METALLIUM

Quarterly Investor Webinar

August 2026

Michael Walshe – Managing Director & CEO

ASX: MTM / OTCQX: MTLMY (ADR) & MTMCF

Disclaimers

This presentation has been prepared by Metallium Ltd (ACN 645 885 463) ("Metallium", "MTM' or "Company") for the exclusive use of the party to whom Metallium delivers this document (the "Recipient"). The information contained in this document has been prepared in good faith by Metallium. However, to the maximum extent permitted by law, no representation or warranty, either express or implied, is made as to the accuracy, completeness, adequacy or reliability of the information contained in this document. This document contains only a synopsis of more detailed information in relation to the matters described herein and accordingly no reliance may be placed for any purpose whatsoever on the sufficiency or completeness of such information as presented herein. This document should not be regarded by the Recipient as a substitute for the exercise of its own judgment and the Recipient should conduct its own due diligence in respect of the contents of this document. To the maximum extent permitted by law, Metallium, its directors, officers, employees, advisers, and agents disclaim any or all liability for any loss or damage which may be suffered by any person as a result of the use of, or reliance upon, anything contained within or omitted from this document.

This document has been prepared solely for informational purposes. This document does not constitute a prospectus or other form of disclosure document and is not to be construed as a solicitation, invitation or an offer to buy or sell any securities, or related financial instruments, in any jurisdiction. This document is not subject to the disclosure requirements affecting disclosure documents under Chapter 6D of the Corporations Act 2001 (Cth) and has not been approved by any regulatory authority such as the Australian Securities and Investments Commission or the Australian Securities Exchange.

The Recipient should not construe the contents of this document as legal, tax, accounting or financial or investment advice or a recommendation. The Recipient should consult its own legal counsel, tax and financial advisors concerning any matter described herein. This document does not purport to be all-inclusive or to contain all of the information that the Recipient may require. No investment, divestment or other financial decisions or actions should be based solely on the information in this document. The distribution of this document may be restricted by law in certain jurisdictions. The Recipient and any other persons who come into possession of the document must inform themselves about, and observe, any such restrictions.

Cautionary Statements and Important Information

This presentation has been prepared by Metallium Ltd as a summary only and does not contain all information about the Company's assets and liabilities, financial position and performance, profits and losses, prospects, or the rights and liabilities attaching to its securities. An investment in the Company should be considered speculative and there can be no assurance that investors will achieve a return on capital invested, that dividends will be paid, or that the value of the Company's securities will increase in the future. This presentation is for informational purposes only and does not constitute financial product, investment, legal, taxation, or other advice. No account has been taken of the objectives, financial situation, or particular needs of any recipient. Recipients should undertake their own independent review, investigations, and analysis of the Company and carefully consider whether an investment in the Company is appropriate having regard to their own personal circumstances, including financial and taxation considerations.

Third Party Information

This presentation contains data, forecasts, estimates, and other information derived from publicly available sources, industry publications, government agencies, and third parties. While the Company believes such information to be reliable, it has not independently verified all such information and makes no representation or warranty, express or implied, as to the accuracy, completeness, or reliability of the information contained herein. Certain market and industry data may involve assumptions and limitations and are subject to change without notice.

The figures, valuations, forecasts, estimates, opinions and projections contained herein involve elements of subjective judgment and analysis and assumption. Metallium does not accept any liability in relation to any such matters, or to inform the Recipient of any matter arising or coming to the company's notice after the date of this document which may affect any matter referred to herein. Any opinions expressed in this material are subject to change without notice, including as a result of using different assumptions and criteria. This document may contain forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words / phrases such as "ambitions", "aspire to", "aspirations", "seek", "anticipate", "believe", "plan", "expect", and "intend" and statements than an event or result "may", "will", "should", "could", or "might" occur or be achieved and other similar expressions. Forward-looking information is subject to business, legal and economic risks and uncertainties and other factors that could cause actual results to differ materially from those contained in forward-looking statements. Such factors include, among other things, risks relating to property interests, the global economic climate, commodity prices, sovereign and legal risks, and environmental risks. Forward-looking statements are based upon estimates and opinions at the date the statements are made. To the maximum extent permitted by law,

This announcement contains forward-looking statements concerning Metallium Limited, including statements regarding the performance and outcome of the research and development programme to be undertaken under the agreement, the potential application and scalability of FJH technology for commercial MXene production, the possible negotiation of a longer-term commercial licence and royalty agreement, the potential to establish a repeatable technology-monetisation model, anticipated commercial deployment activities, and the Company's future plans, strategy and objectives.

