Execution of Scheme Implementation Deed

Platinum Asia Investments Limited (ASX:PAI) (**Company**) is pleased to announce that it has entered into a scheme implementation deed with Platinum Investment Management Limited (ACN 063 565 006) in its personal capacity, as responsible entity of Platinum Asia Fund (Quoted Managed Hedge Fund) (ASX: PAXX) (**Fund**) and as responsible entity of Platinum Asia Fund (**Underlying Fund**) to undertake a scheme of arrangement (**Scheme**) conditional upon shareholder and Court approvals.

The Fund is an existing actively managed ETF whose units are quoted on the ASX, that is a “feeder fund”, primarily investing into the Underlying Fund. Platinum manages the investment portfolios of the Company, the Fund and the Underlying Fund, employing the same Asian equity (ex-Japan) investment strategy.

The Scheme Implementation Deed is the first formal step to give effect to the proposed Scheme. An executed copy of this deed accompanies this announcement.

The Scheme, if implemented, will have the following key implications:

1. the Company’s shareholders will exchange their ASX listed shares for units in the Fund at a ratio based on the Fund’s net asset value (**NAV**) and the Company’s post tax net tangible assets (**NTA**) (adjusted for all costs associated with the transaction) immediately prior to implementation;
2. the current investment management agreement between the Company and Platinum Investment Management Limited (**Platinum**) will terminate without Platinum claiming, or the Company having to pay, termination fees; and
3. the Company will become wholly owned by the Fund and will be delisted from the ASX. Following implementation of the Scheme, the Company’s investment portfolio will be transferred to the Platinum Asia Fund and the Company will be wound up.

Rationale for the Scheme

Over the last few years, the Company’s shares have frequently traded at a discount to its NTA.

We announced on 26 April 2024 that we would undertake a formal review of options available to maximise value for shareholders as a whole. Our primary objective was to address the share price discount to NTA issue. A number of proposals were considered during our review, including a proposal from Platinum to undertake the Scheme.

Ultimately, with the assistance of an independent corporate adviser, we determined that the Scheme was the most appropriate solution for shareholders to permanently address the Company’s share price trading at a discount to its NTA.

Notably, if implemented, the Scheme will enable shareholders to:

- continue to access the same Asian (ex-Japan) investment strategy via an ASX quoted vehicle managed by Platinum, with the same benchmark and objective as the Company; and
- exchange their shares for a security (i.e. units in the Fund) that will typically trade, and can be sold at, close to the NAV of the underlying investments.

In this way, the Scheme provides choice and flexibility for shareholders as it facilitates both liquidity (i.e. allows for an exit at a price close to NAV) and enables shareholders to maintain an ongoing exposure to Platinum's strategy via units with prices trading at close to NAV.

Further, Platinum agreeing to not seek termination fees in respect of the termination of the Company's investment management agreement under the Scheme, has facilitated the Scheme as a simple and relatively low-cost solution for shareholders.

Scheme Consideration

Under the Scheme, shareholders will receive units with an aggregate value equal to the post-tax NTA (adjusted for transaction costs) value of their shares (subject to rounding).

To ensure shareholders are able to receive appropriate value for their investment under the Scheme, the number of new units to be issued as consideration is not fixed.

The consideration will be calculated using the Fund's NAV and the Company's post-tax NTA (adjusted for transaction costs) on the last business day before the Scheme is implemented. The Scheme Implementation Deed requires that entitlements to the Scheme consideration be calculated over a weekend, so that consideration can be issued before markets open on the Implementation Date.

The Scheme Implementation Deed

The Scheme Implementation Deed (released with this announcement) sets out the terms and conditions on which the Scheme will be implemented. It contains customary conditions precedent (such as obtaining shareholder and court approvals) and customary exclusivity arrangements (including 'no shop', 'no talk' and 'no due diligence') which will apply in respect of the Company until an end date (currently 30 June 2025).

The Board unanimously recommends the Scheme

The Board considers the Scheme to be in the best interests of shareholders and recommends that it is approved at the Scheme meeting (in each case, in the absence of a superior proposal and subject to an independent expert concluding that the Scheme is in the best interests of shareholders).

Next steps

Shareholders are not required to take any action at this time.

Shareholders will receive full details of the Scheme in the Scheme booklet, which is expected to be circulated to all shareholders before the end of this calendar year.

The Scheme booklet will include a notice convening the Scheme meeting, the reasons for the Board's recommendation that shareholders vote in favour of the Scheme, a general outline of

the taxation implications of the Scheme and an opinion from an independent expert as to whether the Scheme is in the best interests of shareholders.

SCHEDULE 3 SCHEME CONSIDERATION

The Scheme Consideration to be issued to each Scheme Participant or, in respect of the Scheme Participants who are Ineligible Shareholders, the Nominee, is calculated as follows:

$$SC = \left(\frac{NTA}{NAV} \right) \times S$$

Where:

NAV means the net asset value of the Fund on the Valuation Date, calculated on a per Unit basis by the Fund's administrator in accordance with the Fund's constitution.

NTA means the post tax net tangible asset value of the Company on the Valuation Date less the Retention Amount (if any), calculated on a per Share basis in accordance with the Corporations Act, Australian Accounting Standards (including the Australian Accounting Interpretations), the Corporations Regulations and consistent with the requirements of the Listing Rules.

S means:

- (i) In respect of a Scheme Participant that is not an Ineligible Shareholder, the number of Scheme Shares held by that Scheme Participant;
- (ii) In respect of the Nominee, the total number of Scheme Shares held by Scheme Participants that are Ineligible Shareholders.

SC means the number of New Units in the Fund to be issued as Scheme Consideration to a Scheme Participant or the Nominee, in respect of all Ineligible Shareholders, rounded up or down in accordance in accordance with the Scheme.

Retention Amount means the reasonable amount agreed by the Company and the Responsible Entity (acting reasonably and in good faith), that is to be retained by the Company to cover all reasonable expenses associated with the Transaction which, as at the Valuation Date, have not been paid and are not liabilities of the Company or otherwise accounted for in the NTA, including but not limited to the Company's winding up costs.

Valuation Date means the Business Day prior to the Implementation Date, or such other date as the Company and the Responsible Entity agree in writing.
