2. REVIEW OF OPERATIONS

Beacon Lighting is Australia's leading retail, online and trade supplier of lighting, ceiling fans, and electrical accessories. Beacon Lighting also operates specialty lighting businesses under different brand names in Australia and has expanded internationally, through wholesale operations in multiple countries. Additionally, Beacon Lighting holds a 50% stake in the Large Format Property Fund, which owns seven retail properties in Australia.

As of H1 FY2025, Beacon Lighting's trading operations in Australia (unless otherwise stated) included:

- 126 Beacon Lighting company stores.
- 2 Beacon Lighting franchised stores.
- 5 Commercial sales offices.
- International sales offices in Hong Kong, Germany, the United States of America and a support office in China.
- Specialty businesses: Connected Light Solutions, Masson For Light, Custom Lighting and Beacon Lighting Wholesale.

The Australian operations are supported by distribution centres in Brisbane (QLD), Melbourne (VIC), along with a third-party logistics (3PL) distribution centre in Perth (WA). The Beacon Group Support Centre is located in Melbourne (VIC).

During H1 FY2025, Australian consumer sentiment remained pessimistic, with retail customers exercising caution. Despite these conditions, the Beacon Trade strategy continued to drive sales through our stores, commercial and eCommerce sales channels. Beacon Lighting has continued to focus on bringing to market the latest, innovative, energy-efficient and fashion orientated lighting, ceiling fans, and electrical accessories to market, supported by outstanding customer service from the Beacon Lighting team. This remains a key differentiator for Beacon Lighting.

Beacon Lighting continues to have four strategic growth pillars, which are:

- **Retail:** Emphasis on store optimisation, network expansion, an exciting product range, inspirational store design, VIP member benefits, and an outstanding customer experience.
- **Trade:** Building strong relationships with trade and commercial customers through direct and referral sales, trade specific products, special trade prices, other trade benefits, and an industry leading Beacon Trade Club.
- **eCommerce:** Delivering engaging, user-friendly websites and a seamless omni-channel experience for both retail and trade customers.
- **New Business:** Pursuing growth through emerging retail and wholesale businesses, international sales, property investment, and strategic acquisitions.

The Beacon Lighting Group result for H1 FY2025 compared to H1 FY2024 is presented in the following table:

(3) Beacon Lighting discloses certain non-IFRS measures in this Directors' Report, that are not audited or reviewed by the Group's auditors. The Directors believe the presentation of non-IFRS financial measures are useful for the users of this financial report as they provide additional and relevant information that reflect the underlying financial performance of Beacon Lighting. EBITDA : Earnings before Interest, Tax, Depreciation and Amortisation. EBIT : Earnings before Interest and Tax.

Beacon Lighting has continued to strengthen our relationships with our trade customers. The highlight of the Beacon Trade result in H1 FY2025 was that trade sales through Beacon Lighting stores increased by 25.3%. Other significant developments included the opening of new company stores at Port Stephens (NSW), Chatswood (NSW) and Shepparton (VIC). The Bendigo (VIC) store was relocated to a larger showroom, while Chatswood (NSW) replaced the Killara (NSW) store which has closed.

Basis of preparation

This consolidated interim financial report for the 26 weeks ended 29 December 2024 has been prepared in accordance with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Act 2001. This condensed consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. The accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at the end of the 53 weeks ended 30 June 2024.

(a) New, revised or amended accounting standards and interpretations adopted by the Group

A number of new or amended standards became applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

(b) Historical cost convention

3. PROFIT AND LOSS INFORMATION

Significant Items

Profit for the 26 weeks ended 29 December 2024 includes the following items that are unusual because of their nature, size or incidence:

Consolidated Entity	December 2024 \$'000	December 2023 \$'000
	-	-

4. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following table presents the Company's financial assets and financial liabilities measured and recognised at fair value as at 29 December 2024, on a recurring basis.

At 29 December 2024	Level 2 \$'000	Total \$'000
Derivatives used for hedging – net position	293	293

At 30 June 2024	Level 2 \$'000	Total \$'000
Derivatives used for hedging – net position	27	27

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

All of the resulting fair value adjustments are included in level 2.

There are no financial assets and liabilities in Level 1 and Level 3, and there are no transfers between the levels.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Group in proportion to the number of and amounts paid on the shares held.

All shares carry one vote per share.

Ordinary shares have no par value and the Group does not have a limited amount of authorised capital.

Capital risk management

The Group's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

Consistently with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt (borrowings less cash) divided by total equity.

period ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
