About Xero

Xero is a global small business platform with 4.2 million subscribers. Xero's smart tools help small businesses and their advisors to manage core accounting functions like tax and bank reconciliation, and complete other important small business tasks like payroll and payments. Xero's extensive ecosystem of connected apps and connections to banks and other financial institutions provide a range of solutions from within Xero's open platform to help small businesses run their business and manage their finances more efficiently.

IMPORTANT NOTICE

This presentation is given on behalf of Xero Limited (Xero) (ASX:XRO) (Company number NZ 183 0488, ARBN 160 661 183) Information in this presentation:

- is for general information purposes only, and is not an offer or invitation for subscription, or purchase of, or a recommendation to invest in, Xero securities
 - should be read in conjunction with, and is subject to, Xero's latest and prior interim and annual reports, including Xero's annual report for the period ended 31 March 2024, and Xero's market releases on the ASX
 - includes forward-looking statements about Xero and the environment in which Xero operates, which are subject to uncertainties and contingencies outside of Xero's control — Xero's actual results or performance may differ materially from these statements

- includes statements relating to past performance, which should not be regarded as a reliable indicator of future performance
- may contain information from third parties believed to be reliable, but no representations or warranties are made as to the accuracy or completeness of such information
- includes Non-GAAP measures as we believe they provide useful information for readers to assist in understanding Xero's financial performance. Non-GAAP financial measures do not have a standardised meaning and should not be viewed in isolation or considered as substitutes for measures reported in accordance with NZ IFRS. These measures have not been independently audited or reviewed

All information in this presentation is current at 31 March 2024, unless otherwise stated.

All currency amounts are in NZ dollars, unless otherwise stated.

Due to rounding, numbers in this presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

See page 44 for a glossary of the key terms used in this presentation.

