DIRECTORS' REPORT

Your directors present the following report on Krakatoa Resources Limited (the "Company") and controlled entities (referred to hereafter as the "Group") for the financial year ended 30 June 2026.

DIRECTORS

The names of directors in office at any time during the financial year and up to the date of this report are:

- Colin Locke (Executive Chairman)
- Timothy Hogan (Non-Executive Director)
- David Palumbo (Non-Executive Director)

Unless noted above, all directors have been in office since the start of the financial year to the date of this report.

COMPANY SECRETARY

The following persons held the position of Company secretary during the financial year:

- David Palumbo

PRINCIPAL ACTIVITIES

The principal activity of the Group during the financial year was the acquisition and exploration of resource-based projects.

OPERATING RESULTS

The loss of the Group after providing for income tax amounted to $5,784,297 (2025: $2,522,113).

FINANCIAL POSITION

As at 30 June 2026, the Group had a cash balance of $739,459 (2025: $1,544,735) and a net asset position of $536,218 (2025: $1,961,225).

DIVIDENDS PAID OR RECOMMENDED

No dividends have been paid, and the directors do not recommend the payment of a dividend for the financial year ended 30 June 2026.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

No significant changes in the state of affairs occurred during the financial year.

For personal use only

For personal use only

DIRECTORS' REPORT (CONT.)

REVIEW OF OPERATIONS

The Group is an ASX-listed exploration and development Company focused on acquiring and exploring high-quality mineral projects. The Company's strategy is to undertake systematic exploration targeting significant mineral deposits and to advance projects through exploration, resource definition and development studies with the objective of increasing shareholder wealth.

During the financial year, the Company significantly advanced its flagship Zopkhito Antimony-Gold Project in Georgia. The Company completed its Phase 1 exploration programme, comprising surface diamond drilling and underground in-adit core drilling, which confirmed high-grade antimony and gold mineralisation and provided strong geological validation of the historical exploration model. The Company also completed an underground drone LiDAR survey, progressed environmental and technical studies, restructured the Zopkhito earn-in arrangement and secured an additional two-year exploration period under the existing mining licence.

During the latter part of the financial year, the Company commenced its Phase 2 resource definition drilling programme at Zopkhito, targeting the conversion and potential expansion of the historical foreign resource estimate into a JORC-compliant Mineral Resource Estimate.

At Mt Clere in Western Australia, the Company completed drilling at the Stone Tank prospect and subsequently undertook HyLogger spectral analysis and multi-element geochemical analysis. The results did not identify significant mineralisation and the Company has reprioritised its exploration portfolio.

Details of the project-specific exploration activities are provided below.

Zopkhito Project – Antimony and Gold

During the reporting period, the Company significantly advanced exploration and development activities at the Zopkhito Antimony-Gold Project in Georgia (Figure 1). Activities included completion of the Phase 1 surface and underground drilling programmes, an underground drone LiDAR survey, integration and review of historical exploration data, restructuring of the Project earn-in arrangements, extension of the exploration period under the mining licence and commencement of the 2026 Phase 2 resource definition drilling programme.

Figure 1: Map of Zopkhito Project Georgian infrastructure.

For personal use only

The Company holds an exclusive option to acquire up to an 80% legal and beneficial interest in the granted mining licence (Mineral Exploration Licence #10001467) covering the Zopkhito Antimony-Gold Project in Georgia. Subsequent to the reporting period the Company commenced the purchase of the 10%.

Zopkhito contains a foreign resource estimate of 225kt @ 11.6% Sb for a contained 26,000 tonnes of antimony and 7.1Mt @ 3.7g/t for 815,119 oz of gold[1].

The Project benefits from extensive historical exploration, including approximately 27km of underground exploration adits, more than 20,000 historical channel and geochemical samples and historical LiDAR and IP geophysical surveys. Historical exploration has identified a high-grade quartz-antimony vein system and an extensive gold mineralisation system.

Phase 1 Exploration Programme

During the first half of the financial year, Krakatoa completed its Phase 1 exploration programme, comprising surface diamond drilling and an underground in-adit core drilling and sampling programme.

The surface diamond drilling programme comprised 18 holes for approximately 2,309 metres. Of the 18 holes drilled, 15 reached target depth, with 12 intersecting visible antimony-rich quartz-stibnite veins. Three additional holes were drilled for geological purposes and three holes were abandoned due to ground conditions.

The drilling was designed to test areas between the historical underground workings where historical sampling had identified high-grade antimony and gold mineralisation. Drilling successfully intersected mineralisation across multiple target zones, confirming that mineralisation extends beyond the historical workings and providing strong geological validation of the historical model (Figure 2).

Table 1 Significant Surface Diamond Drilling Results

Hole	Significant intersection
DD25ZOP007	8m @ 14.1g/t Au from 8m, including 1.5m @ 38.5g/t Au from 13m, and 3m @ 1.48% Sb from 10m
DD25ZOP011	7m @ 3.0g/t Au from 66.86m, including 1m @ 15.9g/t Au from 67.86m, and 1m @ 0.47% Sb
DD25ZOP014	2.71m @ 3.0g/t Au from 108.54m, including 0.33m @ 7.6g/t Au and 24.2% Sb
DD25ZOP005	1.18m @ 1.95% Sb from 68.91m
DD25ZOP003	2m @ 1.07% Sb from 134.05m

The surface drilling results confirmed the presence of high-grade gold and antimony mineralisation outside the historical underground workings and demonstrated the potential for a broader gold-bearing alteration system associated with the quartz-stibnite veins.

[1] Cautionary statement: The foreign estimate and foreign exploration results in this announcement are not reported in accordance with the JORC Code 2012. A competent person has not done sufficient work to classify the foreign estimate as a Mineral Resource, or disclose the foreign exploration results, in accordance with the JORC Code 2012. It is uncertain that following evaluation and/or further exploration work the foreign estimate will be able to be reported in accordance with the JORC Code 2012, and it is possible that following further evaluation and/or exploration work that the confidence in the reported foreign exploration results may be reduced when reported under the JORC Code 2012. Nothing has come to the attention of the Company that causes it to question the accuracy or reliability of the foreign exploration results, but the Company has not independently validated the foreign exploration results and therefore is not to be regarded as reporting, adopting or endorsing the foreign exploration results.