Metallium undertakes no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such dates or to update or keep current any of the information contained herein. The Recipient should not place undue reliance upon forward-looking statements. Any estimates or projections as to events that may occur in the future (including projections of revenue, expense, net income and performance) are based upon the best judgment of Metallium from information available as of the date of this document. There is no guarantee that any of these estimates or projections will be achieved. Actual results will vary from the projections and such variations may be material. Nothing contained herein is, or shall be relied upon as, a promise or representation as to the past or future. Metallium, its affiliates, directors, employees and/or agents expressly disclaim any and all liability relating or resulting from the use of all or any part of this document or any of the information contained herein.

Illustrative Economics Disclaimer

This document may include conceptual illustrations and indicative assumptions regarding potential business model economics. These do not represent final or actual financial outcomes, and have not been validated through pilot or commercial operations. All economic scenarios, value estimates, and modelling outputs are preliminary in nature, provided solely for illustrative purposes, and should not be relied upon for investment or commercial decision-making. Actual results may vary materially, and Metallium makes no representation or warranty as to the accuracy or completeness of any such forward-looking assumptions or outcomes.

By accessing or reviewing this document, the Recipient acknowledges and agrees to the "Disclaimer" as detailed above.

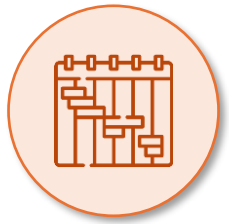

This presentation has been authorized for release by the CEO and Managing Director.

QUARTER HIGHLIGHTS

Our focus has shifted from proving the technology to optimising, scaling and commercialising the platform

TECHNOLOGY

- Platform substantially de-risked

COMMERCIAL

- PCB feedstock secured
- First revenue pathway established

OPERATIONS

- Gator Point commissioning progressing

GROWTH

- Strategic expansion into MXenes

Transition from Technology Validation to Commercial Execution

ersonal use only

CORE FJH PLATFORM SUBSTANTIALLY DE-RISKED

100+
TEST CAMPAIGNS

12-HOUR
CONTINUOUS OPERATION

3 FJH UNITS
OPERATING SIMULTANEOUSLY

400,000x
SCALE-UP

WHAT HAS NOW BEEN PROVEN?

- ✅ Reactor mechanical integrity
- ✅ Process control systems
- ✅ Operating procedures
- ✅ Modular reactor scale-up
- ✅ Stable parallel reactor operation

WHAT REMAINS?

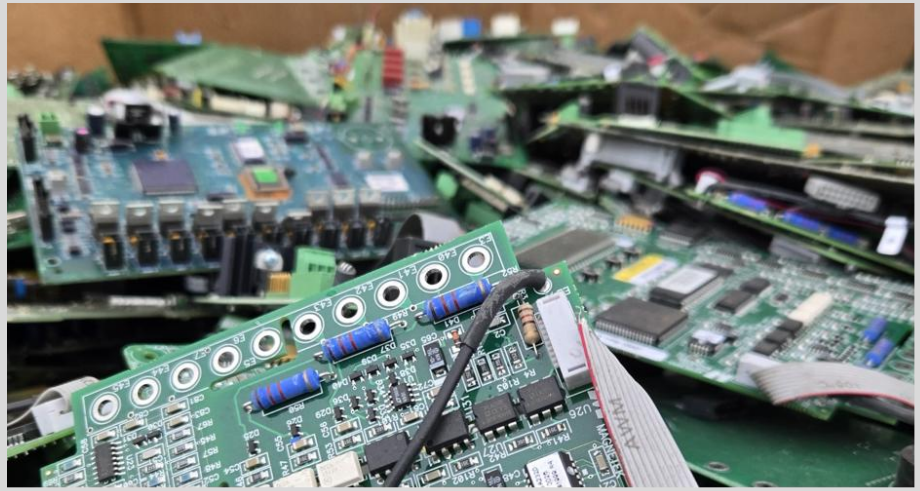

- → Multi-reactor chlorinated commissioning
- → Integrated PCB processing flowsheet demonstration
- → Commercial processing services
- → Initial saleable product production

