Resolute

Q4 2025 and FY 2025 Activities Report

22 January 2026

Disclaimer

This presentation contains information about Resolute Mining Limited (Resolute or the Company) and its activities that is current as at the date of this presentation unless otherwise stated. The information in this presentation remains subject to change without notice. This presentation has been prepared by Resolute and no party other than Resolute has authorised or caused the issue, lodgement, submission, despatch or provision of this presentation.

The information in this presentation is general in nature and does not purport to be complete. This presentation is not a prospectus, disclosure document or other offering document under Australian law or under the laws of any other jurisdiction. This presentation is provided for information purposes and does not constitute an offer, invitation, inducement or recommendation to subscribe for or purchase securities in Resolute in any jurisdiction.

The information contained in this presentation has been prepared in good faith by Resolute, however no guarantee, representation or warranty expressed or implied is or will be made by any person (including Resolute and its affiliates and their directors, officers, employees, associates, advisers and agents) as to the accuracy, reliability, correctness, completeness or adequacy of any statements, estimates, options, conclusions or other information contained in this presentation.

To the maximum extent permitted by law, Resolute and its affiliates and their directors, officers, employees, associates, advisers and agents each expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss or damage suffered by any person relating in any way to the use of or reliance on information contained in this presentation including, without limitation:

- from representations or warranties or in relation to the accuracy or completeness of the information contained within this presentation;
- from statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from this presentation; or
- for omissions from this presentation including, without limitation, any financial information, any estimates, forecasts, or projections and any other financial information derived therefrom.

This presentation does not constitute financial product advice, investment, legal, taxation or other advice and is not intended to be used or relied upon as the basis for making an investment decision. This presentation is not a recommendation to acquire Resolute securities and has been prepared without taking into account the investment objectives, taxation situation, financial situation or needs of individuals.

Before making any investment decision in connection with any acquisition of Resolute securities, prospective investors should consider the appropriateness of the information having regard to their own objectives, tax situation, financial situation and needs and seek financial, legal and taxation advice appropriate to their jurisdiction.

Past performance information given in this presentation is for illustrative purposes only and should not be relied upon as an indication of future performance.

This presentation includes certain forward-looking statements, including statements regarding our intent, belief or current expectations with respect to Resolute's business and operations, market conditions, results of operations and financial condition, and risk-management practices. Words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' and similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position and performance are also forward-looking statements.

Forward-looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. These statements are based upon a number of estimates and assumptions that, while considered reasonable by Resolute, are inherently subject to significant uncertainties and contingencies, many of which are outside the control of Resolute, involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements on certain assumptions, which may prove to be incorrect. Actual results, performance, actions and developments of Resolute may differ materially from those expressed or implied by the forward-looking statements in this presentation.

As an Australian company listed on the Australian Securities Exchange (ASX), Resolute is required to report Ore Reserves and Mineral Resources in Australia in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Recipients should note that while Resolute's Mineral Resource and Ore Reserve estimates comply with the JORC Code, they may not comply with relevant guidelines in other countries.

For details of the Ore Reserves used in this announcement, please refer to the ASX announcement dated 11 March 2025 titled "Ore Reserves and Mineral Resource Statement" and the announcement titled 'Doropo DFS Update' dated 15 December 2025. The Company is not aware of any new information or data that materially affects the Mineral Resources and Ore Reserves as reported in those ASX

The information in this announcement that relates to production targets of Resolute has been extracted from the report entitled 'Q4 2025 Activities Report and 2026 Guidance' announced on 22 January 2026 and are available to view on the Company's website (www.rml.com.au) and www.asx.com (Resolute Production Announcement).

For the purposes of ASX Listing Rule 5.19, Resolute confirms that all material assumptions underpinning the production target, or the forecast financial information derived from the production target, in the Resolute Production Announcement continue to apply and have not materially changed.

This announcement contains estimates of Resolute's mineral resources. The information in this Quarterly that relates to the mineral resources of Resolute has been extracted from reports entitled 'Ore Reserves and Mineral Resource Statement' announced on 11 March 2025 and is available to view on Resolute's website (www.rml.com.au) and www.asx.com (Resolute Announcement). JORC tables associated with the ABC drill results in this presentation are in the announcement titled 'Q4 2025 Activities Report' released on 22 January2026 and is available to view on Resolute's website (www.rml.com.au) and www.asx.com.

For the purposes of ASX Listing Rule 5.23, Resolute confirms that it is not aware of any new information or data that materially affects the information included in the Resolute Announcement and, in relation to the estimates of Resolute's ore reserves and mineral resources, that all material assumptions and technical parameters underpinning the estimates in the Resolute Announcement continue to apply and have not materially changed. Resolute confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from that announcement.

All in Sustaining Cost (AISC) per ounce of gold produced are calculated in accordance with World Gold Council guidelines. These measures are included to assist investors to better understand the performance of the business. Cash cost per ounce of gold produced and AISC are non-International Financial Reporting Standards financial information.

An investment in Resolute is subject to known and unknown risks, some of which are beyond the control of Resolute, including possible loss of income and principal invested. Resolute does not guarantee any particular rate of return or the performance of Resolute, nor does it guarantee any particular tax treatment. Investors should have regard (amongst other things) to the risk factors outlined in this Presentation when making their investment decision. See the "Key Risks" section of this presentation for certain risks relating to an investment in Resolute. This presentation includes pro-forma financial information which is provided for illustrative purposes only and is not represented as being indicative of Resolute (or anyone else's) views on Resolute's future financial position or performance.

A number of figures, amounts, percentages, estimates, calculations of value and fractions in this presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this presentation.

Resolute's production guidance for 2026 is 250,000-275,000 oz at an All-in Sustaining Cost (AISC) of $2,000-2,200/oz.

All dollar values are in United States dollars ($) unless otherwise stated. This presentation has been authorised for release by Chief Executive Officer, Mr. Chris Eger.

personal use only

Speakers

- CEO – Chris Eger
- COO – Gavin Harris
- CFO – Dave Jackson
- Corporate Development and Investor Relations – Matty O'Toole-Howes

ersonal use only

A positive end to the year

Q4 – Strong Performance

Metrics

- **65,918 oz** – Gold Poured
  - Syama: 47,163 oz
  - Mako: 18,755 oz
- **$1,877/oz** – Group AISC
  - Syama: $1,779/oz
  - Mako: $1,666/oz
- **1.87x** - TRIFR
- **$18 million** – Capital Expenditure
- **$85.7 million** – Operating Cash Flow
- **$209.1 million** – Net Cash Position

