Chair's Letter

13 October 2026

Dear Eligible Retail Shareholder,

L1 Global Long Short Fund Limited (ASX:GLS) – Retail Entitlement Offer

On behalf of the Directors, I am pleased to invite you to participate in a pro-rata, non-renounceable entitlement offer for new ordinary shares (**New Shares**) in L1 Global Long Short Fund Limited (**GLS,** the **Company**, or the **Issuer**) (**Retail Entitlement Offer**), which is seeking to raise up to approximately $381.7 million.

This Retail Entitlement Offer provides each Eligible Retail Shareholder with the opportunity to subscribe for one (1) New Share for every two (2) existing ordinary shares (**Existing Shares**) held at 7.00pm (Sydney time) on Thursday, 8 October 2026 (**Record Date**) (**Entitlement**). The Offer Price of these shares is $1.76 per New Share (**Offer Price**), representing the approximate pre-tax NTA per Existing Share as at Friday, 2 October 2026. These New Shares will rank equally with Existing Shares.

In deciding whether to participate, you should consider the prevailing market price of GLS Shares relative to the Offer Price of $1.76 per New Share. The market price of GLS Shares may rise or fall during the Retail Entitlement Offer Period and may be below the Offer Price at the time you make your investment decision. Please see **Section 3** of this **Retail Offer Booklet** for details.

Those shareholders who take up their full Entitlement may also apply for additional New Shares in excess of their Entitlement (**Additional New Shares**), being New Shares not taken up by other Eligible Retail Shareholders (**Top-Up Facility**). The Top-Up Facility will be subject to a scale-back at the sole discretion of the Company, and the allocation of any New Shares under the Top-Up Facility is at the sole discretion of the Company. Further details of the Top-Up Facility, including how Additional New Shares will be allocated, are set out in **Section 1.3** of this Retail Offer Booklet. Entitlements not taken up by the close of the Retail Entitlement Offer will be offered under a shortfall offer to Wholesale Investors (**Retail Shortfall Offer**). Allocations under the Retail Shortfall Offer are at the sole discretion of the Company and will be made after the Retail Entitlement Offer closes.

As disclosed on Tuesday, 6 October 2026, the Company reserves the right to conduct an institutional placement concurrently with, or following the close of, the Entitlement Offer, subject to investor demand and in reliance on its placement capacity under ASX Listing Rule 7.1. The price of any shares issued under any institutional placement will be the same as the Offer Price.

This Retail Offer Booklet relates to the Retail Entitlement Offer and contains important information concerning your potential participation in the Retail Entitlement Offer. The Investor Presentation included in **Section 4** of this Retail Offer Booklet also contains information about GLS, the use of proceeds and some of the key risks associated with an investment in GLS.

You may take up all, part or none of your Entitlement at any time during the Retail Entitlement Offer Period. To participate, you must complete the application process and pay the Offer Price multiplied by the number of New Shares for which you are applying (**Application Monies**) by BPAY®, or if you reside in New Zealand, by BPAY® or EFT. **These must be received by no later than 5.00pm**

(Sydney time) on Friday, 23 October 2026, unless the Retail Entitlement Offer is extended or withdrawn. As the Retail Entitlement Offer is non-renounceable, Entitlements not taken up by the Closing Date will lapse and cannot be traded or transferred.

MUFG, the Company's share registry, is writing to every Eligible Retail Shareholder with a personalised Entitlement and Acceptance Form setting out their Entitlement and explaining how to apply, the key dates, their available options and further information about the Retail Entitlement Offer and certain Australian taxation considerations.

Please carefully read this Retail Offer Booklet in its entirety before you invest and consult your stockbroker, solicitor, accountant or other professional adviser before making your investment decision. In particular, you should read and consider the **Key Risks section** of the Investor Presentation included in **Section 4** of this Retail Offer Booklet.

If you have any questions in respect of the Entitlement Offer, please call the Offer Information Line on 1300 365 798 (within Australia) or +61 1300 365 798 (outside Australia) from 8.30am to 5.30pm (Sydney time), Monday to Friday.

On behalf of the Board, I encourage you to consider this investment opportunity and thank you for your continued support.

Yours faithfully,

Rachel Grimes AM

1.1 Overview

As part of the Retail Entitlement Offer component of the Entitlement Offer, Eligible Retail Shareholders (as defined in **Section 3.2**) are being offered the opportunity to subscribe for one (1) New Share for every two (2) Existing Shares held as at 7.00pm (Sydney time) on Thursday, 8 October 2026 (**Record Date**), at the Offer Price of $1.76 per New Share. The Retail Entitlement Offer is expected to raise up to approximately $381.7 million.

The Offer Price has been determined by reference to the pre-tax NTA value per Existing Share as at Friday, 2 October 2026.

Under the Retail Entitlement Offer, offered Entitlements can be taken up in whole or in part by Eligible Retail Shareholders. Entitlements are non-renounceable and are not tradeable or otherwise transferable.

You should read this Retail Offer Booklet carefully before making any decisions in relation to your Entitlement.

Further details on the Retail Entitlement Offer are set out below.

1.2 Retail Entitlement Offer

The Retail Entitlement Offer opens on Tuesday, 13 October 2026 and will close at 5.00pm (Sydney time) on Friday, 23 October 2026.

The Retail Entitlement Offer is being made pursuant to section 708AA of the Corporations Act (as modified by the *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2026/98* and *ASIC Corporations (Disregarding Technical Relief) Instrument 2026/180*), which allows rights issues to be offered without a prospectus, provided certain conditions are satisfied. This Retail Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an Application for New Shares offered under the Retail Entitlement Offer.

For personal use only

As a result, it is important for you to read carefully and understand the information on the Issuer and the Retail Entitlement Offer made publicly available, including the information lodged by the Issuer with ASX as part of its continuous disclosure obligations, prior to deciding whether to take up all or some of your Entitlement or do nothing in respect of your Entitlement. In particular, please refer to this Retail Offer Booklet and other announcements made available at www.ASX.com.au (including announcements which may be made by the Issuer after publication of this Retail Offer Booklet).

Please consult with your stockbroker, accountant or other professional adviser if you have any queries or are uncertain about any aspect of the Retail Entitlement Offer.

Eligible Retail Shareholders should be aware that an investment in the Issuer involves risks. The key risks identified by the Issuer are summarised in the **Key Risks section** of the Investor Presentation (enclosed in Section 4 of this Retail Offer Booklet).

Subject to any changes at the Board's discretion, the allocation policy for New Shares subscribed for under the Retail Entitlement Offer will be as follows:

- to any Eligible Retail Shareholders who have taken up all or part of their Entitlements by the closing date of the Retail Entitlement Offer; and
- at the discretion of the Board, to any Eligible Retail Shareholders who have applied for Additional New Shares through the Top-Up Facility by the closing date of the Retail Entitlement Offer.

If any shortfall remains following the Retail Entitlement Offer (including following the issuance of Additional New Shares under the Top-Up Facility, which will be subject to the discretion of the Board, including with respect to any scale-backs), the Board reserves the right to issue New Shares under the Retail Shortfall Offer described in **Section 1.4** below.

Directors of the Issuer will not be eligible to participate in the Top-Up Facility or Retail Shortfall Offer in accordance with ASX Listing Rule 10.11. Directors of the Issuer were also not eligible to participate in the Institutional Shortfall Offer in accordance with ASX Listing Rule 10.11.

1.3 Top-Up Facility

The Top-Up Facility will enable Eligible Retail Shareholders that have fully subscribed for their Entitlements under the Retail Entitlement Offer to subscribe for Additional New Shares in excess of their Entitlement. Eligible Retail Shareholders can subscribe for Additional New Shares by following the instructions in Section 3.3(b). No Additional New Shares will be issued to the extent that all Entitlements are taken up in full under the Retail Entitlement Offer.

Eligible Retail Shareholders who apply for Additional New Shares should be aware that:

- there is no guarantee that Eligible Retail Shareholders who subscribe for Additional New Shares will receive all or any of the number of Additional New Shares applied for. The Issuer reserves the sole right to satisfy applications in the Top-Up Facility in its discretion including by applying any scale-backs;

For personal use only

- the allocation of Additional New Shares will depend on the number of Additional New Shares available under the Top-Up Facility;
- Eligible Retail Shareholders may be allocated a lesser number of Additional New Shares than applied for, or may be allocated no Additional New Shares at all, in which case excess Application Monies will be refunded without interest;
- the Additional New Shares will be offered at the Offer Price and the Top-Up Facility will close on the closing date of the Retail Entitlement Offer;
- the Issuer will not issue Additional New Shares under the Top-Up Facility if the allocation would result in an Eligible Retail Shareholder's voting power in the Issuer increasing from 20% or below to more than 20%, or from a starting point that is above 20% and below 90% in breach of section 606 of the Corporations Act; and
- the Issuer's decision on the number of New Shares and Additional New Shares to be allocated to Eligible Retail Shareholders is final.

The Board reserves the right to alter the allocation policy and to allocate and issue Additional New Shares under the Top-Up Facility at its discretion.

