Forward Looking Statements

This presentation contains certain forward-looking statements with respect to Ramelius Resources Ltd's (Ramelius) financial condition, results of operations, production targets and other matters that are subject to various risks and uncertainties. Actual results, performance or achievements could be significantly different from those expressed in or implied by those forward-looking statements. Such forward looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors that are beyond the control of Ramelius that may cause actual results to differ materially from those expressed in the forward-looking statements contained herein. Ramelius gives no warranties in relation to the information and statements within this presentation.

Competent Persons Statement

The Information in this report that relates to Exploration Results, Exploration Targets, Mineral Resources and Ore Reserves is based on information compiled by Peter Ruzicka (Exploration Results), Jake Ball (Exploration Targets and Mineral Resources) and Paul Hucker (Ore Reserves), who are Competent Persons and Members of The Australasian Institute of Mining and Metallurgy. Peter Ruzicka, Jake Ball and Paul Hucker are employees of the Company and have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Peter Ruzicka, Jake Ball and Paul Hucker consent to the inclusion in this report of the matters based on their information in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affects the information included in this presentation and that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

Non-IFRS Financial Information

The Group results are reported under International Financial Reporting Standards (IFRS). This presentation also includes non-IFRS information including All-in Sustaining Cost (AISC) and All-in Cost (AIC). The non-IFRS information has not been subject to audit or review by the Group's external auditor and should be used in addition to IFRS information.

Previously Reported Information

Information in this report references previously reported results, production targets and resource and information extracted from the Company's ASX announcements cross-referenced within the report. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters continue to apply and have not materially changed.

Key Highlights | June 2026 Quarter

Production & Costs

- Quarterly gold production of **53,466 ounces at an AISC of A$1,973/oz**[1]
- **Never Never underground** ore processed, making up **40% of gold production** for the Quarter

Cash & gold

- **Cash & gold of A$649.6M** (March 2026: A$606.5M), **operating cash flow of A$191.2M and underlying free cash flow of A$138.3**

Projects

- **Dalgaranga** focussed on paste plant construction and other site infrastructure, underground pump station commissioned and in use
- **Mt Magnet** plant upgrade focussed on plant engineering works and preliminary site establishment
- Refurbishment commenced on existing circuit (Circuit 1)
- Front End Engineering Design (FEED) on new circuit underway, EPC contract targeted for September 2026 Quarter (Circuit 2)
- EPA authorised Roe area of **Rebecca-Roe Project** to proceed through established Part V approval and licencing process

Exploration

- Exceptional drilling results at virtually all exploration projects focussing on extensional mine-life at existing operations[2]
- 8 surface rigs and 4 underground rigs in use, exploration spend (including resource definition) in the Quarter was A$33.9M

Corporate

- **Share buybacks** totalling A$30.5M, taking the total for FY26 to **A$140.7M**, 56% of the A$250M share buyback program[3]
- Payment **of fully franked interim dividend of A$0.03cps**[4], exceeding annual minimum dividend level (A$0.02cps)
- **Sale of Edna May hub** to Forrestania Resources for **A$300M** comprising A$210M in cash and A$90M in Forrestania shares[5], completion expected in September 2026 Quarter

Key Highlights | a recap on FY26

Production & Costs

- Annual gold production of **192,182 ounces at an AISC of A$1,983/oz**[1] (A$1,840/oz excluding the A$143/oz accounting adjustment on early declaration of commercial production at Never Never underground mine) - **Production Guidance met for the 6th consecutive year** and revised AISC Guidance
- **Successful development of Never Never underground mine** with the haulage and processing of ore commencing in the March 2026 Quarter

Cash & gold

- **Cash & gold of A$649.6M** (March 2026: A$606.5M), **operating cash flow of A$764.2M** and **underlying free cash flow of A$393.3M**

Projects

- Finalised Never Never PFS and Mt Magnet Integration Studies[2] along with maiden **Never Never underground Ore Reserve of 1.6Moz**[2]
- **Rebecca-Roe Project DFS**[3] completed with **FID obtained**, subject to environmental permitting for Roe
- **Native Title Mining Agreement**[4] executed for Rebecca-Roe Project

Exploration[5]

- Excellent results returned across FY26 with an ongoing focus at Cue, Galaxy and Gilbey's
- Total exploration investment of A$103.9M with similar **budget of A$90 – 110M approved for FY27**

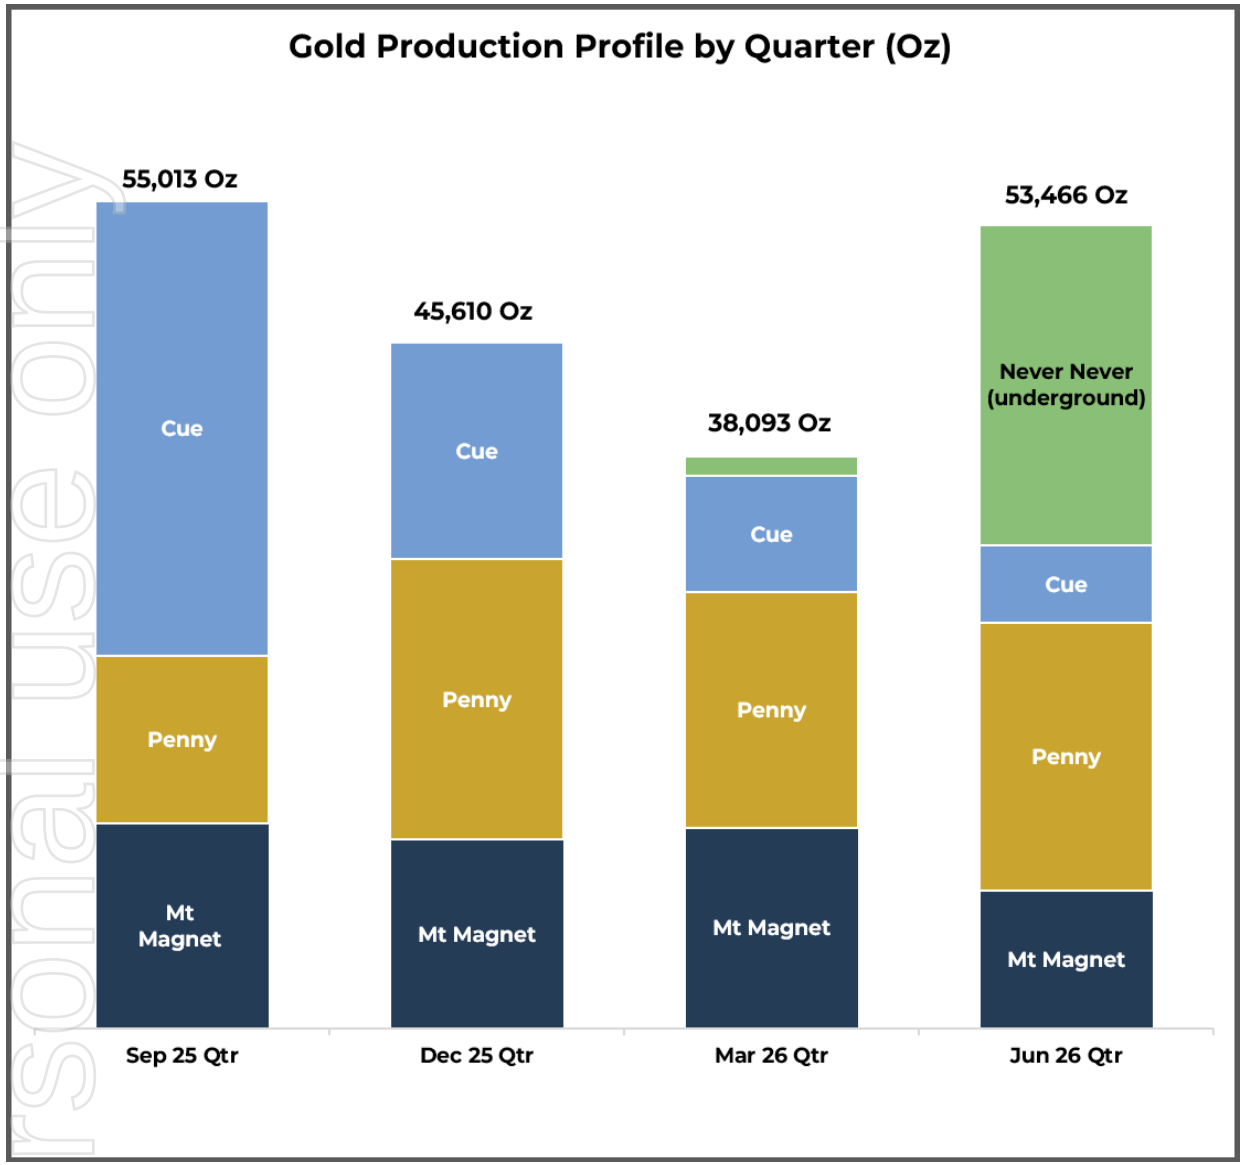

Corporate

- **Share buybacks** totalling **A$140.7M**, 56% of the A$250M share buyback program
- Payment of **fully franked dividends of A$153.0M** (FY25 final and FY26 interim)
- Completed the **acquisition of Spartan Resources Limited** (Dalgaranga)
- **Sale of Edna May hub** to Forrestania Resources for **A$300M**

ersonal use only

Gold Production by Quarter

ersonal use only

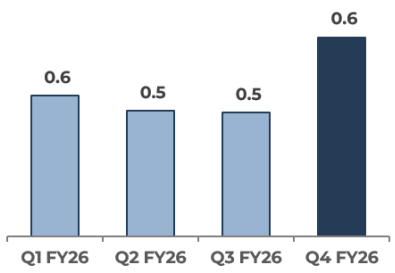

Mining & Gold Production | positive impact of Never Never ore

ersonal use only

ORE TONNES MINED

0.6Mt

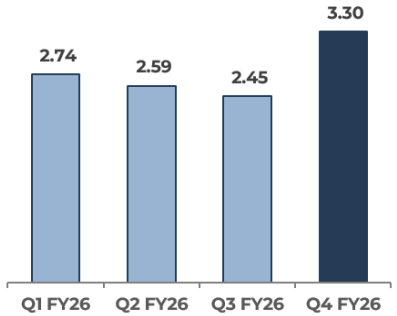

Increased underground mining at Galaxy (up 37%) and Never Never (up 133%)

MINED GRADE

3.30g/t

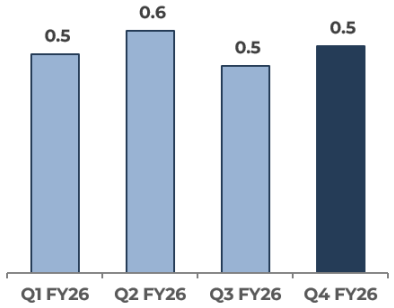

35% increase in mined grade with more ore being mined from higher grade underground mines

ORE TONNES MILLED

0.5Mt

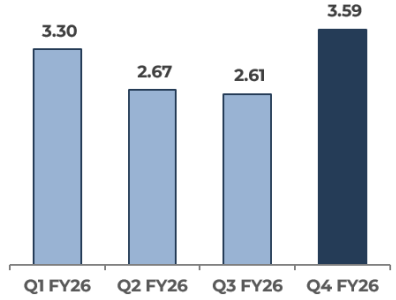

March Quarter impacted by planned 6-day mill shutdown in Quarter

MILLED GRADE

3.59g/t

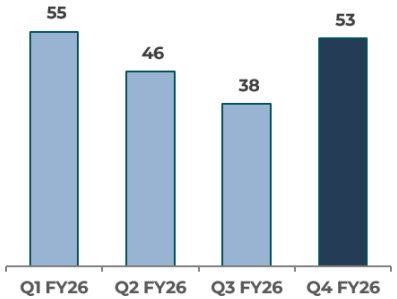

In line with improved mined grades and higher proportion of underground ore (higher grade) in ore blend.

