17 August 2026

FOLLOW UP DRILLING UNDERWAY FOR GOLD AT MORCK WELL PROJECT, WA

Highlights

- **20-26 Air Core drill holes for approximately 2,400m underway to evaluate anomalous gold mineralisation within previous drilling at Jacques East and Frenchy's South**
- **Auris continues to strategically advance high-quality targets within the Bryah Basin while also assessing new complementary project opportunities**

Gold and Base Metals explorer **Auris Minerals Limited** ("**Auris**" or "**the Company**") (**ASX: AUR**) is pleased to announce that Air Core drilling has commenced at the Company's Morck Well Project located 130km north of Meekatharra, in the Bryah Basin, Western Australia.

Air core drilling within the Morck Well Tenement Group (E51/1033 and E52/1672) has commenced to follow up previous gold anomalism at the Jacques East and Frenchy's South prospects. The program will comprise 20–26 air core drill holes.

At Jacques East, initial drilling will be completed at 100m spacing for 20 holes, as depicted in the figures below, with any areas of significant quartz veining or alteration immediately infilled to 50m spacing. The Jacques East gold prospect has historically intersected gold mineralisation and is interpreted to host a flat-lying supergene component associated with regolith boundaries (refer ASX announcements 17 July 2020 and 8 August 2023).

At Frenchy's South, drilling will test the distribution and tenor of gold mineralisation at a closer spacing (25m spacing from historical drilling) for a total of 6 holes. Frenchy's South has historically returned anomalous gold mineralisation over 1.2km (refer ASX announcements 16 April 2019 and 8 August 2023).

Auris Managing Director, Mike Hendriks said:

"The Company is excited by the commencement of the current air core drill program. The program is designed to test for strike extensions of high-grade gold mineralisation at Jacques East and further evaluate the nature of gold mineralisation at Frenchy's South.

Auris continues to evaluate high-quality targets at the Morck Well and Forrest projects to determine how best to extract value from these projects".

Company Overview

Auris is exploring for base metals and gold in the Bryah Basin of Western Australia. Auris has consolidated a tenement portfolio of ~223km², which is divided into two well-defined project areas: Forrest and Morck Well, (Figure 4).

Auris manages exploration on all tenements, including those that are subject to arrangements with third parties.

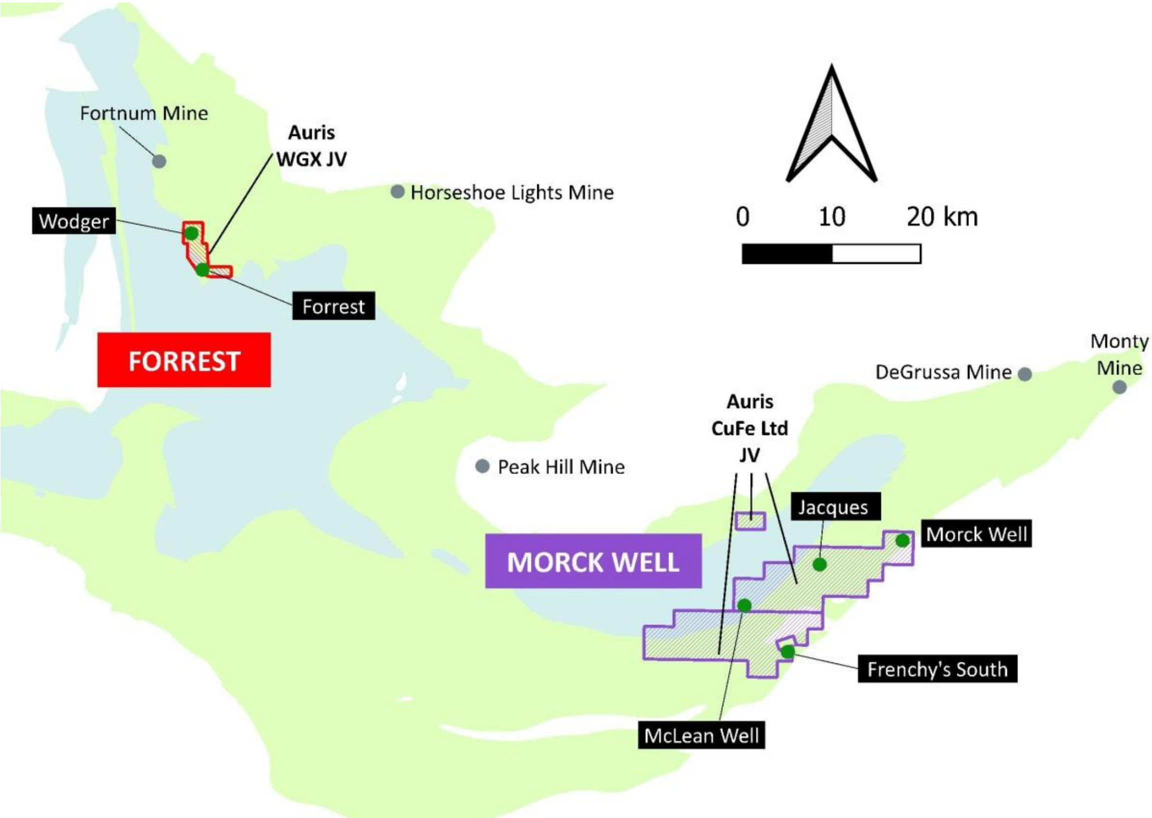

Figure 4: Auris' copper-gold exploration tenement portfolio, with Westgold (WGX) and CuFe Ltd JV areas indicated

Notes:

1. The Forrest Project tenement R52/10 has the following outside interests
   - Auris 80%; Westgold Resources Ltd 20% (ASX:WGX). Westgold Resources Ltd interest is free carried until a Decision to Mine
   - Westgold Resources Ltd own the gold rights over the Auris interest
2. The Morck Well Project tenements E51/1033 and E52/1672 have the following outside interests:
   - Auris 80%; CuFe Ltd 20% (ASX:CUF). CuFe Ltd interest is free carried until a Decision to Mine

Competent Person's Statement

Information in this announcement that relates to exploration results is based on and fairly represents information and supporting documentation prepared and compiled by Mr Matthew Svensson, who is a Member of the Australian Institute of Geoscientists. Mr Svensson is Exploration Manager for Auris Minerals Limited. Mr Svensson has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration, and to the activity which he is undertaking to qualify as a Competent Person, as defined in the 2012 Edition of the Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves. Mr Svensson consents to the inclusion in the announcement of the matters based on this information in the form and context in which it appears.

No New Information

Except where explicitly stated, this announcement contains references to prior exploration results and Mineral Resource estimates, all of which have been cross-referenced to previous market announcements made by the Company. The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcements and, in the case of estimates of Mineral Resources that all material assumptions and technical parameters underpinning the results and/or estimates in the relevant market announcement continue to apply and have not materially changed.

Forward Looking Statements

This announcement has been prepared by Auris Minerals Limited. This document contains background information about Auris Minerals Limited and its related entities current at the date of this announcement. This is in summary form and does not purport to be all inclusive or complete. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and completeness of the information, statements and opinions contained in this announcement. This announcement is for information purposes only. Neither this document nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction.

This announcement may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction.
