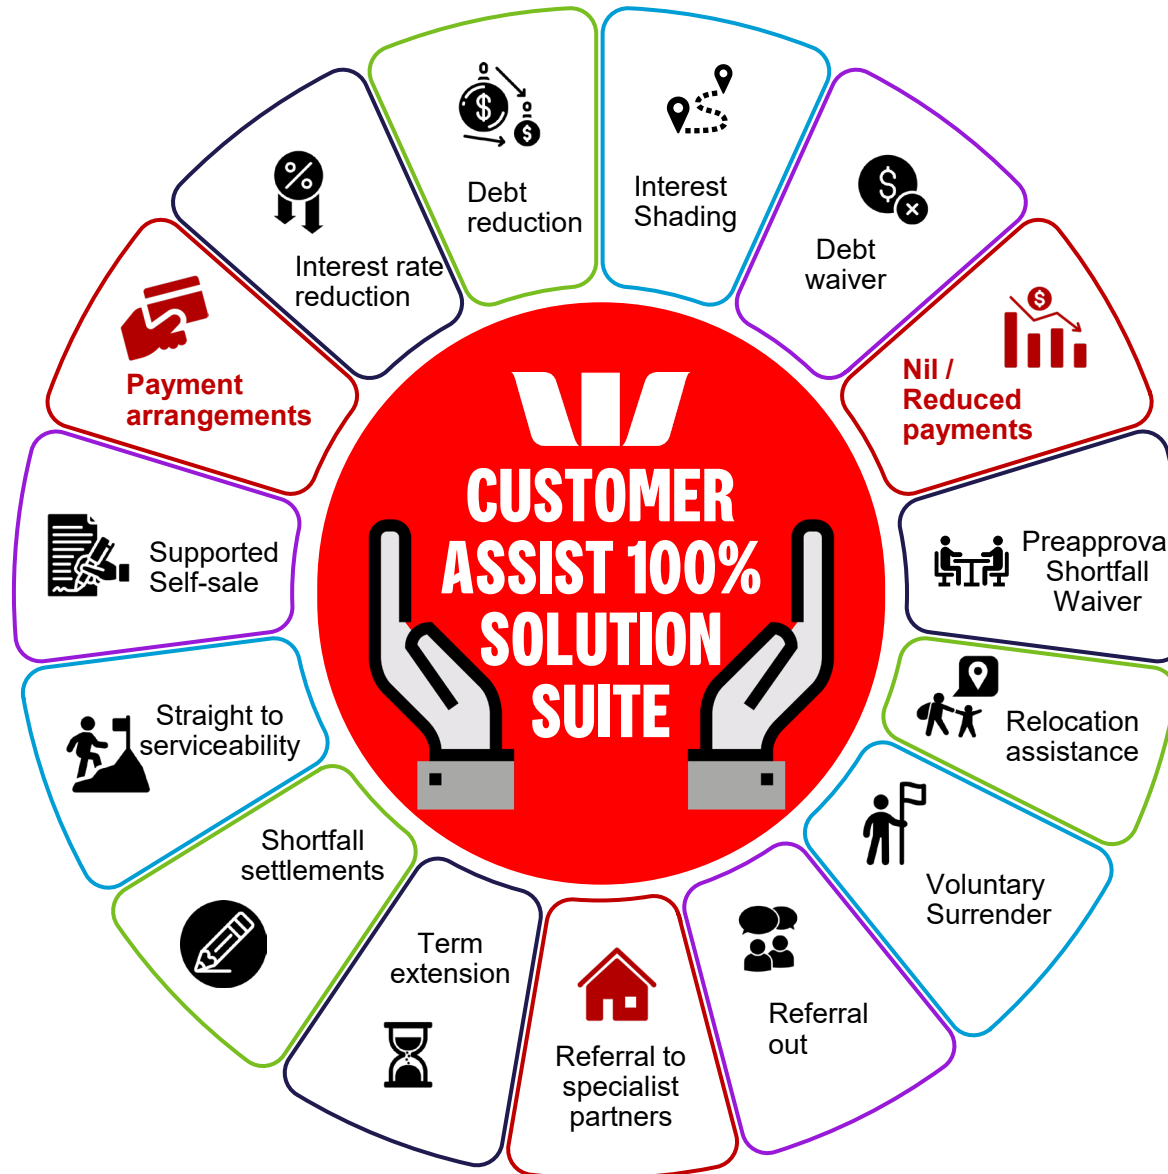

LISA POGONOSKI

**General Manager, Customer
Solutions**

100% SOLUTION MODEL TO SUPPORT CUSTOMERS

No matter what the circumstances, Assist have a solution to support

SUPPORTING CUSTOMERS THROUGH HARDSHIP

Customer case study

Andrew

UNEMPLOYED

NO FAMILY LOCALLY

SOUTH AUSTRALIA

75% EQUITY

Approach

Dedicated case manager, Sam

- Initially provided Andrew with long-term payment arrangements and periods of forbearance
- Further options provided including refinance, voluntary surrendering the property or self-sale
- After decision made to sell the property, we supported Andrew to renovate property
- Property sold 10 days after being listed
- Andrew used proceeds to clear debt and buy another home, two streets from his favourite beach

