INVESTOR AND SHAREHOLDER WEBINAR

Managing Director, Paul L'Herpiniere, and Non-Executive Director, Dr Jon Hronsky OAM to host a live investor webinar on Tuesday, 1 April 2025

Strickland Metals Limited (ASX: STK) (**Strickland** or the **Company**) is pleased to advise that key members of its senior leadership team will host a live investor webinar on Tuesday, 1 April 2025 to provide an update to investors on the updated Mineral Resource Estimate for the cornerstone Shanac deposit, part of Strickland's Rogozna Gold & Base Metals Project in Serbia.

Strickland Managing Director, Mr Paul L'Herpiniere, and Non-Executive Director, respected geoscientist Dr Jon Hronsky OAM, will provide a comprehensive update on the Rogozna Project and the Company's plans to progress the Project towards development.

Webinar Details

The webinar will be hosted live and will commence at **9.00am (AWST) / 12.00pm (AEDT)** on Tuesday, 1 April 2025. Investors, shareholders and media can register to join the webinar via the link below:

https://www.bigmarker.com/read-corporate/strickland-metals-investor-webinar-aea142ac40b18591eeaf8f7a

At the conclusion of the presentation, participants can submit questions to Mr L'Herpiniere and Dr Hronsky live via the Q&A tab on the webinar platform.

Alternatively, investors can submit questions prior to the commencement of the webinar to Read Corporate at info@readcorporate.com.au.

A recording of the webinar will be made available on the Company's website and social media channels.

About Strickland

Strickland Metals offers a rare investment opportunity among ASX-listed resources companies, with a significant Mineral Resource and a strong balance sheet. Strickland is driven by the excitement of discovery and the quest to create significant long-term value for its shareholders.

Rogozna Project

Strickland's flagship Rogozna Gold & Base Metals Project in southern Serbia is located within the Tethyan Metallogenic Belt, known for its large-scale magmatic hydrothermal systems. Rogozna hosts an Inferred Mineral Resource of 7.40Moz AuEq (3.97Moz gold, 320kt copper, 32.2Moz silver, 380kt lead and 830kt zinc) (refer to Table 1 below) and an extensive pipeline of exploration targets, with 50,000m of drilling planned for 2025.

Yandal Gold Project

The Company's 100%-owned Yandal Gold Project is located in Western Australia's north-eastern Goldfields, only 50km from Northern Star Resources' 220,000 ounce per annum Jundee Gold Operations. Yandal hosts an Inferred Mineral Resource of 5.7 million tonnes @ 1.40 grams per tonne gold for 257,000 ounces gold (refer to Table 2 below) with strong upside potential.

This release has been authorised by the Company's Managing Director, Paul L'Herpiniere.

Competent Person's Statement

The information in this announcement that relates to Exploration Results and Mineral Resources has been extracted from various Strickland ASX announcements and are available to view on the Company's website at www.stricklandmetals.com.au or through the ASX website at www.asx.com.au (using ticker code "STK").

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the Mineral Resource Estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Forward-Looking Statements

This announcement may contain certain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate (Forward-Looking Statements). Forward-Looking Statements can generally be identified by the use of forward-looking words such as "anticipate", "estimates", "will", "should", "could", "may", "expects", "plans", "forecast", "target" or similar expressions and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production and expected costs. Indications of, and guidance on future earnings, cash flows, costs, financial position and performance are also Forward Looking Statements.

Persons reading this announcement are cautioned that such statements are only predictions, and that actual future results or performance may be materially different. Forward-Looking Statements, opinions and estimates included in this announcement are based on assumptions and contingencies which are subject to change, without notice, as are statements about market and industry trends, which are based on interpretation of current market conditions. Forward-Looking Statements are provided as a general guide only and should not be relied on as a guarantee of future performance.

No representation or warranty, express or implied, is made by Strickland that any Forward-Looking Statement will be achieved or proved to be correct. Further, Strickland disclaims any intent or obligation to update or revise any Forward-Looking Statement whether as a result of new information, estimates or options, future events or results or otherwise, unless required to do so by law.

