QUARTERLY REPORT
PT ANTAM TBK

(unaudited)

For the Nine Month Ended September 30, 2025
ARBN - 087 423 998
Securities Ticker: ASX: ATM, IDX: ANTM

In realizing sustainable performance, ANTAM consistently strives to provide benefits by delivering added value to the community and the environment.

HIGHLIGHTS

ANTAM recorded gold sales in 9M25 of 34,164 kg (1,098,398 troy oz.), a 20% increase from 9M24, driven by solid domestic demand, with gold production in 9M25 reached 590 kg (18,969 troy oz.).

ANTAM recorded positive growth in nickel ore production and sales in 9M25 compared to 9M24, with production reaching 12.55 million wet metric tons (wmt) and sales reaching 11.23 million wmt.

ANTAM also achieved optimal ferronickel production in 9M25, amounting to 13,309 tons of nickel in ferronickel (TNi), with sales reaching 8,182 TNi.

ANTAM demonstrated strengthened performance in the bauxite and alumina segments throughout 9M25, with a significant increase in bauxite production reaching 2.31 million wmt and bauxite sales of 1.10 million wmt. Meanwhile, Chemical Grade Alumina production reached 134,224 tons of alumina, with sales totaling 134,768 tons of alumina.

The improvement in ANTAM's ESG performance is reflected in the decrease of its Sustainalytics risk score, from high risk to medium risk. This improvement reflects strengthened risk management, better information disclosure, and increasingly solid good corporate governance.

As a manifestation of its commitment to sustainability, in 9M25 period, ANTAM participated in mangrove planting activities in West Kalimantan, and also Urban Farming Collaboration Program and Clean-up Activities in commemoration of World Rivers Day.

ANTAM Receives ICDX Appreciation for Clean Energy Commitment at Precious Metals Processing and Refinery Business Unit

Public Expose Live 2025, A Manifestation of ANTAM's Commitment to Strengthening Governance and Performance Transparency to the Public

PRODUCTION AND SALES

During the first nine-month period ended September 30, 2025 (January–September 2025, 9M25), amid challenges in the gold raw material supply, nickel prices remain bearish due to global oversupply, and a domestic bauxite industry facing limited growth, ANTAM successfully maintained positive performance.

ANTAM has implemented strict cost-efficiency, improving operational effectiveness across all business lines, and also proactively seek alternative sources of gold raw materials to strengthen supply reliability. These efforts aim to maintan sustain growth and ensure the company is readiness to seize emerging opportunities.

As an implementation of Environmental, Social, and Governance (ESG) principles, ANTAM is commited to implementing good mining practices and operation excellence across all Company operations. In addition, ANTAM applies an Occupational Health and Safety (OHS) system aimed at achieving zero fatality, zero occupational diseases, and zero incidents caused by work-related illnesses.

GOLD

In the third quarter of 2025 (July-September 2025, 3Q25), the Company's gold production from its mines was recorded at 151 kg (4,855 troy oz.). ANTAM recorded total gold production in 9M25 of 590 kg (18,969 troy oz.).

Gold sales volume in 3Q25 reached 4,804 kg (154,452 troy oz.). Gold sales in 3Q25 drove gold sales in 9M25 to 34,164 kg (1,098,398 troy oz.), an increase of 20% from sales in the first nine-months ended September 30, 2024 (January-September 2024, 9M24) of 28,567 kg (918,450 troy oz.).

Global geopolitical uncertainty, financial market fluctuations, and inflation are driving investors to shift their assets to gold as a safe haven. Amid exchange rate volatility and interest rate changes, ANTAM's gold products have gained momentum due to to brand trust, an extensive sales and buyback network, digital access, and high liquidity.

This combination of macroeconomic factors and operational aspects supports high domestic demand for gold and strengthens ANTAM's position as the primary choice for gold investment among the public.

NICKEL ORE

Throughout 9M25, ANTAM's nickel ore production volume reached 12.55 million wet metric tons (wmt), an increase of 72% from the nickel ore production in 9M24 of 7.30 million wmt. In 3Q25, ANTAM's nickel ore production reached 3.45 million wmt, an increase of 11% from the production achievement in the third quarter of 2024 (July-September 2024, 3Q24) of 3.12 million wmt.

