The Directors of Odyssey Gold Limited present their report on the Group consisting of Odyssey Gold Limited ("Company" or "Odyssey" or "Parent Entity") and the entities it controlled at the end of, or during, the year ended 30 June 2026 ("Group").

OPERATING AND FINANCIAL REVIEW

Odyssey is a Western Australian gold explorer and developer in the prolific Murchison Goldfields, which is host to a +35 million ounces ("Moz") gold endowment (historic production plus current resources) with over 10Mtpa of processing capacity within 250km. Odyssey holds an 80% interest in the Tuckanarra Gold Project ("Tuckanarra" or the "Project"), which comprises 80% of the Tuckanarra gold project and 80% of the Stakewell gold project. The Project currently has a Mineral Resource of 6.3Mt @ 2.2g/t for 451,000oz of contained gold.

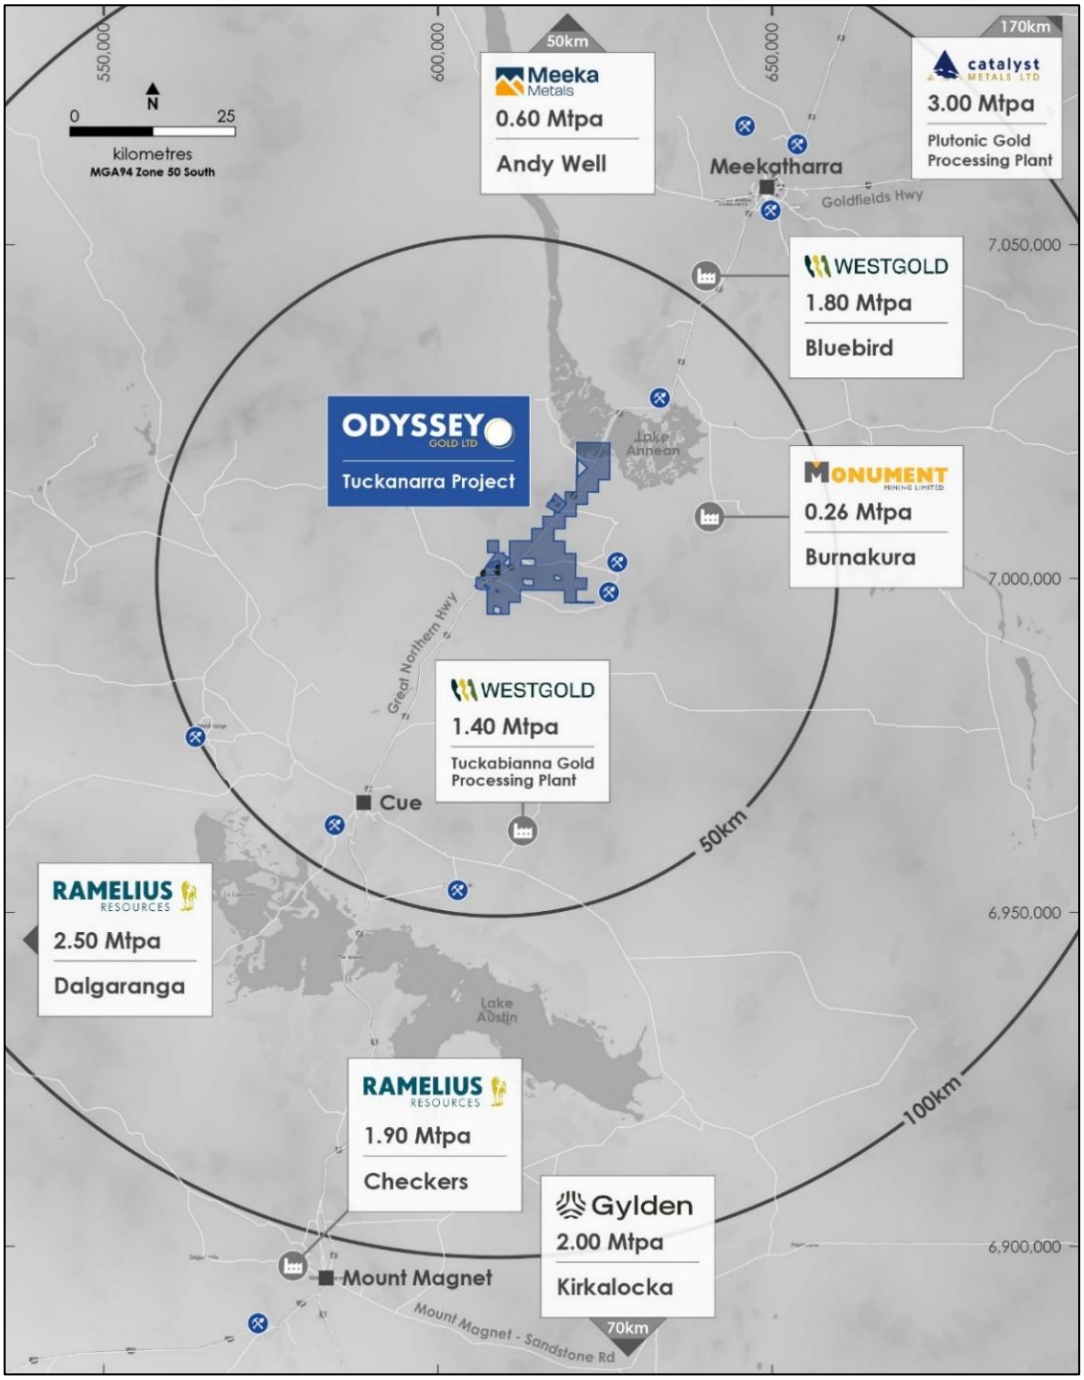

***Figure 1**. Odyssey's tenure located in the heart of the Murchison Gold District surrounded by over 10Mtpa of active and potential processing capacity within 250km.*

OPERATING AND FINANCIAL REVIEW (continued)

Highlights

Highlights during and since the end of the financial year include:

- Completed a Stage 1 Scoping Study which confirmed Tuckanarra as an outstanding gold project, with Stage 1 gold production of approximately 79,000oz of recovered gold over approximately 29 months of mining from the Cable Pit, based on a toll treatment scenario, with operating cash costs of A$3,400/oz (pre-tax), initial capital costs of approximately A$7 million, and net pre-tax cashflows of approximately A$180 million, assuming a gold price of A$6,000/oz.

- Entered a Toll Milling Agreement ("TMA") with Gylden Resources Pty Ltd ("Gylden") for toll milling services of up to 750,000 tonnes from Tuckanarra at Gylden's Kirkalocka Processing Plant ("Kirkalocka Plant"), with an option for a 12-month extension.

- Completed an updated Mineral Resource Estimate ("MRE") for the Cable Deposit to support the Stage 1 Scoping Study. The Cable MRE comprises Indicated and Inferred Resources of 2.75Mt @ 1.8g/t Au for 158,000oz of gold and Tuckanarra's total project MRE now totals 6.3Mt @ 2.2g/t Au for 451,000oz of gold.

- Commenced a Stage 2 Scoping Study to address the longer-term potential from the total Tuckanarra Mineral Resource of 451,000oz, including an on-site treatment scenario. Stage 1 utilises only 19% of the total Mineral Resource, highlighting substantial potential for subsequent development stages.

- Completed 273 reverse circulation ("RC") and diamond exploration, resource extension and feasibility drillholes totalling 24,262m.

- Highlight drilling results from Cable and Bollard during and since the end of the financial year include:
    - **22.3m @ 7.4g/t Au** from 8.7m
    - **20m @ 7.1g/t Au** from 47m
    - **5m @ 15.6g/t Au** from 136m including **2m @ 36.2g/t Au**
    - **18m @ 4.3g/t Au** from 7m
    - **5m @ 14.0g/t Au** from 132m including **2m @ 32.7g/t Au**
    - **5m @ 16.1g/t Au** from 30m
    - **6m @ 6.8g/t Au** from 99m

- Highlight drilling results from Highway during the financial year include:
    - **19m @ 13.7g/t Au** from 61m
    - **14m @ 13.6g/t Au** from 158m
    - **7m @ 16.5g/t Au** from 170m and **3m @ 5.9g/t Au**
    - **26m @ 2.3g/t Au** from 42m
    - **13m @ 3.3g/t Au** from 23m
    - **7m @ 7.7g/t Au** from 97m

- Drilling outside the principal Cable–Bollard–Highway deposits continued to demonstrate broader exploration upside, including a new high-grade discovery at Shackle, with first-pass drilling returning **3m @ 16.1g/t Au** from 55m and **4m @ 5.3g/t Au** from 31m. All three initial RC holes intersected mineralisation, with the structure remaining open along strike and down dip.

- Completed a placement to institutional and sophisticated investors at an issue price of $0.031 per share, to raise gross proceeds of $9.0 million.

The Company remains in a strong position to build shareholder value by advancing Tuckanarra toward development while continuing to evaluate opportunities to grow the existing Mineral Resources through near-resource and broader project-scale exploration.

For personal use only

For personal use only

Mineral Resources

The Project currently has a Mineral Resource Estimate ("MRE") of 6.3 million tonnes ("Mt") @ 2.2g/t gold ("Au") for 451,000 ounces ("oz") of contained gold.

Tuckanarra is part of the prolific Murchison Goldfields, which is host to a +35Moz gold endowment (historic production plus current resources). The Project straddles the Great Northern Highway approximately 40km north of Cue and 680km north northeast of Perth.

Shallow, open pit, oxide gold deposits with a grade of more than 2g/t Au are increasingly rare assets in the West Australian goldfields. Importantly, approximately 5.4Mt @ 2.1g/t Au for 354koz of gold is located on existing Mining Leases and all are within 2km of the Highway.

There is a nominal processing capacity of over 10Mtpa within 250km of the Project (Figure 1), largely accessible by sealed roads.

Five shallow oxide pits were mined at Tuckanarra in the 1990's producing ~101koz at an average grade of 3.9g/t Au. Additionally, ~16koz were produced at an average grade of 12g/t Au from the only modern underground mine on the Project. Previous resource development and open pit mining was focused on laterite and oxide mineralisation due to low gold prices. Odyssey has recognised the potential for significant strike and plunge extensions to the mineralisation.

After the end of the financial year, the Company announced an updated MRE for the Cable Deposit. The updated Cable MRE totals 2.75Mt at 1.8g/t Au for a total 158,000oz Au. The Cable MRE is reported above 0.5g/t Au cut-off grade less than ~180m below surface (300mRL). The MRE includes Indicated and Inferred categories.

The updated Cable MRE provides a strong technical foundation for the continued advancement of the Tuckanarra Gold Project.

Importantly, the current MRE occupies only a small portion of Odyssey's highly prospective 160km² Tuckanarra tenure package. A broader project-wide exploration strategy is being developed to systematically test priority targets and evaluate the growth potential of the project.

Table 1. *Tuckanarra Project Mineral Resources (as at July 2026)*

Type	Category	Tonnes (Mt)	Grade (g/t Au)	Ounces (koz Au)
Open Pit	Inferred	3.9	2.0	256
Open Pit	Indicated	2.1	1.8	120
Total Open Pit		5.9	2.0	377
Underground	Inferred	0.4	6.1	74
Total		**6.3**	**2.2**	**451**

Note: Totals may not add up due to rounding. Open pit resources are reported above 0.5-0.9g/t Au cut-off for material less than 140-180m below surface, except the Highway Zone which is reported above 0.9g/t Au cut-off for oxide and transitional material. Underground resources are reported above 2.0g/t Au cut-off for material more than 180m below surface or fresh rock. Resources are reported on a 100% project basis.

OPERATING AND FINANCIAL REVIEW (continued)

Mining Studies

After the end of the financial year, the Company announced the results of its Stage 1 Scoping Study for Tuckanarra. The Stage 1 Scoping Study demonstrates the technical and economic viability of mining the Stage 1 Cable Pit for toll treatment at a nearby processing plant.

The Stage 1 Scoping Study confirms Tuckanarra as an outstanding gold project, with Stage 1 gold production of approximately 79,000oz of recovered gold over approximately 29 months of mining from the Cable Pit, with operating cash costs of A$3,400/oz (pre-tax), initial capital costs of approximately A$7 million, and net pre-tax cashflows of approximately A$180 million, assuming a gold price of A$6,000/oz.

This Stage 1 Scoping Study was undertaken by experienced mining engineering and project management consultants, Goldfields Technical Services Pty Ltd ("GTS"). The Stage 1 Scoping Study focused on assessing the technical and economic viability of developing Stage 1 of the Cable Pit as an open-pit mining operation and incorporated guidance from the Company and input from other experts where appropriate.

Stage 1 will encompass a substantial cutback around the existing open pit at Cable, producing 1.35Mt of mill feed. The Stage 1 Scoping Study assumes that the mill feed will then be hauled 195km on the Great Northern Highway for processing at the Kirkalocka Plant (or another nearby processing plant).