Table 1: Rogozna JORC Compliant Inferred Mineral Resource Estimates

Prospect	Tonnes (Mt)	AuEq (g/t)	Au (g/t)	Cu (%)	Ag (g/t)	Pb (%)	Zn (%)	AuEq (Moz)	Au (Moz)	Cu (kt)	Ag (Moz)	Pb (kt)	Zn (kt)
Medenovac (February 2025)[A]	21	1.9	0.77	0.27	6.3	0.11	1.54	1.28	0.52	57	4.3	23	320
Shanac (March 2025)[A]	150	1.1	0.64	0.12	5.8	0.24	0.34	5.30	3.09	180	28.0	360	510
Copper Canyon (October 2021)[B]	28	0.9	0.40	0.30	-	-	-	0.81	0.36	84	-	-	-
Total[C]	**199**	**1.2**	**0.62**	**0.16**	**5.0**	**0.19**	**0.41**	**7.40**	**3.97**	**320**	**32.2**	**380**	**830**

Table Notes:

A. For Medenovac (February 2025) and Shanac (March 2025) AuEq grade is based on metal prices of gold (US$2,250/oz), copper (US$10,000/t), silver (US$25/oz), lead (US$2,200) and zinc (US$3,000/t) and overall metallurgical recoveries of 80% for these metals. These estimates are based on Strickland's interpretation of potential long term commodity prices and their interpretation of initial metallurgical test work and use the following formula: Au Equivalent (g/t) = Au (g/t) + 1.38 x Cu(%) + 0.011 x Ag (g/t) +0.304 x Pb(%) + 0.413 x Zn(%). It is the Company's opinion that all the elements included in the metal equivalents calculations have a reasonable potential to be recovered and sold. A 1.0 g/t AuEq cut-off has been used for the Medenovac Resource Estimate. A 0.60 g/t AuEq cut-off has been used for the Shanac estimate.

B. For Copper Canyon (October 2021) AuEq grade based on metal prices of gold (US$1,750/oz), copper (US$10,000/t), and metallurgical recoveries of 80% for both metals. These estimates are based on the Company's assumed potential commodity prices and recovery results from initial and ongoing metallurgical test work and use the following formula for Copper Canyon: AuEq (g/t) = Au (g/t) + 1.55 x Cu (%). It is the Company's opinion that all the elements included in the metal equivalents calculations have a reasonable potential to be recovered and sold. A 0.4g/t AuEq cut-off has been used for the Copper Canyon Resource Estimate.

C. Rounding errors are apparent in the summation of total resources.

Please refer to the Company's ASX announcements dated:

- 27 March 2025 titled: "Shanac Resource Increases to 5.30Moz AuEq, Taking Rogozna to 7.40Moz AuEq" for full details regarding the Shanac Mineral resource Estimate;
- 19 February 2025 titled: "Rogozna Resource Increases by 23% to 6.69Moz AuEq" for full details regarding the Medenovac Mineral Resource Estimate; and
- 17 April 2024 titled: "Acquisition of the 5.4Moz Au Eq Rogozna Gold Project" for full details regarding the Copper Canyon Mineral Resource Estimate.

Table 2: Yandal Inferred Mineral Resource Estimates

Project	Prospect	Inferred		
		Tonnes	Gold Grade (g/t)	Contained Metal (oz)
Horse Well (2019) (WA)	Palomino	930,400	2.3	68,300
Horse Well (2019) (WA)	Filly SW	302,400	1.8	17,200
Horse Well (2015) (WA)	Filly	206,000	1.3	8,700
Horse Well (2019) (WA)	Warmblood	788,000	2.1	53,900
Horse Well (2019) (WA)	Dusk til Dawn	3,495,600	1.0	108,900
TOTAL HORSE WELL		**5,722,400**	**1.4**	**257,000**

Table Notes:

- Mineral Resources are based on JORC Code Definitions as defined by the Australasian Code for Reporting Results, Mineral Resources and Ore Reserves.
- All figures are rounded to reflect appropriate levels of confidence. Apparent differences may occur due to rounding.
- The cut-off grades for the 2015 Resources is 0.50 grams per tonne gold for Oxide, 0.75 grams per tonne gold for Transition and 1.00 grams per tonne gold for Fresh weathering classifications.
- The cut-off grades for the 2019 Resources is 0.50 grams per tonne gold for all weathering classifications, except Palomino which has a cut-off of 2.0 grams per tonne gold below 100 metres depth.
- The Resource has been estimated using appropriate high-grade cuts, minimum mining widths and dilutions.

For full detail of the Horse Well Mineral Resource Estimate, please refer to the Company's ASX announcement dated 26 August 2019.