For personal use only

In 9M25, ANTAM recorded nickel ore sales of 11.23 million wmt, an increase of 97% compared to 9M24 sales of 5.71 million wmt. In 3Q25, nickel ore sales volume reached 3.06 million wmt, an increase of 30% compared to 3Q24, which was 2.35 million wmt.

Throughout 2025, ANTAM's nickel ore commodities were intended to fulfill the needs of the domestic second-class nickel industry and the Company's internal ferronickel production needs in Kolaka.

FERRONICKEL

In 9M25, ANTAM successfully recorded optimal ferronickel production and sales, with a production achievement of 13,309 tons of nickel in ferronickel (TNi) and sales reaching 8,182 TNi.

In 3Q25, ANTAM's ferronickel production was recorded at 4,242 TNi, with ferronickel sales reaching 2,419 TNi.

All ferronickel product sales in 9M25 were fully absorbed by the export market, with the main export destinations to South Korea, India, and Tiongkok which is the global center of stainless steel manufacturing.

BAUXITE

ANTAM recorded a growth in bauxite production volume in 3Q25 reaching 931,914 wmt, a significant increase of 883% compared to bauxite production in 3Q24 of 94,784 wmt. In addition, ANTAM's bauxite production in 9M25 was recorded at 2.31 million wmt, a significant increase of 263% from the bauxite production in 9M24 of 637,713 wmt.

ANTAM successfully recorded bauxite sales in 3Q25 of 77,482 wmt, driving significant bauxite sales in 9M25 of 1.10 million wmt, a 1,033% increase compared to bauxite sales in 9M24 of 97,430 wmt.

ANTAM's bauxite production is used as raw material for the Tayan Chemical Grade Alumina (CGA) Plant operated by PT Indonesia Chemical Alumina (PT ICA) and for sales to domestic customers.

Domestic sales to the Smelter Grade Alumina (SGA) Project managed by PT Borneo Alumina Indonesia also contributed to the increase in performance by strengthening absorption, providing off-take certainty, and supporting the commercial operation readiness of the plant, supporting downstreaming and increasing the added value of bauxite in the country.

CHEMICAL GRADE ALUMINA

Inline with ANTAM's strategy to optimize the operations of the Tayan CGA Plant in 3Q25, PT ICA produced 44,840 tons of alumina, reflecting a 4% increase compared to 3Q24 production of 43,148 tons of alumina. Alumina production in 9M25 reached 134,224 tons of alumina, a 27% increase from 9M24 alumina production of 105,883 tons of alumina.

Meanwhile, alumina sales volume in 3Q25 reached 43,660 tons of alumina. This growth contributed to 9M25 alumina sales of 134,768 tons of alumina, a 1% increase compared to 9M24 sales of 133,065 tons of alumina.

SUSTAINABLE BUSINESS DEVELOPMENT THROUGH MINERAL DOWNSTREAMING

ANTAM is committed to strengthening national mineral downstreaming and creating sustainable added value for Indonesia's economy through various downstream projects developed by the Company.

In the gold commodity segment, ANTAM continues to advance the development of a precious metals manufacturing facility at the Java Integrated Industrial and Ports Estate (JIIPE) in Gresik, East Java. This project aims to enhance the added value of the Company's gold commodities by increasing the production capacity of Logam Mulia manufacturing, in line with ANTAM's commitment to meet growing market demand and expand gold market development.

To ensure the continuity of raw material supply and strengthen the gold supply chain, ANTAM and PT Freeport Indonesia (PTFI) signed a cooperation agreement for 30 tons of gold per year with a purity level of 99.99% in November 2024. In addition, ANTAM is exploring opportunities to purchase gold from other sources within Indonesia to further strengthen the raw material supply chain for domestic gold sales.

In the nickel segment, several key milestones have been achieved in the EV Battery Ecosystem Development Partnership Project in Indonesia, including initial works, permitting, and funding preparations to support construction readiness as targeted. After inaugurating the construction of integrated battery plants in Karawang, West Java, and East Halmahera, North Maluku on June 29, 2025, through the third quarter of 2025, ANTAM ensures readiness for the construction phase as the next milestone in the development of Indonesia's national battery ecosystem.

To reinforce bauxite downstreaming, ANTAM continues to demonstrate its commitment to supporting the integration of the national aluminum industry through the Smelter Grade Alumina Refinery (SGAR) Project in Mempawah.