GOLD PRODUCTION

53koz Au

FY26 production of 192,182 ounces meeting Guidance (185,000 – 205,000 ounces)

Dalgaranga | outstanding site project progress

- Never Never transitioned to **commercial production** in March 2026, three months earlier than initially expected based on improved gold price and mined grades.
- **Capital works progressing well** focus on paste plant and site infrastructure. **Underground pump station commissioned** and in use.
- **1,754 metres of lateral development** (FY26: 5,698 metres under Ramelius ownership)
- **115kt of ore mined** at a grade of **5.95g/t** (FY26: 181kt at 5.06g/t) from underground
- **Never Never open pit** moved 847kbcm for 69kt at a grade of 2.15g/t (FY26: 1,526kbcm for 79kt at 2.10g/t)
- A total of **146kt or ore processed** at a grade of **5.37g/t** (FY26: 153kt at 5.53g/t). No open pit ore processed with higher grade underground ore taking priority
- Initial **metallurgical recoveries are better than modelled**. Additional analysis will be completed over the coming months to validate and confirm an updated recovery percentage as more material is processed

Underground pump station

Surface workshop

ersonal use only

Financials | cash generation increasing

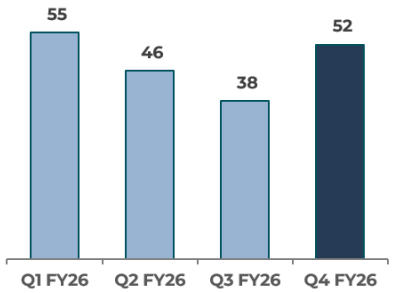

ersonal use only

GOLD SALES

52k

ounces of gold

In line with increased gold production

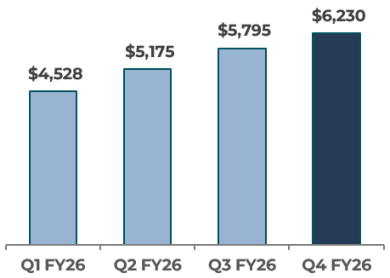

REALISED GOLD PRICE

A$6,230

dollars per ounce

Up 8% Q-on-Q, no hedge commitments in Q4

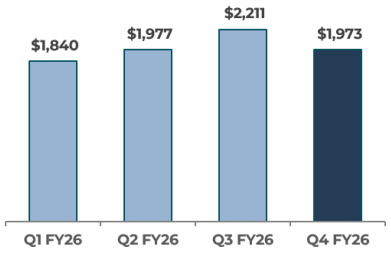

AISC

A$1,973

dollars per ounce

11% reduction from Q3 with higher mill grades. **AISC margin of A$4,257/oz (68%)** (beating last Quarters best on record)

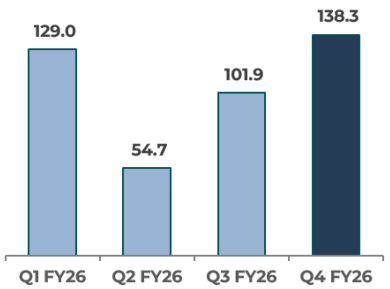

FREE CASH FLOW[1]

A$138.3

million

After growth capital of A$42.1 million and exploration of A$33.9 million

Best Quarter of FY26

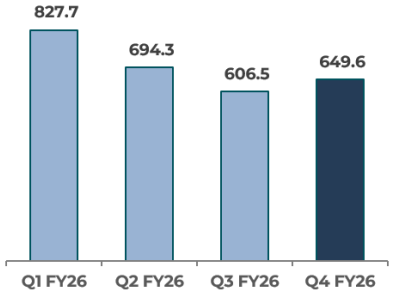

CASH & GOLD

A$649.6

million

After interim dividend payment of A$54.1 million (cash component) and A$30.5M share buybacks

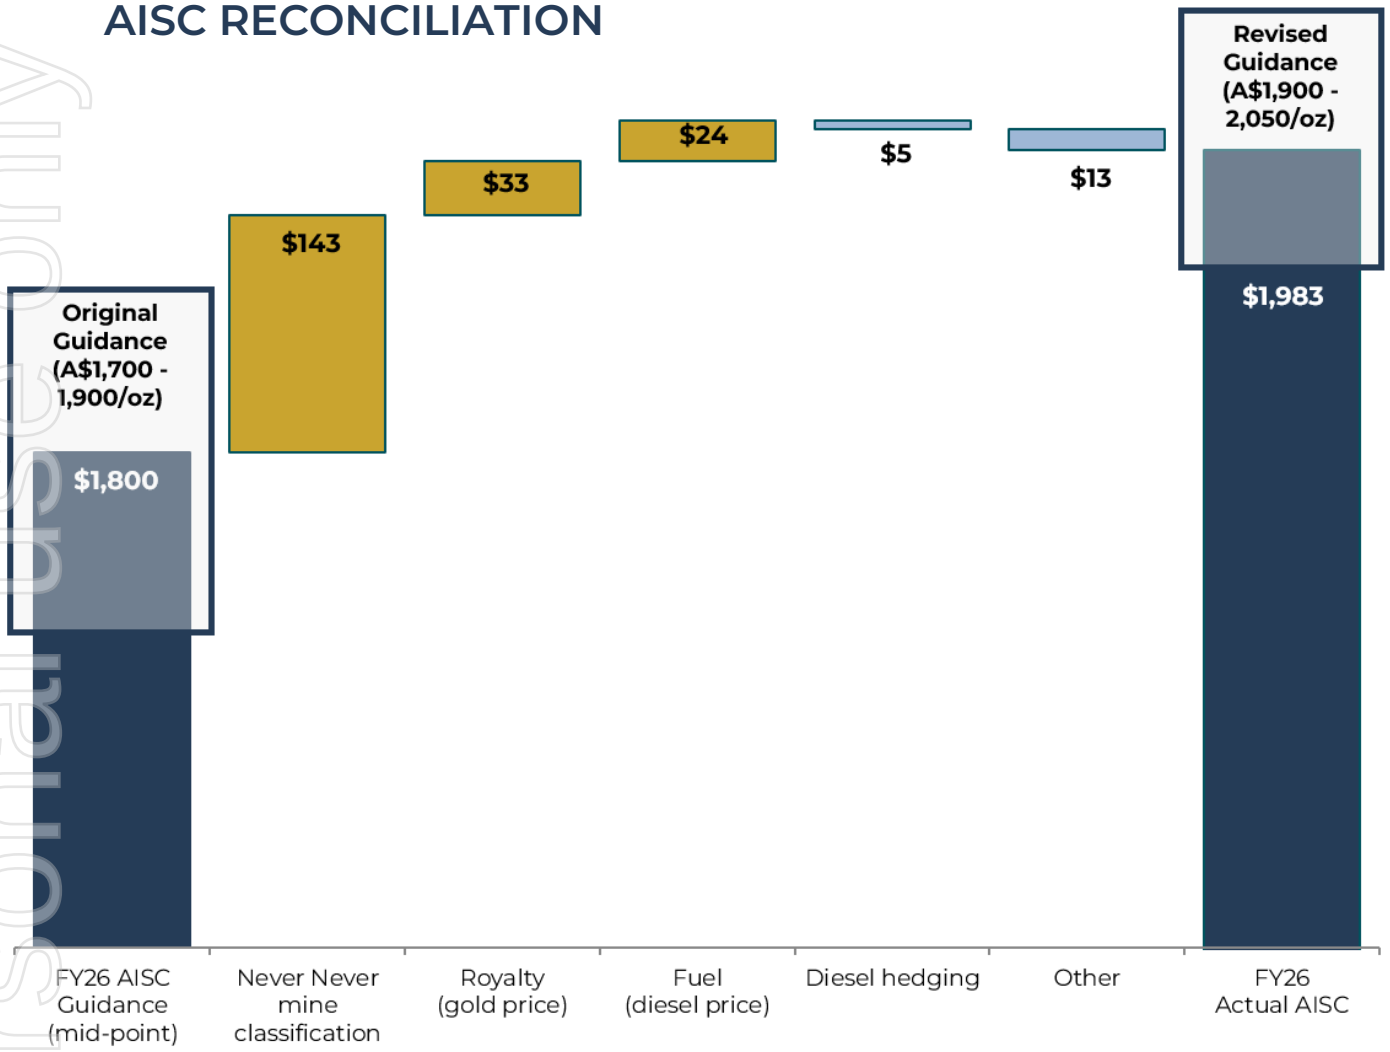

NOTES

[1] Free cash flow represents the underlying free cash flow which is total cash flow before one-off cash flows such as acquisitions and investments, taxes, stamp duty payments, hedge book closure and predelivery and dividends / share buybacks

