2. Review of Operations

Glenburgh Gold Project

During the current financial year, Benz completed approximately 200,000 metres of RC and diamond drilling across its Glenburgh Gold Project in the Gascoyne region of Western Australia. This work resulted in the identification of three gold camps within the wholly-owned and fully permitted Mining Lease: Hurricane, Icon, and Thunderbolt. All three camps are hosted within the Piston Formation of the Palaeoproterozoic Glenburgh Terrane and are situated along an 80-kilometre district-scale gold trend, of which approximately 12 kms has been systematically tested.

In parallel with exploration and resource-growth drilling, pre-development workstreams were commenced, including metallurgical testwork for gold and tungsten, geotechnical and hydrogeological assessment, and environmental baseline data collection.

Hurricane Camp: Zone 126 Multi-Lens High-Grade System[1]

Zone 126 is hosted in upper-amphibolite to granulite facies siliciclastic rocks of the Piston Formation, with gold mineralisation occurring in steeply plunging, high-grade lenses arrayed along a north-east-plunging fold corridor. Systematic RC drilling commenced in mid-2025 with two lenses known. By June 2026, six lenses had been defined, extending the system to more than 800m vertical depth.

Lens 3 was established at more than 350m in length following a 79m intercept at 4.4 g/t gold in October 2025, the highest gram-metre result recorded at the project to date. Lens 4 was defined in September 2025 with 17m at 6.0 g/t gold from 662 metres. Lens 5 was identified in December 2025 at over 800m vertical depth; drilling in that period also returned 15m at 12.7 g/t from 850 metres, confirming grades are maintained at depth.

In April 2026, a sixth lens, Lens 0, was defined up-plunge of the existing system, returning 19m at 5.1 g/t gold and 4m at 44.2 g/t gold. Lens 0 appears to link Zone 126 to the adjacent Zone 102. All lenses remain open at depth and along strike. The Hurricane Camp corridor extends over 2.6 kms in length. Infill drilling has returned results including 25m at 10.2 g/t gold.

Maiden drilling at the Hurricane target in April 2026 returned 11m at 6.4 g/t gold and 2m at 19.1 g/t gold. Geology and structural controls are consistent with Zone 126, supporting the interpretation that the north-east-plunging fold corridor controls high-grade mineralisation across the Hurricane Camp.

Icon Camp: Bulk-Tonnage System with High-Grade Core[2]

The Icon Camp comprises a wide, shallow-dipping mineralised envelope extending over three kilometres along strike and encompassing the Icon, Tuxedo, Apollo, Mustang, and Shelby prospects. In August 2025, systematic drilling confirmed a 400-metre-wide mineralised corridor. Key intercepts from this programme included 154m at 1.1 g/t gold, 134m at 1.0 g/t gold, 272m at 0.5 g/t gold, and 306m at 0.4 g/t gold. All holes ended in mineralisation from surface to at least 500m depth.

Infill drilling at closer spacing in January 2026 identified a discrete high-grade lens within the broader envelope. Key intercepts included 13m at 29.0 g/t gold, 9m at 28.0 g/t gold, and 17m at 11.0 g/t gold, all from

[1] *Refer ASX announcements dated 17 September 2025, 14 October 2025, 8 December 2025 and 9 April 2026 for further information.*
[2] *Refer ASX announcements dated 4 August 2025, 28 January 2026 and 29 June 2026 for further information.*

For personal use only

depths of less than 300m. The Tuxedo lens, located over 200 metres to the south at deeper levels, returned 28m at 2.5 g/t gold.

Step-out drilling in June 2026 returned 27m at 15.33 g/t gold from 229m, extending the high-grade system toward the Apollo prospect and consistent with the Exploration Target wireframes. Less than 30 per cent of the three-kilometre Icon trend has been systematically tested. The camp remains open along strike and at depth.

Thunderbolt Camp

The Thunderbolt Camp was formally identified in February 2026 and occupies the southern portion of the Mining Lease. The Torino and Thunderbolt prospects host the same Piston Formation geology as Icon and Hurricane. Historical drilling at Thunderbolt reached shallow depths only; the camp has not previously been tested at depth by Benz.

Metallurgical Testwork (Gold and Tungsten)[3]

Cyanidation testwork on Icon material, completed by ALS Metallurgy in June 2026, confirmed free-milling gold behaviour across all grade fractions tested. Results were as follows:

- Higher-grade core (~2 g/t gold): approximately 95.5% gold extraction at 24 hours;
- Mid-grade material (~0.6 g/t gold): approximately 91% extraction; and
- Low-grade halo (~0.1 – ~0.3 g/t gold): up to 93.3% extraction.

Leach kinetics were complete within 8 to 24 hours. Cyanide consumption was 0.18 – 0.22 kg/t NaCN. The free-milling character is attributed to coarse gold recrystallisation during granulite facies metamorphism of the host sequence. The strong recoveries achieved across the low-grade halo indicate this material may be suitable for mill feed inclusion rather than treatment as waste.

Tungsten mineralisation in the form of coarse-grained scheelite and ferberite was confirmed across all three camps in May 2026, identified by four acid ICP-MS digest geochemistry, XRD and SEM analysis of drill chips. Mineralised intervals include:

- Zone 126: 26m at 0.24% WO_3, co-incident with 79m at 4.4 g/t gold;
- Hurricane: 33m at 0.1% WO_3, co-incident with 25m at 10.2 g/t gold; and
- Icon: 17m at 0.09% WO_3, co-incident with 44m at 4.6 g/t gold.

The coarse-grained nature of the tungsten mineralisation is consistent with a gravity-recovery processing pathway. Formal tungsten metallurgical testwork has commenced at ALS Metallurgy. Tungsten is classified as a critical mineral by Australia, the European Union, and the United States.

Exploration Target[4]

In June 2026, Benz announced a maiden Exploration Target, as defined under the JORC Code (2012) and contemplated in Section 2.3(2) of National Instrument 43-101 Standards of Disclosure for Mineral Projects (NI 43-101), for its 100%-owned Glenburgh Gold Project.

[3] *Refer ASX announcements dated 19 May 2026 and 17 June 2026 for further information*
[4] *Refer ASX announcement dated 24 June 2026 for further information.*

For personal use only

Table 1: Glenburgh Exploration Target (see "Cautionary Statement" below).

Component	Tonnage Range	Grade Range	Contained Gold Range
Higher-grade core	110 – 125 Mt	1.7 – 1.8 g/t Au	6.1 – 7.3 Moz Au
Mineralised halo	375 – 415 Mt	0.33 – 0.35 g/t Au	4.0 – 4.6 Moz Au
Glenburgh Exploration Target Total	**485 – 540 Mt**	**0.6 – 0.7 g/t Au**	**10.1 – 12.0 Moz Au**

Cautionary Statement: *The potential quantity and grade of the Exploration Target, and of each of its components, is conceptual in nature and uncertain. There has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the Exploration Target being delineated as a Mineral Resource. The Exploration Target is not, and does not carry the classification of, a Mineral Resource or Ore (Mineral) Reserve. It has been determined from exploration results already obtained and not from any proposed exploration programme. Investors are cautioned not to rely on the Exploration Target as an indication of a Mineral Resource or Ore (Mineral) Reserve.*

The combined Exploration Target grade reflects the inclusion of the broader lower-grade mineralised halo in full and does not represent an optimised mining inventory. Future studies would assess which portions of the halo may be selectively included based on pit geometry, cut-off grade, mining selectivity, metallurgical performance and economics.

Previously announced initial metallurgical testwork at Icon returned gold recoveries of up to 93.3% from tested lower-grade halo material, supporting its potential to provide significant incremental feed where captured within future mining shapes.

Mt Egerton Gold Project[5]

The Mt Egerton Gold Project is located approximately 170 kms south of Glenburgh in Western Australia and is 100% owned by Benz. In March 2026, RC drilling beneath the historic Hibernian Gold Mine returned 7m at 223 g/t gold from 270m depth, within a broader interval of 11m at 144 g/t gold, from the Kilkenny Zone. The result is consistent with the Company's structural model, which identifies dilation zones at the intersection of folded gabbro sills with controlling structures as the principal mineralisation control at Mt Egerton.

More than 20 kms of prospective strike has been identified at Mt Egerton. The Mako, Gift, and Trading Post prospects are located approximately 2 kms east of Kilkenny.

On-Going Exploration Activities

The 2026 RC drilling programme at Glenburgh is targeting systematic testing of all three camps, with particular focus on: infill and extension drilling at Zone 126 and the Icon high-grade lens to support resource classification; maiden systematic RC drilling at Thunderbolt; and continued step-out drilling along the Icon–Apollo corridor.

A diamond drill rig is running orebody knowledge, metallurgical core, and geotechnical programmes in parallel with RC resource-growth drilling.

[5] *Refer ASX announcement dated 17 March 2026 for further information.*

For personal use only

The following technical workstreams are currently underway in parallel with resource-growth drilling:

- Metallurgical testwork: gold processing flowsheet development (conventional leach circuit); tungsten gravity and flotation testwork;
- Geotechnical assessment: drilling and logging programme to characterise rock mass properties;
- Hydrogeological study: groundwater characterisation across the Mining Lease; and
- Environmental baseline: fauna, flora, heritage, and noise baseline surveys to support future regulatory approvals.

These programmes are intended to support the technical work required to underpin a maiden Mineral Resource Estimate and any subsequent scoping-level economic assessment.

Eastmain Project

The Eastmain Project is located approximately 750km northeast of Montreal and 316km northeast of Chibougamau and comprises 155 contiguous mining claims each with an area of approximately 52.7 ha, covering a total of 8,172.71 ha plus one industrial lease permit.

On May 23, 2023, the Company announced an updated independent Mineral Resource Estimate (**MRE**) on the Eastmain Project. The updated MRE has been possible following extensive drilling campaigns on the Eastmain Mine Shear Zone during 2021/22. The updated MRE for the Eastmain Project, prepared by P&E Mining Consultants Inc. (P&E) has been estimated at 621 koz Inferred and 384 koz Indicated gold at respective grades of 5.1 and 9.0 g/t Au.

Table 2: *Eastmain Project Updated Mineral Resources at 2.5 g/t Au Cut-off.*

Classification	Tonnes (Mt)	Au (g/t)	Au (koz)
Indicated	1.3	9.0	384
Inferred	3.8	5.1	621

Notes:

1. *The Mineral Resources described above have been prepared in accordance with the CIM Standards (Canadian Institute of Mining, Metallurgy, and Petroleum, 2014) and follow Best Practices outlined by CIM (2019).*
2. *Mineral Resources which are not Mineral Reserves do not have demonstrated economic viability. The estimate of Mineral Resources may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues.*
3. *The Inferred Mineral Resource in this estimate has a lower level of confidence than that applied to an Indicated Mineral Resource and must not be converted to a Mineral Reserve. It is reasonably expected that the majority of the Inferred Mineral Resource could be upgraded to an Indicated Mineral Resource with continued exploration.*
4. *The underground Mineral Resources in this estimate have been reported using a 2.5 g/t lower cut-off based on US$1,800/oz Au, 0.77 US$ FX, 95% process recovery and costs of C$125/t mining, C$40/t processing and $15/t G&A. Up-dip cut-and-fill mining is envisioned for extracting mineralization at Eastmain.*
5. *The Eastmain Zones have been classified as Indicated and Inferred according to drill spacing and two grade estimation passes. Underground Mineral Resources have been classified manually within a constraining volume to remove isolated areas not satisfying reasonable prospects for eventual economic extraction ("RPEEE") and have been reported using an approximate 2 m minimum down hole intercept.*
6. *Historical workings were depleted from the Mineral Resource model.*
7. *The bulk density of 2.95 t/m3 has been applied based on measurements taken on the drill core with Au values equal or greater than 2.0 g/t. This value was assigned to the block model.*
8. *The MRE is based on a block model with a parent block size in mineralized domains of 10 m x 10 m x 10 m with subcells as small as 0.5 m.*
9. *Tonnage and grades have been expressed in the metric system, and gold metal content has been expressed in troy ounces.*
10. *The tonnages have been rounded to the nearest 100 kt and the metal content has been rounded to the nearest 1 k ounces. Gold grades have been reported to one decimal place.*

This MRE is an update from the previously reported NI 43-101 compliant MRE (2019) of 236.5 koz indicated and 139.3 koz of inferred at respective grades of 8.19 g/t Au and 7.48 g/t Au on the Eastmain Project. This updated MRE was prepared and is reported in accordance with NI 43-101 and JORC 2012 and is effective as of

For personal use only

May 24, 2023. The Company engaged International Resource Solutions of Australia and P&E of Canada to prepare the updated MRE of the Eastmain Project. The updated MRE is based on 383 diamond drill holes totalling 103,444 m.

The MRE is sensitive to the selection of a reporting Au cut-off value, as demonstrated in Table 3.

Table 3: *Mineral Resource Estimate Sensitivity to Au Cut-off Grade.*

Cut-off Au (g/t)	Indicated			Inferred		
	Tonnes (Mt)	Au (g/t)	Au (koz)	Tonnes (Mt)	Au (g/t)	Au (koz)
4.5	1.0	10.5	351	1.6	7.4	370
4.0	1.1	10.0	362	2.1	6.6	444
3.5	1.2	9.6	371	2.6	6.0	510
3.0	1.3	9.3	380	3.3	5.5	576
2.5	**1.3**	**9.0**	**384**	**3.8**	**5.1**	**621**
2.0	1.4	8.6	392	4.7	4.6	685
1.5	1.5	8.4	393	5.5	4.1	733
1.0	1.5	8.3	394	6.0	3.9	755

Notes 1 - 10 below Table 2 also above apply.

Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. Mineral Resource Estimates do not account for mineability, selectivity, mining loss and dilution. Inferred Mineral Resources are normally considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as Mineral Reserves. There is also no certainty that Indicated Mineral Resources will be converted into Mineral Reserves, once economic considerations are applied; or that Inferred Mineral Resources will be converted to Measured and Indicated classifications through further drilling, or into Mineral Reserves, once economic considerations are applied.

During the year ended April 30, 2026, minimal exploration activities were completed on the Eastmain Project, however further gold targeting studies were progressed focused on both the high-grade structural trends of the Eastmain Mine, and new regional opportunities within the tenement package. The Company intends to continue exploration activities in late 2026.

Ruby Hill Properties

The Ruby Hill East property is located within the upper Eastmain greenstone belt of James Bay, Québec where the Eastmain Gold deposit is located. The Stornoway diamond mine is located about 80 km north of the property. The Ruby Hill East property consists of 88 mineral claims (4,640 ha) in a single block contiguous to the west with the Eastmain Mine Project. Fury Gold completed drill programs in 2008 and in 2016. In 2008, eight holes were drilled totalling 1,263m. In 2016, five diamond drill holes were completed totalling 1,044m.

The Ruby Hill West property is located approximately 800 km north of Montreal, 320 km north-northeast of Chibougamau and 160 km north of Temiscamie, Québec. The Ruby Hill West property consists of 302 contiguous claim cells (15,919.18 ha) in a single block. The eastern boundary of the property is located approximately 18km west of the Eastmain Project and 10 km from highway 167 North. The Ruby Hill West property is helicopter accessible from the base camp on the Eastmain Project.

During the year ended April 30, 2026, minimal exploration activities were completed on the Ruby Hill properties however the Company intends to continue exploration activities in late 2026.

For personal use only

Corporate Activities

On July 24, 2025, the Company completed the second tranche of a private placement of 5,028,750 CDIs issued at a price of $0.36 (A$0.40) per CDI for gross proceeds of $1,810,350 (A$2,011,500). Each CDI represents one underlying common share in the Company on a one for one basis.

On August 21, 2025, the Company completed Tranche 1 of a private placement of 30,406,091 CDIs issued at a price of $0.88 (A$0.985) per CDI for gross proceeds of $26,744,824 (A$29,950,000). Each CDI represents one underlying common share in the Company on a one for one basis.

On October 27, 2025, the Company issued 171,142 common shares of the Company to Fury Gold, at a deemed fair value of $1.46 per share, for a total fair value of $250,000 as part settlement of the First Milestone Payment to Fury Gold.

On December 17, 2025 the Company completed Tranche 2 of its August 2025 private placement comprising of 50,762 CDIs issued at a price of $0.90 (A$0.985) per CDI for gross proceeds of $45,558 (A$50,000). Each CDI represents one underlying common share in the Company on a one for one basis.

On February 5, 2026, the Company completed a private placement of 32,327,587 CDIs issued at a price of $2.21 (A$2.32) per CDI for gross proceeds of $71,517,002 (A$75,000,002). In relation to the placement the Company incurred share issuance costs totaling $3,050,550 (A$3,123,273) in the form of placement fees, professional fees and listing fees, which included $1,430,341 (A$1,500,001) of placement fees settled by the issue of 646,552 CDIs at a fair value of $2.21 (A$2.32) at the capital raise date. Each CDI represents one underlying common share in the Company on a one for one basis.

During the year ended April 30, 2026, the Company issued 1,400,000 shares on the exercise of compensation warrants at an exercise price of $0.63 per share for total proceeds of $882,000.

During the year ended April 30, 2026, the Company issued 11,068,750 common shares on the exercise of stock options at a weighted average exercise price of $0.55 per share for total proceeds of $6,125,469.

Post year end, on August 24, 2026, the Company announced it had received firm commitments for a private placement of 40,431,267 CDIs issued at a price of A$3.71 per CDI for gross proceeds of approximately A$150,000,000 (before costs). Each CDI represents one underlying common share in the Company on a one for one basis.

Competent Person's Statement

The information in this announcement that relates to the Glenburgh Exploration Target is based on, and fairly represents, information and supporting documentation compiled by Mr Mark Lynch-Staunton, a Competent Person who is a Member of Australian Institute of Geoscientists (AIG) Membership ID: 6918. Mr Lynch-Staunton has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mr Lynch-Staunton consents to the inclusion in the report of the matters based on this information in the form and context in which it appears. Further information regarding the Exploration Target is set out in the announcement dated 24 June 2026.

The Mineral Resource Estimates for the Eastmain Project and the Glenburgh and Mt Egerton Projects were previously reported in accordance with Listing Rule 5.8 on 24 May 2023 and 6 November 2024, respectively.

For personal use only

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and confirms that all material assumptions and technical parameters underpinning the Estimates continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

The information in this announcement that relates to historical exploration results was first reported to the ASX in accordance with ASX Listing Rule 5.7 on the dates identified throughout this announcement. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements.

For personal use only

3. Directors and Key Management

Evan Cranston – Executive Chairman, B. Comm, LLB

Appointed: 17 September 2020

Mr Cranston has served as a director since September 16, 2020. He is a former corporate lawyer with a broad experience in the areas of corporate advisory, capital raising, IPOs, joint ventures, mergers and acquisitions, corporate governance and liaison with market analysts and investors. He has a detailed knowledge of Corporate Governance, the ASX Listing Rules and the Australian Corporations Act. He holds both a Bachelor of Commerce and Bachelor of Laws from the University of Western Australia. Mr Cranston is the principal of Konkera Corporate, which provides corporate advisory and administration services to a number of ASX-listed companies. He has been involved in a number of ASX-listed companies from start-ups through to companies with market capitalisations in excess of $1 billion. Mr Cranston is not considered independent.

Mr Cranston is currently a director of Firebird Metals Limited (Non-Executive Chairman) and Torque Metals Limited (Non-Executive Director).

Mr Cranston has held the following ASX-listed directorships in the last 3 years; African Gold Limited (to April 2026) and Macro Metals Limited (to October 2025).

Interests in Shares: 6,420,000

Interests in Options: Nil

Interests in Performance Share Units: 3,000,000 (approved by Shareholders on 17 August 2026 and still to be issued)

Nick Tintor – Non-Executive Director, BSc., Geology

Appointed: 9 April 2019

Mr Tintor is a mining executive and geologist who holds a Bachelor of Science in Geology from the University of Toronto and has more than 30 years of experience in the Canadian mining industry. For the past 20 years, he has been involved in all aspects of junior mining company management from project generation to finance and executive management. He also brings deep global relationships in the mining industry and especially in the Canadian resources investment banking sector. Mr Tintor served as CEO of the Company between September and November 2019. Mr Tintor is considered independent.

Mr Tintor holds no other public directorships.

Interests in Shares: 415,000

Interests in Options: Nil

Interests in Performance Share Units: 150,000 (approved by Shareholders on 17 August 2026 and still to be issued)

Peter Williams – Non-Executive Director, M. Eng. Sc., Geophysics

Appointed: 17 September 2020

Mr Williams is a geophysicist with more than 30 years of expertise in mineral exploration and corporate management including Chief Geophysicist at WMC Resources in Australia and senior roles with Ampella

For personal use only

Mining and Independence Group, both on the ASX. Peter has extensive experience in successful exploration for different mineral systems around the world, in both Greenfields, Brownfields and in-mine exploration, including porphyry, orogenic and epithermal gold, skarns and IOCG deposits. He was involved in the target identification and acquisition of in excess of 10 million ounces of gold in West Africa, including the multi-million-ounce Wahignion and Batie Gold Deposit in Burkina Faso and Papillion's Gold Deposit in Mali. Mr Williams is considered independent.

Mr Williams is currently a director of Hawk Resources Limited (Non-Executive Director) and Golden State Mining Limited (Non-Executive Director).

Mr Williams has held the following ASX-listed directorships in the last 3 years; African Gold Limited (to April 2026).

Interests in Shares: 1,239,500

Interests in Options: Nil

Interests in Performance Share Units: 150,000 (approved by Shareholders on 17 August 2026 and still to be issued)

Mathew O'Hara – Non-Executive Director, B. Comm

Appointed: 27 April 2020

Mr O'Hara is a Chartered Accountant with extensive professional experience in capital markets, financing, financial accounting and corporate governance. His experience includes being employed by, and acting as, Director, Company Secretary and CFO of several companies, predominantly in the resources sector.

Prior to these roles, he spent more than a decade working as an Associate Director at an international accounting firm in both the Corporate Finance/Advisory and Audit divisions in Australia gaining significant experience with publicly listed clients across a diverse range of industries, including mining and metals, oil and gas, technology and infrastructure. He had a particular focus in audit, mergers & acquisitions, valuations, financial modelling, due diligence and financial reporting. Mr O'Hara is considered independent.

Mr O'Hara is currently a director of Lion Rock Minerals Limited (Non-Executive Director) and Pearl Gull Iron Limited (Non-Executive Director).

Mr O'Hara has held the following ASX-listed directorships in the last 3 years; African Gold Limited (to April 2026).

Interests in Shares: 1,598,736

Interests in Options: Nil

Interests in Performance Share Units: 150,000 (approved by Shareholders on 17 August 2026 and still to be issued)

Nick Jolly - Non-Executive Director, MAIG

Appointed: 14 January 2025

Mr Jolly has served as a director since January 14, 2025. Mr Jolly was the nominated director of Spartan Resources Limited and has 20 years industry experience as a geologist in technical and leadership roles in the Australian mining industry and overseas. He held the role of General Manager – Exploration and Business

For personal use only

Development with Spartan Resources Limited up until its acquisition by Ramelius Resources Limited in July 2025. Prior to this had five years of operation-focused management roles with Northern Star Resources Limited.

Mr Jolly is currently a director of Anax Metals Limited (Non-Executive Director). Mr Jolly has not held any other ASX-listed directorships in the last 3 years.

Interests in Shares: 130,431

Interests in Options: Nil

Interests in Performance Share Units: 150,000 (approved by Shareholders on 17 August 2026 and still to be issued)

Mark Lynch-Staunton – Chief Executive Officer

Mr Lynch-Staunton is a highly experienced mining professional with extensive management and technical experience built up over a career spanning 15 years in Australia and internationally. Prior to joining Benz, Mr Lynch-Staunton held senior management positions within Barrick Gold Corporation, including as their Feasibility Manager for Africa Middle East, where he led multidisciplinary teams for the delivery of optimised project economics for some of the world's largest mineral deposits. Mr Lynch-Staunton has proven ability to advance early-stage exploration and mining projects having led studies on multiple globally-significant projects, including one of the world's largest undeveloped copper deposits, Reko Diq and multi-million-ounce gold deposit, Bulyanhulu. Mr Lynch-Staunton holds a Masters of Mining in Geology from Camborne School of Mines and a Bachelor (Hons) in Exploration and Resource Geology from the University of Wales.

Mr Lynch-Staunton was appointed Chief Executive Office on 26 November 2024, having previously served as Chief Development officer since 8 December 2023.

Interests in Shares: 4,456,891

Interests in Performance Share Units: 4,500,000

Simon Sharp – Chief Financial Officer

Mr Sharp is the Chief Financial Officer of Benz Mining Corp. He has over 25 years' experience in senior roles providing financial reporting and accounting services to numerous public companies in both Canada and Australia. Mr Sharp is based in Montreal and is a member of the Institute of Chartered Accountants in England & Wales and also Australia.

Oonagh Malone – Company Secretary

Ms Malone is a principal of a corporate advisory firm which provides company secretarial and administrative services. She has over a decade of experience in administrative and company secretarial roles for listed companies and is a member of the Governance Institute of Australia and the Australian Institute of Company Directors. Ms Malone currently acts as Company Secretary for ASX-listed companies Carbine Resources Limited, Caprice Resources Limited, Riversgold Limited, Firebird Metals Ltd and RareX Limited. Ms Malone is a Non-Executive Director of Lion Rock Minerals Limited.

For personal use only

4. Mineral Resource Statement

The following information is provided in accordance with Listing Rule 5.21.

Mineral Resource Estimation Governance Statement

Benz ensures that any Mineral Resource Estimate is subject to appropriate levels of governance and internal controls.

The Mineral Resource Estimate for the Eastmain Project (estimated in 2023) has been generated by independent consultants to the Company, P&E Mining Consultants Inc (Canada) and International Resource Solutions (Australia), who are experienced in best practices in modelling and estimation methods and have undertaken reviews of the quality and suitability of the underlying information used to generate the resource estimations. The Mineral Resource estimate follows standard industry methodology using geological interpretation and assay results from samples acquired through drilling. Benz reports its Mineral Resources for the Eastmain Project in accordance with the Canadian National Instrument 43-101 (**NI 43-101**) and the requirements of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves 2012 Edition (**JORC Code 2012**). Competent Persons named by the Company qualify as Competent Persons as defined in the JORC Code.

The Company confirms there has been no change from the previous year and therefore the table below sets out Mineral Resources as at 30 April 2025 and 30 April 2026 for the Eastmain Project.