For personal use only

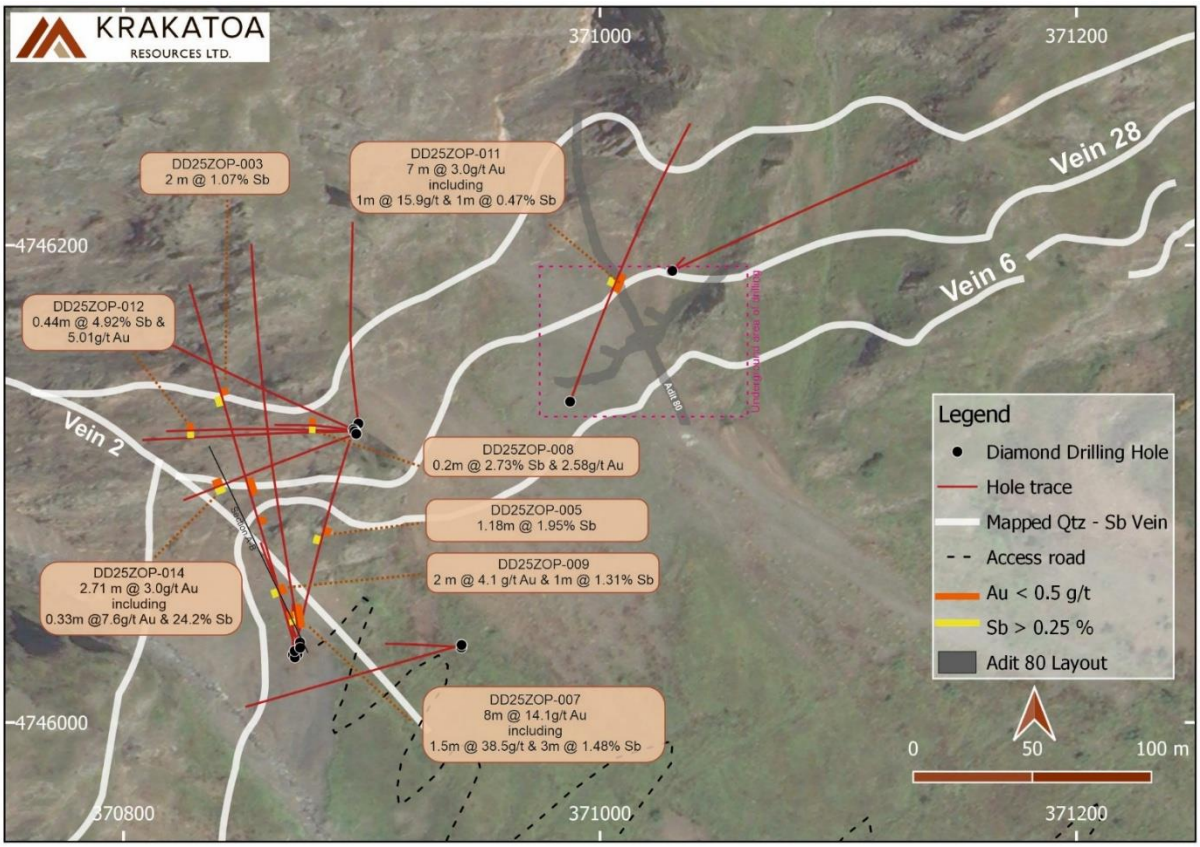

Figure 2: Plan view showing Phase 1 surface diamond drill hole locations, drill traces, mapped quartz-antimony veins and significant gold and antimony intersections at Zopkhito

Underground In-Adit Core Drilling and Sampling

An extensive underground in-adit core drilling and sampling programme was completed within Adit #80 (Figure 3). A total of 18 underground core holes were completed using a modified portable 41mm coring system designed for confined underground conditions.

The programme was designed to obtain representative core samples from mineralisation behind and adjacent to the historical workings and to test both the high-grade antimony vein system and the broader alteration zones for associated gold mineralisation.

Of the 18 underground holes completed, 16 intersected visible antimony mineralisation within quartz-sulphide breccias and vein systems. Subsequent laboratory assays confirmed the presence of high-grade antimony together with extensive gold mineralisation (Figure 4).

DIRECTORS' REPORT (CONT.)

Table 2 Significant Underground Drilling Results

Hole	Significant intersection
UG25ZOP003	4.99m @ 6.4g/t Au & 5.07% Sb from 4m, including 0.63m @ 19.55% Sb from 5m and 0.35m @ 23.1% Sb from 7.4m
UG25ZOP008	1.93m @ 7.59% Sb & 5.04g/t Au from 4.87m
UG25ZOP009	5.21m @ 6.11% Sb & 3.54g/t Au from surface, including 0.98m @ 12.05% Sb
UG25ZOP016	1.7m @ 16.30% Sb & 2.47g/t Au from surface
UG25ZOP018	3.29m @ 9.03% Sb & 2.62g/t Au from surface
UG25ZOP017	1.33m @ 9.03% Sb & 4.90g/t Au from surface
UG25ZOP014	1.28m @ 3.01% Sb & 6.12g/t Au from 6.4m
UG25ZOP015	3.3m @ 2.69% Sb & 2.30g/t Au from 3.43m
UG25ZOP012	0.81m @ 8.66% Sb & 3.40g/t Au from 1.1m
UG25ZOP013	0.6m @ 11.85g/t Au & 1.58% Sb from 2.8m
UG25ZOP007	3.05m @ 2.35g/t Au & 0.94m @ 1.50% Sb from 2.5m
UG25ZOP006	2.95m @ 2.89g/t Au from 2.31m

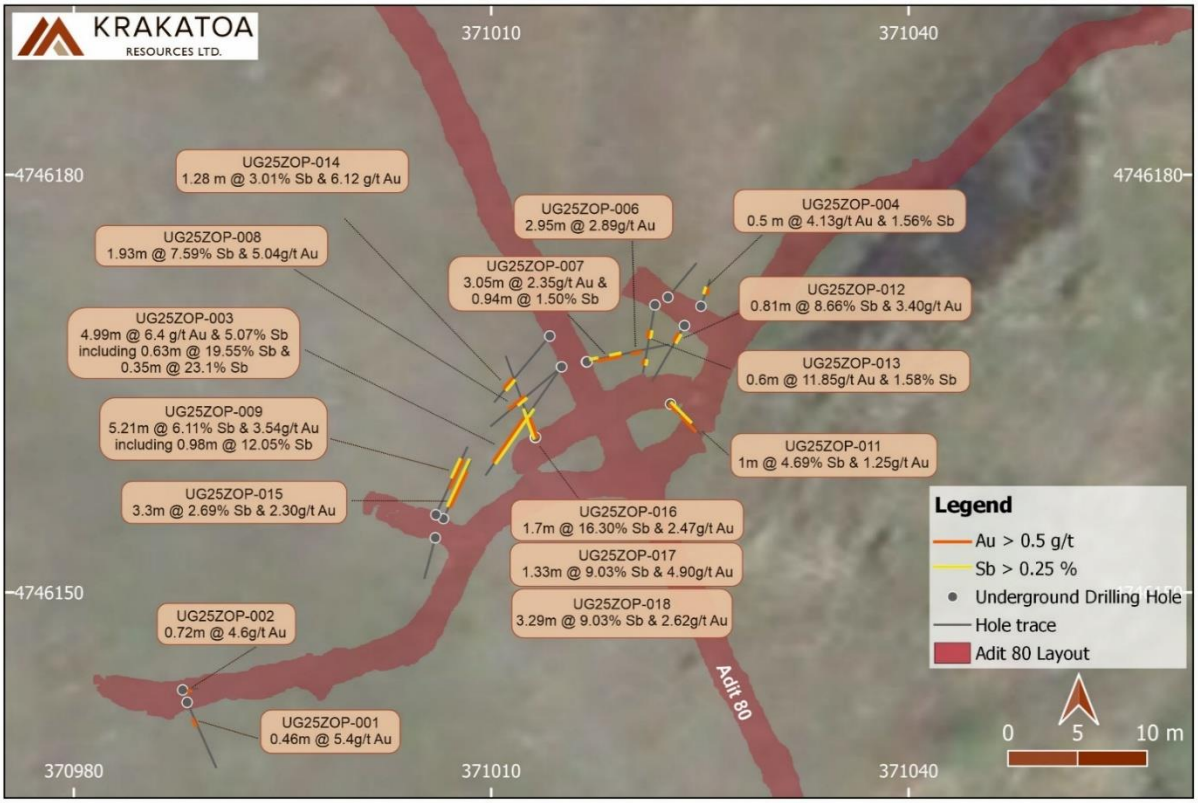

Figure 3: Underground drilling at Adit #80 showing drill hole locations and significant gold-antimony intersections