AISC | low-cost operation with more high-grade to come

AISC RECONCILIATION

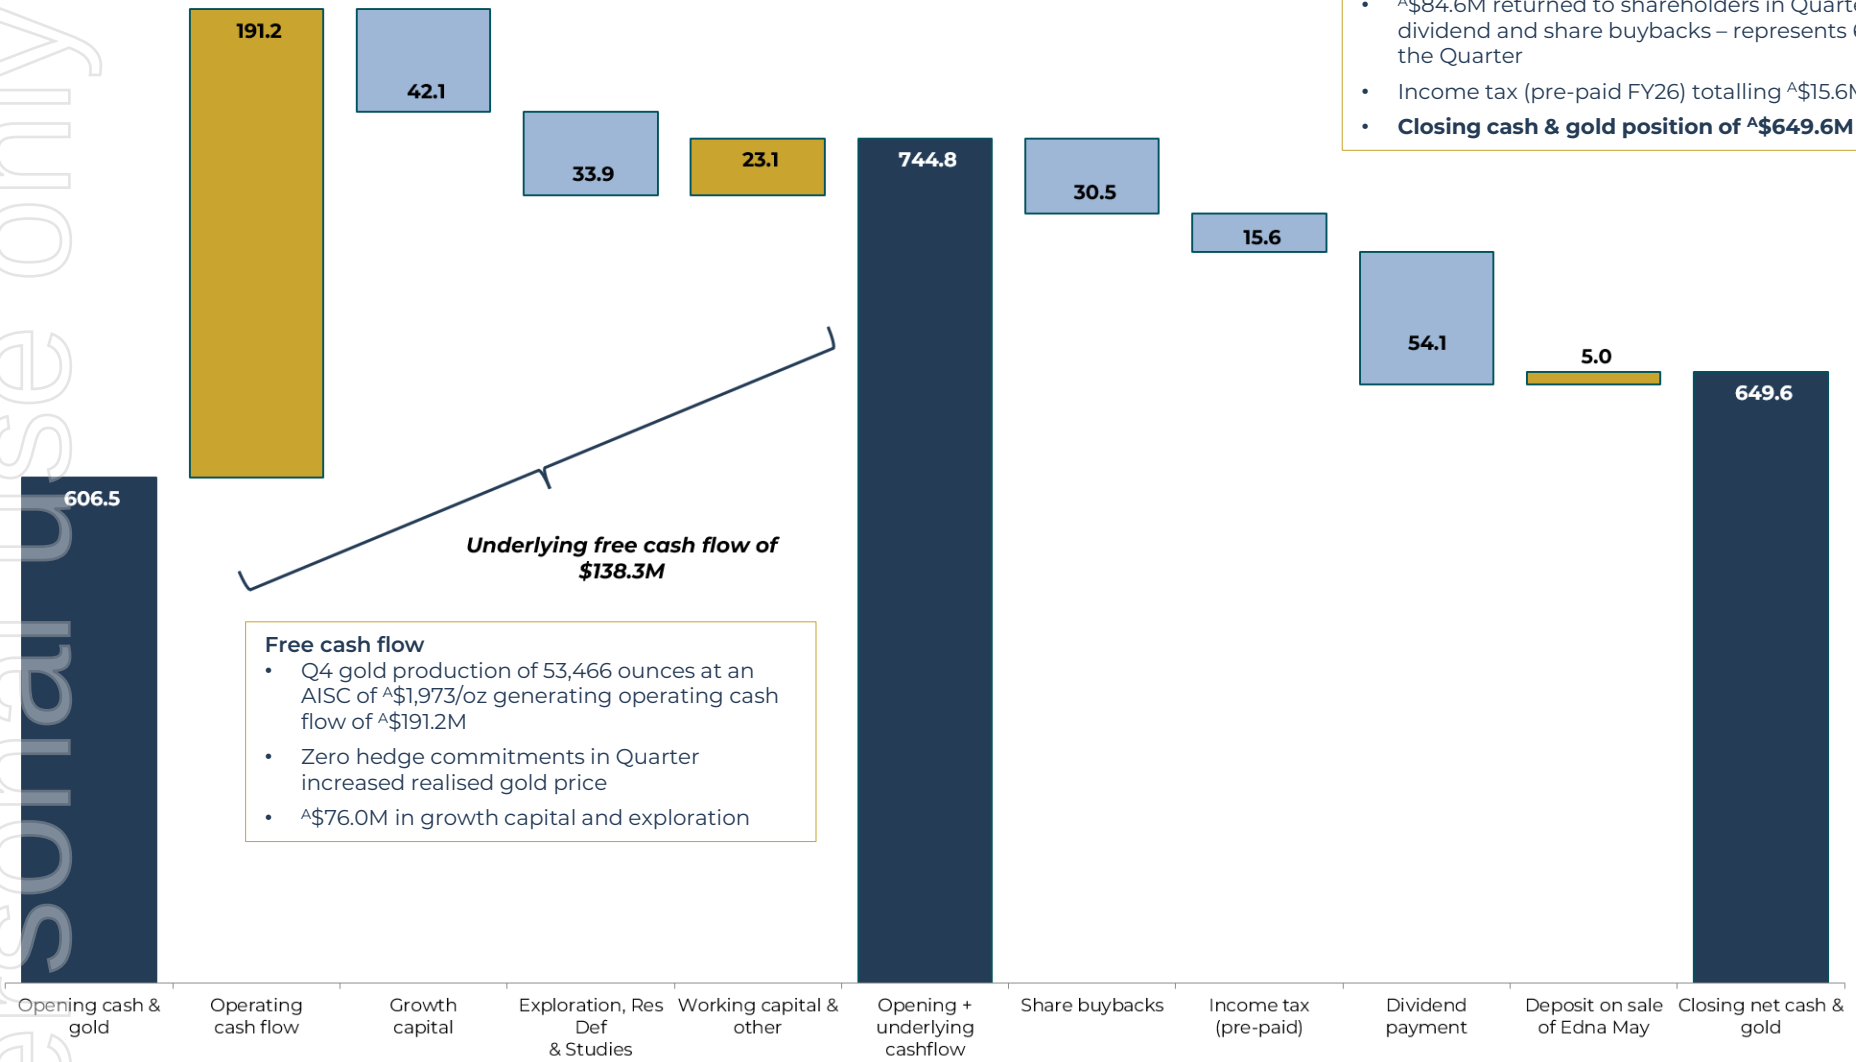

- Excluding the earlier than expected commercial production (capital allocation change) from Never Never, the **AISC for FY26 was A$1,840/oz,** meeting initial Guidance (A$1,700 - 1,900/oz)
- Importantly, the **total costs for Never Never are in line with Guidance**, however some costs now categorised "sustaining" as opposed to "growth"
- Other drivers of the increased AISC have been the **higher royalties** associated with the higher gold price (Guidance was based on A$4,750/oz) and **higher diesel costs**
- A portion of the impact of higher diesel costs has been managed with the hedging of diesel usage

personal use only

June Cash Flow | ~60% of underlying FCF returned to shareholders

QUARTERLY MOVEMENT IN CASH & GOLD

Free cash flow

- Q4 gold production of 53,466 ounces at an AISC of A$1,973/oz generating operating cash flow of A$191.2M
- Zero hedge commitments in Quarter increased realised gold price
- A$76.0M in growth capital and exploration