Eastmain Project Mineral Resource

Competent Persons Statement with respect to Mineral Resource Statement

The information contained in this report that relates to the Mineral Resource Estimates for the Glenburgh and Mt Egerton Gold Projects, is based on and fairly reflects, information compiled by Dr Marat Abzalov. Dr Abzalov is an independent consultant of the MASSA Geoservices and was engaged by Benz Mining Corp. Dr Abzalov is a Fellow of The Australasian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration. Dr Abzalov has shares in Benz Mining Corp. Dr Abzalov consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Information in this report that relates to the Mineral Resource Estimate for the Eastmain Project is based on, and fairly represents, information and supporting documentation prepared by Mr Brian Wolfe, an independent consultant specialising in mineral resource estimation, evaluation, and exploration. Mr Wolfe is a Member of the Australian Institute of Geoscientists. Mr Wolfe has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Wolfe consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

For personal use only

5. Corporate Governance

The Company is committed to implementing the highest standards of corporate governance. In determining what those high standards should involve the Company has turned to the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (4th Edition).

Unless disclosed below, all the principles and recommendations of the ASX Corporate Governance Council have been applied for entire financial year ended 30 April 2026.

Board of Directors

The Board is responsible for the corporate governance of the Company. The Board develops strategies for the Company, reviews strategic objectives and monitors performance against those objectives. Clearly articulating the division of responsibilities between the Board and management will help manage expectations and avoid misunderstandings about their respective roles and accountabilities. In general, the Board assumes (amongst others) the following responsibilities:

i. appointing and when necessary, replacing the Chief Executive Officer and other senior executives and the determination of their terms and conditions including remuneration and termination;

ii. driving the strategic direction of the Company, ensuring appropriate resources are available to meet objectives and monitoring management's performance;

iii. reviewing and ratifying systems of risk management and internal compliance and control, codes of conduct and legal compliance;

iv. approving and monitoring the progress of major capital expenditure, capital management and significant acquisitions and divestitures;

v. overseeing the integrity of the Company's accounting and corporate reporting systems including the external audit;

vi. undertaking appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director;

vii. overseeing the Company's process for making timely and balanced disclosure of all material information concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company's securities; and

viii. monitoring the effectiveness of the Company's governance practices.

ix. The Company is committed to ensuring that appropriate checks are undertaken before the appointment of a director and has in place written agreements with each Director which detail the terms of their appointment.

Board Composition

Election of Board members is substantially the province of the Shareholders in a general meeting. The Board currently consists of one Executive Director (Evan Cranston), and four Non-Executive Directors (Nick Tintor, Peter Williams, Mathew O'Hara and Nick Jolly).

For personal use only

Each of Messrs Tintor, Williams, O'Hara and Jolly are considered to be independent Directors.

The Board regularly reviews the balance of skills currently and as part of succession planning to ensure the appropriate level of skills, knowledge and experience along with diversity and independence are in place to best discharge its responsibilities for the shareholders in the most effective manner.

As the Company's activities develop in size, nature and scope, the composition of the Board and the implementation of additional corporate governance policies and structures will be reviewed.

Compliance with ASX Recommendations

Recommendation	Benz Mining Corp Current Practice
1.1 A listed entity should have and disclose a board charter setting out: (a) The respective roles and responsibilities of its board and management; and (b) Those matters expressly reserved to the board and those delegated to management.	The Company has established a Board Charter. The Board Charter sets out the specific responsibilities of the Board in relation to corporate governance, the role of the Board, the Board's relationship with management, the key responsibilities of the Board, the structure of the Board, the role of the chair, the role of Board committees and the occurrence of Board meetings. A copy of the Company's Board Charter is available on the Company's website at www.benzmining.com
1.2 A listed entity should: (a) Undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director; and (b) Provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.	a) The Company's Remuneration and Nomination Committee Charter (currently applied by the full Board, rather than a separate committee) requires the Board to undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director. b) All material information relevant to a decision on whether or not to elect or re-elect a director will be provided to security holders in any notice of meeting pursuant to which the resolution to elect or re-elect such Director will be voted on.
1.3 A listed entity should have a written agreement with each director and senior executive setting out the terms of their employment.	The Company's Remuneration and Nomination Committee Charter and Board Charter require the Board to ensure that each Director and senior executive is a party to a written agreement with the Company which sets out the terms of that Director's or

For personal use only

		senior executive's appointment. The Company has entered into a written agreement with each Director and senior executive setting out the terms of their appointment.
1.4	The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board.	The Board Charter outlines the role, responsibility and accountability of the Company Secretary. The Company Secretary is accountable directly to the Board, through the Chair, on all matters relating to the proper functioning of the Board.
1.5	A listed entity should: (a) Have and disclose a diversity policy; (b) Through its board or a committee of the board set measurable objectives for achieving gender diversity in the composition of its board, senior executives and workforce generally; and (c) Disclose in relation to each reporting period: 1. the measurable objectives set for that period to achieve gender diversity; 2. the entity's progress towards achieving those objectives; and 3. either: A. the respective proportions of men and women on the board, in senior executive positions and across the whole organisation (including how the entity has defined "senior executive" for these purposes); or B. if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act. If the entity was in the S&P / ASX 300 Index at the commencement of the reporting period, the measurable objective for achieving gender diversity in the composition of its board should be 30% of its directors of each gender within a specified period.	The Company has a Diversity Policy which includes requirements for the board or a relevant committee of the Board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them. This is available on the Company's website at www.benzmining.com Due to the current size and composition of the organisation, the Board does not consider it appropriate to provide measurable objectives in relation to gender diversity. The Company is committed to ensuring that the appropriate mix of skills, expertise, and diversity are considered when employing staff at all levels of the organisation and when making new senior executive and Board appointments and is satisfied that the composition of employees, senior executives and members of the Board is appropriate. The Company was not in the S&P / ASX 300 Index at the commencement of the reporting period.
1.6	A listed entity should: (a) Have and disclose a process for periodically evaluating the performance of the board, its	a) The Nominations Committee or the Board (in the absence of a Nominations Committee) is responsible for evaluating the performance of the Board and

For personal use only

	committees and individual directors; and (b) Disclose for each reporting period whether a performance evaluation was undertaken in the reporting period in accordance with that process.	individual Directors on an annual basis, with the aid of an independent advisor, if deemed required. b) The Company has not yet undertaken a performance evaluation with respect to the Board, its committees and individual directors.
1.7	A listed entity should: (a) Have and disclose a process for periodically evaluating the performance of its senior executives; and (b) Disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.	The Board reviews the performance of its senior executives on a routine basis. A senior executive, for these purposes, means key management personnel (as defined in the Corporations Act), other than non-executive Directors. The applicable processes for these evaluations can be found in the Company's Performance Evaluation Policy, which is available on the Company's website at www.benzmining.com . A performance evaluation was conducted in March 2026.
2.1	The board of a listed entity should: (a) Have a nomination committee which: 1) has at least three members, a majority of whom are independent directors; and 2) is chaired by an independent director; and disclose: 3) the charter of the committee; 4) the members of the committee; and 5) as at the end of each reporting period, the number of times the committee met throughout the period, and the individual attendances of the members at those meetings; or (b) If it does not have a nomination committee, disclose the fact and the processes it employs to address board succession issues and to ensure the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively.	The Company does not comply with Recommendation 2.1. The Company is not of a relevant size to consider formation of a nomination committee to deal with the selection and appointment of new Directors and as such a nomination committee has not been formed. Nominations of new Directors are considered by the full Board. If any vacancies arise on the Board, all directors are involved in the search and recruitment of a replacement. The Board has taken a view that the full Board will hold special meetings or sessions as required. The Board is confident that this process for selection, including undertaking appropriate checks before appointing a person, or putting forward to security holders a candidate for election, and review is stringent and full details of all Directors will be provided to Shareholders in the annual report and on the Company's website.
2.2	A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that	The Board's skills matrix indicates the mix of skills, experience and expertise that are

For personal use only

	the board currently has or is looking to achieve in its membership.	considered necessary at Board level for optimal performance of the Board. The matrix reflects the Board's objective to have an appropriate mix of industry and professional experience including skills such as corporate finance, geology, mining, policy development, mergers and acquisition, legal, commercial and customer relationships. External consultants may be brought in with specialist knowledge to address areas where this is an attribute deficiency in the Board.
2.3	A listed entity should disclose: (a) The names of the directors considered by the board to be independent directors; (b) If a director has an interest, position, association or relationship of the type described in Box 2.3 but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion; and (c) The length of service of each director.	The Company discloses in its Annual Report those Directors it considers independent Directors and the considerations given in determining independence. The Annual Report also includes the length of service of each Director (refer Section 3).
2.4	A majority of the board of a listed entity should be independent directors.	Four of the Company's five Directors are considered to be independent. The remaining Director is not considered to be independent.
2.5	The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.	Evan Cranston is the Company's Chair and is not considered independent by virtue of his position as an executive director. As the Company grows, the Board will consider the transitioning this role to that of an independent director.
2.6	A listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their roles as directors effectively.	In accordance with the Company's Board Charter, the Board is responsible for the approval and review of induction and continuing professional development programs and procedures for Directors to ensure that they can effectively discharge their responsibilities. The Company Secretary is responsible for facilitating inductions and professional development.
3.1	A listed entity should articulate and disclose its values.	The Board has approved a Statement of Values and charges the Directors with the responsibility of inculcating those values

For personal use only

	across the Company. This is available at www.benzmining.com
3.2 A listed entity should: (a) Have and disclose a code of conduct for its directors, senior executives and employees; and (b) Ensure that the board or a committee of the board is informed of any material breaches of that code.	The Company has adopted a Code of Conduct for the Board, senior executives and employees that promote the highest standards of ethics and integrity in carrying out their duties to the Company. This is available at www.benzmining.com
3.3 A listed entity should: (a) Have and disclose a whistleblower policy; and (b) Ensure that the board or a committee of the board is informed of any material incidents reported under that policy.	The Board has adopted a Whistleblower Policy to ensure concerns regarding unacceptable conduct including breaches of the Company's code of conduct can be raised on a confidential basis, without fear of reprisal, dismissal or discriminatory treatment. The purpose of this policy is to promote responsible whistle blowing about issues where the interests of others, including the public, or of the organisation itself are at risk. This is available at www.benzmining.com
3.4 A listed entity should: (a) Have and disclose an anti-bribery and corruption policy; and (b) Ensure that the board or a committee of the board is informed of any material breaches of that policy.	The Board has a zero-tolerance approach to bribery and corruption and is committed to acting professionally, fairly and with integrity in all business dealings. The Board has adopted an Anti-Bribery and Anti-Corruption Policy for the purpose of setting out the responsibilities in observing and upholding the Company's position on bribery and corruption provide information and guidance to those working for the Company on how to recognise and deal with bribery and corruption issues. This is available at www.benzmining.com
4.1 The board of a listed entity should: (a) Have an audit committee which: 1) has at least three members, all of whom are non-executive directors and a majority of whom are independent directors; and 2) is chaired by an independent director, who is not the chair of the board; and disclose: 3) the charter of the committee; 4) the relevant qualifications and experience of	The Company's audit committee consists of three members who will be appointed by the Board. To the extent possible, the Board will endeavour to appoint Non-Executive Directors as members, with a majority of the appointees being independent. The audit committee will be chaired by an independent director, who is not the chair of the Board. The Company Secretary will perform the duties of Secretary of the Audit Committee. The members of the Audit Committee are Mathew O'Hara, Nick Tintor and Peter

For personal use only

	the members of the committee; and 5) as at the end of each reporting period, the number of times the committee met throughout the period, and the individual attendances of the members at those meetings; or (b) If it does not have an audit committee, disclose the fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.	Williams. Mr O'Hara acts as Chair of the Audit Committee. All members of the Audit Committee are independent and the Audit Committee met once during the year. The Company has disclosed the Audit Committee charter on the Company's website at www.benzmining.com.
4.2	The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal controls which is operating effectively.	The Board relies on management accountability for the Company's financial statements and reports for a financial period and requires the CEO (or equivalent) and CFO, to provide declarations that in their opinion, the financial records and reports have been properly maintained and presented and comply with appropriate accounting standards, giving a true and fair view, in all material respects, of the financial position and performance of the Company and its entities.
4.3	A listed entity should disclose its process to verify the integrity of any periodic corporate report it releases to the market that is not audited or reviewed by an external auditor.	When preparing reports for release to the market including the periodic reports, these reports shall be prepared and reviewed by the CEO and CFO before being presented to the Board for review and approval. Such reports shall not be released to market without this review and approval process by executive management and the Board.
5.1	A listed entity should have a written policy for complying with its continuous disclosure obligations under Listing Rule 3.1.	The Company has adopted a Continuous Disclosure Policy which is set out within the Company's Corporate Governance Plan and details the Company's disclosure requirements as required by the Listing Rules and other relevant legislation. The Continuous Disclosure Policy is available on the Company's website at www.benzmining.com
5.2	A listed entity should ensure that its board receives copies of all material market announcements promptly	The Board has appointed the Company Secretary as the person responsible for communicating with the relevant securities

