#### Continued growth in profitability driven by the evolution toward Platform-Based business

Kogan.com Limited (the Company; the Business; Kogan.com; ASX: KGN) is pleased to announce sustained strong profitability through the first half of FY24. The Company provides the following update which, where applicable, is based on unaudited management accounts as at 31 December 2023. The update compares the 1HFY24 to 1HFY23:

- **Gross Sales** of \$445.4 million reflects a decline of 5.6% YoY following optimisations to our quality of Revenue and focus on Platform-based Sales<sup>4</sup>, which resulted in a significant reduction in inventories YoY. The reduction in inventories has been discussed at length in recent announcements made by the Company, and follows the Company's plan to evolve into a more capital-light business.
- **Gross Profit** of \$89.5 million increased 42.1% YoY, driven by an improving Gross Margin.
- **Gross Margin** of 36.0% improved 13.2pp YoY, underpinned by a growing proportion of Platform-based Sales<sup>4</sup> and improved profitability of in-warehouse inventory sales after the prior sell-through of excess inventory.
- **Platform-based Sales<sup>4</sup>** contribution for Kogan.com (excluding Mighty Ape) grew to 62.8% of Gross Sales (see Figure 1). A key contributor to the growth has been the new Kogan.com Advertising Platform, which delivered over \$1.3 million in Advertising Revenue in the half.
- **Group Active Customers** were 2,744,000 as at 31 December 2023 consisting of 2,026,000 for Kogan.com and 718,000 for Mighty Ape.
- **Kogan FIRST Subscribers<sup>2</sup>** totalled over 466,000 as at 31 December 2023, compared to over 404,000 as at 31 December 2022.
- **Mighty Ape Primate Subscribers<sup>5</sup>** totalled over 24,000 as at 31 December 2023, compared to over 16,000 as at 31 December 2022.
- The Group returned to strong sustained profitability:
  - **Adjusted EBITDA<sup>6</sup>** was \$21.5 million in 1HFY24 compared to \$(4.4) million in 1HFY23, and EBITDA was \$19.3 million in 1HFY24 compared to \$(23.0) million in 1HFY23.

- The Company's Balance Sheet strengthened further, underpinned by:
  - **Cash** totalling \$83.3 million as at 31 December 2023 with no external debt, compared to net cash (after loans & borrowings) of \$74.0 million as at 31 December 2022. This result was achieved after investing over \$28.0 million under the Company's share buy-back program and completion of the Mighty Ape tranche 4 payment (being the final tranche) of \$10.9 million, over the past 12 months.
  - **Inventories** totalling \$68.2 million as at 31 December 2023, comprising \$58.1 million in-warehouse and \$10.1 million in-transit. The inventory balance represents a reduction YoY of 30.6% and demonstrates the continuing shift to a more capital-light business model.