Activities

- **Operations**
  - **Syama** – responded to supply chain challenges and achieved strong operating performance
  - **Mako** – stockpile processing continued to exceed expectations
- **Doropo – DFS Update (15 Dec 2025)**
  - Larger, longer operation - 170koz annual average production over 13 year mine life
  - $2.5 billion $NPV_{5\%}$ at $4,000/oz gold price
- **Exploration**
  - La Debo MRE Update - 643 koz at 1.14 g/t
  - ABC Project drill results include 9m at 2.4 g/t Au
- **Strategic Projects**
  - SSCP – remains on track and on budget
  - MLEP – Bantaco infill drilling, permitting and community engagement activities at Tomboronkoto

ersonal use only

Building a foundation for future growth

2025 – A Pivotal Year

Metrics

- **277,236 oz** – Gold Poured
  - Syama: 176,341 oz
  - Mako: 100,895 oz
- **$1,843/oz** – Group AISC
  - Syama: $2,008/oz
  - Mako: $1,270/oz
- **$118 million** – Capital Expenditure
- **$383 million** – EBITDA[1]
- **$322 million** – Available Liquidity

Achievements

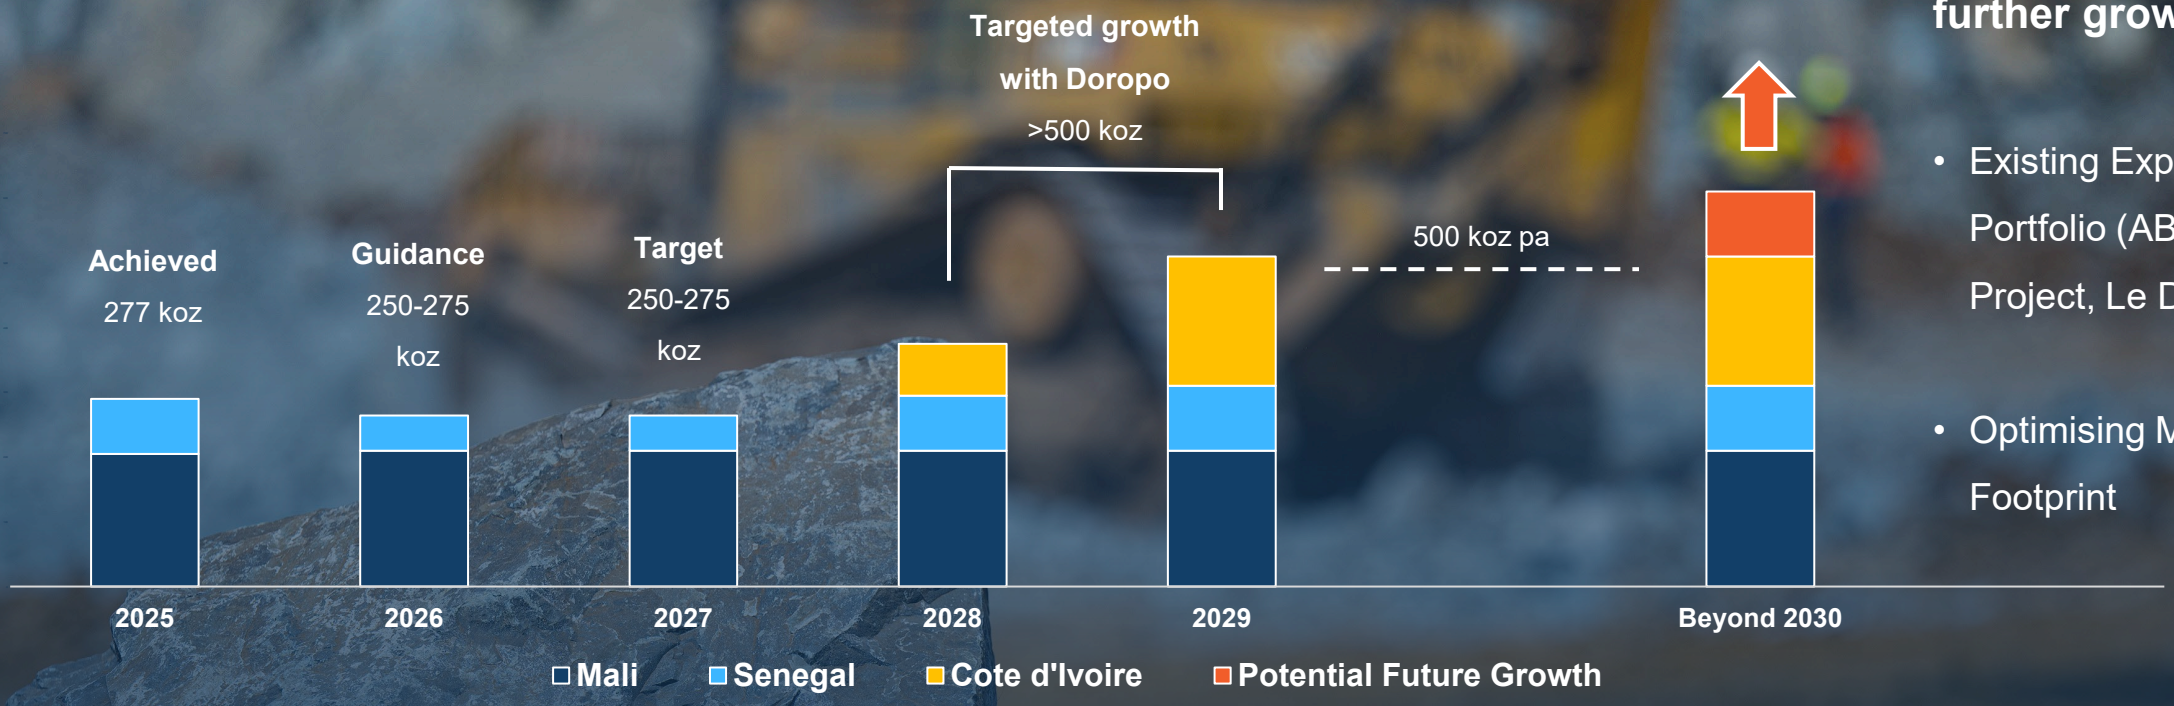

- Delivered Group production and cost guidance despite supply chain challenges in Mali
- Strengthened government relations across all jurisdictions
- Augmented executive and project teams
- Completed acquisition of Doropo & ABC Projects in Cote d'Ivoire
- Advanced key growth projects - SSCP (Mali) and MLEP (Senegal)
- Refocused on exploration across Senegal, Mali, Cote d'Ivoire and Guinea
- **Generated net cash of $140 million**

1. Unaudited

ersonal use only

Growing annual production to over 500koz by end 2028

Organic Growth Profile[1]

Areas for potential further growth:

- Existing Exploration Portfolio (ABC Project, Le Debo)
- Optimising Mali Footprint

