As at the date of this Offer Booklet, the Company has 1,255,000 Share Appreciation Rights on issue. To the extent that vesting conditions (if any) have been satisfied, these Share Appreciation Rights may be exercised prior to the Record Date in order to participate in the Offer. Please refer to Section 3.6 of this Offer Booklet for information on the expiry date of the Share Appreciation Rights on issue.

All of the Shares offered under this Offer Booklet will rank equally with the Shares on issue at the date of this Offer Booklet.

The Directors may at any time decide to withdraw this Offer Booklet and the offer of Shares made under this Offer Booklet in which case the Company will return all Application monies (without interest) within 28 days of giving such notice of withdrawal.

3.2. Use of Funds

If fully subscribed, completion of the Offer will result in an increase in cash in hand of up to approximately \$1.69 million before the payment of costs associated with the Offer.

3.9. Effect of the Offer on control and voting power in the Company

Based on the Company's understanding, including notices lodged on ASX in accordance with the Corporations Act, the Company's substantial holders and their Entitlement as at the Record Date are set out in the table below.

Substantial Holder	Shares	%	Entitlement	\$
Richard Jenkins and the following associated entities: Shell Cove Capital Management Limited as	2,544,355	13.58%	2,544,355	\$228,991.95

trustee for The Black Marlin Fund A/C; • Shell Cove Capital Management Limited; • Shell Cove Investment Corporation Pty Limited; and • Kizoz Pty Ltd as trustee for the Kizoz Superfund				
Mark Skipper and the following associated entities: • BT Portfolio Services Limited <M & T Skipper S/F A/C>; and • JJ Bronson Jacobs Pty Ltd <M & T Skipper A/C>	960,764	5.13%	960,764	\$86,468.76

The potential effect that the issue of the Shares under the Offer will have on the control of the Company is as follows:

- if all Eligible Shareholders take up their entitlements under the Entitlement Offer, the issue of New Shares will have no significant effect on control of the Company;
- if some Eligible Shareholders do not take up all of their entitlements under the Entitlement Offer, then the interests of those Eligible Shareholders will be diluted by the issue of New Shares relative to those Eligible Shareholders who subscribe for some or all of their entitlements as shown by the table in Section 3.7;
- where there is a shortfall between applications received from Eligible Shareholders and the number of New Shares proposed to be issued under the Entitlement Offer, Eligible Shareholders may apply for Additional Shares. The Company will not issue Additional Shares under the Top-Up Facility in a way that results in an Eligible Shareholder's voting power known to the Company to exceed 19.99% of the Company's Shares;
- if Eligible Shareholders subscribe for more Additional Shares than are available under the Top-Up Facility, the Company will apply a scale-back procedure on a pro rata basis to ensure a fair allocation of the Additional Shares, subject at all times to the Board's discretion; and
- as a result of the Entitlement Offer, no Shareholder will hold an interest of 20% or more of the Company at completion of the Entitlement Offer.

3.10. Market Price of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX.

The highest, lowest and last market sale prices of the Shares on ASX at market close during the three months immediately preceding the announcement of the Entitlement Offer and the respective dates of those sales were:

	\$	Date
Highest	\$0.21	22 July 2026
Lowest	\$0.090	9 September 2026
Last	\$0.092	28 September 2026

3.11. Opening and Closing Dates

The Offer opens on the Opening Date, being Friday, 9 October 2026, and closes on the Closing Date, being 5:00pm (AEDT) on Tuesday, 20 October 2026 (or such other dates as the Directors in their discretion shall determine subject to the ASX Listing Rules). The Company will accept payment until the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the ASX Listing Rules.

3.12. Issue and Dispatch

Shares issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and the Timetable set out in Section 3.3 of this Offer Booklet. Additional Shares issued pursuant to the Top-Up Facility will be issued on the same date as New Shares to Eligible Shareholders.

Pending the issue of the Shares or payment of refunds pursuant to this Offer Booklet, all Application monies will be held by the Registry in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest when making payment. Any excess funds of \$1.00 or less will not be refunded.

3.13. ASX listing

The fact that ASX may grant official quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares now offered for subscription.