For personal use only

	after they have been made.	exchanges and overseeing and coordinating the timely disclosure of information to ASX and TSX-V, subject to prior review and approval of all announcements by the Directors or any person with appropriate delegated authority. The Company Secretary ensures that the Board are aware of when any announcement is due to go out and when the confirmation of release is received, the Company Secretary promptly forwards this to the Board.
5.3	A listed entity that gives a new and substantive investor or analyst presentation should release a copy of the presentation materials on the ASX Market Announcements Platform ahead of the presentation.	The Board has appointed the Company Secretary as the person responsible for communicating with ASX and overseeing and coordinating the timely disclosure of information to ASX, subject to prior review and approval of all announcements by the Directors or any person with appropriate delegated authority. The Company Secretary will ensure any substantive presentations are released to the ASX Market Announcements Platform ahead of the presentation and in accordance with the Continuous Disclosure Policy.
6.1	A listed entity should provide information about itself and its governance to investors via its website.	Information about the Company and its governance is available on the Company's website at www.benzmining.com
6.2	A listed entity should design and implement an investor relations program to facilitate effective two-way communication with investors.	The Company has adopted a Shareholder Communications Policy which aims to promote and facilitate effective two-way communication with investors. The Policy outlines a range of ways in which information is communicated to Shareholders. This is available on the Company's website at www.benzmining.com
6.3	A listed entity should disclose how it facilitates and encourages participation at meetings of security holders.	As per the Company's Shareholder Communications Policy, Shareholders will be encouraged to participate at all meetings of security holders the Company. Upon the despatch of any notice of meeting to Shareholders, the Company Secretary shall send out material with that notice of meeting stating that all Shareholders are encouraged to participate at the meeting. CDI holders are also encouraged to attend the Meeting, however, cannot vote in person

For personal use only

		and must direct CHESS Depositary Nominees how to vote in advance of the meeting.
6.4	A listed entity should ensure that all substantive resolutions at a meeting of security holders are decided by poll rather than by a show of hands.	The Company conducts a poll at meetings of security holders to decide each resolution.
6.5	A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.	The Company is committed to maintaining a Company website with general information about the Company and its operations and information specifically targeted at keeping the Company's shareholders informed about the Company. Regular reports are released through the ASX and the TSX-V as well as the media. Notices of all meetings of shareholders, annual reports, quarterly reports and material TSX-V announcements are posted on SEDAR+ (www.sedarplus.ca) and ASX (www.asx.com.au).
7.1	The board of a listed entity should: (a) have a committee or committees to oversee risk, each of which: 1) has at least three members, a majority of whom are independent directors; and 2) is chaired by an independent director; and disclose: 3) the charter of the committee; 4) the members of the committee; and 5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings: or (b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework.	The Board has not established a separate Risk Management Committee. The Board is ultimately responsible for risk oversight and risk management. Discussions on the recognition and management of risks are considered by the Board. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify having a separate risk committee.
7.2	The board or a committee of the board should: (a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound and that the entity is operating with due regard to the risk appetite set by the Board; and (b) disclose, in relation to each reporting period,	The Company is committed to the identification, monitoring and management of risks associated with its business activities and has established policies in relation to the implementation of practical and effective control systems. The Company has established a Risk Management Policy and will disclose in relation to each reporting

For personal use only

	whether such a review has taken place.	period whether a review of the risk management has taken place. During the year, the Company completed a review of general and specific risks as part of its Annual Information Form, this is available on the Company's website at www.benzmining.com. The Company also provides an overview of the risks and uncertainties that may affect the Company in its quarterly MD&As.
7.3	A listed entity should disclose: (a) if it has an internal audit function, how the function is structured and what role it performs; or (b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.	The Company does not have an independent internal audit function. Due to the nature and size of the Company's operations, and the Company's ability to derive substantially all of the benefits of an independent internal audit function in the manner disclosed below, the expense of an independent internal auditor is not considered to be appropriate.
7.4	A listed entity should disclose whether it has any material exposure to economic, environmental and social sustainability risks and, if it does, how it manages or intends to manage those risks.	The Company identifies and manages material exposure to environmental and social risks in a manner consistent with its Risk Management Policy, which is available on the Company's website at www.benzmining.com. The Company has, and continues to, undertake various organisation wide risk reviews to identify potential business risks. The effectiveness of the controls in place to address each risk is reviewed on a regular basis and, where the residual risk is considered outside of acceptable limits, further controls and risk mitigation measures are developed and implemented. The most recent review of these risks was performed as part of its annual audit for the year ended 30 April 2026 with key risks noted in the Company's Annual Information Form available on the Company's website at www.benzmining.com.
8.1	The board of a listed entity should: (a) have a remuneration committee which: 1) has at least three members, a majority of whom are independent directors; and 2) is chaired by an independent director;	The Board as a whole performs the function of the Remuneration committee which includes setting the Company's remuneration structure, determining eligibilities to incentive schemes, assessing performance and remuneration of senior management and determining the remuneration and

For personal use only

	and disclose: 3) the charter of the committee; 4) the members of the committee; and 5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or (b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.	incentives of the Board. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify having a separate remuneration committee. However, the Company intends to nominate a remuneration committee during the next financial year.
8.2	A listed entity should separately disclose its policies and practises regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.	The Board Charter sets out the policies and practices of the remuneration of Non-Executive Directors, Executive Directors and other senior executives. All Directors of the Company typically receive remuneration comprising a base salary component and other fixed benefits based on the terms of their respective employment agreements with the Company or its subsidiaries, and potentially the ability to participate in incentive plans. Details of the remuneration of the Directors and other executives are in the Company's Management Information Circular provided in connection with the annual general meeting held on 16 December 2025, available on the Company's website, ASX and SEDAR+.
8.3	A listed entity which has an equity-based remuneration scheme should: (a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and (b) disclose that policy or a summary of it.	The Company's Trading Policy prohibits the hedging of unvested performance share rights and vested securities that are subject to disposal restrictions at all times, irrespective of trading windows. This is intended to prevent transactions which could have the effect of distorting the proper functioning of performance hurdles or reducing the intended alignment between management's and shareholders' interests. For the purposes of this policy, hedging includes the entry into any derivative transaction such as options, forward

	contracts, swaps, futures, warrants, caps and collars and any other transaction in financial products which operate to limit (in any way) the economic risk associated with holding the relevant securities. The Trading Policy is available on the Company's website.

6. ASX Additional Information

Voting Rights

The Company is incorporated under the legal jurisdiction of British Columbia, Canada. To enable companies such as the Company to have their securities cleared and settled electronically through CHESS, Depositary Instruments called CHESS Depositary Interests (**CDIs**) are issued. Each CDI represents one underlying ordinary share in the Company (**Share**). The main difference between holding CDIs and Shares is that CDI holders hold the beneficial ownership in the Shares instead of legal title. CHESS Depositary Nominees Pty Limited (**CDN**), a subsidiary of ASX, holds the legal title to the underlying Shares.

Pursuant to the ASX Settlement Operating Rules, CDI holders receive all of the economic benefits of actual ownership of the underlying Shares. CDIs are traded in a manner similar to shares of Australian companies listed on ASX.

CDIs will be held in uncertificated form and settled/transferred through CHESS. No share certificates will be issued to CDI holders. Each CDI is entitled to one vote when a poll is called, otherwise each member present at a meeting or by proxy has one vote on a show of hands.

If holders of CDIs wish to attend and vote at the Company's general meetings, they will be able to do so. Under the ASX Listing Rules and the ASX Settlement Operating Rules, the Company as an issuer of CDIs must allow CDI holders to attend any meeting of the holders of Shares unless relevant English law at the time of the meeting prevents CDI holders from attending those meetings. In order to vote at such meetings, CDI holders have the following options:

(i) instructing CDN, as the legal owner, to vote the Shares underlying their CDIs in a particular manner. A voting instruction form will be sent to CDI holders with the notice of meeting or proxy statement for the meeting and this must be completed and returned to the Company's Share Registry prior to the meeting; or

(ii) informing the Company that they wish to nominate themselves or another person to be appointed as CDN's proxy with respect to their Shares underlying the CDIs for the purposes of attending and voting at the general meeting; or

(iii) converting their CDIs into a holding of Shares and voting these at the meeting (however, if thereafter the former CDI holder wishes to sell their investment on ASX it would be necessary to convert the Shares back to CDIs). In order to vote in person, the conversion must be completed prior to the record date for the meeting. See above for further information regarding the conversion process.

As holders of CDIs will not appear on the Company's share register as the legal holders of the Shares, they will not be entitled to vote at Shareholder meetings unless one of the above steps is undertaken.

As each CDI represents one Share, a CDI Holder will be entitled to one vote for every CDI they hold.

Proxy forms, CDI voting instruction forms and details of these alternatives will be included in each notice of meeting sent to CDI holders by the Company.

These voting rights exist only under the ASX Settlement Operating Rules, rather than under British Columbia Law. Since CDN is the legal holder of the applicable Shares and the holders of CDIs are not themselves the legal holder of their applicable Shares, the holders of CDIs do not have any directly enforceable rights under the Company's articles of association.

As holders of CDIs will not appear on our share register as the legal holders of shares of ordinary shares, they will not be entitled to vote at our shareholder meetings unless one of the above steps is undertaken.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BENZ MINING CORP.

Opinion

We have audited the financial statements of Benz Mining Corp. (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 April 2026, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended 30 April 2026, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements of the Group present fairly, in all material respects, the consolidated financial position of the Group as at 30 April 2026 and of its consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code) that are relevant to our audit of the financial statements. We have also fulfilled our other ethical responsibilities in accordance with the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Exploration and Evaluation Assets Refer to Note 5 in the financial statements	
The Group has capitalised exploration and evaluation assets with a carrying value of $15,136,326 as at 30 April 2026. We considered this to be a key audit matter due to significant management judgements involved in assessing the carrying value of the asset including: • Determination of whether the exploration and evaluation expenditure can be associated with finding specific mineral resources and the basis on which that expenditure is allocated to an area of interest; • Assessing whether exploration and evaluation activities have reached a stage at which the existence of economically recoverable reserves may be determined; and • Assessing whether any indicators of impairment are present and if so, judgement applied to determine and quantify any impairment loss.	Our audit procedures included: • Assessing the Group's accounting policy for compliance with International Financial Reporting Standards; • Assessing whether the Group has valid rights to explore in the specific area of interest; • Assessing and evaluating management's assessment of whether indicators of impairment existed as at 30 April 2026; • Assessing management's determination that exploration and evaluation activities have not yet reached a stage where the existence or otherwise of economically recoverable reserves may be reasonably determined; • Enquiring with management and assessing budgets and other documentation as evidence that active and significant operations in, or relation to, the relevant area of interests will be continued in the future; • Assessing the accounting for the acquisition of exploration and evaluation assets; and • Assessing the disclosures in the financial statements.
Reclamation Provision Refer to Note 10 in the financial statements	
The Group has a reclamation provision with a carrying value of $1,580,000 as at 30 April 2026. We considered this to be a key audit matter due to significant management judgements involved in assessing the carrying value of the provision. The significant management judgements were required for factors such as timing of when the reclamation costs will be incurred, the extent of the reclamation project as well as the economic assumptions relating to inflation and discount rates taken into account to determine the provision amount.	Our audit procedures included: • Evaluating the assumptions and methodologies used by the Company in determining their reclamation obligations; • Assessing the qualifications, competence and objectivity of the Company's external experts, which formed the basis for the Company's estimates; • Assessing the appropriateness of the cost estimates used; • Assessing the appropriateness of the estimated timing of when the reclamation activities will be undertaken and the related cash flows incurred and the resultant inflation and discount rate assumptions used in determining the reclamation provision; and • Assessing the disclosures in the financial statements.

Other Information

Management is responsible for the other information. The other information comprises the Management's Discussion and Analysis, which we obtained prior to the date of the auditor's report.

Our opinion on the financial statements does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards and for such internal control as the management determines is necessary to enable the preparation of the financial statements that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

For personal use only

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. NATURE OF OPERATIONS AND GOING CONCERN

Benz Mining Corp. (the **Company**) was incorporated under the laws of the Province of British Columbia on November 9, 2011. The Company is involved in the acquisition, exploration and exploitation of mineral properties with operating segments located in Canada and Australia. The Company's head and registered offices are located at Suite 2501, 550 Burrard Street, Vancouver BC V6C 2B5. The Company's common shares are traded on the TSX-V Exchange (**BZ**), the Frankfurt Exchange (**1VU**) and the Australian Securities Exchange (**BNZ**).

Going concern

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will realize its assets and discharge its obligations in the normal course of operations.

2. BASIS OF PREPARATION

Statement of compliance

These consolidated financial statements for the year ended April 30, 2026 (**Consolidated Financial Statements**) have been prepared in accordance with International Financial Reporting Standards (**IFRS**) as issued by the International Accounting Standards Board (**IASB**) and interpretations of the International Financial Reporting Interpretations Committee (**IFRIC**).

Basis of measurement

These consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Basis of consolidation

These consolidated financial statements include the accounts of the Company and all of its wholly-owned subsidiaries. Subsidiaries are fully consolidated from the date on which control is acquired by the Company until the date on which control ceases. Intercompany transactions, balances, income and expenses are eliminated upon consolidation.

Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

On November 26, 2024, the Company incorporated a wholly-owned subsidiary, BGA Exploration Pty Ltd (**BGA**) in Australia for the purposes of holding additional mineral tenements on land adjacent to the Glenburgh Project and Mt Egerton Project (Note 5).

For personal use only

On January 14, 2025, the Company acquired 100% of the share capital of both Gascoyne Resources (WA) Pty Ltd and Egerton Exploration Pty Ltd as part of the Spartan Transaction (Note 5).

