Entitlement Offer

On Thursday, 3 September 2026, the Company announced its intention to raise approximately $80.2 million through an accelerated non-renounceable pro rata entitlement offer, whereby Eligible Shareholders will be invited to subscribe for 1 New Share for every 3.29 Existing Shares held on the Record Date (**Entitlement Offer**).

The Offer Price of $0.615 per New Share represents a:

The Oversubscription Facility will allow Eligible Retail Shareholders that have fully subscribed for their Entitlements under the Retail Entitlement Offer to subscribe for Oversubscription Shares at the Offer Price. The availability of Oversubscription Shares will be limited to the extent there are sufficient New Shares from Eligible Retail Shareholders who do not take up their Entitlements.

The issue of Oversubscription Shares (if any) is subject to the allocation policy in section 2.4 and will occur on the same date as the issue of New Shares under the Retail Entitlement Offer, and in any event no later than three months after the Closing Date.

The Board may scale back allocations of Oversubscription Shares to some or all Eligible Retail Shareholders. If the Company receives applications for Oversubscription Shares in excess of the number of New Shares made available for subscription under the Oversubscription Facility, it will scale back allocations of Oversubscription Shares on a pro-rata basis having regard to each Eligible Retail Shareholder's holding in Shares as at the Record Date.

There is no guarantee that Eligible Retail Shareholders will receive the number of Oversubscription Shares for which they have applied. The Company's decision on the number of New Shares and Oversubscription Shares to be allocated to an Applicant will be final.

In the event of a scale back, the difference between the Application Monies received and the number of New Shares and Oversubscription Shares allocated to the Applicant, multiplied by the Offer Price, will be refunded by the Company, without interest, following allotment.

2.4 Allocation policy

The Directors reserve the right to issue any shortfall under the Entitlement Offer at their discretion, but in any event no later than three months after the Closing Date. In determining allocations of any shortfall of New Shares, including under the Oversubscription Facility and in

respect of any shortfall in the Institutional Entitlement Offer, the Directors may have regard to the following (non-exhaustive) factors:

(a) the Entitlements of particular Eligible Shareholders and the number of New Shares applied for;

(b) any potential control effect on the Company;

(c) identifying any Eligible Shareholders who are potential long term or cornerstone investors of the Company;

(d) the timelines of the Application by particular Eligible Shareholders;

(e) the overall level of demand under the Entitlement Offer; and

(f) ensuring an appropriate Shareholder base for the Company going forward.

No New Shares will be issued to an Applicant under the Oversubscription Facility or shortfall in the Institutional Entitlement Offer if the issue of New Shares would contravene the takeover prohibition in section 606 of the Corporations Act. No shortfall Shares will be issued to any Directors or other related parties of the Company.

2.5 Ranking of New Shares

The New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally with Existing Shares. The rights attaching to the New Shares are set out in the Company's constitution and are regulated by the Corporations Act, Listing Rules and general law.

3. Effect of the Entitlement Offer

3.1 Capital structure

The proposed capital structure of the Company following the issue of the New Shares in connection with the Entitlement Offer will be as follows:

Event	Shares
Existing Shares on issue (at date of this Retail Offer Booklet)	428,905,970
New Shares to be issued under the Entitlement Offer (subject to rounding of Entitlements)	130,366,557
Total (subject to rounding of Entitlements)	559,272,527

The final number of New Shares to be issued under the Entitlement Offer is subject to reconciliation.

3.2 Substantial Shareholders

To the knowledge of the Company, the relevant interests of each of the substantial Shareholders in Shares (and excluding any shares proposed to be issued under the Entitlement Offer) as at 3 September 2026 is set out below:[2]

Substantial Shareholder	Existing Shares	Voting power prior to Entitlement Offer (%)
Filetron Pty Ltd as trustee for Hunter Discretionary Trust (**Filetron**)	149,193,565	34.8%
Copia Investment Partners Ltd (**Copia**)	101,175,000	23.6%
Tribeca Investment Partners[3]	44,120,350	10.3%

3.3 Control issues

The potential effect of the Entitlement Offer on control of the Company is as follows:

(a) the potential effect of the issue of New Shares on the control of the Company and the consequences of that effect will depend on a number of factors, including investor demand, existing shareholdings in the Company and the extent to which Eligible Shareholders take up New Shares under the Entitlement Offer. However, having regard to the terms of the Entitlement Offer which is structured as a pro rata issue, the underwriting and sub-underwriting arrangements for the Entitlement Offer and the nature of the underwriters and sub-underwriters, at this time, the Company does not expect that any person will increase their percentage shareholding in the Company in a way which will have a material impact on the control of the Company;

(b) given the structure of the Entitlement Offer as a pro rata offer, if all Eligible Shareholders take up their full Entitlements under the Entitlement Offer, they will maintain their existing percentage interest in the total issued share capital of the Company insofar as the Entitlement Offer is concerned.

[3] Includes the holding of Australian Retirement Trust.

For personal use only

(c) if Eligible Shareholders do not take up any of their Entitlements, their shareholdings are expected to be diluted by 30.4% in respect of the Entitlement Offer;

(d) the proportional interests of Shareholders who are Ineligible Shareholders will be diluted because those Shareholders are not entitled to participate in the Entitlement Offer;

(e) the Entitlement Offer is lead managed and fully underwritten by the Joint Lead Managers pursuant to the Underwriting Agreement. In the event there is a shortfall under the Entitlement Offer, the shortfall Shares will be allocated:

(i) in the case of the Institutional Entitlement Offer, to Institutional Investors and Eligible Institutional Shareholders under a shortfall bookbuild, or to the Joint Lead Managers and sub-underwriters appointed by the Joint Lead Managers; and

(ii) in the case of the Retail Entitlement Offer, either pursuant to applications under the Oversubscription Facility or to the Joint Lead Managers and sub-underwriters appointed by the Joint Lead Managers;

(f) the following sensitivity analysis is provided for illustrative purposes only and shows the theoretical effect on Filetron's voting power (Filetron being the largest shareholder of the Company, noting the other substantial shareholders are not expected to sub-underwrite). The analysis assumes that Filetron takes up its entire Entitlement and sub-underwrites an amount of between $0 and $2.75 million. The $2.75 million figure represents the theoretical maximum sub-underwriting allocation that the Joint Lead Managers would offer to Filetron, in the unlikely scenario that other Institutional Shareholders and Institutional Investors take up less than their expected sub-underwriting allocations:

Illustrative sub-underwriting allocation to Filetron	**$0**	**$687,500**	**$1,375,000**	**$2,062,500**	**$2,750,000**
Current shares	149,193,565	149,193,565	149,193,565	149,193,565	149,193,565
Entitlement Offer shares	45,347,589	45,347,589	45,347,589	45,347,589	45,347,589
Sub-underwriting shares	-	1,117,886	2,235,772	3,353,659	4,471,545
Voting power on completion of the Offer	34.78%	34.98%	35.18%	35.38%	35.58%

(g) the table in paragraph 3.3(f) is provided for illustrative purposes only and does not model all possible outcomes. The actual effect of the issue of New Shares on the control of the Company and the consequences of that effect will depend on a number of factors, including investor demand and the extent to which Eligible Shareholders take up their Entitlements under the Entitlement Offer. Notwithstanding the potential increase in Filetron's voting power illustrated above, having regard to the terms of the Entitlement Offer, the underwriting and sub-underwriting arrangements for the Entitlement Offer and the nature of the underwriters and sub-underwriters, the Company does not expect that any person will increase their percentage shareholding in the Company in a way which will have a material impact on the control of the Company;

(h) if no sub-underwriters are appointed and the take-up of the Entitlement Offer was zero and the Joint Lead Managers were unable to sell any of the shortfall to other parties, the Joint Lead Managers would have a potential relevant interest of 30.4%; and

(i) the Board does not expect the issue of New Shares to the Joint Lead Managers (or any sub-underwriters appointed by the Joint Lead Managers) will have a material effect on the control of the Company.