For personal use only

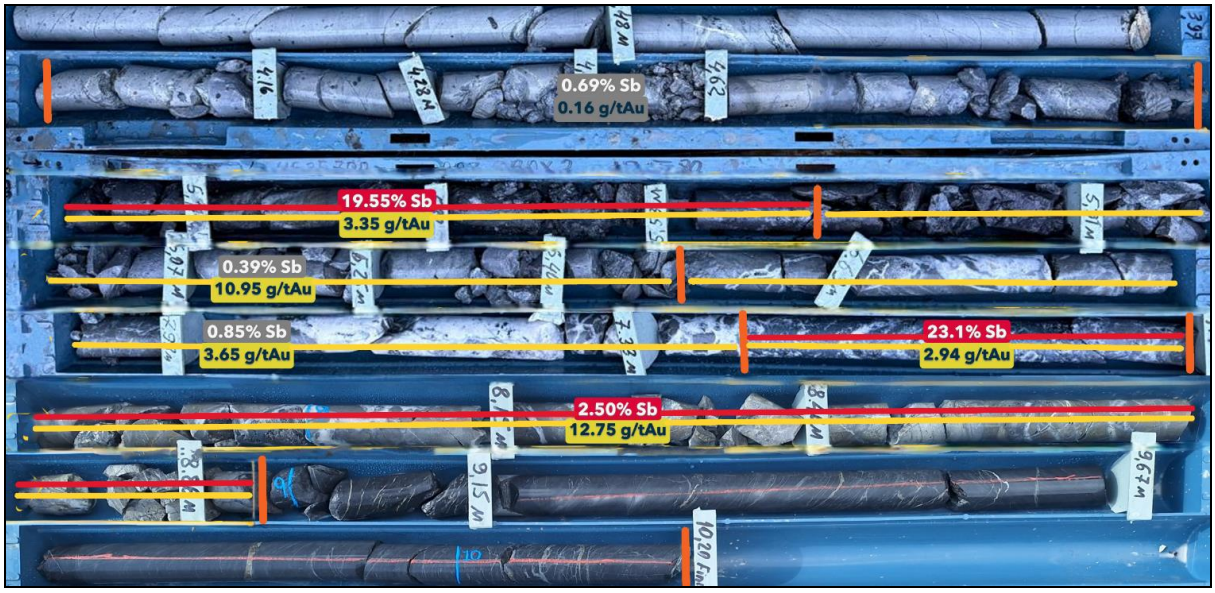

Figure 4: Drill hole UG25ZOP003 mineralised core showing significant gold-antimony intersections

The Phase 1 results demonstrate that the high-grade antimony mineralisation is associated with broader zones of gold mineralisation and provide additional confidence in the continuity and scale of the Zopkhito mineralised system.

Underground LiDAR and Historical Data Integration

To support safe underground access and JORC-compliant exploration, the Company completed an underground drone LiDAR survey across accessible historical adits. The survey generated high-resolution three-dimensional LiDAR datasets that have enabled improved mapping of underground workings, identification of hazardous areas and access to historical workings that had not been safely accessed for decades.

Importantly, the LiDAR data is being used to recalibrate the locations of historical channel samples collected between the 1950s and 2014. This work has materially improved the positional accuracy of the historical dataset and is strengthening the technical foundation for geological modelling and future resource estimation.

Additional work is being undertaken during the 2026 field season.

Zopkhito Earn-In Restructure

In April 2026, the Company executed a deed to amend and restate the Zopkhito Option Term Sheet with JSC Caucasus Minerals. The revised transaction provides a more capital-efficient pathway for Krakatoa to acquire up to an 80% interest in the Zopkhito Project. The amended structure shifts the Company's capital commitment towards exploration, resource definition and development activities.

Extension of Exploration Period

During the reporting period, the Company secured an additional two-year extension of the exploration period under the existing mineral extraction licence, which remains valid until March 2042.

The extension was supported by the Company's local partners and a decree was signed by the Prime Minister of Georgia in June 2026. The extension provides additional time to complete exploration and resource definition activities and reduces tenure risk while the Company progresses the Project through its next stage of evaluation.

DIRECTORS' REPORT (CONT.)

Phase 2 Exploration Programme

The Company commenced its Phase 2 exploration programme at Zopkhito in June 2026.

The 2026 resource definition drilling programme is focused initially on five of the 17 known mineralised veins and is designed to integrate historical datasets with new drilling to support geological modelling, validate historical high-grade mineralisation, define the extent of the quartz-stibnite and associated gold system and progress the Project towards a maiden JORC-compliant Mineral Resource Estimate (Figure 5).

The programme also includes metallurgical sampling and test work, preliminary mining studies, environmental baseline studies and further assessment of historical exploration data.

At the end of the financial year, drilling had commenced with initial surface and underground holes completed and core logging and sampling underway. Multiple zones of visible stibnite mineralisation were identified in the initial 2026 drilling (Figure 6), with laboratory assays pending at 30 June 2026.

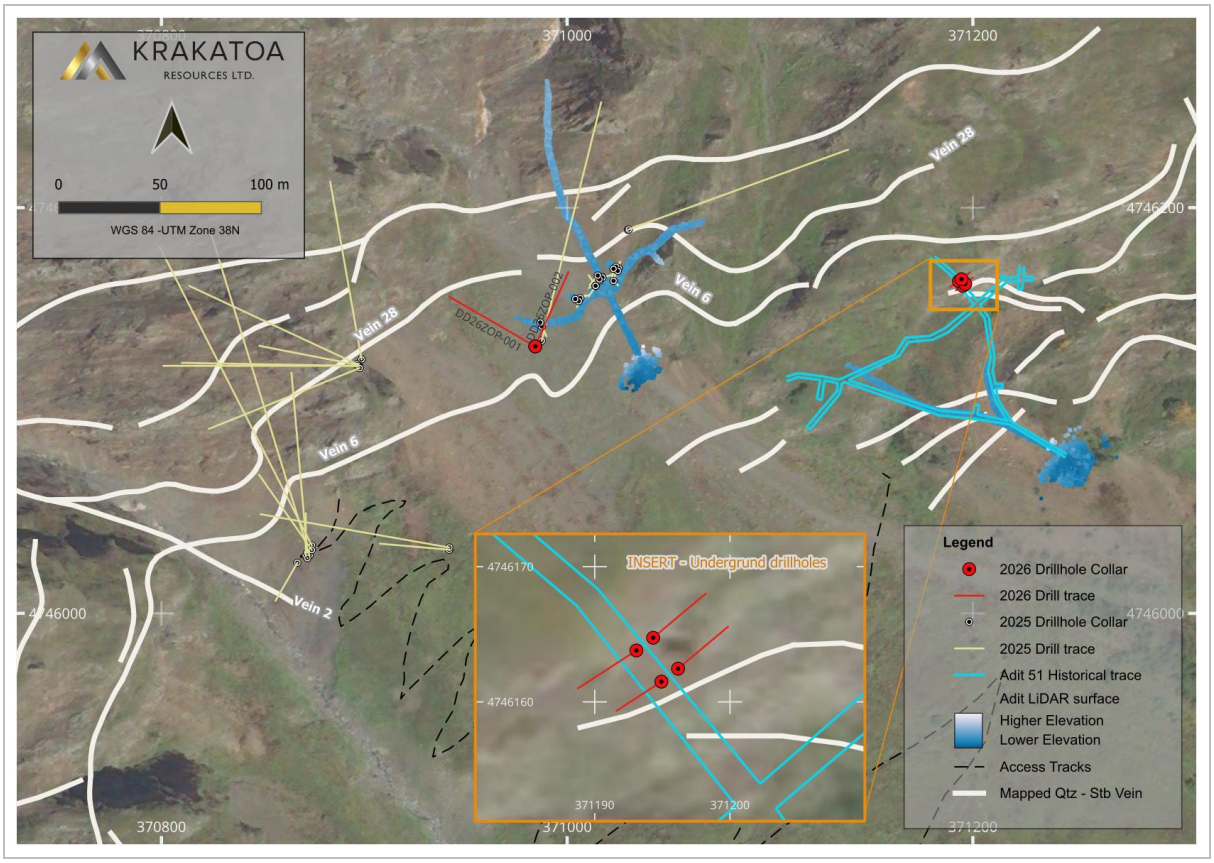

Figure 5: Plan view showing the 2026 Phase 2 resource definition drilling programme and mapped mineralised quartz-antimony veins at Zopkhito

For personal use only

For personal use only

Figure 6: Photograph of 44cm long drill core from hole DD26ZOP-002 (interval 44.66 – 45.00m) showing stibnite (antimony mineral) (estimated ~25%), slate and quartz breccia with disseminated sulphides. Assays were pending at 30 June 2026.

