The inclusion of operating earnings as a measure of Charter Hall Retail REIT's (the REIT) profitability provides investors with the same basis that is used internally for evaluating operating segment performance. Operating earnings is used by the Board to make strategic decisions and as a guide to assessing an appropriate distribution to declare. A reconciliation of the REIT's statutory profit/(loss) to operating earnings is provided in Note A1 of the financial statements.

- (\$82.8) million – Revaluation increment on investment properties\*;
- (\$8.8) million – Straightlining of rental income and amortisation of fitout incentives\*; and
- (\$28.5) million – Net loss on derivative financial instruments\*.

\* Includes the REIT's proportionate share of non-operating items of equity accounted investments on a look through basis.