The Company has a binding, but conditional, TMA with Gylden Resources Pty Ltd, to provide toll milling services for a minimum of 600,000 tonnes and up to 750,000 tonnes at the Kirkalocka Plant, commencing in Q2 2027, with a competitive fixed toll milling fee (refer ASX announcement dated 20 May 2026). The Kirkalocka Plant is a large carbon-in-leach ("CIL") gold processing facility.

Gold production is estimated to be approximately 79,000oz from Stage 1 based on a metallurgical recovery of 95%, and is estimated to generate total pre-tax cashflows of approximately A$180m at an assumed gold price of A$6,000/oz.

The Cable deposit is on existing Mining Lease M20/527 with an existing approved Mining Proposal. As Stage 1 proceeds, the mining schedule will exceed the limits of the current Mining Proposal and a new Mining Development and Closure Plan will be lodged.

A new Mining Lease M20/572 has been granted covering the remainder of the Highway deposit and potential sites for mining related infrastructure.

Odyssey has received the Native Vegetation Clearing Permit for mining on Mining Lease M20/527, allowing the commencement of mining within the existing approved Mining Proposal.

Based on capital and operating cost estimates, the Study demonstrates that the Stage 1 Project has the capacity to deliver robust returns at the Scoping Study base case price assumption of A$6,000/oz.

A Stage 1 Feasibility Study on the Project is currently underway for the initial mining of shallow predominantly oxide Mineral Resources on the Cable and Bollard Pits.

In parallel, the Company has also commenced a Stage 2 Scoping Study to address the longer-term potential from the total Tuckanarra Mineral Resource of 451,000oz, including an on-site treatment scenario. The Stage 1 Scoping Study utilised only 19% of the total Mineral Resource, highlighting substantial potential for subsequent development stages.

Kirkalocka Toll Milling Agreement

During the financial year, the Company entered a Toll Milling Agreement ("TMA") with Gylden Resources Pty Ltd ("Gylden"), which covers milling of a minimum of 600,000 tonnes and up to 750,000 tonnes at Gylden's Kirkalocka Processing Plant ("Kirkalocka Plant") (see ASX announcement dated 20 May 2026).

Gylden has advised that it is in the process of re-commissioning the Kirkalocka Plant which currently has a nameplate capacity of 2.1 million tonnes per annum ("Mtpa"), with initial processing scheduled to commence in Q2 2027.

The Kirkalocka Plant is located adjacent to the Great Northern Highway, 195km south of Tuckanarra. The Kirkalocka Plant last operated in 2022 and has been on care and maintenance since. Gylden has advised that it plans to refurbish and re-commission the Kirkalocka Plant, to allow the carbon-in-leach ("CIL") plant to handle a range of fresh and oxidised ores from the Kirkalocka Gold Project as well as regional projects.

The TMA is binding, but conditional upon a number of conditions precedent, including the commencement of commercial operations at the Kirkalocka Plant and Odyssey making a positive decision to mine its Tuckanarra Gold Project by 30 November 2026. The TMA specifies a minimum of 600,000 tonnes to be milled, with deliveries to commence Q2 2027. A non-binding side letter to the TMA provides for up to an additional 150,000 tonnes to be milled if milling capacity allows and is agreed by the parties.

Figure 2. *Kirkalocka Gold Processing Plant (operated by Gylden Resources Pty Ltd).*

OPERATING AND FINANCIAL REVIEW (continued)

Exploration

During the year, the Company completed 266 RC holes (23,472m) conducting resource extension and infill drilling. Additionally, 7 metallurgical and geotechnical diamond drillholes (790m) were drilled as part of scoping and feasibility studies.

The drilling results, in particular across the Cable, Bollard, and Highway deposits, significantly strengthen the confidence in the existing resource and further scale potential of the Tuckanarra Gold Project.

Infill drilling at the Highway Zone and Cable confirms strong structural and grade continuity across existing Inferred Mineral Resources. The intersections provide the technical confidence required to convert shallow resource material into the higher confidence Indicated category. Crucially, discovery of the new Cable West Hangingwall structure and additional parallel structures (such as Shackle and Argos) demonstrate that mineralisation extends outside current mineral resource models and scoping study pit designs, offering immediate potential to add low-cost, shallow ounces to future mine plans.

Odyssey is successfully de-risking the Project as it transitions from exploration and resource development toward development and formal study stages. The high-grade shallow continuity provides a strong foundation for an upcoming Stage 1 Feasibility Study and ongoing mining technical studies aimed at evaluating open-pit and underground production scenarios. The successful targeting of multiple mineralised structures along the 1km+ Trilby-Anchor trend and continued resource extensions at Cable-Bollard-Highway position Odyssey to continue to expand its total resource base while establishing a viable path toward project development.

Cable Deposit

Cable is the largest Mineral Resource at Tuckanarra and the focus of the proposed Stage 1 development. The updated July 2026 Mineral Resource comprises **2.75Mt @ 1.8g/t Au for 158koz**, including approximately 60% of the resource in the Indicated category. The updated estimate incorporated drilling completed during 2025 and provides the resource base for the Stage 1 mine design and ongoing feasibility work.

Resource definition and extensional drilling during FY2026 continued to demonstrate strong continuity of mineralisation within and around the Cable resource. Significant results included **5m @ 15.6g/t Au** from 136m including **2m @ 36.2g/t Au** (CBRC0323), **7m @ 4.6g/t Au** from 60m including **2m @ 11.4g/t Au** (CBRC0309), **2m @ 20.8g/t Au** from 21m (CBRC0329), **5m @ 16.1g/t Au** from 30m, and **9m @ 6.8g/t Au** from 99m (CBRC0451) and a series of broader mineralised intersections between approximately 2–3g/t Au.

Importantly, drilling has also highlighted the broader potential around Cable. Mineralisation occurs within a wider structural corridor containing multiple parallel and sub-parallel positions, including Cable West, Shackle and the historic Trilby workings. Recent drilling west of the main Cable resource increasingly indicates that this area comprises multiple mineralised lodes rather than a single discrete structure. These positions provide opportunities for additional Mineral Resource growth immediately adjacent to the proposed mining operation and are being incorporated into updated geological models and future drill targeting.

Bollard Deposit

Bollard lies immediately south of Cable within the approximately 2.3km-long Cable–Bollard–Highway mineralised corridor. The deposit has an Indicated and Inferred Mineral Resource of 0.68Mt @ 2.1g/t Au for 46koz and was previously mined by shallow open pit methods in 1992–93. Mineralisation comprises both shallow laterite/supergene gold and steeply dipping primary mineralisation, including higher-grade shoots developed within the folded and structurally disrupted mafic–BIF sequence.

Drilling during FY2026 and immediately following year-end substantially improved the geological understanding of these higher-grade shoots. Initial results included **6m @ 9.56g/t Au** from 96m including **1m @ 40.87g/t Au** (CBRC0355) and **5m @ 14.04g/t Au** from 132m (CBRC0371). These holes targeted interpreted plunge extensions using geological modelling supported by ground EM surveys and confirmed high-grade mineralisation beyond the shallow historical pit and current resource envelope.

Subsequent results included **15m @ 3.9g/t Au** from 102m (CBRC0363), **6m @ 3.4g/t Au** from 77m (CBRC0353), **9m @ 2.9g/t Au** from 35m (CBRC0367) and **8m @ 2.4g/t Au** from 126m (CBRC0369). Together with CBRC0371, drilling has demonstrated continuity of the high-grade system over approximately 140m of strike, while the shoot remains open along strike and down dip.

For personal use only

For personal use only

Bollard Deposit (continued)

The Bollard results are important beyond the deposit itself because they support Odyssey's developing exploration model in which high-grade shoots are spatially associated with favourable structural positions and pyrrhotite-bearing iron-rich units that can, in some areas, be mapped using electromagnetic geophysics (EM). This provides a repeatable exploration concept for testing the incompletely drilled areas between Cable, Bollard and Highway and elsewhere across Tuckanarra.

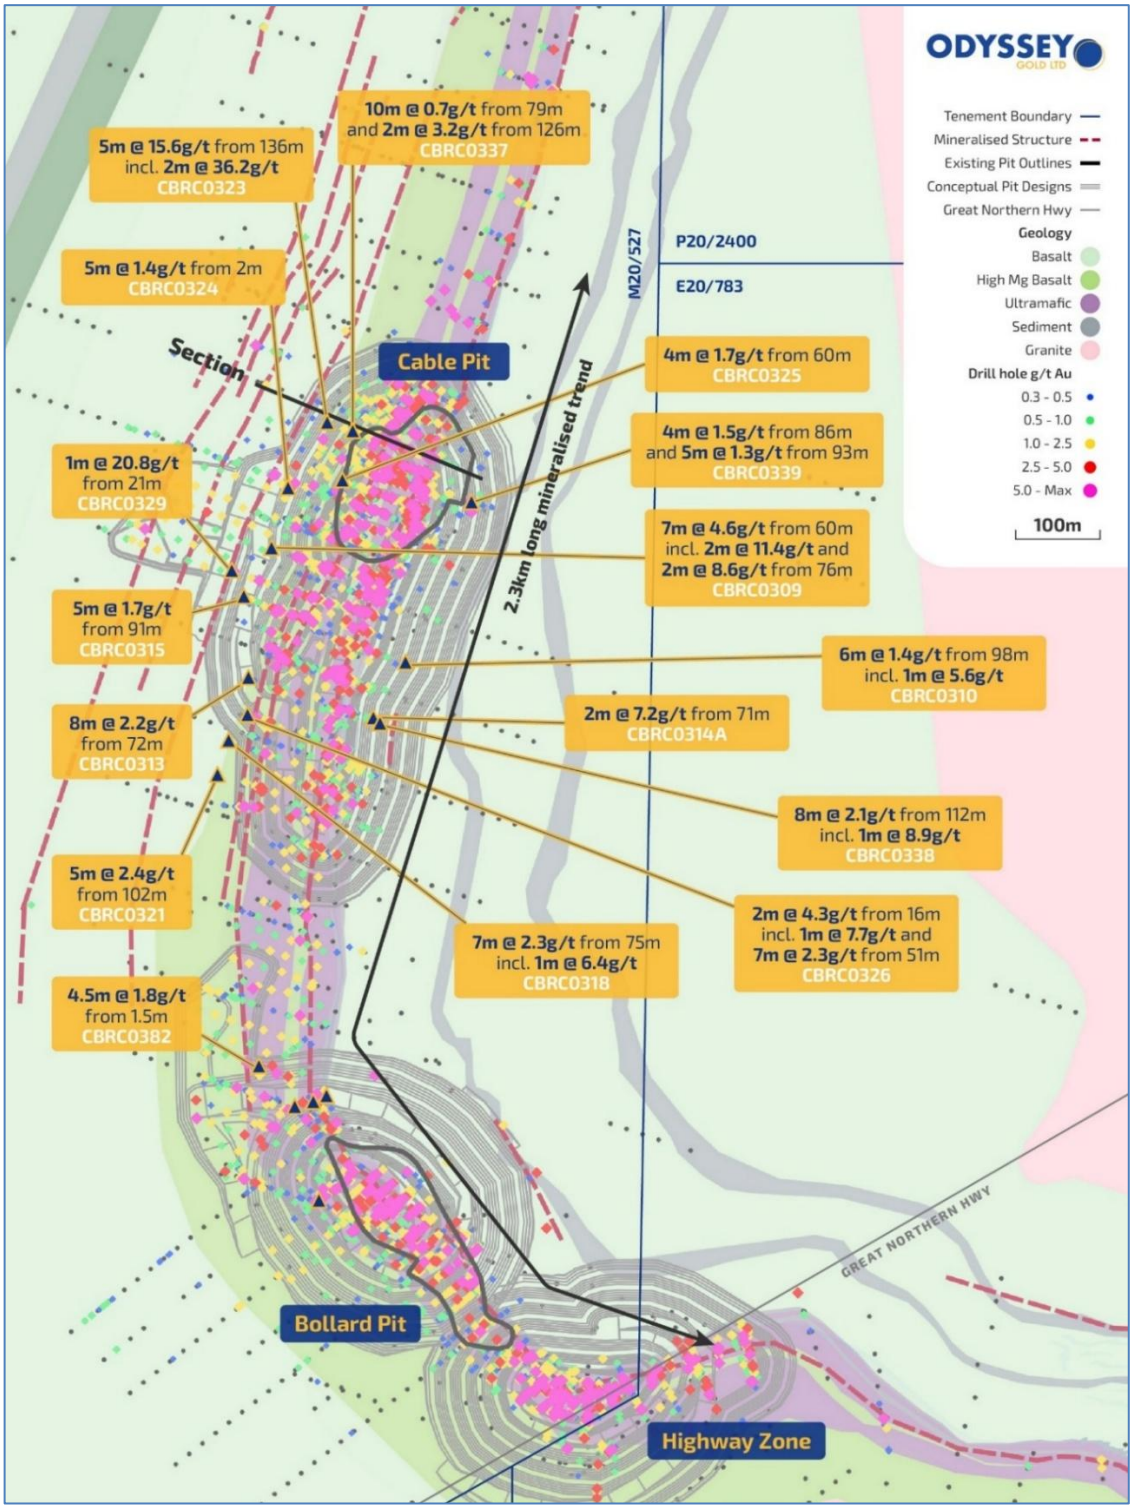

Figure 3. *Illustrates the 2.3km-long Cable-Bollard-Highway mineralised corridor. Multiple mineralised structures remain only partially tested and provide clear opportunities for future resource growth.*