DISCLAIMER

DISCLAIMER

The information in this presentation is intended to be general information about Westpac Banking Corporation (Westpac) and its activities as at the date of this presentation. Full details on our sustainability strategies, commitments, targets and other supporting information is contained in our 2023 Annual Report and 2023 Climate Report.

It is given in summary form and is therefore not necessarily complete. It is not intended that it be relied upon as advice to investors or potential investors, who should be seeking independent professional advice depending on their specific investment objectives, financial situation or particular needs. The material contained in this presentation may include information, including, without limitation, methodologies, modelling, scenarios, reports, benchmarks, standards, tools, metrics and data, derived from publicly available or government or industry sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information.

This presentation contains statements that constitute “forward-looking statements” within the meaning of Section 21E of the US Securities Exchange Act of 1934. Forward-looking statements are statements about matters that are not historical facts. Forward-looking statements and metrics appear in a number of places in this presentation and include statements regarding our current intent, belief or expectations with respect to our business and operations, macro and micro economic and market conditions, results of operations and financial condition, capital adequacy and risk management, including without limitation, climate change, net-zero, emissions intensity and other sustainability related statements, commitments and targets, projections, scenarios, risk and opportunity assessments, pathways, forecasts and metrics, forecasted economic indicators and performance metric outcomes, financial support to certain borrowers, indicative drivers, estimated emissions and other proxy data. These are subject to known and unknown risks, and there are significant uncertainties, limitations, risks and assumptions in the metrics and modelling on which these statements rely. In particular, the metrics, methodologies and data relating to climate and sustainability are rapidly evolving and maturing, including variations in approaches and common standards in estimating and calculating emissions, and uncertainty around future climate- and sustainability-related policy and legislation. There are inherent limits in the current scientific understanding of climate change and its impacts.

Forward-looking statements may also be made by members of Westpac’s management, directors, officers or employees (verbally or in writing) in connection with this presentation. Such statements are subject to the same limitations, uncertainties, assumptions and disclaimers in this presentation.

We use words such as ‘will’, ‘may’, ‘expect’, ‘indicative’, ‘intend’, ‘seek’, ‘would’, ‘should’, ‘could’, ‘continue’, ‘anticipate’, ‘believe’, ‘probability’, ‘risk’, ‘aim’, ‘target’, ‘plan’, ‘estimate’, ‘outlook’, ‘forecast’, ‘goal’, ‘guidance’, ‘ambition’, ‘assumption’, ‘projection’, or other similar words that generally indicate forward-looking statements.

These forward-looking statements reflect our current views as at the date of this presentation with respect to future events and are subject to change, certain risks and uncertainties and assumptions and other factors which are, in many instances, beyond the control of Westpac, its officers, employees, agents and advisors, and have been made based upon management’s current expectations, understandings or beliefs concerning future developments and their potential effect upon us.

Although management currently believes these forward-looking statements have a reasonable basis, there can be no assurance that future developments or performance will be in accordance with our expectations or that the effect of future developments on us will be those anticipated.

Actual results, performance, conditions, circumstances or the ability to meet commitments and targets could differ materially from those we expect or are expressed or implied in such statements, depending on various factors, including without limitation significant uncertainties in climate change and sustainability related metrics and modelling as well as further development of methodologies, reporting or other standards which could impact metrics, data and targets.

There are usually differences between forecast and actual results because events and actual circumstances frequently do not occur as forecast and their differences may be material. Factors that may impact on the forward-looking statements made include, but are not limited to, those described in this presentation and in the section titled ‘Risk factors’ in Westpac’s 2023 Annual Report available at www.westpac.com.au. Investors should not place undue reliance on forward-looking statements and statements of expectation, including targets, particularly in light of the current economic climate and the significant global volatility.

To the maximum extent permitted by law, responsibility for the accuracy or completeness of any forward-looking statements, whether as a result of new information, future events or results or otherwise, is disclaimed. Except as required by law, we assume no obligation to update any forward-looking statements contained in this presentation, whether as a result of new information, future events or otherwise, after the date of this presentation.