3.14. CHESS

The Company is a participant in CHESS for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHESS will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of New Shares allotted to them under this Offer Booklet. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

3.15. Risk Factors

An investment in New Shares should be regarded as speculative. In addition to the general risks applicable to all investments in listed securities, there are specific risks associated with an investment in the Company which are non-exhaustive. Please refer to Section 5 of this Offer Booklet for further details.

3.16. Taxation implications

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for New Shares under this Offer Booklet. Specifically, the Company is required to notify ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the securities markets conducted by the ASX. In particular, the Company has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of its securities.

This Offer Booklet is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include information that would be included in a disclosure document or which investors ought to have regard to in deciding whether to subscribe for Shares under the Offer. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

All announcements made by the Company are available from its website:

<https://www.rangeinternational.com/> or the ASX www.asx.com.au.

You should note that the allocation of Additional Shares is at the Company's absolute discretion as per the allocation policy set out in Section 4.8. Accordingly, your application for Additional Shares may be scaled-back. The Company's decision on the number of Additional Shares to be allocated to you will be final.	Sections 4.2, 4.3, 4.5 and 4.8
Take up a proportion of your Entitlement	If you wish to take up only part of your Entitlement and allow the balance to lapse, your application must be made by completing the personalised Entitlement and Acceptance Form which accompanies this Offer Booklet for the	Sections 4.2, 4.3 and 4.5

and allow the balance to lapse	number of Shares you wish to take up and making payment using the methods set out in Sections 4.2 and 4.3 below. As set out in Section 4.5, if you pay by BPAY® or EFT, you do not need to return the Entitlement and Acceptance Form.	
Allow all or part of your Entitlement to lapse	If you do not wish to accept any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement by the Closing Date, the Offer to you will lapse.	N/A

The Offer is non-renounceable. Accordingly, a holder of Shares may not sell or transfer all or part of their Entitlement.

4.2. Payment by BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your application monies.

It is your responsibility to ensure that your BPAY® payment is received by the share registry by no later than 5:00pm (AEDT) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment.

Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. Do not use the same CRN for more than one of your Shareholdings. This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

4.3. Payment by Electronic Funds Transfer (overseas applicants)

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- For personal use only
- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
 - (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies.

4.4. No payment by cheque

Payment by cheque or cash will not be accepted.

4.5. Implications of an acceptance

Returning a completed Entitlement and Acceptance Form, or paying any Application monies by BPAY® or EFT, will be taken to constitute a representation by you that:

- (a) you have received a copy of this Offer Booklet and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the Application may not be varied or withdrawn except as required by law;
- (c) you represent and warrant that you and each person on whose account you are acting are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States and are not otherwise a person to whom it would be illegal to make an offer or issue New Shares under the Entitlement Offer;
- (d) you acknowledge that the Entitlements and the New Shares have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold in the United States except in a transaction exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws;
- (e) you represent and warrant that you and each person on whose account you are acting have not and will not send any materials relating to the Entitlement Offer to any person in the United States or to any person (including nominees or custodians) acting for the account or benefit of a person in the United States, or any other country outside Australia, New Zealand, Indonesia, Singapore or the United Kingdom;
- (f) if you are acting as a nominee or custodian, you represent and warrant that each beneficial holder on whose behalf you are submitting the Entitlement and Acceptance Form is resident in Australia, New Zealand or Singapore, and you have not sent this Offer Booklet, the Entitlement and Acceptance Form or any other information relating to the Entitlement Offer to any person outside Australia, New Zealand or Singapore; and

- (g) you agree that if in the future you decide to sell or otherwise transfer the New Shares, you will only do so in transactions where neither you nor any person acting on your behalf knows, or has reason to know, that the sale has been pre-arranged with, or that the purchaser is, a person in the United States or who is acting for the account or benefit of a person in the United States.

4.6. Top-Up Facility

Eligible Shareholders who take up their Entitlements in full may also apply for Additional Shares in excess of their Entitlement at the same Offer price of \$0.09 (**Top-Up Facility**). Additional Shares in excess of Entitlements will only be allocated to Eligible Shareholders if and to the extent that the Company determines in its absolute discretion based on the allocation policy outlined in Section 4.8.

