In July, Magellan experienced net outflows of \$0.1 billion, which included net retail outflows of \$1.0 billion and net institutional inflows of \$0.9 billion.

Retail outflows for July include \$0.8 billion of net redemptions from Magellan Global Fund that followed the conversion of Closed Class Units to Open Class Units on 22 July 2024. Most of these redemptions were from specialist investors that purchased Closed Class Units at a discount to net asset value. We expect a further \$0.2 billion in redemptions from specialist investors in August.