1.4 Retail Shortfall Offer

In connection with the Retail Entitlement Offer, if there remains any shortfall of New Shares following the Retail Entitlement Offer (including following the application of the Top-Up Facility, which is set out above, will be subject to the Issuer's sole discretion, including with respect to any scale-backs), the Issuer reserves the right to issue all or any of the New Shares under the Retail Shortfall Offer to new and existing Wholesale Investors at its discretion. The Retail Shortfall Offer opened on Tuesday, 6 October 2026 and attracted strong support from both existing and new wholesale investors with binding bids exceeding the $381.7m available to existing shareholders under the Retail Entitlement Offer. Any amount issued to institutional investors under the Retail Shortfall Offer will depend on the level of take-up by Eligible Retail Shareholders under the Retail Entitlement Offer. The Retail Shortfall Offer is expected to close on 23 October 2026 and may close earlier at the discretion of the Issuer.

The New Shares under the Retail Shortfall Offer are offered at the Offer Price. There will be no general public offer of New Shares under the Retail Shortfall Offer.

There is no guarantee that there will be any shortfall available under the Retail Shortfall Offer or that any application in the Retail Shortfall Offer will be successful. The Issuer reserves the right to satisfy applications under the Retail Shortfall Offer, including by applying a scale-back mechanism. It may elect to preference existing eligible institutional shareholders.

The New Shares issued under the Retail Shortfall Offer will rank equally with Existing Shares (including New Shares issued under the Retail Entitlement Offer) with effect from their date of issue and are expected to be issued on Friday, 30 October 2026.

1.5 Use of funds

The Issuer proposes to invest the funds raised in accordance with the current investment strategy of the Issuer.

2. Summary of options available to you

The Retail Entitlement Offer closes at 5.00pm (Sydney time) on Friday, 23 October 2026.

If you are a Shareholder that is not an Eligible Retail Shareholder (as defined in **Section 3.2**), you are an Ineligible Shareholder. Ineligible Shareholders are not entitled to participate in the Retail Entitlement Offer.

If you are an Eligible Retail Shareholder (as defined in **Section 3.2**) you may take any one of the following actions:

Options available to you	Key considerations
Take up all of your Entitlement	• You may elect to take up all of your Entitlement to purchase New Shares at the Offer Price (see **Section 3.3(a)** for instructions on how to take up your Entitlement). • The New Shares will rank equally in all respects with Existing Shares (including rights to dividends and distributions).[1]
Take up all of your Entitlement and apply for Additional New Shares	• If you take up your Entitlement in full, you may also apply for Additional New Shares under the Top-Up Facility (see **Section 3.3(b)** for instructions on how to apply). Applications for Additional New Shares will be allocated by the Issuer in its sole discretion and will be subject to scale-back (where applicable). • If your payment exceeds the amount payable for your Entitlement, you will be taken to have exercised your Entitlement in full and to have applied for such number of Additional New Shares as are covered in full by the money received in respect of your application (**Application Monies**). • There is no guarantee that an Eligible Retail Shareholder who applies for Additional New Shares will receive all or any of the Additional New Shares for which they applied.
Take up part of your Entitlement	• If you do not take up your Entitlement in full, the portion of your Entitlement not taken up will lapse and you will not receive any payment or value for them (see **Section 3.3(c)** for instructions on how to apply for part of your Entitlement).

[1] Distributions are declared and paid at the discretion of the Issuer. Neither the Issuer nor L1 Capital provides any representation or warranty in relation to the payment of any future distributions.

Options available to you	Key considerations
	• If you do not take up your Entitlement in full, your percentage holding in the Issuer will be diluted.
Do nothing, in which case your Entitlement will lapse and you will receive no payment or value for the lapsed Entitlement	• If you do not take up any of your Entitlement, you will not be allocated New Shares and your Entitlement will lapse (see **Section 3.3(d)**). • Your Entitlement is non-renounceable, which means your Entitlement is non-transferrable and cannot be sold, traded on ASX or any other exchange, nor can it be privately transferred. You will not receive any payment or value for the Entitlement not taken up. • Although you will continue to own the same number of Shares, your percentage holding in the Issuer will be diluted.

3. How to participate

If you are interested in participating in the Retail Entitlement Offer, the key steps are:

1. **Log in to the Offer Website:** Visit https://events.miraqle.com/gls-offer and log in using your Securityholder Reference Number (SRN) or Holder Identification Number (HIN) and postcode to access your personalised Entitlement and Acceptance Form. This will show you how many New Shares you are entitled to apply for.
2. **Read the Retail Offer Booklet**: Read the Retail Offer Booklet available on the Offer Website in full before deciding whether to participate, including the risk factors described in it.
3. **Choose how many New Shares to apply for:** You may take up all or part of your Entitlement. If you take up your Entitlement in full, you may also apply for additional New Shares under the Top-Up Facility, which is at the sole discretion of the Company and may be subject to scale-back.
4. **Pay for your application:** Follow the instructions on your personalised Entitlement and Acceptance Form. Australian shareholders must pay by BPAY®. New Zealand shareholders may pay by BPAY® or EFT, with EFT payments requiring submission of the completed Form as instructed in the Retail Offer Booklet.
5. **Make sure payment is received by the deadline:** Cleared application funds **must be received by 5.00pm (AEDT) on Friday, 23 October 2026** or the portion of your Entitlement not taken up will lapse.

3.1 Your Entitlement

Your Entitlement is set out on your personalised Entitlement and Acceptance Form and has been calculated as one (1) New Share for every two (2) Existing Shares you held as at the Record Date, rounded up to the next whole number.

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Entitlement for each separate holding.

For personal use only

For personal use only

New Shares issued under the Retail Entitlement Offer will be fully paid and from allotment rank equally in all respects with Existing Shares and will be entitled to dividends and distributions on the same basis as Existing Shares.[2] See **Section 3.2** and the "Important Notices" section of this Retail Offer Booklet (particularly under the heading 'Foreign jurisdictions') for information on restrictions on participation in the Retail Entitlement Offer.

By way of example:[3]

Example: Impact of the prevailing trading price

The prevailing trading price of Shares may rise or fall during the Retail Entitlement Offer period and may be above or below the Offer Price when the Offer closes at 5pm, Sydney time on Friday, 23 October 2026. The Offer Price has been set at $1.76 per New Share (representing the pre-tax NTA per Existing Share as at Friday, 2 October 2026) and will not be adjusted for movements in the Issuer's trading price.

The prevailing trading price of Shares on ASX may be above or below the Offer Price at the time you apply for New Shares under the Retail Entitlement Offer. The Offer Price is not adjusted for movements in the trading price after it has been determined. If the prevailing trading price is higher than the Offer Price at the Retail Entitlement Offer closing date, then you would be buying at a discount to what you would pay on-market. If it is lower, then you would be buying at a premium and you could pay less for Shares by buying on market, so you are unlikely to want to take up your Entitlement.

Example 1 – prevailing trading price is above the Offer Price

If the Shares trade at **$2.00** per Share at the time of your application:

Prevailing Trading Price $2.00 – Offer Price $1.76 = $0.24

You would pay $0.24 less per New Share under the Retail Entitlement Offer than the prevailing trading price, i.e. the Offer Price represents a **12% discount** to the prevailing trading price at which you could buy on-market.

Example 2 – prevailing trading price is below the Offer Price

If the Shares trade at **$1.60** per Share at the time of your application:

Prevailing Trading Price $1.60 − Offer Price $1.76 = -$0.16

You would pay $0.16 more per New Share under the Retail Entitlement Offer than the prevailing trading price, i.e. the Offer Price represents a **10% premium** to the prevailing trading price at which you could buy on-market.

---

[2] Distributions are declared and paid at the discretion of the Issuer. Neither the Issuer nor L1 Capital provides any representation or warranty in relation to the payment of any future distributions.

[3] This example is provided for illustrative purposes only and does not constitute a forecast or guarantee of any particular trading price.

For personal use only

During the Retail Entitlement Offer period, the Issuer will release net tangible asset (**NTA**) backing per share announcements twice weekly as follows:

1. Wednesdays, reporting the NTA backing per share calculated based on the close of the previous Friday; and
2. Fridays, reporting the NTA backing per share calculated based on the close of the previous Tuesday.

In addition, a NTA backing per share announcement will be released on each of the final three days of the offer period for the Retail Entitlement Offer, expected to end on Friday, 23 October 2026.

After the Closing Date for the Retail Entitlement Offer, the Company's NTA backing per share announcements will revert to the usual weekly cadence.

The Entitlement stated on your personalised Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up where, for example, you are holding Shares on behalf of a person in the United States. You should consider the risks of investing when making a decision to invest and based on your personal circumstances, including having regard to the prevailing trading price compared to the Offer Price under the Entitlement Offer.

The Entitlements are non-renounceable and will not be tradeable or otherwise transferable. An Eligible Retail Shareholder who does not take up their Entitlement in full will not receive any payment or value for any part of their Entitlement that they do not take up and their percentage holding in the Issuer will be diluted.

