Profit from discontinuing operations	4.6	6.5	(1.9)	(28.8)%
Reported Group NPAT including significant items	3.2	3.1	0.1	5.5%

¹EBITDA disclosed within the Directors' Report is equivalent to 'Profit/(loss) before income tax expense for the half year from continuing operations' included within the Consolidated Statement of Comprehensive Income after adding back depreciation and amortisation expense, significant items, and net interest expense. EBITDA is used by the directors as a widely recognised measure of operational performance.

Group revenues from continuing operations increased by 5.3% on prior half year with growth in both broadcast radio and digital audio revenue. Revenue related expenses increased to 20.5% of revenue from 19.0% as the Group ran more integrated advertising campaigns in achieving revenue growth. Strong cost discipline saw non-revenue related (NRR) expenses decrease by \$4.4 million or 3.1% excluding significant items. And this combined with higher net revenues delivered a 46.9% increase in EBITDA to \$31.2 million excluding significant items.

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2024

On 13 December 2024, the Group announced that it had successfully negotiated the refinancing of its syndicated debt facility. The new facility comprises a 3-year revolving \$160 million facility and was used to repay the existing drawn debt of \$118 million on 13 January 2025. The \$42 million in undrawn debt will provide financial flexibility to support the business moving forward. Financial covenants remained at a maximum 3.5 times Net Debt: EBITDA and minimum interest cover of 3.0 times, with the ratios at 31 December 2024 of 1.58 times and 8.52 times respectively (as defined and calculated in accordance with the Groups syndicated debt facility agreement) well within the covenant ratios. A modification loss of \$0.8 million has been recorded in interest expense and other borrowing costs during the half year ended 31 December 2024.

Broadcast Radio

The Broadcast radio business consists of two complementary radio networks operating across metro capital cities and regional markets in Australia. Both networks target audiences in the 25 to 54 age bracket, ('the audience that matters') as this accounts for the majority of agency advertising briefs. The Triple M network is skewed towards males within this age bracket, whereas the Hit Network is skewed towards females. The combined share of the 'audience that matters' across both networks has been steadily increasing, finishing CY24 at 35%.

	1 Jul 24 -31 Dec 24	1 Jul 23 -31 Dec 23	Variance	Variance
Broadcast Radio Profit & Loss	\$'m	\$'m	\$	%
Metro Radio Advertising Revenue	93.9	90.6	3.3	3.6%
Regional Radio Advertising Revenue	81.7	81.9	(0.2)	(0.2)%
Other Revenue	12.0	11.0	1.0	9.1%
Total Revenue	187.6	183.5	4.1	2.2%
Revenue Related Expenses	(37.4)	(34.3)	(3.1)	9.1%
Non-Revenue Related (NRR) Expenses	(104.4)	(106.4)	2.0	(1.9)%
Total Expenses	(141.8)	(140.7)	(1.1)	0.8%
EBITDA excluding significant items	45.8	42.8	3.0	7.1%

Total Broadcast radio revenues increased by 2.2% to \$187.6 million. The Group's metro radio advertising revenue increased by 3.6%, driven by strong share gains, with SCA leading the Metro Radio market growing revenue share from 26.7% in H1 FY24 to 27.5% in H1 FY25. The Group's regional radio advertising revenue declined by 0.2%, with strong national growth from Government and Automotive sectors largely offsetting declining local revenues that were impacted by a weak retail SME market.

Revenue related expenses increased from 18.7% of revenues in H1 FY2024 to 19.9% in H1 FY2025, due to higher commission payments and a greater proportion of integrated advertising campaigns which incur additional costs. Despite inflationary pressures, NRR expenses decreased by 1.9% due to strong on-going cost discipline and management enacting a number of cost out initiatives. Total expenses (excluding significant items) were up \$1.1m, or 0.8%.

As a result of the increase in revenue and small increase in costs Broadcast radio EBITDA improved by 7.1% to \$45.8 million, with EBITDA margins improving from 23.3% to 24.4%.

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2024

Digital Audio

The Digital Audio business consists of the Group's digital platform, LiSTNR and the digital assets associated with the Radio broadcasting business.