An Eligible Shareholder who is a 'related party' of the Company (as that term is defined in the Listing Rules), or is otherwise a person to whom Listing Rule 10.11 applies, is not eligible to apply for or be allocated any Additional Shares under the Top-Up Facility.

4.7. Shortfall Offer

If there are any New Shares not taken up pursuant to the Offer, including Additional Shares, the Board reserves its right to allocate these Shares at its sole discretion within 3 months from the Closing Date, and otherwise in accordance with the allocation policy described in Section 4.8 (**Shortfall Offer**).

The Shortfall Offer will only be extended to parties identified by the Company. A 'related party' of the Company (as that term is defined in the Listing Rules), or a person to whom Listing Rule 10.11 applies, is not eligible to be allocated any Shares under the Shortfall Offer without prior Shareholder approval. The Company may pay brokerage fees on customary commercial terms in connection with subscriptions for Shares under the Shortfall Offer, as determined by the Board in its discretion.

The Company anticipates interest from third party investors under the Shortfall Offer and intends to allocate these Shares as soon as possible following the Closing Date, subject to compliance with the Corporations Act and ASX Listing Rules.

4.8. Allocation Policy

- (a) Each Eligible Shareholder who takes up their Entitlement (in full or in part) will be allocated New Shares in respect of that Entitlement.

- (b) Each Eligible Shareholder who:

(i) takes up their Entitlement in full; and

(ii) applies and pays for Additional Shares under the Top-Up Facility,

will be allocated the number of Additional Shares under the Top-Up Facility subscribed for by that Eligible Shareholder, subject to being scaled-back (either pro rata or at the Board's discretion) if the Top-Up Facility is oversubscribed or if to do so would result in a Shareholder holding 20% or more of the Shares on issue, or

otherwise at the Board's discretion. Furthermore, a 'related party' of the Company (as that term is defined in the Listing Rules), or a person to whom Listing Rule 10.11 applies, is not eligible to be allocated any Additional Shares under the Top-Up Facility.

- (c) In the event of a scale-back in the Top-Up Facility, the difference between the Application monies received, and the number of Additional Shares allocated to you multiplied by the Offer price will be refunded following allotment. No interest will be paid on any Application monies received and returned.
- (d) Notwithstanding any of the above:
 - (i) there is no guarantee that any application in the Top-Up Facility will be successful and the Company reserves the right to issue any shortfall by way of the Top-Up Facility or by other means and reserves the right to satisfy applications in the Top-Up Facility at its sole and complete discretion, including by applying a pro rata scale-back mechanism;
 - (ii) the Top-Up Facility has the same closing date as the Entitlement Offer; and
 - (iii) the Company will not issue Additional Shares under the Top-Up Facility where to do so would result in a breach of its Constitution, the Corporations Act or the ASX Listing Rules.

5. RISK FACTORS

5.1. Introduction

The Shares offered under this Offer Booklet should be considered speculative because of the nature of the Company's business.

There are numerous risk factors involved with the Company's business. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated. Accordingly, an investment in the Company carries no guarantee with respect to the payment of dividends, return of capital or price at which securities will trade.

The following is a summary of the more material matters to be considered. However, this summary is not exhaustive and potential investors should examine the contents of this Offer Booklet in its entirety and consult their professional advisers before deciding whether to apply for the New Shares.

5.2. Company specific risks

(a) Potential for dilution

Upon completion of the Offer, the number of Shares in the Company will increase from 18,737,430 on issue as at the Record Date to 37,474,860 (subject to rounding) assuming the Offer is fully subscribed. This means that each Share will represent a lower proportion of the ownership of the Company. Shareholders who do not take up their Entitlements will have their percentage holdings diluted. It is not possible to predict the value of the Company or the market price of a Share following completion of the Offer, and the Directors do not make any representation as to those matters. The last trading price of Shares on ASX prior to the announcement of the Offer of \$0.092 is not a reliable indicator of the potential trading price of Shares following completion of the Offer.

(b) Debt facilities

On 27 December 2024, the Company announced it had entered into unsecured loan facility agreements totalling A\$575,000 with Directors (or their associated entities) and management of the Company for a term of 2 years, bearing interest at 14% per annum. On 3 June 2026, the Company announced it had entered into secured loan facility agreements totalling A\$454,000 for a term of 24 months, fully drawn on execution, bearing interest at 18% per annum and secured against rental pallets and certain manufacturing equipment. While the Company is satisfied that it can service the current level of debt, if circumstances or market conditions change over the short-term, there is a risk that the Company could be in breach of its obligations in respect of the current debt facilities.