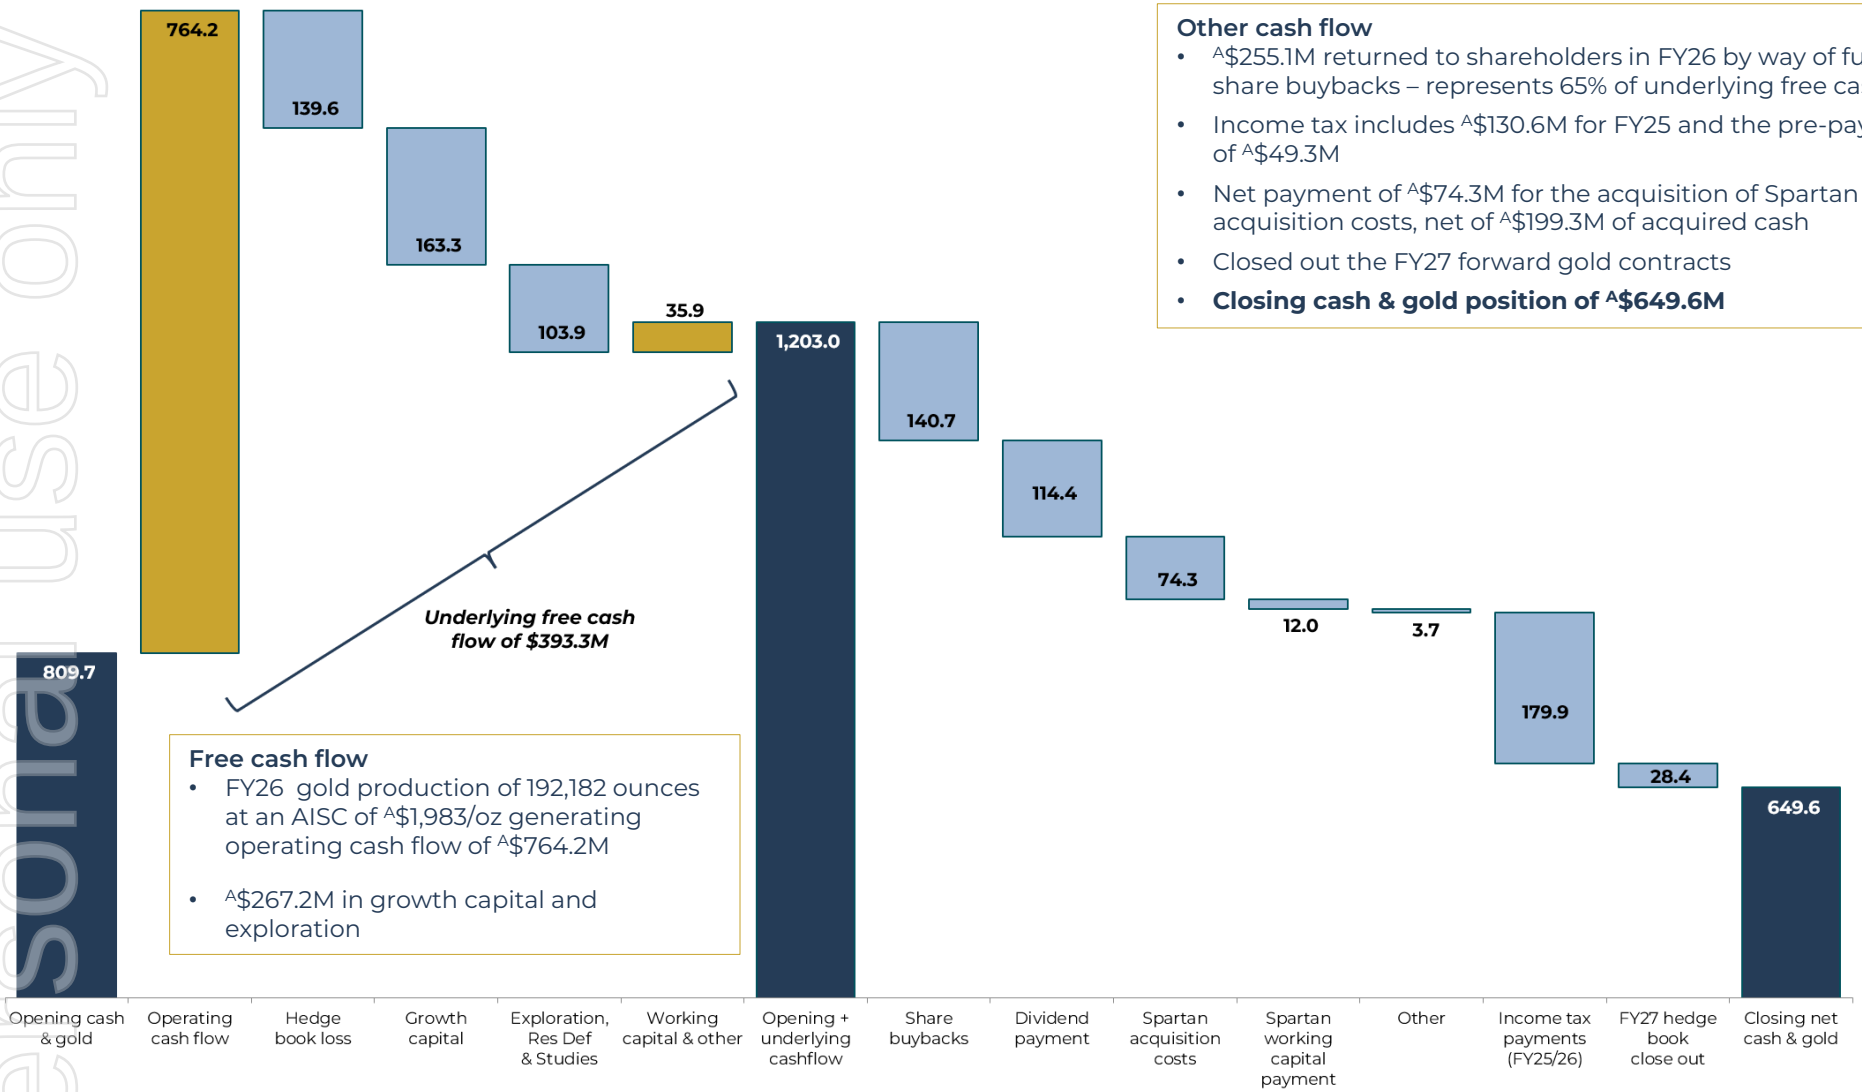

Other cash flow

- A$84.6M returned to shareholders in Quarter by way of fully franked FY26 interim dividend and share buybacks – represents 60% of underlying free cash flow generated in the Quarter
- Income tax (pre-paid FY26) totalling A$15.6M
- **Closing cash & gold position of A$649.6M**

personal use only

FY26 Cash Flow | strong cash flow generation as we invest in the future

FY26 MOVEMENT IN CASH & GOLD

Free cash flow

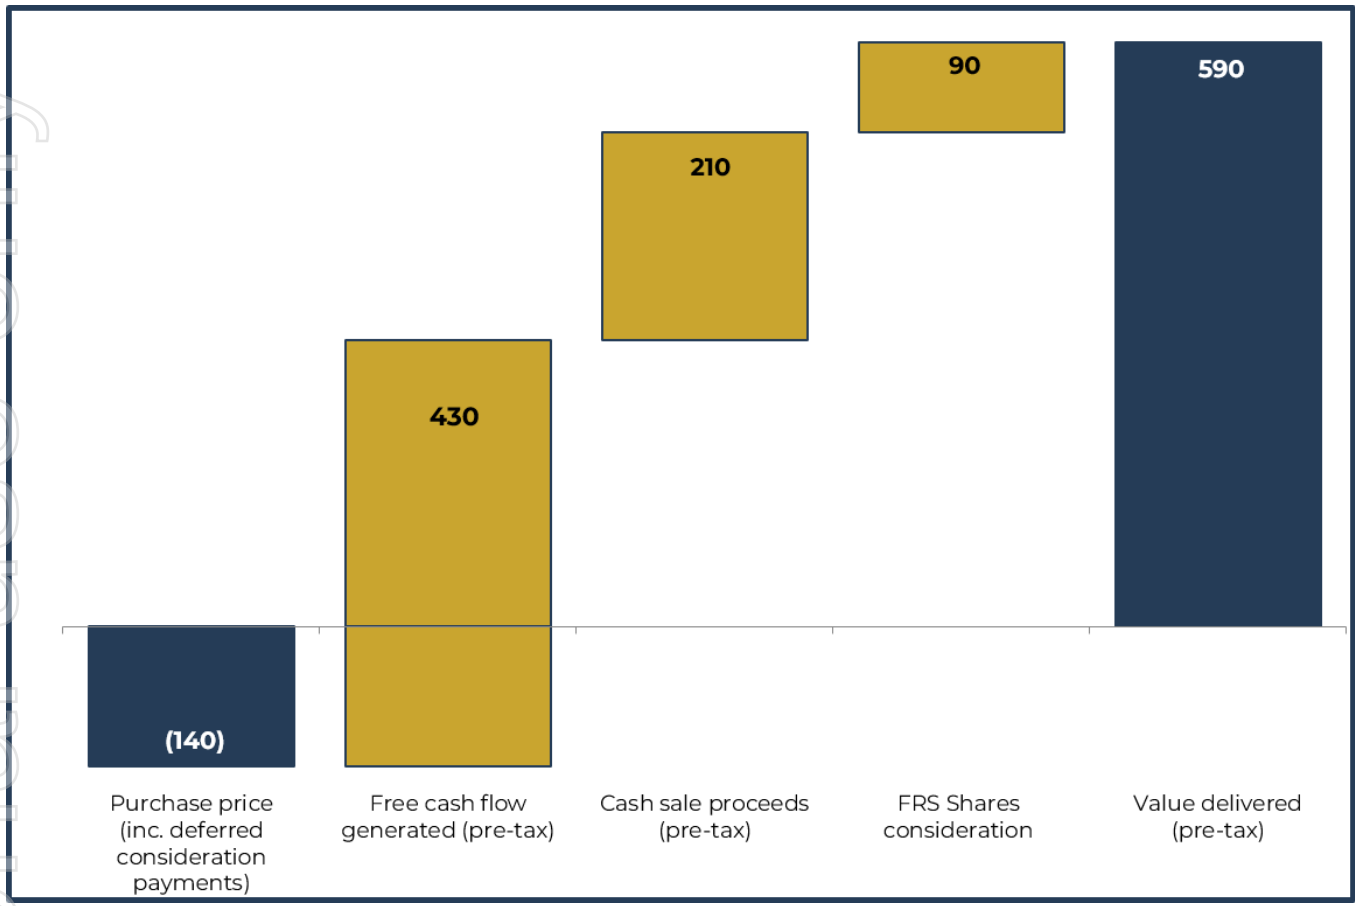

- FY26 gold production of 192,182 ounces at an AISC of A$1,983/oz generating operating cash flow of A$764.2M
- A$267.2M in growth capital and exploration

Other cash flow

- A$255.1M returned to shareholders in FY26 by way of fully franked dividends and share buybacks – represents 65% of underlying free cash flow generated
- Income tax includes A$130.6M for FY25 and the pre-payment of FY26 income tax of A$49.3M
- Net payment of A$74.3M for the acquisition of Spartan Resources, including acquisition costs, net of A$199.3M of acquired cash
- Closed out the FY27 forward gold contracts
- **Closing cash & gold position of A$649.6M**

personal use only

Edna May sale | exceptional value creation

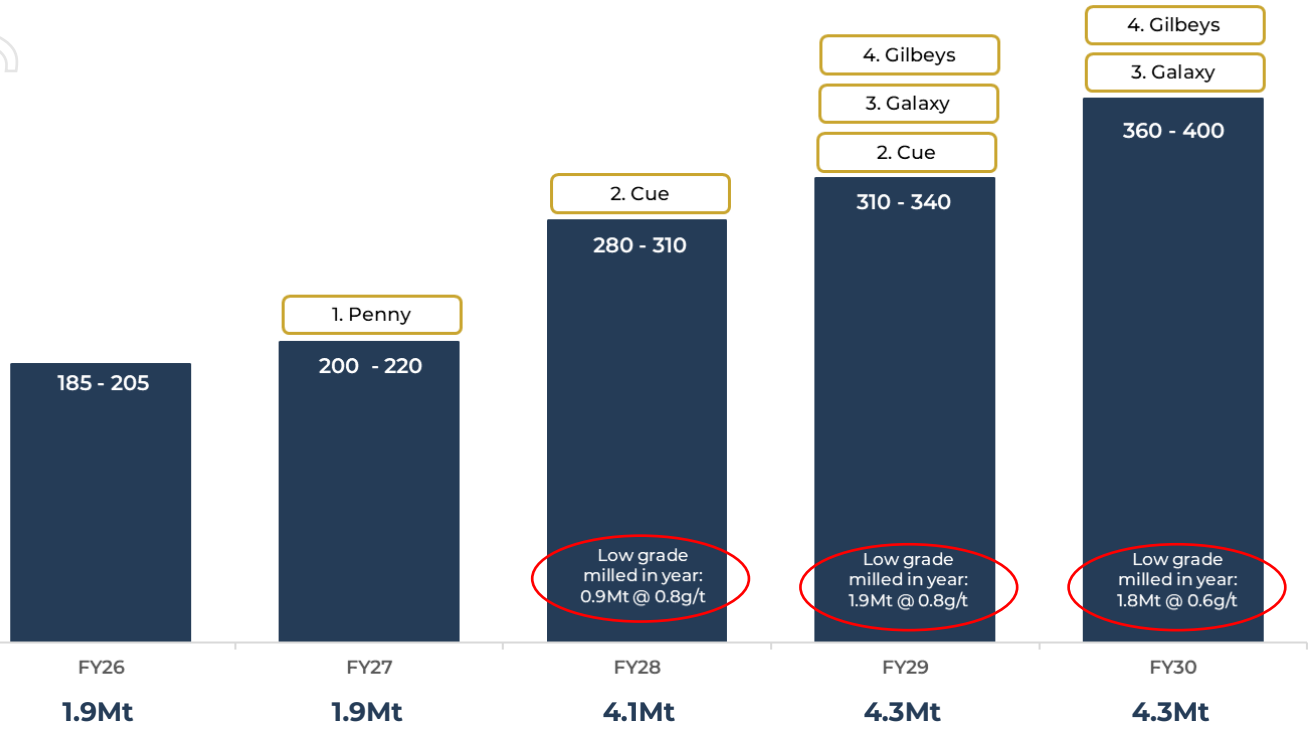

- Acquisition cost of Edna May (A$59M), Tampia (A$79M), & Symes (A$2M) of **A$140M**
- Generated **A$430M**[1] in pre-tax free cash flow under the operation of Ramelius
- Total sale proceeds of **A$300M**[1] with A$210M in cash and A$90M in Forrestania shares
- Ramelius will be an ~10% shareholder in Forrestania retaining upside to the future development of Edna May