Under section 606 of the Corporations Act, a person cannot acquire a relevant interest in the issued voting shares of a company if, because of a transaction in relation to securities of that company, a person's voting power in Eureka increases from 20% or below to more than 20%, or from a starting point that is above 20% and below 90% (**Takeover Prohibition**). There are certain exceptions to the Takeover Prohibition in section 611 of the Corporations Act. Item 10 of the table in section 611 of the Corporations Act (**Rights Issue Exception**) provides an exception for an acquisition of certain securities pursuant to a rights issue (including to underwriters and sub-underwriters) if relevant conditions are satisfied. The Company has appointed a sale nominee for the purposes of section 615 of the Corporations Act to allow relevant parties to obtain the benefit of the Rights Issue Exception, if applicable.

Please refer to sections 5.2 and 5.3 regarding your eligibility to participate in the Retail Entitlement Offer.

The Retail Entitlement Offer opens on Thursday, 10 September 2026 and will close at 5.00pm (AEST) on Wednesday, 23 September 2026 (unless extended or withdrawn).

The Retail Entitlement Offer is being made pursuant to section 708AA of the Corporations Act (as modified by *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2026/98 and ASIC Corporations (Disregarding Technical Relief) Instrument 2026/180)* which allows rights issues to be offered without a prospectus, provided certain conditions are satisfied.

As a result, the Retail Entitlement Offer is not being made under a prospectus and it is important for Eligible Retail Shareholders to read and understand the information on the Company and the Retail Entitlement Offer made publicly available by the Company, prior to taking up all or part of their Entitlement. In particular, please refer to the materials enclosed in section 7, the Company's interim and annual reports, other announcements made available at https://www.eurekagroupholdings.com.au/investors/asx-announcements/ and all other parts of this Retail Offer Booklet carefully before making any decisions in relation to your Entitlement.

4.2 Your Entitlement

An Entitlement and Acceptance Form setting out your Entitlement (calculated as 1 New Share for every 3.29 Existing Shares held on the Record Date) will accompany this Retail Offer Booklet and is available to Eligible Retail Shareholders at https://events.miraqle.com/egh-offer. If you have more than one registered holding of Shares, you will have an Entitlement and Acceptance Form and a separate Entitlement for each separate holding. A copy of your Entitlement and Acceptance Form can be accessed at https://events.miraqle.com/egh-offer.

4.3 Options available to you

Eligible Retail Shareholders may:

(a) take up their Entitlement in full by the Closing Date and, if they do so, they may apply for Oversubscription Shares (refer to section 4.4 for further information);

(b) take up part of their Entitlement by the Closing Date, in which case the balance of the Entitlement would lapse (refer to section 4.6 for further information); or

(c) do nothing and allow their Entitlement to lapse (refer to section 4.5 for further information).

The Retail Entitlement Offer is an offer to Eligible Retail Shareholders only. Ineligible Retail Shareholders are not entitled to participate in the Entitlement Offer unless the Company otherwise determines.

The Company reserves the right to reject any Entitlement and Acceptance Form that is not correctly completed or that is received after the Closing Date.

The Closing Date for acceptance of the Retail Entitlement Offer is **5.00pm (AEST) on Wednesday, 23 September 2026** (unless extended or withdrawn).

If you wish to take up some or all of your Entitlement, payment must be made by following the instructions on the Entitlement and Acceptance Form and received by the Company by the Closing Date. Please read the instructions carefully. Payments can be made by the methods set out in section 4.8 and 4.9.

4.4 Participating in the Oversubscription Facility

If you apply to take up your Entitlement in full, you may also apply for Oversubscription Shares. Amounts received by the Company in excess of the Offer Price multiplied by your Entitlement, may be treated as an Application to apply for as many Oversubscription Shares as your Application Monies will pay for in full.

In the event there is a shortfall under the Retail Entitlement Offer, Oversubscription Shares may be allotted under the Oversubscription Facility at the sole discretion of the Company, and otherwise in accordance with the terms and conditions in sections 2.3 and 2.4. If you apply for Oversubscription Shares and if your application is successful (in whole or in part), they will be issued to you at the same time that other New Shares are issued under the Retail Entitlement Offer. There is no guarantee that you will be allocated any Oversubscription Shares.

Refund amounts, if any, will be paid in Australian dollars. Refunds will be paid by direct credit to Australian nominated bank accounts as noted on the share register as at the Closing Date. If your bank account as noted on the share register as at the Closing Date is not an Australian bank account, any refunds will be paid via cheque in Australian dollars. To enable Eligible Retail Shareholders to receive their refund by direct credit, Eligible Retail Shareholders are strongly encouraged to update their bank details at https://events.miraqle.com/egh-offer. Refund amounts will be made by cheque in Australian dollars if you do not have direct credit instructions for an Australian bank account noted on your shareholding and these will be mailed in the post to your registered address.

4.5 Allowing your Entitlement to lapse

If you do not wish to accept all or any part of your Entitlement, do not take any further action and all or that part of your Entitlement will lapse.

4.6 Consequences of not accepting all or part of your Entitlement

If you wish to take up only part of your Entitlement, payment must be made by following the instructions on the Entitlement and Acceptance Form for the number of New Shares you wish to take up and making payment using the methods set out in section 4.8 and 4.9 below.

If the Company receives an amount that is less than the Offer Price multiplied by your Entitlement, your payment may be treated as an Application for as many New Shares as your Application Monies will pay for in full. Payment must be received by no later than 5.00pm (AEST) on the Closing Date.

4.7 Payment

Payment should be made using BPAY®. If you are based in New Zealand and unable to pay using BPAY®, payments can be made by Electronic Funds Transfer (EFT) (see section 4.9).

The Company will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement. If your payment will pay for more than your full Entitlement, the Company will treat you as applying for your full Entitlement and in respect of any excess amount, applying for as many Oversubscription Shares as it will pay for in full.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to Applicants on any Application Monies received or refunded.

(b) if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies; and

(c) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for additional shares under the Oversubscription Facility, to the extent of the excess.

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than 5.00pm (AEST) on the Closing Date. You should be aware that your financial institution may impose BPAY® bill payment limits and/or implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make payment. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.

4.9 Payment by Electronic Funds Transfer (EFT)

Shareholders with a registered address in New Zealand may not have access to pay by BPAY® and can make payment by EFT. Payment details for EFT can be accessed on the Entitlement and Acceptance Form at https://events.miraqle.com/egh-offer. If you have multiple holdings and consequently have more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the Shareholder Reference Number (SRN) / Holder Identification Number (HIN) specific to that holding. If you do not use the correct SRN/HIN specific to that holding your application will not be recognised as valid.