Doropo adds tangible near-term production growth in Cote d'Ivoire

Reduction of Group cost-base once Doropo reaches production

Asset-base provides foundation for further growth in new jurisdictions

ersonal use only

1. Illustrative in nature. 2026-2027 figures based on commentary provided in the Q4 2025 Activities Report. Future production scenarios are conceptual in nature and assume Mako mine extension reaching a production in excess of 110koz pa and first production at Doropo in 2028

Major investment into organic growth projects

2026 Guidance

- **Gold Production:** **250 – 275 koz**
  - Syama: 195 – 210 koz
  - Mako: 55 – 65 koz
- **Group AISC[1]:** **$2,000 – 2,200/oz**
  - Syama: $1,950 – 2,150/oz
  - Mako: $1,600 – 1,800/oz
- **Capital Expenditure:** **$310 - 360 million**
  - Syama incl. SSCP: $110 - 125 million
  - Mako incl. MLEP: $15 - 20 million
  - Doropo: $170 - 190 million
  - Exploration: $15 - 25 million

1. At $4,000/oz gold price assumption

ersonal use only

Côte d’Ivoire

A high-quality development project in NE Côte d'Ivoire

Doropo

2025 Activities

- Acquired along with the ABC Project from AngloGold Ashanti in May 2025
- Hired Project Director - Rob Cicchini
- Updated Resources – 28% increase from previous MRE
- Progressed permitting and increase government interactions with Prime Minister meeting in June
- Updated DFS - Outlined a larger project (+55% ore) with an extended mine life (+3 years)

Project Metrics	2025 DFS
Mine Life	13 Years
Resources (Au)	4.4 Moz
Reserves (Au)	2.5 Moz
Construction Cost	US$516 million
Processing Capacity	4.9 – 5.4 Mtpa (Fresh/Oxide)
AISC (LoM avg) [1]	US$1,471/oz
$NPV_{5\%}$ (100% basis) [1]	US$2.5 billion

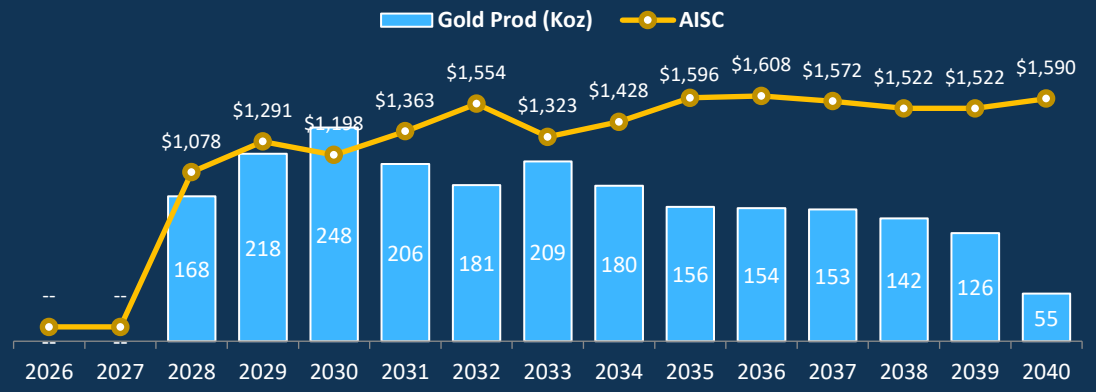

1. At $4,000/oz gold price assumption,

ersonal use only

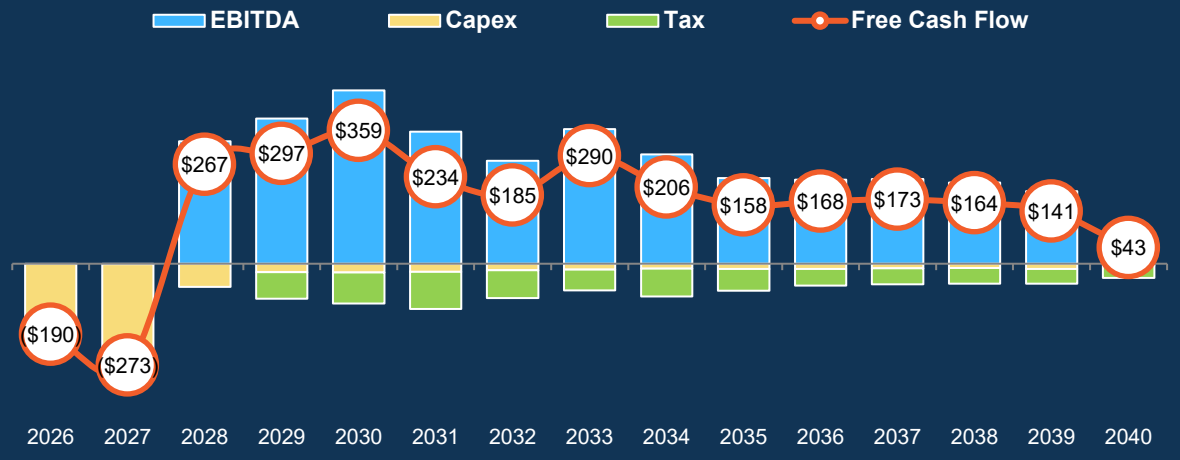

Doropo Project – Updated DFS

- Post-tax project $NPV_{5\%}$ of US$2.5 bn[1] at gold price assumption of US$4,000/oz
- DFS outlined larger, longer-life operation with LOM average production of c. 170kozpa over 13 years
- US$516M capital cost due to larger scale project (fresh ore processing capacity increased from 4.0 Mtpa to 4.9 Mtpa) and up-to-date pricing
- At $3,000/oz gold price, the average annual post-tax FCF[1,3] and EBITDA[1,3] of US$268M and US$364M respectively in first five years and payback period of 1.7 years
  - Payback of under 1 year at gold price of $4,000/oz

Production[2] and AISC[3]

Free Cash Flow[1] - $3,000/oz

1. 100% basis; 2. Production underpinned by Mineral Reserves; 3. At $3,000/oz gold price assumption