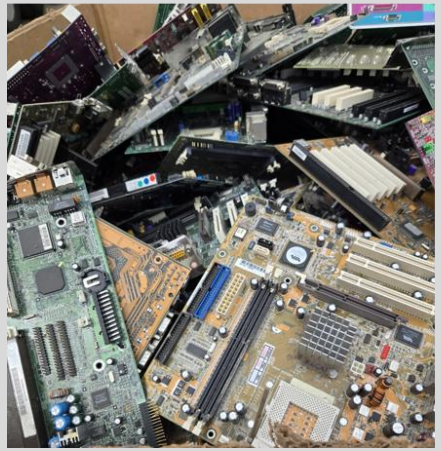

Tech validation phase is substantially complete.
Metallium is now focused on commissioning, optimisation and commercial deployment.

COMMERCIALISING PCB PROCESSING

Maximising Value from Every PCB

Raw, unprocessed PCBs

Pre-Processing & Beneficiation

Metallic stream(s) → FJH & other steps → Saleable Metallic Product(s)

Non-Metallic streams → Potential Saleable Non-Metallic Product(s)

Why develop a proprietary pre-processing flowsheet?

✓ Increase reactor throughput
✓ Improve economics
✓ Recover additional products
✓ Generate new IP

*i.e. example dry mechanical separation equipment**

Maximisation of value from Electronic Waste: Higher Returns on Capital & Improved Resource Utilisation