As at April 30, 2026, the subsidiaries of the Company were as follows:

Entity	Country of Incorporation	Ownership Interest		Principal Activity	Functional Currency
		2026	2025		
Gascoyne Resources (WA) Pty Ltd	Australia	100%	100%	Mineral Exploration	AUD
Egerton Exploration Pty Ltd	Australia	100%	100%	Mineral Exploration	AUD
BGA Exploration Pty Ltd	Australia	100%	100%	Mineral Exploration	AUD

Significant accounting judgements and estimates

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

a) Impairment of exploration and evaluation assets

The Company considers both external and internal sources of information in assessing whether there are any indications that the Company's exploration and evaluation assets are impaired. External sources of information that management considers include changes in the market, economic and legal environment, in which the Company operates, that are not within its control, and affect the recoverable amount of its mining interests.

b) Reclamation provision

The Company assesses its mineral property reclamation provision at each reporting date or when new material information becomes available. Exploration, development and mining activities are subject to various laws and regulations governing the protection of the environment. In general, these laws and regulations are continually changing and the Company has made, and intends to make in the future, expenditures to comply with such laws and regulations. The assessment of a provision, including the scope of the reclamation work, can be complex and requires management to make judgements.

For personal use only

The Company's provision represents management's best estimate of the present value of the future cash outflows required to settle the liability. Actual costs incurred may differ from those amounts estimated. Factors that affect the final cost of remediation include estimates of the extent and costs of rehabilitation activities, assumptions on the expected timing, technological changes, estimated cost increases, estimates of discount rates, and the requirements under environmental laws and regulations. Changes in the above factors can result in a change to the provision recognized by the Company and could materially impact the amounts recognized in the statements of financial position and charged to operations and comprehensive loss.

c) Determination of functional currency

The determination of the functional currency of the Company and of its subsidiaries requires significant judgment of the primary economic environment in which the Company and its subsidiaries operates may not be clear. This can have a significant impact on the consolidated results of the Company based on the foreign currency translation method.

d) Asset acquisitions vs business combinations

The Company had to apply judgment with respect to whether the acquisitions were asset acquisitions or business combinations. The assessments required management to assess the inputs, processes, and outputs of the companies acquired at the time of acquisition. Acquisitions that do not meet the definition of a business combination are accounted for as asset acquisitions. The Company concluded that neither Gascoyne nor Egerton met the definition of business under IFRS 3 *Business Combinations*, as the significant inputs, processes, and outputs, that together constitute a business, did not exist at the time of acquisition. Consequently, these transactions were accounted for as acquisitions of assets. Refer to Note 5 for further information.

e) Valuation of consideration payable in asset acquisitions

Estimates were made as to the fair value of consideration payable in asset acquisitions. The Company measured the fair value of the consideration payable in cash and in shares applying and calculating discount rates reflective of the timing and risks associated to the Company and the industry it operates in. The cash was valued at present value on the date of the transaction, using a cost of capital of 8% to reflect the time value of money and risks specific to the cashflow. The share consideration was measured based on the fair value of the shares at the date of acquisition applying a Discount for Lack of Marketability (**DLOM**) due to the voluntary trading restrictions of the shares.

For personal use only

3. MATERIAL ACCOUNTING POLICY INFORMATION

Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand, and short-term deposits with an original maturity of three months or less, which are cashable and readily convertible into a known amount of cash.

Foreign currency translation

The consolidated financial statements are presented in Canadian Dollars (**CAD**) which is the Company's functional and presentation currency. Effective May 1, 2025, the functional currency of the Australia branch has changed from CAD to the Australian dollar (**AUD**) reflecting the transition of that office from a purely corporate function to include activities associated with an exploration office. The functional currency of the Company's wholly owned subsidiaries is AUD. The functional currency of each entity is measured using the currency of the primary economic environment in which that entity operates. The functional currency determinations were conducted through an analysis of the consideration factors identified in IAS 21 *The Effects of Changes in Foreign Exchange Rates*.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined. Exchange differences arising on the translation of monetary items or on settlement of monetary items are recognized in profit or loss.

Foreign operations

On consolidation, the assets and liabilities of entities that have a functional currency different from the presentation currency (**foreign operations**) are translated into Canadian dollars at the rate of exchange prevailing at the reporting date and their statements of operations and comprehensive loss are translated at the average exchange rates for the reporting period. The exchange differences arising on consolidation are recognized in other comprehensive income or loss. On disposal of a foreign operation, the component of other comprehensive income or loss relating to that particular foreign operation is reclassified to profit or loss.

Exploration and evaluation assets

The cost of a property acquired as an individual asset purchase or as part of a business combination represents the property's fair value at the date of acquisition. This cost is capitalized until the viability of the mining property is determined. When it is determined that a property is not economically viable, the amount capitalized is written off which includes expenditures which were capitalized to the carrying amount of the property subsequent to its acquisition.

The Company expenses all costs relating to the exploration for and evaluation of mineral claims until such time as a technical feasibility study has been completed and commercial viability of extracting the mineral resources is demonstrable. Such costs include, but are not limited to, geological, geophysical studies, exploratory drilling and sampling. Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation expenses attributable to that area of interest will be capitalized to mineral properties. Costs will continue to be capitalized until the property to which they relate is ready for

For personal use only

For personal use only

its intended use, sold, abandoned, or management has determined there is impairment. If economically recoverable reserves are developed, capitalized costs of the property are depleted using the units of production method.

The Company capitalizes acquisition costs related to mineral properties.

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned on carrying amount based on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities as the initial recognition exemption for deferred tax under IAS 12 applied. No goodwill will rise on the acquisition and transaction costs of the acquisition will be included in the capitalised costs of the assets and expenses in accordance with the consolidated entity's accounting policy.

Property and equipment

Property and equipment are carried at cost, less accumulated depreciation and accumulated impairment charges.

The cost of property and equipment consists of its purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Repairs and maintenance costs are recognized in profit or loss during the period in which they are incurred.

Any gains or losses on disposal of an item of property and equipment, determined by comparing the proceeds from disposal with the carrying amount of the asset, and are recognized in profit or loss under other expenses.

Property and equipment are amortized over its estimated useful life of the asset calculated as follows:

	Method	**Basis**
Computer equipment	Straight-line	4 years
Motor vehicles	Straight-line	10 years
Mining equipment	Straight-line	5 - 20 years
Right-of-use assets	Straight-line	As per the lease term

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leases

For any new contracts entered into the Company considers whether the contract is, or contains a lease. A contract is or contains a lease when the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle or remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received). The Company depreciates right-of-use assets on a straight line basis from the lease commencement date to the earlier of the end of

the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

The Company measures the lease liability at the present value of lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease, if that rate is readily available, or the Company's incremental borrowing rate. The incremental borrowing rate reflects the rate of interest that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions. The Company generally uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in-substance fixed payments), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is remeasured to reflect any reassessment or modification or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or recognized in profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. Lease payments for such leases are recognized in profit or loss on a straight-line basis over the lease term.

On the statement of financial position, right-of-use assets have been included in property and equipment and lease liabilities are disclosed separately, split between current and non-current liabilities.

Impairment of non-financial assets

Non-financial assets are reviewed for impairment at the end of each reporting period and throughout the year if there is any indication that the carrying amount may not be recoverable. If any such indication is present, the recoverable amount of the asset is estimated in order to determine whether impairment exists. Where the asset does not generate cash inflows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Goodwill, any intangible asset with an indefinite useful life, or any intangible asset not yet available for use is tested for impairment annually and whenever there is an indication that the asset may be impaired.

An asset or cash-generating unit's recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value, using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount is reduced to the recoverable amount. Impairment is recognized immediately in profit or loss. Where an impairment subsequently reverses, the carrying amount is increased to the revised estimate of recoverable amount but only to the extent that this does not exceed the carrying value that would have been determined if no impairment had previously been recognized. Impairment of goodwill cannot be reversed.

For personal use only

For personal use only

Operating segments

The Company's operating segments are those operations whose operating results are reviewed by the Company's chief operating decision maker (**CODM**) to make resource allocation decisions and assess their performance. The Company's CODM is its chief executive officer. Operating segments whose net losses or assets exceed 10% of the total consolidated revenues, net losses or assets, are reportable segments.

In order to determine the reportable operating segments, various factors are considered, including geographical location and managerial structure. It was determined that the Company's acquisition, exploration and exploitation of mineral properties operations is divided into two reportable geographic segments. The Company's other reportable segment has been determined to be its corporate operating segment.

Financial instruments

Financial assets and financial liabilities are classified into three categories: Amortized Cost, Fair Value through Other Comprehensive Income (**FVOCI**) and Fair Value through Profit and Loss (**FVPL**). The classification of financial assets is determined by their context in the Company's business model and by the characteristics of the financial asset's contractual cash flows.

Financial assets and financial liabilities are measured at fair value on initial recognition, which is typically the transaction price unless a financial instrument contains a significant financing component. Subsequent measurement is dependent on the financial instrument's classification.

Cash and cash equivalents, other receivables, trade and other payables, and lease liabilities are measured at amortized cost. The contractual cash flows received from the financial assets are solely payments of principal and interest and are held within a business model whose objective is to collect the contractual cash flows. The financial assets and financial liabilities are subsequently measured at amortized cost using the effective interest method.

The Company has no financial instruments measured at FVPL or FVOCI.

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in profit or loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

Provisions

Provisions are recognized where a legal or constructive obligation has been incurred as a result of past events, it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. If material, provisions are measured at the present value of the expenditures expected to be required to settle the obligation. The increase in any provision due to passage of time is recognized as accretion expense included in finance costs in the statements of operations and comprehensive loss.

For personal use only

Share capital

Common shares are classified as equity. Transaction costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity, net of any tax effects.

Flow-through shares

The Company will from time to time, issue flow-through common shares to finance a significant portion of its exploration program. Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors. On issuance, the Company bifurcates the flow-through share into i) a flow-through share premium, equal to the estimated premium, if any, investors pay for the flow-through feature, which is recognized as a liability, and ii) share capital. Upon expenses being incurred, the Company derecognizes the liability and recognizes a deferred tax liability for the amount of tax reduction renounced to the shareholders. The premium is recognized in other income on the statements of operations and comprehensive loss and the related deferred tax is recognized as a tax provision.

The Company may be required to indemnify the flow-through shareholders for any tax and other costs payable by them if the required exploration expenditures are not incurred before the deadline. The Company may also be subject to a Part XII.6 tax on flow-through proceeds renounced under the look-back rule, in accordance with Government of Canada flow-through regulations. The related interest and penalties for the Part XII.6 tax and any potential costs to indemnify the shareholders are recorded in other expenses on the statements of operations and comprehensive loss.

Unit offerings

The Company has adopted the relative fair value method with respect to the measurement of shares and warrants issued as equity units. The relative fair value method requires an allocation of the net proceeds received based on the pro rata relative fair values of the components. If and when the warrants are ultimately exercised, the applicable amounts are transferred from equity reserves to share capital. If the warrants expire unexercised, the Company will transfer the value attributed to those warrants from equity reserves to deficit.

Share-based payment transactions

The share option plan allows Company employees, directors, and consultants to acquire shares of the Company. All options granted are measured at fair value and are recognized in expenses as share-based payments with a corresponding increase in equity reserves. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee.

The fair value of employee options is measured at grant date, and each tranche is recognized using the graded vesting method over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted. For non-employees, share-based payments are measured at the fair value of goods or services received, or the fair value of the equity instruments issued if it is determined that the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The fair value of the options is accrued and charged either to operations or exploration and evaluation assets, with the offset credit to equity reserves. This includes a forfeiture estimate, which is revised for actual forfeitures in subsequent periods. Upon the expiration or cancellation of unexercised stock options, the Company will transfer the value attributed to those stock options from equity reserves to deficit.

For personal use only

Loss per share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share is determined by adjusting the loss attributable to common shareholders and the weighted average number of common shares outstanding for the effects of all dilutive potential common shares. In the Company's case, diluted loss per share is the same as basic loss per share as the effects of including all outstanding options and warrants would be anti-dilutive.

Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Income taxes

Income tax comprises current and deferred tax. Income tax is recognized in profit or loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized as equity.

Current tax expense is the expected tax payable on the taxable income for the year, using rates substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is provided for temporary differences, between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. To the extent that the Company does not consider it probable that a deferred tax asset will be recovered, the deferred tax asset is reduced using a valuation allowance.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Sales taxes and other similar taxes

Revenues, expenses and assets are recognised net of the amount of applicable sales tax (GST, HST or QST), unless the applicable sales tax incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of sales taxes recoverable or payable. The net amount of sales tax recoverable from, or payable to, the tax authority is included in sales taxes recoverable or sales taxes payables in the statement of financial position.

Cash flows are presented on a gross basis. The sales tax components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of sales taxes recoverable from, or payable to, the tax authority.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no right at the end of the reporting period to defer the settlement of the liability for at least 12 months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Recently adopted accounting standards

Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures re: Classification and Measurement of Financial Instruments

The amendments clarify the date of recognition and derecognition of some financial assets and liabilities, provide additional clarity and guidance for assessing whether a financial asset meets the solely payments of principal and interest criterion, add new disclosures for certain financial instruments with contractual terms that can change cash flows and update the disclosures for equity instruments designated at fair value through other comprehensive income. The amendments are effective for reporting periods beginning on or after January 1, 2026. The adoption of these amendments did not have a material impact on the consolidated financial statements.