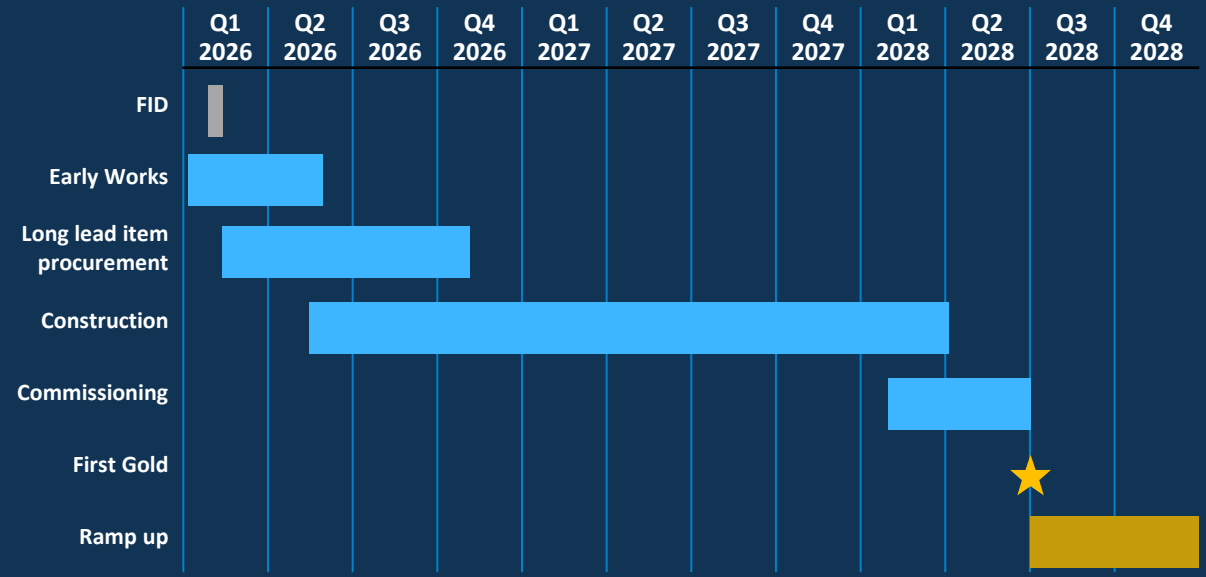

For personal use only

Doropo – 2026 Key Activities

- $170 – 190 million capital expenditure planned in 2026; expenditure weighted to the second half of year (75%)
- Resettlement and livelihood programs to advance upon receipt of Mining Permit
- Key workstreams in 2026:
  - Continue building owners team
  - Commence works on construction camp and village
  - EPCM contract and owners team costs
  - Land acquisition and crop compensation
  - Procurement of long-lead items and steelwork fabrication
  - Grid power early works and procurement

Permitting

- Awaiting approval of the Mining Permit which is expected in in the next month; FID to follow
- To maintain timelines require receiving permits by end Q1 2026

For personal use only

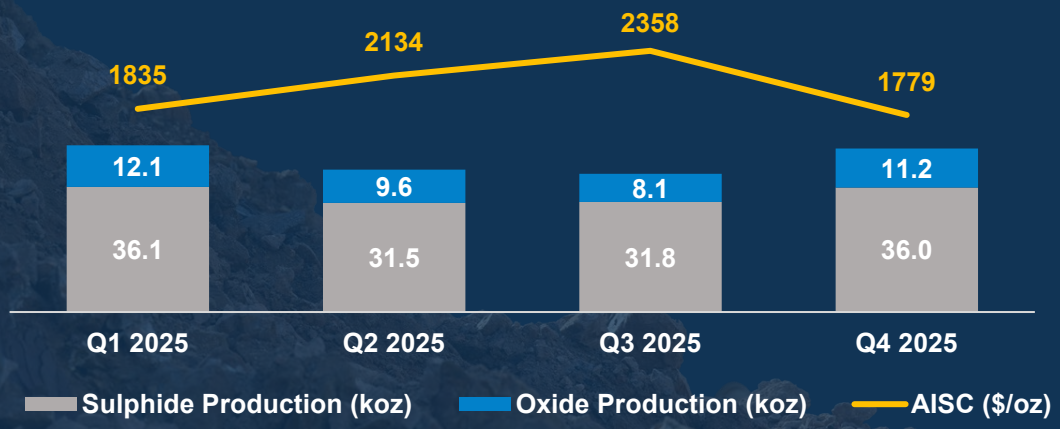

Mali

ersonal use only

Stable performance in a challenging environment

Syama Operation

- Full-year 176.3 koz gold production at AISC of $2,008/oz both within guidance with Q4 — second strongest quarter of 2025
- Full-year $84.5 million capital expenditure in-line with guidance — $24 million associated with the SSCP
- Successfully responded to supply chain disruption by diversifying suppliers and intention to build emulsion plant on-site in 2026

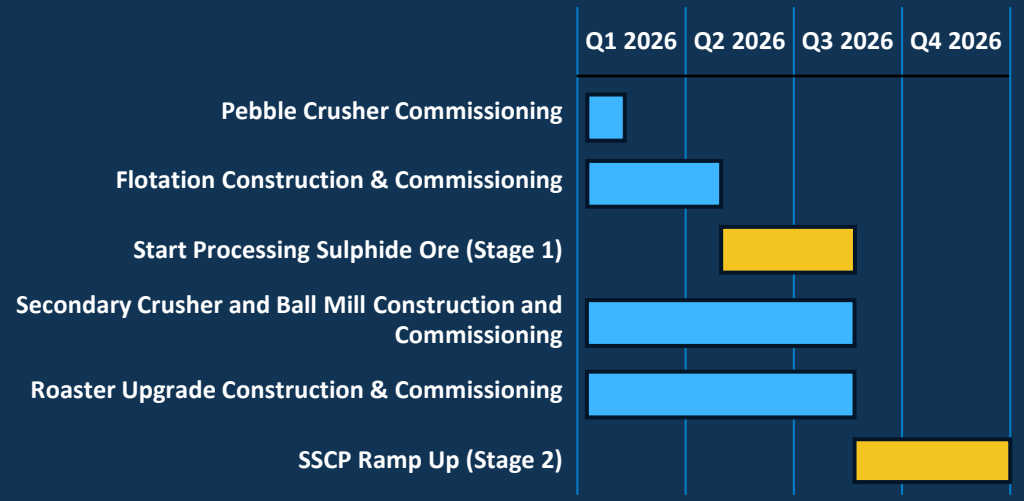

Stabilising government relations in Mali – Resolute CEO led a delegation to meet the Prime Minister in Bamako in Q4

ersonal use only

Syama Sulphide Conversion Project – On Track, On Budget

- No LTIs after c.1 million person-hours worked until end of 2025
- 2025 capital expenditure of $23.9 million below guidance ($30 million) as several workstreams moved to 2026
- Plan to start treating sulphide ore at half throughput (stage 1) once flotation circuit commissioned at start of Q2
- Ramp up (stage 2) to 100% sulphide processing planned from Q3 once secondary crushing and ball mill commissioned