The Issuer reserves the right to reject any Application that is received after the Retail Entitlement Offer closes. The Retail Entitlement Offer closes at 5.00pm (Sydney time) on Friday, 23 October 2026 (however, that date may be varied by the Issuer, subject to the Corporations Act, the ASX Listing Rules and other applicable laws, as set out in this Retail Offer Booklet).

3.2 Who is eligible to participate?

This Retail Offer Booklet is being offered to Eligible Retail Shareholders only.

An **Eligible Retail Shareholder** is a Shareholder who:

- is registered as a holder of shares as at 7.00pm (Sydney time) on the Record Date;
- has a registered address on the Issuer's share register in Australia or New Zealand;
- is not in the United States and is not a person (including nominees or custodians) acting for the account or benefit of a person in the United States;
- was not invited to participate in the Institutional Entitlement Offer and was not treated as an ineligible institutional shareholder under the Institutional Entitlement Offer; and
- is eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

If a Shareholder (including a nominee or custodian) is acting for the account or benefit of a person in the United States, it may not participate in the Retail Entitlement Offer on behalf of such person.

A Shareholder who is not an Eligible Retail Shareholder is an Ineligible Shareholder (**Ineligible Shareholder**). The Issuer reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder or an Ineligible Shareholder.

For personal use only

By making a payment by BPAY® (in the case of Eligible Retail Shareholders with a registered address in Australia), or by BPAY® or EFT (in the case of Eligible Retail Shareholders with a registered address in New Zealand), you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

The Issuer has determined, pursuant to ASX Listing Rule 7.7.1(a) and section 9A(3)(a) of the Corporations Act, that it is unreasonable to make offers under the Retail Entitlement Offer to Shareholders who have registered addresses outside Eligible Jurisdictions, having regard to the number of such holders in those places and the number and value of the New Shares that they would be offered, and the relevant legal and regulatory requirements in those places, including the cost of complying with the relevant legal and regulatory requirements.

The Issuer may (in its absolute discretion) extend the Entitlement Offer to Shareholders who have registered addresses outside Eligible Jurisdictions (except for Shareholders in the United States) in accordance with applicable law.

3.3 Options available to you

3.3(a) Taking up all or part of your Entitlement

If you wish to take up all or part of your Entitlement, please pay your Application Monies via BPAY®, if you reside in Australia, or by BPAY® or EFT if you reside in New Zealand, by following the instructions set out on the personalised Entitlement and Acceptance Form, by no later than 5.00pm (Sydney time) on Friday, 23 October 2026. Details of how to pay are set out below in **Section 3.4** and **Section 3.5**.

If you take up and pay for all or part of your Entitlement before the close of the Retail Entitlement Offer, it is expected that you will be issued New Shares on Friday, 30 October 2026.

If you do not take up your Entitlement in full, you will not receive any payment or value for any part of your Entitlement that you do not take up and your percentage holding in the Issuer will be diluted.

If the Issuer receives an amount that is less than the Offer Price multiplied by your Entitlement, your payment may be treated as an Application for as many New Shares as your Application Monies will pay for in full at the Offer Price and the excess amount will be refunded as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to you on any Application Monies received or refunded.

3.3(b) Taking up all of your Entitlement and applying for Additional New Shares

Eligible Retail Shareholders may also apply for Additional New Shares, being New Shares in excess of their Entitlement in connection with the Top-Up Facility (refer to **Section 1.3**).

If you take up all of your Entitlement and wish to apply for Additional New Shares in excess of your Entitlement, see the “Additional New Shares” section in your personalised Entitlement and Acceptance Form and pay your Application Monies for your full Entitlement and your participation in the Top-Up Facility via BPAY®, if you reside in Australia, or by BPAY® or EFT if you reside in New Zealand, by following the instructions set out on the Entitlement and Acceptance Form, by no later

For personal use only

than 5.00pm (Sydney time) on Friday, 23 October 2026. Details of how to pay are set out below in **Section 3.4** and **Section 3.5**.

Please note that the Top-Up Facility will be subject to a scale-back at the sole discretion of the Company, and the allocation of any New Shares under the Top-Up Facility is at the sole discretion of the Company.

However, the Issuer reserves the right to scale-back any application for Additional New Shares under the Top-Up Facility in its absolute discretion. In the event of a scale-back, the difference between the Application Monies received and the number of New Shares allocated to you multiplied by the Offer Price, will be refunded by the Issuer, without interest, following allotment.

3.3(d) Allowing your Entitlement to lapse

If you take no action, you will not be allocated New Shares and your Entitlement will lapse. If you do not take up your Entitlement in full, you will not receive any payment or value for any part of your Entitlement that you do not take up and your percentage holding in the Issuer will be diluted. Entitlements pursuant to the Retail Entitlement Offer which are not taken up by the Closing Date, being 5.00pm (Sydney time) on Friday, 23 October 2026, will lapse.

3.4 Payments via BPAY®

Please follow the instructions on the personalised Entitlement and Acceptance Form. You can only make payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. You can also access BPAY® payment instructions online at the following website: https://events.miraqle.com/GLS-Offer.

- Receipts for payment will not be issued. The Issuer will treat you as applying for as many New Shares as your payment will pay for in full at the Offer Price.
- Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

Please make sure you use the specific Biller Code and your unique Customer Reference Number (**CRN**) on your personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only, use the CRN specific to that holding. If you do not use the correct CRN specific to that holding, your Application will not be recognised as valid.

By paying by BPAY®:

- you do not need to submit your personalised Entitlement and Acceptance Form, but you are deemed to have made the declarations, representations and warranties on that personalised Entitlement and Acceptance Form and in **Section 3.6**; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares as is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than 5.00pm (Sydney time) on Friday, 23 October 2026. 4. ASX launch announcement & Investor Presentation

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

L1 Global Long Short Fund Limited announces a non-renounceable entitlement offer and shortfall offer for up to approximately A$482.7 million

L1 Global Long Short Fund Limited (ASX:GLS) (**Company**) today announces a non-underwritten accelerated pro-rata non-renounceable entitlement offer (**Entitlement Offer**) comprising one (1) new fully paid ordinary share in the Company (**New Shares**) for every two (2) fully paid ordinary shares in the Company and a shortfall offer (**Shortfall Offer**)[1] in each case at an offer price of A$1.76 (**Offer Price**) per New Share to raise up to approximately A$482.7 million. The Entitlement Offer is open to eligible shareholders of the Company with registered addresses in Australia or New Zealand as at 7.00pm (AEDT) on Thursday, 8 October 2026 (**Eligible Shareholders**).[2]

Offer Rationale

The Company intends to invest the proceeds of the Entitlement Offer and the Shortfall Offer (collectively, the Offer) in accordance with the strategy of the investment manager, L1 Capital Pty Ltd (**Investment Manager**). The Investment Manager believes that current market conditions present a compelling opportunity for investment. Heightened geopolitical tensions, higher bond yields and volatility driven by developments in artificial intelligence have created numerous investment opportunities, with many stocks across a number of sectors now trading well below the Investment Manager's assessment of fair value. Accordingly, the Board believes the timing is appropriate to raise additional capital to take advantage of these opportunities with the funds raised from the Offer, which will be deployed into the L1 Global Long Short Strategy. Further information in relation to the strategy of the Investment Manager can be found at Section 1 of the Investor Presentation released with this announcement to the ASX today.

Investment Performance and FY27 Dividend Guidance

From 28 November 2025, when L1 Capital Pty Ltd assumed the investment management contract for the Company, to 30 September 2026, the Company's portfolio delivered a net return of 19.4%, compared with a return of 12.7% for the MSCI World Index.[3] The Company has previously confirmed that, given the Company's strong investment performance, the Board intends to pay fully franked dividends of a minimum of 8.0 cents per share for FY27, comprising quarterly dividends of 2.0 cents per share, consistent with the Board's objective of providing shareholders with a sustainable and growing stream of fully franked dividends over time. The payment of each dividend remains subject to Board approval, the Company's financial position and performance and the availability of sufficient profits and franking credits.

Entitlement Offer

The Entitlement Offer comprises an accelerated non-renounceable institutional component involving an offer of New Shares to certain eligible institutional shareholders of the Company with a registered address in Australia or New Zealand (**Institutional Entitlement Offer**) and a non-renounceable retail component involving an offer of New Shares to eligible

[1] The shortfall offer in respect of the Institutional Entitlement Offer is the **Institutional Shortfall Offer** and the shortfall offer in respect of Retail Entitlement Offer is the **Retail Shortfall Offer**. Collectively, the Institutional Shortfall Offer and the Retail Entitlement Offer are the **Shortfall Offer**.

[2] Eligible Shareholders are persons who: (a) are registered as a holder of ordinary shares in the Company; (b) have a registered address on the Company's share register in Australia or New Zealand; (c) are not in the United States and are not acting for the account or benefit of a person in the United States; and (d) are eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

shareholders of the Company with a registered address in Australia or New Zealand (**Retail Entitlement Offer**) and is open to Eligible Shareholders.

Mark Landau and Raphael Lamm, the founders and Co-Chief Investment Officers of the Investment Manager, have each separately indicated that they intend to take up their full entitlements under the Entitlement Offer through their personal investment vehicles.