Accounting standards issued but not yet effective or adopted

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements was issued by the International Accounting Standards Board (IASB) in April 2024 and will replace IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for the presentation and disclosure of information in financial statements, including the classification of income and expenses within defined categories in the statement of profit or loss, the presentation of specified subtotals such as operating profit, enhanced disclosures relating to management-defined performance measures (MPMs), and improved guidance on the aggregation and disaggregation of information.

The standard is effective for annual reporting periods beginning on or after 1 January 2027, with earlier application permitted. The Company is currently assessing the impact of adopting IFRS 18 on its consolidated financial statements.

All other new accounting standards and amendments to existing standards that have been issued and that the Company will be required to adopt in future years are either not applicable or are not expected to have a significant impact on the Company’s consolidated financial statements.

For personal use only

4. OTHER RECEIVABLES

Other receivables as at April 30, 2026 and 2025 were as follows:

	April 30, 2026 $	April 30, 2025 $
Expenditures recoverable from third parties	116,184	213,019
Interest income	496,144	965
Amounts refundable from suppliers	264	7,327
Tax credits receivable	108,338	127,681
Total other receivables	720,930	348,992
Less provision for doubtful debts	(116,184)	(116,184)
	604,746	**232,808**

The Company is entitled to receive Québec tax credits relating to resources and Québec refundable duties credit at the rates of 38.75% and 16%, respectively, on certain eligible exploration expenditures incurred in Québec. As at April 30, 2026, the Company estimates the value of tax credits receivable to be $108,338 (2025 - $127,681).

5. EXPLORATION AND EVALUATION ASSETS

The Company has accumulated the following acquisition expenditures:

	Eastmain and Ruby Hill Properties (Canada) $	Windy Mountain Property (Canada) $	Glenburgh Project (Western Australia) $	Mt Egerton Project (Western Australia) $	Total $
Balance, April 30, 2024	**3,891,652**	**11,564**	**-**	**-**	**3,903,216**

For personal use only

During the year ended April 30, 2026, and 2025, exploration and evaluation expenditures, recorded in the consolidated statements of operations and comprehensive loss, consisted of the following:

	April 30, 2026 $	April 30, 2025 $
Geology	10,728,657	993,108
Location/camp services	2,595,809	79,920
Drilling	17,420,479	1,202,261
Geochemical analysis	5,052,896	333,782
Geophysics	1,808,906	151,611
Environment	221,453	83,626
Health and safety	80,529	-
Property maintenance	981,840	284,041
Exploration tax credits	(103,817)	(119,718)
Total exploration and evaluation costs	**38,786,752**	**3,008,631**

Glenburgh and Mt Egerton Projects (Western Australia)

On January 14, 2025, the Company completed the acquisition of the Glenburgh Gold Project (**Glenburgh Project**) and the Mt Egerton Gold Project (**Mt Egerton Project**). The acquisition was completed by way of a share purchase agreement with Spartan Resources Limited (**Spartan**), for 100% of the issued and outstanding shares of both Gascoyne Resources (WA) Pty Ltd (**Gascoyne**) and Egerton Exploration Pty Ltd (**Egerton**) which were both incorporated in Australia (the **Spartan Transaction**).

At the date of acquisition, Gascoyne and Egerton held mineral tenements comprising the Glenburgh Project and the Mt Egerton Project, respectively. The Glenburgh Project comprises a substantial 786km^2 land package situated 250km east of Carnarvon, Western Australia. The Mt Egerton Project comprises two granted mining leases and five exploration licences, covering a total area of 180km^2 approximately 200km northeast of Meekatharra, Western Australia.

Under the terms of the Spartan Transaction, the Company agreed to pay a total of A$1,000,000 cash comprising A$500,000 payable on the date of completion and a further A$500,000 payable 12 months after the completion date (being January 14, 2026). In addition, the Company issued to Spartan 33,000,000 CHESS Depository Interests (**CDIs**) of the Company with a fair value of $7,715,000 (Note 12(b)). Each CDI represents one underlying common share in the Company on a one for one basis. The 33,000,000 CDIs are subject to voluntary escrow conditions whereby the CDIs will be held in escrow and be restricted from trading for a period of 12 months commencing from the date of issuance.

In addition, the Company incurred transaction costs, in the form of due diligence and professional fees, related to the acquisition totalling $462,384 (A$512,680).

The acquisitions of both Gascoyne and Egerton have been accounted as a purchase of assets since neither acquisition met the definition of a business combination under IFRS 3 *Business Combinations*. Accordingly, no goodwill or intangible assets were recorded with respect to the acquisition.

For personal use only

The following table summarises these asset acquisitions:

	January 14, 2025 Fair value (AUD) $	Fair value (CAD) $
Purchase price		
Upfront cash consideration	500,000	444,269
Deferred cash consideration (A$500,000 due January 14, 2026) (Note 9)	462,963	411,360
Upfront share consideration (after applying the DLOM)	8,682,803	7,715,000
Transaction costs	512,680	462,384
Total consideration paid	**10,158,446**	**9,033,013**
Fair value allocated to:		
Exploration and evaluation assets - Glenburgh Project [(1)]	8,848,006	7,867,754
Exploration and evaluation assets - Mt Egerton Project [(1)]	1,310,440	1,165,259
Net assets acquired	**10,158,446**	**9,033,013**

(1) The fair value of consideration paid has then been allocated to the Glenburgh Project and Mt Egerton Project based on the ratio of the pre-acquisition carrying values of the assets acquired from Gascoyne and Egerton (being, 87.1% Glenburgh Project; 12.9% Mt Egerton Project).

The Company is also obligated to make the following additional payments to Spartan contingent upon the occurrence of the following events:

- A$2,000,000 (**First Milestone Payment**) within 10 business days of the earlier of: (i) the Company declaring an inferred, indicated and/or measured Mineral Resource Estimate from the Glenburgh and Mt Egerton Projects containing 500,000oz Au at a cut-off grade of at least 2.0g/t Au and (ii) production of 500,000oz Au from the Glenburgh Project and Mt Egerton Project;
- A$2,000,000 (**Second Milestone Payment**) within 10 business days of the earlier of: (i) the Company declaring an inferred, indicated and/or measured Mineral Resource Estimate from the Glenburgh and Mt Egerton Projects containing 1,000,000oz Au at a cut-off grade of at least 2.0g/t Au and (ii) production of 1,000,000oz Au from the Glenburgh Project and Mt Egerton Project; and
- A$2,000,000 (**Third Milestone Payment**) within 10 business days of the earlier of: (i) the Company declaring an inferred, indicated and/or measured Mineral Resource Estimate from the Glenburgh and Mt Egerton Projects containing 1,500,000oz Au at a cut-off grade of 2.0g/t Au and (ii) production of 1,500,000oz Au from the Glenburgh Project and Mt Egerton Project.

  (together, the **Milestone Payments**)

The Company may also, at its election, pay the Milestone Payments through the issuance of CDIs whereby the number of CDIs required to be issued will be calculated using a deemed issue price of the higher of the 20-day VWAP of the Company's common shares and A$0.088 per share.

On the date of acquisition, Gascoyne and Egerton were each subject to a number of existing royalty agreements on the Glenburgh Project and Mt Egerton Project, which are summarized below:

For personal use only

Franco-Nevada Royalty - A royalty is payable by Gascoyne to Franco-Nevada Australia Pty Ltd equal to 1.5% of the net profits derived from the production of minerals from certain tenements within the Glenburgh Project, after refinement of those materials.

Taurus Royalty - A royalty is payable to Taurus Mining Royalty Fund LP equal to 0.525% of the gross revenue received by Gascoyne and Egerton (or its related bodies corporate) in respect of products extracted or produced from tenements located within the Glenburgh Project and Mt Egerton Project. As part of the Spartan Transaction, Spartan agreed to exercise the right to reduce this royalty by up to 20% by payment of A$1,225,000, payable by Spartan. This right was exercised during the current financial year, reducing the royalty to 0.42%.

Tembo Royalty - A royalty is payable to Tembo Mining Capital Fund III LP, Tembo Capital Mining Fund III (Non-US) LP and Tembo Capital Mining Fund III (F&F) LP equal to 1.35% of the gross revenue received by Gascoyne and Egerton (or its related bodies corporate) in respect of products extracted or produced from tenements located within the Glenburgh Project and Mt Egerton Project. As part of the Spartan Transaction, Spartan agreed to exercise the right to reduce this royalty by up to 20% by payment of A$3,150,000, payable by Spartan. This right was exercised during the current financial year, reducing the royalty to 1.08%.

Wajarri Yamatji Royalty - A royalty is payable to Wajarri Yamatji Native Title Claim Group (represented by the Yamatji Marlpa Aboriginal Corporation) in respect of products produced from tenements located within the Glenburgh Project, on the following basis:

i. for the first four quarters in which gold metal is produced from such tenements, the royalty payable is equal to 0.5% of the royalty value of that gold metal; and

ii. for each subsequent quarter in which gold metal is produced from such tenements, the royalty payable ranges from 0.25% - 1.50% of the royalty value depending on the weight of gold metal produced ranging from 0 - 50,000 oz per quarter.

The royalty value of gold is the amount of gold produced during the month multiplied by an average gold spot price (London PM Fix, converted to AUD).

State Royalty - A royalty is payable to the State of Western Australia (under 1978 Mining Act (WA)) equal to 2.5% of the royalty value of gold produced at the Glenburgh Project and Mt Egerton Project tenements in excess of 2,500 ounces per financial year. The royalty value of gold is the amount of gold produced during the month multiplied by an average gold spot price (London PM Fix, converted to AUD). The Glenburgh Project and Mt Egerton Project tenements will together constitute one royalty project under the Mining Act and for the purposes of the royalty payable to the State of Western Australia in respect of minerals products from each project.

Acquisition of Glenburgh and Mt Egerton adjacent tenements

On December 3, 2024, the Company entered into a tenement sale agreement (**Tenement Agreement**) to acquire 100% interest in three highly prospective tenements adjacent to the Glenburgh Project, and one strategic tenement at the Mt Egerton Project from Mining Equities Pty Ltd, an unrelated party (**Vendor**). On February 14, 2025, the Company exercised its option to acquire 100% interest in the 4 tenements and issued 500,000 common shares with a fair value of $190,000 to the Vendor. Upon exercising the option, the Company granted a 0.75% Net Smelter Return (**NSR**) royalty to the Vendor. The fair value of the share consideration paid has been allocated between the Glenburgh Project and Mt Egerton Project based on the 3:1 ratio of the number of tenements acquired.

For personal use only

During the year ended April 30, 2025, the Company independently lodged tenement applications to obtain 100% interests in one tenement adjacent to the Glenburgh Project and in five tenements at the Mt Egerton Project for cash totaling $7,486 (A$8,368), which were expensed as property maintenance under exploration expenditures in the statements of operations and comprehensive loss.

As at April 30, 2026 the total number of tenements held on or adjacent to the Glenburgh Project and Mt Egerton Project totaled 30, covering 300,300 hectares (3,003km^2).

During the year ended April 30, 2026, the Company completed exploration and evaluation activities totaling $36,794,756 and $1,733,237 (2025 - $2,713,917 and $52,870) on the Glenburgh Project and Mt Egerton Project, respectively.

Eastmain Project and Ruby Hill Properties (Québec, Canada)

In August 2019, the Company entered into an option agreement (the **Option Agreement**) to acquire from Fury Gold Mines Limited (formerly Eastmain Resources Inc.) (**Fury Gold** or the **Vendor**), an initial 75% interest (and up to 100%) in the former producing Eastmain Gold project (the **Eastmain Project**) located in James Bay District, Québec. In April 2020, the Company entered into an amending agreement (the **Amending Agreement**) in connection with the Eastmain Project pursuant to which the Company acquired a further option to earn an initial 75% interest (and up to 100%) in the Ruby Hill West and Ruby Hill East properties (collectively, the **Ruby Hill Properties**), located west of the Eastmain Project.

Pursuant to the Option Agreement and Amending Agreement, (collectively the **Amended Agreement**) the Company was required to issue cash and common share payments to the Vendor (the **Option Payments**) totaling $2,695,000 over a four year period from the effective date of the original Option Agreement. In addition to the Option Payments, the Company issued to Fury Gold 3,000,000 common shares, with a fair value of $255,000 on October 23, 2019. On May 21, 2020, the Company also issued to Fury Gold an additional 2,000,000 common shares with a fair value of $360,000 and 4,000,000 share purchase warrants with a fair value of $539,078. Each warrant enabled the holder to purchase one common share of the Company at a price of $0.12 per share until April 27, 2023. The warrants were valued using the Black-Scholes pricing model with a share price of $0.18, risk-free rate of 0.29%, volatility of 117.92% and expected life of 2.93 years. Under the Amended Agreement the Company also committed to incur property expenditures totaling $3,500,000 over a four year period from the effective date of the original Option Agreement (met).

On October 23, 2023, the Company made the final Option Payments under the Amended Agreement comprising $1,350,000 in cash and the issuance of 1,237,216 common shares (determined based on the payment value of $375,000 divided by the prevailing 10-day volume weighted average price (**VWAP**) of the Company's common shares) with a fair value of $395,909 (Note 11b). Upon making the final Option Payments on October 23, 2023, and having incurred the required property expenditures prior to this date, the Company exercised its' option to acquire a 75% right, title and interest to the Eastmain Project and the Ruby Hill Properties.