NOTES
[1] Values based on sales proceeds (yet to be received), before tax and unaudited

ersonal use only

Mt Magnet | exploration success leads to production upside

Mt Magnet 5-year production profile (koz) & low-grade

Mt Magnet Hub drill rigs: 8 surface rigs + 4 underground rigs

Opportunities to displace low-grade

1. **Penny:** extensions to Penny West to the south
   - FY26 exploration spend of A$7.0M
   - Mine plan to extend into FY27
2. **Break of Day & Lena (Cue):** underground extensions
   - FY26 exploration spend of A$16.8M
   - Mine plan to extend beyond FY27
3. **Galaxy (Mt Magnet):** Exploration Target 6-7Mt at 2.1–2.6 g/t for 400-600koz[1,3]
   - FY26 exploration spend of A$23.0M
   - Mine plan to extend beyond FY28
4. **Gilbeys (Dalgaranga):** Exploration Target 2.1–4.7Mt at 1.5–2.0 g/t for 100-300koz[2,3]
   - FY26 exploration of A$14.3M
   - Mine plan to add Gilbeys U/G from FY29

NOTES

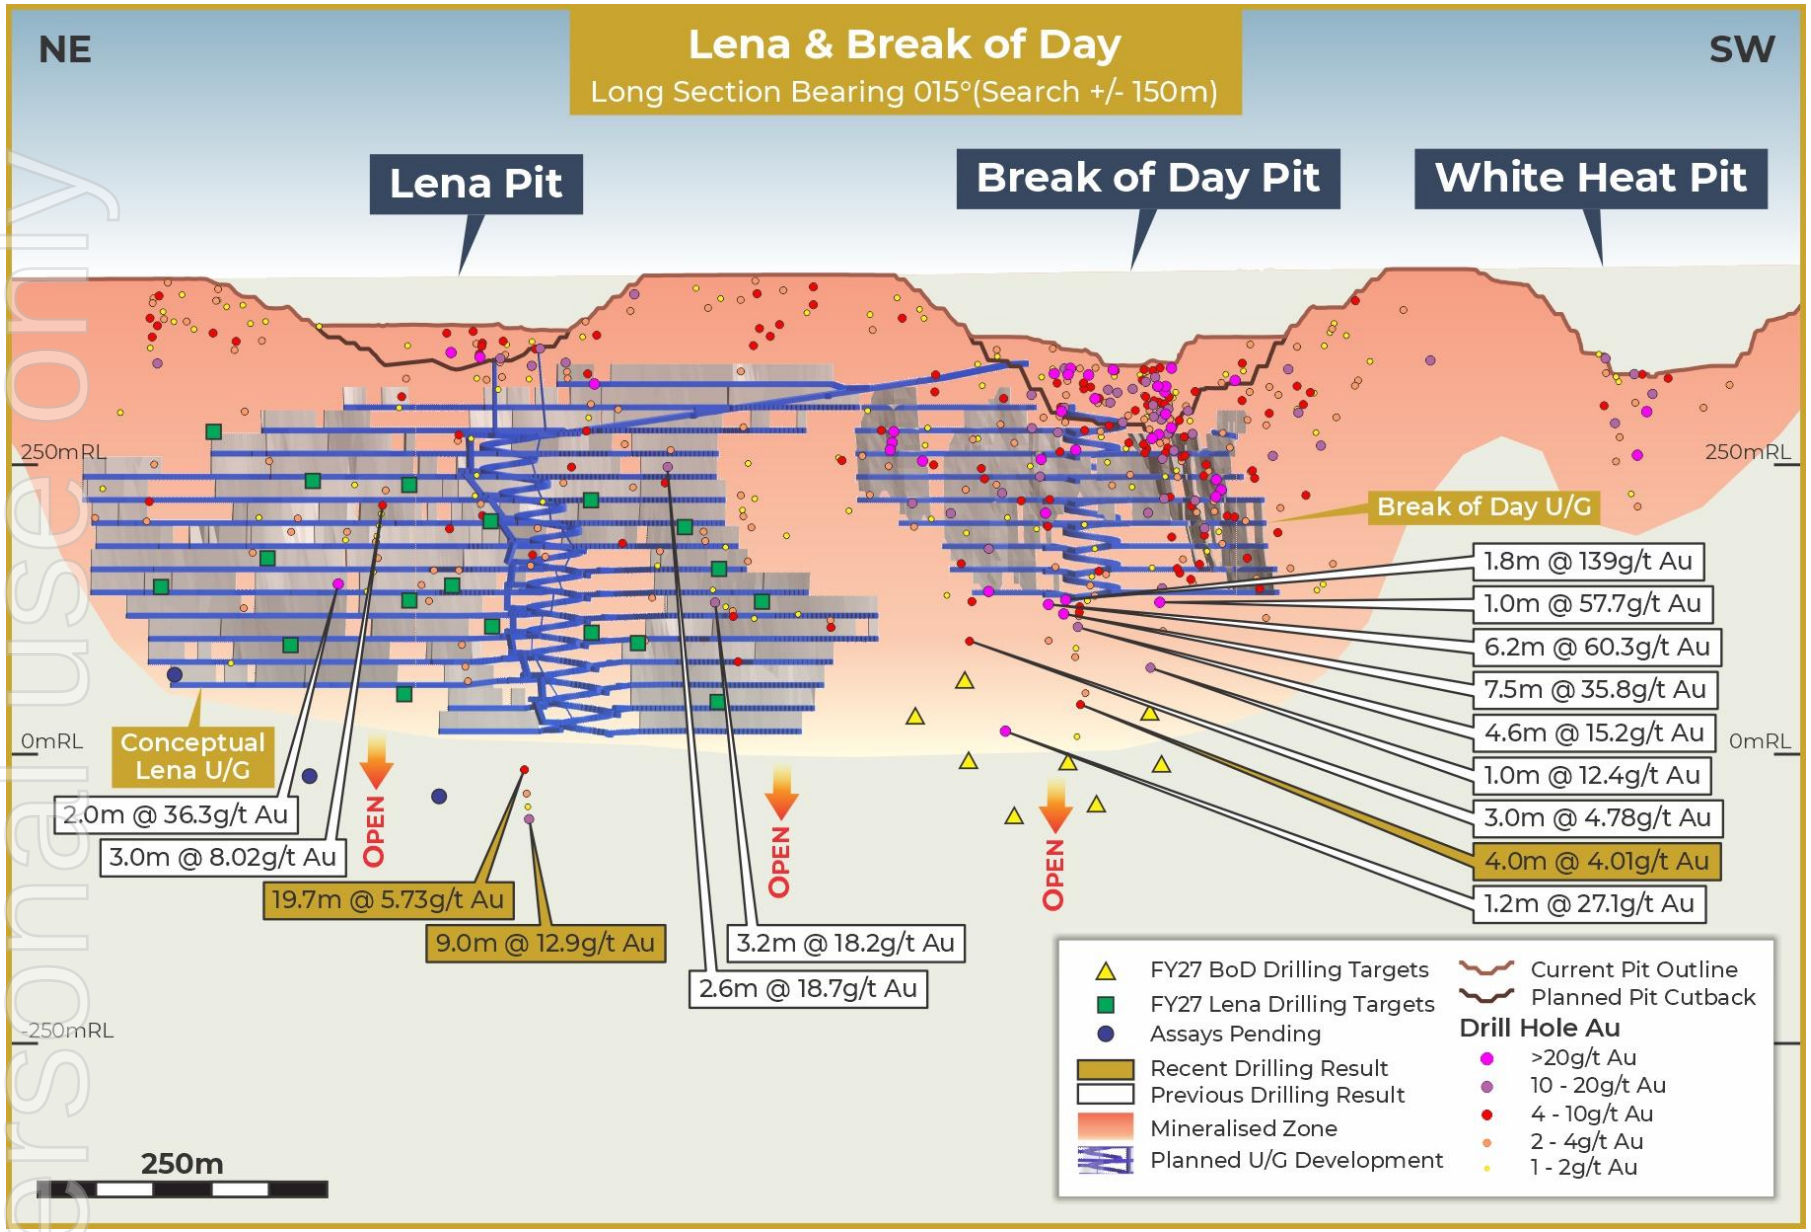

1 See RMS ASX Release "Exploration Update – High-Grade Strategy & Discovery", 22 July 2026

2 See RMS ASX Release "Dalgaranga Exploration Update", 22 April 2026

3 The potential quality and grade of the Exploration Target is conceptual in nature; there has been insufficient exploration conducted to determine a Mineral Resource and there is no certainty that further exploration work will result in the estimation of a Mineral Resource or that an Exploration Target will be realised

ersonal use only

Cue | Break of Day extensions and Lena underground potential

Recent results[1] include:

Lena

- 19.7m at 5.73g/t
- 9.0m at 12.9g/t

Break of Day

- 4.0m at 4.01g/t

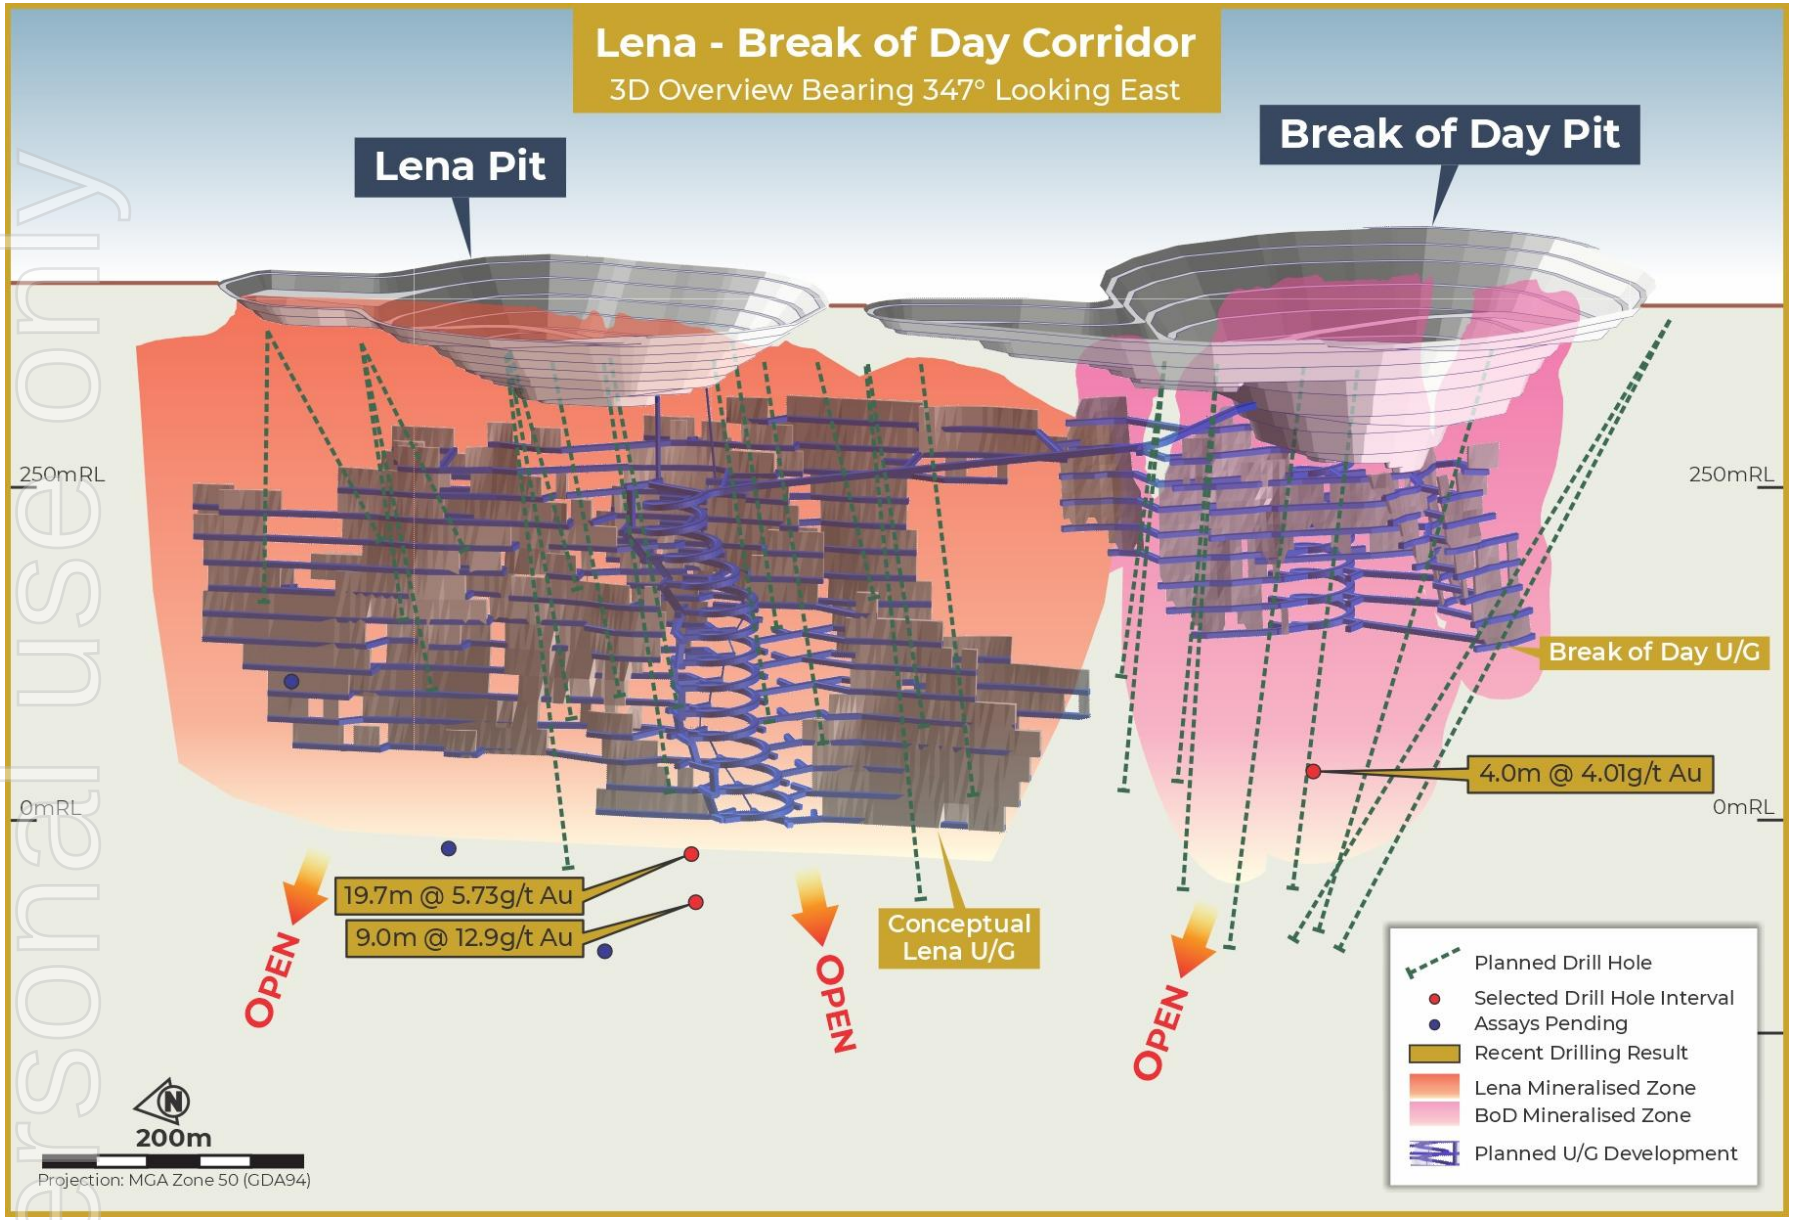

Lena conceptual design adds significant mine life to the Break of Day underground project

NOTES

1 See RMS ASX "Exploration Update – High-Grade Strategy & Discovery", 22 July 2026

personal use only

Cue | Break of Day extensions and Lena underground potential

Current Mineral Resources:

Break of Day Underground

- 250Kt at 8.9g/t for 72koz[1]

Lena Underground:

- 910Kt at 3.6g/t for 110koz[1]

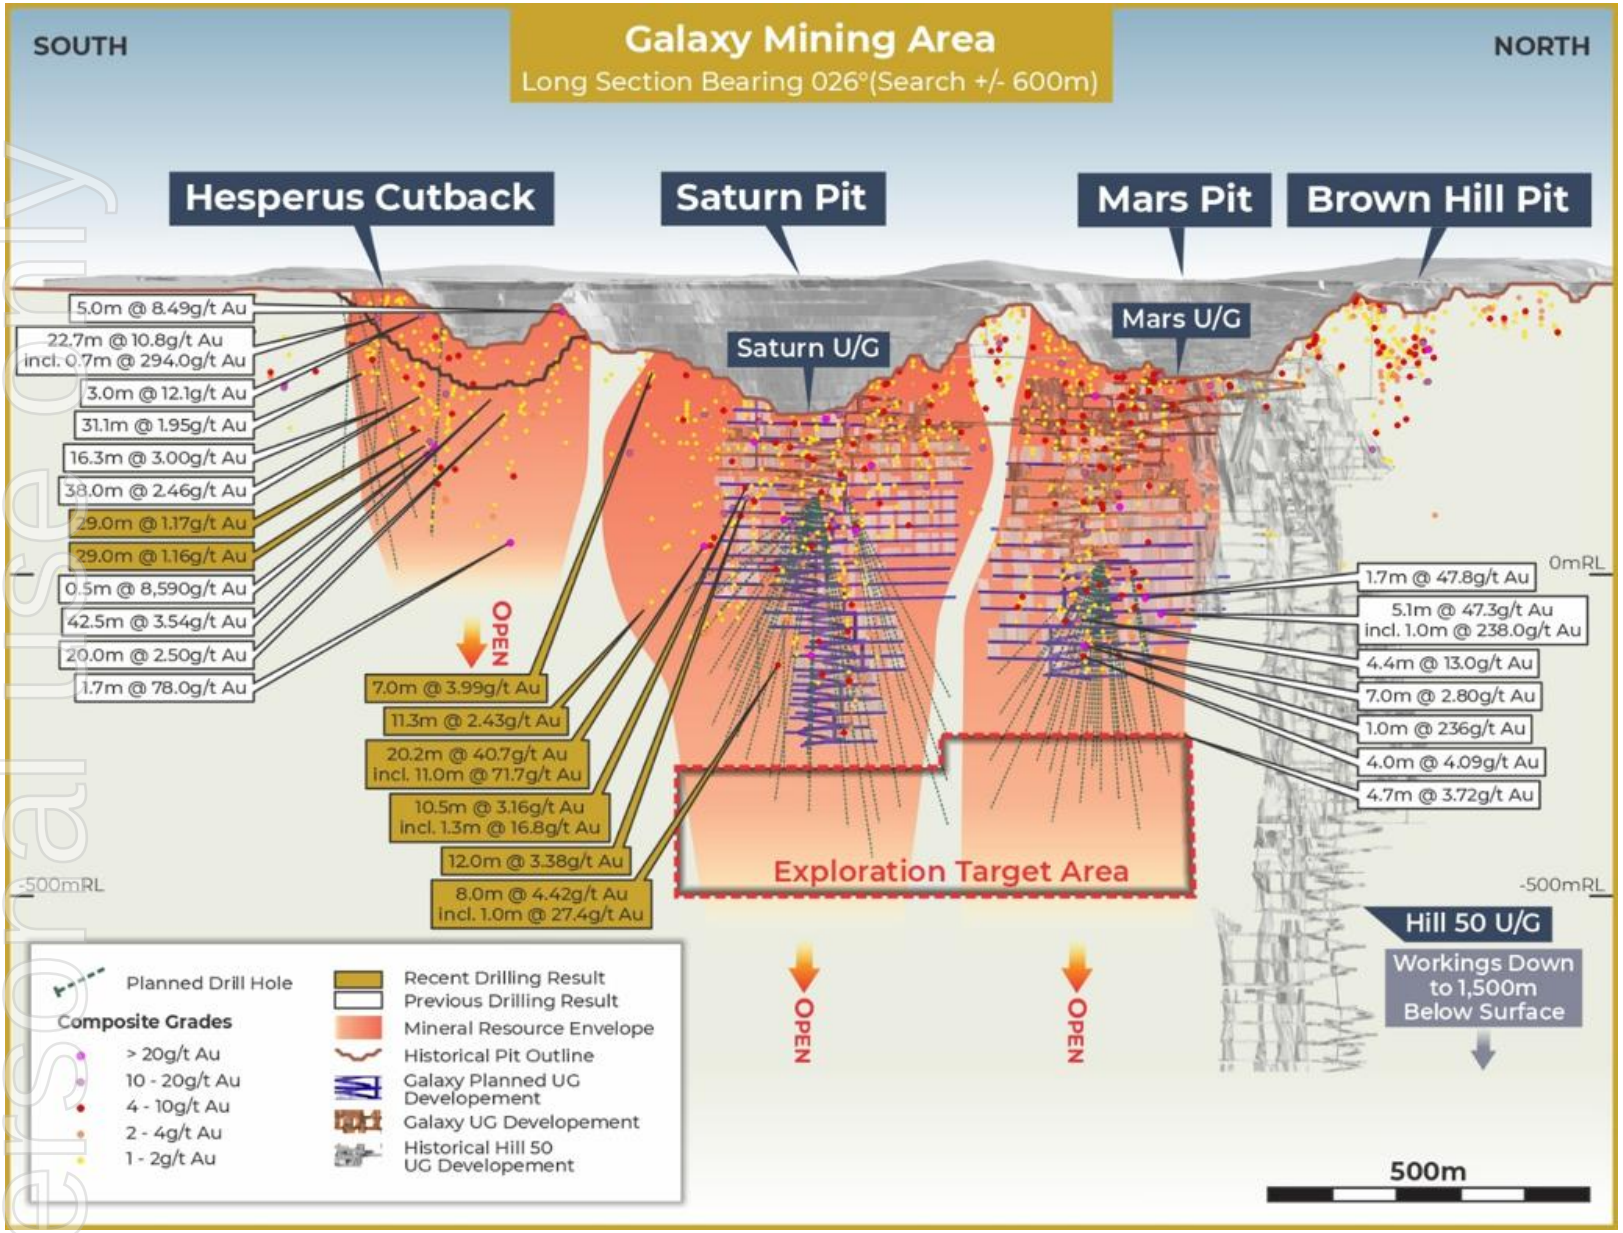

FY27 drill plan

Continue surface drilling for conversion of Lena underground Inferred Mineral Resources to progress Scoping Study while exploring down-dip extensions of Break of Day mineralisation