	1 Jul 24 -31 Dec 24	1 Jul 23 -31 Dec 23	Variance	Variance
Digital Audio Profit & Loss	\$'m	\$'m	\$	%
Total Revenue	22.1	15.6	6.5	42.0%
Revenue Related Expenses	(5.6)	(3.6)	(2.0)	56.9%
Non-Revenue Related (NRR) Expenses	(16.4)	(20.6)	4.2	(20.4)%
Total Expenses	(22.0)	(24.2)	2.2	(9.1)%
EBITDA excluding significant items	0.1	(8.6)	8.7	101%

Digital Audio continued its strong operating momentum from FY24 into H1 FY25. Group digital audio revenues increased by 42.0% to \$22.1 million driven by strong growth in owned InStream and Podcast revenue and market leading AdTech capabilities growing share of market.

Revenue related costs increased from 23.1% of revenues in H1 FY2024 to 25.3% in H1 FY2025, due to higher commission payments and additional costs associated with more integrated advertising campaigns. NRR expenses decreased by 20.4% due to ongoing disciplined and effective cost management.

The combined impact of strong revenue growth with lower expenses resulted in Digital Audio achieving positive EBITDA in the half, compared with a loss of \$8.6 million in H1 FY24.

Corporate

The Corporate function comprises the group wide centralised functions that cannot be clearly attributable to the broadcast radio or digital audio segments. Corporate expenses increased by 13.3%, this was largely due to the inflationary pressures and the year on year impact in provisions for variable remuneration, which have increased in line with the year on year improvements in business performance.

Significant Items

There are \$7.2 million of significant items included in net profit before tax in the half year ended 31 December 2024 (equating to \$5.0 million post tax). These comprise: \$6.4 million of restructuring costs relating to a number significant cost-out programmes which have delivered \$20 million in ongoing NRR cost savings and \$0.8 million of other items which included the costs associated with implementing a new HR Information System.

In the prior half year, \$1.9 million of significant items relating principally to restructuring costs were included in net profit before tax (\$1.4 million post tax).

Discontinuing operations - Television

On 29 August 2024, the Group announced that it had commenced a strategic review of its non-core regional television assets and was in active negotiations with several parties with an interest in acquiring those assets.

On 17 December 2024, the Group announced that it had signed heads of agreement for the sale of its television licences in the three aggregated markets of Queensland, southern New South Wales and Victoria ('3-Agg Markets') to Network 10.

On 26 February 2025 the Group has signed a binding proposal to dispose of the remaining TV assets to Australian Digital Holdings ('ADH') for an expected cash consideration of \$3.75 million.

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2024

The Group has assessed that the Television assets should be accounted for as held for sale and the operations treated as discontinuing as at the reporting date.

The television market continues to be subject to ongoing significant market and audience pressures, with revenues declining by 16.8% to \$44.1 million in H1 FY25. With expenses declining by 6.9%, Television EBITDA fell by 60% to \$3.9 million and the operations contributed \$0.8 million of net profit after tax, down 87% from H1 FY25. A combination of a \$6.1 million reversal of previous impairments of the 3-Agg broadcasting licences and a \$2.4m impairment of the remaining TV assets, led to a total profit from discontinuing operations of \$4.6 million in H1 FY25.

Dividends

On 29 August 2024, the Group confirmed there would be no final dividend paid for the year ended 30 June 2024. Further, there has been no interim dividend declared for the half year ended 31 December 2024.

Significant Changes in State of Affairs

In the opinion of the Directors, there were no significant changes in the state of affairs of the Group that occurred during the half year under review, other than the planned sale of the television operations as described above.

7. Discontinuing operations

Description

On 29 August 2024, the Group announced that it had commenced a strategic review of its non-core regional television assets and was in active negotiations with several parties with an interest in acquiring those assets.

On 17 December 2024, the Group announced that it had signed heads of agreement for the sale of its television licences in the three aggregated markets of Queensland, southern New South Wales and Victoria ('3-Agg Markets') to Network 10.

The net present value of gross consideration has been calculated at \$13.0 million. The terms of the sale provide that SCA will be entitled to receive a 32.5% share of the profit before tax generated by the 3-Agg Market licences for five years after completion of the sale ("Participation Period"). The consideration to be received by SCA will be dependent on advertising market conditions over the Participation Period and will be paid quarterly in arrears.

SCA has an ongoing contract with BAI Communications for broadcast transmission services for both TV and Radio which expires on 1 September 2034. As part of the asset sale agreement, Network Ten will enter into a new agreement with BAI for the transmission services that service the 3-Agg Markets.

SCA will be liable for termination fees under the new contract if Network 10 exercises a right to terminate after expiry of the Participation Period. SCA has considered various scenarios and applied probability weightings to arrive at a net present value of this potential liability of \$3.2 million.