New Zealand shareholders must email their completed Entitlement and Acceptance Forms to capital.markets.au@cm.mpms.mufg.com, in accordance with the instructions on the form. It is your responsibility to ensure that your payment by direct transfer is received by the Share Registry by no later than 5.00pm (AEST) on the Closing Date. Applicants should be aware of their financial institution's cut-off time and it is the Applicant's responsibility to ensure funds are submitted correctly by the closing date and time. The Company and the Share Registry accept no responsibility for incorrect, delayed or misdelivered Application Forms or payments.

For personal use only

Your Application payment may incur fees and charges from your bank or any intermediary bank as well as the receiving bank. You may have an option to choose that fees are not deducted from the amount transferred however the receiving bank may still deduct a fee for receiving a foreign transfer. If you are paying from a bank account that is not in Australian dollars you may also incur foreign exchange fees.

4.10 Entitlement and Acceptance Form is binding

A payment made through BPAY® or, if you are based in New Zealand, by EFT, constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Retail Offer Booklet and, once paid, cannot be withdrawn. 4.13 Withdrawal of the Entitlement Offer

Eligible Retail Shareholders should be aware that an investment in the Company, including taking up your Entitlement, involves risks. 5. Additional Information

5.1 Date of this Retail Offer Booklet

This Retail Offer Booklet is dated Thursday, 10 September 2026. Subject to the following paragraph, statements in this Retail Offer Booklet are made only as of the date of this Retail Offer Booklet unless otherwise stated and the information in this Retail Offer Booklet remains subject to change without notice. The Company is not responsible for updating this Retail Offer Booklet.

The ASX announcements and Investor Presentation set out in section 7 of this Retail Offer Booklet are current as at the date on which they were released. There may be additional announcements that are made by the Company that may be relevant to your consideration of whether to take up your Entitlement. Therefore, it is prudent that you check whether any further announcements have been made by the Company to the ASX before submitting an Application.

5.2 Eligibility of Retail Shareholders

The Retail Entitlement Offer is being offered to all Eligible Retail Shareholders only.

Eligible Retail Shareholders are Shareholders on the Record Date who:

(a) are registered as holders of Existing Shares;

(b) have a registered address in Australia or New Zealand as noted on the Company's share register;

(c) are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States (to the extent such person holds Existing Shares for the account or benefit of such person in the United States);

(d) were not invited to participate in the Institutional Entitlement Offer and were not treated as an Ineligible Institutional Shareholder under the Institutional Entitlement Offer (other than as nominee or custodian, in each case in respect of other underlying holdings); and

(e) are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

By making a payment by BPAY® or, if you are based in New Zealand, by direct transfer, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

5.3 Ineligible Shareholders

All Shareholders who do not satisfy the criteria to be Eligible Retail Shareholders or Eligible Institutional Shareholders, are Ineligible Shareholders. Ineligible Shareholders are not entitled to participate in the Entitlement Offer unless the Company otherwise determines.

The restrictions upon eligibility to participate in the Entitlement Offer arise because the Company has determined, pursuant to Listing Rule 7.7.1(a) and section 9A(3)(a) of the Corporations Act, that it would be unreasonable to extend the Entitlement Offer to Ineligible Shareholders. This decision has been made after taking into account the number of non-residents in Australia and New Zealand on the Company's share register, the relatively small number and value of New Shares to which those Shareholders would otherwise be entitled and the potential costs of complying with legal and regulatory requirements in the jurisdictions in which the Ineligible Shareholders are located in relation to the Entitlement Offer.

The Company, in its absolute discretion, reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder, Eligible Institutional Shareholder or an Ineligible Shareholder. To the maximum extent permitted by law, the Company and the Joint Lead Managers disclaim all liability in respect of such determination.

The Company has obtained approval from ASIC to appoint Berne No. 132 Nominees Pty Limited ACN 010 413 591 (AFS representative No 000259151) (as authorised representative of Morgans Financial Limited (AFSL 235410)) as nominee for the purposes of section 615 of the Corporations Act (**Sale Nominee**) to arrange for the sale of the New Shares which would otherwise have been available to Ineligible Shareholders had they been eligible to participate in the Entitlement Offer. The proceeds of sale (if any), net of expenses, will be distributed to Ineligible Shareholders in proportion to their Entitlements at the Record Date. Neither the Sale Nominee nor the Company will be liable for the failure to sell New Shares or to sell them at any particular price.

The Sale Nominee will not be paid for its services as Sale Nominee.

5.4 Allotment, trading and quotation

The Company will apply for quotation of the New Shares on ASX in accordance with Listing Rule requirements. If ASX does not grant quotation of the New Shares, the Company will repay all Application Monies (without interest).

Trading of New Shares will, subject to ASX approval, occur shortly after allotment. It is expected that allotment of the New Shares under the Retail Entitlement Offer will take place on Wednesday, 30 September 2026. Application Monies will be held by the Company on trust for Applicants until the New Shares are allotted. No interest will be paid on Application Monies.

Subject to approval being granted, it is expected that the New Shares allotted under the Retail Entitlement Offer will commence trading on a normal basis on Thursday, 1 October 2026.

It is the responsibility of Applicants to determine the number of New Shares allotted and issued to them prior to trading in the New Shares. The sale by an Applicant of New Shares prior to receiving their holding statement is at the Applicant's own risk. The Company and the Joint Lead Managers disclaim all liability whether in negligence or otherwise (to the maximum extent permitted by law) to persons who trade New Shares before receiving their holding statements, whether on the basis of confirmation of the allocation provided by the Company or the Share Registry or otherwise.

5.5 Reconciliation

In any entitlement offer, investors may believe that they own more Existing Shares on the Record Date than they ultimately do. This may result in a need for reconciliation to ensure all Eligible Shareholders have the opportunity to receive their full Entitlement.

The Company may need to issue a small quantity of additional New Shares to ensure all Eligible Shareholders have the opportunity to receive their appropriate allocation of New Shares. The price at which these New Shares would be issued, if required, is the same as the Offer Price.

The Company also reserves the right to reduce the Entitlement or the number of New Shares allocated to Eligible Shareholders or persons claiming to be Eligible Shareholders, if their Entitlement claims prove to be overstated, if they or their nominees/custodians fail to provide information requested to substantiate their Entitlement claims, or if they are not Eligible Shareholders.

5.6 Continuous disclosure

The Company is a "disclosing entity" under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules, including the preparation of annual reports and half yearly reports.

For personal use only

The Company is required to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the stock markets conducted by ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain exceptions) to notify ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of Shares. That information is available to the public from ASX and can be accessed at www.asx.com.au. Some documents are required to be lodged with ASIC in relation to the Company. These documents may be obtained from, or inspected at, an ASIC office.

5.7 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your Application once it has been made.

5.8 Underwriting

The Company and the Joint Lead Managers have entered into an Underwriting Agreement pursuant to which the Joint Lead Managers have agreed to act as joint lead managers, bookrunners and to fully underwrite the Entitlement Offer. MA Moelis Australia Advisory Pty Ltd (**MA Moelis**) and Morgans Corporate Limited (**Morgans**) have also been appointed as financial advisers in respect of the Entitlement Offer.