NOTES
1 See RMS ASX Release '2025 Resources and Reserves Statement', 1 October 2025 and Table 1

personal use only

Galaxy | extending mine life by accelerated exploration

Recent results include[1]:

- 20.2m at 40.7g/t
- 10.5m at 3.16g/t
- 8.0m at 4.42g/t
- 12.0m at 3.38g/t
- 11.3m at 2.43g/t

Current Mineral Resources:

- 6.2Mt at 2.7g/t for 530koz[2]

Exploration Target:

- 6.0 - 7.0Mt at 2.1 - 2.6g/t for 400 - 600koz[3]

Increasing to three underground drill rigs operating in FY27

Accelerated drill program using dedicated exploration drives now under development

NOTES

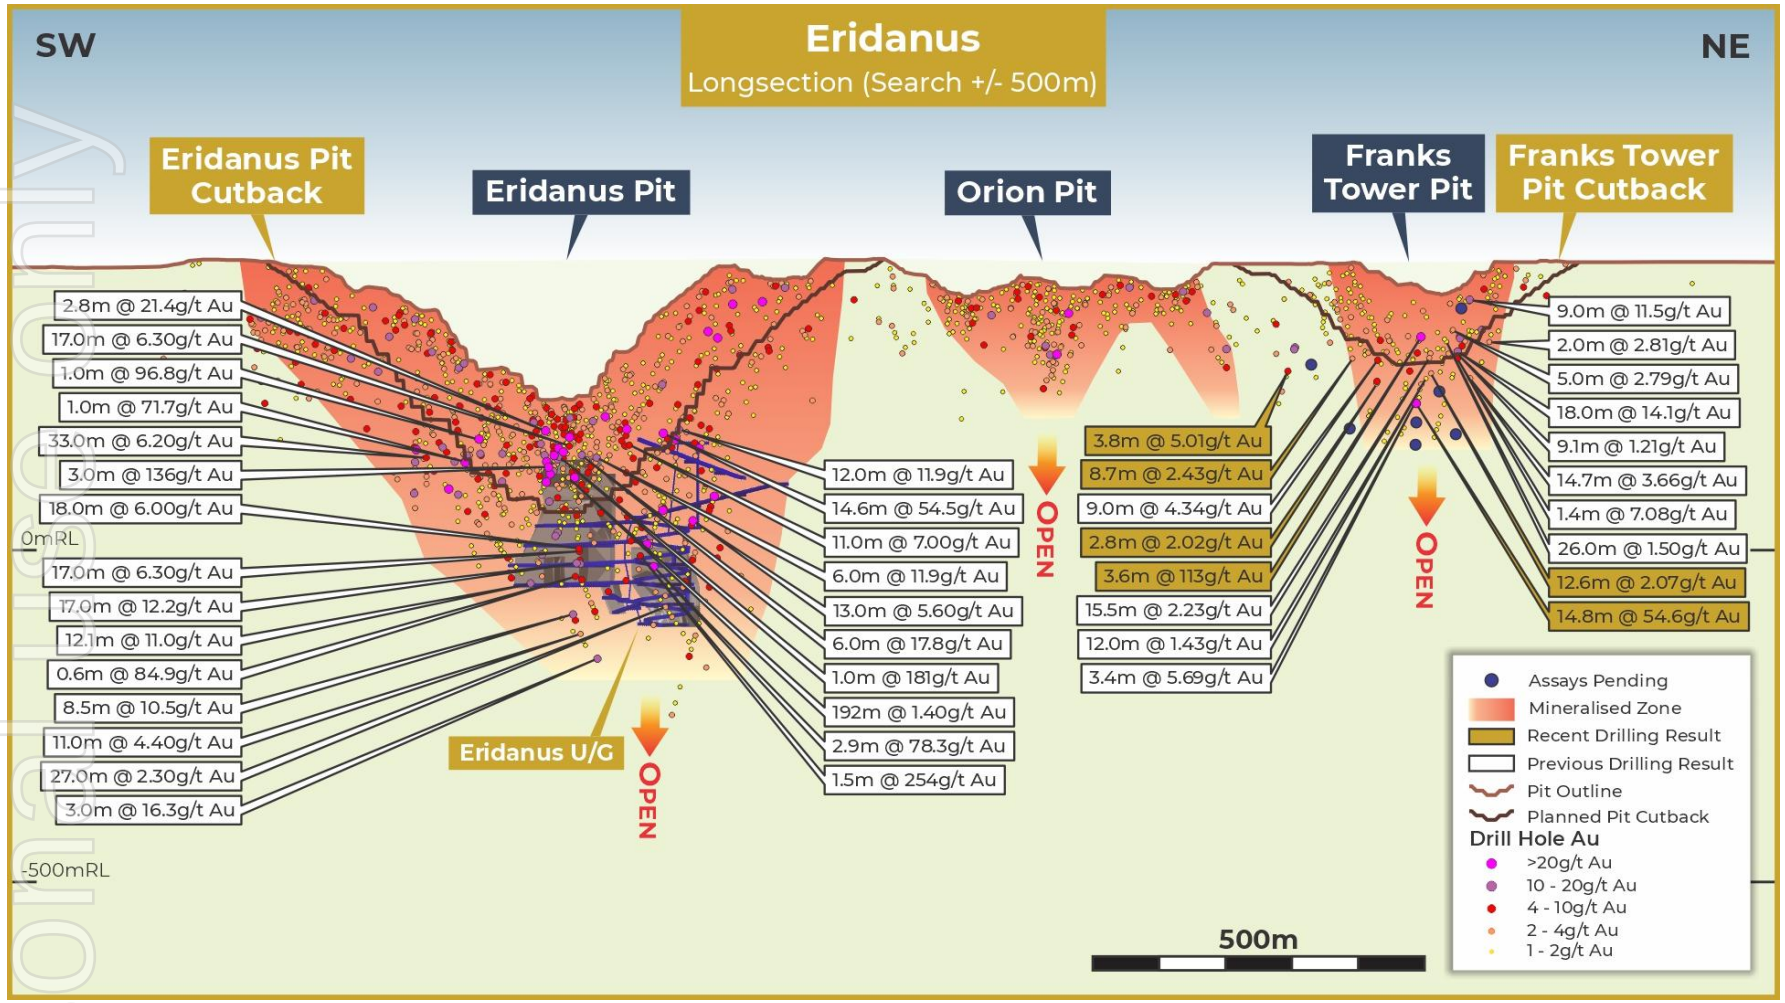

1 See RMS ASX "Exploration Update – High-Grade Strategy & Discovery", 22 July 2026

2 See RMS ASX Release '2025 Resources and Reserves Statement', 1 October 2025 and Table 1

3 See RMS ASX Release "Exploration Update – High-Grade Strategy & Discovery", 22 January 2026. The potential quality and grade of the Exploration Target is conceptual in nature; there has been insufficient exploration conducted to determine a Mineral Resource and there is no certainty that further exploration work will result in the estimation of a Mineral Resource or that an Exploration Target will be realised

Confidential

Franks Tower | high grade in the Eridanus corridor

Recent results[1] include:

- 3.6m at 113g/t
- 14.8m at 54.6g/t
- 3.8m at 5.01g/t
- 8.7m at 2.43g/t

Recent drill results demonstrate Eridanus style mineralisation and high-grades up to 250m below surface

Franks Tower Current Mineral Resources:

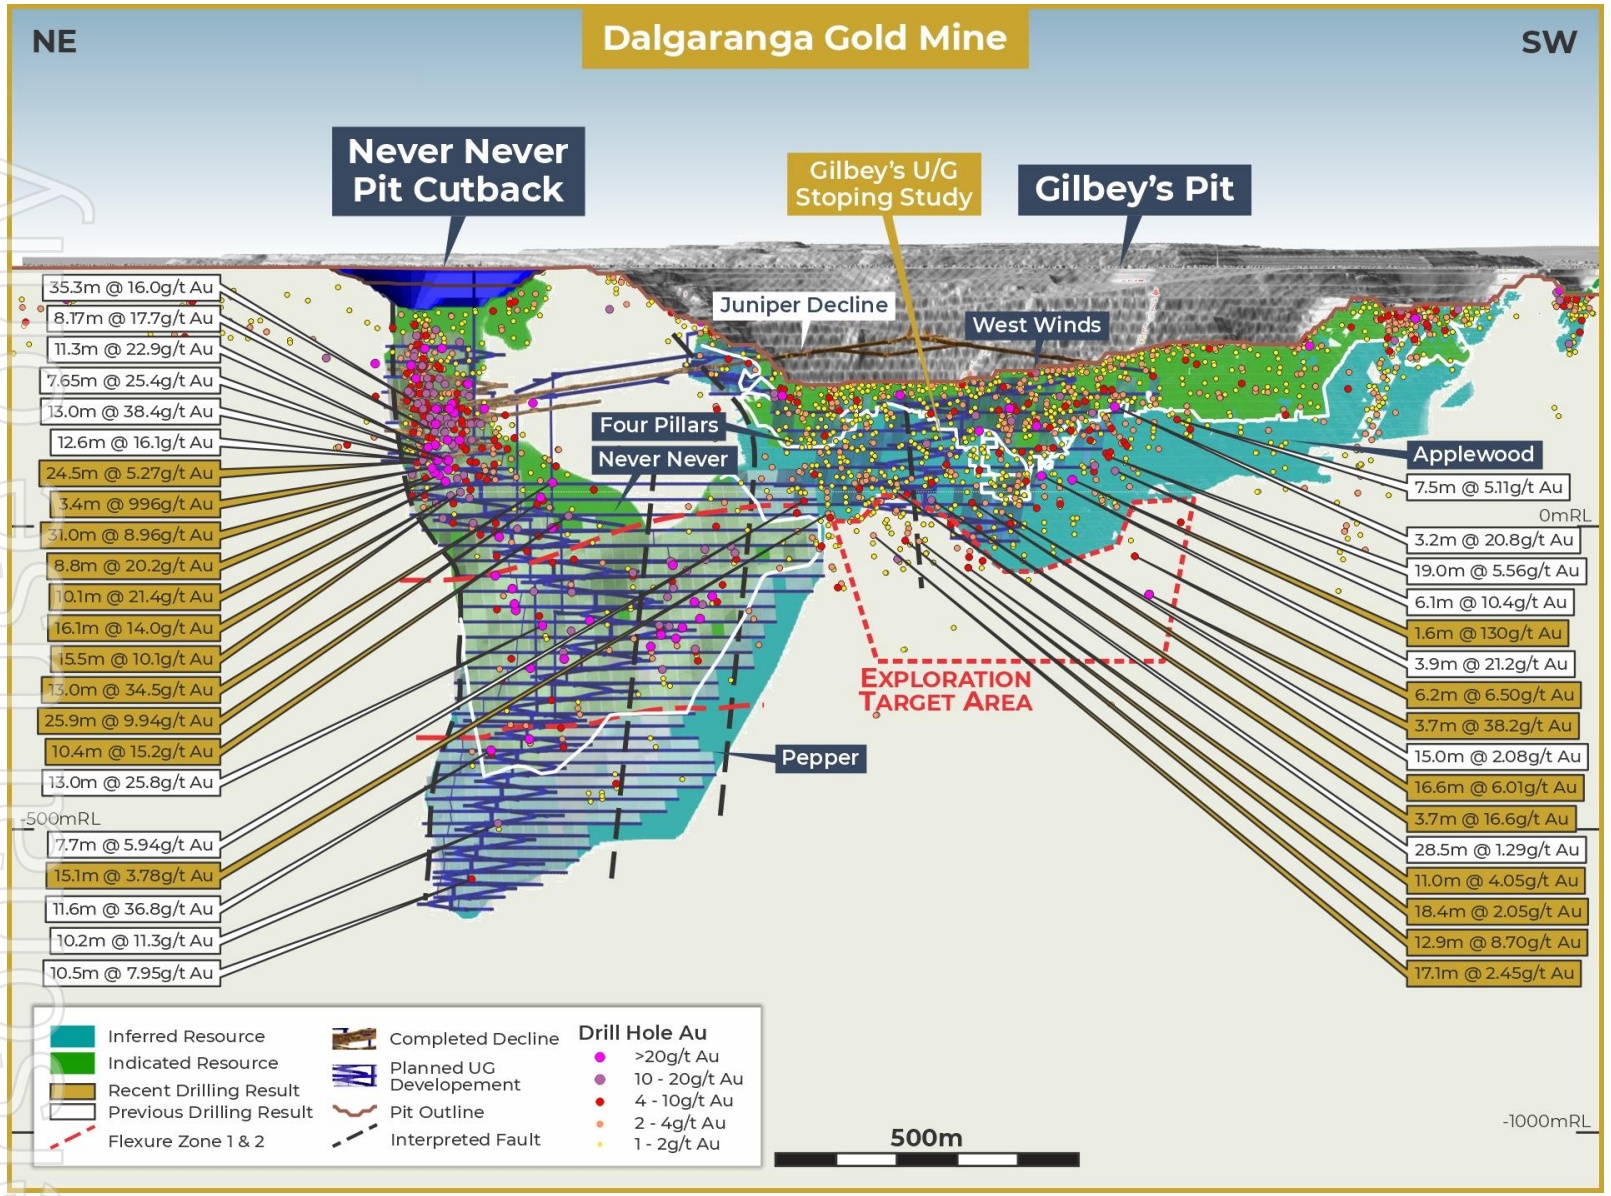

- 2.9Mt at 1.0g/t for 97koz[2]

Pending new results and MRE update

For personal use only

NOTES
1 See RMS ASX "Exploration Update – High-Grade Strategy & Discovery", 22 July 2026
2 See RMS ASX Release '2025 Resources and Reserves Statement', 1 October 2025 and Table 1

Gilbey's Underground | new underground mine potential

Underground diamond drilling results[1]:

Gilbey's underground:

- 1.6m at 130g/t
- 3.7m at 38.2g/t
- 3.7m at 16.6g/t
- 12.9m at 8.70g/t
- 16.6m at 6.01g/t

Current Gilbey's Underground Mineral Resources:

- 6.9Mt at 1.9 g/t for 380koz[2,4]

Exploration Target:

- 2.1 – 4.7Mt at 1.5 – 2.0 g/t for 100-300koz[2,3]

NOTES

1 See RMS ASX "Exploration Update – High-Grade Strategy & Discovery", 22 July 2026

2 See RMS ASX "Dalgaranga Exploration Update", 22 April 2026

3 The potential quality and grade of the exploration target is conceptual in nature, there has been insufficient exploration conducted to determine a mineral resource and there is no certainty that further exploration work will result in the determination of a mineral resource or that an exploration target will be realised

4 See RMS ASX Release '2025 Resources and Reserves Statement', 1 October 2025 and Table 1

ASX Release 22 July 2026

Shareholder returns | "maintain, then grow"

ersonal use only

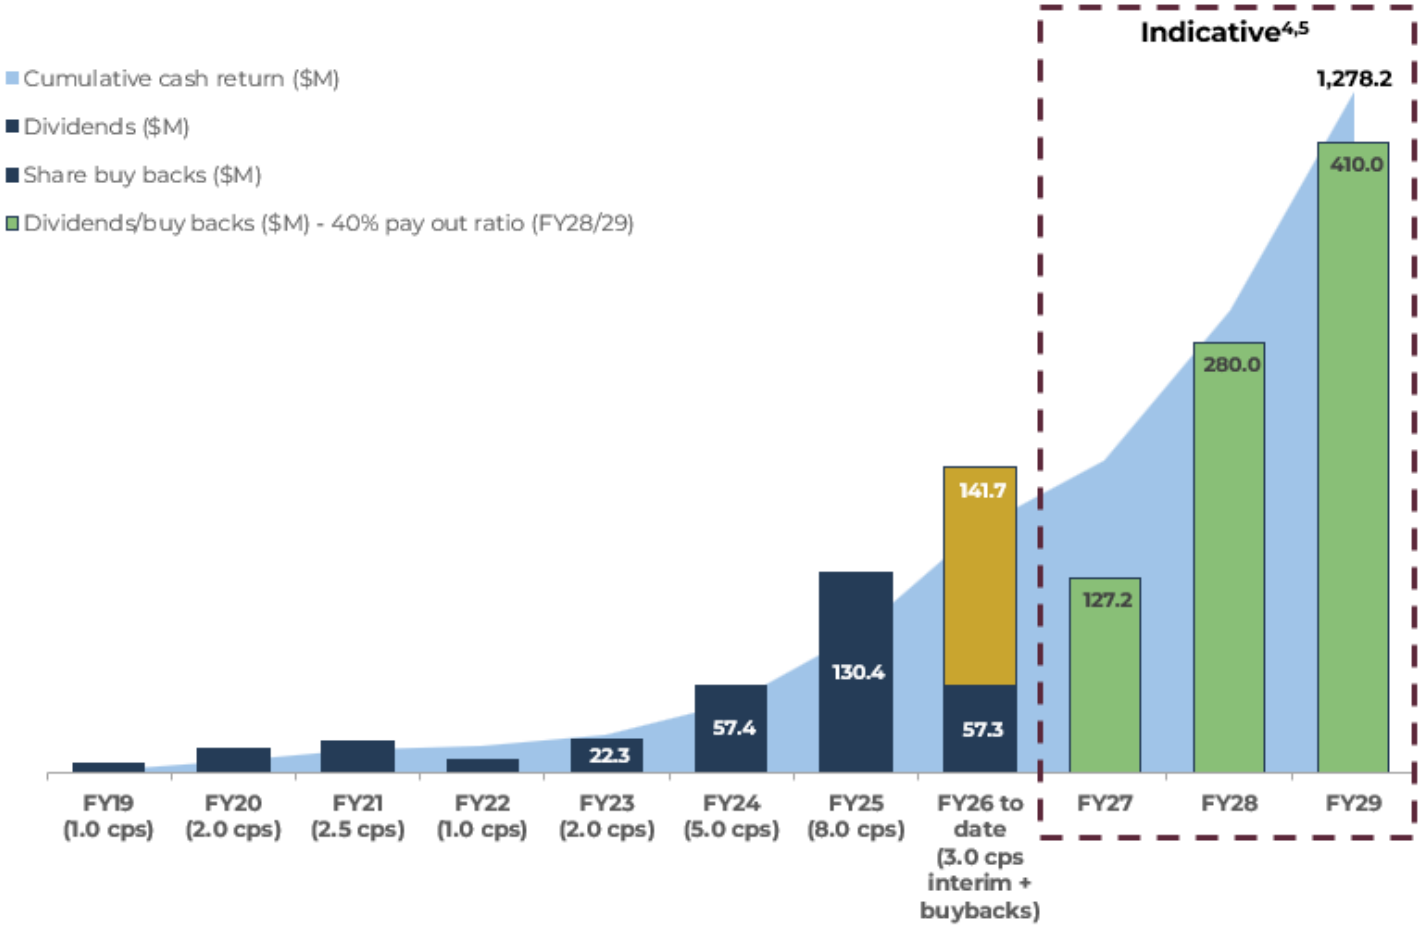

Interim Dividend (H1 FY26)

- Fully franked at 3 cents per share (A$57.7M)
- Paid 15 April 2026
- Exceeds the minimum dividend of 2 cents per share annual commitment for FY26

Share buybacks

- A$250M share buyback program was announced on 10 December 2025[1]
- A$141.7M, or 56%, in buybacks completed to date[2,3]
- Current Policy of 30% Payout Ratio, looking to increase from FY28

Shareholder returns | (A$M)

Assumes 40% pay out ratio in FY28/FY29

NOTES

1 Refer to ASX Release "Ramelius Announces A$250M Share Buyback Program", 10 December 2025
2 Refer to ASX Release "March 2026 Quarter Update, FY26 Production Guidance Confirmed", 7 April 2026
3 Includes A$1.0M in share buy backs traded on 30 June 2026, cash settled on 2 July 2026
4 FY27 based on the A$250M share buy back program and minimum 2cps, less dividends and share buy backs completed to 30 June 2026
5 FY28 & FY29 based on cash flows at A$6,000/oz (Refer to ASX Release "5-Year Growth Pathway to 500koz", 28 October 2028) and a targeted 40% pay out ratio

Thank you