**Illustrative only;*

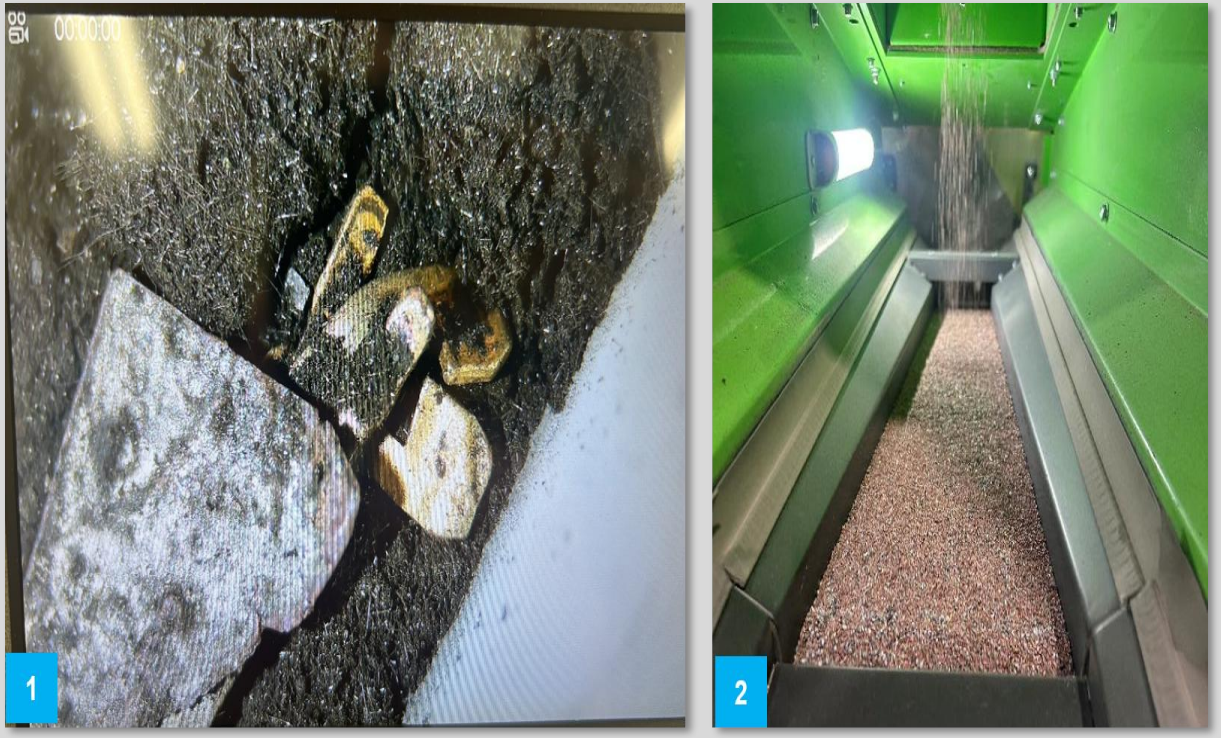

@rsonal use only

COMMERCIALISING PCB PROCESSING

Maximising Value from Every PCB

1. *Mechanically separated gold fingers;*
2. *2. Milled PCB product;*
3. *3. Pyrolysed PCB's;*
4. *4. Granulated and milled PCB's*

1. *Solid gold particles visible in post-pyrolysis 'metal-rich carbon' (produced by pyrolysing PCBs;*
2. *2. Copper dominant product achieved from mechanical separation of shredded Printed circuit boards*

GATOR POINT – FJH TECHNOLOGY CAMPUS

Texas-based hub for ongoing development and eventual commercial production

Completed
- Three-reactor campaign
- Laboratory progressing
- Infrastructure upgrades

Current Focus
- Roof remediation
- TCEQ permit amendment
- Electrical installation

Next Milestones
- Chlorinated campaign
- Integrated flowsheet
- Commercial processing

personal use only

ONGOING COMMISSIONING

Progressing FJH Technology to Commercial Scale

Major interim commissioning milestones achieved: Successful 12-hour continuous commercial-scale FJH reactor campaign using **3 reactors**

Next Major Milestone: Multi-reactor chlorinated commissioning

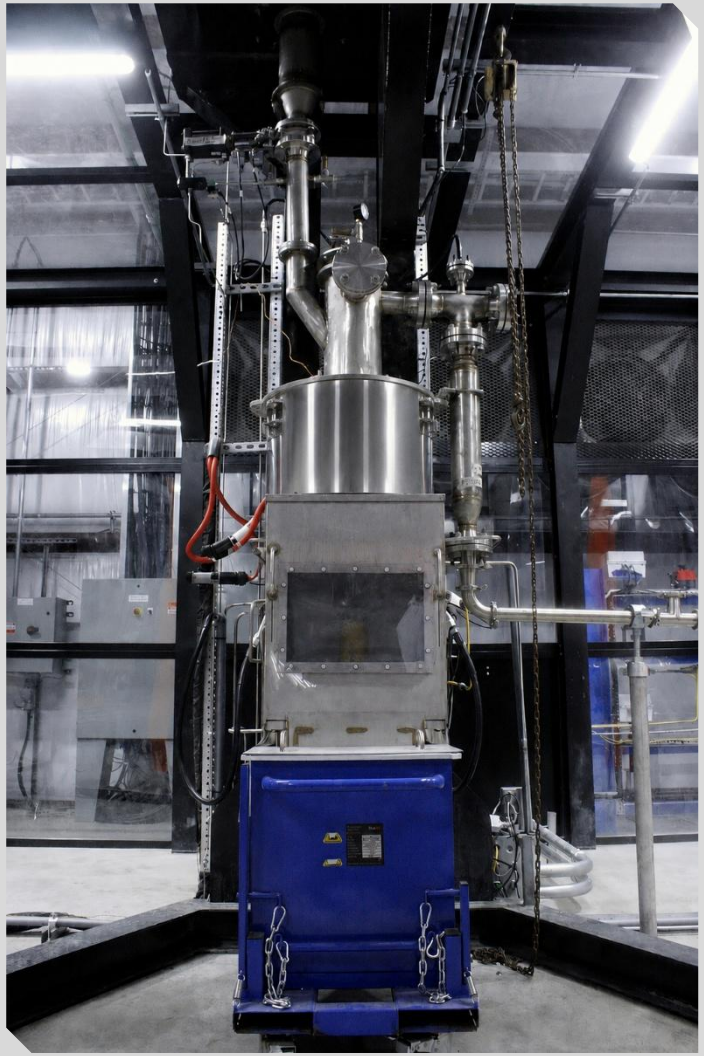

For personal use only

ONGOING COMMISSIONING

Progressing FJH Technology to Commercial Scale

PLATFORM VERSATILITY EXPANDS

Successful development across multiple strategic feedstocks continues to broaden the commercial potential of Flash Joule Heating