Construction of Roaster Upgrade

Fully Commissioned CCIL Circuit

ersonal use only

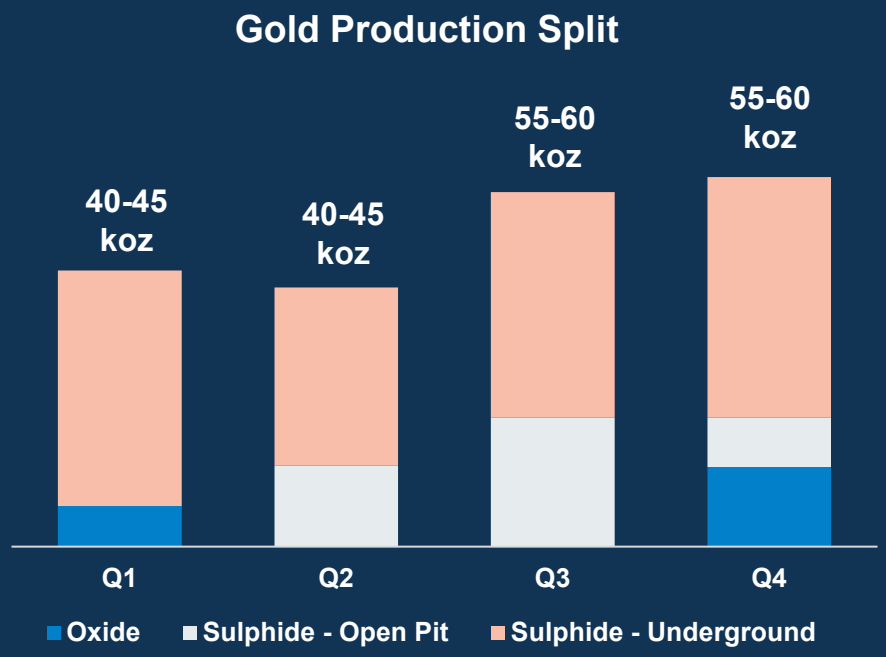

Maintaining operational flexibility at Syama

Syama Guidance

- Mining across open pit and underground operations expected at c. 4 Mt (c. 90% sulphide ore); open pit strip ratio of 10:1
- Approx. 1 Mt of sulphides mined from Syama North (A21) open pit with ore feeding initial SSCP; c. 2.6Mt sulphides mined from the underground
- Commissioning of SSCP at 50% capacity Q2 with full commissioning Q3
- Approximate 2.9 Mt and 0.7 Mt of sulphide and oxide processing with flexibility on mill-blend once SSCP fully commissioned
- Planned shutdown in Q2 for SSCP tie-in; overall gold production expected to be weighted to H2
- Beyond 2026, production expected to be 5-10% higher than in 2026; oxide production expected to decrease over next two years as operations transition to sulphide processing

195 – 210 koz
Gold Production

$1,950-2,150/oz
AISC[1]

1. At $4,000/oz gold price

Senegal

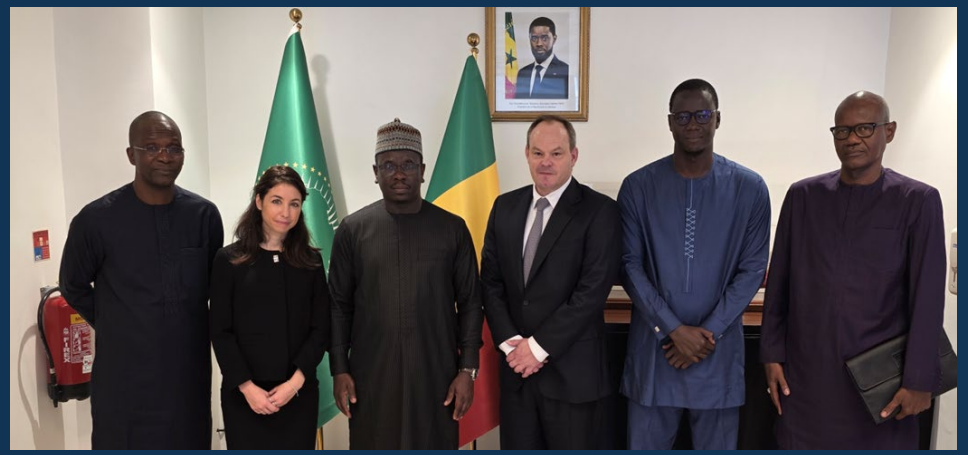

ersonal use only

Stockpile processing exceeded expectations

Mako Operation

- Full-Year 100.3 koz gold production at AISC of $1,270/oz in line with guidance
- Full-year $2.9 million capital expenditure for ongoing TSF raise and plant maintenance
- Operation successfully ceased open pit mining activities and transitioned to stockpile processing in H2

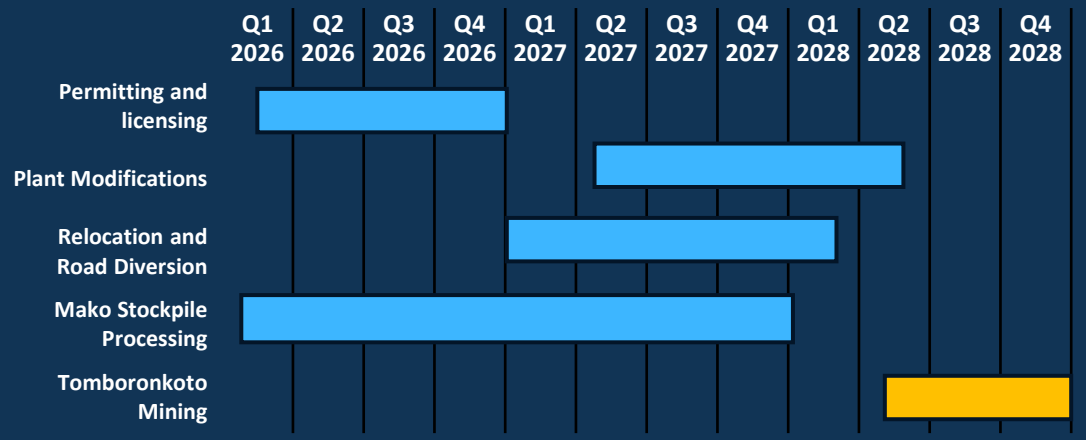

Strong government support – in Q4 a Resolute Delegation led by the CEO met the Minister of Mines (top) and the President (bottom)

ersonal use only

Mako Life Extension Project

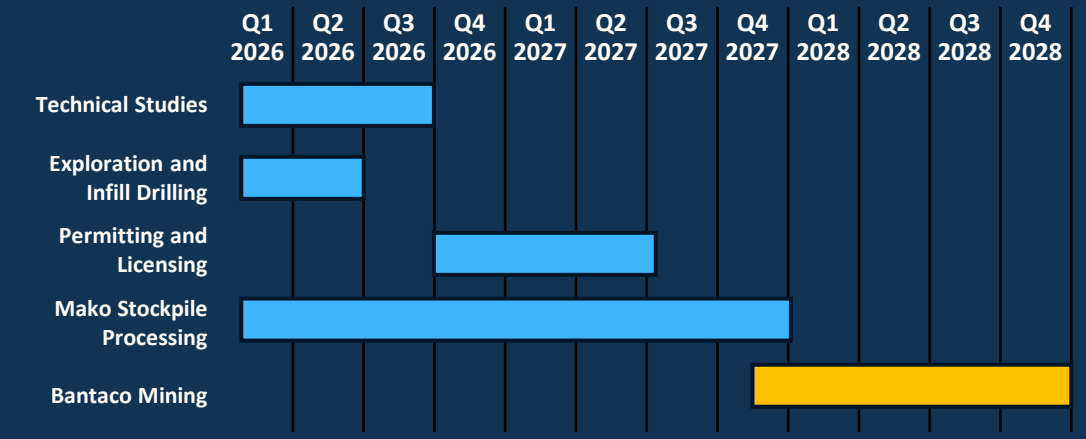

Tomboronkoto – 377 koz at 1.7 g/t

- ESIA report has been pre-validated by technical agencies in advance of ministerial approval
- Mining Permit application planned in Q1 following issuance of Environmental Permit; Mining Permit anticipated by end of 2026
- In 2026, detailed engineering expected to start in Q2 with procuring of long lead items from Q4