(c) Inability to retain customers and convert prospective customers

The success of the Company's growth strategy is dependent upon securing customers and converting prospective customers into profit-producing

relationships. The Company's ability to do this will depend upon its ability to meet customer functional requirements and meet expectations of price. There is a risk of increased competition from other pallet manufacturers that do not operate to the Company's standards and code of conduct. There is a risk of cheaper/ lower cost providers entering the market.

(d) Inability to profitably fulfil customer orders

There is a risk that the Company will not be able to meet its required production capacity while maintaining quality to fulfil customer orders or that the cost of production exceeds the selling price. The Company's production of pallets is dependent upon the Company having access to sufficient supply of waste plastic of the required quality, type and cost. This is dependent upon factors beyond the Company's control, including changes to pricing of waste plastic, shortages in supply of waste plastic, interruptions affecting suppliers (including operational, industrial relations or transportation difficulties, accidents or natural disasters), and their allocation of waste plastics to other users, or the introduction of new laws or regulations that may make access to waste plastic more difficult or more expensive.

(e) Interruptions to operations

The Company's manufacturing operations are currently located in Pasuruan, Indonesia. The Company is exposed to short, medium or long-term interruptions to its operations arising from events including plant and equipment mechanical failure, transport problems, industrial disputes, labour practices, labour strikes, electricity outages, acts of terrorism, fires, potential inability to renew a licence on acceptable terms, environmental matters, difficulty in enforcing contracts, changes to or uncertainty in the relevant legal and regulatory regime (including in relation to taxation and practices of government and regulatory authorities) and other issues including the potential for corruption and fraud. The Company's manufacturing operations are exposed to natural disasters and geological events, including floods, earthquakes, volcanoes, tsunamis, and typhoons. Such interruptions, disasters and events could materially and adversely affect Range's business, financial condition, results of operations and prospects.

(f) Expansion into new markets

Expansion beyond Indonesia will require the Company to be granted licences and permits and product certifications, train employees, arrange the supply of recycled waste plastic and other necessary requirements of its business at an acceptable cost, as well as win customers and produce pallets to satisfy demand at an acceptable price.

(g) Intellectual property risk

There is a risk that the Company may not be able to protect the confidentiality of its trade secrets or be unable to detect the unauthorised use of its intellectual property. Further, actions taken by the Company to protect its intellectual property

may not be adequate or enforceable and thus may not prevent the misappropriation of its intellectual property and proprietary information. The Company's failure to protect its intellectual property rights could have an adverse impact on its operations and financial performance.

(h) Financial risk management

Range is exposed to adverse movements in foreign currency exchange rates and interest rates. This could adversely impact Range's ability to achieve its financial performance objectives and also reduce its ability to access financing facilities.

(i) Reliance on key personnel

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees ceases their employment with the Company.

(j) Liquidity and realisation

There can be no guarantee that an active market in the Company's Shares will develop or that the price of the Shares will increase. There may be a relatively limited number of buyers, or a relatively large number of sellers, on ASX at any given time. This may increase the volatility of the market price of the Shares. It may also affect the prevailing market price at which Shareholders are able to sell their Shares. This may result in Shareholders receiving a market price for their Shares that is less than the price paid for their New Shares.

(k) Unforeseen expenses

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected.

(l) Litigation

The Company may be the subject of complaints or litigation by customers, suppliers, employees or officers, Shareholders, government agencies or other third parties. The Company may also pursue parties that may lead to litigation. Such matters may have an adverse effect on the Company's reputation, divert its financial and management resources from more beneficial uses, or have a material adverse effect on the Company's future financial performance or position. Currently, the Company is free of any litigation claims.

5.3. General risks

(a) Nature of investment

Any potential investor should be aware that subscribing for Shares involves risks. The Shares offered under the Offer carry no guarantee as to the payment of dividends, the return of capital or their market value. An Applicant may not be able to recoup their investment.