Pulverised spent catalytic converter feedstock rich in PLATINUM GROUP METALS (Palladium, Platinum, Rhodium)

Recovered REE Chloride product produced from raw unbeneficiated REE ore

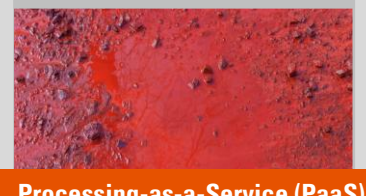

Coming Soon: ***Dedicated Technical Update***

While e-waste remains Metallium's immediate commercial priority, successful development across multiple critical metal feedstocks continues to demonstrate the versatility of the FJH platform and significantly expands the Company's long-term opportunities

OUR BUSINESS MODEL: TWO ENGINES OF VALUE

Models:
Plant Owner/Operator
+
Licencing / Royalty

	URBAN MINING (WASTE RECYCLING)		MINERAL PROCESSING (MINING PROJECTS)		EMERGING APPLICATION
	Technology Metals: Gallium, Germanium, Indium, Tin, Antimony	**Electronic Waste:** Gold, Copper, PGE -rich Printed Circuit Boards	**Rare Earth Elements** (REEs) Nd, Pr, Dy, Tb	**Red Mud** (Bauxite Residue) Alumina, Ga, REEs, Titanium	**MXenes** (2D super materials)
					
BUSINESS MODEL	**Build-Own-Operate (BOO)**		**Processing-as-a-Service (PaaS)**		
	End-to-end ownership of feedstock, processing, and metal sales: Metallium sources feedstock, operate its own facilities, & capture full value from recovered metals		**Licencing:** Provide equipment & services to miners / processors. Monetise via **Licensing** & **Production Royalties**		
PRODUCTS	Metal chlorides or derivatives – Essential for semiconductors, photovoltaics etc.	Metal chlorides or derivatives incl. Gold Chloride – Highly saleable``	Various optionality for metal chlorides or more refined intermediates, or special compounds		
INDUSTRIAL PARTNER(S)	INDIUM CORPORATION	GLENCORE; DYNAMIC LIFECYCLE INNOVATIONS; Plastic Recycling Inc.	METEORIC RESOURCES; ucore	vedanta transforming for good; ELEMENTUSA	ECT ENVIRONMENTAL CLEAN TECHNOLOGIES LIMITED
	Upstream sourcing initiative	4000 tpa secured	Ongoing	Ongoing	New*

FIRST COMMERCIAL TECHNOLOGY SERVICES AGREEMENT

Advancing Processing-as-a-Service Strategy with ECT

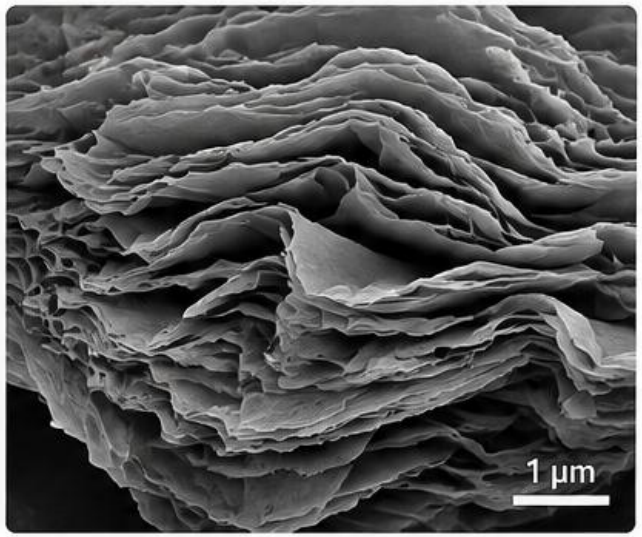

1. ATOMIC LAYERED STRUCTURE

MXenes are atomically thin (1–2 nm) sheets with transition metal carbide/nitride layers and surface terminations.