The Company has agreed to pay the Joint Lead Managers:

(a) a management fee of 1.30% (plus GST) of the Institutional Entitlement Offer proceeds excluding any proceeds from participation by Filetron (if any);

(c) a management fee of 1.30% (plus GST) of the Retail Entitlement Offer proceeds; and

(d) an underwriting fee of 1.30% (plus GST as applicable) of the Retail Entitlement Offer proceeds.

Eureka may in its absolute discretion pay an incentive fee equal to 0.50% (plus GST) of the Entitlement Offer proceeds, excluding any proceeds from participation by Filetron, to the Joint Lead Managers.

Eureka will pay a fee of 0.35% (plus GST) of the Entitlement Offer proceeds to MA Moelis as financial adviser to the Entitlement Offer.

Eureka will pay a fee of 0.25% (plus GST) of the Entitlement Offer proceeds to Morgans as financial adviser to the Entitlement Offer.

Eureka must also reimburse the Joint Lead Managers for their reasonably incurred expenses, including legal costs (up to $32,000), out-of-pocket expenses, stamp duty, transfer taxes, withholding taxes (or similar) incurred in relation to the Entitlement Offer. The Underwriting Agreement contains customary representations, warranties and indemnities from Eureka in favour of the Joint Lead Managers.

Customary with these types of arrangements:

(a) the Company and the Joint Lead Managers have given certain representations, warranties and undertakings in connection with (among other things) the Entitlement Offer;

(b) the Company has agreed, subject to certain exclusions, to indemnify the Joint Lead Managers, its affiliates and related bodies corporate, and their respective directors, officers, and employees against all claims, demands, damages, losses, costs, expenses and liabilities arising out of or in connection with the Entitlement Offer; and

For personal use only

(c) the obligation on the Joint Lead Managers to underwrite the Entitlement Offer is conditional on certain customary conditions precedent. Additionally, the Joint Lead Managers may (in certain circumstances having regard to the materiality of the event) terminate the Underwriting Agreement and be released from its obligations under it on the occurrence of certain events.

For further details, see the summary of the key terms of the Underwriting Agreement in the Company's Investor Presentation included in section 7 of this Retail Offer Booklet.

Neither the Joint Lead Managers nor any of their related bodies corporate and affiliates, nor any of their respective directors, officers, partners, employees, representatives or agents (together, the **Joint Lead Manager Parties**) have authorised or caused the issue of this Retail Offer Booklet. To the maximum extent permitted by law, the Joint Lead Manager Parties exclude and disclaim all liability for any expenses, losses, damages or costs incurred by you as a result of your participation in or failure to participate in the Entitlement Offer and this information being inaccurate or incomplete in any way for any reason, whether by negligence or otherwise. The Joint Lead Manager Parties do not make any recommendations as to whether you or your related parties should participate in the Entitlement Offer, nor do they make any representations or warranties to you concerning this Entitlement Offer or any such information, and you represent, warrant and agree that you have not relied on any statements made by the Joint Lead Manager Parties in relation to the New Shares or the Entitlement Offer generally.

5.9 Rounding of Entitlements

Where fractions arise in the calculation of an Entitlement, they will be rounded up to the nearest whole number of New Shares.

5.10 Not financial product or investment advice

This Retail Offer Booklet and the Entitlement and Acceptance Form is for information purposes only, is not a prospectus, disclosure document or other offering document under the Corporations Act or any other law and has not been lodged with ASIC. 6. Australian taxation consequences

6.1 General

The taxation implications of the Retail Entitlement Offer will vary depending upon your particular circumstances. Neither the Company nor any of its Officers or employees, nor its advisors, accepts any liability or responsibility in this regard and they recommend that you seek and rely upon your own professional advice in connection with the Retail Entitlement Offer.

This section 6 does not constitute financial product advice as defined in the Corporations Act. It is confined to taxation issues which is only one of the matters investors need to consider when making a decision about their investments. Investors should seek advice from their own independent professional adviser before deciding whether to invest in the Retail Entitlement Offer.

The following tax comments in this section 6 are based on the income tax (including capital gains tax (**CGT**), goods and services tax (**GST**) and stamp duty laws in Australia in force as at the date of this Retail Offer Booklet. Other than as expressly discussed, the comments do not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time unless otherwise specified. The comments also do not take into account tax legislation of any country other than Australia.

Australian tax laws are complex. This summary is general in nature and is not intended to be an authoritative or complete statement of all potential tax implications for each investor or relied upon as tax advice. During the period of ownership of the New Shares by investors, the taxation laws of Australia, or their interpretation, may change. The precise implications of ownership or disposal will depend upon each investor's specific circumstances. Investors should seek their own independent professional advice on the taxation implications of receiving the Retail Entitlement Offer, participating in the Oversubscription Facility and holding or disposing of the New Shares, taking into account their specific circumstances.

The following information is a general summary of the Australian income tax (including CGT), GST and stamp duty implications of the Retail Entitlement Offer for Eligible Retail Shareholders who are Australian residents for tax purposes and are either individuals, complying superannuation entities, trusts (which are not 'public trading trusts' or 'managed investment trusts')and company investors that, in each case, hold their Existing Shares and New Shares on capital account. These comments do not apply to:

(a) non-resident investors;

(b) investors who acquired their Existing Shares in respect of which the Retail Entitlement Offer is issued under any employee share scheme or where the New Shares are acquired pursuant to any employee share scheme;

(c) investors that hold their Existing Shares and New Shares on revenue account or as trading stock;

(d) investors who hold Existing Shares and New Shares as traditional securities;

(e) investors who hold Existing Shares and New Shares as convertible interests;

(f) investors who are exempt from Australian income tax; or

(g) investors subject to the Taxation of Financial Arrangements (**TOFA**) regime in Division 230 of the *Income Tax Assessment Act 1997* (Cth).

The guide does not take into account the individual circumstances of particular Eligible Retail Shareholders and does not constitute tax advice.

For personal use only

6.2 Issue of Entitlement

The issue of the Entitlement under the Retail Entitlement Offer should be treated for Australian income tax purposes as an issue of rights to acquire a New Share in the Company.

The issue of the Entitlement under the Retail Entitlement Offer should not in itself result in any amount being included in the assessable income of an Eligible Retail Shareholder on the basis that:

(a) the Eligible Retail Shareholder already holds Shares in the Company;

(b) the Entitlement was issued to the Eligible Retail Shareholder because of their ownership of the Shares;

(c) the Eligible Retail Shareholder's existing Shares and Entitlements to New Shares are not held as revenue assets or as trading stock;

(d) the Eligible Retail Shareholder did not acquire their Shares or their Entitlement to New Shares under any employee share scheme;

(e) the Eligible Retail Shareholder does not hold existing Shares or their Entitlement to New Shares as traditional securities; and

(f) the Eligible Retail Shareholder's existing Shares are not convertible interests.

6.3 Exercise of Entitlement and applying for Oversubscription Shares

An Eligible Retail Shareholder will not derive any assessable income, or make any capital gain or capital loss, at the time of exercising their Entitlement under the Retail Entitlement Offer or acquiring Oversubscription Shares.

For Australian CGT purposes, New Shares will be taken to have been acquired on the day that an Eligible Retail Shareholder exercises their Entitlement and Oversubscription Shares will be taken to have been acquired on the date the Oversubscription Shares were issued to the Eligible Retail Shareholder.