(b) Economic factors

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions including the levels of consumer confidence and spending, business confidence and investment, employment, inflation, interest rates, foreign exchange rates, access to debt and capital markets, fiscal policy, monetary policy and regulatory policies. A prolonged deterioration in any number of the above factors may have a material adverse impact on the Company's business and financial performance including its ability to fund its activities.

(c) Management actions

The Directors will, to the best of their knowledge, experience and ability (in conjunction with their management) endeavour to anticipate, identify and manage the risks inherent in the activities of the Company, without assuming any personal liability for the same, with the aim of reducing, avoiding and mitigating the impact of risks on the performance of the Company and its securities.

(d) Business risk

There are risks inherent in doing business, such as unexpected changes in regulatory requirements, trade barriers, longer payment cycles, problems in collecting accounts receivable, infrastructure issues and potentially adverse tax consequences, any of which could adversely impact the success of the Company's operations.

(e) Future capital needs

Further funding may be required to advance the business objectives of the Company or for working capital purposes. The business operated by the Company relies on cash collections and access to funding to grow. The collection periods of more than 12 months involved in pallet rental operations increase the need for the Company to be able to access capital or funding in order to facilitate the growth of its business. However, there can be no assurance that additional funding will be available on satisfactory terms, or at all. Any inability to obtain funding may adversely affect the financial condition of the Company and, consequently, the value of its shares. Any additional equity financing may be dilutive to Shareholders and any debt financing, if available, will impact profitability and may involve restrictive covenants, which may limit the Company's operations and business

strategy. There is a risk that despite efforts from the Company and its management, expansion efforts and future capital raisings will fail, which will adversely affect the Company's growth and profitability.

(f) Share market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. The price of the Company's Shares will be influenced by international and domestic factors which may cause the market price of the securities to fall and may be subject to varied and unpredictable influences on the market for equities. Shareholders should be aware that there are risks associated with any securities investment. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(g) Insurance arrangements

The Company maintains insurance consistent with industry best practice and having regard to the nature of activities being conducted. However, no assurance can be given that the Company will be able to continue to obtain such insurance coverage at reasonable rates or that any coverage it arranges will be adequate and available to cover any such claims.

(h) Ability to attract and retain skilled personnel

The responsibility of overseeing the day-to-day operations and the strategic management of the Company is substantially dependent upon its management and key personnel. The efficient operation of Re>Pal's feedstock management and pallet manufacturing activities requires experience. Whilst key personnel generally enter into service agreements with the Company, there may be a detrimental impact on the Company if they resign. Back-up and training minimises but doesn't eliminate this risk. There can be no assurance given that there will be no short-term detrimental impact on the Company if one or more key employees cease their employment. The future success of the Company also depends upon the ability to attract and retain high performing, motivated and effective management. Failure to attract and retain the necessary personnel could have a material effect upon the Company's business, results of operations and financial condition.

(i) Regulatory risk and government policy

Changes in relevant taxation, interest rates and other legal, legislative and administrative regimes and government policies in Australia, and other jurisdictions in which the Company operates, may have an adverse effect on the assets, operations and ultimately the financial performance of the Company and the market price of its securities.

(j) Climate change mitigation efforts

There are a number of climate-related factors that may affect the operations and proposed activities of the Company and include the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation.

- (k) Specific taxation or penalties for carbon emissions, or environmental damage

Relative to others in our industry, Re>Pal may be advantaged by these types of regulations. However, while the Company will endeavour to manage these risks and limit any impacts, there can be no guarantee that the Company will not be impacted by these occurrences.

- (l) Geo-political risks

The Company's operating subsidiary, Re-Pal International Indonesia, is subject to regulation by the Indonesian central government and local government bodies in relation to operations, environment, community relations and labour regulations. Possible sovereign risks associated with operating in Indonesia include, without limitation, changes in the terms of business and operating regulations, changes to taxation rates and also labour laws and changes in the ability to enforce legal rights. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its shares. No assurance can be given regarding future stability in Indonesia or any other country in which the Company may, in the future, have an interest.

5.4. Investment speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the securities offered under this Offer Booklet. Therefore, the securities to be issued pursuant to this Offer Booklet carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities. Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for securities pursuant to this Offer Booklet.
