Outlook

FY25 guidance

The Board reaffirms previous FY25 guidance except for a revision to EBITA guidance as follows:

	FY25 guidance range	Previous FY25 guidance range
Underlying EBITA	\$585m - \$595m	\$590m - \$600m
Underlying NPAT	\$290m - \$300m	\$290m - \$300m
Underlying NPATA	\$340m - \$350m	\$340m - \$350m
Underlying diluted EPS (NPAT) growth	12% - 16%	12% - 16%

- A number of acquisitions in 1H25 reflected increased ownership interests in our existing businesses. The technical accounting requirements for such step up acquisitions mean that the acquired EBITA is reflected as a reduction in non-controlling interests and not as an increase in EBITA.
- The guidance is subject to the following key assumptions:
 - Insurance premium rate increases of mid-single digits by our strategic partners in 2H25; and
 - Completing \$300m of acquisitions throughout FY25
- Principal risks are set out in the 2024 Annual Report (pages 50 to 51)

Interim dividend up 15.6%

Interim 1H25 dividend

- Interim 1H25 dividend of **7.80 cps** (fully franked), up from 6.75 cps in 1H24, **+15.6%**

Steadfast Client Trading Platform

SCTP is a digital marketplace which provides Steadfast Network insurance brokers with access to a variety of insurance products based on a single agreed question set. The system is integrated with a group of leading insurers and provides an efficient way to rapidly receive a range of insurance quotes in a single view.

It displays a comprehensive, side-by-side comparison showing the differences in each insurer's terms, products and services for each quote.

The SCTP has been seamlessly integrated with insurer and broker back-office management systems, including Steadfast's INSIGHT broker platform. This eliminates costly, time consuming and error prone data re-entry into multiple systems.

Key advantages:

- **Rapidly generates and compares quotes from different insurer partners without re-keying data into multiple insurer systems**
 - **Real-time, straight-through processing throughout the life of a policy**
 - **Increased client insights from data analytics**
-

INSIGHT

INSIGHT is an insurance broking platform with a powerful search engine which gives brokers a single view of their clients and an instant view of their business at any time. It is cloud-based, accessible from anywhere and designed as an open platform to enable connectivity to other business applications if required.

There has been strong interest from Steadfast Network brokers wanting to utilise INSIGHT to help manage their business. Steadfast Group is making a significant investment to roll out the platform as it will deliver substantial efficiencies and cost savings for brokers who will be able to remove their dependency on legacy systems.