District-Scale Exploration Potential

During the financial year, the Company also reviewed historical Soviet exploration datasets across the broader Zopkhito mining licence. This work identified four additional prospects for potential follow-up exploration: Devrushi I and II (copper, lead and zinc); Sagebi (tungsten and antimony); Kodiani (antimony); and Edena (antimony and gold).

Several of these prospects were subject to historical adit sampling and foreign resource estimates during the 1970s. The Company is continuing to assess the available historical information to determine opportunities for future exploration.

Mt Clere Project – Prospective for REE, Au and Base Metals +/- PGE

The Mt Clere Project is located approximately 200km northwest of Meekatharra in Western Australia, within the Narryer Terrane on the north-western margins of the Yilgarn Craton.

During the financial year, the Company progressed exploration at the Stone Tank prospect, which had been identified as a potential alkaline intrusive system based on regional niobium and rare earth element geochemistry and discrete gravity anomalies.

Two priority gravity targets were selected for drill testing. The Company completed two diamond drill holes to approximately 500 metres each, targeting the centre of the two gravity anomalies (Figure 7). The programme was partially funded through a $220,000 Exploration Incentive Scheme grant from the Western Australian Government.

The drilling intersected BIF, metasediments/gneiss, amphibolite, granite and diorite, together with significant silicification and minor sulphides. No obvious ultramafic or carbonatite lithologies were identified.

Following completion of drilling, the Company submitted half-core for HyLogger spectral analysis and selected 45 samples for multi-element geochemical analysis at ALS Laboratories in Perth. The results did not identify significant mineralisation and the Company does not currently plan further exploration at the Stone Tank prospect.

During the financial year, the Company also rationalised portions of the Mt Clere tenement package to focus exploration expenditure on higher-priority areas.

The Company's ongoing focus within Mt Clere includes the Tower rare earths deposit, which hosts a JORC-compliant Mineral Resource of 101Mt @ 840ppm TREO. During the latter half of 2025,

DIRECTORS' REPORT (CONT.)

applications were submitted for two additional exploration licences, E52/4448 and E52/4498, which, subject to grant, would extend the Tower prospectivity more than 9km to the east.

Figure 7: Diamond drilling at Stone Tank, Mt Clere Project, Western Australia.

For personal use only

King Tamba Project – Prospective for Ta, Rb, Nb, Sn, W, Li, +/- Base metals

The King Tamba Project is located approximately 80km northwest of Mount Magnet in Western Australia within the Dalgaranga Greenstone Belt.

The region is prospective for a range of critical and battery minerals, including tantalum, rubidium, niobium, tin, tungsten and lithium, as well as base metals and gold.

During the financial year, the Company undertook limited exploration activities at King Tamba, with the project placed into retention status while the Company prioritised exploration expenditure towards the Zopkhito Project.

Turon Project – Au, +/-Cu

The Turon Project covers approximately 120km² and is located approximately 50km east of the Company's former Belgravia Project and 60km northeast of Newcrest Mining's (now Newmont Corporation) Cadia Valley Operations in New South Wales.

The Project is located within the Hill End Synclinorial Zone and is prospective for high-grade turbidite-hosted gold mineralisation, with geological similarities to other significant gold systems in eastern Australia.

No significant exploration activities were undertaken at Turon during the financial year. The Company continues to assess the Project and historical exploration results, including previously reported high-grade gold occurrences, to determine appropriate opportunities for future exploration.

Belgravia Project – Cu, Au

The Belgravia Project covered approximately 80km² within the Molong Volcanic Belt of the Lachlan Fold Belt, New South Wales.

During the financial year, the Company entered into a binding tenement option and sale agreement with Agriculture Equity Investments Pty Ltd for the sale of the Project.

The purchaser exercised its option to acquire 100% of EL8153 and associated statutory rights and technical data for total consideration of $350,000.

The divestment allows the Company to focus its exploration and development capital on its priority Zopkhito Antimony-Gold Project and other higher-priority critical minerals opportunities.

Competent Person's Statement

The information in this report that relates to exploration results is based on and fairly represents information reviewed and compiled by Mark Major, Krakatoa Resources CEO, who is a Member of the Australasian Institute of Mining and Metallurgy and a full-time employee of Krakatoa Resources. Mr Major has sufficient experience relevant to the styles of mineralisation and types of deposit under consideration, and to the activity which he has undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Major consents to the inclusion in this announcement of the matters based on this information in the form and context in which it appears.

DIRECTORS' REPORT (CONT.)

INFORMATION ON DIRECTORS

Colin Locke	Executive Chairman
	From 1984 to 1993, Colin Locke worked in the mining industry processing base and precious metals. During this time, he traded resource stocks and international futures contracts. In 1993, Mr. Locke joined an Australian commodity and futures broking firm as an investment advisor and became a Director in 1994. In 1998 Mr. Locke founded a boutique Australian Financial Services firm and held the position of Managing Director from 1999 until 2010. In 2007 Mr. Locke held the role of Corporate Advisor during the acquisition process for the Mayoko iron ore project in the Republic of Congo that was subsequently taken over in 2010 for circa AUD 50mi and later on sold for over 300mi. From 2008, Mr. Locke focused on natural resources exploration pursuits through the Indonesian archipelago and founded Western Mining Network Ltd, (now Aston Minerals Limited, ASO) where he held the role of Executive Director from 2010 until 2012. Mr. Locke brings to the board and shareholders a mining related background with business management and financial experience spanning over 30 years. He currently serves on the board of Rubix Resources Limited (ASX: RB6).
Interest in Securities	7,329,000 Fully paid ordinary shares 20,000,000 Performance Rights 1,000,000 Options

DIRECTORS' REPORT (CONT.)

Timothy Hogan	Non-Executive Director Mr. Hogan has approximately 25 years' experience in the stockbroking industry in Australia, initially as a founding private client advisor at Hogan and Partners. Mr. Hogan has provided corporate and execution services for a wide variety of corporate and private clients. Mr. Hogan is currently a Director of Barclay Wells Limited, a boutique advisory firm that specialises in Australian resource stocks and has assisted many companies from their initial capital raising and flotation on the ASX through to production. Mr. Hogan brings extensive experience and a wide range of contacts that will benefit the Company.
Interest in Securities	400,000 Fully paid ordinary shares
Directorships held in other listed entities	None
David Palumbo	Non-Executive Director & Company Secretary Mr Palumbo is a Chartered Accountant and graduate of the Australian Institute of Company Directors with over fourteen years' experience across company secretarial, corporate advisory and financial management and reporting of ASX listed companies. Mr Palumbo is an employee of Mining Corporate Pty Ltd, where he has been actively involved in numerous corporate transactions. Mr Palumbo is currently a Non-Executive Director of Albion Resources Limited (ASX: ALB) and Rubix Resources Limited (ASX: RB6).
Interest in Securities	13,500,000 Fully paid ordinary shares 15,000,000 Performance Rights 2,500,000 Options
Directorships held in other listed entities	Albion Resources Limited Rubix Resources Limited Tarrina Resources Limited Westar Resources Limited

REMUNERATION REPORT (AUDITED)

This report details the nature and amount of remuneration for each director of Krakatoa Resources Limited and for the executives receiving the highest remuneration.