OPERATING AND FINANCIAL REVIEW (continued)

Bollard Deposit (continued)

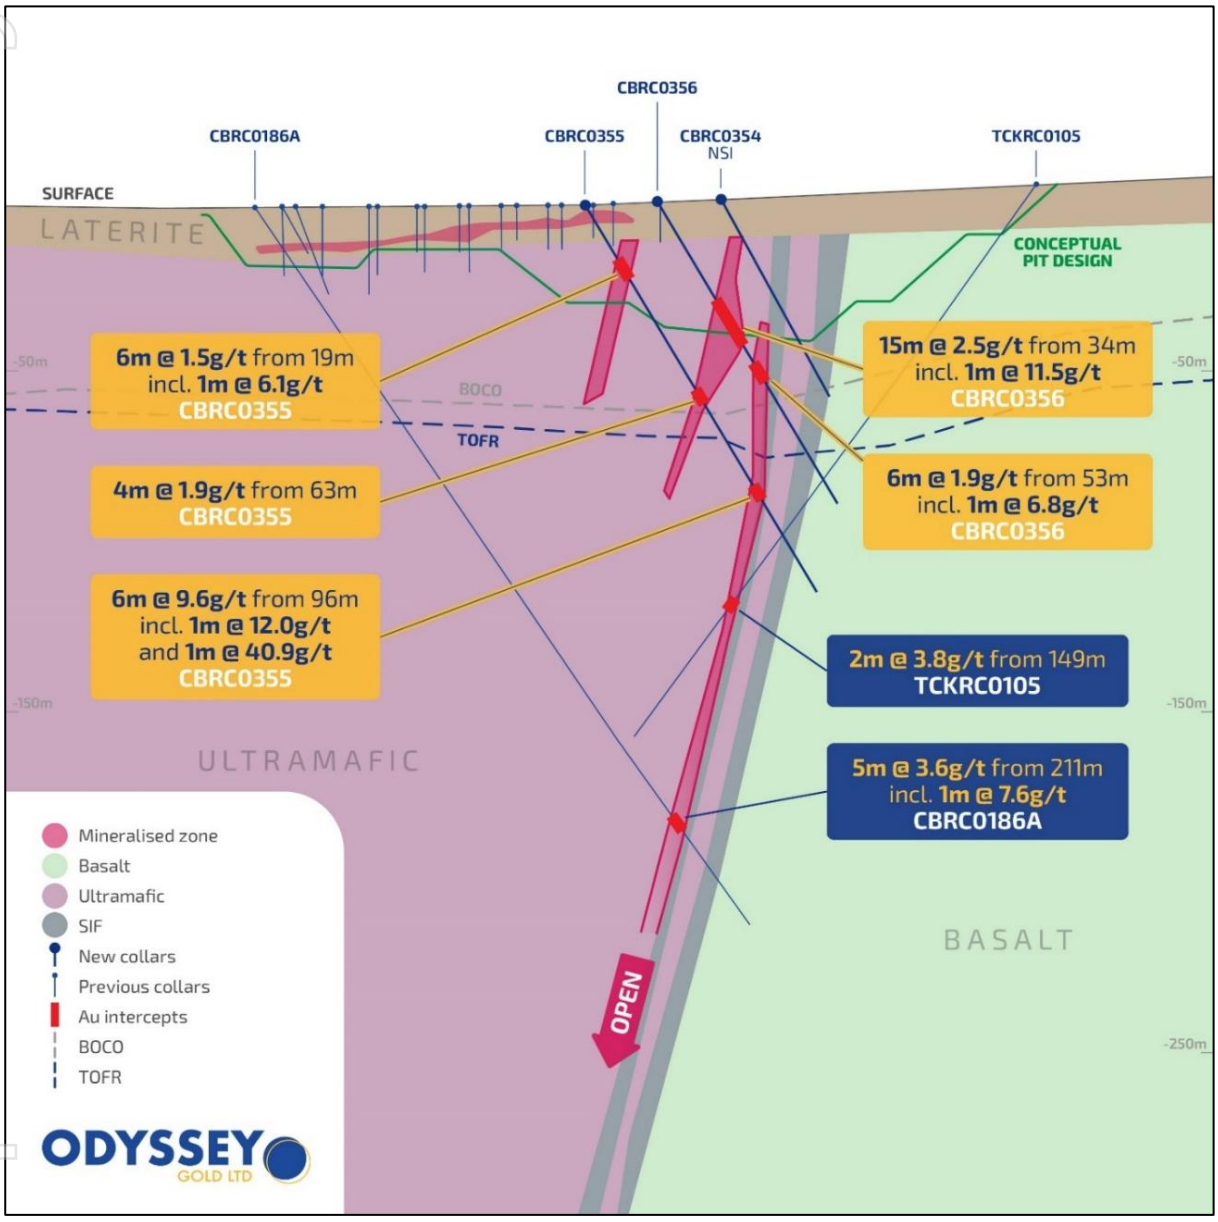

Figure 4. *Cross section through Bollard drill holes CBRC0355, CBRC0356 and previous Odyssey drilling, showing multiple stacked lodes.*

Highway Deposit

Highway is the highest-grade substantial Mineral Resource at Tuckanarra, comprising 0.79Mt @ 3.8g/t Au for 97koz, including an open-pit Inferred Resource of 32koz and an underground Inferred Resource of 65koz @ 5.8g/t Au. Unlike Cable and Bollard, Highway has not been historically mined, leaving the primary mineralised system in situ.

Drilling during FY2026 continued to demonstrate the exceptional grade and underground potential of the deposit. Significant intersections included **19m @ 13.7g/t Au** from 61m, **14m @ 13.6g/t Au** from 158m, **7m @ 16.5g/t Au** from 170m, **26m @ 2.3g/t Au** from 42m, **13m @ 3.3g/t Au** from 23m and **7m @ 7.7g/t Au** from 97m. These results reinforce the continuity of a substantial high-grade shoot and demonstrate potential for further extensions beyond the existing Mineral Resource.

For personal use only

For personal use only

Highway Deposit (continued)

Highway represents both an open-pit and underground development opportunity. The Great Northern Highway presently traverses the deposit, and the Stage 2 Scoping Study is evaluating both underground extraction and the potential realignment of the road to facilitate open-pit development. A preliminary road realignment study estimated a cost of approximately **$5.2 million**. Further drilling and geological modelling will focus on defining the geometry and extent of the high-grade system and evaluating the most appropriate development configuration.

Other Deposits

In addition to Cable, Bollard and Highway, Tuckanarra contains Mineral Resources at **Bottle Dump, Maybelle, Kohinoor, Lucknow and Anchor**, together with numerous historical workings and exploration prospects such as Shackle. Collectively these deposits provide substantial potential to extend the mine life beyond the initial Cable development.

Resource definition drilling completed during and after FY2026 has further demonstrated this broader opportunity. At **Anchor**, drilling beneath historical high-grade workings returned **2m @ 29.1g/t Au** from 81m, **4m @ 5.9g/t Au** from 30m, and **3m @ 8.6g/t Au** from 51m including **1m @ 24.6g/t Au**. At **Maybelle**, shallow and deeper drilling included **9m @ 3.6g/t Au** from 24m, **6m @ 3.6g/t Au** from 68m and **3m @ 4.6g/t Au** from 104m. At **Lucknow**, drilling returned **7m @ 2.6g/t Au** from 57m, **8m @ 1.8g/t Au** from 174m and **9m @ 1.4g/t Au** from 101m. These programs were principally designed to increase confidence in existing resources for in-progress updated MREs and mining studies, while several deeper intersections also highlight potential below the currently contemplated open pits.

Exploration during 2026 also delivered a new high-grade discovery at **Shackle**, approximately 500m northwest of Cable. First-pass RC drilling beneath shallow historical workings returned **3m @ 16.1g/t Au** from 55m, **4m @ 5.3g/t Au** from 31m and **3m @ 1.7g/t Au** from 44m. All three initial holes intersected mineralisation and the structure remains open along strike and down dip. The result demonstrates the potential to generate additional shallow, high-grade discoveries by systematically testing historical workings and mineralised structures outside the existing Mineral Resources.

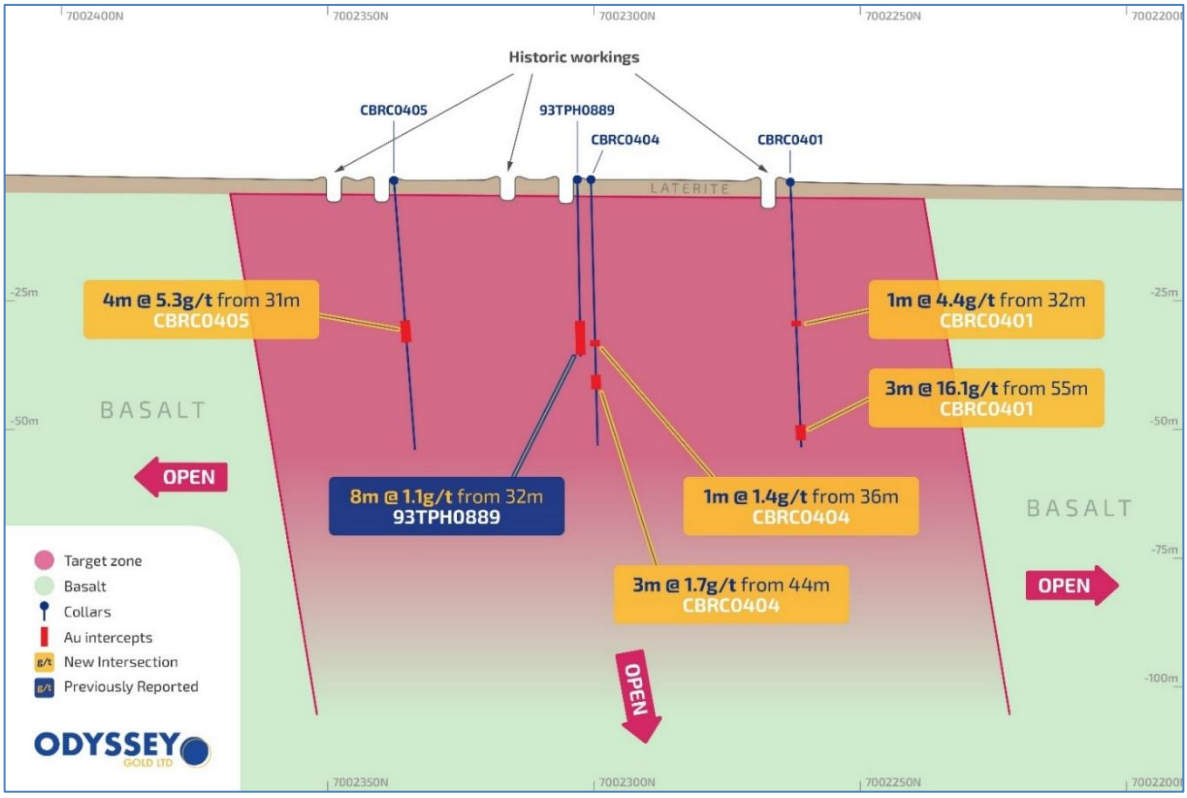

Figure 5. *Long section through the Shackle Prospect showing historical workings, historical RAB hole 93TPH0889 and recent RC drilling, which confirms a new high-grade shoot beneath historical mining.*

OPERATING AND FINANCIAL REVIEW (continued)

Corporate

During the financial year, the Company completed a placement of 291,727,557 new ordinary shares in the Company to institutional and sophisticated investors at an issue price of $0.031 per share, to raise gross proceeds of $9.0 million.

Tenements

As at 30 June 2026, the Company holds an interest in the following mining and exploration tenements:

Project Name	Permit Number	Percentage Interest	Status
Tuckanarra Gold Project, Western Australia	M20/527	80%	Granted
	M20/567	80%	Granted
	E20/782	80%	Granted
	E20/783	80%	Granted
	P20/2399	80%	Granted
	P20/2400	80%	Granted
	P20/2415	80%	Granted
	P20/2416	80%	Granted
	P20/2417	80%	Granted
	P20/2418	80%	Granted
	E20/924	100%	Granted
	E20/925	100%	Granted
	E20/996	100%	Granted
	E20/1107	100%	Application
	M20/572	80%	Application
Stakewell Gold Project, Western Australia	E51/1806	80%	Granted
	L51/27	80%	Granted
	L51/28	80%	Granted
	L51/32	80%	Granted
	P51/2869	80%	Granted
	P51/2870	80%	Granted
	M51/908	80%	Granted

After year end, Mining Lease M20/572 was granted on 14 August 2026. As a result, P20/2399 and P20/2400 have expired.

Results of Operations

The net loss of the Group for the year ended 30 June 2026 was $8,157,219 (2025: $2,322,397). This loss is largely comprised of exploration and evaluation expenditures of $7,407,279 (2025: $1,801,489) which is attributable to the Group's accounting policy of expensing exploration and evaluation expenditure (other than expenditures incurred in the acquisition of the rights to explore) incurred by the Group.