INTRODUCTION AND SUMMARY OF RESULTS

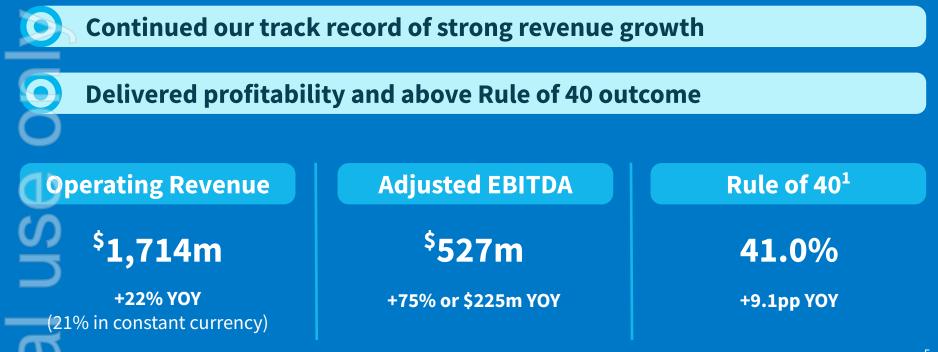

SUKHINDER SINGH CASSIDY CHIEF EXECUTIVE OFFICER

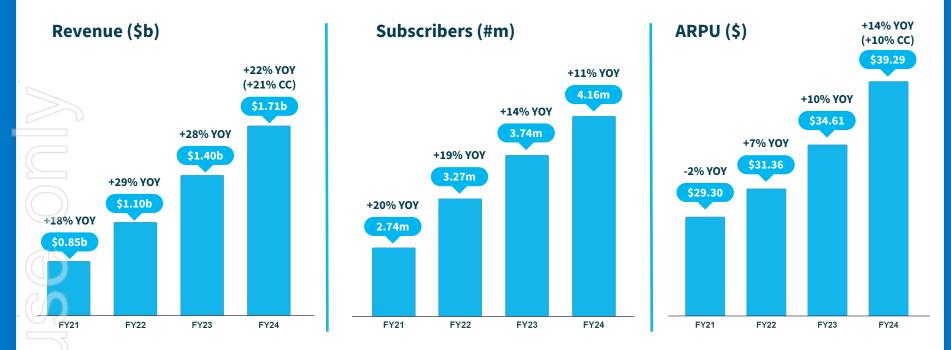

FY24 results demonstrated our ability to execute towards our future aspirations

Continued our track record of strong revenue growth

Delivered revenue growth balanced between subscribers and ARPU

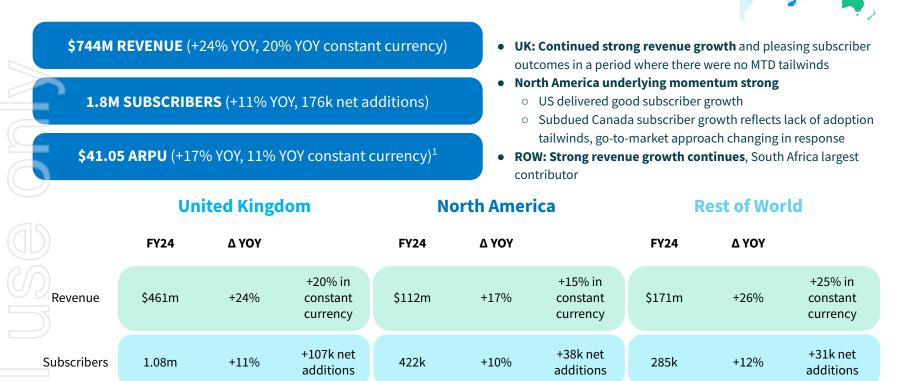

Strong revenue growth performance in ANZ

\$970M I	REVENUE (+	22% YOY, 229	% YOY constar		 Australia: Continued strong revenue growth Strong growth delivered with a better balance between 				
2.38	ERS (+11% Y	OY, 243k net a	0	 subscribers and ARPU, reflecting the value of our produ Successful Single Client Record rollout 					
\$37.9	7 ARPU (+11	.% YOY, 9% Y	′OY constant c	urrency) ¹			y penetrated market still delivering d h and pleasing subscriber growth		
		Australia		N	l <mark>ew Zeala</mark> r	nd			
	FY24	Δ ΥΟΥ		FY24	Δ ΥΟΥ				
Revenue	\$770m	+23%	+24% in constant currency	\$200m	+15%	+15% in constant currency			
Subscribers	1.77m	+13%	+205k net additions	605k	+7%	+38k net additions			

1. Price changes for Australia and New Zealand Business Editions (BE) were effective from September 2023 and Partner Edition (PE) changes were effective in March 2024. Australian BE and PE price change announcements made in May 2024 will be effective from July 2024 and did not impact FY24 performance metrics

XEROC<mark>O</mark>N SYDNEY

Revenue growth momentum continues in International markets

1. Business Edition (BE) price changes effective September 2023 in the UK, October 2023 in North America and November 2023 in Rest of World. Partner Edition (PE) price changes were effective March 2024

XEROCON

LONDON

2024

XEROCON

2024

NASHVILLE

FY24 investment in product to support future growth

Step change in product velocity delivered in FY24, with development tightly aligned to the 3x3, while modernising

Accounting

Boosted US direct bank feed quality and coverage, **increasing from ~20 to over 600 direct feeds**¹

Increased the number of banks available to use with **Hubdoc bank statement extraction** in the US

Enhanced UK Xero Tax & launched tax manager

Payroll

Streamlined setup and onboarding processes globally

Significant improvements in UK to support migration, non-traditional work hours and pensions

Modernised Payroll monolith, removing ~50% of code which was unused

Payments

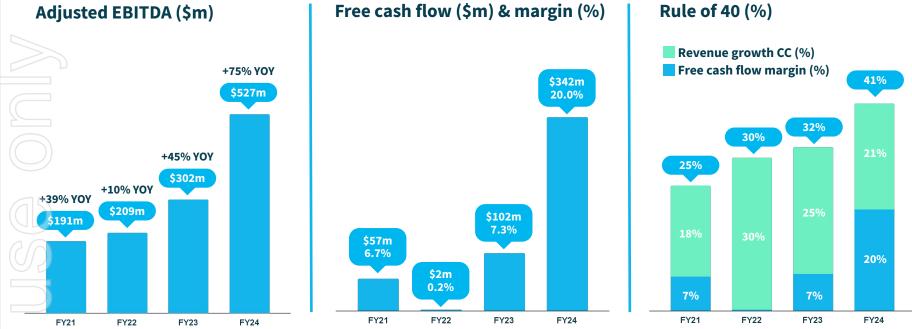

Announced partnership with Bill for embedded bill pay capabilities for US customers