The cost base of each New Share and Oversubscription Share will be equal to the Offer Price payable for each New Share and Oversubscription Share respectively (plus any non-deductible incidental costs the Eligible Retail Shareholder incurs in acquiring the New Shares and Oversubscription Shares).

6.4 Lapse of Entitlement

If an Eligible Retail Shareholder does not accept all or part of their Entitlement in accordance with the instructions set out above, then that Entitlement will lapse and the Eligible Retail Shareholder will not receive any consideration for their Entitlement that is not taken up. There should be no Australian tax implications for an Eligible Retail Shareholder from the lapse of the Entitlement.

6.5 Taxation in respect of dividends on New Shares

Australian resident individuals and complying superannuation entities

Dividends paid by the Company on a Share will constitute assessable income of an Australian tax resident Eligible Retail Shareholder. Australian tax resident Eligible Retail Shareholders who are individuals or complying superannuation entities should include the dividend in their assessable income in the year the dividend is paid, together with any franking credit attached to that dividend.

Subject to the comments below at section 6.6, such Eligible Retail Shareholders should be entitled to a tax offset equal to any franking credit attached to the dividend. The tax offset can

be applied to reduce the tax payable on the Eligible Retail Shareholder's taxable income. Where the tax offset exceeds the tax payable on the Eligible Retail Shareholder's taxable income, such Eligible Retail Shareholder should be entitled to a refund of the excess franking offsets.

Corporate investors

A corporate Eligible Retail Shareholder is also required to include both the dividend and any associated franking credit in its assessable income.

Subject to the comments below at section 6.6, a tax offset is then available up to the amount of any franking credit attached to the dividend.

An Australian resident corporate Eligible Retail Shareholder should be entitled to a credit in its own franking account to the extent of the franking credits attached to the dividend received. This will allow the corporate Eligible Retail Shareholder to pass on the franking credits to its investor(s) on the subsequent payment of franked dividends.

Excess franking credits received by a corporate Eligible Retail Shareholder will not give rise to a refund entitlement for a company but can be converted into carry forward tax losses instead. This is subject to specific rules on how the carry forward tax loss is calculated and utilised in future years.

Trusts

An Eligible Retail Shareholder who is a trustee (other than a trustee of a complying superannuation entity, which is dealt with above) should include any dividends and any franking credit received in determining the net income of the trust. Subject to the trustee and the beneficiary satisfying the 'qualified person' rules (set out in section 6.6 below), where a fully franked or partially franked dividend is received, the relevant beneficiary may be entitled to a tax offset equal to the beneficiary's share of the net income of the trust.

Importantly, as part of the 2026-27 Federal Budget (handed down on 12 May 2026), the Federal Government announced that it intends to introduce a 30% minimum tax on discretionary trusts from 1 July 2028. As a result of this measure, where a discretionary trust receives a franked dividend, a beneficiary of the trust may no longer be entitled to use the associated tax offset to reduce their own tax liability.

As at the date of this Retail Offer Booklet, the proposed changes to the trust rules are not yet law, and the final form of this proposal may change. Eligible Retail Shareholders should seek their own professional tax advice regarding the potential impact of this proposed measure on their particular circumstances.

Unfranked dividends

Where a dividend paid by the Company is unfranked, the Eligible Retail Shareholder will be required to include the unfranked amount in their assessable income and there will be no franking offset entitlement. Shareholders should note that dividends paid by the Company in recent years have been unfranked.

Non-resident for tax purposes

The tax outcomes described above do not apply in the case of an Eligible Retail Shareholder who is not a tax resident of Australia. Non-resident Shareholders will need to consider separately the tax implications of receiving dividends, franked or unfranked, on the New Shares.

6.6 New Shares and Oversubscription Shares held at risk

The benefit of franking credits can be denied where an Eligible Retail Shareholder is not a 'qualified person' in which case the Eligible Retail Shareholder will not be able to include an amount for the franking credits in their assessable income and will not be entitled to a tax offset.

For personal use only

For personal use only

Broadly, to be a qualified person, an Eligible Retail Shareholder must satisfy the holding period rule and, if necessary, the related payment rule. The holding period rule requires an Eligible Retail Shareholder to hold the Shares 'at risk' for at least 45 days continuously during the qualification period – starting from the day after acquisition of the New Shares and ending 45 days after the New Shares become ex-dividend. The holding period rule only needs to be satisfied once in respect of a particular share.

The dates the New Shares and Oversubscription Shares are acquired and disposed of are ignored for the purposes of determining the 45 day period. In determining the length of time for which a particular Share has been held, the holding period rule applies on a 'last in, first out' basis. Any day on which an Eligible Retail Shareholder has a materially diminished risk of loss or opportunity for gain in respect of the New Shares or Oversubscription Shares (e.g. entering into a contract to sell the New Shares or Oversubscription Shares) will not be counted as a day on which the Eligible Retail Shareholder held the New Shares or Oversubscription Shares 'at risk'.

This holding period rule is subject to certain exceptions, including where the total franking offsets of an individual in a year of income do not exceed $5,000.

The related payment rule applies where the Eligible Retail Shareholder has made, or is under an obligation to make, a payment that passes on the benefit of a dividend paid by the Company to another party. For each such dividend, the related payment rule requires the Eligible Retail Shareholder to have held the New Shares and Oversubscription Shares at risk for a continuous 45 day period as above but within the period commencing on the 45th day before, and ending on the 45th day after, the day the New Shares and Oversubscription Shares become ex-dividend in respect of that dividend. Practically, this should not impact Eligible Retail Shareholders who continue to hold New Shares and Oversubscription Shares and also do not pass the benefit of the dividend to another person.

Eligible Retail Shareholders should obtain their own tax advice to determine if these requirements have been satisfied.

A specific integrity rule prevents taxpayers from obtaining a tax benefit from additional franking credits where dividends are received as a result of "dividend washing". That is, selling shares on an ex-dividend basis (retaining the dividend entitlement) and then repurchasing the same parcel of shares on a cum-dividend basis. Eligible Retail Shareholders should consider the impact of this measure together with the broader integrity provisions that apply to the claiming of tax offsets, having regard to their own personal circumstances.

6.7 Disposal of New Shares or Oversubscription Shares – Australian tax residents

Most Australian tax resident investors will be subject to Australian CGT on the disposal of their Shares. Some investors may hold their Shares on revenue account, as trading stock, or be subject to the TOFA regime. Those investors should seek their own independent professional advice in respect of the consequences of a disposal of Shares.

Where an Eligible Retail Shareholder holds their Shares, New Shares and Oversubscription Shares on capital account, the disposal of New Shares or Oversubscription Shares will constitute a disposal for CGT purposes.

On disposal of New Shares or Oversubscription Shares, as a general rule (and subject to the comments below), an Eligible Retail Shareholder will make a capital gain if the capital proceeds received on disposal exceed the total cost base of the New Shares or Oversubscription Shares. An Eligible Retail Shareholder will make a capital loss if the capital proceeds are less than the total reduced cost base of the New Shares or Oversubscription Shares.