Financial Position

The Group had cash reserves of $5,770,817 at 30 June 2026 (2025: $4,217,884) and no debt. At 30 June 2026, the Group had net assets of $13,345,113 (2025: $12,861,914), an increase of 4% compared with the previous year. As at 30 June 2026, the Company had a net current asset surplus of $4,419,016 (2025: $3,909,427).

Environmental Regulation and Performance

The Group's operations are subject to various environmental laws and regulations under the relevant government's legislation. Full compliance with these laws and regulations is regarded as a minimum standard for all operations to achieve. Instances of environmental non-compliance by an operation are identified either by external compliance audits or inspections by relevant government authorities. There have been no significant known breaches by the Group during the financial year.

Principal Activities

The principal activities of the Group during the year consisted of the exploration and development of mineral resource projects in Western Australia.

For personal use only

For personal use only

Business Strategies and Prospects for Future Financial Years

The objective of the Group is to create long-term shareholder value through the acquisition and development of technically and economically viable mineral deposits.

To date, the Group has not commenced production of any minerals. To achieve its objective, the Group currently intends to advance Stage 1 toward a development decision; complete feasibility and Stage 2 studies; update MREs from the 2026 drilling; and systematically test near-resource and project-scale exploration targets identified at the Tuckanarra Gold Project.

These activities are inherently risky and the Board is unable to provide certainty of the expected results of these activities, or that any or all of these likely developments will be achieved.

The material business risks faced by the Group that could have an effect on the Group's future prospects, and how the Group manages these risks include:

- **Development Risk -** The exploration for, and development of, mineral deposits involves a high degree of risk. Few properties which are explored are ultimately developed into producing mines. To mitigate this risk, the Group will undertake systematic and staged exploration and testing programs on its mineral properties and, subject to the results of these exploration programs, the Group will then progressively undertake a number of technical and economic studies with respect to its projects prior to making a decision to mine. However, there can be no guarantee that any other studies will confirm the technical and economic viability of the Group's mineral properties or that the properties will be successfully brought into production;

- **Operational Risk -** The potential commissioning, ramp-up and production at Tuckanarra are subject to operating risks that could impact the amount and quality of gold produced or increase the cost of production. This could lead to delays in the proposed development of the Project or hinder the Company's ability to obtain financing in the future, which may have a material adverse effect on the Company's operations, financial performance and value of its shares. Further, the Company would also be required to seek alternative offtake agreements and there can be no assurance that suitable counterparties will be identified, or that binding offtake agreements for all products from the Project will be concluded on commercially favourable terms;

- **Capital and funding risk** – the exploration and any development of the Group's exploration properties will require substantial additional financing. Failure to obtain sufficient financing may result in delaying, or the indefinite postponement of, exploration and any development of the Group's properties or even a loss of property interest. There can be no assurance that additional capital or other types of financing will be available if needed or that, if available, the terms of such financing will be favourable to the Group;

- **Commodity price risk** – the price of commodities fluctuate widely and are affected by numerous factors beyond the control of the Group. Future production, if any, from the Group's mineral properties will be dependent upon the price of commodities being adequate to make these properties economic. The Group currently does not engage in any hedging or derivative transactions to manage commodity price risk. As the Group's operations change, this policy will be reviewed periodically going forward; and

- **Global financial conditions risk** – many industries, including the mineral resource industry, are impacted by these market conditions. Some of the key impacts include contraction in credit markets resulting in a widening of credit risk, devaluations and high volatility in global equity, commodity, foreign exchange and precious metal markets, and a lack of market liquidity. Due to the current nature of the Group's activities, a slowdown in the financial markets or other economic conditions may adversely affect the Group's growth and ability to finance its activities.

DIRECTORS' REPORT
(Continued)

DIRECTORS

The names of directors in office at any time during the financial year or since the end of the financial year are:

Current Directors

Mr Ian Middlemas	Chairman
Mr Matthew Syme	Executive Director
Mr Levi Mochkin	Non-Executive Director (*formerly Executive Director until 30 April 2026*)
Mr Matthew Briggs	Non-Executive Director
Mr Robert Behets	Non-Executive Director

Unless otherwise disclosed, the Directors held their office from 1 July 2025 until the date of this report.

DIRECTORS AND OFFICERS

Ian Middlemas
Chairman
Qualifications – B.Com, CA

Mr Middlemas is a Chartered Accountant and holds a Bachelor of Commerce degree. He worked for a large international Chartered Accounting firm before joining the Normandy Mining Group where he was a senior group executive for approximately 10 years. He has extensive corporate and management experience and is currently a director of a number of publicly listed companies in the resources sector.

Mr Middlemas was appointed a Director of the Company on 8 September 2005. During the three-year period to the end of the financial year, Mr Middlemas has held directorships in GBM Resources Limited (June 2025 – present), NGX Limited (April 2021 – present), Constellation Resources Limited (November 2017 – present), Apollo Minerals Limited (July 2016 – present), Berkeley Energia Limited (April 2012 – present), GreenX Mining Limited (August 2011 – present), Salt Lake Potash Limited (Receivers and Managers Appointed) (January 2010 – present), Equatorial Resources Limited (November 2009 – present), Sovereign Metals Limited (July 2006 – present) and Terra Metals Limited (October 2013 – June 2026).

Matthew Syme
Executive Director
Qualifications – B.Com, CA

Mr Syme is a Chartered Accountant and an accomplished mining executive with over 30 years' experience in senior management roles in Australia and overseas. He was a Manager in a major international Chartered Accounting firm before spending three years as an equities analyst in a large stockbroking firm. Mr Syme has considerable experience in managing mining projects in a wide range of commodities and countries. He has been Managing Director or Chief Executive Officer of several ASX-listed companies, including Berkeley Resources Limited, Sovereign Metals Limited, NGX Limited, and Sierra Mining Limited.

Mr Syme was appointed a Director of the Company on 28 August 2020. During the three-year period to the end of the financial year, Mr Syme has held directorships in NGX Limited (February 2023 – present).

Mr Levi Mochkin
Non-Executive Director ***(formerly Executive Director to 30 April 2026)***

Mr Mochkin is a key member of the Ledger Holdings Pty Ltd Group (the Ledger Group), located in Melbourne, Australia and has been in the resources sector for over 28 years advising companies, identifying projects and raising capital of over A$800 million for mining projects.

Mr Mochkin was appointed a Director on 31 August 2020. During the three-year period to the end of the financial year, Mr Mochkin has not held any other directorships.

Matthew Briggs
Non-Executive Director
Qualifications – BSc Hons (Geology), MAusIMM

Mr Briggs is an expert and experienced professional exploration geologist with an ideal background in gold exploration and mining in Australia, most recently as Managing Director of Tanami gold explorer, Prodigy Gold NL. He completed an Honours degree in Geology at the University of Queensland and embarked on a 25-year career in gold exploration, starting as an exploration geologist at Central Norseman Gold, then rising to Exploration Manager at St Ives Gold and eventually becoming Vice President and Group Head of Strategic Planning at Gold Fields. He became Managing Director of Prodigy Gold's predecessor, ABM Resources Ltd, in 2016. Mr Briggs is a councillor of the Association of Mining and Exploration Companies.

Mr Briggs was appointed a Director of the Company on 17 January 2022. During the three-year period to the end of the financial year, Mr Briggs held no other directorships.

For personal use only

Mr Robert Behets

Non-Executive Director

Qualifications – B.Sc(Hons), FAusIMM, MAIG

Mr Behets is a geologist with 35 years' experience in the mineral exploration and mining industry in Australia and internationally. He has had extensive corporate and management experience and has been Director of a number of ASX-listed companies in the resources sector including Mantra Resources Limited ("Mantra"), Papillon Resources Limited, and Berkeley Energia Limited. Mr Behets was instrumental in the founding, growth and development of Mantra, an African-focussed uranium company, through to its acquisition by ARMZ for approximately A$1 billion in 2011. Prior to Mantra, he held various senior management positions during a long career with WMC Resources Limited. Mr Behets has a strong combination of technical, commercial and managerial skills and extensive experience in exploration, mineral resource and ore reserve estimation, feasibility studies and operations across a range of commodities, including uranium, gold and base metals. He is a Fellow of The Australasian Institute of Mining and Metallurgy, a Member of the Australian Institute of Geoscientists and was previously a member of the Australasian Joint Ore Reserves Committee ("JORC").

Mr Behets was appointed a Director of the Company on 28 August 2020. During the three-year period to the end of the financial year, Mr Behets has held directorships in Apollo Minerals Limited (October 2016 – present), Constellation Resources Limited (June 2017 – present), Equatorial Resources Limited (February 2016 – present), GBM Resources Limited (June 2025 – present) and Berkeley Energia Limited (April 2012 - present).

Mr Gregory Swan

Company Secretary

Qualifications – BCom, CA, FCIS, FFin

Mr Swan is a Chartered Accountant with over 20 years' experience in the formation and development of publicly listed natural resources companies. He currently serves as Chief Financial Officer and/or Company Secretary for several listed companies that operate in the resources sector. He commenced his career at a large international Chartered Accounting firm and has since been involved with a number of mining exploration and development companies, including Piedmont Lithium Inc, IperionX Limited, Mantra Resources Limited, and Papillon Resources Limited.

Mr Swan was appointed Company Secretary of the Company on 4 November 2020.

SIGNIFICANT EVENTS AFTER BALANCE DATE

(a) On 7 July 2026, the Company announced an updated Mineral Resource Estimate for the Company's Cable Deposit within the Tuckanarra Project; and

(b) On 9 July 2026, the Company announced the results of the Stage 1 Scoping Study for its Tuckanarra Gold Project.

Other than the above, there are no matters or circumstances which have arisen since 30 June 2026 that have significantly affected or may significantly affect:

- the operations, in financial years subsequent to 30 June 2026, of the Group;
- the results of those operations, in financial years subsequent to 30 June 2026, of the Group; or
- the state of affairs, in financial years subsequent to 30 June 2026, of the Group.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes in the state of affairs of the Company during the financial year ended 30 June 2026.

SHARE OPTIONS, PERFORMANCE RIGHTS AND PERFORMANCE SHARES

At the date of this report the following securities have been issued over unissued Ordinary Shares of the Company:

- 121,111,104 listed options exercisable at $0.036 each on or before 10 September 2027;
- 8,150,000 unlisted options exercisable at $0.05, expiring 30 June 2029;
- 8,150,000 unlisted options exercisable at $0.07, expiring 30 June 2029;
- 8,150,000 unlisted options exercisable at $0.09, expiring 30 June 2029; and
- 8,150,000 performance rights that vest upon the company achieving the ''Decision to Mine Milestone'', expiring 30 June 2029.

During the year ended 30 June 2026 and up to the date of this report, no Ordinary Shares have been issued as a result of the exercise of options or conversion of performance rights.

INFORMATION ON DIRECTORS' INTERESTS IN SECURITIES OF ODYSSEY

The following table sets out each Director's relevant interest in securities of the Company as at the date of this report:

	Interest in Securities at the date of this Report			
	Shares[1]	Unlisted Options[2]	Performance Rights[3]	Listed Options[4]
Mr Ian Middlemas	52,000,000	-	-	3,500,000
Mr Matthew Syme	19,000,000	9,000,000	3,000,000	1,250,000
Mr Levi Mochkin	50,156,897	1,500,000	500,000	3,000,000
Mr Matthew Briggs	1,500,000	4,500,000	1,500,000	100,000
Mr Robert Behets	7,481,250	1,500,000	500,000	600,000

Note:
[1] 'Shares' means fully paid ordinary shares in the capital of the Company.
[2] 'Unlisted Options' means a unlisted option to subscribe for one Share in the capital of the Company.
[3] 'Performance Rights' means an unlisted performance right which converts to one Share in the capital of the Company upon the satisfaction of certain performance milestones.
[4] 'Listed Options' means a listed option to subscribe for one Share in the capital of the Company.

MEETINGS OF DIRECTORS

The following table sets out the number of meetings of the Company's directors held during the year ended 30 June 2026, and the number of meetings attended by each director.

Current Directors	Board Meetings Number Eligible to Attend	Board Meetings Number Attended
Mr Ian Middlemas	2	2
Mr Matthew Briggs	2	2
Mr Matthew Syme	2	2
Mr Levi Mochkin	2	2
Mr Robert Behets	2	2

The Board currently does not have any committees, however this will be reviewed should the size and nature of the Company's activities change.

DIVIDENDS

No dividends have been declared, provided for or paid in respect of the year ended 30 June 2026 (2025: nil).

EARNINGS PER SHARE

	2026 Cents	2025 Cents
Basic and diluted loss per share	**(0.66)**	(0.26)

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a part for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

REMUNERATION REPORT – AUDITED

This Remuneration Report, which forms part of the Directors' Report, sets out information about the remuneration of Key Management Personnel ("KMP") of the Group.