Removed friction and streamlined processes for onboarding into Xero payments

Launched Bill pay and elnvoicing in the UK

Delivered a Rule of 40 outcome; in line with commitment to balance growth with profitability

1. Rule of 40 is defined as the sum of annual Revenue growth percentage in constant currency and annual Free cash flow margin percentage (Free cash flow as a percentage of revenue)

Evolving towards a more performance and purpose-based culture

FINANCIAL RESULTS

KIRSTY GODFREY-BILLY CHIEF FINANCIAL OFFICER

xero

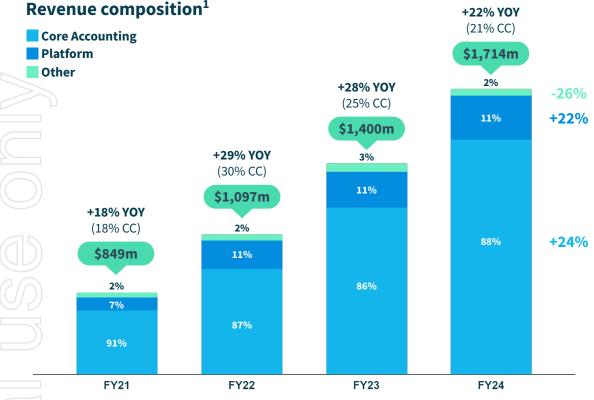

Outcomes consistent with balancing growth and profitability

Key metrics that measure our success

	1ue growth (CC) FY24: 21.0%		FCF margin FY24: 20.0%				
ARPU Net subscriber additions		OPEX ratio		Revenue / FTE			
FY24: \$39.29 +10% CC YOY	FY24: 419k +11% YOY	FY24: 73.3% -7.4pp YOY ¹	FY24: 6.2 -0.3 YOY	FY24: \$395k² +39%			
Increased value for customers through product delivery	Grew customer base in line with focus on primary customer segments	Continued to invest in a measured and purposeful way	Delivered sustainable long-term value via low churn and high gross margin	Ensuring a higher- performing culture flows through to top-line metrics efficiently			

T. Excluding the impact of \$34.7m of restructuring costs in FY23 2. Calculated on a trailing 12 month average FTE basis

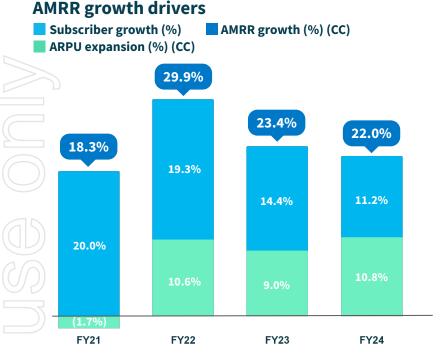

Broad based revenue growth across our portfolio

- **Group operating revenue** grew 22% YOY or 21% in constant currency
- **Core accounting revenues** grew 24% YOY or 23% in constant currency, driven by subscriber growth and price changes
- **Platform revenues** increased by 22% YOY or 18% in constant currency²
- Other revenues decreased 26% YOY, due to lower Xerocon revenue (one event held in FY24 vs three in FY23)

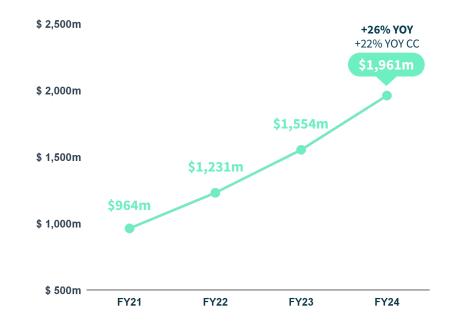

1. May not add through due to rounding 2. Platform revenues impacted by exit of Waddle in H2 FY24

Continued strong top-line momentum with more balance between ARPU and subscriber growth

AMRR growth in FY24 was balanced between subscriber additions and ARPU expansion

AMRR (\$m)

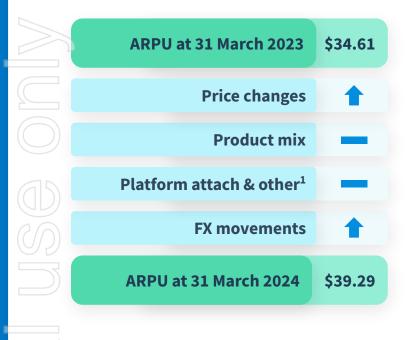

Growth in AMRR of \$407.6m or 26% YOY (22% in constant currency) reflects subscriber growth of 11%, and ARPU expansion of 14% YOY