Where an Eligible Retail Shareholder is a complying superannuation fund that has held their New Shares or Oversubscription Shares for 12 months or more as at the date of disposal (excluding the date of acquisition and the date of disposal), the Eligible Retail Shareholder should be entitled to apply the applicable CGT discount factor to reduce the capital gain (after

offsetting capital losses). The CGT discount factor is 33.33% for complying superannuation entities.

Where an Eligible Retail Shareholder that is an individual or a trustee investor disposes of their New Shares or Oversubscription Shares on or after 1 July 2027, the Eligible Retail Shareholder will be subject to transitional rules that apply as a result of the enactment of *The Treasury Laws Amendment (Tax Reform No. 1) Act 2026*. Under these transitional rules, the Eligible Retail Shareholder's capital gain or loss will be assessed in the year in which the CGT event relating to the disposal occurs, but it be split into two components:

(a) Pre-1 July 2027 gain or loss - Where the value of an Eligible Retail Shareholder's New Shares or Oversubscription Shares immediately prior to 1 July 2027 exceeds the cost base of Eligible Retail Shareholder's New Shares or Oversubscription Shares, the Eligible Retail Shareholder should make a capital gain for the period prior to 1 July 2027. Provided the Eligible Retail Shareholder is an individual or a trustee investor that has held their New Shares or Oversubscription Shares for 12 months or more (excluding the date of acquisition and the date of disposal) at the date of disposal, the Eligible Retail Shareholder should be entitled to apply the CGT discount factor to reduce the pre-1 July 2027 capital gain. The CGT discount factor is 50% for individuals and trusts (noting that the CGT discount rules for trusts are complex, but the discount may flow through to presently entitled beneficiaries of the trust where the beneficiary would themselves be entitled to apply the CGT discount).

(b) Post-1 July 2027 gain or loss - Where the capital proceeds received by an Eligible Retail Shareholder on the disposal of their New Shares or Oversubscription Shares exceeds the cost base of the New Shares or Oversubscription Shares (noting that the cost base in this case would be the value of those New Shares or Oversubscription Shares immediately prior to 1 July 2027), the Eligible Retail Shareholder should make a capital gain for the period from 1 July 2027. Provided the Eligible Retail Shareholder is an individual or a trustee investor that has held their New Shares or Oversubscription Shares for 12 months or more (excluding the date of acquisition and the date of disposal) at the date of disposal, the Eligible Retail Shareholder should be entitled to index the cost base of the New Shares or the Oversubscription Shares from 1 July 2027 to reduce their capital gain. Indexation will not apply where an Eligible Retail Shareholder makes a capital loss. A minimum 30% tax rate applies to capital gains derived from 1 July 2027.

Where an Eligible Retail Shareholder disposes of their New Shares or Oversubscription Shares before 1 July 2027, the Eligible Retail Shareholder will not be entitled to apply a CGT discount factor or an indexation factor to reduce any capital gain that has been derived (on the basis that neither the New Shares nor the Oversubscription Shares would have been held for 12 months or more (excluding the date of acquisition and the date of disposal) at the time of disposal. The 30% minimum tax rate that applies to capital gains derived from 1 July 2027 should not apply to this capital gain.

For the purpose of determining whether the New Shares have been held for 12 months or more (excluding the date of acquisition and the date of disposal), Eligible Retail Shareholders will be taken to have acquired them when they exercise their Entitlement under the Retail Entitlement Offer. For the purpose of determining whether the Oversubscription Shares have been held for 12 months or more (excluding the date of acquisition and the date of disposal), Eligible Retail Shareholders will be taken to have acquired them at the date the Oversubscription Shares were issued.

Eligible Retail Shareholders that make a capital loss can only use that loss to offset other capital gains from other sources (i.e. the capital loss cannot be used against taxable income on revenue account). However, if the capital loss cannot be used in a particular income year, it can be carried forward to use in future income years to offset capital gains derived in subsequent years, provided certain loss utilisation tests are satisfied (in the case of a corporate investor).

6.8 Taxation of Financial Arrangements

The application of the TOFA provisions under Division 230 of the *Income Tax Assessment Act 1997* (Cth) depend on the specific facts and circumstances of the Eligible Retail Shareholder. The TOFA provisions are complex, and Eligible Retail Shareholders should seek advice from an appropriate professional advisor in relation to the implications of the TOFA provisions.

6.9 Tax file numbers

An investor is not required to quote their tax file number (**TFN**) to the Company. However, if their TFN details (or certain exemption details) are not provided, Australian tax may be required to be deducted by the Company from dividends at the maximum marginal tax rate plus the Medicare levy.

An investor who holds Shares as part of an enterprise may quote its Australian Business Number instead of its TFN.

6.10 GST

The acquisition or disposal of the New Shares and/or Oversubscription Shares by an Eligible Retail Shareholder (who is registered or required to be registered for GST) will be classified as a "financial supply" for Australian GST purposes. Accordingly, Australian GST will not be payable in respect of amounts paid for the acquisition or disposal of the New Shares or Oversubscription Shares.

No GST should be payable in respect of dividends paid to investors.

Subject to certain requirements, there may be a restriction on the entitlement of Eligible Retail Shareholders registered for GST to claim an input tax credit for any GST incurred on costs associated with the acquisition or disposal of New Shares or Oversubscription Shares (e.g. lawyers' fees).

Investors should seek their own tax advice on the impact of GST in their own particular circumstances.

6.11 Stamp duty

No Australian stamp duty should arise for an Eligible Retail Shareholder on their acquisition of the New Shares or Oversubscription Shares in the Company, based on the assumption that:

(a) no Eligible Retail Shareholder (on an associate inclusive basis) would:

  (i) commence to hold an interest of 90% or more in the Company; or

  (ii) having an interest of 90% or more, acquire a further interest in the Company, and

(b) the issue of the New Shares or Oversubscription Shares neither results in, nor is it part of a broader arrangement that relates to, the acquisition or holding of an interest of 90% or more in the Company.

Investors should seek their own tax advice as to the impact of stamp duty in their own particular circumstances.

Equity Raising

The Acquisition will be partially funded via a fully underwritten $80.2 million Equity Raising comprising a 1 for 3.29 accelerated non-renounceable entitlement offer ("**Entitlement Offer**") of new fully paid ordinary shares ("**New Shares**").

The Equity Raising is fully underwritten by MA Moelis Australia Advisory Pty Ltd, Morgans Corporate Limited and Unified Capital Partners Pty Ltd.

New Shares issued under the Equity Raising will rank pari passu with existing Eureka shares from the date of issue. Accordingly, holders of New Shares issued under the Equity Raising will not be entitled to receive that dividend in respect of those New Shares.

Approximately 130.4 million New Shares will be issued under the Entitlement Offer, equivalent to approximately 30.4% of existing Eureka shares on issue.

Proceeds from the Equity Raising will be used to partially fund the Acquisition. The balance of the purchase price and transaction costs will be funded from debt facilities. Proceeds will initially be used to repay debt until the Acquisition settles. All assets within the NSW Living Portfolio are expected to be fully settled by the end of CY26.

ASX ANNOUNCEMENT

Monday, 7 September 2026

Successful completion of Institutional Entitlement Offer

Eureka Group Holdings Limited (ASX:EGH) ("**Eureka**" or the "**Company**") is pleased to announce the successful completion of the institutional component of its fully underwritten $80.2 million Equity Raising announced on Thursday, 3 September 2026.