Institutional Entitlement Offer

Certain eligible institutional shareholders of the Company will be invited to participate in the Institutional Entitlement Offer. The Institutional Entitlement Offer will open today, Tuesday, 6 October 2026.

Under the Institutional Entitlement Offer, eligible institutional shareholders can choose to take up all, part of or none of their entitlement. Entitlements that eligible institutional shareholders do not take up by the close of the Institutional Entitlement Offer, and entitlements that otherwise would have been offered to ineligible institutional shareholders of the Company, will be offered to certain new and existing institutional investors under the Institutional Shortfall Offer.

Retail Entitlement Offer

Eligible retail shareholders and eligible institutional shareholders (not participating in the Institutional Entitlement Offer) will be entitled to participate in the Retail Entitlement Offer on the terms set out in the retail offer booklet (**Retail Offer Booklet**). The Retail Offer Booklet and accompanying entitlement and acceptance form are expected to be made available on Tuesday, 13 October 2026.

Eligible retail shareholders who take up their full entitlement under the Entitlement Offer may also apply for additional New Shares in excess of their entitlement at the Offer Price through a top-up facility under the Entitlement Offer (**Top-Up Facility**), details of which will be contained in the Retail Offer Booklet. Applications under the Top-Up Facility may be scaled back at the sole discretion of the Company and the allocation of any New Shares under the Top-Up Facility is at the sole discretion of the Company.

Certain institutional investors will also be invited to apply for New Shares not subscribed for under the Entitlement Offer and Top-Up Facility under the Retail Shortfall Offer. There will be no general public offer of New Shares under the Shortfall Offer.

Further information

The Company has appointed Canaccord Genuity (Australia) Limited, E&P Capital Pty Limited and Taylor Collison Limited to act as joint lead arrangers and joint lead managers and Ord Minnett Limited, Morgans Financial Limited, Shaw and Partners Limited, Commonwealth Securities Limited, Bell Potter Securities Limited, MST Financial Services Pty Limited and National Australia Bank Limited to act as joint lead managers. The Offer is not underwritten.

New Shares issued under the Offer will rank equally with existing shares, including with respect to entitlements to future dividends with effect from their issue date.[4]

The Offer Price is approximately equal to the pre-tax net tangible asset value per ordinary share in the Company as at Friday, 2 October 2026.[5]

The Entitlement Offer is non-renounceable. This means that Eligible Shareholders who do not take up their entitlement to participate in the Entitlement Offer will not be able to transfer or receive any value for those entitlements. Further details will be contained in the Retail Offer Booklet to be dispatched in accordance with the indicative timetable below. Eligible Shareholders are encouraged to read the Retail Offer Booklet in its entirety and, in particular, the risk factors, and should seek financial advice if they are uncertain whether to participate.

[4] Please refer to the "Entitlement Offer Timetable" section of this announcement for the expected timing of the allotment and quotation of New Shares issued under the Offer. Distributions are declared and paid at the discretion of the Company. Neither the Company nor the Investment Manager provides any representation or warranty in relation to the payment of any future dividends.

[5] All figures are unaudited and approximate. The pre-tax NTA is calculated before the provision for deferred tax on unrealised gains and losses on the investment portfolio.

The past performance of the companies managed by the Investment Manager is not a guide to future performance of the investment strategy or the Company. There are risks inherent in the investment strategy that the Investment Manager will employ for the Company. An inherent part of the strategy is to identify securities which are undervalued (or, in the case of short positions, overvalued) by the marketplace. Success of such a strategy depends upon the market eventually recognising such value in the price of the security, which may not necessarily occur. Equity positions, including initial public offerings, may involve highly speculative securities. The ability of the Investment Manager to construct a long portfolio of securities that outperforms and a short portfolio of securities that outperforms is both crucial to the success and profitability of the Company. While certain short positions act as a hedge for the Company's long investments, there is a risk that losses are incurred on the long and short portfolios at the same time.
Investment Manager risk	The Company's performance depends on the expertise and investment decisions of the Investment Manager. Its opinion about the intrinsic worth of a company or security may be incorrect, the Company's investment objective may not be achieved and the market may continue to undervalue the securities within the portfolio from time to time. Further, the success and profitability of the Company will largely depend on the Investment Manager's continued ability to manage the portfolio in a manner that complies with the Company's objectives, strategies, policies, guidelines and permitted investments. Should the Investment Manager become unable to perform investment management services for the Company or should there be significant key personnel changes at the Investment Manager, the Company's investment activities may be disrupted and its performance negatively impacted.
Market risk	The portfolio will be exposed to market risk. The market risk of assets in the Company's portfolio can fluctuate as a result of market conditions. The value of the portfolio may be impacted by factors such as economic conditions, interest rates, regulations, sentiment and geopolitical events as well as environmental, social and technological factors. The Investment Manager will seek to reduce market and economic risks to the extent possible. In addition, as the Company is listed on the ASX, the shares are exposed to market risks. As a result, the share price may trade at a discount or a premium to its NTA.

Key Risks (continued)

Short selling risk	There are inherent risks associated with short selling. Short selling involves borrowing securities which are then sold. If the price of the securities falls, then the Company can buy those securities at a lower price to transfer back to the lender of the securities. However, if the price of a security rises the Company may be required to close the position at a significant loss. Short selling can be seen as a form of leverage and may magnify the gains and losses achieved in the portfolio. While short selling may be used to manage certain risk exposures in the portfolio and increase returns, it may also have a significantly increased adverse impact on its returns. Short selling exposes the portfolio to the risk that investment flexibility could be restrained by the need to provide collateral to the securities lender and that positions may have to be liquidated at a loss and not at a time of the Investment Manager's choosing.
Derivative risk	The Company may invest in exchange traded derivatives and over-the-counter derivatives including options, futures and swaps, currency, credit default exposures, currency forwards/contracts and related instruments. The Company may use derivative instruments for risk management purposes and to take opportunities to increase returns. Investments in derivatives may cause losses associated with the value of the derivative failing to move in line with the underlying security or as expected. Derivative transactions may be highly volatile and can create investment leverage, which could cause the Company to lose more than the amount of assets initially contributed to the transaction. The Company's use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments.
Foreign issuer and market risk	Investments in foreign companies may be exposed to a higher degree of sovereign, political, economic, market and corporate governance risks than Australian investments.
Currency risk	Investing in assets denominated in a foreign currency creates an exposure to foreign currency fluctuations, which can change the value of the portfolio's investments measured in Australian dollars. For example, if an equity investment is denominated in a foreign currency and that currency depreciates in value against the Australian dollar, the value of that investment may depreciate when translated into Australian dollar and the portfolio may suffer a loss as a result (notwithstanding that the underlying equity has appreciated in value in its currency of denomination). The Investment Manager will seek to regularly monitor price movements for global securities and may perform currency trades to maintain an Australian dollars hedged portfolio. While it is the general intention of the Investment Manager to hedge the portfolio into Australian dollars, the Investment Manager is allowed to leave global securities unhedged if the Investment Manager believes this would be in the best interests of the Company. This decision may result in gains or losses in local currency terms.
Counterparty and collateral risk	The Company uses the services of prime brokers to facilitate the lending of securities to short sell. Until the Investment Manager returns a borrowed security, it will be required to maintain assets with the prime brokers as collateral. As such, the Company may be exposed to certain risks in respect of that collateral, including that the Company will be required to post initial margin/collateral to the counterparty in the form of cash. The Portfolio will need to have sufficient liquid assets to satisfy this obligation. Furthermore, if the value of short positions or derivatives move against it, it will be required to post variation margin/collateral with the counterparty on an ongoing basis. The Portfolio will need to have sufficient liquid assets to satisfy such calls, and in the event it fails to do so, the counterparty may have a right to terminate such arrangements and the Company may be subject to the credit risk of the counterparty. In the event the counterparty becomes insolvent at a time it holds margin/collateral posted with it by the Company, the Company will be an unsecured creditor and will rank behind other secured creditors. In the event of insolvency of any of the custodian or the prime broker, the Company may not be able to recover the entire value of the relevant securities.
Liquidity risk	The Company is exposed to liquidity risk in relation to the investments within its portfolio. If a security cannot be bought or sold quickly enough (or at all) to minimise potential losses, the Company may have difficulty satisfying commitments associated with financial instruments. If the Company is unable to buy or sell securities, it may suffer significant losses. The Company's shares are also exposed to liquidity risk. The ability of an investor in the Company to sell their shares on the ASX will depend on the turnover or liquidity of the shares at the time of sale. Therefore, investors may not be able to sell their shares at the time, in the volumes or at the price they desire.