Strong ARPU expansion, churn remains low

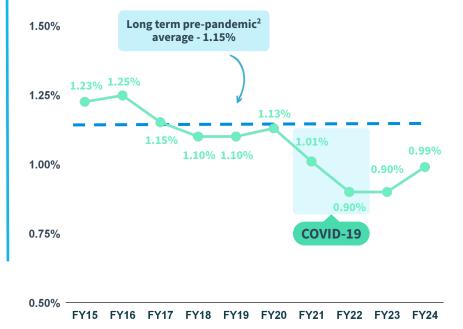

ARPU movement contributors

ARPU has increased \$4.68 since 31 March 2023

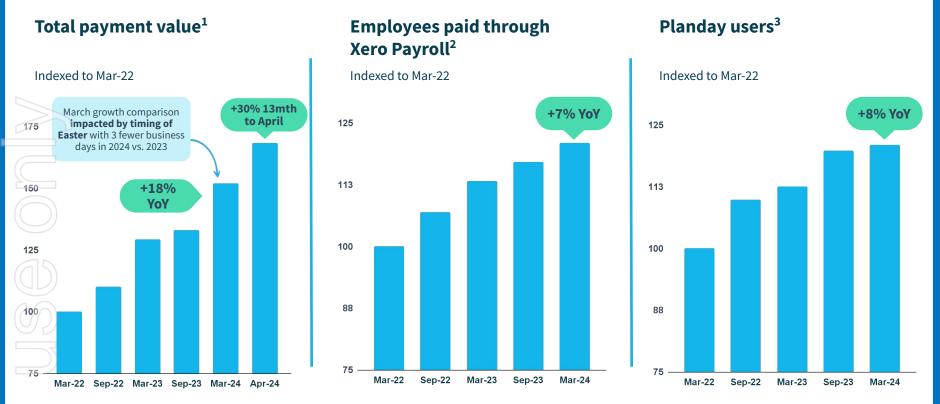

MRR churn (%)

Churn is reported on a percentage of monthly recurring revenue basis. It has remained below pre pandemic levels

1. Other includes platform revenues such as Payments, Payroll, Planday and other items 2. Average calculated as MRR churn for the period FY16 - FY20

ARPU drivers: Deep dive on platform revenue drivers

1. Total invoice payment value across our connected online payment service providers who process the payment of invoices on the Xero platform

-2. Total employees paid through Xero Payroll in Australia, New Zealand and the UK (markets with a Xero Payroll solution)

3. Average employee users of Planday

ARPU drivers: Mix in FY25 to be impacted by long idle subscriptions

Removal of long idle subscribers

- Identified pool of long idle subscribers¹ now estimated at between 125k - 175k. The majority are located in the international segment with:
 - 55k 75k located in North America
 - 40k 60k located in the UK
 - The remainder located in Australia and the Rest of World segments (none are located in New Zealand)

Xero plans to **remove these subscriptions** in H1 FY25. We expect their removal to have minimal impact on FY25 revenue

Based on the midpoint of this range as at 31 March 2024 if these subscribers were removed **group ARPU would increase approximately 2-4%**

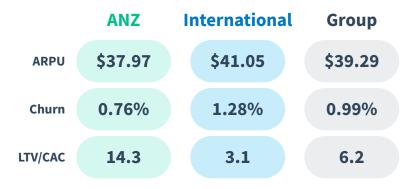

Long idle subscriptions are those that have been undeployed for more than 24 months, and that are not expected to be deployed in a reasonable timeframe

LTV expansion & LTV/CAC demonstrate consistent macro resilient value creation

Total LTV over time

- LTV 3 year CAGR 22% for ANZ and 38% for International
- Average subscriber lifetime of 8.5 years +2.1b added YOY \$ 18.0b ANZ \$15.5b International \$13.4b \$ 13.5b \$10.9b \$7.6b \$ 9.0b \$ 4.5b **FY21 FY22 FY23 FY24**