The institutional component raised in total $70.7 million under the 1 for 3.29 accelerated non-renounceable pro-rata entitlement offer ("**Institutional Entitlement Offer**"). The proceeds raised from the institutional component will result in the issue of 115.0 million new fully paid ordinary shares ("**New Shares**") at an issue price of $0.615 per New Share ("**Offer Price**"). New Shares issued under the Institutional Entitlement Offer will rank pari passu with existing Eureka shares from the date of issue. As the New Shares will be issued after the ex date for the six months to 30 June 2026 dividend of 0.73 cents per share, holders of those New Shares will not be entitled to receive that dividend.

The retail component of the entitlement offer ("**Retail Entitlement Offer**") will open on Thursday, 10 September 2026 and is expected to raise approximately $9.5 million, taking the full size of the Equity Raising to $80.2 million, and is fully underwritten.

Institutional Entitlement Offer

The Institutional Entitlement Offer was well supported by eligible institutional shareholders, with 95.1% of entitlements taken up by existing eligible institutional shareholders. Consistent with its prior commitment, Filetron Pty Ltd, Eureka's largest shareholder, took up its full entitlement under the Institutional Entitlement Offer. The consequent shortfall under the Institutional Entitlement Offer also attracted strong demand with broad support from both existing and new shareholders.

The settlement of the New Shares under the Institutional Entitlement Offer is expected to occur on Thursday, 10 September 2026, with allotment of the New Shares to follow on Friday, 11 September 2026.

Commenting on the Institutional Entitlement Offer, Eureka's Managing Director and Chief Executive Officer, Mr Simon Owen, said:

"The high level of participation amongst existing shareholders reflects the strong investor confidence in our growth strategy.

This is a step change for the scale and capital position of the Company and we are now well placed to complete the acquisition of the NSW Living Portfolio and expand Eureka's portfolio of affordable seniors and all-age rental communities.

I look forward to updating the market as the NSW Living Portfolio settles and we continue to accelerate our growth profile off the back of a very successful capital raising."

Sonder Sydney

Australia's structural context and demand for affordable rentals

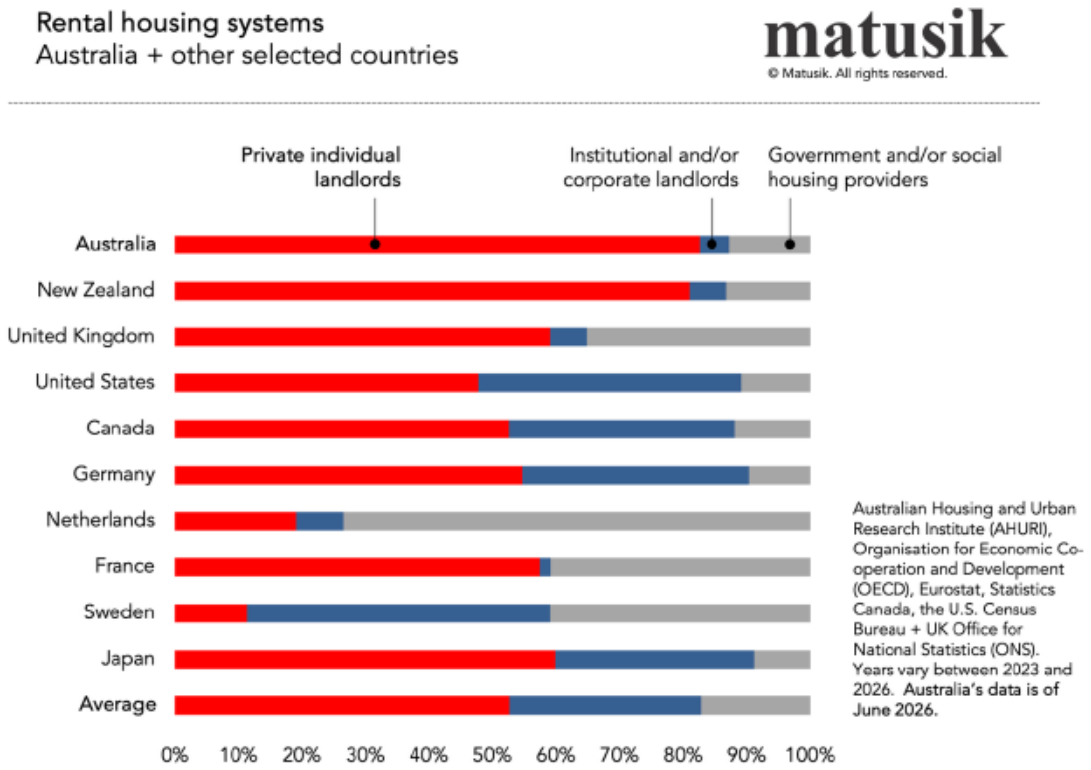

Rents have outpaced wages 2.5x over five years

Since March 2006: rents +126.6% vs wages +79.8%; the gap widened sharply after 2021.

- "The five years prior to 2020 saw wages rise almost as fast as rents. The divergence comes as vacancy rates hold close to record lows; households have become smaller and new housing supply remains in the doldrums."
- "The bad news for renters is that rental growth has been reaccelerating since mid 2025. With rental demand and rental supply remaining disconnected, it's likely rental growth will continue to outpace wages, taking rental unaffordability to new records high."

Australia's rental market relies on private investors

- Approximately 83% of Australia's rental dwellings are owned by private landlords, compared with an average of 53% across key OECD countries.
- Institutional/corporate landlords provide 5% of Australia's rental stock compared to 41% in the US and 30% across key OECD countries.

Appendix C – Key risks

General Risks

This section discusses some of the key risks associated with an investment in Eureka. A number of risks and uncertainties may adversely affect the operating and financial performance or position of Eureka and in turn affect the value of Eureka shares. These include specific risks associated with an investment in Eureka and general risks associated with any investment in listed shares. The risks and uncertainties described below are not an exhaustive list of the risks facing Eureka. Potential investors should carefully consider whether the New Shares offered are a suitable investment having regard to their own personal investment objectives and financial circumstances and the risks set out below.

Financial Product Advice Disclaimer

This document is not financial product advice and has been prepared without taking into account your investment objectives or personal circumstances. Before investing in New Shares, you should consider whether an investment in New Shares is suitable for you. Potential investors should consider publicly available information on Eureka (such as that available on the websites of Eureka and ASX), carefully consider their personal circumstances and consult their stockbroker, solicitor, accountant or other professional adviser before making an investment decision.

General investment risks	There are risks associated with any stock market investment, including: • The demand for Eureka shares may increase or decrease and Eureka shares may trade above or below the issue price on the ASX; • If Eureka issues New Shares, an existing Shareholder's proportional interest in Eureka may be reduced; and • The market price of the shares may be affected by factors unrelated to the operating performance of Eureka such as stock market fluctuations and volatility and other factors that affect the market as a whole.
Share price fluctuations	The value of Eureka's shares will be determined by the stock market and will be subject to varied and often unpredictable influences in the share market beyond Eureka's control. These factors include, but are not limited to, the demand for, and availability of Eureka's shares, movements in interest rates, exchange rates, and rates of inflation, fluctuations in the Australian and international stocks markets, changes in fiscal, monetary and regulatory policies, and general domestic and international and economic activity. Depending on general market conditions and Eureka's share price, Eureka may not be able to attract new investors or raise capital as and when required.
Macro-economic risks	Macro-economic risks can impact the performance of Eureka, including changes to economic conditions in Australia and internationally, investor sentiment and international and local stock market conditions, changes in fiscal, monetary and regulatory policies which may impact economic conditions such as interest rates and consequently the performance of Eureka.
Legislative and regulatory risks	Changes in laws, regulation and government policy may affect Eureka's business and therefore the returns Eureka is able to generate.

personal use only

Appendix C – Key risks (cont.)