As an important phase to the commercial operation, ANTAM ensures a stable bauxite supply to support alumina production during the commissioning process. In addition, a trial shipment of alumina to the aluminum smelter in Kuala Tanjung has been conducted as part of the integrated supply chain testing.

By ensuring continuous bauxite supply to the SGAR Project operated by PT Borneo Alumina Indonesia, a joint venture between ANTAM and INALUM, ANTAM reaffirms its role in supporting the development of a sustainable national aluminum industry ecosystem.

EXPLORATION ACTIVITIES

ANTAM's exploration activities focus on gold, nickel and bauxite commodities which are intended to sustain operations and development projects. ANTAM's total preliminary unaudited exploration expenses in 9M25 amounted to Rp176.95 billion. As part of the effort to increase the portfolio of gold reserves and resources, ANTAM is currently focusing on searching for additional gold sources both in active Mining Business Permit locations and in other new prospect areas.

ANTAM through the Geomin Unit carries out integrated mineral exploration activities which include area survey activities, geological exploration, geophysical exploration, geodetic surveys, drilling, physical and chemical analysis testing, calculation of mineral reserves and resources supported by an integrated Geographic Information System (GIS). Exploration activities are carried out to ensure the adequacy of the Company's potential strategic mineral resources and reserves.

GOLD

In 9M25, ANTAM conducted gold exploration activities in Pongkor, West Java. In Pongkor, ANTAM conducted in mine drilling (underground) and deep drilling (surface).

NICKEL

ANTAM's nickel exploration 9M25 is conducted in North Konawe and Pomalaa, Southeast Sulawesi. In addition, exploration activities were also conducted on the Mining Business License (IUP) of ANTAM's subsidiary, PT Sumberdaya Arindo (PT SDA), in Buli, North Maluku.

In the North Konawe area, activities carried out include geological mapping, core sampling, core logging, grid measurement & re-measurement, installation of predrill and postdrill stakes, resistivity measurement, single tube drilling, preparation, analysis laboratory and support activity.

In the Pomalaa area, activities included geological mapping, core sampling, core logging, grid measurement & re-measurement, installation of measuring stakes, single tube drilling, as well as preparation and laboratory activities.

Meanwhile, exploration activities in the Buli area by PT SDA include core logging, measurement and installation of benchmark (BM), installation of measuring stakes, re-measurement, and drilling.

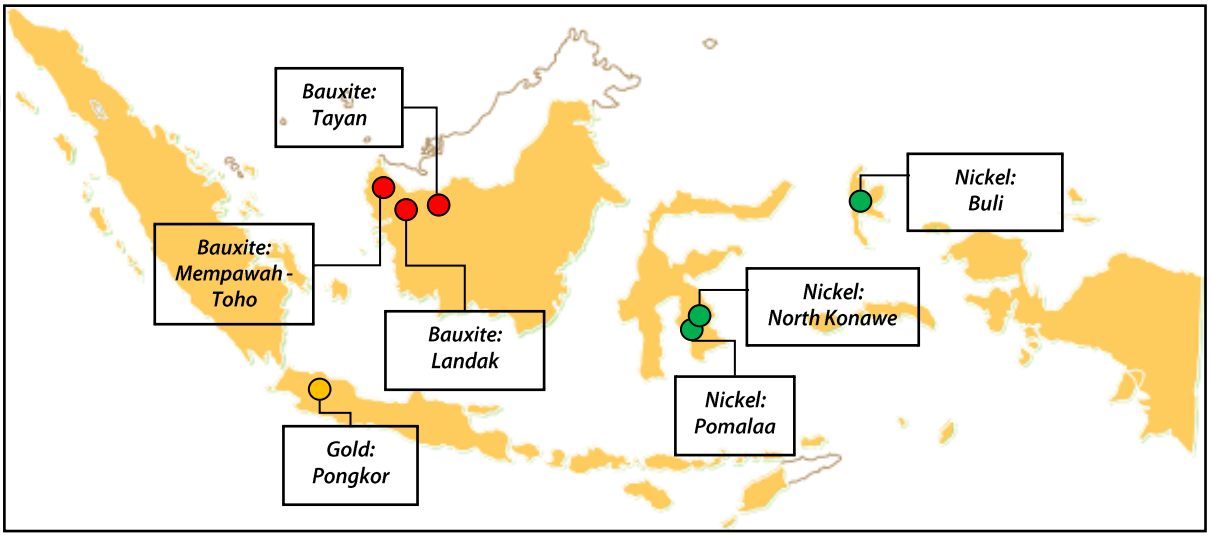

BAUXITE

Bauxite exploration activities in 9M25 were conducted in Tayan, Landak and Mempawah - Toho, West Kalimantan. In the Tayan area, the exploration activity was test pit excavation, measurement and installation of benchmark (BM), grid test pit measurement, and development of test pit.