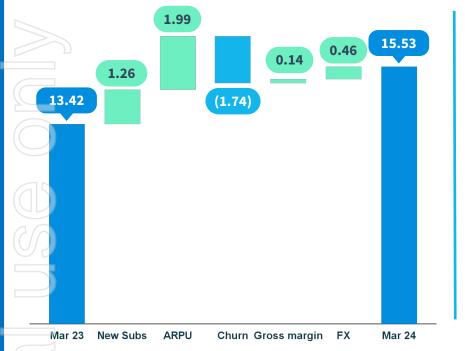

Continued uplift in lifetime value of subscribers

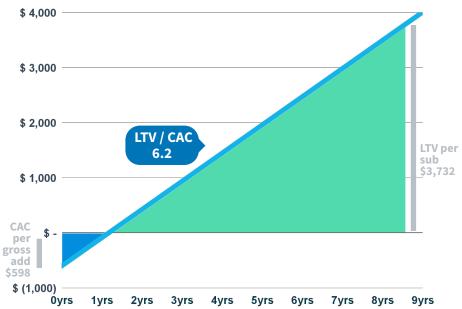

LTV movements by driver (\$b)

From 31 March 2023 to 31 March 2024

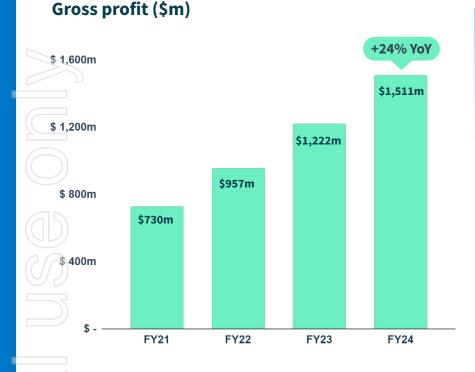

Value of a Xero subscriber

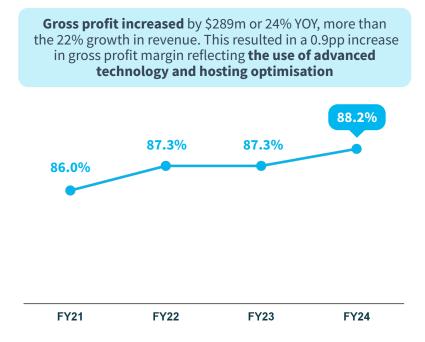

At 31 March 2024

Cost to serve well managed, margins improved

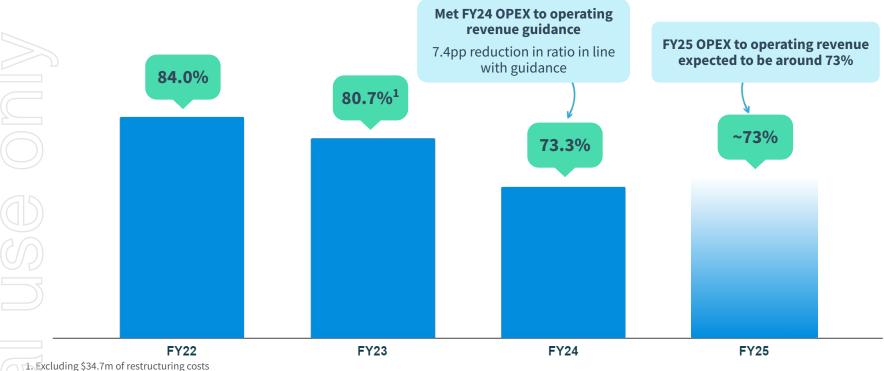

Gross margin (%)

Reinvesting in line with our FY25-27 strategy to support revenue growth

Operating expenses as a % of operating revenue

22

Restructure improved efficiency across all functions

Sales & marketing as a % of revenue

Sales and marketing costs increased by 15% YOY which was lower than the growth in operating revenue. This resulted in a 2.1pp improvement in CAC as a percentage of revenue. Excluding Xerocon, this ratio falls to 31.2% of revenue

Product design & development as a % of revenue

Product design and development costs increased 7% YOY, lower than the growth in operating revenue in FY24. This resulted in a 4.3pp improvement in these costs as a percentage of revenue YOY. This was largely due to our restructure and reshaping of our organisation in FY24