Details of Key Management Personnel

The KMP of the Group during or since the end of the financial year were as follows:

Mr Ian Middlemas	Chairman
Mr Matthew Syme	Executive Director
Mr Levi Mochkin	Non-Executive Director (*formerly Executive Director until 30 April 2026*)
Mr Matthew Briggs	Non-Executive Director
Mr Robert Behets	Non-Executive Director

Unless otherwise disclosed, the KMP held their position from 1 July 2025 until the date of this report.

Remuneration Policy

The remuneration policy for the Group's KMP has been developed by the Board taking into account:

- the size of the Group;
- the size of the management team for the Group;
- the nature and stage of development of the Group's current operations; and
- market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

In addition to considering the above general factors, the Board has also placed emphasis on the following specific issues in determining the remuneration policy for KMP:

- the Group is currently focused on identifying new business projects, and undertaking exploration and development activities;
- risks associated with small cap resource companies whilst acquiring, exploring and developing projects; and
- other than profit which may be generated from asset sales, the Group does not expect to be undertaking profitable operations until sometime after the successful commercialisation, production and sales of commodities from one or more of its projects, or the acquisition of a profitable project.

Executive Remuneration

The Group's remuneration policy is to provide executives a fixed remuneration component and a performance based component (including incentive and/or performance based securities, see below). The Board believes that this remuneration policy is appropriate given the considerations discussed in the section above and is appropriate in aligning KMP objectives with shareholder and business objectives.

Fixed Remuneration

Fixed remuneration consists of base salary, as well as employer contributions to superannuation funds and other non-cash benefits.

Fixed remuneration is reviewed annually by the Board (if applicable). The process consists of a review of company and individual performance, relevant comparative remuneration externally and internally and, where appropriate, external advice on policies and practices.

Performance Based Remuneration – Short Term Incentive ("STI")

Some executives may be entitled to an annual cash bonus upon achieving various key performance indicators ("KPI's"), as set by the Board. Having regard to the current size, nature and opportunities of the Group, the Board has determined that these KPI's will include measures such as:

- successful exploration activities (e.g. completion of exploration programs within budgeted timeframes and costs);
- successful development activities (e.g. completion of technical studies);
- successful corporate activities (e.g. recruitment and management of key personnel and investor relations activities); and
- successful business development activities (e.g. corporate transactions and capital raisings).

REMUNERATION REPORT – AUDITED (Continued)

Executive Remuneration (continued)

These measures were chosen as the Board believes these represent the key drivers in the short and medium term success of the Group's development. On an annual basis, subsequent to year end, the Board assesses performance against each individual executive's KPI criteria and considers the position of the Group to be able to award STI cash bonuses.

During the 2026 financial year, no STI cash bonuses were awarded to KMP (2025: nil).

Performance Based Remuneration – Long Term Incentive Plan

The Group has a long-term equity incentive plan ("Incentive Plan") comprising the grant of Performance Rights and/or Incentive Options to reward KMP and key employees and contractors for long-term performance. To achieve its corporate objectives, the Group needs to attract, incentivise, and retain its key employees and contractors. The Board believes that grants of Performance Rights and/or Incentive Options to KMP will provide a useful tool to underpin the Group's employment and engagement strategy.

(i) Performance Rights

The Group has an Incentive Plan that provides for the issuance of unlisted performance share rights ("Performance Rights") which, upon satisfaction of the relevant performance conditions attached to the Performance Rights, will result in the issue of an Ordinary Share for each Performance Right. Performance Rights are issued for no consideration and no amount is payable upon conversion thereof.

The Incentive Plan enables the Group to: (a) recruit, incentivise and retain KMP and other key employees and contractors needed to achieve the Group's business objectives; (b) link the reward of key staff with the achievement of strategic goals and the long-term performance of the Group; (c) align the financial interest of participants of the Plan with those of Shareholders; and (d) provide incentives to participants of the Incentive Plan to focus on superior performance that creates Shareholder value.

Performance Rights granted under the Incentive Plan to eligible participants will be linked to the achievement by the Group of certain performance conditions as determined by the Board from time to time. These performance conditions must be satisfied in order for the Performance Rights to vest. Upon Performance Rights vesting, Ordinary Shares are automatically issued for no consideration. If a performance condition of a Performance Right is not achieved by the expiry date then the Performance Right will lapse.

During the financial year ended 30 June 2026, 5,500,000 Performance Rights were granted to KMP (2025: nil), 3,000,000 Performance Rights held by KMP lapsed (2025: 1,500,000) and no Performance Rights converted into ordinary shares (2025: nil). The performance rights granted to KMP during the year convert upon the Company achieving the ''Decision to Mine Milestone''.

(ii) Incentive Options

The Group has an Incentive Plan that provides for the issuance of unlisted incentive options ("Incentive Options") as part of remuneration and incentive arrangements in order to attract and retain services and to provide an incentive linked to the performance of the Group. The Board's policy is to grant Incentive Options to KMP with exercise prices at or above market share price (at the time of agreement). As such, the Incentive Options granted to KMP are generally only of benefit if the KMP performs to the level whereby the value of the Group increases sufficiently to warrant exercising the Incentive Options granted. Other than service-based vesting conditions (if any) and the exercise price required to exercise the Incentive Options, there are no additional performance criteria on the Incentive Options granted to KMP, as given the speculative nature of the Group's activities and the small management team responsible for its running, it is considered that the performance of the KMP and the performance and value of the Group are closely related. The Company's Securities Trading Policy prohibits KMP's from entering into arrangements to limit their exposure to Incentive Securities granted as part of their remuneration package.

During the financial year ended 30 June 2026, 16,500,000 Incentive Options were granted to KMP (2025: nil), no Incentive Options lapsed (2025: 2,000,000) and no Incentive Options were exercised (2025: nil) by KMP.

For personal use only

For personal use only

Remuneration Policy for Non-Executive Directors

The Board's policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. Given the current size, nature and risks of the Group, incentive securities have been used to attract and retain Non-Executive Directors. The Board determines payments to the Non-Executive Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required.

The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at a General Meeting. Total directors' fees paid to all non-executive directors are not to exceed $150,000 per annum. Director's fees paid to Non-Executive Directors accrue on a daily basis. Fees for Non-Executive Directors are not linked to the performance of the economic entity. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and Non-Executive Directors may in limited circumstances receive incentive securities in order to secure their services.

Fees for the Chairman are presently $50,000 per annum (2025: $36,000) and fees for other Non-Executive Directors are presently $30,000 (2025: $25,000). These fees cover main board activities only. Non-Executive Directors may receive additional remuneration for other services provided to the Group, including but not limited to, membership of committees.

Relationship between Remuneration of KMP and Shareholder Wealth

During the Group's project identification, acquisition, exploration and development phases of its business, the Board anticipates that the Group will retain earnings (if any) and other cash resources for the exploration and development of its resource projects. Accordingly the Group does not currently have a policy with respect to the payment of dividends and returns of capital. Therefore there is no relationship between the Board's policy for determining the nature and amount of remuneration of KMP and dividends paid and returns of capital by the Group during the current and previous four financial years.

The Board did not determine the nature and amount of remuneration of the KMP by reference to changes in the price at which shares in the Group traded between the beginning and end of the current financial year. Discretionary annual cash bonuses, when applicable, will be based on achieving various non-financial key performance indicators to be determined by the Board. However, as noted above, KMP's may receive Incentive Securities which generally will only be of value should the value of the Company's shares increase sufficiently to warrant exercising the Incentive Securities.

Relationship between Remuneration of KMP and Earnings

As discussed above, the Group is currently undertaking new project acquisition, exploration and development activities, and does not expect to be undertaking profitable operations (other than by way of material asset sales, none of which is currently planned) until sometime after the successful commercialisation, production and sales of commodities from one or more of its projects. Accordingly the Board does not consider earnings during the current and previous four financial years when determining the nature and amount of remuneration of KMP.

REMUNERATION REPORT – AUDITED (Continued)

Remuneration of Key Management Personnel

Details of the nature and amount of each element of the remuneration of each director and KMP of the Group for the year ended 30 June 2026 and 30 June 2025 are as follows:

Employment Contracts with Key Management Personnel

Mr Syme is engaged as an Executive Director under a consulting agreement that either party may terminate at any time by providing three months' written notice. Mr Syme receives a daily rate of $1,300 under the consulting agreement.

Mr Briggs is engaged as Non-Executive Director and Technical Consultant. Mr Briggs receives annual Non-Executive Director fees of $30,000 plus statutory superannuation. Mr Briggs also receives Technical Consultant fees of $1,350 per day ($1,500 per day from 14 July 2026) on an as-needed basis under a consulting agreement which the Company can terminate at any time by providing at least one month's notice in writing.

All Directors have a letter of appointment confirming the terms and conditions of their appointment as a Director of the Company. The Chairman receives annual fees of $50,000 and Non-Executive Directors receive annual fees of $30,000 plus statutory superannuation contributions.

Other Transactions with Key Management Personnel

Other than as stated above, there were no other transactions with Key Management Personnel.

REMUNERATION REPORT – AUDITED (Continued)

Loans to Key Management Personnel

There were no loans made to any key management personnel during the year ended 30 June 2026 (2025: Nil).

End of the audited Remuneration Report.

INSURANCE OF OFFICERS AND AUDITORS

The Company has entered into Deeds of Indemnity with the Directors indemnifying them against certain liabilities and costs to the extent permitted by law. The Company has paid, or agreed to pay, a premium in respect of Directors' and Officers' Liability Insurance and Company Reimbursement policies for the 12 months ended 30 June 2026 and 2025, which cover all Directors and officers of the Company against liabilities to the extent permitted by the Corporations Act 2001. The policy conditions preclude the Company from any detailed disclosures including the premium amount paid. No indemnities have been provided to the auditors of the Company or Group.

NON-AUDIT SERVICES

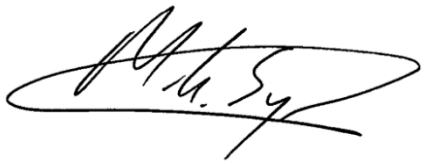

During the year, the Group's auditors, William Buck Audit (WA) Pty Ltd did not receive any fees for the provision of non-audit services (2025: nil).

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is on page 21 of the Annual Report and forms part of this report.

This report is made in accordance with a resolution of the directors made pursuant to section 298(2) of the Corporations Act 2001.

1. STATEMENT OF MATERIAL ACCOUNTING POLICIES

The principal and material accounting policies adopted in preparing the financial report of the Company, Odyssey Gold Limited and its consolidated entities ("Group") for the year ended 30 June 2026 are stated to assist in a general understanding of the financial report.

Odyssey Gold Limited is a company limited by shares incorporated in Australia whose shares are quoted on the Australian Securities Exchange. The financial report of the Company for the year ended 30 June 2026 was authorised for issue in accordance with a resolution of the Directors on 21 September 2026.

(a) Basis of Preparation

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards ("AASBs") and interpretations adopted by the Australian Accounting Standards Board ("AASB") and the Corporations Act 2001. The financial statements comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated statements, the Company is a for-profit entity. The consolidated financial statements have been prepared on a going concern basis which assumes the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the ordinary course of business. The financial report has also been prepared on a historical cost basis.

The financial report is presented in Australian dollars.

(b) Statement of Compliance

The financial report complies with Australian Accounting Standards and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

In the current financial year, the Group has adopted all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current annual reporting period however these have resulted in no impact on the financial statements of the Group for the financial year ended 30 June 2026.

(c) New and revised Australian Accounting Standards and Interpretations on issue but not yet effective

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by the Group for the annual reporting period ended 30 June 2026. Those which may be relevant to the Group are set out in the table below, but these are not expected to have any significant impact on the Group's financial statements:

Standard/Interpretation	Application Date of Standard	Application Date for Group
AASB 18 Presentation and Disclosure in Financial Statements	1 January 2027	1 July 2027
AASB 2014-10 Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2028	1 July 2028

(d) Cash and Cash Equivalents

"Cash and cash equivalents" includes cash on hand, deposits held at call with financial institutions and other short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined.

(e) Dividends

Provision is made for the amount of any dividend declared on or before the end of the year but not distributed at balance date.

For personal use only

For personal use only

(f) Income Tax

The income tax expense for the year is the tax payable on the current year's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose on goodwill or in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss. Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the Parent Entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future. Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity. Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against tax liabilities and the deferred tax liabilities relate to the same taxable entity and the same taxation authority. The Parent Entity and its wholly owned Australian controlled entity have implemented the tax consolidation legislation. The head entity within the tax consolidated group is Odyssey Gold Limited.

(g) Principles of Consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Odyssey Gold Limited (“Company” or “Parent Entity”) as at 30 June 2026 and the results of all subsidiaries for the year then ended. Odyssey Gold Limited and its subsidiaries together are referred to as the Group.

Control is only achieved when the Group has the power over the investee (i.e. ability to direct relevant activities of the investee), is exposed, or has rights, to variable returns from its involvement with the investee, and when it has the ability to use its power to affect its returns. When the Group has less than a majority of the voting rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over the investee, including the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders, the potential voting rights held by the Company, other vote holders or other parties and any rights arising from other contractual arrangements.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. Intercompany transactions and balances, income and expenses and profits and losses between Group companies, are eliminated. The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Entity, using consistent accounting policies. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Investments in subsidiaries are accounted for at cost less impairment in the individual financial statements of the Company.