Key Risks (continued)

Compensation fee structure risk	The Investment Manager receives compensation based on the portfolio's performance. The performance fee may create an incentive for the Investment Manager to make investments that are riskier or more speculative than would be the case in the absence of a fee based on the performance of the portfolio.
Conflict of interest risk	Failure to deal appropriately with actual, potential or perceived conflicts of interest could damage, the Company's and L1 Capital's reputation and materially adversely affect its business. It is possible that actual, potential or perceived conflicts could give rise to client dissatisfaction, litigation or regulatory enforcement actions. Appropriately identifying and managing actual or perceived conflicts of interest is complex and difficult, and the reputation of the Company and L1 Capital could be damaged or could be subject to regulatory scrutiny or litigation if it fails or appears to fail to deal appropriately with one or more actual or perceived conflicts of interest.
Leverage and borrowing risk	The Investment Manager is permitted to borrow on behalf of the Company. The Investment Manager may use debt to increase the scale of the portfolio of the Company or to purchase securities outside of Australia in the relevant currency (for example in USD to purchase US securities). There are risks in using leverage in this manner. The use of derivatives and short selling may have an effect similar to debt leverage in that it can magnify the gains and losses achieved in the portfolio in a manner similar to a debt leveraged portfolio. These risks give rise to the possibility that positions may have to be liquidated at a loss and not a time of the Investment Manager's choosing. There are limits on leverage that the Company may undertake. The Company may also finance certain investment activities with secured and unsecured borrowing. There is no assurance that the Company will be able to obtain borrowing or do so on terms that it deems acceptable. Furthermore, there is no assurance that counterparties will continue to extend borrowing to the Company. The inability to obtain borrowing or loss of existing lines of credit may adversely impact the performance of the Company. Like other forms of leverage, the use of borrowing can enhance the risk of capital loss in the event of adverse changes in the level of market prices of the assets being financed with the borrowings.
Credit risk	Credit risk refers to a risk of loss arising from the failure of a borrower or other party to a contract to meet its obligations. This may arise in derivatives, fixed interest securities, loans and cash deposits. Entry into transactions, such as derivatives and short selling, may also give rise to counterparty risk. In addition, the Company may deposit cash with its counterparties for purposes that may include acting as security for its performance under a swap or similar contract or providing an offset to the cost of a swap contract. Substantial losses could be incurred if a counterparty fails to deliver on its contractual obligations, or experiences financial difficulties.
Default risk	Investment in securities and financial instruments generally involves third parties as custodians and counterparties to contracts. Use of third parties carries risk of default and failure to secure custody which could adversely affect the value of the Company. The Company will use the services of the prime brokers and outsource key operational functions including investment management, custody, execution, administration and valuation to a number of third-party service providers. There is a risk that third party service providers may intentionally or unintentionally breach their obligations to the Company or provide services below standards which are expected by the Company, causing loss to the Company.
Equity securities risk	Equity securities fluctuate in value in response to many factors, including the activities and financial condition of individual companies, the business market in which individual companies compete and industry market conditions and general economic environments.

Key Risks (continued)

Small and Medium Capitalisation Companies	The Company may invest a portion of its assets in the securities of companies with small to medium-sized market capitalizations. While such companies often provide significant potential for appreciation, those stocks, particularly small-capitalization stocks, involve higher risks in some respects than do investments in securities of larger companies. In addition, due to thin trading in the securities of some small-capitalization companies, an investment in those companies may be illiquid.
Convertible Securities Risk	The Company may invest in convertible securities. The market value of a convertible security performs like that of a regular debt security; that is, if market interest rates rise, the value of a convertible security usually falls. In addition, convertible securities are subject to the risk that the issuer will not be able to pay interest or dividends when due, and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness. Since it derives a portion of its value from the common stock into which it may be converted, a convertible security is also subject to the same types of market and issuer risks that apply to the underlying common stock.
Share price, NTA and dividend risk	The Company's Shares may trade at a discount to its NTA per share. There can be no guarantee that Shareholders will be able to buy or sell Shares for a price which they believe fairly reflects the value of their Shares. Shareholders should regard any investment in the Company as a medium-to-long term proposition (more than three years) and to be aware that, as with any equity investment, substantial fluctuations in the value of their investment may occur over that period and beyond. Whether a listed investment company trades at a discount to its NTA (or in some circumstances, at a premium to its NTA) can be influenced by a number of factors including, but not limited to, falls in domestic or global markets, the performance of its portfolio, its history of dividend payments, the requirement to pay management fees, its marketing and communication strategy and the overall experience of its investment management team and historical performance of the Manager. Further, the market value of the Portfolio, the Company's NTA backing per Share, its operating profit, dividends paid to Shareholders and the market price of the Company's Shares will fluctuate (rise or fall). In certain circumstances reductions in the value of the Company, its Shares, profit or dividends may continue for an extended period of time or be permanent.
Gross and net exposure	The portfolio may have a maximum net exposure (long positions minus short positions) of 150% of net asset value (NAV) and a maximum gross exposure (total of long and short positions) of 350%. This is a meaningful leverage strategy which seeks potentially higher but more volatile returns.
Regulatory compliance risk	In order to ensure compliance with the constitution of the Company, the Corporations Act, ASIC policy and the ASX Listing Rules, the Company has an established regulatory compliance and governance framework. compliance with existing regulations, the political and regulatory environment and adherence to internal processes is monitored. From time to time, the Company or L1 Capital may become subject to regulatory investigations. The inherent uncertainty of the investigative processes may have an effect on its operational or financial position, through demands on management time and increased costs. Such investigations may result in administrative actions or legal proceedings against the Company, L1 Capital or their key persons. Such actions or proceedings, if successful, could attract fines and civil and criminal liability and amendments or cancellation of relevant Australian Financial Services Licenses. There is also the risk that its reputation may suffer due to the profile of, and public scrutiny surrounding, any regulatory investigation, regardless of the outcome. Any of the actions or investigations described above may have a negative impact on the Company.

Key Risks (continued)

Uncertain legal and regulatory environment risk	The laws and regulations affecting western investment and business continue to evolve in an unpredictable manner in certain foreign markets. Laws and regulations applicable to the Company's activities, particularly those involving taxation, currency regulation, foreign investment and trade and transfer of title to securities and other property, are relatively new and can change quickly and unpredictably. Although basic commercial laws are in place, in many foreign market economies they are often unclear and untested and subject to varying interpretation, and may at any time be amended, modified, repealed or replaced in a manner adverse to the interests of the Company. There is also a risk that government or regulator may introduce regulatory and/or tax changes, or a court makes a decision regarding the interpretation of the law, which affects the value of assets held or the tax treatment of the Company or investments in the portfolio.
Cyber risk	While the Company's risk management framework and controls seek to minimise the risk, information and technology systems, or those of its suppliers or other counterparties, may be vulnerable to damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorised persons and security breaches, usage errors, power outages and catastrophic events. If these systems are compromised, become inoperable for extended periods of time or cease to function properly, L1 Capital and/or the Company may have to make a significant investment to fix or replace them. The failure of these systems and/or of disaster recovery plans for any reason could cause significant interruptions in operations and result in a failure to maintain the security, confidentiality or privacy of sensitive data, including personal information relating to shareholders.
Service provider risk	Key operational functions of the Company will be outsourced including investment management (to L1 Capital), custody, administration and valuation to a number of third-party service providers. There is a risk that third party service providers may intentionally or unintentionally breach their obligations to the Company or provide services below standards which are expected causing loss to the Company.
Litigation risk	The Company and L1 Capital may be subject to litigation, class action or other prosecutions or proceedings, claims or disputes from time to time. If the Company or L1 Capital were to be found liable in any such proceedings, this could result in a requirement to pay damages, fines, compensation and/or other penalties, as well as the risk of reputational damage. This, in turn, may adversely impact the reputation, financial performance and position of the Company or L1 Capital.

Risks key risks associated with the Offer

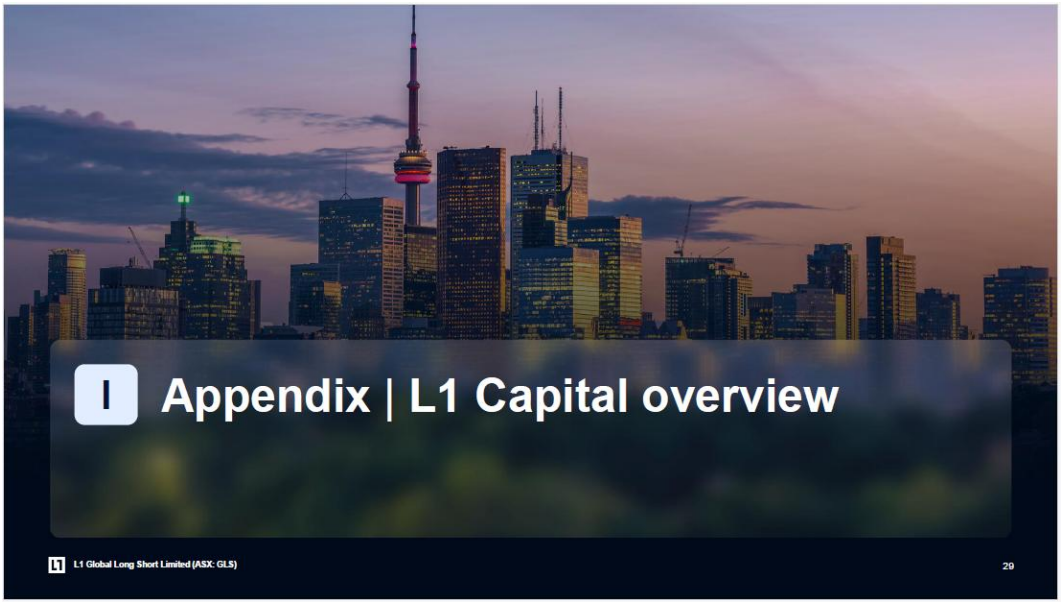

Not underwritten	The Offer is not underwritten. This means that there is no certainty that the Company will raise the amount of capital which it is seeking.
Non-renounceable entitlements	Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Accordingly, if you do not take up your Entitlement, you will not receive any value for these entitlements.
Dilution	On completion of the Entitlement Offer, the Company will issue Shares. As a result, the total number of Shares on issue will increase and if shareholders do not take up their Entitlement, their percentage shareholding in the Company will decrease. Before deciding whether to take up Shares under the Entitlement Offer, you should seek independent advice.