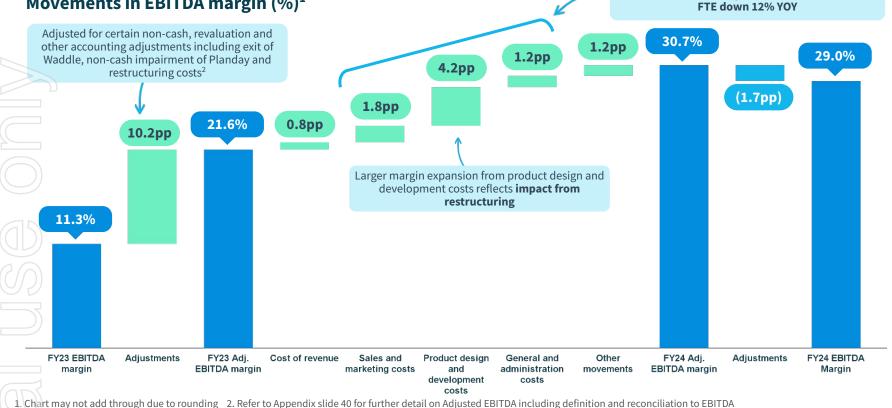

General & administration as a % of revenue

General and administration costs increased by 10% YOY which was lower than the growth in operating revenue in FY24. This resulted in 1.2pp improvement in G&A as a percentage of revenue YOY

Progress on key metrics reflected in Adjusted EBITDA performance Margin expansion across operating expenses reflects

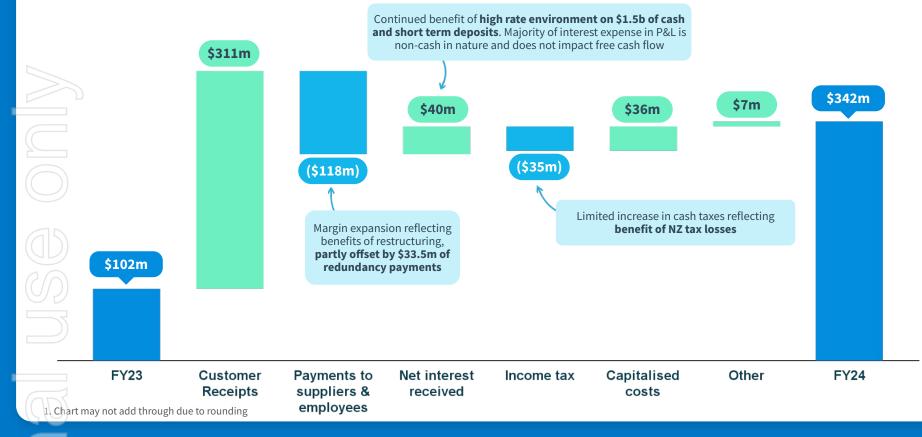

Movements in EBITDA margin (%)¹

benefits of restructuring in early FY24, with average

Strong free cash flow, supporting Rule of 40 outcomes

Movements in free cash flow (\$m)¹

Strong balance sheet with total liquid resources of \$1.5 billion

Movement in net cash position

.

	FY23 (\$000s)	FY24 (\$000s)	Δ ΥΟΥ (\$000s)
h and cash equivalents	230,624	498,791	268,167
Short-term deposits	886,563	1,031,079	144,516
al cash and short-term deposits	1,117,187	1,529,870	412,683
rtible notes - term debt liability	(1,019,794)	(1,107,784)	(87,990)
Net cash	97,393	422,086	324,693

STRATEGIC THEMES

xero

SUKHINDER SINGH CASSIDY CHIEF EXECUTIVE OFFICER

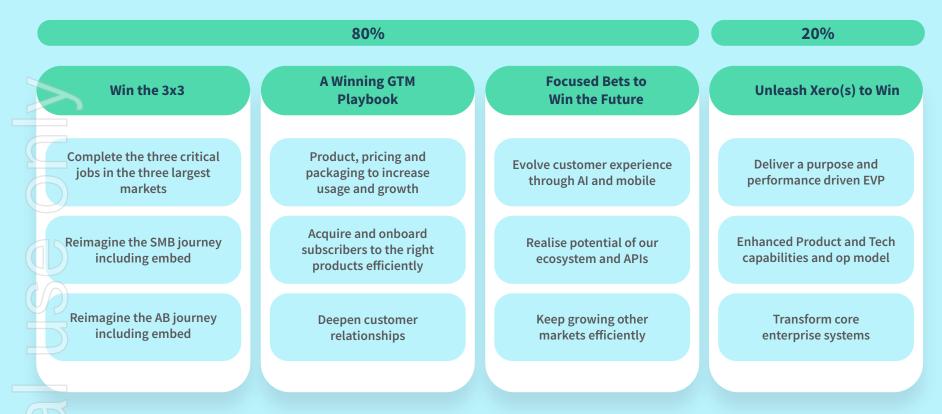

WINNING ON PURPOSE

1. This aspirational opportunity is not guidance nor a prediction of future performance. No timeframe has been set. This is provided as an indication of outcomes which management is currently focused on as part of its strategic ambitions. There are risks and uncertainties in connection with this aspiration, including from events beyond Xero's control. See slide 34 for important additional qualifications and information