For personal use only

1. STATEMENT OF MATERIAL ACCOUNTING POLICIES (Continued)

(h) Operating Segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. This includes start up operations which are yet to earn revenues. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the board of directors.

Operating segments have been identified based on the information provided to the chief operating decision makers – being the Board of Directors. The group aggregates two or more operating segments when they have similar economic characteristics, and the segments are similar in each of the following respects:

- Nature of the products and services,
- Nature of the production processes,
- Type or class of customer for the products and services,
- Methods used to distribute the products or provide the services, and if applicable,
- Nature of the regulatory environment.

Operating segments that meet the quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to users of the financial statements. Information about other business activities and operating segments that are below the quantitative criteria are combined and disclosed in a separate category for “all other segments”.

(i) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the profit and loss statement net of any reimbursement.

(j) Other Income Recognition

Interest income is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying value amount of the financial asset.

(k) Impairment of Non-Financial Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset. An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss. After such a reversal the depreciation charge is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

For personal use only

(l) Trade and Other Payables

Trade and other payables are recognised at amortised cost and represent liabilities for the goods and services provided to the Group prior to the end of the financial period that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days. Where trade and other payables are to be deferred for a period greater than 12 months, the Group discounts the amount to its present value based on the expected timing of the payment.

(m) Contributed Equity

Ordinary shares are classified as equity. Issued and paid up capital is recognised at the fair value of the consideration received by the Company. Incremental costs directly attributable to the issue of new shares or incentive securities (classed as equity) are shown in equity as a deduction, net of tax, from the proceeds.

(n) Exploration and Evaluation Expenditure

Expenditure on exploration and evaluation is accounted for in accordance with the 'area of interest' method. Exploration and evaluation expenditure encompasses expenditures incurred by the Group in connection with the exploration for and evaluation of mineral resources before the technical feasibility and commercial viability of extracting a mineral resource are demonstrable. For each area of interest, expenditure incurred in the acquisition of rights to explore is capitalised, classified as tangible or intangible, and recognised as an exploration and evaluation asset. Exploration and evaluation assets are measured at cost at recognition and are recorded as an asset if:

- the rights to tenure of the area of interest are current; and
- at least one of the following conditions is also met:
    - the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; or
    - exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation expenditure incurred by the Group subsequent to the acquisition of the rights to explore will be expensed as incurred, up until the technical feasibility and commercial viability of the project has been demonstrated with a bankable feasibility study.

Capitalised exploration costs are reviewed at each reporting date to establish whether an indication of impairment exists. If any such indication exists, the recoverable amount of the capitalised exploration costs is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years. Where a decision is made to proceed with development, accumulated expenditure is tested for impairment and transferred to development properties, and then amortised over the life of the reserves associated with the area of interest once mining operations have commenced.

Recoverability of the carrying amount of the exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

(o) Plant and Equipment

All classes of plant and equipment are measured at cost. Where it is expected that a liability for capital gains tax will arise, this expected amount is disclosed by way of note. Depreciation is provided on a straight-line basis on all property, plant and equipment (useful lives between 2.5 to 6 years).

(p) Earnings per Share (EPS)

Basic earnings per share is calculated by dividing the profit/loss attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the year, adjusted for bonus elements in ordinary shares issued during the year. Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

For personal use only

1. STATEMENT OF MATERIAL ACCOUNTING POLICIES (Continued)

(q) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST except when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable. Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the taxation authority are classified as operating cash flows.

(r) Business Combinations and Asset Acquisitions

The Directors may evaluate a group of assets that is acquired in a transaction is not a business combination in accordance with either the optional “concentration” or “substantive process” tests in AASB 3. In such cases where a transaction is not a business combination, the cost of acquisition is allocated to the individual identifiable assets (including intangible assets that meet the definition of and recognition criteria for intangible assets in AASB 138) acquired and liabilities assumed on the basis of their relative fair values at the date of acquisition.

(s) Investments and Other Financial Assets

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Group commits itself to either the purchase or sale of the asset. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

(i) Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- amortised cost
- fair value through profit or loss (FVPL)
- equity instruments at fair value through other comprehensive income (FVOCI)
- debt instruments at fair value through other comprehensive income (FVOCI)

All income and expenses relating to financial assets that are recognised in profit or loss are presented within other income or expenses respectively.

Classifications of financial assets are determined by both the entities business model for managing the financial asset and the contractual cash flow characteristics of the financial assets.

(ii) Loans and receivables

Loans and receivables are measured at amortised cost using the effective interest method less impairment in accordance with *(iv) Impairment of Financial Assets* below. Interest is recognised by applying the effective interest rate.

(iii) Fair Value Estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. The fair value of financial instruments traded in active is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as discounted cash flows, are used to determine fair value for the remaining financial instruments.

For personal use only

The nominal value less estimated credit adjustments of receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future

contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

(iv) Impairment of Financial Assets

The Group recognises a loss allowance for expected credit losses on receivables. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

(v) Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received. On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

On derecognition of a financial asset other than in its entirety (e.g. when the Group retains an option to repurchase part of a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

(t) Share-Based Payments

Equity-settled share-based payments are provided to officers, employees, consultants, vendors and other advisors. These share-based payments are measured at the fair value of the equity instrument at the grant date. Fair value is determined using an option pricing model for options and the closing share price for performance rights and performance shares with non-market vesting conditions or a trinomial model for performance rights with market vesting conditions. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest. At each reporting date, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss over the remaining vesting period, with a corresponding adjustment to the share based payments reserve. Equity-settled share-based payments may also be provided as consideration for the acquisition of assets. Where ordinary shares are issued and vest immediately, the transaction is recorded at fair value based on the quoted price of the ordinary shares at the date of issue. The acquisition is then recorded as an asset or expensed in accordance with accounting standards.

1. STATEMENT OF MATERIAL ACCOUNTING POLICIES (Continued)

(u) Joint Operations

A joint operation is a joint arrangement whereby the parties have joint control of the arrangement and have rights to the assets and obligations for the liabilities, relating to the arrangement. Joint control is contractually agreed sharing control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. When the entity undertakes its activities under joint operations, the Group as a joint operator, recognises in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly;
- Its liabilities, including its share of any liabilities incurred jointly;
- Its revenue from the sale of its share of the output arising from the joint operations;
- Its share of the revenue from the sale of the output by the joint operation; and
- Its expenses, including its share of any expenses incurred jointly.

The Group accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the AASBs applicable to the particular assets, liabilities, revenues and expenses. When the Group transacts with the joint operation in which the entity is a joint operator, the Group is considered to be conducting the transaction with the other parties of the joint operations, and gains and losses resulting from the transactions are recognised in the Group's financial statements only to the extent of other parties' interest in the joint operation.

(v) Critical Accounting Estimates, Assumptions and Judgements

In applying the Group's accounting policies, management continually evaluates judgements, estimates and assumptions based on experience and other factors, including expectations of future events that may have an impact on the Group. All judgements, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the judgements, estimates and assumptions. In particular, information about critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the following notes:

- Exploration and evaluation assets (Note 1(n)); and
- Share-based payments (Note 1(t)).

Deferred Tax Assets		
Accrued expenditure	**12,570**	12,270
Provisions	**4,220**	407
Capital Allowances	**270,264**	117,677
Capital losses available to offset against future capital gains	**7,353,585**	7,353,585
Tax losses available to offset against future taxable income	**13,136,571**	10,595,151
Deferred tax assets used to offset deferred tax liabilities	**(2,668,488)**	(2,668,391)
Deferred tax assets not brought to account	**(18,108,722)**	(15,410,699)
	-	-

The benefit of deferred tax assets not brought to account will only be brought to account if:

- future assessable income is derived of a nature and of an amount sufficient to enable the benefit to be realised;
- the conditions for deductibility imposed by tax legislation continue to be complied with; and
- no changes in tax legislation adversely affect the Company in realising the benefit.

8. CONTRIBUTED EQUITY (continued)

(b) Terms and Conditions of Ordinary Shares

(i) General

The ordinary shares ("Shares") are ordinary shares and rank equally in all respects with all ordinary shares in the Company and have no par value. The rights attaching to the Shares arise from a combination of the Company's Constitution, statute and general law. Copies of the Company's Constitution are available for inspection during business hours at its registered office.

(ii) Reports and Notices

Shareholders are entitled to receive all notices, reports, accounts and other documents required to be furnished to shareholders under the Company's Constitution, the Corporations Act and the Listing Rules.

(iii) Voting

Subject to any rights or restrictions at the time being attached to any class or classes of shares, at a general meeting of the Company on a show of hands, every ordinary Shareholder present in person, or by proxy, attorney or representative (in the case of a company) has one vote and upon a poll, every Shareholder present in person, or by proxy, attorney or representative (in the case of a company) has one vote for any Share held by the Shareholder. A poll may be demanded by the Chairperson of the meeting, any 5 Shareholders entitled to vote in person or by proxy, attorney or representative or by any one or more Shareholders holding not less than 5% of the total voting rights of all Shareholders having the right to vote.

(iv) Variation of Shares and Rights Attaching to Shares

Shares may be converted or cancelled with member approval and the Company's share capital may be reduced in accordance with the requirements of the Corporations Act. Class rights attaching to a particular class of shares may be varied or cancelled with the consent in writing of holders of 75% of the shares in that class or by a special resolution of the holders of shares in that class.

(v) Unmarketable Parcels

The Company may procure the disposal of Shares where the member holds less than a marketable parcel of Shares within the meaning of the Listing Rules (being a parcel of shares with a market value of less than $500). To invoke this procedure, the Directors must first give notice to the relevant member holding less than a marketable parcel of Shares, who may then elect not to have his or her Shares sold by notifying the Directors.

(vi) Changes to the Constitution

The Company's Constitution can only be amended by a special resolution passed by at least three quarters of the members present and voting at a general meeting of the Company. At least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

9. RESERVES

	2026 $	2025 $
Share-based payments reserve	**331,977**	290,847
	331,977	290,847

The share-based payments reserve is used to record the fair value of Unlisted Options and Performance Rights, expensed by the Group.

(a) Movements in the share-based payments reserve were as follows:

Date	Details	Number of Incentive Options	Number of Performance Rights	$
1-Jul-25	Opening balance	**-**	**4,965,000**	**290,847**
10-Sep-25	Issue of broker options	**10,000,000**	**-**	**88,795**
31-Dec-25	Lapse of performance rights	**-**	**(4,965,000)**	**-**
Various	Issue of performance rights	**-**	**8,150,000**	**-**
Various	Issue of incentive options	**24,450,000**	**-**	**-**
30-Jun-26	Share based payment expense/(benefit)	**-**	**-**	**(47,665)**
30-Jun-26	Closing balance[(1)]	**34,450,000**	**8,150,000**	**331,977**

Notes:

(1) The Company has the following incentive securities on issue:

- 8,150,000 unlisted options exercisable at $0.05, expiring 30 June 2029;
- 8,150,000 unlisted options exercisable at $0.07, expiring 30 June 2029;
- 8,150,000 unlisted options exercisable at $0.09, expiring 30 June 2029; and
- 8,150,000 performance rights that vest upon the Company achieving the ''Decision to Mine Milestone'', expiring 30 June 2029.

(b) Terms and Conditions of Unlisted Performance Rights

Performance Rights granted as share-based payments have the following terms and conditions:

- Each Performance Right automatically converts into one Share upon vesting of the Performance Right;
- Each Performance Right is subject to performance conditions (as determined by the Board from time to time) which must be satisfied in order for the Performance Right to vest;
- The Performance Rights outstanding at the end of the financial period have employment conditions and the following performance conditions and expiry dates:
  - 8,150,000 performance rights that vest upon the Company achieving the ''Decision to Mine Milestone'', expiring 30 June 2029.
- Application will be made by the Company to ASX for official quotation of the Shares issued upon conversion of the Performance Rights;
- If there is any reconstruction of the issued share capital of the Company, the rights of the Performance Right holders may be varied to comply with the ASX Listing Rules which apply to the reconstruction at the time of the reconstruction;
- No application for quotation of the Performance Rights will be made by the Company; and
- Without approval of the Board, Performance Rights may not be transferred, assigned or novated, except, upon death, a participant's legal personal representative may elect to be registered as the new holder of such Performance Rights and exercise any rights in respect of them.

10. ACCUMULATED LOSSES

	2026 $	2025 $
Balance at 1 July	**(46,188,166)**	(43,957,343)
Net loss for the year	**(8,157,219)**	(2,322,397)
Expiry of unlisted options	**-**	91,574
Balance at 30 June	**(54,345,385)**	(46,188,166)

11. SHARE BASED PAYMENTS

(a) Recognised Share-based Payment Expense

From time to time, the Company provides incentive securities to officers, employees, consultants and other key advisors as part of remuneration and incentive arrangements. The number of securities granted, and the terms of the securities granted are determined by the Board. Shareholder approval is sought where required. During the past two years, the following equity-settled share-based payments have been recognised:

	2026 $	2025 $
Total share-based payment benefit	**47,665**	**61,017**

(b) Weighted Average Remaining Contractual Life

At 30 June 2026, the weighted average remaining contractual life of unlisted securities on issue that had been granted as share-based payments was 2.58 years (2025: 0.5 years).

