## Introduction

Bank of Queensland (**Bank** or **BOQ**) is an Authorised Deposit-taking Institution (**ADI**) regulated by the Australian Prudential Regulation Authority (**APRA**) under the authority of the *Banking Act 1959*.

This report has been prepared by BOQ to meet its disclosure requirements set out in APRA's prudential standard APS 330 'Public Disclosure' (**APS 330**). It presents information on the Bank's capital adequacy, credit risk, securitisation exposures and liquidity coverage ratio.

In addition to this report, the Bank's main features of capital instruments are updated on an ongoing basis and are available at the Regulatory Disclosures section of the Bank's website at the following address: [https://www.boq.com.au/regulatory\\_disclosures](https://www.boq.com.au/regulatory_disclosures).

### Key Points

The Bank's capital management aims to ensure adequate capital levels are maintained to protect deposit holders. The Bank's capital is measured and managed in line with Prudential Standards issued by APRA. The Bank's Internal Capital Adequacy Assessment Process (**ICAAP**) provides the framework to ensure that the Bank is capitalised to meet internal capital targets and APRA's requirements. The ICAAP is reviewed regularly and submitted to the Board annually for approval.

The Bank's capital position is monitored on a continuous basis and reported monthly to the Asset and Liability Committee and Board.

### Capital Ratios

APRA's revised Basel III capital framework has been effective since 1 January 2023. The Board has determined that BOQ will target to operate within the following management target ranges in normal operating conditions, these are: Common Equity Tier 1 Capital Ratio 10.25-10.75%; Tier 1 Capital Ratio 11.75-12.50% and Total Capital Ratio 13.75-14.50%.

As at 31 August 2024, BOQ's capital ratios are as follows:

- Common Equity Tier 1 Capital Ratio was 10.66% (10.69% as at 31 May 2024);
- Tier 1 Capital Ratio was 12.30% (13.20% as at 31 May 2024); and
- Total Capital Ratio was 14.27% (15.13% as at 31 May 2024).

### Capital Initiatives

The Bank redeemed AUD 350 million BOQPE Additional Tier 1 Capital Notes in August 2024.

## 9. Liquidity Coverage Ratio

APRA requires authorised deposit-taking institutions (**ADI**) to maintain a minimum Liquidity Coverage Ratio (**LCR**) of 100 per cent. The LCR requires an ADI to hold sufficient High Quality Liquid Assets (**HQLA**) to meet net cash outflows (**NCO**) over a 30-day period, under a regulator defined liquidity stress scenario. BOQ manages its LCR on a daily basis with a buffer above the regulatory minimum in line with the BOQ prescribed risk appetite and management ranges.

BOQ maintains a portfolio of high quality, diversified liquid assets to facilitate balance sheet liquidity needs and meet the regulatory minimum, with appropriate additional Board and management buffers set in line with the Group risk appetite. Liquid assets are composed of HQLA (RBA balances, cash, Australian Semi-Government and Commonwealth Government securities). BOQ uses a range of funding instruments including customer deposits, short term and long-term wholesale debt instruments, securitisation and covered bonds, with the objective of lengthening tenor, diversifying funding sources and increasing the stable funding base.

BOQ's average Level 2 LCR over the August 2024 quarter was 145%, which is 2% lower than the previous May 2024 quarter average. On a spot basis, the LCR was between 138% and 161% with the low attributed to wholesale maturities entering the NCO window including \$914m in the Term Funding Facility (TFF). The spot LCR has trended higher over the period due to the \$914m TFF being repaid in June, a retail funding surplus of \$1,124m in the period, and a \$1bn RMBS issuance that settled in August. The average balance of HQLA has increased by \$255m relative to the last quarter.

The average NCOs have increased by \$364m primarily driven by a \$337m increase in retail deposits.

Other contractual funding obligations and other contingent funding obligations increased by \$15m over the quarter primarily due to decreases in loans approved not advanced (which is the major driver of other cash outflows). The other cash inflows decreased over the quarter by \$435m mostly due to a reduction in derivative positions from the prior quarter as a result of the covered bond transactions, there are similar reductions in the outflows related to derivatives exposures and other collateral requirements.

The following table presents detailed information on the ratio composition for the two quarters. 65 data points were used in calculating the average figures for the August 2024 quarter and 63 data points were used in calculating the average figures for the May 2024 quarter.

## 10. Net Stable Funding Ratio

APRA's objective in implementing the Net Stable Funding Ratio (**NSFR**) is to strengthen funding and liquidity resilience. The NSFR encourages ADIs to fund their lending activities with more stable sources of funding, and thereby promoting greater balance sheet resilience.

The NSFR establishes a minimum stable funding requirement based on the liquidity characteristics of the ADI's assets and off-balance sheet activities over a one-year time horizon. The NSFR is defined as the ratio of the amount of Available Stable Funding to the amount of Required Stable Funding. APRA requires ADIs to maintain an NSFR of at least 100%. BOQ manages its NSFR on a daily basis and actively maintains a buffer above the regulatory minimum in line with BOQ's prescribed risk appetite and management ranges.

BOQ's Level 2 NSFR as at 31 August 2024 was 125%, which remained in line with the NSFR as at 31 May 2024. Available Stable Funding increased by \$837m primarily due to an increase in the weighted value of Retail deposits of \$1.5bn, offset by the \$350m convertible note maturity and a weighted \$366m of wholesale deposits. Required Stable Funding increased by \$777m over the quarter due to a \$319m increase in ADI securities purchased and fewer encumbered loans due to the \$914m TFF maturity.