Our areas of focus for FY25–27

We continue to progress our strategic priorities & purposefully allocate capital

ncluding a US \$25m equity investment in Deputy

Priority product areas of focus for FY25 aligned to our strategy

Accounting	Strengthen tax capabilities in UK, localise & support core needs in the US, and enhance bulk tools / insights
Payments	Continue to reduce friction for onboarding, increase number of ways to pay and launch on platform Bill pay
Payroll	Enhance employee onboarding and improve capabilities particularly in the UK
Win the Future	Launch JAX Beta and begin trialling with customers

FY25 Outlook

Total operating expenses as a percentage of revenue is expected to be around 73% in FY25, and compared to FY24, product design and development costs as a % of revenue is expected to be higher

Our aspiration¹

We aspire to be a world class SaaS business

We believe we have the opportunity to both double the size of our business² and deliver Rule of 40 or greater performance^{3,4}

> As we grow, we will also seek to be more balanced between subscriber growth and ARPU expansion

1. Xero's aspirational revenue and Rule of 40 performance opportunity statement is not guidance nor a prediction of future performance. No timeframe has been set. It is provided as an indication of outcomes management is currently focused on as part of its strategic ambitions. There are risks and uncertainties in connection with this aspiration, including from events beyond Xero's control

2. Xero FY23 revenue was \$1,400m, and H1 FY24 revenue (annualised on a straight line basis) is \$1,599m

3. Rule of 40 is defined as the sum of annual Revenue growth percentage in constant currency and annual Free cash flow margin percentage (Free cash flow as a percentage of revenue)

4. Rule of 40 outcomes, and the component parts may vary from period to period as we identify opportunities for disciplined customer focused growth and experience changes in our cash tax payment profile. Xero is likely to exhaust its accumulated NZ tax losses during the FY25-27 strategic period. Xero's remaining NZ losses balance was ~\$193m at 31 March 2024

Wrap up of FY24 Key Themes

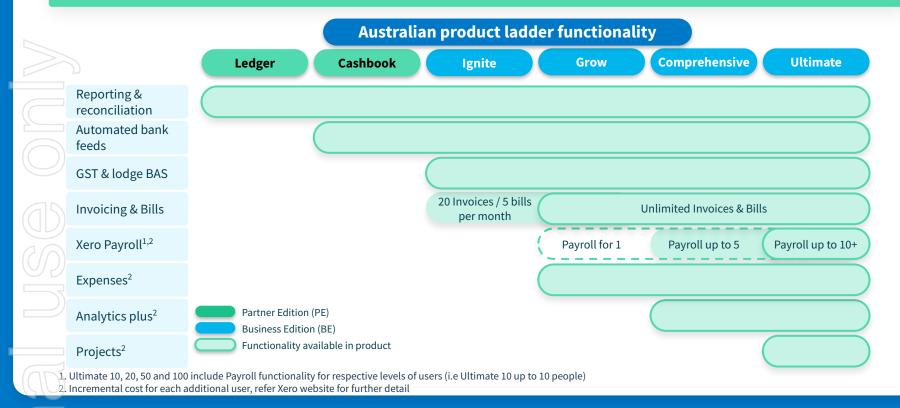

APPENDIX

xero

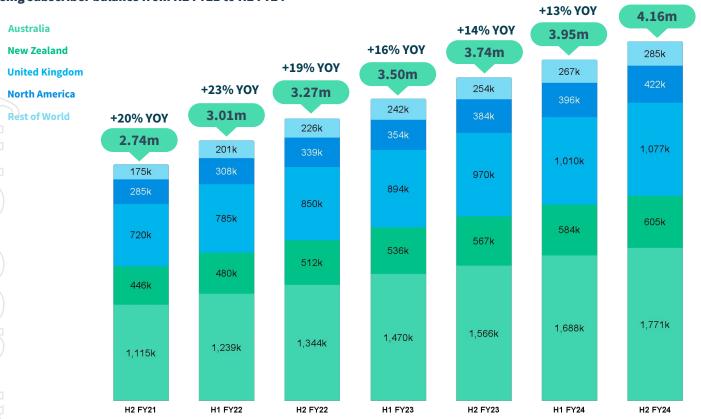

New Australian product ladder supports our multiple growth levers

Changes will **better enable Xero to get customers on the right product at the right time** Migration to the new ladder will **provide better functionality** and value to customers