(c) Range of Exercise Prices

At 30 June 2026, the range of exercise prices of unlisted securities on issue that had been granted as share-based payments was $0.05 to $0.09 (2025: $nil).

(d) Weighted Average Fair Value

At 30 June 2026, the weighted average fair value of unlisted securities that had been granted as share-based payments was $0.0194 (2025: $0.0535).

(e) Summary of Unlisted Securities Granted as Share-based Payments

The following Incentive securities were granted as share-based payments during the past two financial years:

	Security Type	Number	Grant Date	Expiry Date	Vesting Date	Exercise Price $	Fair Value $
Series 1	Options	10,000,000	13-Aug-25	10-Sept-27	13-Aug-25	$0.036	$0.0163
Series 2	Options	2,650,000	20-Feb-26	30-Jun-29	27-Aug-26	$0.05	$0.0193
Series 3	Options	2,650,000	20-Feb-26	30-Jun-29	27-Feb-27	$0.07	$0.0170
Series 4	Options	2,650,000	20-Feb-26	30-Jun-29	27-Aug-27	$0.09	$0.0153
Series 5	Options	5,500,000	25-Mar-26	30-Jun-29	26-Sep-26	$0.05	$0.0176
Series 6	Options	5,500,000	25-Mar-26	30-Jun-29	26-Mar-27	$0.07	$0.0154
Series 7	Options	5,500,000	25-Mar-26	30-Jun-29	26-Sep-27	$0.09	$0.0137
Series 8	Rights	2,650,000	20-Feb-26	30-Jun-29	30-Jun-29	-	$0.0340
Series 9	Rights	5,500,000	25-Mar-26	30-Jun-29	30-Jun-29	-	$0.0320

11. SHARE BASED PAYMENTS (continued)

The following table illustrates the number and weighted average exercise prices (WAEP) of unlisted securities granted as share-based payments at the beginning and end of the financial year:

	2026 Number	2026 WAEP	2025 Number	2025 WAEP
Outstanding at beginning of year	**4,965,000**	**-**	**9,720,000**	**$0.03**
Options expired during the year	**-**	**-**	**(2,000,000)**	**$0.125**
Rights lapsed during the year	**(4,965,000)**	**-**	**(3,655,000)**	**-**
Rights granted during the year	**8,150,000**	**-**	**900,000**	**-**
Options granted during the year	**34,450,000**	**$0.06**	**-**	**-**
Outstanding at end of year	**42,600,000**	**$0.06**	**4,965,000**	**-**

(f) Unlisted Option and Performance Right Pricing Model

The fair value of Unlisted Options granted is estimated as at the date of grant using the Black Scholes option valuation model taking into account the terms and conditions upon which the Options were granted. The Group has assessed that it is not able to reliably measure the fair value of the goods and services received from the counterparty of the share-based payment transaction and thus has measured the fair value of the securities issued by reference to the fair value of the equity instruments granted. The table below lists the inputs to the valuation model used for share options granted by the Group in the past two financial years:

Inputs	Series 1	Series 2	Series 3	Series 4
Exercise price	0.036	0.05	0.07	0.09
Grant date share price	0.029	0.034	0.034	0.034
Dividend yield[1]	-	-	-	-
Volatility	115%	95%	95%	95%
Risk-free interest rate	3.195	4.268	4.268	4.268
Valuation date	13 Aug 2025	20 Feb 2026	20 Feb 2026	20 Feb 2026
Expiry date	10 Sept 2027	30 June 2029	30 June 2029	30 June 2029
Expected life of option[2]	2.1 years	3.36 years	3.36 years	3.36 years
Fair value at grant date	0.0163	0.0193	0.0170	0.0153

Inputs	Series 5	Series 6	Series 7
Exercise price	0.05	0.07	0.09
Grant date share price	0.032	0.032	0.032
Dividend yield[1]	-	-	-
Volatility	95%	95%	95%
Risk-free interest rate	4.617	4.617	4.617
Valuation date	25 March 2026	25 March 2026	25 March 2026
Expiry date	30 June 2029	30 June 2029	30 June 2029
Expected life of option[2]	3.27 years	3.27 years	3.27 years
Fair value at grant date	0.0176	0.0154	0.0137

Notes:
1 The dividend yield reflects the assumption that the current dividend payout will remain unchanged.
2 The expected life of the options is based on the expiry date of the options.

The fair value of Performance Rights granted that do not have market-based vesting conditions is estimated as at the date of grant on the underlying share price.

For personal use only

12. KEY MANAGEMENT PERSONNEL DISCLOSURES

(a) Details of Key Management Personnel

The Key Management Personnel of the Group during the financial year were as follows:

Directors

Mr Ian Middlemas	Chairman
Mr Matthew Syme	Executive Director
Mr Levi Mochkin	Non-Executive Director (*formerly Executive Director until 30 April 2026*)
Mr Matthew Briggs	Non-Executive Director
Mr Robert Behets	Non-Executive Director

Unless otherwise disclosed, the KMP held their position from 1 July 2025 until 30 June 2026.

(b) Key Management Personnel Compensation

	2026 $	2025 $
Short-term employee benefits	**823,054**	688,954
Post-employment benefits	**10,520**	11,471
Share based payment expense/(benefit)	**(80,394)**	(33,527)
Total compensation	**753,180**	666,898

(c) Loans to Key Management Personnel

There were no loans made to any key management personnel during the year ended 30 June 2026 (2025: Nil).

(d) Other Transactions

Other than as stated above, there were no other transactions with Key Management Personnel.

13. RELATED PARTIES

Key Management Personnel

Transactions with Key Management Personnel are included at Note 12.

Transactions with Related Parties in the Consolidated Group

The consolidated group consists of Odyssey Gold Limited (the ultimate parent entity in the wholly owned group) and its controlled entities (see Note 14). Balances and transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation and are not disclosed in this note.

14. SUBSIDIARIES

All controlled entities are included in the consolidated financial statements. The parent entity does not guarantee to pay the deficiency of its controlled entities in the event of a winding up of any controlled entity. The financial year-end of the controlled entities is the same as that of the parent entity.

Name of Controlled Entity	Place of Incorporation	% of Shares held 2026	% of Shares held 2025
Tuckanarra Resources Pty Ltd	Australia	**100**	100
Stakewell Resources Pty Ltd	Australia	**100**	100
Odyssey Gold (WA) Pty Ltd	Australia	**100**	100

15. EARNINGS PER SHARE

	2026 cents	2025 cents
Basic and diluted loss per share from continuing operations	**(0.66)**	(0.26)
Total basic and diluted loss per share	**(0.66)**	(0.26)

The following reflects the income and share data used in the calculations of basic and diluted earnings per share:

	2026 $	2025 $
Net loss used in calculating basic and diluted earnings per share	**(8,157,219)**	(2,322,397)

	Number of Shares 2026	Number of Shares 2025
Weighted average number of ordinary shares outstanding used in calculating basic earnings per share	**1,232,073,064**	901,683,767
Adjusted weighted average number of ordinary shares outstanding used in calculating basic and diluted earnings per share	**1,232,073,064**	901,683,767

(a) Non-dilutive Securities

As at reporting date, 8,150,000 performance rights, 24,450,000 unlisted incentive options and 121,111,104 listed options (which represent 153,711,104 potential ordinary shares) were considered non-dilutive as they would decrease the loss per share.

(b) Conversions, Calls, Subscriptions or Issues after 30 June 2026

Subsequent to 30 June 2026, there have been no conversions to, calls of, or subscriptions for Ordinary Shares or issues of potential Ordinary Shares since the reporting date and before the completion of this financial report.

16. SEGMENT INFORMATION

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The Company operates in one segment, being exploration for mineral resources and in one geographical location being Australia. This is the basis on which internal reports are provided to the Directors for assessing performance and determining the allocation of resources within the Company.

17. CONTINGENT ASSETS AND LIABILITIES

As at 30 June 2026, the Group did not have any contingent assets or liabilities (2025: nil).

18. STATEMENT OF CASH FLOWS

	2026 $	2025 $

The Parent entity has no commitments for expenditure nor any contingent assets or liabilities (2025: nil).

For personal use only

For personal use only

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(a) Overview

The Group's principal financial instruments comprise cash and cash equivalents, other receivables and trade and other payables. The main risks arising from the Group's financial instruments are liquidity risk, interest rate risk and credit risk.

This note presents information about the Group's exposure to the above risks, its objectives, policies and processes for measuring and managing risk, and the management of capital. Other than as disclosed, there have been no significant changes since the previous financial year to the exposure or management of these risks.

The Group manages its exposure to key financial risks in accordance with the Group's financial risk management policy. Key risks are monitored and reviewed as circumstances change (e.g. acquisition of a new project) and policies are revised as required. The overall objective of the Group's financial risk management policy is to support the delivery of the Group's financial targets whilst protecting future financial security.

Given the nature and size of the business and uncertainty as to the timing and amount of cash inflows and outflows, the Group does not enter into derivative transactions to mitigate the financial risks. In addition, the Group's policy is that no trading in financial instruments shall be undertaken for the purposes of making speculative gains. As the Group's operations change, the Directors will review this policy periodically going forward.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Board reviews and agrees policies for managing the Group's financial risks as summarised below.

(b) Credit Risk

Credit risk is the risk of financial loss to the Company or Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. This arises principally from cash and cash equivalents, and other receivables. There are no significant concentrations of credit risk within the Group. The carrying amount of the Group's financial assets represents the maximum credit risk exposure, as represented below:

	Notes	2026	2025
		$	$
Cash and cash equivalents	18(b)	**5,770,817**	4,217,884
Other receivables	4	**324**	296
		5,771,141	4,218,180

The Group does not have any significant customers and accordingly does not have any significant exposure to bad or doubtful debts.

Other receivables comprise interest accrued and other miscellaneous receivables. Where possible the Group transacts only with recognised, creditworthy third parties. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. At 30 June 2026, none (2025: none) of the Group's receivables are past due.

With respect to credit risk arising from cash and cash equivalents, the Group's exposure to credit risk arises from default of the counter party, with a maximum exposure equal to the carrying amount of these instruments.

(c) Interest Rate Risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the cash and short-term deposits with a floating interest rate. These financial assets with variable rates expose the Group to cash flow interest rate risk. All other financial assets and liabilities, in the form of financial assets, receivables and payables, are non-interest bearing.

(i) Exposure to interest rate risk

At the reporting date, the interest rate profile of the Group's interest-bearing financial instruments was:

	2026	2025
	$	$
Interest-bearing financial instruments		
Cash at bank and on hand	**5,770,817**	4,217,884
	5,770,817	4,217,884

For personal use only

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The weighted average interest rate of the total consolidated cash balance was 4.28% (2025: 4.05%).

The Group currently does not engage in any hedging or derivative transactions to manage interest rate risk.

(i) Cash flow sensitivity analysis for variable rate instruments

A sensitivity of 20% has been selected as this is considered reasonable given the current level of both short term and long term interest rates. A 20% movement in interest rates at the reporting date would have increased (decreased) equity and profit and loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2025.

	Profit or loss		Equity	
	20% increase	20% decrease	20% increase	20% decrease
2026				
Cash and cash equivalents	**49,350**	**(49,350)**	**49,350**	**(49,350)**
2025

(d) Capital Management

The Board's policy is to maintain a suitable capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Given the stage of development of the Group, the Board's objective is to minimise debt going forward and to raise funds as required through the issue of new shares. However, the Board will undertake short term borrowings to provide temporary funding where appropriate. The Group is currently examining new business opportunities where acquisition/working capital requirements of a new project may involve additional funding in some format (which may include debt, where appropriate).

There were no changes in the Group's approach to capital management during the year. The Group is not subject to externally imposed capital requirements.

(e) Fair Value

The net fair value of financial assets and financial liabilities approximate their carrying value. The methods for estimating fair values are outlined in the relevant notes to the Financial Statements.

(f) Liquidity Risk

Liquidity risk is the risk that the Company and Group will not be able to meet their financial obligations as they fall due. The Board's approach to managing liquidity is to ensure, as far as possible, that the Company will always have sufficient liquidity to meet its liabilities when due. This is monitored by the preparation of monthly cash flow reports, and regular forecasts as required but at least every six months.

The contractual maturities of financial liabilities, including estimated interest payments, are provided below. There are no netting arrangements in respect of financial liabilities.