Environmental and insurance risk	Eureka's properties are subject to environmental risks including loss of property and profits due to bushfires, floods, cyclones, erosion of waterways and other events. These risks and potential losses may increase in the future if the climate continues to change. Eureka carries insurance for some of these events, however insurance may not cover all or any of the losses incurred, insurance may prove increasingly difficult to obtain or the cost may become prohibitive.
Liquidity and dilution	Liquidity in Eureka shares may be limited and it may be difficult for investors to buy or sell lines of shares at market prices. In response to market conditions or for other reasons, ASX may amend temporarily or permanently, rules relating to the issue or trading of shares, which may affect the liquidity of Eureka shares. Eureka may issue New Shares in the future. This may be on terms which may result in a Eureka shareholder being ineligible to participate pro rata or at all. Upon implementation of the Equity Raising, Eureka will issue shares, as set out in this Presentation. The issue of shares will dilute the interests of existing shareholders to differing extents depending on whether the individual shareholders take up their entitlement under the Equity Raising. There is also a risk that shareholders will be further diluted as a result of future capital raisings required in order to fund Eureka's activities. It is not possible to predict what the value of Eureka's shares will be following completion of the Equity Raising and the Directors do not make any representation as to such matters. The last trading price of Eureka shares on the ASX prior to the date of this Presentation is not a reliable indicator as to the potential trading price of shares after implementation of the Equity Raising.
Tax implications	Future tax liabilities may be impacted by changes to the Australian taxation law including changes in interpretation or application of the law by the courts or taxation authorities in Australia. This in turn could impact the value or trading price of Eureka shares, the taxation treatment of an investment in Eureka or the holding costs or disposal of its shares.
Litigation	Eureka may, in the ordinary course of business, be involved in possible litigation disputes (such as environmental and workplace health and safety, industrial disputes and other legal claims). A material legal action may adversely affect the operational and financial results of Eureka.
Business strategy risk	Eureka's business strategy is focused on providing rental accommodation for independent seniors and tourism sites in all-age communities through the active management of existing assets, the acquisition of additional villages and homes/sites and the realisation of development opportunities. A key element to this strategy is ensuring ongoing capital recycling and strong capital management planning. Eureka's future growth is dependent on the successful execution of this strategy. Any change or impediment to implementing this strategy may adversely impact on Eureka's operations and future financial performance.

Appendix C – Key risks (cont.)

Development risk	Eureka undertakes property development. Such projects have a number of risks including (but not limited to): delays or issues around planning, application and regulatory approvals; development cost overruns; environmental costs; project delays; issues with building and supply contracts; expected sales prices (should Eureka make the decision to sell any projects) and leasing rates or timing of expected sales and leasing not being achieved. A sustained downturn in the residential property markets due to deterioration in the economic climate could result in reduced development profits through lower selling, leasing prices, leasing volumes and delayed settlements or leasing.
Capital expenditure risk	Eureka's properties may require unforeseen capital expenditure from time to time, in order to maintain them in a condition appropriate for the purposes intended. This may rise either due to property defects or in response to changes in statutory and compliance requirements (such as environmental, building or safety regulations and standards). There is a risk that capital expenditure may therefore exceed current forecasts, which could lead to increased funding costs and potentially lower distributions.
Increased competition	Eureka operates across several geographic markets and offers a unique accommodation product. While there are barriers to entry for new operators, including but not limited to access to capital and staff and complying with legislative requirements, future developments that directly or indirectly compete with Eureka's existing portfolio could impact Eureka's current business and financial performance.
Government assistance	Governments and other authorities provide rental assistance and other subsidies for many residents in Eureka's villages. Any change to legislation could result in a reduction in resident demand for leases in the properties and therefore impact Eureka's business. Reductions in subsidies for residential residents could result in loss in rent or increased arrears.
Income and expense growth rates	Higher than expected inflation rates could lead to greater development and or operating costs. The ability to raise future rents and maintain or grow occupancy may be impacted by residents' income levels and a change in government subsidies. Eureka's future financial performance could be impacted where the inflation in operating and development costs exceeds the growth in rental income.
Dividends	Future dividends for Eureka shares will be determined by the Directors having regard to the operating results, future capital requirements, bank debt covenants and the financial position of Eureka. There can be no guarantee that Eureka will continue to pay dividends at the current level or at all.
Asset valuation risk	Assets are assessed for changes in fair value or impairment (the latter as required whenever events or changes in circumstances indicate that the carrying amount may not be recoverable). Factors affecting property valuations include capitalisation and discount rates, maintainable earnings, occupancy and the economic growth outlook. Such impacts on property valuations may lead to variations in the valuation of Eureka shares.

Personal use only

Appendix C – Key risks (cont.)

Funding risk	Eureka currently has bank debt which contains certain financial and operational covenants. Any breach of these covenants could result in the early enforced repayment of debt. Such repayment could incur capital losses if assets need to be sold in a short period or shareholders may be diluted if equity needs to be raised at a large discount. In addition, interest rate changes may have a material impact on profitability. Eureka mitigates this risk through its capital management plan and interest rate hedging. Eureka's nearest debt maturity is May 2028. At the maturity of these loans, there is no certainty they will be refinanced on the same terms currently in place.
Operational risks	Routine village operations require Eureka to manage risks related to maintenance of a safe environment including property condition, food service, building compliance and resident wellbeing. Compliance and management systems, including third party inspections where appropriate, have been established to manage these risks.
Personnel risk	The ability of Eureka to successfully deliver on its business strategy is dependent on retaining key employees of Eureka. The loss of senior management or other key personnel could adversely impact on Eureka's business and financial performance.
Accounting standards	Changes to accounting standards may affect the reported earnings of Eureka from time to time.
Acquisition risks	The Equity Raising is not conditional on deploying the proceeds into the specified acquisition of assets. There is a risk that the Acquisition may not occur and the timing, consideration paid and investment return on any acquisition made may vary from the existing portfolio.
Acquisition integration	Eureka intends to implement a number of initiatives to integrate assets that it acquires into the group's operations and to achieve the optimal, steady-state maintainable earnings. This may include redevelopment of existing sites or changing the way the asset is managed. The cost to reposition an asset at the time of implementation may vary from the assumptions at time of acquisition. It may take longer than expected for the assets to reach steady-state maintainable earnings.
Cyber risks	Eureka recognises the importance of cyber security in safeguarding digital assets, systems and information from unauthorised access or disruption. Eureka mitigates this risk through various security measures and a contingency plan for business continuity.
Investment risks	The above list of risk factors ought not to be taken as exhaustive of the risks faced by Eureka or by investors in Eureka. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of Eureka and the value of its shares. Shares issued in Eureka carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those shares.