In the Landak area, the activities carried out were land identification, geological mapping, test pit drilling, measurement and installation of benchmark (BM), and grid test pit measurement. Meanwhile, in Mempawah – Toho, conducted land identification, geological mapping, test pit sampling, polygon grid/trajectory measurement, and development of test pit.

ANTAM'S EXPLORATION AREAS IN 9M25

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr. Bronto Sutopo who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Bronto Sutopo is a full-time employee of the company. Mr. Bronto Sutopo has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Bronto Sutopo consents to the inclu¬sion in the report of the matters based on his information in the form and context in which it appears.

CORPORATE NEWS

ANTAM RECEIVES ICDX APPRECIATION FOR CLEAN ENERGY COMMITMENT AT PRECIOUS METALS PROCESSING AND REFINERY BUSINESS UNIT

On July 9, 2025 ANTAM, received an award from the Indonesia Commodity & Derivatives Exchange (ICDX) for its initiative in purchasing Renewable Energy Certificates (REC) used in the operations of the Precious Metals Processing and Refinery Business Unit.

The purchase of REC's is part of the Company's strategy to increase the clean energy in operations practices without compromising the reliability of its current electricity supply. Through the purchase of REC from ICDX, ANTAM's Precious Metals Processing and Refinery Business Unit has achieved a renewable energy mix of around 94%. This reflects ANTAM commitment to being a responsible industry player, supporting the national decarbonization target, while building a sustainability based competitive advantage.

As a reflection of the Company's commitment to innovation and digitalization of gold products, ANTAM was also received as the Most Valuable Member Digital Gold by ICDX. The award acknowledges ANTAM's innovation in digital physical gold products through BRANKAS.

RECORDED STRONG FINANCIAL FUNDAMENTALS, ANTAM DISTRIBUTES 100% OF 2024 NET PROFIT AS DIVIDENDS

On July 11, 2025, ANTAM, recorded its strong financial fundamentals by distributing dividends of 100% of the net profit for the Financial Year 2024 attributable to the Owner of the Parent of the Company to shareholders.

The cash dividend was paid in accordance with the decision of the Annual General Meeting of Shareholders (GMS) for Financial Year 2024 held on June 12, 2025. The total dividends distributed reached Rp3.65 trillion, all of which came from net profit attributable to the Owner of the Parent of the Company.

ANTAM RECEIVED INDONESIA ORIGINAL BRAND 2025 AWARD IN PRECIOUS METALS CATEGORY

On July 10, 2025, ANTAM has achieved a milestone by winning the 1st Winner with Excellent predicate in the Precious Metals (Gold Bar) category at the 2025 Indonesia Original Brand (IOB) Award. ANTAM was also honored with the Indonesia Brand Excellence in Customer Value 2025 award in the same category, receiving the Excellent predicate.

The IOB Award 2025 and Indonesian Brand Excellence in Customer Value 2025 reflect the public's trust and ANTAM's commitment to continuously enhancing the value of our products and services.

ANTAM LAUNCHES GOLD SPECIAL EDITION OF SIMFONI IBU PERTIWI

On July 1, 2025, ANTAM has launched a special edition Gift Series titled "Simfoni Ibu Pertiwi". This series is designed to evoke patriotism through artistic beauty and investment value. Its distinctive motif reflects the harmony between nature and culture, making it not only a valuable collectible but also a symbol of Indonesian identity and pride.

Through the 'Simfoni Ibu Pertiwi', ANTAM aims to invite the public, especially the younger generation, to remember and celebrate national values.

ANTAM SUPPORTS MANGROVE ECOSYSTEM PROTECTION AND MANAGEMENT IN WEST KALIMANTAN

On August 8, 2025, ANTAM participated in a mangrove planting activity at Mempawah

For personal use only

Mangrove Conservation (MMC) to commemorate World Mangrove Day. This activity is part of efforts to restore mangrove ecosystems and strengthen the protection of Indonesia's coastal areas.

