A number of figures, amounts, percentages, estimates, calculations of value and fractions in this presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this presentation and totals may vary slightly due to rounding.

1. Operating profit before bad & doubtful debts expense and income tax expense
2. Excludes merger related transaction costs
3. Interim dividend of 10.5 cps payable to shareholders (including former eligible Auswide shareholders) on the register at the record date of 5 March 2025

Half year NPAT

Well-managed expenses partially offsetting revenue challenges

- Underlying NPAT steady on IH24; statutory NPAT impacted by merger related transaction costs
- Net interest income up 1.3% as a result of a 1bp fall in average NIM, partially offset by a larger average balance sheet
- Other banking income flat, lending and transaction fees lower (both volume related) and commission revenue higher
- Wealth management income up 6.1% with Investment Services income and Trustee Services income both higher
- Total operating costs increased 5.8% on pcp primarily due to higher personnel and technology costs

1. In IH24 there was no difference in Underlying and Statutory NPAT.
 2. Merger related transaction costs are costs associated with MyState's merger with Auswide.

Operating costs contained in an inflationary environment

- Operating costs (excluding merger transaction costs) increased by 5.8% (\$2.9m) on 1H24, broadly in-line with 1H23
- FTE flat, personnel costs up 6.9% (\$1.5m) reflecting higher salaries and variable based remuneration
- Improved marketing efficiencies supported a 20% (\$0.6m) reduction in marketing spend
- Technology costs up \$2.4m (22%) due to investment in key priorities, including the new mobile and internet banking platform, regulatory and compliance projects and cyber risk initiatives

Operating costs (\$m)

Operating costs breakdown (\$m)

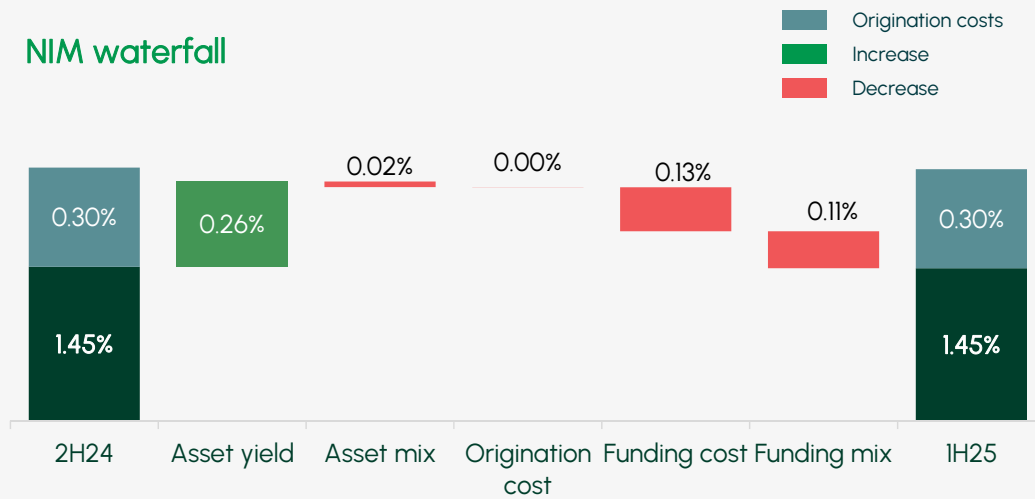

Note: Operating costs are exclusive of all merger related transaction costs

Stable net interest margin

- Net interest margin stable in a challenging environment
- Key themes
 - home loan and deposit price competition
 - deposit switching to higher rate products
 - increase in securitisation funding
 - higher liquid asset holdings
- Exit NIM higher than average NIM for the half

NIM waterfall

Average NIM trend

Quality home loan book

- Home loan portfolio steady at \$8.0b
- Continued focus on low-risk, owner occupied lending with a LVR <80%
- Run-off remains a sector wide challenge driven by fixed rate maturities - rate elevated at 27.8% (26.3% in pcip)
- Continued to actively manage the volume margin tradeoff
- Average days to unconditional approval improved due to automation and other efficiency initiatives
- Portfolio LVR of 55.0% at 31 December 2024
- Arrears remain below industry average with 90+ days stable at 44 bps