Bantaco – 266 koz at 1.1 g/t

- In Q4, $4.1 million of capital spent on infill drilling Bantaco South, metallurgical test work, progression of technical studies, ESIA and community engagement activities
- In 2026 the key workstreams are related to completing technical studies, infill drilling and permitting

ersonal use only

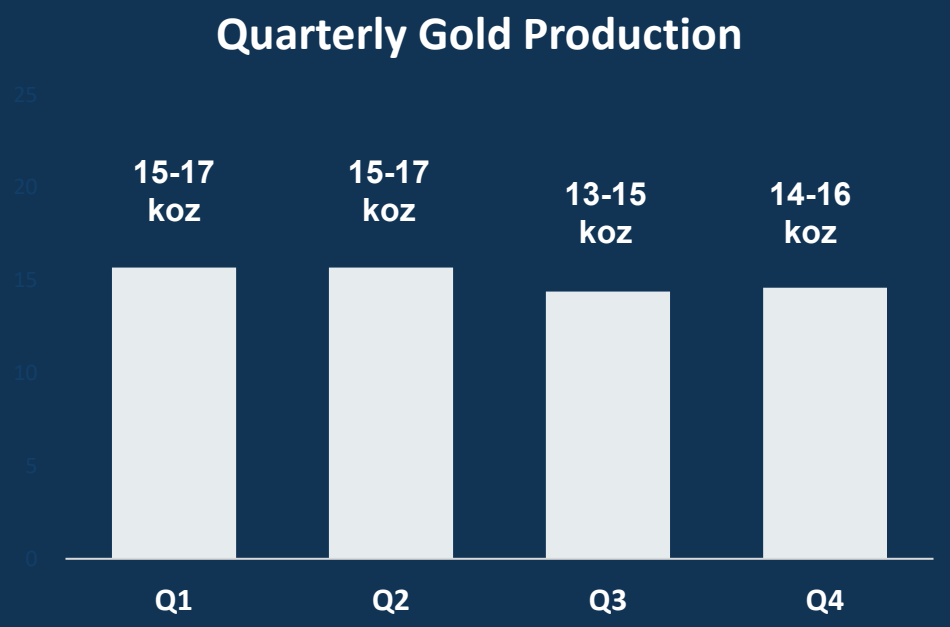

Full-year of stockpile processing

Mako Guidance

- Plant scheduled to process c. 2.2 Mt of stockpile material at an average grade of ~ 0.9 g/t and recovery of ~ 90%
- Gold production expected to be steady through out the year, although variability in stockpile grades is possible
- Stockpile processing to continue through end of 2027 at similar production levels to 2026
- AISC expected to be consistent throughout year (excluding impact of changes in gold price)

55 – 65 koz
Gold Production

$1,600-1,800/oz
AISC[1]

1. At $4,000/oz gold price

For personal use only

Exploration

ersonal use only

Strong exploration pipeline underpins future growth profile

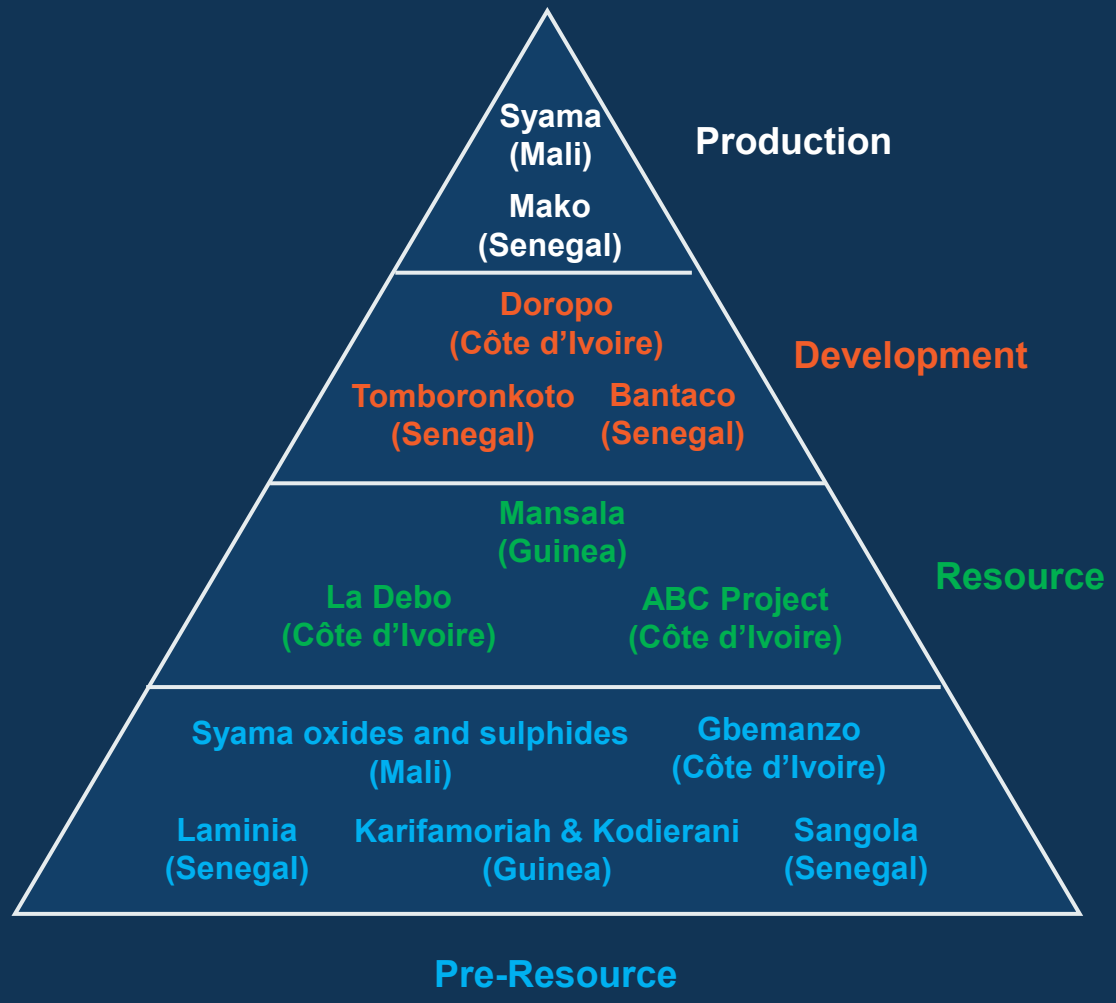

Highlights

2025 Activities ($24.1 million expenditure)

- **Senegal** – initial MRE at Bantaco (0.27 Moz)
- **Cote d'Ivoire** – updated MRE at Doropo (4.4 Moz) and La Debo (0.64 Moz)