Subscriber growth trend

Closing subscriber balance from H2 FY21 to H2 FY24

+11% YOY

Glossary

Adjusted EBITDA

Adjusted EBITDA (a non-GAAP financial measure) is provided as Xero believes it provides useful information for users to understand and analyse the underlying business performance. Adjusted EBITDA is calculated by adding back net finance expense, depreciation and amortisation, and income tax expense, as well as certain non-cash, revaluation and other accounting adjustments and charges to net profit/(loss)

AMRR

Annualised monthly recurring revenue (AMRR) represents monthly recurring revenue at 31 March, multiplied by 12.

It provides a 12 month forward view of revenue, assuming any promotions have ended and other factors such as subscriber numbers, transaction volumes, pricing and foreign exchange remain unchanged during the year

ARPU

Average revenue per user (ARPU) is calculated as AMRR at 31 March divided by subscribers at that time (and divided by 12 to get a monthly view)

CAC months

Customer Acquisition Cost (CAC) months are the months of ARPU to recover the cost of acquiring each new subscriber. The calculation represents the sales and marketing costs for the year, excluding the capitalisation and amortisation of contract acquisition costs, less Xerocon revenue, divided by gross new subscribers added during the same period, divided by ARPU

CAGR Compound annual growth rate

Churn

Churn is the value of monthly recurring revenue (MRR) from subscribers who leave Xero in a month as a percentage of the total MRR at the start of that month. The percentage provided is the average of the monthly churn for the previous 12 months. Average subscriber lifetime is calculated as one divided by churn

Constant currency (cc)

Constant currency comparisons for revenue are based on average exchange rates for the 12 months ended 31 March 2024. Comparisons for ARPU, AMRR and LTV are based on exchange rates at 31 March 2024

Core accounting revenue

Core accounting revenue comprises subscription based revenue to Xero's cloud-based platform, including any revenue for products that are bundled into subscription plans (such as Hubdoc and Payroll in some regions)

Free cash flow

Free cash flow is defined as cash flows from operating activities less cash flows used for investing activities excluding cash used for acquisitions of, and investments into, businesses and strategic assets

GAAP

Generally accepted accounting principles

Lifetime value (LTV)

LTV is the gross margin expected from a subscriber over the lifetime of that subscriber. This is calculated by taking the average subscriber lifetime (1 divided by churn) multiplied by ARPU, multiplied by the gross margin percentage. Group LTV is calculated as the sum of the individual segment LTVs, multiplied by their respective segment subscribers, divided by total Group subscribers

Liquid resources

Liquid resources comprises cash and cash equivalents, short-term deposits including proceeds from convertible notes, and undrawn committed debt facilities

Operating income

Operating income is a non-GAAP financial measure that has been included to demonstrate the operating performance of the business. Xero defines operating income as total operating revenue less cost of revenue less total operating expenses

Other revenue

Other revenues comprises non-recurring revenues and WorkflowMax. Non-recurring revenues include revenue from events (such as Xerocons and roadshows), and other non-subscription or platform services. WorkflowMax is online workflow and job management software

Platform revenue

Platform revenues include revenue derived from related services, including adjacent products (such as Hubdoc subscriptions on other accounting platforms) and add-ons with incremental revenue (such as Payroll, Projects and Expenses modules), and payments and revenue share agreements with partners

Rule of 40

Rule of 40 is defined as the sum of annual Revenue growth percentage in constant currency and annual Free cash flow margin percentage (Free cash flow as a percentage of revenue)

Subscribers

Subscriber means each unique subscription to a Xero-offered product that is purchased by a user (eg a small business or accounting partner) and which is, or is available to be, deployed. Subscribers that have multiple subscriptions to integrated products on the Xero platform are counted as a single subscriber
