Section 3: Disclosure required for Placements made under Rule 4.5.1

Details of the approach in identifying investors who were able to participate in the offer and how their respective allocations in the offer were determined.

The explanation must set out the key objectives and criteria the Issuer adopted in the allocation process, whether one of those objectives was a best effort to allocate on a pro rata basis to existing holders of the Issuer's Equity Securities, and any significant exceptions or deviations from those objectives and criteria.

As part of the Retail Offer, Pacific Edge agreed to use its remaining available placement capacity under NZX Listing Rule 4.5.1 to issue Shares under that rule to those eligible New Zealand shareholders (or eligible New Zealand beneficial owners, in the case of holdings held by custodians) that participated in PEB's previous share purchase plan launched on 17 July 2025 ("**2025 SPP**") and participate in the Retail Offer, and whose allocations under the share purchase plan component of the Retail Offer have been adjusted down because of the NZ\$50,000 limit in the NZX Listing Rules on the amount that each such shareholder can participate in share purchase plans within 12 months of each other ("**Relevant Shareholders**") (the NZ\$ amount of the adjustment down in allocation for each Relevant Shareholder, being that shareholder's "**Shortfall**"). Under the Retail Offer, the amount of Shares to be issued under NZX Listing Rule 4.5.1 to each Relevant Shareholder will not exceed that Relevant Shareholder's Shortfall divided by the Retail Offer issue price of NZ\$0.170 (being that shareholder's "**Shortfall Entitlement**").

The only investors able to be issued Shares under the Retail Offer in reliance on NZX Listing Rule 4.5.1 were the Relevant Shareholders.

The key objective in the allocation process was to use Pacific Edge's available placement capacity to permit Relevant Shareholders to receive in the Retail Offer the same (or as near as possible the) number of Shares that they would have been able to receive in the Retail Offer had they not participated in the 2025 SPP. Given the total Shortfall Entitlements of all Relevant Shareholders exceeded Pacific

² Continuous issuers using this form in reliance on Rule 3.13.2, please indicate the period during which the relevant issue/acquisition/redemptions were made (for example, 1 January 2019 to 31 January 2019).

For personal use only

	<p>Edge’s available placement capacity under NZX Listing Rule 4.5.1, the criteria that Pacific Edge adopted in the allocation process was to allocate shares under NZX Listing Rule 4.5.1 to the Relevant Shareholders in proportion to their holding of Shares at 7:00pm NZST on the Retail Offer record date of 8 May 2026, up to a limit for each Relevant Shareholder of their Shortfall Entitlement. There were no significant exceptions or deviations from this objective and criteria.</p>