For personal use only

On October 27, 2025, in accordance with the terms of the Amended Agreement, the Company made a payment of $1,000,000 (the **First Milestone Payment**) to Fury Gold to acquire the remaining 25% interest (for a total 100% undivided interest) held by Eastmain in the Eastmain Gold Project. The First Milestone Payment comprised C$750,000 paid in cash, with the balance of C$250,000 settled by the issuance 171,142 common shares at fair value of C$1.46 (the **Payment Shares**) in the capital of the Company. Refer Note 11 for further details on this transaction. The Payment Shares are subject to a four month and one day resale restriction, expiring on February 28, 2026. Having completed the First Milestone Payment, the Company's ownership interest in the Eastmain Project has increased to 100%.

Under the terms of the Amended Agreement, the Company remains obligated to make an additional payment to the Vendor of $1,500,000 within 5 business days of the commencement of commercial production on the Eastmain Project (the **Second Milestone Payment**).

Fury Gold retains a 2% NSR royalty in respect of the Eastmain Project. The Company may, at any time, purchase one half of the NSR royalty, thereby reducing the NSR royalty to a 1% NSR royalty, for $1,500,000.

Additionally, on October 27, 2025, in accordance with the Amended Agreement, Benz made the final cash payment of $100,000 to Eastmain to acquire Eastmain's remaining 25% (for a total 100% undivided interest) interest in the Ruby Hill East Properties.

Fury Gold retains a 1% NSR royalty in respect of the Ruby Hill properties, of which one half may be purchased for $500,000 thereby reducing it to a 0.5% NSR royalty. The NSR royalty is also offset by any pre-existing royalties which may reduce the royalty burden.

As at April 30, 2026 the total number of claims held on the Eastmain Project and Ruby Hill Properties totaled 551, covering 29,048 hectares (290.48 km^2).

During the year ended April 30, 2026, the Company completed exploration and evaluation activities totaling $256,093 net of exploration credits totaling $103,817 (2025 - $241,212 net of exploration credits totaling $119,718) on the Eastmain Project and Ruby Hill Properties.

Windy Mountain Property (Québec, Canada)

In August 2021, the Company acquired the Windy Mountain Property, located in James Bay District, Québec, for cash totaling $10,764. In September 2022, the Company acquired an additional 5 claims on the Windy Mountain Property for cash totaling $800. As at April 30, 2026, the total claims held on the property were 74, covering 3,898.91 hectares (38.99 km^2).

During the year ended April 30, 2026, the Company completed exploration and evaluation activities totaling $2,666 (2025 - $632) on the Windy Mountain Property.

6. RELATED PARTY TRANSACTIONS AND BALANCES

Related party transactions are measured at the estimated fair values of the services provided or goods received. Related party transactions not disclosed elsewhere in these consolidated financial statements are as follows:

a) Key management compensation

Key management personnel include the members of the Board of Directors and officers of the Company, who have the authority and responsibility for planning, directing, and controlling the activities of the Company. The remuneration of directors and officers for years ended April 30, 2026, and 2025 was as follows:

	April 30, 2026 $	April 30, 2025 $
Salaries, bonuses, fees and benefits		
Remuneration to the officers and directors of the Company (including $295,554 (2025 - $54,445) classified within exploration and evaluation costs and $597,856 (2025 - $649,830) classified within general and administrative expenses)	893,115	704,275
Other services provided by related party		
Accounting serviced provided by Konkera Holdings Pty Ltd (director related entity of Evan Cranston)	126,454	32,689
Share-based payments		
Officers and directors of the Company	-	417,051
	1,019,569	**1,154,015**

b) In the normal course of operations, the Company transacts with companies related to its directors or officers. The following amounts payable to related parties are unsecured, non-interest bearing, due on demand, and are included in trade and other payables and other provisions:

	April 30, 2026 $	April 30, 2025 $
Management fees	184,108	19,198
Provision for accrued vacation	77,344	29,715

c) Loans to/from related parties

There were no loans to or from related parties at the current and previous reporting date.

Terms and conditions

All transactions were made on normal commercial terms and conditions and at market rates.

For personal use only

7. PROPERTY AND EQUIPMENT

Details of the Company's property and equipment during the years ended April 30, 2026 and 2025 were as follows:

	Right-of-use assets (Note 8) $	Computer equipment $	Motor vehicles $	Mining equipment $	Total $

8. LEASE LIABILITIES

In March 2025, the Company entered into a leasing arrangement for an office in Perth, Western Australia. The lease term is for a period of three years until March 18, 2028, with an option to extend for a further three years. The lease was discounted using an interest rate of 9% as the estimated incremental borrowing rate of the Company for similar assets.

Right-of-use assets

A continuity of the right-of-use asset for the years ended April 30, 2026 and 2025 can be found in the property and equipment note (Note 7).

For personal use only

For personal use only

Lease Liabilities

A continuity of the lease liability for the years ended April 30, 2026 and 2025 is as follows:

Lease liability	**Year ended April 30, 2026 $**	**Year ended April 30, 2025 $**
Balance, beginning of the year	153,197	-
Additions (new lease)	-	165,535
Reclassification – parking levy	(10,788)	-
Lease payments	(58,177)	(9,972)
Lease interest	10,795	2,328
Impact of foreign exchange	12,090	(4,694)
Balance, end of the year	**107,117**	**153,197**
Less: current portion of lease liabilities	(55,762)	(48,247)
	51,355	**104,950**

The Company's future minimum lease payments under the lease obligations are as follows:

	Year ended April 30, 2026 $	**Year ended April 30, 2025 $**
Within 1 year	62,681	59,641
Within 1-2 years	53,534	61,430
Greater than 2 years	-	52,465
Balance Net minimum lease payments	**116,215**	173,536
Less: amount representing interest payments	(9,098)	(20,339)
Present value of net minimum lease payments	**107,117**	153,197
Less: current portion	(55,762)	(48,247)
Non-current portion	**51,355**	104,950

9. DEFERRED CONSIDERATION PAYABLE

A continuity of deferred consideration payable for the years ended April 30, 2026 and 2025 is as follows:

Deferred consideration	**$**
Balance April 30, 2024	-
Deferred consideration payable upon asset acquisition (Note 5)	411,360
Accretion expense	9,225
Impact of foreign exchange	(2,213)
Balance April 30, 2025	**418,372**
Accretion expense (Note 16)	24,771
Impact of foreign exchange	21,080
Deferred consideration settled in cash (Note 5) *	(464,223)
Balance April 30, 2026	**-**

* Deferred consideration payable as part of Spartan Acquisition has been fully paid during the year

10. OTHER PROVISIONS

Other provisions as at April 30, 2026 and 2025 were as follows:

	April 30, 2026 $	April 30, 2025 $
Accrued vacation	170,885	29,715
Reclamation provision	1,580,000	1,259,000
	1,750,885	**1,288,715**

The movement in other provisions during the years ended April 30, 2026 and 2025 were as follows:

	Annual vacation - related party $	Reclamation provision $	Total $
Balance April 30, 2024	**8,261**	**183,607**	**191,868**
Movement in provision for year	21,454	1,066,293	1,087,747

Balance April 30, 2026	**170,885**	**1,580,000**	**1,750,885**
Current portion	170,885	105,000	275,885
Long-term portion	-	1,475,000	1,475,000

In October 2023, upon exercising the option to acquire 75% interest to the Eastmain Project and the Ruby Hill Properties, the Company assumed a 75% share in all obligations associated with the properties. On the Eastmain Project, close to the mine camp there is a tank farm comprising 38 fuel reservoirs which are subject to ongoing permitting every two years by the Ministry of Natural Resources (the **Ministry**) under Article 197 of Chapter IV of the Safety Code. In September 2023, the Ministry informed the Company that the tank farm permit would not be renewed beyond the current expiration date of August 21, 2025. This decision meant the Company would need to remove tank reservoirs and remediate the site prior to the permit expiration date. On the basis of this decision the Company took up a provision for the reclamation work totaling $183,607 at April 30, 2024 based on 75% share of the total future liability of $195,000, adjusted for inflation, and a discount rate of 4.65% over a time period to expiry of the existing permit.

During the year ended April 30, 2025, the Company requested that the Ministry grant an additional 2 year permit extension (to August 2027) before requiring compliance with s197 of the Safety Code to allow the Company time to complete its economic assessment of the site and create a plan for dismantling the tank farm if its return to use is ruled out. On June 11, 2025, the Ministry confirmed that it would grant the Company's request, subject to the certain conditions, which include the requirement for the Company to finalize an action plan and timetable for refurbishing the tank farm or its dismantling / removal and site remediation by July 2026, as well as a requirement to subsequently perform an environmental study to confirm there has been no soil contamination from leaks of the membrane that sits under the tanks.

For personal use only

During the year ended April 30, 2026 the Company has completed its economic assessment of the site and has concluded it is not economical for the tank farm to be remediated and brought back into use. Management has therefore determined that the most appropriate course of action is to move ahead with the tank farm removal and assess the need for its remediation. The Company has sought current estimates from third parties regarding costs to remove the tank farm together with an estimate of the cost of an environmental survey to establish the need for any remediation of the site. In addition the company has commissioned a firm of Technical Engineers to prepare an Action Plan for the work required that will comply with the Ministry's conditions for the 2-year extension. Until the tank farm has been removed and the results of the environmental surveys are known, there is no way to assess the need for or extent of any remediation activities required on the site. Consequently the Company's provision as at April 30, 2026 does not include any amounts for site remediation. Management will reassess the need for site remediation once the environmental survey results are known.

The Company's latest estimate of the cost for reclamation works totals $1,675,000. As at April 30, 2026 the Company has adjusted its provision for reclamation costs to $1,580,000 adjusted for inflation, and a discount rate of 2.74% over a period of the estimated timing of when the reclamation activities will be undertaken up to December 31, 2028. Accretion during the year ended April 30, 2026 totaled $31,000 (2025 - $9,100).

11. SHARE CAPITAL

a) Authorized: **Unlimited common shares, without par value**

Unlimited preferred shares, without par value

Issued: During the current year

On July 24, 2025, the Company completed the second tranche of a private placement of 5,028,750 CDIs issued at a price of $0.36 (A$0.40) per CDI for gross proceeds of $1,810,350 (A$2,011,500). Each CDI represents one underlying common share in the Company on a one for one basis. The Company incurred share issuance costs of $81,533 in the form of professional fees and listing fees.

On August 21, 2025, the Company completed Tranche 1 of a private placement of 30,406,091 CDIs issued at a price of $0.88 (A$0.985) per CDI for gross proceeds of $26,744,824 (A$29,950,000). Each CDI represents one underlying common share in the Company on a one for one basis. The Company incurred share issuance costs of $1,790,334 in the form of professional fees and listing fees.

On October 27, 2025, the Company issued 171,142 common shares of the Company to Fury Gold, at a deemed fair value of $1.46 per share, for a total fair value of $250,000 as part settlement of the First Milestone Payment to Fury Gold (refer Note 5).

On December 17, 2025 the Company completed Tranche 2 of its August 2025 private placement comprising of 50,762 CDIs issued at a price of $0.90 (A$0.985) per CDI for gross proceeds of $45,558 (A$50,000). Each CDI represents one underlying common share in the Company on a one for one basis.

For personal use only

On February 5, 2026, the Company completed a private placement of 32,327,587 CDIs issued at a price of $2.21 (A$2.32) per CDI for gross proceeds of $71,517,002 (A$75,000,002). In relation to the placement the Company incurred share issuance costs totaling $3,050,550 (A$3,123,273) in the form of placement fees, professional fees and listing fees, which included $1,430,341 (A$1,500,001) of placement fees settled by the issue of 646,552 CDIs at a fair value of $2.21 (A$2.32) at the capital raise date. Each CDI represents one underlying common share in the Company on a one for one basis.

During the year ended April 30, 2026, the Company issued 1,400,000 shares on the exercise of compensation warrants at an exercise price of $0.63 per share for total proceeds of $882,000. The fair value of these warrants, totaling $323,979, was transferred to share capital from reserves.

During the year ended April 30, 2026 the Company issued 11,068,750 common shares on the exercise of stock options at a weighted average exercise price of $0.55 per share for total proceeds of $6,125,469. The original fair value of these options, totaling $1,728,827, was transferred to share capital from reserves.

b) Issued: During the previous year

On November 14, 2024, the Company completed a private placement of 18,181,820 CDIs issued at a price of A$0.22 per CDI for gross proceeds of $3,631,388 (A$4,000,000). Each CDI represents one underlying common share in the Company on a one for one basis. The Company incurred share issuance costs of $253,349 in the form of professional fees.

On January 14, 2025, the Company issued 33,000,000 CDIs pursuant to the terms of the Spartan Transaction (Note 5). Each CDI represents one underlying common share in the Company on a one for one basis. The fair value of the 33,000,000 CDIs was determined to be $7,715,000, after applying the DLOM (24.6%) to the closing price on the completion date ($0.31), due to the voluntary escrow conditions on the CDIs.

On January 14, 2025, the Company issued 1,000,000 common shares to an eligible officer upon the exercise of PSUs that vested during the period. The original fair value of the PSUs, totaling $230,000, was transferred to share capital from reserves.

On February 14, 2025, the Company issued 500,000 common shares with a fair value of $190,000 pursuant to the terms of the Tenement Agreement (Note 5).