For personal use only

DIRECTORS' REPORT (CONT.)

1. Employment Agreements

Mr. Colin Locke has worked for the Group in an executive capacity as Executive Chairman since his appointment on 6 August 2015. Under the terms of his agreement, his remuneration is subject to annual review. Under the terms of his existing agreement, his remuneration is $160,000 per annum (plus superannuation) and is subject to annual review. Under the terms of his agreement, Mr Locke received reimbursements for travel and other expenses related to his employment during the financial year. The executive agreement may be terminated by either party with 3 months' written notice.

Mr. Mark Major was appointed as Chief Executive Officer, effective from 14 October 2020. Under the terms of the executive agreement, Mr Major is entitled to receive a base salary of $281,250 per annum (plus superannuation) (increased from $225,000 effective 1 December 2025), which is subject to annual review and mandatory superannuation increases in under legislation. The executive agreement may be terminated by either party with 3 months' written notice.

Appointments of non-executive directors Timothy Hogan and David Palumbo are formalised in the form of service agreements between themselves and the Group. Their engagements have no fixed term but cease on their resignation or removal as a director in accordance with the Corporations Act 2001. Mr Hogan is entitled to $40,000 per annum plus superannuation and Mr Palumbo is entitled to $67,200 per annum including superannuation.

Key management personnel have no entitlement to termination payments in the event of removal for misconduct.

Use of Remuneration Consultants

During the financial year ended 30 June 2026, there was no use of remuneration consultants by the Group.

2. Remuneration policy

The Group's remuneration policy has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the Group's financial results. The board believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best executives and directors to run and manage the Group, as well as create goal congruence between directors, executives and shareholders.

The board's policy for determining the nature and amount of remuneration for board members and senior executives of the Group is as follows:

- The remuneration policy, setting the terms and conditions for the executive directors and other senior executives, was developed by the board.
- All executives receive a base salary (which is based on factors such as length of service and experience), superannuation and are entitled to the issue of share options.
- Incentives paid in the form of share options are intended to align the interests of directors and Group with those of the shareholders.

The performance of executives is measured against criteria agreed annually with each executive and is based predominantly on the forecast growth of the Group's shareholders' value. The board may, however, exercise its discretion in relation to approving incentives, bonuses and options, and can recommend changes to the committee's recommendations. Any changes must be justified by reference to measurable performance criteria. The policy is designed to attract the highest calibre of executives and reward them for performance that results in long-term growth in shareholder wealth.

For personal use only

DIRECTORS' REPORT (CONT.)

Executives are also entitled to participate in the employee share and option arrangements. All remuneration paid to directors and executives is valued at the cost to the Group and expensed, or capitalised to exploration expenditure if appropriate. Options, if given to directors and executives in lieu of remuneration, are valued using the Black-Scholes methodology. The board policy is to remunerate non-executive directors at market rates for time, commitment and responsibilities. The remuneration committee determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required.

The maximum aggregate amount of fees that can be paid to directors is $300,000. Fees for non-executive directors are not linked to the performance of the Group. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company and are able to participate in the employee share option plan.

3. Performance-based remuneration

There was no performance-based remuneration awarded to management or directors during the current period. During the previous period the board offered the following performance-based incentives to the CEO and board of directors:

- 25,000,000 Share Performance Rights were awarded to the CEO in the following classes:
  - 5,000,000 Class A Share Performance Rights vesting on remaining as Company CEO after two years from date of issue.
  - 10,000,000 Class B Share Performance Rights vesting on a JORC MRE of >26,000t of contained Antimony within 3 years of issue.
  - 10,000,000 Class C Share Performance Rights vesting on a price hurdle of $0.05 within 3 years of issue.

Class	Number of performance rights granted	Grant date	Vesting date and exercisable date	Expiry date	Exercise prices	Fair value per performance right at grant date
A	5,000,000	9/12/2024	9/12/2026	9/12/2027	$0.00	$0.0100
B	10,000,000	9/12/2024	9/12/2027	9/12/2027	$0.00	$0.0100
C	10,000,000	9/12/2024	9/12/2027	9/12/2027	$0.00	$0.0067

- 45,000,000 Share Performance Rights were offered to the board of directors with a 10-day VWAP share price vesting hurdle of $0.05 expiring 3 years from the date of issue.

Name	Number of performance rights granted	Grant date	Vesting date and exercisable date	Expiry date	Exercise prices	Fair value per performance right at grant date
Colin Locke	20,000,000	21/3/2025	25/3/2028	25/3/2028	$0.00	$0.0051
Timothy Hogan	10,000,000	21/3/2025	25/3/2028	25/3/2028	$0.00	$0.0051
David Palumbo	15,000,000	21/3/2025	25/3/2028	25/3/2028	$0.00	$0.0051

Voting and comments made at the Company's 2025 Annual General Meeting ('AGM')

At the 2025 AGM, 97.20% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2025. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

For personal use only

DIRECTORS' REPORT (CONT.)

4. Details of remuneration for the year ended 30 June 2026

The remuneration for each director and key management personnel of the Group during the financial year ended 30 June 2026 and 30 June 2025 was as follows:

2026	Short-term Benefits		Post-employment Benefits	Other Long-term Benefits	Share based Payment		Total	Performance Related
Directors and Key Management Person	Cash, salary & commissions	Annual leave	Super-annuation	Other	Shares	Rights		
	$	$	$	$	$	$	$	%

Colin Locke	2	2
Timothy Hogan	2	2
David Palumbo	2	2

EVENTS AFTER THE REPORTING PERIOD

On 6 July 2026, the Company announced a placement of 400,000,000 fully paid ordinary shares at an issue price of $0.004 per share to raise $1.6m. Participants will also receive one free-attaching unquoted option for every four shares subscribed for. Free attaching unquoted options are exercisable at $0.01 and expire 29 September 2028 and are subject to shareholder approval.

Additionally, on 7 August 2026 the Company also announced placement of 400,000,000 fully paid ordinary shares at an issue price of $0.006 per share to raise $2.4m. Participants will also receive one free-attaching unquoted option for every four shares subscribed for. Free attaching unquoted options are exercisable at $0.01 and expire 29 September 2028 and are subject to shareholder approval.

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

RISK MANAGEMENT

The Board of Directors review the key risks associated with conducting exploration and evaluation activities in Australia and Georgia and steps to manage those risks. The key material risks faced by the Group include:

For personal use only

For personal use only

DIRECTORS' REPORT (CONT.)

Exploration and development

The future value of the Group will depend on its ability to find and develop resources that are economically recoverable. Mineral exploration and development is a speculative undertaking that may be impeded by circumstances and factors beyond the control of the Group. Success in this process involves, among other things; discovery and proving-up an economically recoverable resource or reserve, access to adequate capital throughout the project development phases, securing and maintaining title to mineral exploration projects, obtaining required development consents and approvals and accessing the necessary experienced operational staff, the financial management staff, skilled contractors, consultants and employees.