2. REAL MXENE SHEETS (SEM IMAGE)

Electron microscope image showing the characteristic layered, accordion-like structure of MXene nanosheets.

3. EXCEPTIONAL PROPERTIES

MXenes combine the best of metals and 2D materials, enabling superior performance across industries.

EXCELLENT ELECTRICAL CONDUCTIVITY
High conductivity for energy and electronics

EMI SHIELDING
Effective protection from electromagnetic interference

ENERGY STORAGE
High surface area and fast charge capability for next-gen batteries and supercapacitors

THERMAL MANAGEMENT
High thermal conductivity for heat dissipation applications

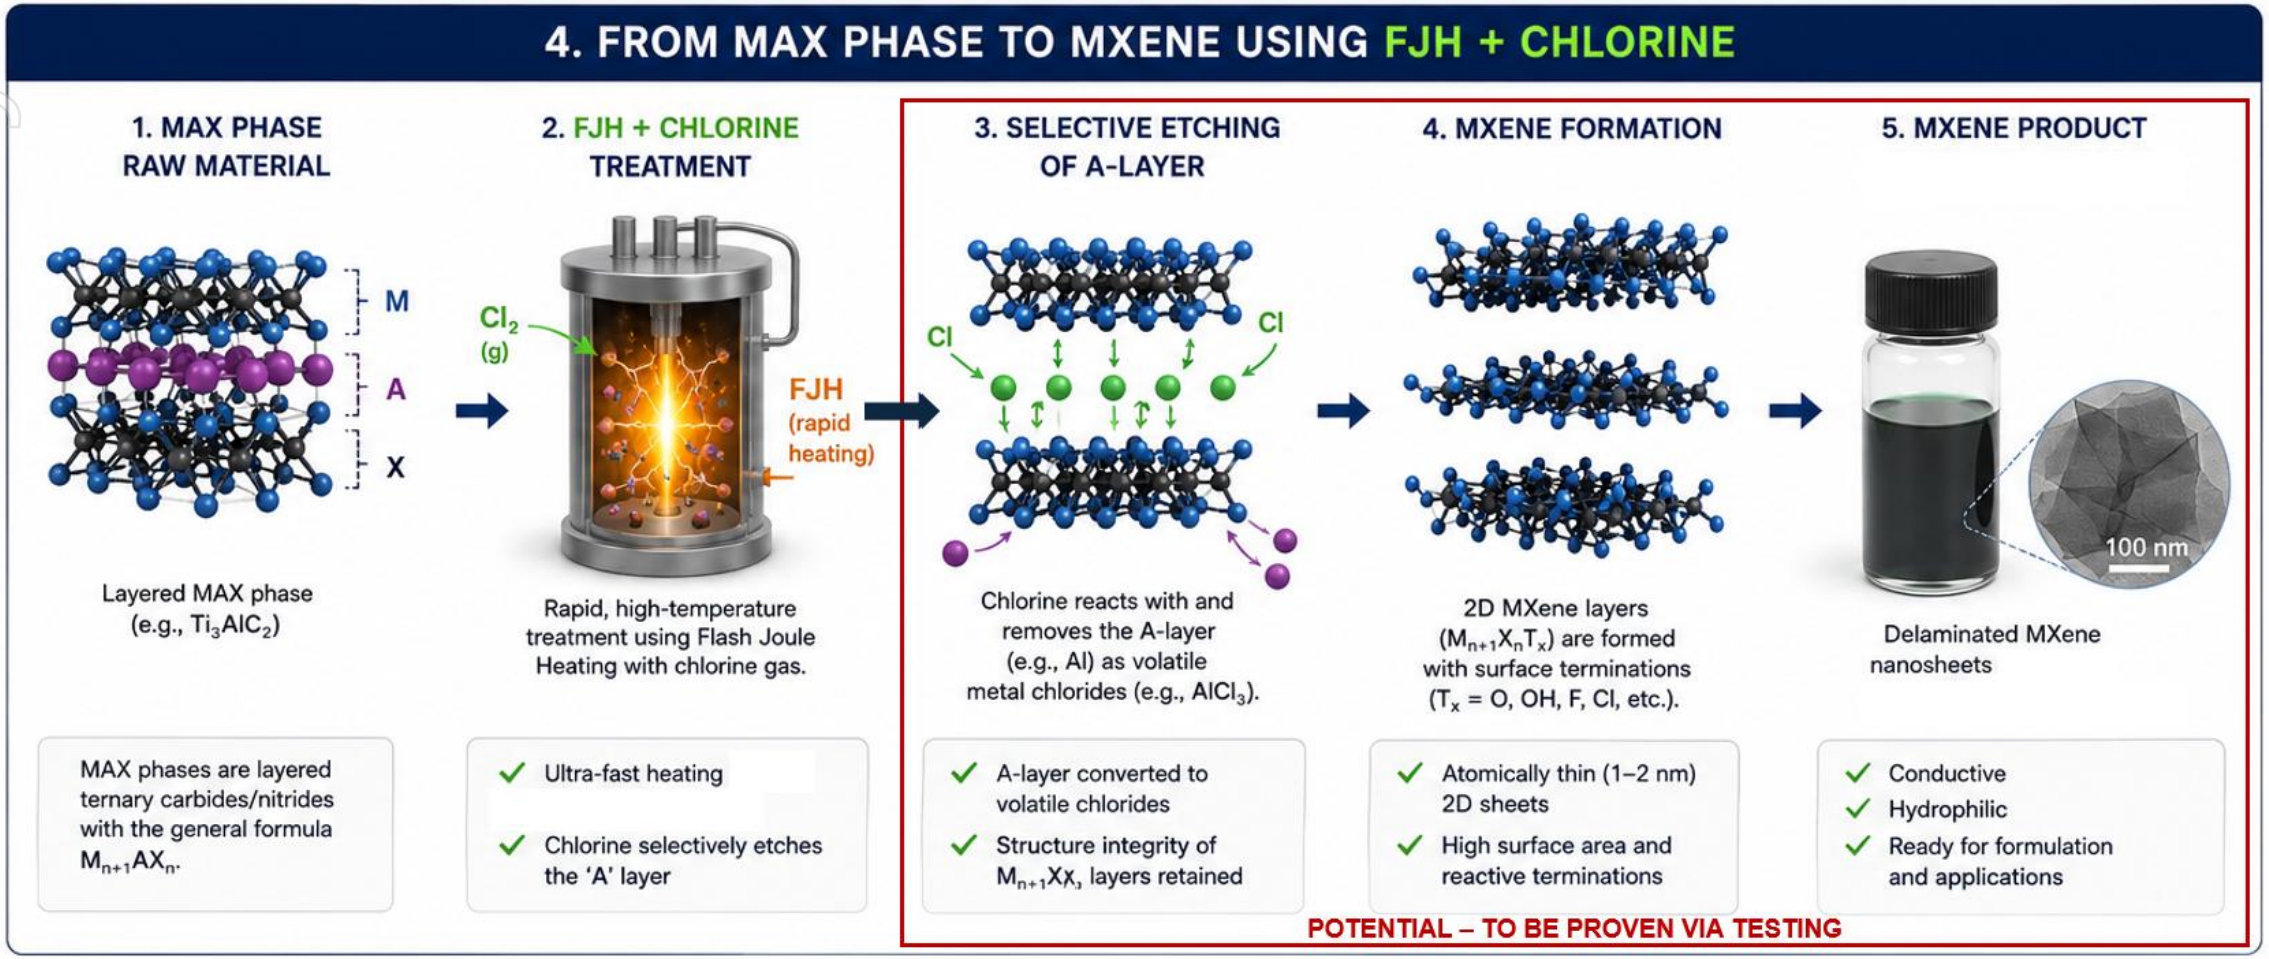

CATALYSIS
Active surface sites for catalysis and electrochemical reactions

SENSORS
High sensitivity for chemical, gas and biosensing

FLASH JOULE HEATING PLATFORM:
Proprietary IP • Scalable • Multiple Applications

BUILD–OWN–OPERATE (BOO)
(MTM Owned Facilities)

Metallium owns and operates FJH processing facilities.