On April 23, 2025, the Company completed the first tranche of a private placement of 28,722,000 CDIs issued at a price of A$0.40 per CDI for gross proceeds of $10,171,035 (A$11,488,800). Each CDI represents one underlying common share in the Company on a one for one basis. The Company incurred share issuance costs of $690,741 in the form of professional fees. The second tranche of the private placement, comprising a further 5,028,750 CDIs, closed on July 24, 2025.

During the year ended April 30, 2025, the Company issued 2,215,000 common shares on the exercise of stock options for total proceeds of $266,770. The original fair value of these options, totaling $229,682, was transferred to share capital from reserves.

Escrow shares

As at April 30, 2026 and 2025, an amount of 222,857 common shares are being held in escrow subject to an escrow agreement with Tusk Exploration Ltd. Due to unmet contractual obligations relating to the completion of an option purchase agreement that was relinquished in 2016, these shares continue to be held. The Company plans to cancel the shares held in escrow at a future date.

For personal use only

For personal use only

c) Compensation units and warrants

Compensation warrants outstanding as at April 30, 2026 and 2025, are:

Expiry Date	Exercise Price per Share/Unit	Outstanding and Exercisable	
		April 30, 2026	April 30, 2025
December 21, 2025	$0.63	-	1,400,000
		-	**1,400,000**

f) Stock options

The Company's Equity Incentive Compensation Plan authorizes for the granting of options to directors, officers, employees, and consultants. Pursuant to the terms of the Equity Incentive Compensation Plan, the Board of Directors may from time to time, in its discretion, and in accordance with Exchange policies, grant incentive stock options to purchase the Company's common shares to directors, officers, employees, and consultants. Under the Equity Incentive Compensation Plan, a maximum of 10% of the outstanding shares can be reserved for issuance. The number of shares reserved for issuance to any individual director or officer will not exceed five percent (5%) of the issued and outstanding shares and the number of shares reserved for issuance to all technical consultants will not exceed two percent (2%) of the issued and outstanding shares.

A summary of changes in stock options is as follows:

	Underlying Shares	Weighted Average Exercise Price ($)
Stock options outstanding, April 30, 2024	**7,018,463**	**0.29**
Granted	13,000,000	0.54
Exercised [(1)]	(2,215,000)	0.12
Expired	(9,713)	3.00
Stock options outstanding, April 30, 2025	**17,793,750**	**0.49**
Exercised [(1)]	(11,068,750)	0. 55
Stock options outstanding, April 30, 2026	**6,725,000**	**0.38**
Stock options exercisable, April 30, 2026	**6,725,000**	**0.38**

(1) The weighted average stock price on the dates of exercise was $2.43 (2025 - $0.40).

On November 25, 2024, the Company granted 2,000,000 stock options to an officer, exercisable at a price of $0.32 per share for a period of three years, and 2,000,000 stock options to consultants, exercisable at a price of $0.25 per share for a period of two years. The options vested immediately.

On December 3, 2024, the Company granted a total of 1,000,000 stock options to a consultant, exercisable at a price of $0.45 per share and expiring on December 18, 2027. The options vested immediately.

On January 18, 2025, 9,713 stock options exercisable at $3.00 expired unexercised. The original fair value of these expired stock options, totaling $1,158, was transferred to deficit from reserves.

On April 3, 2025, the Company granted a total of 8,000,000 stock options to consultants for consideration of $0.00001 per option for total proceeds of $80, comprising 4,000,000 stock options exercisable at a price of $0.45 per share for a period of three years and 4,000,000 stock options exercisable at a price of $0.90 per share for a period of three years. All these options vested immediately.

The fair value of stock options granted during the year ended April 30, 2025 were estimated using the Black-Scholes Option Pricing Model with the following weighted average assumptions:

	Year ended April 30, 2025
Weighted average assumptions:	
Risk-free interest rate	2.75%
Expected dividend yield	0.00%
Expected option life (years)	2.85
Expected stock price volatility	100%
Weighted average fair value at measurement date	$0.15

A summary of stock options outstanding as at April 30, 2026 is as follows:

Number of Stock Options Outstanding	Number of Stock Options Exercisable	Exercise Price ($)	Weighted Average Remaining Contractual Life (in years)	Intrinsic Value ($)	Expiry Date
600,000	600,000	0.41	0.18	1.56	July 3, 2026

g) Performance share units

The Company's Equity Incentive Compensation Plan authorizes for the granting of Performance Share Units (**PSUs**) to directors, officers, employees, and consultants. Pursuant to the terms of the Equity Incentive Compensation Plan, the Board of Directors may from time to time, in its discretion, and in accordance with Exchange policies, grant PSUs in such amounts and upon such terms as the Board shall determine. However, PSUs must have a minimum vesting period of twelve months from the date of grant.

On December 18, 2023, the Company granted 1,000,000 PSUs to an eligible officer. The PSUs were estimated to have a fair value of $0.23 per share, being the share price on the date of grant, and a vesting date of December 18, 2024. The Company recognized the expense over the vesting period and recognized $145,792 (2024 - $84,208) as share-based payments during the year ended April 30, 2025. The PSUs vested on December 18, 2024 and on January 13, 2025, the Company issued the underlying common shares related to the conversion of the PSUs (Note 11b).

h) Share-based payments

During the year ended April 30, 2026, the Company recorded share-based payments related to the grants of stock options and PSUs totaling $Nil (2025 - $2,129,253), of which $Nil (2025 - $417,051) pertained to directors and officers of the Company.

12. SEGMENTED INFORMATION

The Company operates in one industry segment, namely exploration and exploitation of mineral properties, which is divided into two geographical segments as follows:

- Canada (consisting of the Eastmain, Ruby Hill East, Ruby Hill West and Windy Mountain projects)
- Australia (consisting of the Glenburgh and Mt Egerton projects)

The Company has identified its corporate operations as another reportable segment.

As at April 30, 2026	Canada ($)	Australia ($)	Corporate ($)	Total ($)
Current assets	152,788	1,872,394	121,550,656	123,575,838

13. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development of its properties and to maintain a flexible capital structure for its projects for the benefit of its stakeholders. In the management of capital, the Company includes the components of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or adjust the amount of cash and cash equivalents. Management reviews the capital structure on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company is not subject to externally imposed capital requirements. There were no changes to the Company's capital management during the year ended April 30, 2026.

14. FINANCIAL INSTRUMENT AND RISK

a) Fair values

Fair value measurements are classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For personal use only

The Company's financial instruments consist of cash and cash equivalents, other receivables, and trade and other payables, and lease liabilities. The fair value of the financial instruments approximates their carrying values due to the relatively short-term maturity of these instruments.

b) Credit risk

The Company's credit risk is mainly attributable to its liquid financial assets: cash and cash equivalents, sales taxes recoverable and other receivables. The Company deposits cash with high credit quality financial institutions and credit risk is considered to be minimal. The Company's sales taxes recoverable consists primarily of GST receivables from Canada Revenue Agency, Revenu Québec and Australian Taxation Office. The Company's other receivables consist primarily of Québec tax credits due from Revenu Québec and expenditures recoverable from third parties.

To reduce the credit risk of expenditures recoverable from third parties, the Company regularly reviews collectability to ensure there is no indication that these amounts will not be fully recoverable. As at April 30, 2026, the Company had recognized a provision for doubtful debts of $116,184 (2025 - $116,184) in other receivables (Note 4).

The Company's maximum exposure to credit risk is $83,936,872 which is the carrying value of the Company's cash and cash equivalents, sales taxes recoverable and other receivables at April 30, 2026.

c) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at April 30, 2026, the Company had a cash and cash equivalents balance of $81,249,324 (2025 - $11,787,527) to settle current liabilities of $8,486,640 (2025 - $1,494,482).

Historically, the Company's primary source of funding has been the issuance of common shares for cash, primarily through private placements. The Company's access to financing is dependent upon market conditions and market risks. There can be no assurance of continued access to financing.

d) Foreign exchange risk

Foreign exchange risk is the risk that the Company's financial instruments will fluctuate in value as a result of movements in foreign exchange rates. The Company and its subsidiaries are exposed to foreign currency risk to the extent that it has monetary assets and liabilities denominated in foreign currencies. As at April 30, 2026, the Company and its subsidiaries are exposed to currency risk as some transactions and balances are denominated in Australian dollars. As at April 30, 2026, a 10% change of the Canadian dollar relative to the Australian dollar would have net financial impact of approximately $7,500,000 (2025 - $1,100,000). The Company does not use derivative instruments to hedge exposure to foreign exchange rate risk.

e) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk as it does not have any liabilities with variable rates.

For personal use only

f) Price risk

The Company's ability to raise capital to fund exploration activities is subject to risks associated with fluctuations in the market price of mineral resources. The Company closely monitors commodity prices to determine the appropriate course of actions to be taken.

15. GENERAL AND ADMINISTRATIVE EXPENSES

	Note	April 30, 2026	April 30, 2025
		$	$
Listing and filing fees		195,844	163,570

17. INCOME TAXES

A reconciliation of income taxes at statutory rates with reported taxes is as follows:

	April 30, 2026	April 30, 2025
	$	$
Statutory rates	26.5%	26.5%
Loss before income taxes	(40,432,675)	(7,504,189)
Expected income tax recovery at statutory rate	10,714,659	1,988,610
Impact of tax rates in foreign jurisdictions	(578,590)	(41,508)
Share issuance costs	1,304,441	149,460
Other non-deductible items	(17,346)	(571,032)
Foreign exchange, change in estimates, other	476,258	72,261
Change in valuation allowance	(11,899,422)	(1,597,791)
Income tax recovery	-	-

For personal use only

The significant components of the Company's future income tax assets are as follows:

	April 30, 2026 $	April 30, 2025 $
Future income tax asset / (liability):		
Non-capital loss carryforwards	14,635,103	3,887,794
Exploration expenditure pool	738,595	680,541
Reclamation provision	418,700	333,635
Undeducted financing costs	1,229,123	281,223
Accruals and prepayments	27,355	-
Other	4,143	(884)
	17,053,249	5,182,309
Less: valuation allowance	(17,053,249)	(5,182,309)
Net future income tax assets	-	-

The Company has non-capital losses for tax purposes of approximately $14,340,000 and $43,339,000 which may be used to reduce future taxable income in Canada and Australia, respectively. The losses expire in the following years:

	April 30, 2026 $	Expiry Range	April 30, 2025 $	Expiry Range
Canada	14,340,000	2031-2046	12,060,000	2031-2045
Australia	43,339,000	No expiry date	2,767,000	No expiry date
	57,679,000		**14,827,000**	

The Company also has available mineral resource related expenditure pools of approximately $7,904,000 and $189,000, which may be deducted against future taxable income on a discretionary basis in Canada and Australia, respectively.

18. COMMITMENTS AND CONTINGENCIES

Claim Commitments - Canada

The Group has a portfolio of claims located in Quebec, Canada, which all have a requirement for a certain level of expenditure each bi-annual (2 year) renewal period in addition to renewal fees payable to maintain exploration rights on the claims. Future minimum commitments as at April 30, 2026 and 2025 for the claims held, were as follows:

	April 30, 2026 $	April 30, 2025 $
Within one year	21,809	93,656
Between one and two years	118,896	21,809
	140,705	**115,465**

For personal use only

Tenement Commitments - Western Australia

The Group has a portfolio of tenements located in Western Australia, which all have a requirement for a certain level of expenditure each and every year in addition to annual rental payments for the tenements. Future minimum commitments as at April 30, 2026 and 2025 for the tenements held, were as follows:

	April 30, 2026 $	April 30, 2025 $
Within one year	1,659,441	1,377,417
After one year but not more than five years	3,743,734	2,941,955
Greater than five years	1,264,088	1,391,331
	6,667,263	**5,710,703**

Contingent liabilities - Eastmain tank farm, Canada

As at April 30, 2026, the Company has an obligation to remove a petroleum tank farm from the Eastmain site and conduct such site remediation as is required by government agencies (refer note 10). The Company's provision for the tank farm removal and the required environmental surveys does not include any costs for site remediation because until the results of the surveys are complete it is not possible to estimate what, if any remediation work will be necessary.

Other contingent liabilities

As at April 30, 2026, other than those disclosed above and in note 5, the corporation had no contingent assets or liabilities to report.

19. SUPPLEMENTARY CASH FLOW INFORMATION

Non-cash Investing and Financing Activities:	Note	April 30, 2026 $	April 30, 2025 $
Issuance of common shares for exploration assets	5	250,000	7,905,000
Acquisition of right of use assets through leasing arrangements	8	-	165,535
Issuance of common shares for share issue cost	11	1,430,340	-
Fair value transferred from reserves to share capital upon the exercise of warrants, options, compensation units and PSUs	11	(2,052,086)	(459,682)
Expiry of compensation units, compensation warrants, warrants and options	11	-	(1,158)

For personal use only

20. SUBSEQUENT EVENTS

On May 6, 2026, the Company granted a total of 11,355,000 Performance Share Units (**PSUs**) under the Omnibus Equity Incentive Plan. A total of 7,755,000 PSUs were issued to employees and management on May 6, 2026, with the remaining 3,600,000 PSUs to be issued to Directors of the Company, subject to the receipt of shareholder approval at a general meeting expected to be held in August 2026.

On June 26, 2026, the Company issued a total of 5,037,815 Shares (which were immediately converted to CDIs) following the exercise of 6,000,000 Options. The exercise of options was completed using the 'Net Exercise' mechanism available under the Company's Omnibus Equity Incentive Compensation Plan.

Other than items above no other matters or circumstances have arisen since the end of the financial year that significantly affect or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.