The price in the transaction with Network 10 is an observable indicator that the recoverable amount of the broadcast licences being sold to Network 10 has increased, and is therefore considered to be an indicator of a reversal of impairment in respect of these assets. This has led to a partial reversal of previous impairments of \$6.1 million.

Notes to the Financial Statements (continued)

7. Discontinuing operations (continued)

On 26 February 2025 the Group has signed a binding proposal to dispose of the remaining TV assets to Australian Digital Holdings ('ADH') for an expected cash consideration of \$3.75 million. The price in the transaction with ADH is an observable indicator that the recoverable amount of the remaining TV assets has decreased, and is therefore considered to be an indicator of an impairment in respect of these assets. This has led to an impairment of \$2.4 million. The balance sheet reflects the recoverable amount of these assets.

The sales processes above will lead to the disposal of the entire Television operating segment, however at 31 December 2024 no sale had been completed, therefore the relevant assets are treated as assets held for sale and the Television segment is a discontinuing operation in these financial statements.

1. The Television assets have been classified as held for sale. These assets, which had a gross cost relating to goodwill of \$289.553m and \$346.711m of Broadcasting Licences had been fully impaired in the year ended 30 June 2019.

Impairment of goodwill and intangible assets with indefinite useful lives

The value of licences, trademarks, brands and goodwill is allocated to the Group's cash generating units ("CGUs"). The Group has identified Broadcast Radio, being metro and regional free-to-air commercial radio broadcasting and other related businesses, and Digital Audio as CGU's, with the former Television CGU, being the regional television broadcasting operations, being classified as discontinuing operations, and its assets being classified as assets held for sale.

The Group tests at least annually whether intangible assets with indefinite useful lives have suffered any impairment and when there is an indication of impairment. The tests incorporate assumptions regarding future events which may or may not occur, resulting in the need for future revisions of estimates.

Total derivative financial instruments	168	485

Hedge accounting

The Group designated interest rate swaps held as cash flow hedges and has applied hedge accounting.

The Group documents the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking the hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in cash flows of hedged items.

The fair values of derivative financial instruments used for hedging purposes are presented within the balance sheet. Movements in the hedging reserve are shown within the Consolidated Statement of Changes in Equity. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

In the 2023 financial year the Group entered into \$35 million of interest rate swap contracts under which it is obliged to receive interest at variable rates and pay interest at fixed rates starting in April 2023 at an average fixed rate of 3.6%. These interest rate swap contracts will expire in April 2026.

Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated in reserves in equity. The gain or loss relating to the ineffective portion is recognised immediately in the Consolidated Statement of Comprehensive Income.

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for instance when the forecast sale that is hedged takes place). The gain or loss relating to the effective portion of interest rate swaps hedging variable rate borrowings is recognised in profit or loss within “interest expense and other borrowing costs”. When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately reclassified to profit or loss.

Total secured non-current interest bearing liabilities	117,739	117,543
Total current and non-current borrowings	117,739	117,543

For all non-current borrowings, the carrying amount approximates fair value in the balance sheet. The Group also has a short-term \$25 million overdraft facility with the ANZ Banking Group, which is renewable on an annual basis each 30 April.

On 13 December 2024, the Group announced that it had successfully negotiated the refinancing of its syndicated debt facility. The new facility comprises a 3-year revolving \$160 million facility and was used to repay the existing drawn debt of \$118 million on 13 January 2025 and will provide financial flexibility to support the business moving forward. Financial covenants remained at a maximum 3.5 times Net Debt: EBITDA and minimum interest cover of 3.0 times, with the ratios at 31 December 2024 of 1.58 times and 8.52 times respectively (as defined and calculated in accordance with the Groups syndicated debt facility agreement) well within the covenant ratios. A modification loss of \$0.8 million has been recorded in interest expense and other borrowing costs during the half year ended 31 December 2024.

Independent auditor's review report to the members of Southern Cross Media Group Limited

Report on the half-year financial report

Conclusion

We have reviewed the half-year financial report of Southern Cross Media Group Limited (the Company) and the entities it controlled during the half-year (together the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Southern Cross Media Group Limited does not comply with the *Corporations Act 2001* including:

1. giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibilities of the directors for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report, in accordance with Australian Accounting Standards and the *Corporations Act 2001*, including giving a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that

the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
