Retraction: Scoping Study for ABC Project announcement

Resolute Mining Limited (ASX/LSE: RSG; **Resolute** or the **Company**) is advising the market that the Company wishes to retract the ASX Announcement titled *Scoping Study Confirms Attractive Economics and Growth Potential at ABC Project, Côte d'Ivoire* released on the ASX Market Announcements Platform on 13 May 2026 (**the Announcement**).

The production targets and profile referred to in the Scoping Study (and the financial forecasts based on those) utilize 100% inferred resources.

Following consultation with ASX, the Company has been advised that it did not have a reasonable basis for those forward-looking statements due to the reliance on inferred resources in the production targets, resulting in the published production targets and forecast financial information being inconsistent with the requirements of the ASX Listing Rule 5.16 6. As a result, the Company requested a voluntary trading halt whilst the Company worked with the ASX on resolving the disclosure requirements.

Investors should not rely on the retracted Announcement as a basis for an investment decision.

This announcement has been authorized for release by Chris Eger, Managing Director and Chief Executive Officer.