The Group is entirely dependent upon its projects, which are the sole potential source of future revenue, and any adverse development affecting these projects would have a material adverse effect on the Group, its business, prospects, results of operations and financial condition.

Economic Conditions

Factors such as (but not limited to) political movements, stock market fluctuations, interest rates, inflation levels, commodity prices, foreign exchange rates, industrial disruption, taxation changes and legislative or regulatory changes, may all have an adverse impact on operating costs, the value of the Group's projects, the profit margins from any potential development and the Company's share price.

Reliance on key personnel

The Group's success is to a large extent dependent upon the retention of key personnel and the competencies of its directors, senior management, and personnel. The loss of one or more of the directors or senior management could have an adverse effect on the Group. There is no assurance that engagement contracts for members of the senior management team personnel will not be terminated or will be renewed on their expiry. If such contracts were terminated, or if members of the senior management team were otherwise no longer able to continue in their role, the Group would need to replace them which may not be possible if suitable candidates are not available.

Future funding risk

Continued exploration and evaluation is dependent on the Company being able to secure future funding from equity markets. The successful development of a mining project will depend on the capacity to raise funds from equity and debt markets. The Company will need to undertake equity/debt raisings for continued exploration and evaluation. There can be no assurance that such funding will be available on satisfactory terms or at all at the relevant time. Any inability to obtain sufficient financing for the Group's activities and future projects may result in the delay or cancellation of certain activities or projects, which would likely adversely affect the potential growth of the Group.

Unforeseen expenditure risk

Exploration and evaluation expenditures and development expenditures may increase significantly above existing projected costs. Although the Group is not currently aware of any such additional expenditure requirements, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Group and its proposed business plans.

Environmental, weather & climate change

The highest priority climate related risks include reduced water availability, extreme weather events, changes to legislation and regulation, reputational risk, and technological and market changes. Mining and exploration activities have inherent risks and liabilities associated with safety and damage to the environment, including the disposal of waste products occurring as a result of mineral exploration and production, giving rise to potentially substantial costs for environmental rehabilitation, damage control and losses. Delays in obtaining approvals or additional remediation costs could affect profitable development of resources.

Cyber Security and IT

The Group relies on IT infrastructure and systems and the efficient and uninterrupted operation of core technologies. Systems and operations could be exposed to damage or interruption from system failures, computer viruses, cyber-attacks, power or telecommunication provider failure or human error.

INDEMNITY AND INSURANCE OF AUDITOR

The Group has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Group or any related entity against a liability incurred by the auditor.

During the financial year, the Group has not paid a premium in respect of a contract to insure the auditor of the Group or any related entity.

ENVIRONMENTAL ISSUES

The Group's operations are subject to significant environmental regulation under the law of the Commonwealth and States in which it operates in relation to discharge of hazardous waste and materials arising from any mining activities and development conducted by the Group on any of its tenements. To date there have been no known breaches of any environmental obligations.

INDEMNIFYING AND INSURANCE OF OFFICERS

The Group has entered into deeds of indemnity with each director and the Company secretary whereby, to the extent permitted by the Corporations Act 2001, the Group agreed to indemnify each director against all loss and liability incurred as an officer of the Group, including all liability in defending any relevant proceedings.

The Group has paid premiums to insure each of the directors and the Company secretary against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director of the Group, other than conduct involving a wilful breach of duty in relation to the Group. The disclosure of the amount of the premium is prohibited by the insurance policy.

FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

Further information, other than as disclosed in this report, about likely developments in the operations of the Group and the expected results of those operations in future periods has not been included in this report as disclosure of this information would be likely to result in unreasonable prejudice to the Group.

PROCEEDINGS ON BEHALF OF THE GROUP

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

DIRECTORS' REPORT (CONT.)

NON-AUDIT SERVICES

The following fees were paid or payable to the auditor for non-audit services provided during the year ended 30 June 2026:

		$
—	taxation services	1,500

The directors are satisfied that the provision of non-audit services during the year by the auditor is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the non-audit services provided by the auditor do not compromise the auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services provided undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board.

OFFICERS OF THE COMPANY WHO ARE FORMER PARTNERS OF RSM AUSTRALIA PARTNERS

There are no officers of the Group who are former partners of RSM Australia Partners.

ROUNDING OF AMOUNTS

The Company is of a kind referred to in Corporations Instrument 2026/183, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest dollar.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this director's report.

AUDITOR

RSM Australia Partners continues in office in accordance with section 327 of the Corporations Act 2001.

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE *CORPORATIONS ACT 2001* TO THE DIRECTORS OF KRAKATOA RESOURCES LIMITED

As lead auditor for the audit of the financial report of Krakatoa Resources Limited for the year ended 30 June 2026, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

(i) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and

(ii) any applicable code of professional conduct in relation to the audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION

These financial statements and notes represent those of Krakatoa Resources Limited (the "Company") and its controlled entities (the "Group" or "consolidated entity"). Krakatoa Resources Limited is a listed public Company, incorporated and domiciled in Australia.

The financial statements were authorised for issue on 30 September 2026 by the directors.

Basis of Preparation
These general-purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with IFRS Accounting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention
The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

All amounts are presented in Australian dollars unless otherwise stated.

Critical accounting estimates
The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 1 (s).

Significant accounting policies
Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

Rounding of amounts
The Company is of a kind referred to in Corporations Instrument 2026/183, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest dollar.

For personal use only

For personal use only

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australia Accounting Standards Board ('AASB') that are mandatory for the current reporting period. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The Group's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the consolidated entity, are set out below.

AASB 18 Presentation and Disclosure in Financial Statements
This standard is applicable to annual reporting periods beginning on or after 1 January 2027 and early adoption is permitted. The standard replaces AASB 101 'Presentation of Financial Statements', with many of the original disclosure requirements retained and there will be no impact on the recognition and measurement of items in the financial statements. But the standard will affect presentation and disclosure in the financial statements, including introducing five categories in the statement of profit or loss and other comprehensive income: operating, investing, financing, income taxes and discontinued operations. The standard introduces two mandatory sub-totals in the statement: 'Operating profit' and 'Profit before financing and income taxes'. There are also new disclosure requirements for 'management-defined performance measures', such as earnings before interest, taxes, depreciation and amortisation ('EBITDA') or 'adjusted profit'. The standard provides enhanced guidance on grouping of information (aggregation and disaggregation), including whether to present this information in the primary financial statements or in the notes. The consolidated entity will adopt this standard from 1 July 2027 and it is expected that there will be a significant change to the layout of the statement of profit or loss and other comprehensive income.

a) Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including special purpose entities) controlled by the Company (its subsidiaries).

Income and expense of subsidiaries acquired or disposed of during the year are included in profit or loss from the effective date of acquisition and up to the effective date of disposal, as appropriate. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group. All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Changes in the Company's ownership interests in subsidiaries that do not result in the Company losing control are accounted for as equity transactions. The carrying amounts of the Company's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

For personal use only

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed in note 22.

b) Income Tax

The income tax expense (revenue) for the period comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the period as well as unused tax losses. Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability. Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

c) Exploration and Evaluation Expenditure

Exploration and evaluation expenditure, including the costs of acquiring tenements, are expensed as incurred. Expensing exploration and evaluation expenditure as incurred is irrespective of whether or not the Board believes expenditure could be recouped from either a successful development and commercial exploitation or sale of the respective assets.

d) Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the consolidated entity intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

Impairment of financial assets

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets measured at fair value through other comprehensive income, the loss allowance is recognised within other comprehensive income. In all other cases, the loss allowance is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

e) Impairment of Assets

At each reporting date, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information including dividends received from subsidiaries, associates or jointly controlled entities deemed to be out of pre-acquisition profits. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed.