- Recover critical and precious metals from strategic feedstocks
- Sell recovered metals
- Generate strong long-term value from owned operations

Example: Gator Point & future MTM facilities

CORE STRATEGIC PRIORITY
High-value metal recovery operations

PROCESSING-AS-A-SERVICE
(Customer access to MTM's FJH Platform)

Technology Services *(Engineering & Development)*
Engineering support, reactor access and R&D to develop customer applications.

↓

Pilot Programme *(Demonstration)*
Pilot and demo campaigns to validate performance and economic outcomes.

↓

Commercial Deployment *(Scale & Optimise)*
Scale-up and optimisation leading to **commercial-ready operations**.

↓

Commercial Agreement *(Long-Term Relationship)*
Potential revenue streams:

- Technology licences
- Reactor & equipment supply
- Operator support
- Processing fees,
- Service and spare parts
- Royalty streams

U.S. CAPITAL MARKETS EXPANSION STRATEGY

PCAOB audit underway and nearing completion to support anticipated Nasdaq uplisting of American Depositary Receipts (ADRs) by CYQ4 2026

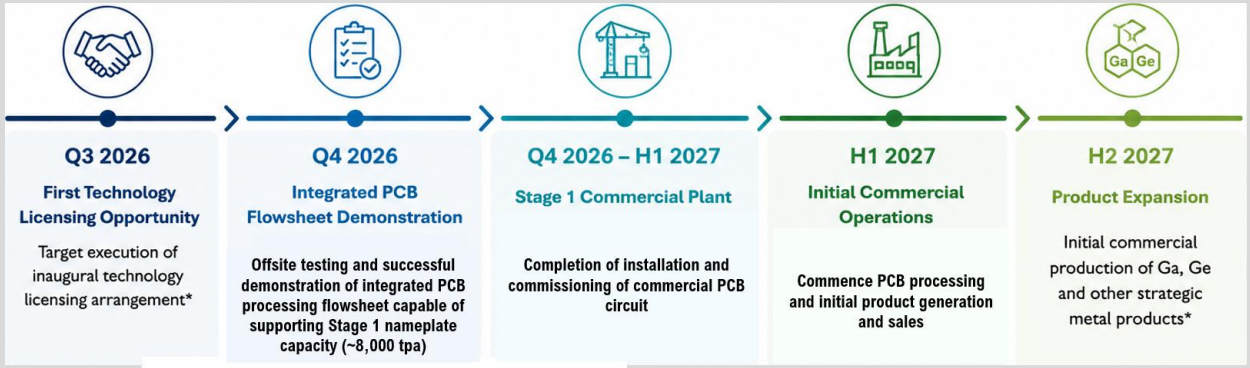

- ✓ ADR established
- ✓ PCAOB audit nearing completion
- ✓ Targeting NASDAQ ADR uplisting

@rsonal use only

UPCOMING CATALYSTS

Q3 2026	**Multi-Reactor FJH Demonstration** Demo of multiple FJH reactors operating in parallel under chlorine atmosphere, validating modular industrial scale-up
Q3 2026	**Critical Metals Technical Update**
Q4 2026	**Stage-1 Commercial Throughput Ramp-Up** Targeting system demonstration of ~8,000 tpa PCB e-waste processing capacity at Gator Point
Q4 2026	**NASDAQ Uplisting of ADRs** Targeted NASDAQ uplisting of Metallium ADRs, subject to board approval once PCAOB audit complete.
Q3 / 4 2026	**U.S. Government Engagement** Progressing DoW, DoE and strategic U.S. critical minerals initiatives and partnerships.
Q1 2027 +	**Technology licencing deals (global & domestic USA); Update on U.S. site expansion plans; Additional feedstock and offtake agreements**

Indicative Commercialisation Roadmap
