ASX Release

23 September 2026 **ASX Code: WC1**

SALAZAR SCANDIUM DRILL PROGRAM ADVANCES TOWARDS OCTOBER START

Highlights

- Air core **drilling programme** to test for scandium extensions and higher-grade zones is **rapidly advancing**
- **Contractor Wallis Drilling engaged** for the programme
- Heritage survey completed and PoW submitted, with **drilling planned for October 2026**

West Cobar Metals Limited (ASX: **WC1**) ("**West Cobar**" or the "**Company**") is pleased to provide an update on the rapid progress of its upcoming air core drill program at the Salazar Critical Minerals Project in Western Australia.

The program is the first scandium focused drill campaign at Salazar and is designed to drill test areas with the aim of defining higher-grade **scandium** resources in shallow saprolite.

Key preparations are well advanced:

- The heritage survey covering the proposed drilling areas has recently been completed, with the report pending.
- A Programme of Work ("PoW") application for the proposed drilling has been submitted to the Western Australian Department of Mines, Petroleum and Exploration.
- Experienced air core contractor Wallis Drilling has been engaged.
- Subject to approvals and final operational arrangements, drilling is scheduled to commence in October 2026.

Further program details will be released once the necessary approvals have been received and the commencement date is confirmed.

West Cobar Metals Managing Director, Matt Szwedzicki, commented:
"*Given what we know about the Salazar deposit's geological setting, we are excited to begin our first scandium focused drilling campaign at Salazar.*

Preparations for drilling are rapidly advancing, with the heritage survey completed, the Programme of Work submitted, and Wallis Drilling engaged.

The program will target further shallow, higher-grade scandium resources[1] while testing extensions to the existing REE and TiO2 resources. It also complements our current metallurgical testwork on scandium and REE extraction.[2]

Forward looking statement

Certain information in this document refers to the intentions of West Cobar, but these are not intended to be forecasts, forward looking statements or statements about the future matters for the purposes of the Corporations Act or any other applicable law. The occurrence of the events in the future are subject to risk, uncertainties and other actions that may cause West Cobar's actual results, performance or achievements to differ from those referred to in this document. Accordingly, West Cobar and its affiliates and their directors, officers, employees and agents do not give any assurance or guarantee that the occurrence of these events referred to in the document will actually occur as contemplated.

Statements contained in this document, including but not limited to those regarding the possible or assumed future costs, performance, dividends, returns, revenue, exchange rates, potential growth of West Cobar, industry growth or other projections and any estimated company earnings are or may be forward looking statements. Forward-looking statements can generally be identified by the use of words such as ‘project’, ‘foresee’, ‘plan’, ‘expect’, ‘aim’, ‘intend’, ‘anticipate’, ‘believe’, ‘estimate’, ‘may’, ‘should’, ‘will’ or similar expressions. These statements relate to future events and expectations and as such involve known and unknown risks and significant uncertainties, many of which are outside the control of West Cobar. Actual results, performance, actions and developments of West Cobar may differ materially from those expressed or implied by the forward-looking statements in this document.

Such forward-looking statements speak only as of the date of this document. There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, West Cobar and any of its affiliates and their directors, officers, employees, agents, associates and advisers:

- disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and
- disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

ASX Release

The information contained in this announcement that relates to the exploration information at West Cobar's Projects fairly reflects information compiled by Mr David Pascoe, who is Head of Technical and Exploration of West Cobar Metals Limited and a Member of the Australian Institute of Geoscientists. Mr Pascoe has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Pascoe consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

The Mineral Resource information referred to in this announcement was first reported by the Company in its ASX announcement dated 8 October 2024, titled 'Major Resource Expansions at Salazar'. The Company confirms that it is not aware of any new information or data that materially affects the information included in that announcement and that all material assumptions and technical parameters underpinning the Mineral Resource estimates continue to apply and have not materially changed.