Impairment testing is performed annually for intangible assets with indefinite lives. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

f) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of 3 months or less.

g) Revenue

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

All revenue is stated net of the amount of goods and services tax (GST).

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

h) Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

i) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

j) Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off.

k) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group before the end of the financial period and which are unpaid. The amounts are unsecured and usually paid within 30 days of recognition.

For personal use only

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

l) Employee Benefits

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Defined contribution superannuation expense
Contributions to defined contributions superannuation plans are expensed in the period in which they are incurred.

Share-based payments
The consolidated entity operates equity-settled share-based payment employee share and option schemes. The fair value of the equity to which employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account.

Share based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the good or services cannot be reliably measured and are recorded at the date the goods or services are received. The corresponding amount is shown in the option reserve.

The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using an appropriate valuation model which incorporates all market vesting conditions. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

m) Issued capital

Ordinary shares are classified as equity. Costs directly attributable to the issue of shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are included in the cost of the acquisition as part of the purchase consideration.

n) Earnings per share

Basic earnings per share
Basic earnings per share is determined by dividing the net profit after income tax attributable to members of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share
Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

For personal use only

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

o) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

p) Plant and Equipment

Land and buildings are shown at fair value, based on periodic, at least every 3 years, valuations by external independent valuers, less subsequent depreciation and impairment for buildings. The valuations are undertaken more frequently if there is a material change in the fair value relative to the carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Increases in the carrying amounts arising on revaluation of land and buildings are credited in other comprehensive income through to the revaluation surplus reserve in equity. Any revaluation decrements are initially taken in other comprehensive income through to the revaluation surplus reserve to the extent of any previous revaluation surplus of the same asset. Thereafter the decrements are taken to profit or loss.

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment	2-10 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Group. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

q) Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

For personal use only

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

r) Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using a valuation model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

s) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

t) Leases

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company’s incremental borrowing rate. Lease payments comprise fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (CONT.)

u) Going Concern

These general purpose financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

As disclosed in the financial statements, for the year ended 30 June 2026, the Group had incurred a net loss after tax of $5,784,297 and utilised cash in operating activities of $5,256,758. As at that date, the consolidated entity had net current assets of $410,810.

The ability of the Group to continue as a going concern is principally dependent upon the ability of the Company to secure funds by raising additional capital from equity markets and managing cash flows in line with available funds.

The Directors believe that there are reasonable grounds that the Group will be able to continue as a going concern, after consideration of the following factors:

- The Company's ability to issue additional shares under the Corporations Act 2001 to raise further working capital. As disclosed in note 19, subsequent to the year-end, the Company had announced and raised a total of $4m; and
- The ability of the consolidated entity to further scale back certain parts of its activities that are non-essential to conserve cash.

Accordingly, the Directors believe that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

	57,686	92,116

(i) During the prior period, the Company executed an option agreement for the acquisition of the Zopkhito Gold and Antimony Project in Georgia. Within the option agreement, the Company is required to complete payments in both cash and equity to retain its rights to exploration on the project. The Company completed the following payments to the vendor per the option agreement with required approval from shareholders as approved at the 21 March 2025 shareholder meeting.

The below outlines the consideration paid during prior financial year as it pertains to the 12-month option for the project:

Consideration	**$ AUD**
Cash	155,875
20,000,000 Facilitator Options (see note 13(d))	40,000
20,000,000 Facilitator Shares (12(ii))	200,000
Total Consideration Paid	**395,875**

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

On 17 April 2026, the Company restructured its Zopkhito agreement to re-align upfront asset payments with exploration costs. The restructure delivers a materially enhanced and capital-efficient pathway to acquire up to an 80% interest in the Zopkhito project.

NOTE 3: INCOME TAX EXPENSE	2026 $	2025 $
a. Reconciliation of income tax expense to prima facie tax payable:		
Loss from ordinary activities before income tax expense	(5,784,297)	(2,522,113)
Prima facie tax benefit on loss from ordinary activities before income tax at 30% (2025: 30%)	(1,735,289)	(756,634)
Increase/(decrease) in income tax due to:		
- Capital raising costs	(49,922)	(66,973)
- Losses and temporary differences not recognised	1,785,211	823,607
Income tax attributable to the Group	-	-
b. Unused tax losses and temporary differences for which no deferred tax asset has been recognised at 30% (2025: 30%):		
Deferred tax assets have not been recognised in respect of the following:		
Tax revenue losses	33,427,523	27,694,672

Potential deferred tax assets attributable to tax losses and exploration expenditure carried forward have not been brought to account at 30 June 2026 because the directors do not believe it is appropriate to regard realisation of the deferred tax assets as probable at this point in time. These benefits will only be obtained if:

- the Group derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the loss and exploration expenditure to be realised;
- no changes in tax legislation adversely affect the Group in realising the benefit from the deductions for the loss and exploration expenditure.

Total	31,086	5,694

The Company chose not to extend its existing lease for shared office premises at Level 4, 172 St Georges Terrace, Perth WA 6000 and now occupies the premise on a month-by-month basis. As the arrangement is a short-term lease, the Company has applied the short-term lease exemption under AASB 16; the lease payments are therefore expensed as incurred.

On 1 October 2025, the Company renewed its agreement for an additional 24-month lease for the storage warehouse in East Victoria Park, WA, Australia. The agreement included standard commercial terms similar to the initial lease agreement.

NOTE 10: TRADE AND OTHER PAYABLES

Trade payables and accrued expenses	767,232	321,593
	767,232	321,593

Trade creditors, excluding related party payables, are expected to be paid on 30-day terms.

For personal use only

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 11: PROVISIONS

	2026 $	2025 $
CURRENT		
Employee benefits	25,566	29,107
	25,566	29,107

Amounts not expected to be settled within the next 12 months
The current provision for employee benefits includes all unconditional entitlements where employees have completed the required period of service and also those where employees are entitled to pro-rata payments in certain circumstances. The entire amount is presented as current, since the consolidated entity does not have an unconditional right to defer settlement. However, based on past experience, the consolidated entity does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months.

(v) On 11 July 2025, the Company issued 19,047,619 fully-paid ordinary shares at an issue price of $0.0105 per share to raise $200,000 before costs.

(vi) On 27 August 2025, the Company issued 3,000,000 fully-paid ordinary shares at an issue price of $0.0105 per share to raise $31,500 before costs.

(vii) On 18 September 2025, the Company issued 190,000,000 fully-paid ordinary shares at an issue price of $0.0105 per share to raise $1,995,000 before costs.

(viii) On 18 November 2025, the Company issued 105,238,095 fully-paid ordinary shares at an issue price of $0.0105 per share to raise $1,105,000 before costs.

(ix) On 10 February 2026, the Company issued 138,888,889 fully-paid ordinary shares at an issue price of $0.009 per share to raise $1,250,000 before costs.

Ordinary shares
Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back
There is no current on-market share buy-back.

b) Capital risk management

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it may continue to provide returns for shareholders and benefits for other stakeholders. The Group's capital includes ordinary share capital and financial liabilities, supported by financial assets.

Due to the nature of the Group's activities, being mineral exploration, it does not have ready access to credit facilities, with the primary source of funding being equity raisings. Accordingly, the objective of the Group's capital risk management is to balance the current working capital position against the requirements of the Group to meet exploration programmes and corporate overheads. This is achieved by maintaining appropriate liquidity to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required. The Group is not subject to any externally imposed capital requirements.