2026 Activities ($15 - 25 million guidance):

- **Senegal:**
  - Infill and exploration drilling at Tomboronkoto and Bantaco
  - Test the identified gold targets on Laminia and Sangola permits
- **Cote d'Ivoire:**
  - **ABC Project -** Drilling on all four permits (Kona, Windou, Farako-Nafana and Gbemanzo); and scoping study for Kona
  - **La Debo** – Testing extensions of G3S mineralisation and scoping study
- **Guinea:**
  - Plan to restart exploration activities in country
  - Received first reconnaissance authorisation covering 83 km^2 in Siguiri Basin

ersonal use only

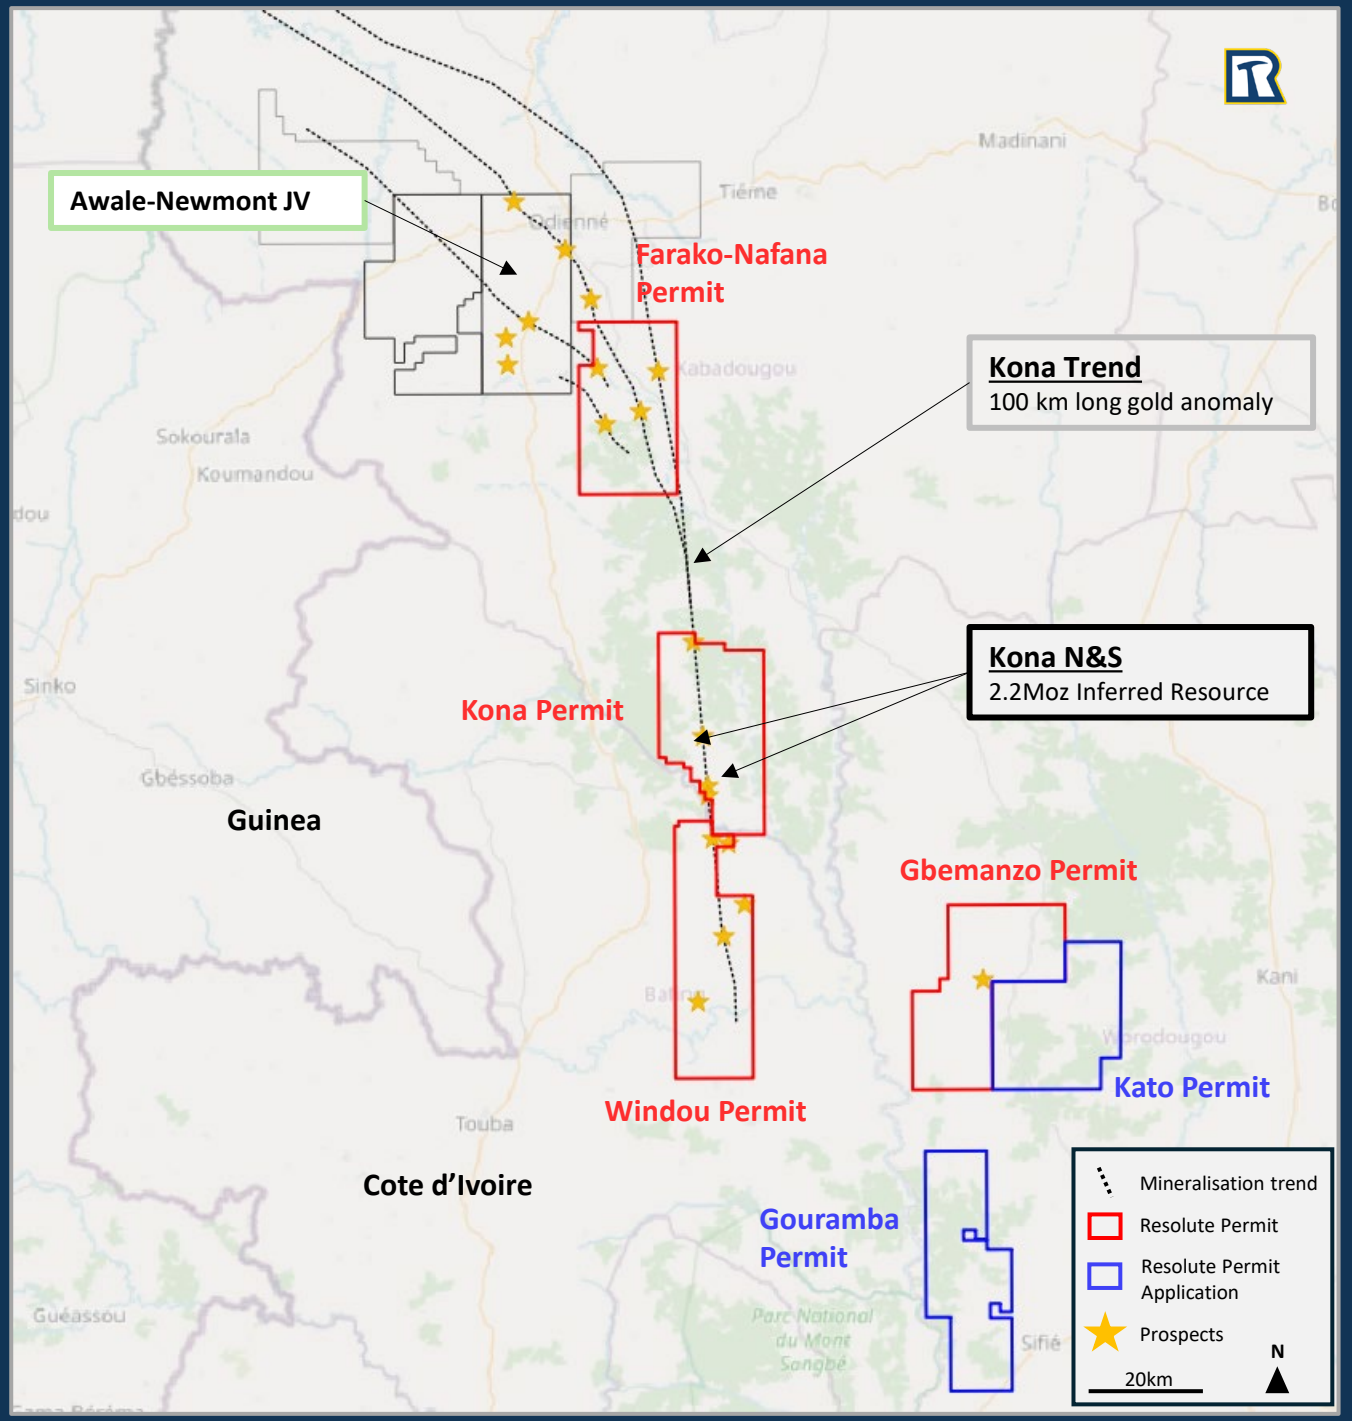

ABC Project

Q4 Key Activities

- In Q4 drilling commenced across the Farako-Nafana and Kona permits with c. 10,000m completed
- Drill highlights include:
  - Farako-Nafana - 31m grading 2.4 g/t from 13 m
  - Kona - 9m grading 2.4 g/t Au from surface

2026 Activities

- In 2026, continued drilling on Kona, Windou, Farako-Nafana and Gbemanzo permits with c. 20,000m planned
- Scoping Study is planned for Kona and is expected in early H2 2026

For personal use only

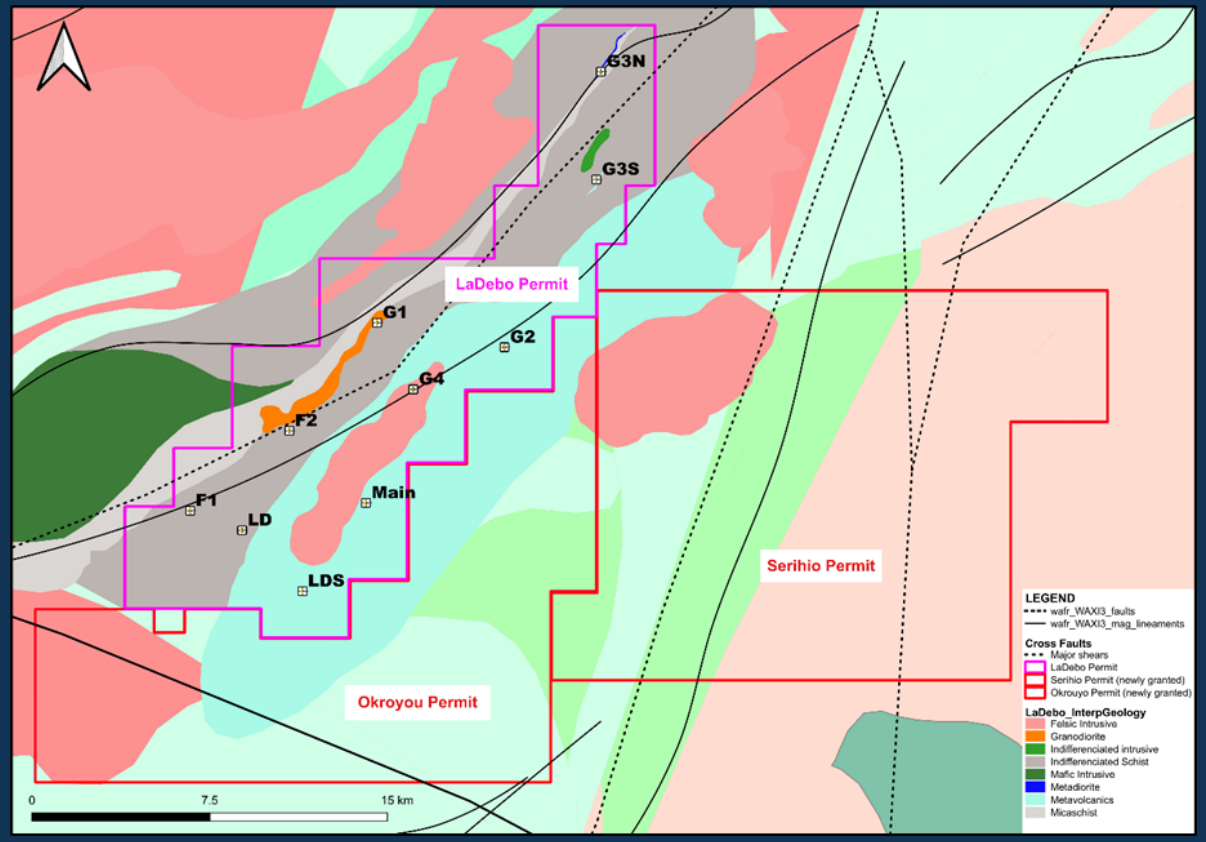

La Debo Project

Q4 Key Activities

- Updated MRE across G3S and G3N deposits of 643 koz grading 1.14 g/t Au
- Over 16,000 m of drilling completed in 2025

2026 Activities

- At least 3,500m of drilling planned to test high-grade extensions at G3S
- A strong gold anomaly at G1 prospect area to be drill tested in early 2026
- Scoping Study to evaluate La Debo planned and expected in early H2 2026