Key Risks (continued)

General investment risks

Economic and market risk	The Portfolio will be exposed to economic and market risk as its value can fluctuate as a result of economic and market conditions, including factors such as interest rates, regulations, sentiment and geopolitical events, as well as environmental, social and technological changes. Economic factors that may affect the investment returns of the Company include movements in interest rates, exchange rates, securities markets, inflation, consumer spending, employment and the performance of individual local, state, national and international economies. A general economic downturn may have a significant negative impact on the price of the Company's shares. In addition, exogenous shocks, natural disasters and acts of terrorism and financial market turmoil (such as the global financial crisis) can add to equity market volatility as well as impact directly on individual entities. As a result, no guarantee can be given in respect of the future earnings of the Company or the earnings and capital appreciation of the Portfolio or appreciation of the price of the Company's shares. Security markets also tend to move in cycles, and individual security prices may fluctuate and underperform other asset classes over extended periods of time.
Economic conditions and global issues	The economies in jurisdictions where the Company has positions may differ favourably or unfavourably from the economies of other developed countries. Examples include: growth of gross domestic product; rate of inflation; currency depreciation; capital reinvestment; resource self-sufficiency; and balance of payments position. The Company may have exposure to emerging markets (developing economies with some market accessibility) or frontier markets (less developed economies with limited market accessibility) where economies can involve greater risk than is customarily associated with larger or established economies. This can result in such positions being more susceptible to loss. As with any jurisdiction, there is the possibility of political changes, government regulation, social instability or diplomatic developments (including war) which could affect adversely the value of the Portfolio.
Market Liquidity	The trading price of listed shares can change, due to many factors including performance and matters inherent to the investment performance of the positions. This could be due to external factors such as market sentiment, or a range of other factors including the presence of larger buying or selling interest in the Company's shares. Securities on the ASX may be thinly or heavily traded, and can be very volatile, irrespective of any change in the underlying value of the positions in the Company. Shareholders should expect that for periods of time, the Company's shares may trade below the stated underlying NTA. There can be no guarantee that the number of buyers at any point in time in the market will match or exceed the number of sellers, or that shareholders will be able to sell for a price which they or the Company believe fairly reflects the value of their shares.
Changes in taxation and accounting standards	Changes in general taxation law and, in particular, income tax, GST or stamp duty legislation, case law in Australia, rulings and determinations issued by the Australian Commissioner of Taxation or other practices of tax authorities, may adversely affect the Company's returns. Any changes to the tax regime applicable to the Company may adversely affect the tax treatment of distributions in the hands of investors. Tax considerations may differ between investors. Therefore, investors are encouraged to seek professional tax advice in connection with any investments in the Company's shares. There are particular taxation rules that apply to offshore investors. Offshore investors should obtain their own taxation advice in relation to those rules.

5. Additional information

5.1 Currency of information

The information contained in the ASX announcement and the Investor Presentation set out in **Section 4** of this Retail Offer Booklet was current as at the date on which those documents were released to ASX. All other statements in this Retail Offer Booklet are made as at the date of this Retail Offer Booklet unless otherwise stated, and the information in this Retail Offer Booklet remains subject to change without notice. Neither the Issuer, L1 Capital nor Taylor Collison is responsible for updating this Retail Offer Booklet.

There may be additional announcements that are made by the Issuer (including after the date of this Retail Offer Booklet) that may be relevant to your consideration of whether to take up your Entitlement. Therefore, you should check whether any further announcements have been made by the Issuer before submitting an Application.

5.2 Ranking of New Shares

New Shares issued under the Retail Entitlement Offer and Retail Shortfall Offer will be fully paid and from allotment rank equally in all respects with Existing Shares and will be entitled to dividends/distributions on the same basis as Existing Shares.[4] The rights and liabilities attaching to the New Shares are set out in the Issuer's constitution.

5.3 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your Application once it has been accepted. Eligible Retail Shareholders wishing to participate in the Retail Entitlement Offer are encouraged to pay for your New Shares through BPAY® or EFT (as applicable) in the manner described in this Retail Offer Booklet and your Entitlement and Acceptance Form as soon as possible after the Retail Entitlement Offer opens.

5.4 Notice to nominees and custodians

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees with registered addresses in Eligible Jurisdictions may be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold Existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

Nominees and custodians may not distribute this document, and may not permit any beneficial securityholder to participate in the Retail Entitlement Offer, in any country outside Australia and New Zealand except, with the consent of the Issuer, to beneficial securityholders resident in certain other countries where the Issuer may determine it is lawful and practical to make the Retail Entitlement Offer.

---

[4] Distributions are declared and paid at the discretion of the Issuer. Neither the Issuer nor L1 Capital provides any representation or warranty in relation to the payment of any future distributions.

For personal use only

If the Issuer believes you hold Shares as a nominee or custodian you will have received, or will shortly receive, a letter in respect of the Retail Entitlement Offer. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Entitlement Offer is not available to, and they must not purport to accept the Retail Entitlement Offer in respect of:

- beneficiaries on whose behalf they hold Existing Shares who would not satisfy the criteria for being an Eligible Retail Shareholder; or
- Shareholders who are not eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

In particular, persons acting as nominees or custodians for other persons must not take up any Entitlements on behalf of, or send any part of this Retail Offer Booklet or any documents related to the Retail Entitlement Offer to, any person in the United States or any person that is acting for the account or benefit of a person in the United States. Persons in the United States and persons acting for the account or benefit of persons in the United States will not be able to exercise any Entitlements and may receive no payment or value for them.

The Issuer is not required to determine whether or not any registered holder or investor is acting as a nominee or custodian or the identity or residence of any beneficial owners of Existing Shares or Entitlements. Where any person is acting as a nominee or custodian for a foreign person, that person, in dealing with its beneficiary, will need to assess whether indirect participation in the Retail Entitlement Offer by the beneficiary complies with applicable foreign laws. The Issuer is not able to advise on foreign laws.

5.5 Allotment, quotation and trading

The Issuer will apply to ASX for official quotation of the New Shares, in accordance with the ASX Listing Rules requirements. If ASX does not grant such quotation, the Issuer will repay all Application Monies (without interest).

It is expected that allotment of the New Shares under the Retail Entitlement Offer and Retail Shortfall Offer will take place on Friday, 30 October 2026. Subject to approval being granted, it is expected that normal trading of New Shares allotted under the Entitlement Offer and Retail Shortfall Offer will commence on Monday, 2 November 2026. Application Monies will be held by the Issuer on trust for applicants until the New Shares are allotted. No interest will be paid on Application Monies.

It is the responsibility of applicants to determine the number of New Shares allotted and issued to them prior to trading in such shares. The sale by an applicant of New Shares prior to receiving their holding statement is at the applicant's own risk.

5.6 Continuous disclosure

The Issuer is a 'disclosing entity' under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules, including the preparation of annual reports and half yearly reports. The Issuer is required to notify the ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the stock markets conducted by the ASX.

For personal use only

In particular, the Issuer has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of its securities. That information is available to the public from the ASX and can be accessed at www.ASX.com.au.

Some documents are required to be lodged with ASIC in relation to the Issuer. These documents may be obtained from, or inspected at, an ASIC office.

5.7 Offer management agreement

The Issuer and L1 Capital have entered into an offer management agreement with the Joint Lead Arrangers and Joint Lead Managers, as amended from time to time (**Offer Management Agreement**), under which the Joint Lead Managers have agreed to manage the Entitlement Offer, the Institutional Shortfall Offer and the Retail Shortfall Offer, subject to the terms and conditions of the Offer Management Agreement. The obligations of the Joint Lead Arrangers and Joint Lead Managers are subject to the satisfaction of certain terms and conditions which are customary for an Offer Management Agreement of this type, including conditions precedent, representations, warranties, indemnities and undertakings in favour of the Joint Lead Arrangers and Joint Lead Managers.

The Joint Lead Arrangers and Joint Lead Managers are entitled to terminate the Offer Management Agreement, subject to certain conditions, upon the occurrence of a number of customary events. This entitlement is summarised in the "Offer Management Agreement Summary" at Appendix II of the Investor Presentation (see **Section 4** of this Retail Offer Booklet).