The ANTAM's involvement in this event aligns with its commitment to environmental preservation, particularly in coastal regions. As part of its sustainability practices based on Environmental, Social, and Governance (ESG) principles, ANTAM consistently conducts mangrove planting activities in areas surrounding its operational sites. As of June 2025, ANTAM has planted over 1.16 million mangrove seedlings across 100 hectares.

ANTAM has also implemented various concrete measures to conserve mangrove ecosystems in its operational areas through rehabilitation and planting programs in the coastal zones of Southeast Sulawesi, North Maluku, and Southwest Papua.

PUBLIC EXPOSE LIVE 2025: ANTAM RECORDS SURGE IN PROFIT FOR THE FIRST HALF OF 2025

On September 11, 2025, the Company once again participated in the Public Expose Live 2025 event organized by PT Bursa Efek Indonesia (BEI).

The 2025 ANTAM Public Expose Live was attended by participants from securities institutions, analysts, investors, and the general public. During the event, ANTAM Management presented updates on operational and financial performance for the first six months of 2025, as well as progress on the Company's development projects.

ANTAM RECEIVES ENSIA 2025 AWARDS, PROOF OF CONSISTENCY IN ESG IMPLEMENTATION

On September 16, 2025, ANTAM, reaffirmed its commitment to sustainable mining practices by winning various awards at the Environmental & Social Innovation Award (ENSIA) 2025 held by PT Sucofindo (Persero) and supported by the Ministry of Environment.

At the ENSIA 2025, ANTAM through its business units, managed to obtain a several awards in various categories. In addition, ANTAM also recorded an achievement in the category of Local Hero for Poverty Alleviation, which was achieved by Wahyudin, a foster partner of the Gold Mining Business Unit.

ANTAM'S ESG COMMITMENT IN COMMEMORATING WORLD RIVERS DAY THROUGH URBAN FARMING COLLABORATION AND CLEAN-UP ACTIVITIES

On September 27, 2025, ANTAM, with the Ministry of Environment and the East Jakarta City Government to implement an Urban Farming program along the banks of the East Flood Canal (Kanal Banjir Timur), Duren Sawit, East Jakarta. Urban Farming program initiated by ANTAM through Precious Metal Processing and Refinery Business Unit has entered its second year. It was launched to commemorate World Rivers Day as well as to support the central government's food security program.

Previously, the harvest handed over in 2024 reached around 360 tons. The seedlings handed over during this activity were planted along the banks of the Kanal Banjir Timur with a potential harvest reaching 380 tons, and the results can be directly utilized by the surrounding community.

Not only providing plant seedlings, the company also organizes environmental clean-up activities in the Kanal Banjir Timur area involving ANTAM employees as volunteers. This activity aligns with ANTAM's commitment to support environmental programs in synergy with the Ministry of Environment and the City Government.

ANTAM RECEIVED TWO AWARDS AT THE STELLAR WORKPLACE AWARD 2025

On September 27, 2025, ANTAM successfully received two prestigious awards at the 2025 Stellar Workplace Award: Stellar Workplace Recognition in Employee Commitment and Stellar Workplace Recognition in Employee Satisfaction. This annual event carried the theme "Employee Engagement in a Future-Ready Workplace", emphasizing the crucial role of employees in building adaptive, healthy, and sustainable organizations amid the evolving dynamics of the modern workplace.

ANTAM's achievement reflects the company's success in implementing a human resources strategy focused on talent development, enhancing job satisfaction, and leveraging technology to strengthen employee engagement and organizational effectiveness.

IMPROVED ESG PERFORMANCE: SUSTAINALYTICS RISK SCORE DOWNGRADED TO MEDIUM RISK CATEGORY

ANTAM recorded improvement in its ESG performance is reflected in the Sustainalytics risk score, which shows a decline from high risk to medium risk, based on data from the Sustainalytics ESG Risk Rating Report. This improvement reflects strengthened risk management, better information disclosure, and increasingly solid corporate governance.

ANTAM continues to strengthen its sustainability initiatives through various strategic ESG programs, including energy and water efficiency, waste management, community empowerment, enhancement of good corporate governance, and improvements in employee safety and well-being. ANTAM is committed to maintaining this positive momentum by continuously reinforcing ESG practices in line with global standards across all aspects of its operations.