Home loan book – applications and settlements (\$b)

Home loan book LVR profile (\$b)

90+ days S&P arrears data

Diversified funding mix

- Customer deposit ratio improved to 69.7% since 30 June 2024
 - growth in transaction account and offset account balances
 - growth in term deposits included some product switching from variable savings
- Securitisation remains an important source of funding and provides additional capital flexibility
- Largest MyState RMBS deal in October 2024 (\$600m) provided flexibility to run-off more price sensitive deposits

Funding mix (%)

Customer deposits (\$b)

Strong capital position

- MyState remains well capitalised with the total capital ratio up 60 bps to 17.02%
- During the half, capital relief term RMBS and warehouse drawdowns were completed
- Interim dividend supported by the organic generation of capital
- Strong capital position provides flexibility to further invest in key initiatives including lending growth

Interim dividend in line with key merger principles

- MYS Dividend Policy targets a payout ratio in the range of 60 – 80% of MYS NPAT
- Key factors the Board considered in determining the 1H25 dividend of 10.5 cps were:
 - ✓ MyState's strong capital position
 - ✓ MergeCo Underlying pro forma earnings (which includes 1H25 Auswide earnings inherent in the acquisition balance sheet)
 - ✓ MyState merger related transaction costs of c. \$1.6m (earnings per share impact equating to c. 1.0 cps)
 - ✓ the spirit of a "merger of equals" and the agreed merger exchange ratio
- DRP to be activated at a discount of 1.5%

Dividend	MYS Statutory	MYS Underlying	MergeCo Statutory Pro forma	MergeCo Underlying Pro forma
10.5 cps	111%	101%	97%	77%

TPT Wealth providing income diversification

- TPT provided \$7.2m in fee revenue (up 5.4% on pcp) and income diversification for the Group
- Improved operating efficiency with the cost to income ratio improving by 126 bps on pcp to 77.3%. Expenses were 4.3% higher than pcp
- Despite improved investment returns across the Cash and Income funds, FUM has fallen primarily due to the finalisation of some large estates in 1H25

3. Excludes impacts of merger related transaction costs.

Improved home lending diversification

The merger with Auswide further diversifies the home loan book across the eastern seaboard

31 December 2024 home loan geographic distribution (%)

Significant shareholder value creation

The transaction is expected to yield annual pre-tax cost synergies of \$20m - \$25m achieved over a three-year period.

Indicative synergy breakdown

 Governance & people	c. \$12-15m
 Technology	c. \$6-7m
 Other	c. \$2-3m

Pre-tax synergy run-rate benefits of \$20m to \$25m

- Committed to a cohesive integration, leveraging the strengths of both organisations
- Governance & people synergies to be largely achieved through removal of duplicated Board and Executive roles, natural staff turnover, redundancies and duplicate service providers
- More than 50% of full run-rate synergies expected in the first 18 months post completion
- No change to branch footprint due to the merger

Potential additional upside from:

- Executing on profitable growth opportunities
- Capturing value from greater purchasing power

Phased integration process

A phased integration process expected to span 3 years. Pre-tax integration costs of c. \$29m, with the majority of these anticipated in the initial two years.

Strong Recovery	5.0%	10.0%
Moderate Recession	-15.0%	-20.0%

- Forward looking overlay has remained steady at \$1.9m
- At 31 December 2024, the key assumptions used to determine the overlay incorporate the latest observed economic data including:
 - ✓ improved prospects of a soft-landing
 - ✓ growth below trend and an uplift in unemployment
 - ✓ stabilisation of housing market in the face of supply/demand imbalance, noting recovery remains uncertain in the medium term
- The assessment of the overlay used a scenario weighting of 50% base case, 40% moderate recession and 10% strong recovery.

Prudent loan provisioning

- Decrease in the total collective provision, despite an uptick in arrears, reflects the positive impact of a higher 'cure rate' over the previous 36 months i.e. effectively a lower loss given default
- Forward looking overlay has remained steady at \$1.9m (represents 20% of total collective provision)
- Very low loss history
- 6 mortgagees in possession at 31 December 2024
- Continue to work closely with any customers experiencing financial hardship