Under the Offer Management Agreement, L1 Capital Pty Ltd (manager of the Issuer) will pay the following fees for the Retail Entitlement Offer (including under the Top-Up Facility) and Retail Shortfall Offer:

- To the Joint Lead Arrangers in equal proportions an arranger fee of 0.20% (excluding GST) of wholesale client applications in respect of the New Shares, multiplied by the Offer Price.
- To the Joint Lead Managers:
    - a management fee of 1.00% (exclusive of GST) of wholesale client applications they have procured in respect of the New Shares, multiplied by the Offer Price; plus
    - a selling fee of 1.50% (exclusive of GST) of wholesale client applications they have procured in respect of the New Shares, multiplied by the Offer Price.

The actual amount of fees payable to the Joint Lead Arrangers and Joint Lead Managers will not be known until the completion of the Retail Entitlement Offer and Retail Shortfall Offer.

In addition, L1 Capital will pay for all reasonable expenses in connection with the Offer Management Agreement, the offer documents or the offer, including reasonable legal fees, marketing or travel fees.

The Appendix 3B released to the ASX on Tuesday, 6 October 2026 also includes details of fees payable in connection with the Entitlement Offer.

Please see the ASX launch announcement and Investor Presentation (in particular, the "Offer Management Agreement Summary" at Appendix II of the Investor Presentation) set out in **Section 4** for further details about the Offer Management Agreement.

5.8 Effect on capital structure

The proposed capital structure of the Issuer following the issue of the Shares in connection with the Retail Entitlement Offer will be as follows (assuming that there is a 100% take up of Entitlements under the Retail Entitlement Offer and that the Entitlement Offer completes successfully):

Event	Shares
Shares on issue as at the Record Date	548,522,277
Shares issued under the Institutional Entitlement Offer and Institutional Shortfall Offer	57,351,182
Shares to be issued under the Retail Entitlement Offer (including Top-Up Facility) and the Retail Shortfall Offer	216,909,959
Total Shares on issue on completion of Entitlement Offer, the Institutional Shortfall Offer and the Retail Shortfall Offer	822,783,418

The final number of Shares to be issued under the Retail Entitlement Offer including the Top-Up Facility is subject to reconciliation and rounding.

The above table provides a pro-forma capital structure of the Issuer after completion of the Retail Entitlement Offer and Retail Shortfall Offer assuming:

- no other Shares are issued by the Issuer between the date of this Retail Offer Booklet and the Closing Date; and
- the Retail Entitlement Offer is fully subscribed, or to the extent it is not fully subscribed, all other Entitlements are allocated under the Top-Up Facility and Retail Shortfall Offer such that the maximum number of New Shares to be issued under the Retail Entitlement Offer are issued.

5.9 Directors' interests

The relevant interest of each of the Directors in securities of the Issuer as at the date of this Retail Offer Booklet, together with their Entitlement under the Retail Entitlement Offer are set out below:

Julian Russell	0	Less than 0.1%	0
Katrina Glendinning	49,101	Less than 0.1%	24,551

The Directors will not be eligible to participate in the Top-Up Facility or the Retail Shortfall Offer, in accordance with ASX Listing Rule 10.11.

5.10 Control implications

Summary

The potential effect of the issue of the New Shares under the Retail Entitlement Offer and Retail Shortfall Offer on the control of the Issuer will depend on a number of factors, including the extent to which Eligible Retail Shareholders take up their Entitlement under the Retail Entitlement Offer. In the likely event that some Eligible Retail Shareholders do not take up their full Entitlement under the Retail Entitlement Offer, or in the case of Shareholders who are not Eligible Retail Shareholders, those Eligible Retail Shareholders' and other Shareholders' percentage holdings in the Issuer will be diluted by those Eligible Retail Shareholders who take up some or all of their Entitlement, and by Eligible Retail Shareholders who apply under and to whom New Shares are allocated under the Top-Up Facility, and by Wholesale Investors who subscribe for New Shares under the Retail Shortfall Offer. However, it is not anticipated that the Retail Entitlement Offer will have a significant effect on the control of the Issuer.

L1 Group participation and participation by individual L1 personnel

Mark Landau and Raphael Lamm, the founders of L1 Capital, each took up their full Entitlements through the Institutional Entitlement Offer.

In light of the strength of the demand, L1 Group Limited (ASX:L1G) (**L1G**) elected not to take up its entitlement of approximately A$70.1 million in the Institutional Entitlement Offer so that this could be placed to new shareholders via the Institutional Shortfall Offer with L1G's entitlement ultimately taken up in full. L1G may subscribe for any shortfall in the retail component of the Entitlement Offer.

5.11 Reconciliation

The Retail Entitlement Offer is a complex process and in some instances investors may believe that they owned more Shares than they ultimately were recorded as holding as at the Record Date or are otherwise entitled to more New Shares than initially offered to them. This may result in a need for reconciliation to ensure all Eligible Retail Shareholders have the opportunity to receive their full Entitlement.

The Issuer may need to issue a small quantity of additional New Shares to ensure all Eligible Retail Shareholders have the opportunity to receive their appropriate allocation of New Shares. The price at which these New Shares would be issued, if required, is the same as the Offer Price.

The Issuer also reserves the right to reduce the size of Entitlements or the number of New Shares allocated to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders or other applicable investors, if the Issuer believes in its absolute discretion that their claims are overstated or if they or their nominees fail to provide information requested to substantiate their claims, or if they are not Eligible Retail Shareholders.

5.12 Privacy

As a Shareholder, the Issuer and the Issuer's share registry (**Share Registry**) have already collected certain personal information (which includes your name, mailing address, details of your shareholding, number of Entitlements grants, and bank account details) from you. If you apply for New Shares, the Issuer and the Share Registry may update that personal information or collect additional personal information for the purposes of:

- processing your Application and assessing your acceptance of the New Shares;
- servicing your needs as a Shareholder and providing facilities and services that you request; and
- carrying out appropriate administration.

This Retail Entitlement Offer is a rights issue in accordance with the Corporations Act, and the Issuer is required to collect personal information about you under the Corporations Act and Australian taxation laws as part of this offer. If you do not provide your personal information, the Issuer may be hindered in, or prevented from, processing your Application. The Issuer and the Share Registry may disclose this personal information for these purposes, or as required or authorised by law, to its subsidiaries and relevant organisations involved in providing, managing or administering your product or service such as third party suppliers, other organisations, loyalty and affinity partners, printers, posting services, call centres, and the Issuer's advisers.

Some of the personal information that the Issuer receives about you may be collected by the Issuer from the Share Registry or from a broker or third party if you have listed such a party as your contact. The personal information you provide will ordinarily be held and used within Australia and disclosed to third parties who are located in Australia. The Issuer may disclose information to recipients which are located outside Australia. You can find details about the location of some of these recipients in the L1 Capital's Privacy Policy. Where personal information is disclosed, the Issuer will seek to ensure that the information is held, used or disclosed consistently with the *Privacy Act 1988* (Cth) and any other applicable privacy laws and codes. L1 Capital's Privacy Policy is available on its website at www.L1.com.au/L1-privacy-policy/ and provides more information on:

For personal use only

- how L1 Capital stores and uses, and how you may access and correct, your personal information;
- how you can lodge a complaint regarding L1 Capital's handling of your personal information; and
- how L1 Capital will handle any complaint.

If you would like any further information about the Issuer's privacy practices or access to the personal information collected by the Issuer in relation to your shareholding, you may contact the Registry through the Offer Information Line on 1300 365 798 (within Australia) or +61 1300 365 798 (outside Australia). The Offer Information Line operates from 8.30am to 5.30pm (Sydney time) Monday to Friday (excluding public holidays) during the Retail Entitlement Offer Period.

6. Australian taxation considerations

6.1 General

Set out below is a general summary of the Australian income tax, goods and services tax (GST) and stamp duty implications associated with the subscription of New Shares for certain Eligible Retail Shareholders.

This summary is general in nature and does not take account of the individual circumstances, financial objectives, tax positions, or investment needs of particular Eligible Retail Shareholders and does not constitute tax advice. The tax implications associated with subscribing for New Shares will vary depending on your particular circumstances. Neither the Issuer nor any of its officers or employees, nor its taxation or other advisers, accepts any liability or responsibility in respect of any statement concerning taxation consequences, or in respect of the taxation consequences.

This taxation summary does not constitute financial product advice as defined in the Corporations Act. This summary is confined to taxation issues and is only one of the matters you need to consider when making a decision about your investments.

You should consult your own professional tax adviser regarding the consequences of subscribing to New Shares to you in light of your particular circumstances.

The information provided below is not applicable to all Eligible Retail Shareholders. This tax summary deals only with the Australian taxation implications associated with subscribing for the New Shares if you:

- are a resident for Australian income tax purposes; and
- hold your Shares on capital account.