La Debo MRE (0.5 g/t cut off)			
Classification	**Tonnes**	**Grade (g/t Au)**	**Ounces (Au)**
G3N (Inferred)	8,580,000	0.94	259,000
G3S (Inferred)	8,978,000	1.33	384,000
Total	**17,559,000**	**1.14**	**643,000**

Upcoming Objectives

ersonal use only

Strong organic growth pipeline

Next Steps

	2026	2027	2028
Cote d'Ivoire	• Award of Doropo Mining Permit and FID • Commence Doropo construction activities • La Debo and Kona Scoping Studies	• Continue Doropo construction • Follow up studies at La Debo and ABC Project	• Doropo commissioning and ramp up
Mali	• Syama full potential study • SSCP full commissioning and ramp up	• Continued exploration of oxides and high-grade sulphides at Syama	• Transition to full sulphide processing
Senegal	• Tomboronkoto ESIA Approval • Apply for Tomboronkoto and Bantaco mining permit • Commence MLEP early works	• Commence mining activities at Bantaco • Completion of RAP at Tomboronkoto	• Commence mining activities at Tomboronkoto
Targeted Group Production (koz)	**250 – 275**	**~250 – 275**	**400 +**

ersonal use only

Resolute Summary

- Achieved 2025 production guidance of 275 - 285 koz
- Net cash position of $209.1 million and strong free cash flow generation
- Committed to geographical diversification and further operating mines in new jurisdictions
- Advancing strategic initiatives across Côte d'Ivoire, Mali and Senegal
- On growth pathway to deliver targeted annual production of over 500koz by end of 2028