The capital risk management policy remains unchanged from the 30 June 2025 Annual Report.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 13: RESERVES (CONTINUED)

(iv) As part of the placement completed on 27 August 2025 the Company issued free-attaching unquoted options to placement participants. The options are exercisable at $0.02 on or before 30 September 2026. Per accounting standards, the fair value of the free-attaching options is taken to be ascribed in the value of the placement.

(v) As part of the share placement completed on 18 November 2025, the Company issued 237,619,024 quoted options on 28 November 2025. The quoted options are exercisable at $0.02 on or before 29 September 2028. As part of the brokerage fee, 90,000,000 options were awarded to the lead managers and vested on the completion of the transaction. The Company recognised a share-based payment of $448,716 as a capital raising cost in equity for the year ended 30 June 2026. The options were valued using the Black-Scholes Merton method (refer to note 13d). Per accounting standards, the fair value of the 147,619,024 free-attaching listed options is taken to be ascribed in the value of the placement.

(vi) As part of the share placement completed on 10 February 2026, the Company issued 69,444,445 quoted options on 8 May 2026. The quoted options are exercisable at $0.02 on or before 29 September 2028. As part of the brokerage fee, 35,000,000 options were awarded to the lead managers and vested on the completion of the transaction. The Company recognised a share-based payment of $70,000 as a capital raising cost in equity for the year ended 30 June 2026. Per accounting standards, the fair value of the 69,444,445 free-attaching listed options is taken to be ascribed in the value of the placement.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 18: CONTINGENT LIABILITIES

The Group has given bank guarantees at 30 June 2026 of $15,132 in relation to the office lease (2025: $15,132).

NOTE 19: EVENTS AFTER THE REPORTING PERIOD

On 6 July 2026, the Company announced a placement of 400,000,000 fully paid ordinary shares at an issue price of $0.004 per share to raise $1.6m. Participants will also receive one free-attaching unquoted option for every four shares subscribed for. Free attaching unquoted options are exercisable at $0.01 and expire 29 September 2028 and are subject to shareholder approval.

Additionally, on 7 August 2026 the Company also announced placement of 400,000,000 fully paid ordinary shares at an issue price of $0.006 per share to raise $2.4m. Participants will also receive one free-attaching unquoted option for every four shares subscribed for. Free attaching unquoted options are exercisable at $0.01 and expire 29 September 2028 and are subject to shareholder approval.

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

NOTE 20: COMMITMENTS

In order to maintain current rights of tenure to Western Australian exploration tenements, the Group is required to perform minimum exploration requirements specified by the Department of Mines, Petroleum and Exploration of $530,000 (2025: $620,575). The Group is able to reduce its tenure and commitment at its election.

In order to maintain current rights of tenure to the New South Wales exploration tenements, the Group is required to perform minimum exploration requirements specified by the NSW Resources Regulator of Nil (2025: Nil).

The Group has no other commitments.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 23: FINANCIAL RISK MANAGEMENT

The Group has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

This note presents information about the Group's exposure to each of the above risks, its objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Management monitors and manages the financial risks relating to the operations of the Group through regular reviews of the risks.

Credit risk
The maximum exposure to credit risk, excluding the value of any collateral or other security, at reporting date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is spread amongst approved counterparties.

Credit risk (cont.)
Credit risk related to balances with banks and other financial institutions is managed by the board. The board's policy requires that surplus funds are only invested with counterparties with a Standard & Poor's rating of at least AA. All of the Group's surplus funds are invested with AA Rated financial institutions.

The credit risk for counterparties included in cash and cash equivalents at 30 June 2026 is detailed below:

	2026 $	2025 $
Financial assets:		
Cash and cash equivalents		
- AA rated counterparties	739,459	1,544,735

The Group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the Group.

Liquidity risk
The responsibility for liquidity risk management rests with the Board of Directors. The Group manages liquidity risk by monitoring forecast cash flows and ensuring that adequate working capital is maintained. The Group's policy is to ensure that it has sufficient cash reserves to carry out its planned exploration activities over the next 12 months.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 23: FINANCIAL RISK MANAGEMENT (CONT.)

Remaining contractual maturities
The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

NOTE 23: FINANCIAL RISK MANAGEMENT (CONT.)

Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments.

Interest rate risk

The Group does not have any exposure to interest rate risk as there were no external borrowings at 30 June 2026 (2025: Nil). Interest bearing assets are all short-term liquid assets and the only interest rate risk is the effect on interest income by movements in the interest rate. There is no other material interest rate risk.

NOTE 24: OPERATING SEGMENTS

Basis of Segmentation

The Group has identified its operating segments based on the reports reviewed by the Chief Operating Decision Maker ("CODM"), being the Board of Directors and CEO who are responsible for allocating resources and assessing performance of the operating segments.

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the CODM, and for which discrete financial information is available.

Reportable Segments

The Group engages in a single operating segment, being mineral exploration and development. The Group operates in two geographic segments being Australia and Georgia. Accordingly, segment information has been provided for these geographic segments.

Segment Performance

Year ended 30 June 2026

	Australia	Georgia	Total

The Company includes the Consolidated Entity Disclosure Statement in line with S295(3A)(a) of the *Corporations Act 2001.*

DIRECTORS' DECLARATION

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;

- the attached financial statements and notes comply with IFRS Accounting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;

- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2026 and of its performance for the financial year ended on that date;

- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and

- The information disclosed in the attached consolidated entity disclosure statement is true and correct.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the Board

Colin Locke

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF KRAKATOA RESOURCES LIMITED

REPORT ON THE AUDIT OF THE FINANCIAL REPORT

Opinion

We have audited the financial report of Krakatoa Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2026, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

(i) giving a true and fair view of the Group's financial position as at 30 June 2026 and of its financial performance for the year then ended; and

(ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional & Ethical Standards Board Limited (the Code) that are relevant to our audit of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

RSM Australia Partners is a member of the RSM network and trades as RSM. RSM is the trading name used by the members of the RSM network. Each member of the RSM network is an independent accounting and consulting firm which practices in its own right. The RSM network is not itself a separate legal entity in any jurisdiction.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	How our audit addressed this matter
Going Concern *Refer to note 1 in the financial statements*	
As disclosed in the financial statements, the Group incurred a loss of $5,784,297 and had net cash outflows from operating activities of $5,256,758 for the year ended 30 June 2026. As at that date, the Group had net current assets of $410,810 including cash and cash equivalents of $739,459. The directors have prepared the financial report on the going concern basis. The directors' assessment of the Group's ability to continue as a going concern is based on a cash flow budget which includes future capital raisings. We determined this assessment of going concern to be a key audit matter due to the significant judgements involved in preparing the cash flow budget, and the potential material impact of the results of management's assessment.	Our audit procedures included: • Assessing the directors' reasons as to why they believe it is appropriate to prepare the financial report on a going concern basis; • Reviewing the current financial position of the Group; • Assessing the appropriateness and mathematical accuracy of the cash flow budget prepared by management; • Challenging the reasonableness of key assumptions used, including the likelihood of future capital raisings; • Performing sensitivity testing on these assumptions; and • Assessing the going concern disclosures in the financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2026 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

For personal use only

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

a. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and

b. the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and

for such internal control as the directors determine is necessary to enable the preparation of:

i. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and

ii. the consolidated entity disclosure statement that is true and correct and is free from misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf. This description forms part of our auditor's report.

REPORT ON THE AUDIT OF THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of Krakatoa Resources Limited, for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