	Carrying Amount $	Contractual cash flows $	6 months or less $	6-12 months $	1-2 years $	2-5 years $

22. INTERESTS IN JOINT OPERATIONS

The Company has interests in the following jointly owned projects:

			Interest		Carrying Amount	
Name	Principal Activities	Country	2026 %	2025 %	2026 $	2025 $
Tuckanarra	Exploration for gold in the Murchison Goldfields	Australia	**80**	80	**5,372,369**	5,372,369
Stakewell	Exploration for gold in the Murchison Goldfields	Australia	**80**	80	**3,522,267**	3,522,267

Tuckanarra and Stakewell Gold Projects

The Group has 80% interests in the unincorporated Tuckanarra Gold and Stakewell Gold Joint Ventures with Monument Murchison Pty Ltd and Diversified Asset Holdings Pty Ltd respectively. Odyssey is required to sole fund all joint operation activities until the date a Decision to Mine is made. In the case of the Stakewell JV, the 20% interest's costs of development will be funded by a loan from the Group with the loan repaid via initial production.

23. COMMITMENTS

As a condition of retaining the current rights to tenure to exploration tenements, the Group is required to pay an annual rental charge and meet minimum expenditure requirements for each tenement. These obligations are not provided for in the financial statements and are at the sole discretion of the Group:

	2026 $	2025 $
Commitments for exploration expenditure:		
Not longer than 1 year	**310,300**	278,933
Longer than 1 year and shorter than 5 years	**611,192**	641,900
Longer than 5 years	**889,750**	1,239,875
	1,811,242	2,160,708

24. EVENTS AFTER THE REPORTING PERIOD

(a) On 7 July 2026, the Company announced an updated Mineral Resource Estimate for the Company's Cable Deposit within the Tuckanarra Project; and

(b) On 9 July 2026, the Company announced the results of the Stage 1 Scoping Study for its Tuckanarra Gold Project.

Other than the above, there are no matters or circumstances which have arisen since 30 June 2026 that have significantly affected or may significantly affect:

- the operations, in financial years subsequent to 30 June 2026, of the Company or Group;
- the results of those operations, in financial years subsequent to 30 June 2026, of the Company or Group; or
- the state of affairs, in financial years subsequent to 30 June 2026, of the Company or Group.

CONSOLIDATED ENTITY DISCLOSURE STATEMENT

The consolidated entity disclosure statement has been prepared in accordance with subsection 295(3A)(a) of the Corporations Act 2001. The entities listed in the statement are Odyssey Gold Ltd and all the entities it controls in accordance with AASB 10 Consolidated Financial Statements.

The percentage of share capital disclosed for bodies corporate included in the statement represents the economic interest controlled and consolidated by Odyssey Gold Ltd's financial statements.

In relation to the tax residency information included in the statement, judgement may be required in the determination of the residency of the entities listed. In developing the disclosures in the statement, the directors have utilised internal documentation to support the determination of tax residency.

For personal use only

For personal use only

In accordance with a resolution of the directors of Odyssey Gold Limited:

1. In the opinion of the directors:

   (a) the attached financial statements, notes and the additional disclosures included in the directors' report designated as audited, are in accordance with the Corporations Act 2001, including:

      (i) section 296 (compliance with accounting standards and Corporations Regulations 2001); and

      (ii) section 297 (gives a true and fair view of the financial position as at 30 June 2026 and of the performance for the year ended on that date of the Group);

   (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and

   (c) the consolidated entity disclosure statement required by section 295(3A) of the Corporations Act 2001 is true and correct.

2. The attached financial statements are in compliance with International Financial Reporting Standards, as stated in note 1 to the financial statements.

3. The Directors have been given a declaration required by section 295A of the Corporations Act 2001 for the financial year ended 30 June 2026.

On behalf of the Board

MATTHEW SYME
Executive Director

30 September 2026

Independent auditor's report to the members of Odyssey Gold Limited

Report on the audit of the financial report

Opinion

In our opinion, the accompanying financial report of Odyssey Gold Limited (the Company) and its subsidiaries (the Group) is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 30 June 2026 and of its financial performance for the year then ended; and
- complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What was audited?

We have audited the financial report of the Group, which comprises:

- the consolidated statement of financial position as at 30 June 2026,
- the consolidated statement of profit or loss and other comprehensive income for the year then ended,
- the consolidated statement of changes in equity for the year then ended,
- the consolidated statement of cash flows for the year then ended,
- notes to the financial statements, including material accounting policy information,
- the consolidated entity disclosure statement, and
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional & Ethical Standards Board Limited (the Code) that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Carrying Value of Exploration and Evaluation Assets **Area of focus** **(refer also to notes 1(n) and 5)** As at 30 June 2026, the carrying value of the Group's exploration and evaluation assets amounted to $8,894,636. The Group has capitalised costs of tenements comprising the Tuckanarra Gold Project and the Stakewell Gold Project located in the Murchison Goldfields of Western Australia. The carrying value of these costs represents a significant asset of the Group. This is a key audit matter due to the fact that significant judgement is applied in determining whether the capitalised exploration costs continue to meet the recognition criteria of AASB 6 *Exploration for and Evaluation of Mineral Resources*.	**How our audit addressed the key audit matter** **Our audit procedures included:** — Obtaining an understanding of management's process for assessing the recoverability of the Group's exploration and evaluation assets; — Obtaining evidence that the Group holds valid rights to explore the areas represented by the capitalised exploration costs; — Enquiring of management and reviewed the cashflow forecast to verify that substantive expenditure on further exploration for and evaluation of the mineral resources in the Group's areas of interest is planned and compared these to the minimum expenditure requirements of the license expenditure requirements; — Enquiring of management, reviewed the ASX announcements made and minutes of directors' meetings to verify that the Group had not decided to discontinue activities in any of its areas of interest; — Evaluating management's impairment assessment on the carrying value of exploration and evaluation assets as at 30 June 2026; and — Assessing the adequacy of the related disclosures in the financial report.
Valuation and Accounting for Share-based Payments **Area of focus** **(refer also to notes 1(t) and 11)** During the year, the Group granted 24,450,000 options, 8,150,000 performance rights and 10,000,000 broker options. In addition, 4,965,000 performance rights lapsed during the year.	**How our audit addressed the key audit matter** **Our audit procedures included:** — Assessing management's fair value calculations, including evaluating the appropriateness of the valuation models used and key inputs applied, and agreeing the terms and conditions of the options and performance rights granted to the relevant ASX announcements and signed agreements;

William Buck
ACCOUNTANTS & ADVISORS

For personal use only

Accounting for these arrangements required management to determine the appropriate measurement dates, the fair value of the equity instruments and the timing of recognition over the relevant vesting periods in accordance with AASB 2 *Share-based Payment*. This involved significant judgement in selecting appropriate valuation methodologies and inputs, assessing the number of performance rights expected to vest and determining the accounting treatment of lapsed performance rights and broker options. Whilst only a portion of the share-based payment expense was recognised in the current year due to the timing of the grants and the vesting periods attached to the awards, the valuation and accounting for the share-based payment arrangements required significant audit attention and was therefore considered a Key Audit Matter.	— Critically reviewing management's assumptions regarding the likelihood of meeting the performance conditions for non-market-based conditions; — Assessing the adequacy of the 4,965,000 lapsed performance rights, and whether the resulting accounting in profit or loss and the share-based payment reserve was appropriate; and — Assessing the adequacy of the related disclosures in the financial report in accordance with AASB 2 *Share Based Payment.*

Other information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2026 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

— the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and

— the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001,* and

for such internal control as the directors determine is necessary to enable the preparation of:

— the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and

— the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

For personal use only

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Our opinion on the Remuneration Report

In our opinion, the Remuneration Report of Odyssey Gold Limited, for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

What was audited?

We have audited the Remuneration Report included in pages 15 to 20 of the directors' report for the year ended 30 June 2026.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

CORPORATE GOVERNANCE

Odyssey Gold Limited (**Odyssey** or **Company**) and the entities it controls believe corporate governance is important for the Company in conducting its business activities.

The Board of Odyssey has adopted a suite of charters and key corporate governance documents which articulate the policies and procedures followed by the Company.

These documents are available in the Corporate Governance section of the Company's website, www.odysseygold.com.au. These documents are reviewed at least annually to address any changes in governance practices and the law.

The Company's Corporate Governance Statement 2026, which is current as at 30 June 2026 and has been approved by the Company's Board, explains how Odyssey complies with the ASX Corporate Governance Council's 'Corporate Governance Principles and Recommendations – 4th Edition' in relation to the year ended 30 June 2026. The Corporate Governance Statement is available in the Corporate Governance section of the Company's website, www.odysseygold.com.au/corporate-governance/ and will be lodged with ASX together with an Appendix 4G at the same time that this Annual Report is lodged with ASX.

In addition to the ASX Corporate Governance Council's 'Corporate Governance Principles and Recommendations – 4th Edition' the Board has taken into account a number of important factors in determining its corporate governance policies and procedures; including the:

- relatively simple operations of the Company, which currently only undertakes exploration and development activities;
- cost verses benefit of additional corporate governance requirements or processes;
- size of the Board;
- Board's experience in the relevant sector;
- organisational reporting structure and number of reporting functions, operational divisions and employees;
- relatively simple financial affairs with limited complexity and quantum;
- relatively small market capitalisation and economic value of the entity; and
- direct shareholder feedback.

MINERAL RESOURCES STATEMENT

Summary of Mineral Resources

Odyssey's Mineral Resources for its Tuckanarra Project in Western Australia as at 30 June 2026 and 2025, reported in accordance with the 2012 Edition of the JORC Code, are as follows:

Category	Tonnes (Mt)	Grade (g/t Au)	Ounces (oz Au)
As at 30 June 2026			
Inferred	4.36	2.5	345,000
Indicated	0.79	2.4	62,000
Total	**5.14**	**2.5**	**407,000**
As at 30 June 2025			
Inferred	4.36	2.5	345,000
Indicated	0.79	2.4	62,000
Total	**5.14**	**2.5**	**407,000**

Note: Totals may not add up due to rounding. Open pit resources are reported above 0.9g/t Au cut-off for material less than 140-180m below surface, except the Highway Zone which is reported above 0.9g/t Au cut-off for oxide and transitional material. Underground resources are reported above 2.0g/t Au cut-off for material more than 180m below surface or fresh rock. Resources are reported on a 100% project basis.

Annual Review of Mineral Resources

As a result of the annual review of the Company's Mineral Resources, there has been no change to the Mineral Resources.

Governance of Mineral Resources

The Company engages external consultants and Competent Persons (as determined pursuant to the JORC Code 2012) to prepare and estimate the Mineral Resources and Ore Reserves. Management and the Board review these estimates and underlying assumptions for reasonableness and accuracy. The results of the Mineral Resources and Ore Reserves estimates are then reported in accordance with the requirements of the JORC Code 2012 and other applicable rules (including ASX Listing Rules). Where material changes occur during the year to the project, including the project's size, title, exploration results or other technical information, previous reserve and resource estimates and market disclosures are reviewed for completeness. The Company reviews its Mineral Resources and Ore Resources as at 30 June each year. Where a material change has occurred in the assumptions or data used in previously reported Mineral Resources and Ore Reserves, then where possible a revised Mineral Resources and Ore Reserves estimate will be prepared as part of the annual review process. However, there are circumstances where this may not be possible (e.g. an ongoing drilling programme), in which case a revised Mineral Resources and Ore Reserves estimate will be prepared and reported as soon as practicable.

Competent Person Statement

The information in this Mineral Resources Statement that relates to Odyssey's consolidated Mineral Resources for the Tuckanarra Project is based on, and fairly represents, information and supporting documentation compiled by Mr Matthew Briggs, a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Briggs is a Non-Executive Director and Technical Consultant to Odyssey and is a holder of shares and performance rights in Odyssey. Mr Briggs has sufficient experience that is relevant to exploration and the style of mineralisation and type of deposit under consideration, and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (JORC Code). Mr Briggs has approved this Mineral Resources Statement as a whole and consents to its inclusion in the form and context in which it appears in Odyssey's annual report.

8. COMPETENT PERSONS STATEMENT

The information in this report that relates to Mineral Resources is extracted from announcements dated 2 August 2023, 15 February 2024 and 7 July 2026, which are available to view at www.odysseygold.com.au and is based on, and fairly represents information compiled by the relevant Competent Persons.

The information in this announcement that relates to Exploration Results is extracted from announcements dated 27 November 2020, 21 July 2021, 20 December 2021, 20 January 2022, 1 September 2025, 25 September 2025, 14 October 2025, 5 November 2025, 3 December 2025, 22 January 2026, 11 March 2026, 22 June 2026, 6 July 2026, 16 July 2026, 20 August 2026, and 10 September 2026, which are available to view at www.odysseygold.com.au and is based on, and fairly represents information compiled by the relevant Competent Persons.

The Company confirms that: (a) it is not aware of any new information or data that materially affects the information included in the original announcements; (b) all material assumptions included in the original announcements continue to apply and have not materially changed; and (c) the form and context in which the relevant Competent Persons' findings are presented in this announcement have not been materially changed from the original announcements.

9. FORWARD LOOKING STATEMENTS

Statements regarding plans with respect to Odyssey's project are forward-looking statements. There can be no assurance that the Company's plans for development of its projects will proceed as currently expected. These forward-looking statements are based on the Company's expectations and beliefs concerning future events. Forward looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company, which could cause actual results to differ materially from such statements. The Company makes no undertaking to subsequently update or revise the forward-looking statements made in this announcement, to reflect the circumstances or events after the date of that announcement.