This summary will not apply to you if you:

- are not a resident for Australian income tax purposes;
- hold your Shares on 'revenue account' or as 'trading stock' (as defined in the *Income Tax Assessment Act 1997* (Cth) (**1997 Act**), such as share trading entities or entities who acquired their Shares for the purposes of resale at a profit);
- may be subject to special tax rules, such as partnerships, tax exempt organisations, insurance companies, non-complying superannuation funds, temporary residents, dealers in securities or Shareholders who change their tax residency while holding their Shares;

For personal use only

- acquired the Shares in respect of which the Entitlements are issued under any employee share scheme or where the New Shares are acquired pursuant to any employee share scheme, and where those shares remain subject to deferred taxation under Division 83A of the 1997 Act (other than where those Shares are no longer subject to any relevant employee share scheme rules); and/or
- are subject to the taxation of financial arrangement rules in Division 230 of the 1997 Act in relation to gains and losses on your Shares.

This summary is based on the provisions of the *Income Tax Assessment Act 1936* (Cth) and the 1997 Act as at the date of this Retail Offer Booklet. The summary does not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time unless otherwise specified. The laws are complex and subject to change periodically, as is their interpretation by the courts and the tax authorities. The summary also does not take into account tax legislation of any country other than Australia.

6.2 Issue of Entitlements

The issue of the Entitlements should not, of itself, result in any amount being included in your assessable income, on the basis that the Entitlements should satisfy the requirements in section 59-40 of the 1997 Act and should therefore be treated as non-assessable non-exempt income.

6.3 Exercise of Entitlements

You should not derive any assessable income, or make any capital gain or loss, if you take up (i.e. exercise) all or some of your Entitlements and you acquire New Shares.

The cost base (and reduced cost base) for capital gains tax (**CGT**) purposes of each New Share should include the Offer Price for those New Shares plus certain non-deductible incidental costs you incur in acquiring them.

For CGT purposes, the date that the New Shares should be treated as having been acquired is the date of exercising the Entitlement.

6.4 Entitlements not taken up

Any Entitlement not taken up under the Retail Entitlement Offer will lapse and the Eligible Retail Shareholder will not receive any consideration. In these circumstances, there should not be any tax implications for an Eligible Retail Shareholder from the lapse of all or some of their Entitlement.

6.5 Dividends on New Shares

Generally speaking, future dividends paid or other distributions made in respect of New Shares should be subject to the same tax issues as dividends paid or other distributions made on Existing Shares held in the same circumstances.

For Eligible Retail Shareholders to be eligible for a tax offset in relation to any franking credits attached to a dividend paid by the Issuer on the New Shares they will need to hold the New Shares at risk for at least 45 days, not counting the day of acquisition or disposal (referred to as the holding period rule). The holding period rule generally only needs to be satisfied once for the New Shares and

For personal use only

will begin to apply (in respect of the New Shares) the day after the day on which the Eligible Retail Shareholder acquires the New Shares. This rule does not apply if the Eligible Retail Shareholder is an individual whose total franking credit entitlement for the year of income in which the dividend is received does not exceed $5,000.

The Issuer may qualify as a listed investment company (**LIC**) under Australian taxation laws. However, it is expected that the Issuer will generally be considered to hold its investments on revenue account and, consequently, it is likely that the Issuer will generally not make capital gains. As a result, Eligible Retail Shareholders may not be able to obtain a deduction in relation to dividends attributable to LIC capital gains under the LIC regime.

6.6 Disposal of New Shares

A disposal of a New Share will trigger a CGT event A1.

Broadly, you will:

- make a 'capital gain' if the capital proceeds received from the disposal exceed the cost base of the New Share;
- make a 'capital loss' if the capital proceeds from the disposal are less than the reduced cost base of the New Share.

The cost base of New Shares is described above in **Section 6.3**.

Generally, Eligible Retail Shareholders who are individuals, trustees or complying superannuation entities that have held the New Shares for at least 12 months at the time of disposal (not including the date of acquisition or disposal) should be entitled to apply the applicable CGT discount or cost base indexation (as applicable) to reduce the capital gain (after offsetting any available capital losses and subject to certain integrity rules).

The applicable CGT discount is 50% for individuals and trusts, or 33⅓% for Australian complying superannuation entities. Under recent changes to the CGT regime, the 50% discount for individuals and trusts is only available for capital gains accruing before 1 July 2027; for capital gains accruing on or after 1 July 2027, individuals and trusts may only be entitled to apply cost base indexation. Australian complying superannuation entities continue to be entitled to the 33⅓% discount for all capital gains, irrespective of whether those gains accrue before or after 1 July 2027. Neither the CGT discount nor cost base indexation is available for companies. In addition, a minimum tax rate of 30% will apply to certain capital gains made by Australian resident individuals on or after 1 July 2027.

Based on the acquisition date of the New Shares (as described in **Section 6.3** above), in order to be eligible for the CGT discount or cost base indexation (as applicable) on the disposal of a New Share, the New Share must be held for at least 12 months after the date that you exercised your Entitlement.

As the rules relating to discount capital gains and cost base indexation for trusts are complex, the Issuer recommends that trustees seek their own independent advice on how the CGT discount and cost base indexation provisions will apply to them and the trusts' beneficiaries.

If you make a capital loss, you can only use that loss to offset capital gains from other sources; i.e. the capital loss cannot be used against assessable income on revenue account. However, if the capital loss cannot be used in a particular income year it can be carried forward to reduce capital

For personal use only

gains you derive in future income years. Specific capital loss recoupment rules apply to companies to restrict their ability to utilise capital losses in future years in some circumstances. Individuals and trusts may not apply cost base indexation in working out the amount of a capital loss.

6.7 Provision of TFN and/or ABN

The Issuer is required to deduct withholding tax from payments of dividends that are not 100% franked, at the rate specified in the *Taxation Administration Regulations 2017* (Cth) (currently 47%), and remit such amounts to the ATO, unless you have quoted a TFN or an ABN, or a relevant exemption applies (and has been notified to the Issuer).

You are able to provide your TFN, ABN or relevant exemption online with the Share Registry by logging at www.mpms.mufg.com. When providing your details online, you will be required to enter your SRN/HIN as shown on your Issuer Sponsored/CHESS statements and other personal details such as your postcode.

6.8 Other Australian Taxes

There should be no Australian GST payable by Eligible Retail Shareholders in respect of the issue or taking up of Entitlements or the acquisition of New Shares, pursuant to the Retail Entitlement Offer.

There should also be no stamp duty payable by Eligible Retail Shareholders on the acquisition of New Shares provided each Eligible Retail Shareholder, and any related persons, do not hold, as a result of such acquisition, 90% or more of the interests in the Issuer.

6.9 Additional New Shares

The explanations in this section in respect of New Shares also apply in the same way to the acquisition, holding and disposal of Additional New Shares.

About the Offer

As announced on Tuesday, 6 October 2026, the Company commenced an accelerated pro rata, non-renounceable entitlement offer of one (1) new fully paid ordinary share in the Company (**New Share**) for every two (2) fully paid ordinary shares held by eligible shareholders (the **Entitlement Offer**) at an offer price of A$1.76 per New Share (**Offer Price**). The Entitlement Offer and the Institutional Shortfall Offer and Retail Shortfall Offer (together, the **Shortfall Offer**) are together referred to as the **Offer**. The Offer is not underwritten.

The Entitlement Offer comprises an institutional component (**Institutional Entitlement Offer**) and the Retail Entitlement Offer. The Retail Entitlement Offer opens on Tuesday, 13 October 2026 and is made on the terms set out in the retail offer booklet (**Retail Offer Booklet**). The Entitlement Offer and Shortfall Offer are seeking to raise up to approximately A$482.7 million. Capitalised terms not otherwise defined in this letter have the same meaning as in the Retail Offer Booklet.

Eligible Retail Shareholders who take up their Entitlement in full may also apply for additional New Shares in excess of their Entitlement through the **Top-Up Facility**. Applications under the Top-Up Facility may be scaled back, and the allocation of any additional New Shares is at the sole discretion of the Company.

The Retail Shortfall Offer has attracted strong support from existing and new wholesale investors. Any New Shares not subscribed for under the Retail Entitlement Offer and Top-Up Facility may be allocated to Wholesale Investors under the Retail Shortfall Offer, at the sole discretion of the Company. There will be no general public offer of New Shares under the Shortfall Offer.

New Shares issued under the Offer will rank equally with existing shares, including with respect to entitlements to future dividends from their issue date. The Entitlement Offer is non-renounceable. This means Eligible Retail Shareholders who do not take up their Entitlement cannot transfer it and will not receive any value for the Entitlement that lapses.

The Company intends to invest the proceeds of the Offer in accordance with the strategy of its investment manager, L1 Capital Pty Ltd. The Board believes current market conditions provide attractive opportunities to deploy additional capital into the L1 Global Long Short Strategy. The Investment Manager will bear all costs associated with the Offer.

According to our records, you do not satisfy the criteria for an Eligible Retail Shareholder and are therefore an Ineligible Shareholder. You are not eligible to participate in the Retail Entitlement Offer and you will not be sent a copy of the Retail Offer Booklet.

- is eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

A shareholder who is not an Eligible Retail Shareholder will be an Ineligible Shareholder and is consequently unable to participate in the Retail Entitlement Offer.
